JUST A MINUTE FOLKS

Yes! The war is over but . . .

Not for the hundreds of boys still on lonely outposts where a USO show is the only form of diversion.

Not for our fighting heroes who need medical aid and hospitalization before they can return to civilian life.

Not for the millions of our loyal allies who were left homeless, in rags, bone - gaunt from starvation and sick in mind and body.

Not for the mothers and children whose husbands and fathers will not return for many months --- or never.

Not for the thousands of veterans who need counsel, personal adjustment and legal guidance to help them return to a normal life.

WILL WE TAKE CARE OF OUR OWN?

Cisco's answer to that question will determine whether or not this city continues to grow --- Whether or not it will be a good live town in the future!

Our Boys Are Coming Back!

They have finished the grim, dirty job of conquering two enemies and saving those Freedoms we prize and for which America fought. What they want is a chance to share those Freedoms with us --- to be good citizens with homes and families and secure employment.

Yet, many of these veterans cannot take the jobs that are offered them in Cisco because they cannot find housing for their families!

Do You Have Unused Living Space?

An Unused Garage Apartment? Surplus rooms in your residence that could conveniently be made into living quarters for a new Family? A rent house that could be made into a duplex or into apartments?

Why Not Put It to Good Use?

Each new family that we take care of adds to Cisco's population and resources. If you will convert this unused space into LIVING SPACE it will help tide over this housing emergency until new homes can be built.
