Just what is a Bargain?

REMEMBER THIS, IT TAKES MORE THAN PRICE TO MAKE VALUE !

In these days of high prices when we read so much of BARGAINS-BARGAINS AND MORE BAR-GAINS-It might be well to consider just what comprises a good value and a good bargain. We believe a bargain to be an unusual offering brought about by an unusual event or condition that actually forces. a reduction in price but not a reduction of quality. Under these circumstances quality can be bought at secrifice prices. Because we are faced with a tremendous over stock problem, with a limited time in which to sell-you are given a rare opportunity to buy real genuine money saving bargains on high grade department store merchandise.
