Nine Miners Found Alive; Fate 22 Others Unknown

By United Press

PINEVILLE, Ky., Dec. 28.—Rescue workers inside the No. 1 mine of the Kentucky Straight Creek Coal Company flashed back word today that nine of the miners trapped in the mine by an explosion Wednesday morning had been found alive.

The company immediately commandeered all telephones to call ambulances to the scene and have the highway from here cleared of traffic to speed the men to hospitals.

No report came from the shaft on the condition of the men or whether the other 22 had been found dead or alive.

The development came after heroic rescue crews had driven through thousands of feet of slate, water and poisonous gases to "bring these men out" on orders of State Mine Inspector Harry Thomas.

The announcement set off a storm of hysterical cheers from the men, women and children who had huddled around the smoky tipples since the explosion closed the shaft, Wednesday, 8:33 a. m.

For the last 24 hours they had been there merely for the solace it gave them to be near the spot where their loved ones had passed to what was believed to have been their doom.

It seemed incredible that the miners could have survived the blast that tore down heavy timbers for hundreds of yards and set coal seams afire a thousand feet away.

Only mine Operator W. E. Lewis had maintained his belief that the men — most of them veterans of years in the galleries — could barricade themselves off and protect themselves from the gases that filled the tunnel after the blast.

CIO Rejects General Electric's Wage Hike Offer

By United Press

General Motors withdrew today from hearings before President Truman's fact-finding panel, as government labor officials tried to avert a threatened walkout of 200,000 electrical workers.

The company said it would not participate in the panel's efforts to settle the GM strike "unless and until the panel should decide that ability to pay is not a proper factor for its consideration."

CIO electrical workers meanwhile rejected General Electric's proposal of a 10 per cent wage increase for its 100,000 employees.

Although it refused to take part in future panel hearings, General Motors agreed to continue negotiations with the CIO United Auto Workers on "all pertinent issues."

UNO's Permanent Home May Be FDR Hyde Park Estate

LONDON, Dec. 28. (U.P.)—The permanent headquarters of the United Nations organization will be located in either the New York or Boston area, it was announced officially today.

The UNO interim site committee voted at a secret meeting to eliminate all other proposed headquarters locations in the north-eastern United States and limit its final selection to the general area of New York and Boston.

The late President Roosevelt's Hyde Park estate in New York state is said to be looked upon most favorably.

President Landed in D. C. at 1:30 This Afternoon

WASHINGTON, Dec. 28. (U.P.)—President Truman returned from his Christmas holiday in Missouri today to plunge into an accumulation of tasks which will be climaxed by a radio speech to the nation Jan. 3.

The president's four engine transport, the "Scared Cow," landed through murky weather at 1:30 p. m., Cisco time.

13 EMPTIES DERAILED

FT. WORTH, Dec. 28.—Between 12 and 15 empty freight cars jumped the Texas Pacific railway tracks about a mile east of Handley early today temporarily tying up traffic on the two-track stretch of road and delaying the arrival of a passenger train in Fort Worth by 30 minutes.

The astrolabe, used to tell time in the world, was invented by the Greeks 2,000 years ago. It is believed to be the oldest scientific instrument.

A FAMILIAR FACE IN VIENNA—No, it isn't Der Fuehrer (remember him?) although he looks enough like him to fool a lot of people. The gent behind the duster is a Viennese policeman who is helping out the Allies. He is hooking black marketeers for arrest in a raid at the Nashmarkt in Vienna conducted by Allied and civilian police. (Signal Corps Photo from Acme).

TRIED AND TESTED—Horse-drawn snow plows went to work in Garden City, N.Y., as the winter's heaviest snow storm hit the city. Emil Mehrning of Elmont, N.Y., is aboard this one.

OPA to Keep Eye on Tire Sales For Some Time

Removal of tire rationing on January 1 has no bearing whatever on price control over tires and other rubber goods, says the Eastland price board. Continuing the board spokesman said: "Tires are still short, and it is obvious that with so many people needing and trying to get scarce tires, there will be a tendency to bid prices up."

"This bidding up of prices on scarce commodities is the stuff of which inflation is made. Ceiling prices on all goods must be adhered to until the supply becomes plentiful enough to remove the threat of inflation. For the benefit of former A gasoline book holders who have not been able to buy tires since the war started, the top legal price for any 600-16 four-ply passenger tire is \$16.05, and that for a 650 x 16 four ply tire is \$19.50.

"Consumers should keep in mind that all dealers are required to supply a sales ticket or an invoice showing the size of the tires and the price per unit. Where doubt exists as to tire costs the sales receipt may be submitted to local OPA boards for examination."

FINAL GAME SATURDAY

Thirty-two Texas radio stations will carry the play-by-play report of the final game of the 1945 Texas high school football championship series, Saturday afternoon, December 29, when the Waco Tigers meet the Highland Park Scotties at Dallas in Ownby Oval at Dallas. Broadcasting will start at 2:15 o'clock; the kick-off is scheduled for 2:30 p. m.

The Netherlands is the most densely populated country in the world. Figures for 1944 show 712.3 persons per square mile, compared with 45.5 per square mile for the United States.

Lt. Donovan Athletic Recreation Officer in Tokyo

1ST CAVALRY DIVISION, Tokyo.—Lt. Robert H. Donovan, son of Mr. and Mrs. Vivian Donovan, Cisco, Texas, is now serving as athletic and recreation officer with the 12th regiment of the Eighth army 1st cavalry division.

After graduating from Cisco high school, Donovan attended Texas A&M college for three years. At present he is taking part in the army education program by teaching animal husbandry at the 1st cavalry division's "G. I. College of Knowledge."

Lieutenant Donovan entered the army November 17, 1942, and received basic training at Camp Roberts, Calif. He went to officer's candidate school at Fort Knox, Ky., and was commissioned on July 22, 1944. The Texan sailed for overseas duty August 1, 1945, after being stationed at Camp Bowie, Texas.

22 HUTMENTS ERECTED

AUSTIN, Dec. 28.—University of Texas officials announced that 22 of the 150 hutments purchased to house veterans have been erected. The hutments are expected to furnish housing space for 400 to 500 veterans and their families. This was to meet needs anticipated for a further increase in enrollment in March.

The Netherlands is the most densely populated country in the world. Figures for 1944 show 712.3 persons per square mile, compared with 45.5 per square mile for the United States.

EASTLAND CO. FARMERS TO GET \$71,225 FOR CONSERVATION WORK DURING 1946

By EMMETT E. POWELL, Secretary Eastland County ACA.

There has been allocated to Eastland county \$71,225 to be used as assistance to farmers in carrying out needed conservation practices during the 1946 program year. The Eastland county ACA committee, assisted by members of the community committees and other agricultural workers, have selected the practices considered as most needed in this county, for which assistance will be available. The practices selected are as follows:

Construction of standard and spreader terraces.

Construction of diversion terraces.

Construction of earthen dams or reservoirs.

Strip cropping on the contour.

Strip cropping on the contour.

Cover-crop of winter legumes seeded in fall of 1946.

Cover-crop of small grains (except wheat) seeded in fall of 1945, and the growth not harvested for grain or hay.

Growing green manure or cover crops.

Application of phosphate other than raw rock phosphate.

Control of destructive plants on non-crop pasture and range land.

Since we have been allotted a certain amount of funds it is necessary that an accurate account be maintained throughout the program year as to the amount being earned; therefore, it is necessary for each producer that expects assistance in carrying out one of these selected practices to secure prior approval from county ACA committee. When prior approval is issued the amount to be earned is charged against this county allotment; therefore, when the county allotment is obligated by prior approval, no additional practices can be approved.

The county committee recently elected by the farmers of Eastland county to administer the program during the 1946 program year are:

Humble to Broadcast Cotton and Oil Bowl Games

Humble Oil and Refining company continues to bring Southwest football fans the most important of the nation's football battles with the broadcast of the Cotton and Oil Bowl games on New Year's Day.

The Cotton Bowl game will be broadcast from Dallas, where Texas U. will meet Missouri U. Broadcast time will be 1 p. m., with Kern Tips working the play-by-play and Bill Michaels adding color highlights. This broadcast can be heard over eight stations.

The Oil Bowl game — Tulsa U. vs. Georgia U. — will be broadcast from Houston. This tilt will take the air at 1:15 p. m. Ves Box and Jerry Doggett handling the play-by-play and color respectively. This game may be heard over nine stations.

Texas State Will Be 100 Years Old Come Saturday

AUSTIN, Dec. 28.—Texas will finish the hardest part Saturday. The first 100 years of statehood will be over, and the big boy of the family (one-fifth of the United States' area at first, 1-11th now) will celebrate quietly, in keeping with the event.

There will be special 3-cent stamps put on sale in Austin, where Governor Stevenson will buy the first sheet to use for a batch of invitations.

He's going to invite governors of the other states and territories to come to Austin Feb. 19 to witness the re-enactment of the Texas acceptance ceremony.

CANNED SUNSHINE—Chubby Rikki Rodzinski, son of the New York Philharmonic conductor, smiles as he surveys stacks of canned milk which will soon be on their way to hungry children in other lands. Milk was donated to the Victory Collection of Canned Food for overseas relief by the Philharmonic Women's Club of New York.

Ranger-Cisco Basketball Team to Play Jackson, Former Seabee, Entered Rotarians

Resuming pre-conference play during the Christmas holiday season, the Cisco Lobos will entertain the Ranger Bulldogs in a basketball game at the Lobo gymnasium this evening at 7:30. Coach Buck Overall announced.

The game will not count in the conference standings, since the conference season does not open until January 4, when the Lobos go to Weatherford to play the Kangaroos.

Admission for the game tonight will be the usual 35 and 20 cents.

Nine Lives Known to Have Been Lost in Ship Explosion

TEXAS CITY, Dec. 28. (U.P.)—Termed by its captain the worst tanker disaster in Swedish history, the explosion which yesterday ripped through the tanker "Sveaborg" now has claimed nine lives.

The only body recovered so far was that of Oscar Ellis Fransson, 32, a seaman from Norrkoping, Sweden, who earlier had been reported safe in jail.

LOST — Pair glasses in blue case with A. S. Fonville engraved on case; reward. Return to 1110 west Seventh street.

E. L. Jackson of the West Texas Utilities company, recently returned from war time duty with the Seabees in the Pacific, was guest speaker at the Cisco Rotary club luncheon Thursday noon.

Mr. Jackson brought with him to the club a display of articles which he made from various tropic hardwoods in the war zone, including teak and Philippine ebony.

He discussed phases of Seabee construction activity on the islands in the area, such as the building of airstrips from coral, which in instances was blasted from the beaches at low tide and hauled inland, and told of life and living conditions encountered in the Philippines. The destruction visited upon Manila by the Japs, the primitive methods of transportation, agriculture and life in general among Philippine natives, and the shockingly unsanitary condition which the natives of the Southwest Pacific accept as normal were also discussed by the speaker.

Miss Gloria Graham, violinist, recently returned from an extensive USO tour of the same zone, was a guest of her father, Dr. E. L. Graham, for the luncheon.

With flying speed of three miles per minute deliveries are now made by air express overnight up to 2,500 miles, saving 75 per cent of the time consumed by the fastest means of surface transportation.

The city commission Tuesday night set a special meeting with dairymen and cafe operators at Cisco for next Monday evening at 7:30 for a hearing on proposed adoption of a standard milk ordinance for Cisco. The hearing will take place at the city hall. J. T. Elliott, of the CWA sanitation department, appeared before the commission to explain that the CWA will supply an inspector without cost to the city should the

commission pass such an ordinance. The commission elected Dr. W. P. Lee to a second two-year term as city health officer. Satisfaction with the services that Dr. Lee gave during the past two years was unanimously expressed by the commission. Mayor Berry read a letter from Charles P. Bullard, chairman of the Cisco Bondholders Protective committee, New York, refusing the city's most recent offer of a settlement of its bonded debt and reaffirming the committee's determination to accept no settlement not based upon the committee's proffered plan which called for a refund of the debt on a 50 per cent basis with term bonds bearing a graduated rate of interest.

TO A WOMAN IN HER FIFTIES. THE youthful loveliness she once possessed Has gone forever now, and given place To a maturer charm and stater grace: The autumn dawn, when beauty at its best Becomes the inexpressible expressed. The kindly years conspired to erase The vain and frivolous and leave her face As tranquil as a woodland pool at rest. She is a white rose, mellow with perfume; She is the high note of a bugle call; She is the ripening corn the breezes stir; She is a tall magnolia in full bloom. The pity is, no nower can forestall The hand of winter hovering in over head; — Whitney Montgomery in Kaleidograph.

Amazing Discovery in a Hearing Aid

A big improvement has been made in a hearing aid now welcomed by thousands. It is a new hearing aid that does not require separate battery pack, battery wire, battery case or garment to bulge or weigh you down. So small it fits the palm of the hand. The tone is natural, noiseless, clear and powerful. So made that you can adjust it yourself to suit your hearing as your hearing changes. The makers of Beltone, Dept. 2468, 1450 W. 19th Street, Chicago 8, Ill., are so proud of their achievement that they will gladly send free descriptive booklet and explain how you may get a full demonstration of this remarkable hearing device in your own home without risking a penny. Write them today.

National 4-H Dairy Production Winners

Three of six national 4-H dairy production winners are shown here, with their favorite animal and preferred liquid refreshment—milk. They are (left to right) Bill Van Cleave, Chapel Hill, Tenn.; James Galbreath, Street, Md.; and Earl Edwards, Jr., Floydada, Tex. They received college scholarships presented by the Kraft Foods Company. Bill started out eight years ago with one heifer, now has three cows, four heifers, two calves and a herd sire. Total income from dairy products is \$5,454, including \$803 in cash prizes. James has raised 18 dairy animals in eight years, won five junior, one senior and four grand championship awards; has grossed \$5,425, including \$550 in cash awards. Earl is milking a herd of 21 purebred Jerseys, with gross earnings of \$7,000 of which \$267 was prize money. He won grand championship and reserve champion in a county dairy show last year. He is secretary-treasurer of the Texas 4-H organization.

Learning It The Hard Way---

... is not always a virtue, neither is it advisable. Letting Johnnie do it may be just as bad, but not so personal. The man who buys a home or other real estate without first getting an abstract is a good example of learning a lesson the hard way. He will learn better later, but too late for his own good. Anything that is worth buying is worth the time it takes to find out what it is worth.

Try Making Cough Syrup at Home. Quick Relief

Saves You Big Dollars. And It's So Easy! No Cooking.

No matter what you usually use for coughs due to colds, you'll be more than surprised when you make up this simple home mixture and give it a trial. You'll wonder why you never used it before. It loosens the phlegm, soothes the irritated membranes, eases the soreness, makes breathing easier, and lets you sleep. Make a syrup by stirring 2 cups of granulated sugar and one cup of water a few moments, until dissolved. No cooking is needed—it's no trouble at all. Or you can use corn syrup or liquid honey, if desired. Get from your druggist 2½ ounces.

of Pinex. Pour this into a pint bottle and fill up with your syrup. This makes a full pint—a family supply—and gives you about four times as much for your money. It tastes fine and never spoils. Children love it. And for quick action, you've never seen its superior. It loosens the phlegm, soothes the irritated membranes, eases the soreness, makes breathing easier, and lets you sleep. Make a syrup by stirring 2 cups of granulated sugar and one cup of water a few moments, until dissolved. No cooking is needed—it's no trouble at all. Or you can use corn syrup or liquid honey, if desired. Get from your druggist 2½ ounces.

GOSH, ONLY A PENNY!

Once a penny was a fortune to a six-year-old. It could buy an all-day sucker, yards of licorice shoestrings, or a syrup-smothered scoop of shaved ice. A penny would pay for marbles, a tin whistle, or even a little lead soldier. It was the ceiling price for a new top-string.

Nowadays, a penny won't buy much for a little boy. But it purchases a lot of labor-saving electricity.

Sonny may sniff at a penny for running an errand — yet that same penny will (at average household rates) do any of these jobs —

- RUN A SEWING MACHINE ALL AFTERNOON
- KEEP A REFRIGERATOR COLD FOR 4 HOURS
- VACUUM CLEAN 10 LARGE RUGS
- LIGHT A 50-WATT BULB FOR 6 HOURS
- RUN THE WASHER FOR 6 TUBS OF CLOTHES
- GIVE YOU THE CORRECT TIME FOR 7 DAYS
- KEEP A RADIO PLAYING FOR 3 HOURS

Yes, a penny is still big money—electrically. Actually, the average family gets just about twice as much electricity for its money as it did 15 years ago. Keeping electric service friendly, dependable and cheap —

even all through the war — is a tribute to the careful business management of your electric company, and to the hard work and experience of all the men and women in it.
