HUNDREDS OF TONS of Kansas wheat, en route to eastern markets and some of it eventually destined for the starving people in war-devastated nations, were scattered along the Missouri Pacific right-of-way when part of a train left the rails near El Dorado, Kans. Thirteen cars were upset, dumping their contents in the surrounding area. Aerial view shows a wrecking crew at work clearing the line.

So-called Fact-Finding Panel to Report Next Week

WASHINGTON, Dec. 29. (U.P.)—President Truman's fact-finding panel in the General Motors strike finished hearing the union's side of the argument today and promised to make a speedy recommendation as possible.

Panel Chairman Lloyd K. Garrison doubted, however, that it could make its report by next Thursday, as requested by Mr. Truman.

The panel had about completed its open hearings. It arranged to receive this afternoon a department of commerce study — which was issued in October — contending that the automobile industry could pay a 15 percent increase without a price increase on 1946 production.

General Motors did not present evidence to the panel. It withdrew from the hearings yesterday because the panel insisted on considering "ability to pay" wage increases.

During today's presentation by the United Automobile Workers—CIO—Garrison asked whether a prolonged strike would not impair the company's ability to pay the union's 30 per cent wage increase in 1946, but received no direct answer.

BATAAN VET KILLED.

NEW YORK, Dec. 29. — Capt. Eugene Dale, 27-year-old survivor of the Bataan death march, died at 8:37 a. m. Saturday at Roosevelt Hospital as a result of bullet wounds in the head, chest and abdomen received in a melee over the love of an attractive model. Another war veteran, estranged husband of the model, is being held by police as the slayer.

MAY REASON NOW.

WASHINGTON, Dec. 29. — Some 600 union petitions for strike votes were left stranded Saturday by lack of funds for the National Labor Relations Board to conduct the rallying.

36 PERSONS KILLED.

PUEBLO, Mexico, Dec. 29. — Thirty-six persons were killed and 29 were injured in a head-on collision of two passenger buses. The accident occurred when the two buses, traveling in opposite directions, collided, overturned and rolled down a steep embankment into a gorge.

MODREN NOVELIST DEAD.

HOLLYWOOD, Dec. 29. — Theodore Dreiser, one of America's leading modern novelists, is dead. A heart attack Friday night claimed the 74-year-old writer, an outstanding realist who came in with the present century and rose to literary eminence through critical derision after abandoning a newspaper career, which he claimed was "too brutal."

BASKETBALL TOURNAMENT.

RANGER, Dec. 29. — Coach Jimmy Marshall is receiving a large number of entries for the annual high school basketball tournament which will begin January 10 at 7 p. m., running through January 12. Appropriate awards will be given to schools winning first and second places in both boys' and girls' divisions.

CIVIL WAR VET DIES.

DALLAS, Dec. 29. — Services were held today for Robert F. Presley, 98, believed to be the last surviving member of Dallas Chapter No. 6 of the Confederate Veterans.

DEMAND GROWS THAT PARENTS TAKE FIRMER HAND IN SHAPING LIVES SONS, DAUGHTERS

AUSTIN, Dec. 29. (U.P.) — There are no new theories in how to handle juvenile delinquency, which is increasing along with other crime, says State Public Safety Director Homer Garrison, Jr. Mr. Garrison has just returned from a meeting of the International Police Chiefs' association.

"It all gets back to parents," Garrison says. "More parental supervision is needed. The problem of juvenile delinquency must be considered from the standpoint of the home for the purpose of correction."

Many homes have been disrupted because of the war. There has been a relaxation of supervision over children and youngsters. As Garrison explains one phase: "Used to be a kid was given an allowance of two-bits a week. Now more parents have more money. They give the children more money. Some have eliminated an allowance all together, just give the kid money when he asks."

But what about the parents and children now that a lot of the fat-salaried defense jobs have been discontinued? "There's an angle to that side, and that's the reason we're in for more delinquency," Garrison asserts. "When you change this standard of high living to which they've suddenly become accustomed, they're going to seek to restore it in one way or another."

With the upward trend of crime, the problem is not with the hardened criminals. The predominant age of arrests in all crimes is 17 years, Garrison says.

Even though parents occasionally correct their children, this doesn't mean that they are properly supervising them.

This is where there is a great need in education of the mothers and fathers. And only through the education program can the children be guided in the right channels, Garrison says.

There have been many, many organizations interested in halting the surge of juvenile delinquency. The trouble is that there is not a general, coordinated project.

In some cities, however, the interested organizations have formed a central council to combat delinquency. This has proved slightly successful, but it needs more attention and more extensive outlets to parents. State School Supt. L. A. Woods believes that 12-month instead of nine-month school sessions would do much to reduce the national bill of \$14,000,000,000 a year which juvenile delinquency costs.

But, good as that plan might prove to be, it would still lead away from the thought of experts that what is needed most is "more direct supervision of children by parents."

In short, parents must be held responsible for the acts of their children, because juvenile delinquency is parental delinquency, Garrison added.

Army Recruiting Setup, Eastland, Getting Results

The United States army, which recently established a recruiting station at Eastland, is directing a great drive for the enlistment of young men, as well as the re-enlistment of men who served in the recent war. Many attractive inducements are being offered and the response throughout the country is said to be excellent.

The recruiting station at Eastland is in charge of Lt. Jay Meahaffey, whose home is Des Moines, Ia. He has three men under him at present and they have so far done a good job in presenting the educational and other advantages of the army in peace times.

One of Lieutenant Meahaffey's men, Corp. Lawrence Joseph, 21, whose home is Chicago, has made an enviable record recently in the sale of sponsored army recruiting advertising. The young man, though a perfect stranger to the business men of this area, has already signed up more than 300 column inches in Cisco, Ranger, Eastland and Rising Star.

Corporal Joseph entered the service in April, 1943, and served 20 months overseas with an engineering corps. After the Battle of the Bulge he was transferred to the Eighth infantry division and finished the war as a rifleman. He has a combat infantry badge, ETO ribbon, with two battle stars for the battle of the Rhine and the battle of Central Germany; also the American theater ribbon and two overseas bars. Joseph is a high school graduate and worked two years as a tool designer and draftsman before he entered the service. He plans to enter the University of Illinois after his discharge.

3 Carbarys Will Open Auto Repair Business Jan. 2

H. A. Carbaray and his two sons, Clarence and Norman Carbaray, will open an automotive repair shop at Eighth and D avenue on January 2. All three are expert mechanics and they will render complete service to cars of all makes.

The Carbarays are long-time residents of Cisco and well known. The young men, both recently discharged from army service, were reared and schooled in Cisco. Clarence Carbaray was in Europe with the Eighth air forces and Norman Carbaray was stationed at Waco army air field, where he was known as a "link trailer specialist."

Cisco Girl, Overseas Six Months, Flew 18,000 Miles

Miss Gloria Graham, who has been spending the holidays here with her parents, Dr. and Mrs. E. L. Graham and her many Cisco friends, plans to leave about January 1 to resume her studies at Juilliard School of Music, New York City, where she is majoring in violin. She has been a student at Juilliard since 1943. Two other Cisco girls, Misses Rose Ann Woods and Bettie Slicker, also at home from Juilliards for Christmas, will accompany Miss Graham to New York, the party probably making the trip by plane.

Miss Graham arrived in San Francisco by plane from Honolulu on December 20, after completing a mission with USO that started May 25.

The Cisco girl was one of four girls from Juilliard School of Music who volunteered their services as USO entertainers in army, navy and marine hospitals scattered throughout the Pacific war zone.

During the six months campaign the young women appeared at hospitals in Oahu, Saipan, Iwo Jima, Tinian, Guam, Peleliu, Ulithi, Philippine Islands, Okinawa and Japan proper, including the city of Tokyo. Musical instruments used by the four entertainers included two violins, a viola and a cello.

The distance covered by the party while overseas is estimated by Miss Graham to have been a little more than 18,000 miles — all by plane.

It was a grueling mission and no mistake, but now at home and rested a bit, the four true-blue American girls will always remember with satisfaction that they were able to cheer and brighten the hospital hours of thousands of fellow Americans who had been wounded and maimed in the defense of this country and world freedom.

Union Says Families of Mine Victims Be Helpless

WASHINGTON, Dec. 29. (U.P.)—The United Mine Workers today accused the Kentucky Straight Creek Coal Co. of failing to take proper safety precautions in its Pineville, Ky., mine where 31 men were trapped by an explosion Wednesday.

To back this charge, the union cited an August inspection report of the U. S. Bureau of Mines. At the same time it released a statement calling the coal camp, where the miners live a "deplorable, ram-shackle place." Union officials at the mine were quoted as saying that dependents of the trapped men included 30 wives and 153 children.

The union said the company was exempt from the Kentucky compensation law and that the victims' dependents would receive no compensation or benefits.

Government Will Exert Itself to Avoid Steel Strike

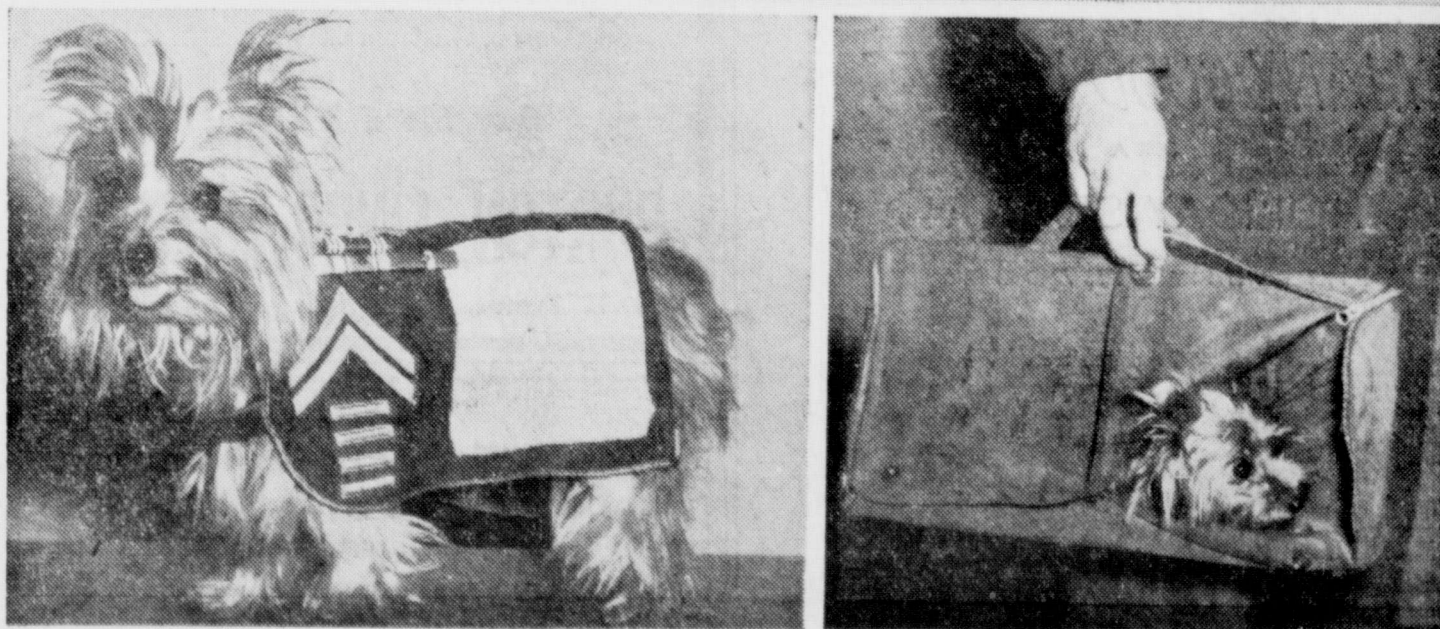

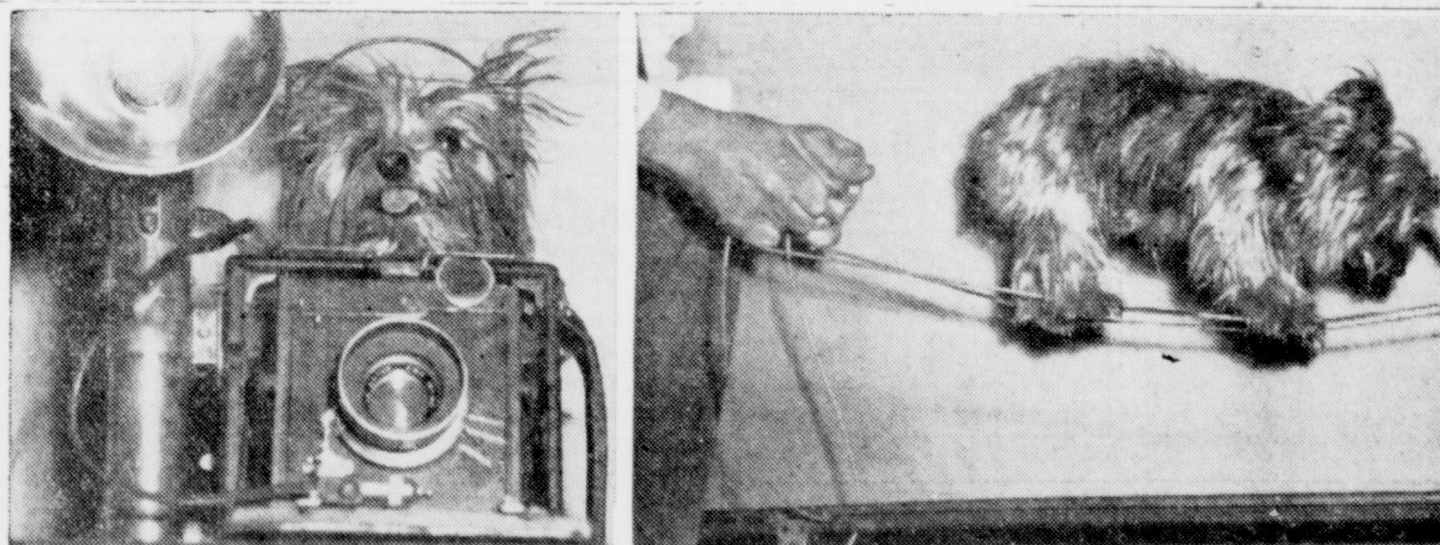

WASHINGTON, Dec. 29. (U.P.)—Hope rose in government circles today that the steel strike threatened for Jan. 14 may be averted. Civilian Production Administrator John D. Small said that "we would be in a mess all over the country" if there should be a steel strike.

The Department of Commerce is said to have completed a survey showing that higher steel prices are necessary because of higher production costs.

An award of higher prices might break the current impasse between the U. S. Steel Corp., industry leader, and the United Steelworkers (CIO) and set a pattern for the entire industry. The company has refused to consider wage raises without a price boost. The union has set Jan. 14 for a nationwide steel strike unless its \$2-a-day wage increase demands on the industry are met.

TWO MYSTERY DEATHS.

HOUSTON, Dec. 29. — Police are investigating the mysterious deaths of Charles T. Cogburn, former funeral home employe, and Mrs. E. W. McCauley, 28, hostess for the same funeral home. Cogburn's body was found about 7 a. m. Saturday lying on the sidewalk, and while police were at the funeral home pursuing their investigation, detectives discovered Mrs. McCauley's body in Cogburn's parked car.

MEET SMOKY—She's that cute seven-inch-high, 14-inch-long Yorkshire terrier. Found in a New Guinea foxhole by Corp. William Wynne, 23, of Cleveland, O., Smoky was taught a lot of tricks—to jump through hoops, play dead, waltz and walk tight ropes. She has survived 150 air raids; has accompanied Yank fliers on 12 air-sea rescue missions; and has entertained hundreds of wounded servicemen in Pacific hospitals.

Top left, the versatile canine turns the tables on the photographer as she climbs behind the camera for a lensman's look at the world. One of the tricks which captivated servicemen is Smoky's tight rope act, top right. A real overseas vet, she sports a snazzy overseas blanket with her service record on it, bottom left. She travels in Corporal Wynne's oxygen mask carrier, bottom right, and made it all the way from Korea that way.

MORE THAN A TREE.

A CHRISTMAS tree is more than just a tree. More than boughs that blossom buds of light. And bear strange, glittering fruit; in it we see The times of our togetherness hung bright Upon one stem — a token of each year Luminous on a branch in some small thing. Till days of distance suddenly come clear. And voices ring out with remembering. Candles light behind our eyes to find An old year on each bough — the small, tin bird, Tail plucked by brother, scarlet beads designed. By sis at 7; here the forgotten word Spoken again, the hand that reaches hand. Veil after veil, land to enchanted land! —Isabelle Bryans Longfellow in the Rotarian.
