Steel Strike Already Felt By Many Allied Industries

Wm. W. Blanton of Albany is Candidate for Congress

Snyder Worrying About the Houses We Already Have

Judge William W. Blanton of Albany, county judge of Callahan county and son of former congressman Thomas L. Blanton, has announced for congress from the 17th district and will later make an active canvass of the district he states in a letter to the Daily Press.

Judge Blanton was reelected county judge of Callahan county

WM. W. BLANTON.

WASHINGTON, Jan. 22.—Reconversion Director John W. Snyder today urged that an existing federal agency be given power to control housing prices.

Snyder advocated price controls on the purchase and sale of finished houses "to guard against inflation." He also said "we must provide for priorities in the use of a substantial portion of the available building materials," to insure "construction of moderately priced homes."

Senator Says Majority of People Don't Want FEPC

WASHINGTON, Jan. 22.—Sen. Richard B. Russell, D., Ga., told the senate today that the majority of Americans oppose a permanent fair employment practices commission.

Continuing the Southern filibuster against the FEPC bill, Russell cited a public opinion poll which he said showed 44 per cent against the bill and 43 per cent for it.

Under these circumstances, Russell said, the effort to pass the measure is an attempt to commit a "legislative lynching" against Southern Democrats.

Many Hear Again as the Result of New Operation

DALLAS, Tex., Jan. 22.—Fifty men and women of the Southwest, shut for years into the lonely world of deafness, are being restored to the magic world of sound through the efforts of a Dallas surgeon on the staff of Baylor University Hospital and the clinical faculty of Southwestern Medical College, Lawrence Payne, hospital administrator, disclosed Monday.

The surgeon, in the medical tradition, declined to be identified.

The daring, delicate, new operation has been performed by the surgeon at Baylor since last September, with favorable results. Functional hearing, independent of mechanical hearing devices, has been restored and the patients are now able to listen to the voices of relatives and friends, to music, the clatter of streetcars and other everyday sounds which had been denied them for years.

A 30-year-old West Texas woman, who had been progressively hard of hearing since she was 15, could hardly believe it true when, upon completion of the operation, she heard the surgeon speak to her. She begged him to hurry the post-operative treatment so that she might return home in time for Christmas. The only Christmas present she wanted, she said, was to hear the voice of her 2-year-old baby for the first time. This present was received.

The new surgical miracle, known as the fenestration operation, was perfected in the East and is now being performed by only a few surgeons in the country. The Dallas ear specialist is the first to bring it to Texas, having gone East last summer to study under Dr. Julius Lempert, the New York specialist who developed it.

ACHESON DEFENDS RUSSIA.

WASHINGTON, Jan. 22.—Acting Secretary of State Dean Acheson said today that the Big Three agreed secretly at Yalta, while the war was still going on, that Russia should be permitted to occupy the Kuriles. But Soviet possession of the once-Japanese Islands is "temporary" and for occupational purposes only, he said.

By United Press
PITTSBURGH, Pa., Jan. 22.—The nationwide steel strike was beginning to be felt in Allied industries today and President Benjamin Fairless of the U. S. Steel Corp., said the responsibility rests with the striking CIO United Workers.

As the strike caused furloughing of workers in coal mines, railroads, river barge lines and other allied industries, Fairless said there were no new developments and he had received no new information from Washington.

He did not comment on a charge by Philip Murray, steelworkers president, that big business sought "unconditional surrender" from the government and public.

Two Cents Apart.

DETROIT, Jan. 22.—The CIO auto workers, carrying out their threat to intensify their protracted strike against General Motors, announced today that all tool and die work on G-M orders will cease next Monday.

Ford Motor Company and UAW negotiators ended a 75-minute session today with no statement except that the break meeting-a-day pace would be maintained.

The union and the company retained their stands on the wage question — two cents apart from an agreement.

General Motors meanwhile resumed its court campaign against illegal picketing.

Against U.S. Seizure

CHICAGO, Jan. 22.—Lewis J. Clark, president of the CIO Packinghouse Workers, charged today that federal seizure of the strike-bound meat packing industry, as hinted by the White House, would be playing into the packers hands.

House Committee Thinks More Vet Hospitals Needed

WASH., Jan. 22.—The House appropriations committee today ordered its investigating staff to look into the possibilities of using more army and navy hospitals for veterans.

Committee members said the investigation was not intended as an implied criticism of Gen. Omar N. Bradley, veterans administrator, who has rejected wholesale transfer of army and navy hospitals to the veterans administration.

MEXICANS RUN WILD.

MEXICO CITY, Jan. 22.—Beleagued police fired on a political crowd Monday night and killed one man and wounded two others in Ciudad Victoria, capital of Tamaulipas, after demonstrators had sacked the police station and burned police records.

HILLMAN IS PLEASED.

NEW YORK, Jan. 22.—Russia-born Sidney Hillman, chairman of the CIO Political Action Committee, sent President Truman a telegram last night congratulating him on his labor program and his efforts to avert the nationwide steel strike.

SENATE MIXES IN.

AUSTIN, Jan. 22.—Calling the Rapido river crossing a "murderous blunder" the Texas senate has adopted a resolution requesting congress to investigate the disaster which cost the lives of many Texans.

BULL BROUGHT \$1,200.

STEPHENVILLE, Jan. 22.—The 37 females in the annual Mid-Texas Hereford Association auction here sold for an average of \$294, and the 28 bulls averaged \$359. In the show that was held before the auction, Prince Domino 14th was the champion bull. The animal topped the bull division of the sale when he sold for \$1,200 to F. B. Shannon, who was the major buyer for the day.

Firestone, Cisco Lumber Were Tenpin Winners

Firestone Tire took three straight games from West Texas Utilities and Cisco Lumber company sailed away two of its three sets with Gardenhire Petroleum at the bowling alleys last night.

The Firestone victory checked the rapid advance of the Utilities team and gave better balance to the tournament race.

Lee McDonald and C. A. Roop were three-game high men for the evening, the former with 547 and the latter with 505.

Tonight's schedule: Cisco Gas Co. vs. Humbletown Pipe Line; Collins Hardware vs. Nance Motor Co.

In a foursome following the league contests, Dr. C. E. Paul bowled 265 in a single game. Some weeks ago Charles J. Kleiner rolled 266 in a single game, these two scores being high for local players since the Cisco alleys opened about two years ago.

Six Hundred Social Workers to Assist Veterans

Russians Claim U.S. is Back of Korean Trouble

WASHINGTON, Jan. 22.—Six hundred social workers are being recruited by the Veterans administration in a campaign to expand its staff from 250 to 850.

An announcement today by Irene Grant, head of the staff, said the salaries have been increased "to encourage men to apply."

The jobs will pay from \$2,980 for the lowest grade up to \$4,300 for the top grade, at 40 hours a week. For a 48 hour week the top grade pays \$5,092.

The workers will help physicians by counseling war veteran patients on their personal and family problems and gaining other information which doctors find essential for rapid recovery from some types of illnesses.

To qualify an applicant must have completed at least one year in an accredited school of social work and must have from one to four years of experience.

MOSCOW, Jan. 22.—The official Soviet news agency Tass today accused the United States military command in Southern Korea in inspiring "reactionary" protests against the Moscow conference of foreign ministers.

In a dispatch from Heijo, Korea, Tass assailed the "reactionary press" of southern Korea for allegedly carrying on an anti-Soviet propaganda campaign and for attacking the decision of the United States, Russia and Great Britain to set up a five-year trusteeship in Korea.

The dispatch then said: "Here the behavior of the American command in southern Korea astonishes one. It has assumed a position of inspiring reactionary demonstrations against the decisions of the Moscow conference of foreign ministers in which, as is known, the government of the United States participated."

Guy Kemper, Marine, is Dead the Government Says

First Lt. Guy Kemper of the Marine air corps, missing for more than two years, has been declared dead by the United States government, as of January 19, 1946.

This word was received in Cisco by Mrs. C. L. Tume from her nephew, Howard Kemper of Abilene, brother of deceased.

Lieutenant Kemper, a gifted singer, will be remembered by many Cisco people who heard him in a favorite hymn of his grandmother, Mrs. F. A. Cantrell, whose funeral was held at Cisco First Christian church, May 8, 1942.

Can Texas Senators Meet and Draw Pay at Will?

AUSTIN, Jan. 22.—A quick legal test on the question of whether or not the state senate has power to call itself into session at will for the sole purpose of acting on recess nominations of the governor was in prospect today.

The senate's first such session yesterday singled out a close friend of Gov. Coke Stevenson as the only one of more than 100 recess appointees to fail to confirmation.

He was Harry Benge Crozier, former Dallas and Austin newspaperman, appointed chairman of the unemployment compensation commission in October. The job pays \$7,500 a year. Two previous senates had confirmed Crozier as a member of the commission.

The attorney general has been asked for an opinion as to the legality of the senate's action in calling itself into session.

Meteorites, fragments of metal from the outer atmosphere, have been hitting the earth since the beginning of time.

OBSELETE ILLNESSES.

At the annual January board meeting of a Cleveland hospital, long devoted to the care of crippled children, it was reported that due to improvement in the health of children of the community, the hospital was using only about half of its bed capacity.

For years many of the patients had been sufferers from heart ailments. Since the widespread use of sulfa drugs in diseases like streptococcus sore throat, for example, the heart affections that often had resulted in the past had been eliminated.

Sunday's Ft. Worth Star-Telegram carried the following report of the marriage of Charles A. Spears, president Cisco First National Bank and Miss Charlotte E. Russell of Ft. Worth, which was held Saturday night, Jan. 19, 1946, at University Christian church, Ft. Worth:

Miss Charlotte Elizabeth Russell, daughter of Mr. and Mrs. John W. green of Southern smilax formed the background for the ceremony. In front of the greenery were arranged eight bouquets of white gladioli and calla lilies banked with woodwardia fern. In the central window was an arrangement of white flowers, and eight wrought iron candelabra held lighted tapers. The candle-lighted aisle was marked at each pew by a cluster of the white flowers.

H. S. Drumwright, Jr., of Cisco was best man, Groomsman were Messrs. O. L. Graham, Ed Graham and William Loving, all of Graham; Messrs. T. A. Murray, J. San Saba, Floyd Prince of Taylor and Bob Goodrich. Henry Sterling Drumwright III of Cisco was ring-bearer.

The bride, escorted to the altar by her father, wore an ivory slipper satin gown with hand-made satin roses on the bodice and skirt. Her long veil of Belgian lace, which belongs to her aunt, Mrs. Martin Halsell of Bonham, fell over tiers of illusion from a pompadour arrangement of illusion embroidered with pearls. She carried a cascade of white roses, maidenhair and satin ribbons, centered by a purple-throated orchid.

At the reception, white gladioli and calla lilies were used in the reception room. The table was laid with a pink net cloth over pink taffeta and was centered by a double ring wedding confection surrounded by pink maline ruffle with satin bows in which were embedded pink stock. Pink tapers burned in crystal candelabra.

Ever Try Making Cough Syrup in Your Kitchen?
 Gives Quick Relief. And It's So Easy! No Cooking.
 If you've never tried mixing your own cough medicine, you've missed a lot. It's no trouble—needs no cooking—and gives you about four times as much cough syrup for your money. You'll say it beats anything you ever tried for coughs due to colds. And here's how it's done:—
 Make a plain syrup by stirring 2 cups of granulated sugar and one cup of water a few moments, until it is dissolved. Or you can use corn syrup or fruit juice instead of sugar syrup. Get 2 1/2 ounces of Pinex from your drugist. Put this into a pint bottle and fill up with your syrup. This makes a pint—a family supply. Tastes fine and never spoils. Children love it. And as for results, you've never seen anything better. It goes right to work on the cough, loosening the phlegm, soothing the irritation, and helping clear the air passages. You will like it for its results, and not merely for the money it saves.
 Pinex is a special compound of proven ingredients, in concentrated form, a most reliable soothing agent for throat and bronchial irritations. Money refunded if it doesn't please you in every way.

"HOW TO SAVE MONEY ON YOUR ELECTRIC BILL"

by

Phineas Q. Twitch, Eminent Economist

Dr. Twitch

- 1 Disconnect your electric door-bell. What if your friends and neighbors do bruise their knuckles knocking! You'll save a penny a month. Naturally, a penny saved is a penny earned. In only eleven years (at compound interest) you'll earn enough to buy another door-bell for the back door so you can save TWICE as much by not using it!
- 2 Sell your vacuum cleaner and beat your rugs by hand. The money you get for your old machine will buy several sturdy beaters and an ample supply of liniment. Then, every time you beat ten large rugs, you'll save a whole penny. You can easily do ten rugs in a couple of days, after you get used to it. The exercise will build you up, even if it does break down the rugs. And the more you beat 'em the more you save!
- 3 Turn off your radio during "The Electric Hour" on Sunday afternoon. Of course, you'll miss Nelson Eddy and his guest stars and Robert Armstrong's Orchestra, but you'll save a sixth of a penny every time you do it. In a year, that's nearly 9c. And there's no music so pleasant as those coppers clinking in your pocket!
