Greatest Telephone Strike in History Ordered Today

MEMPHIS, Tenn., Feb. 19. — The greatest telephone strike in history was ordered late today by officials of both Independent and National Federation of Telephone Workers.

No date was set.

The announcement came after tabulation of votes for and against a strike, in which 250,000 telephone workers will be affected.

The vote showed 121,000 favoring national stoppage of the telephone industry, 30,000 opposing and 25,000 not voting.

When called, the strike will affect all long distance calls throughout the nation and local calls in 43 of the states, including Texas.

Pearl Harbor Witness Takes Shot at the War Dept.

WASHINGTON, Feb. 19. (AP)—Col. Walter C. Phillips, chief of staff to Lt. Gen. Walter C. Short at Pearl Harbor, said today that the army's Pacific high command used its few available aircraft for training, rather than long range patrol, in the period preceding the Japanese attack.

He told the congressional Pearl Harbor committee that this was done on the assumption that the war department "would not be so foolish" as to withhold vital information indicating the imminence of attack.

Phillips as a witness was Col. Robert Schukraft, army signal intelligence officer in 1941. Schukraft testified that he saw a Japanese "winds" message several days before the Pearl Harbor attack, but immediately determined it was not authentic.

COMPULSION OBSOLETE.

WASHINGTON, Feb. 19. (AP)—Former Wisconsin Gov. Philip E. LaFollette today attacked compulsory military training as "obsolete" and asked congress to double GI's pay in order to build a powerful, highly striking force of volunteers.

WASHINGTON, Feb. 19. (AP)—Alexander P. DeSeversky declared today that future threats to America will come from across the Arctic and that the navy's current defense plans are one war behind the times.

DeSeversky, a life-long student of aeronautics and air-power, told interviewers that in the atomic age security rests on air fleets capable of controlling the skies and electronic space.

JUDGE GRISSOM ILL. EASTLAND, Feb. 19. — R. N. Grisham, veteran Eastland lawyer and representative in the Texas legislature is reported improved after being seriously ill for more than a week with a heart condition. Grisham was confined to his home. Doctors said a blood clot near the heart caused his illness.

Texas Masons to Capital to Attend National Sessions

HILLSBORO, Feb. 19. — Five officers of the Masonic Grand Lodge of Texas, Pat M. Neff of Waco, grand master; R. Bruce Brannon, Hillsboro, deputy grand master; Horace Jackson, Gatesville, grand senior warden; Hugh Craig, Fort Worth, grand junior warden, and George Ballew, Waco, grand secretary, left yesterday for Washington, D. C.

They will attend a conference of the grand masters of grand lodges of Masons in the United States and the George Washington Masonic Association Feb. 21-22.

KILLOUGH BURIED TODAY. EASTLAND, Feb. 19. — Funeral services were held here today for J. J. Killough, 77, former state oil and gas supervisor in charge of the Eastland office, who died here Monday. He is survived by his widow and daughter, Mrs. Olive Vette Bicknell of Houston.

BIG DOG HAS HIS DAY—Dana Miller of Thornwood, N. Y., looks up to Cragwood Druid, largest dog in 70th annual Westminster Kennel Club show at Madison Square Garden in New York. Irish Wolfhound was judged best of breed. The show, hit by a city shutdown when tugboat strike caused Mayor William O'Dwyer to ban all amusements, had to hold its entire program in a single day.

Woman of 92 Finds Health, Contentment in Her Work

The Daily Press today received a much-appreciated letter from Mrs. Sam Hull of route four, Cisco, who has been a constant reader of this paper and its predecessors since the daily was established in 1919. Before that she was a regular subscriber to Cisco Weekly Roundup, founded in the eighties and published until the advent of the daily.

Mrs. Hull's letter (she is 92 years of age) is reproduced here just as written by this useful, highly esteemed woman. "Dear Editor: Here I come with another birthday letter for you to print. I am 92 years old and if I should say a good word for the Cisco Press, please accept it as wholly sincere, for you have been very nice in printing my birthday letters. Otherwise, many people would not know that I am living."

The past year, 1945, was a busy time with me. I cooked, washed and ironed for myself, as well as sewing and making my own lace today challenged Russia to a production race "not in atomic bombs, but in goods for the combatables for myself and some to spare. I raised and cared for 100 baby chicks, selling 25 dozen eggs; fed and raised two pigs for meat; canned 100 jars of fruit and vegetables for home use.

"I feel that my good health and contentment in the home is largely due to the fact that I put a portion of my daily strength into work. I am deeply thankful for my life and for my friends.
MRS. SAM HULL"

GM - Union Progress Slows Down to Mere walk today

DETROIT, Feb. 19. (AP)—Progress toward an agreement to end the three-month old General Motors strike slowed to a walk today.

Negotiators admitted they were getting nowhere in daily arguments over the original issues that caused the walkout of 175,000 CIO United Auto Workers last Nov. 21.

WALLACE'S CHALLENGE. CLEVELAND, Feb. 19. (AP)—Sec. of Commerce Henry A. Wallace today challenged Russia to a production race "not in atomic bombs, but in goods for the combatables for myself and some to

Drill to Learn Depth and Extent of Clay Deposits

Core drilling of the N. D. Gallagher tract near Cisco is under way to test depth and extent of clay deposits for the location of a plant by the Cisco Clay Products Co., to manufacture brick, tile and other building material of ceramic nature.

L. A. Stern, chemical engineer, of Dallas, with the Pittsburgh Testing Laboratories, is in charge of this work. Chemical and physical tests of the clay will be made under his supervision, and a general idea of the volume of the deposits will be sought.

The new company, organized principally of Dallas capital is headed by R. J. Swan of Dallas. It will be located on a tract of 45 acres of clay deposit taken from the N. D. Gallagher ranch and it is expected to get into production by the latter part of spring.

Tests of clay already made are said to have showed excellent characteristics and the possibility of a variety of colors in the products to be manufactured.

Meanwhile a number of established ceramics manufacturing companies have been making investigation of the Cisco clay deposits with a view to locating plants here. The clay is said to be of a superlative character for the making of art pottery and already is being used in the potteries of Guy Quinn at Eastland. Large quantities of it is being used in the manufacture of fire brick by the Harbinson-Walker Refractories Co., who have reported that its bonding qualities are excellent.

Funeral services were held Monday afternoon at 4 o'clock at Thomas funeral chapel, with Rev. Evan Holmes officiating. Burial was in Oakwood cemetery, Cisco.

Deceased was born at Whon, Tex., December 6, 1918, and had made his home in Cisco, Romney and Carbon for the past five years, moving to Cisco from Carbon.

Survivors are the parents, Mr. and Mrs. F. H. Branstetter, Romney; four brothers, William, with the navy at Guam; Eugene, Coleman; Curley and Ernest, Romney; two sisters, Mrs. M. L. Reynolds, Romney; Mrs. W. L. Hesley, Concho, Tex.

Pallbearers were Vernon Cozart, Delbert Stevenson, Earl Owens, Jesse Carney, Charlie Harris, Stanley House.

Sen. Charles Tobey, R. N. H., charged today that Edwin W. Pauley was selling oil to Japan at about the same time he was protesting against state department policies which permitted the sales. Tobey made the charge at a naval affairs committee hearing.

Fire-Minded Ciscoins Work Telephones Overtime

"Citizens are again requested by the fire department," says Jay Garrett, volunteer fireman, "to refrain from burning grass about their premises without the supervision of a city fireman. Telephone the fire station and members of the department will burn the grass for you."

Continuing, Mr. Garrett said: "After an alarm, many people telephone the station to find the location of the fire. At night the station phones must be used to notify the firemen and police when fire breaks out. It is also necessary to keep the phone lines open for a possible second alarm. "For those reasons no information will hereafter be given concerning a fire for a period of 15 minutes after an alarm is sounded. "Please cooperate with your fire department — for your own protection."

GIRL 'CHUTER—Wearing a parachute similar to the one she used on many hair-raising exploits, Flight Officer Pearl Cornioley is pictured at press conference in New York. British girl parachuted into France in September, 1943, where she helped organize and lead French resistance movement. She carried out many acts of sabotage.

SAVING THE WORLD.

It is significant that the first constructive act of the first assembly of the United Nations was a demand for quick action to prevent global famine. Here was a gesture made at a time when all could grasp its meaning. Man-kind was to be saved, and thereafter the intelligence and resources of the whole world were to be called on for the safety and preservation of the human race.

This is a good beginning. If the leaders of this present world can work together for such purposes, an immense forward step has been taken for the salvation of mankind.

It remains to be seen whether the inveterate tendency of men to

fight and destroy each other is really giving way to cooperation and unity, or whether this shall prove to be a grand gesture only a little better than previous undertakings. But if the leaders of the movement can put aside politics and selfish inclinations and do their duty, and others rally as they should, this battered old earth may be saved on the brink of destruction.

In spite of recent dangers loomed in the world, most Americans, feeling secure in their great, rich, strong country, have not realized how near that brink might be, if international cooperation were to fail.

Nebraska now leads the country in the number of sheep on feed, far outstriking Colorado, which generally holds first place.

TAYLOR AT BRECKENRIDGE.

BRECKENRIDGE, Feb. 19.—Bob Taylor, former manager of the Seguin chamber of commerce, assumed his duties as new manager here today, replacing Ernest Maxwell. A veteran of three and one-half years in the army air corps, Taylor is 31 years old. He attended Southwestern State College in Durant, Oklahoma, as well as the University of Texas where he majored in journalism. In 1939 he headed the Cisco chamber of commerce, succeeding Frank Quinn as manager of the Seguin chamber of commerce a year later. He will be assisted in his new position by Mrs. Arline Leeds, acting secretary.

AGRICULTURAL WELFARE.

BROWNWOOD, Feb. 19.—Pending legislation and government rulings and their relation to the future welfare of agriculture will be discussed by producers of this area in a meeting to be held at Brownwood, Wednesday, February 27. All speech making will be dispensed with and all time will be devoted to round-table and group discussions, analyzing agricultural problems and possible solutions. The meeting is sponsored by the Texas Farm Bureau Federation and discussions will be led by J. Walter Hammond, president, who has just returned from Washington.

What do you mean...

There may be less soap unless I save my used fats?

Exactly that, Mrs. American Housewife. Even though food fats are ration-free now... industrial fats are still very scarce. That's why it is so important to keep turning in your used kitchen grease, to help make soap and other peacetime products. Not for months will the fat supply be back to normal. Meantime, you can help the situation by salvaging used fats!

Here's how you can help put more soap back in the stores

THE SOUNDEST INVESTMENT IS HOMES!

Cisco's Future Will Be Measured By Homes!

Before Cisco can grow, it must provide Homes for new families. Merely trading in the houses already here does not mean that Cisco is growing.

This community can grow only when it gains new citizens. To gain new citizens it must build houses in which they can live.

The jobs are here; new industry is coming to Cisco; other industry is making investigation of possible locations here. But jobs without homes are no jobs at all, and no industry can survive if there are no places for its workers to live.

This is a matter of personal interest to every merchant and every worker who wants to live and earn in Cisco. Their futures in Cisco depend upon the right answer.

The EASIEST COURSE is to say IT CAN'T BE DONE!

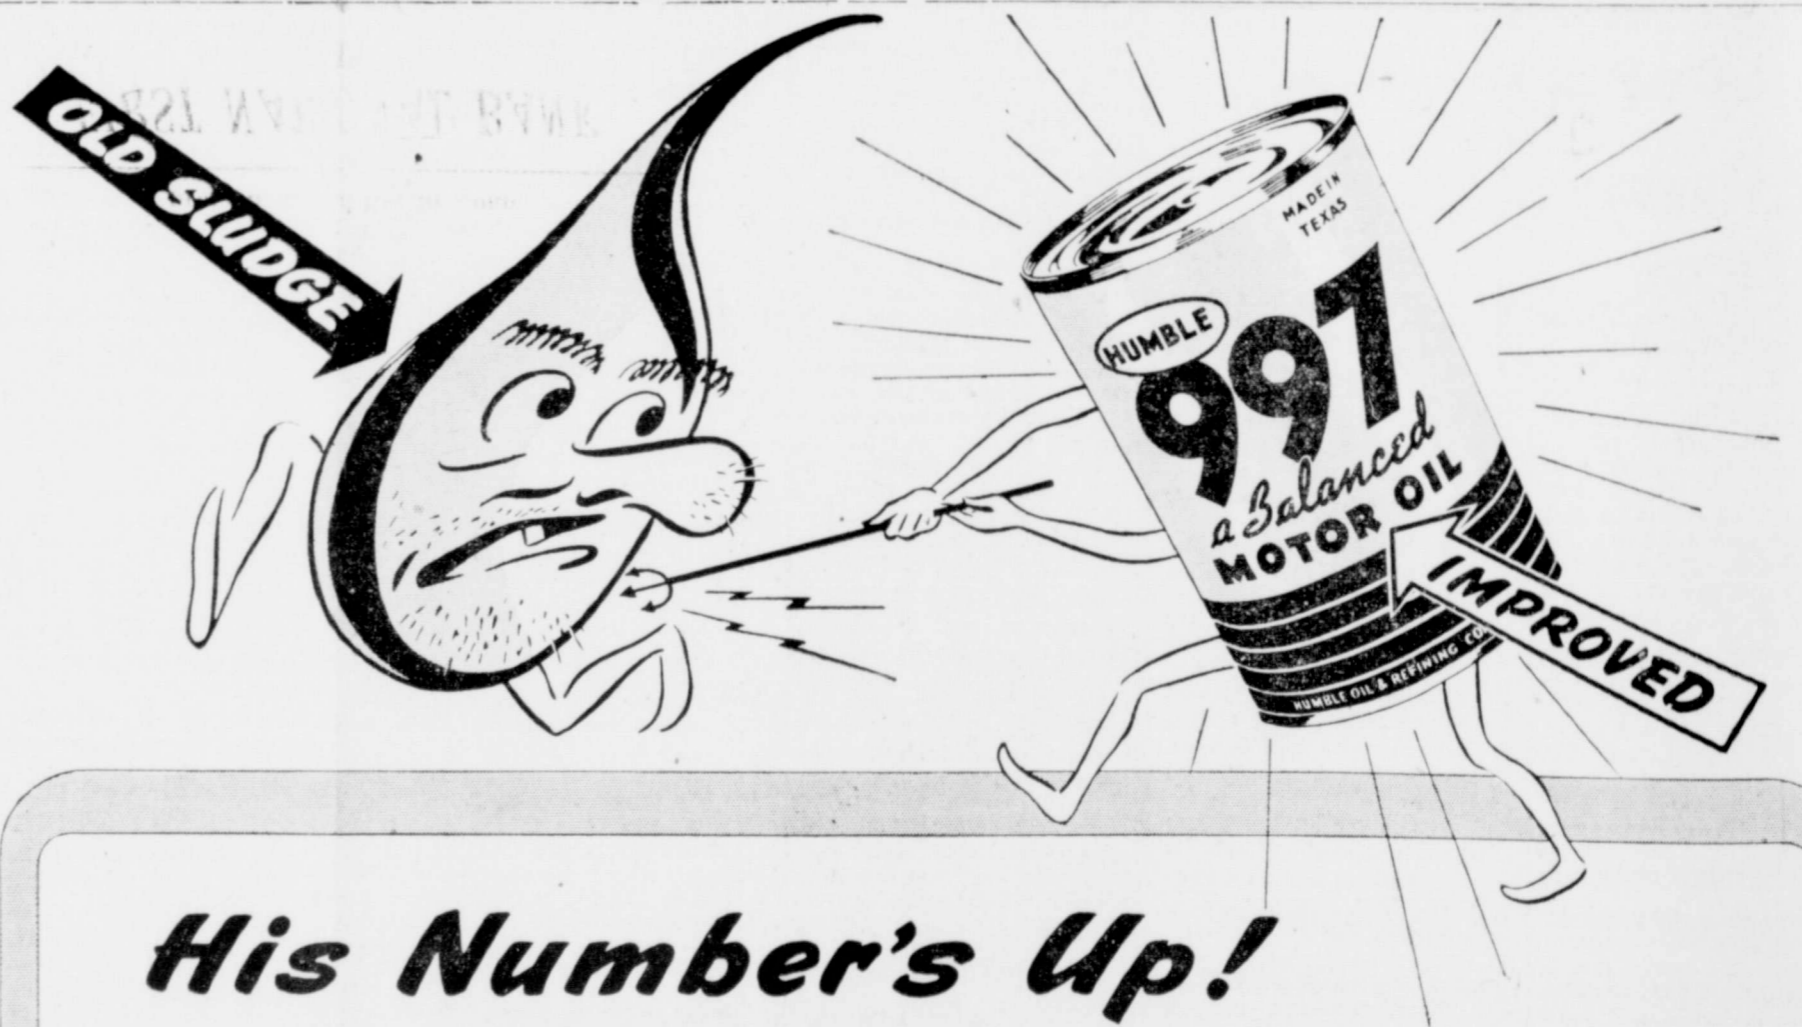

Anybody can do that. It takes an able man or woman to find a way to solve a problem. We have able people in Cisco. We have the kind of people who can find ways to do what needs to be done!

This is a message to that kind of people. With confidence and courage and cooperation, Cisco can meet this issue and solve it in such a way that many will be served and the future of our city assured.

Let's meet the challenge! Let's show ourselves and our friends that Cisco can do the job!

Let's Build Homes and Build Cisco!

His Number's Up!

When the motor oil in your car is over 1,000 miles old, look out for "old Sludge"—he's a dangerous character.

But his number's up when you drain and refill with Humble's 997, the balanced motor oil. 997 is a High V.I. oil that cleans, cools and seals while it lubricates. And it costs only 30¢ per quart.

Stop at the nearest Humble sign, drain sludge-laden, diluted, dangerous oil and refill with

997 EVERY 1000 MILES

HUMBLE OIL & REFINING COMPANY

Humble's Balanced 997 Motor Oil is made at Baytown, Texas, in one of the world's great refineries by the leading producer of crude oils in the United States.

IS YOUR OIL 1,000 MILES OLD?

Stop at any Humble sign to see a jug filled with sludge-laden, diluted oil drained from an average car.

Unexcelled!

A premium motor oil second to none.
