## Cisco to Observe Day of Prayer at 10 A. M., Friday

World Day of Prayer will be observed in Cisco on Friday, March 8, 10 a. m., at First Presbyterian church.

All Cisco churches will participate in the event, which is sponsored by Cisco Council of Church Women. The service will last an hour, it was said.

The general theme will be "The Things That Make for Our Peace."

A spokesman for the local council of women stated that all citizens are invited to the meeting, and especially those interested in the fact that similar prayer meetings will be held all over the world on this date.

"United prayer is effective," the spokesman continued, "and men, women and children of 64 different nations will be at prayer at this time. It would be truly inspiring if the local church should be crowded with prayer-making people of all denominations next Friday."

"World Day of Prayer is directed by the United Council of Church Women. This council is a channel for the power of Protestant women. Ten million Protestant women, working together, could change the world. The council is a listening post and a voice; it challenges a new devotion to Christ, urges loyalty to the local church and provides a way for this strength to unite with that of other women of the community."

It is reminded that last year the local council of women, under the leadership of Mrs. John Shertzer, answered the call for help to destitute people in Europe by sending linens to ministers who had shared all they had with others and sent 750 garments for baby layettes for new-born infants.

All church women's organizations in Cisco are invited to join the council and pray and help and grow, the spokesman concluded.

## PRESIDENT OF SOUTHERN COAL PRODUCERS TO CONFER WITH JOHN L. LEWIS ON MARCH 12

WASHINGTON, Mar. 2. (AP)—President John L. Lewis of the United Mine Workers today asked coal operators to meet him March 12 to negotiate a new basic wage contract. At the same time he filed notice of a strike by 450,000 bituminous miners on April 1 if his demands are not met.

Edward Burke, president of the Southern Coal Producers Association and member of the operator's negotiating committee, said the producers would meet Lewis at the time suggested.

He challenged the Lewis strike notice, however, as having "no basis in fact." But the operators, Burke added, do not now intend to contest the legality of the notice, as they did unsuccessfully last year.

In his request to the operators for the conference, Lewis stated the purpose was "negotiating new arrangements affecting wages, hours, rules, practices, differentials, inequalities and all other pertinent matters affecting or pertaining to the national bituminous coal industry."

## Nine Cisco Boys Recently Joined the U. S. Army

Nine Cisco young men have recently signed up with the recruiting office at Eastland for service in the United States army.

Staff Sgt. Hal Page, Pfc. Charles Harris and Pfc. A. B. Cannon are re-enlistees and they were given their rank at discharge as their permanent grade, plus a bonus of \$50 for each year of active service. A 90-day furlough is also offered those re-enlisting within 20 days after discharge. These three vets chose another three-year enlistment.

The new enlistees are Andrew Harrison, Melvin P. Proctor, Robert B. Caraswell, J. D. Wilson, Jackie Webb and Zerl Smith, all of whom signed up for three years except Smith, who entered for 18 months.

The reason most of the young men enlist for three years is because they can thereby select their branch of service and overseas theater. They will also be entitled to all the privileges of the G. I. Bill of Rights, one of which is a \$300 mustering-out bonus when discharged, and still more valuable, four years of free college education at the college of their choice.

## NEW GAS CONCERN.

PHILADELPHIA, Mar. 2. —The Securities Exchange Commission has approved the application of Hope Engineering Co., Houston, Texas, to re-incorporate its subsidiary, Rio Grande Valley Gas Co., in the State of Texas. The company now is incorporated in Delaware.

## MANY GIs ABSENT.

FRANKFURT, Germany, Mar. 2. —About 6,000 American soldiers are absent without leave in the European theater, Army headquarters reported Saturday. The wartime peak of AWOLs was 15,000.

By United Press.

DETROIT, March 2. — Delegates of 175,000 General Motors strikers proposed to GM tonight that President Truman be asked to name an arbitrator in the 102-day GM strike and agreed to send the strikers back to work if GM accepted.

The offer came from the second session of a national conference of CIO Auto Workers locals and was addressed to GM President C. E. Wilson.

A corporation spokesman said it was "very unlikely the company will reply to the arbitration proposal tonight."

The union conference said that if the corporation would accept the proposal it would recommend that the strikers return to their jobs in GM's plants under terms of the latest corporation offer.

The conference warned that rejection of the arbitration offer would bring an intensification of the union's pressure.

## Hudson and CIO Agree.

DETROIT, March 2. (AP)—Hudson Motor Car company announced tonight it had reached agreement with the CIO Auto Workers Union on a new contract giving its 10,000 production workers an 18 1/2 cents hourly pay boost.

## Democrats Have a Real Problem in Person of Pauley

WASHINGTON, March 2. — Question bothering Democrats most is how to end Pauley hearings. Over weekend they will try again to find an answer.

As long as Pauley refuses to withdraw, Republicans insist on summoning witnesses opposed to him. They've got more campaign material from the hearings than from anything in past year.

With Pauley — and President Truman — insisting on his vindication, Democrats can't abruptly end it all by rejecting Pauley. Democratic committee members spend hours trying to work out compromise — anything that will get them out from under. And they want to end it in committee — not let debate rage further on Senate floor. Most of all, they don't want Pauley confirmed, to be a continuing liability through election year.

Note: Despite this, most Senate Democrats will vote for him if it comes to showdown.

## Light Sentence to Killer Brute Invitation to Kill

LITTLETON, Colo., Mar. 2. — The prosecution charged today that a one to eight year prison sentence for Joseph Desrosiers, who killed his wife and criminally assaulted another woman while the wife died, was a "gross miscarriage of justice."

A surprise verdict of voluntary manslaughter was returned last night against Desrosiers, charged with shooting his pretty wife, Katherine, in the back seat of an automobile last Oct. 19, then attacking another young woman while she lay dying an arm's length away.

The decision was termed, "in effect, an invitation by the citizens for a man to commit murder," by Dist. Atty. Richard Simon, who had demanded the death penalty.

An 11-man, one-woman jury deliberated for 13 hours before returning its verdict, imposing a state penitentiary sentence of from one to eight years. It was one of six possible verdicts.

Desrosiers, a discharged service man, told authorities after the tragedy that his wife had refused to accompany him to his home in San Antonio, Tex., preferring to remain with her mother in Denver.

## Charges of Poor U.S. Policies in Europe Not True

WASHINGTON, Mar. 2. — Despite charges that we have no occupation policy in Europe, our military government people think we're doing good job, compared to other countries. For example:

When Russians took over a German town they painted largest office building bright red, flew Soviet flag from all windows, appointed a Communist burgomeister and police chief, turned ration tickets over to the local Communist leader, and required all Germans to come to Red building for them.

Our method has been to let Germans pick their own officials, so long as they are non-Nazi. Tangible result was seen in recent Austrian election, where Communist party made poor showing, and Communist showing was poorest in Russia zone where only one party member was elected to national legislature. In American Zone, three party members were elected.

## Senator Says Pauley Kicked About Because He's Rich

WASHINGTON, Mar. 2. (AP)—Sen. Olin D. Johnston, D., S. C., intensified an intra-party controversy among senate Democrats tonight by giving support to Edwin W. Pauley's fight for confirmation as undersecretary of the navy. Johnston entered the controversy with the declaration that Pauley is being "kicked around because he happens to be a man of wealth."

Johnston said that from personal association and of my own knowledge, I believe Mr. Pauley is thoroughly fit for the position.

## Uncle Sam Lived Within His Income Last Month

WASHINGTON, Mar. 2. — Your Uncle Sam lived within his income in February.

It was the first month in nearly five years, and one of the first few since 1932, when the U. S. Treasury didn't need red ink for its bookkeeping.

Government receipts for the first 27 days of February were \$3,695,748,867. Expenses were \$3,316,018,702. Both figures will be larger when final statistics for all 28 days of the month are in. But the black-ink difference — \$379,730,000 — isn't likely to be much changed.

## ASKS 2 NOMINATIONS.

LOS ANGELES, Mar. 2. — Will Rogers Jr., son of the late humorist, Saturday filed his intention to seek nomination for the U. S. Senate on both the Republican and Democratic tickets at the June 4 primary election. Rogers publisher of the Beverly Hills Citizen, is a registered Democrat.

## CAFE OPERATORS FINED.

WACO, Mar. 2. — Federal District Judge Charles Boynton assessed \$50 damages against 35 Bell county cafe operators and \$500 against two for violating the emergency price control act. The amount of alleged overcharge was 2 cents per bottle of beer.

## MILK BY MONDAY.

DETROIT, Mar. 2. — Detroiters looked forward Saturday to the restoration of normal milk deliveries by Monday after agreement by creamery and striking dairy worker negotiators on an 18-cent hourly wage increase.

RETURNED TO GERMANY—English soldiers examine the baggage of former crew members of German cruiser Graf Spee prior to their boarding English ship in Buenos Aires which will take them to Hamburg. Survivors of German raider scuttled in battle of Rio de la Plata, had been interned in Argentina for more than three years.

## Palace Theater Installs Handsome New Seats

"The Palace theater," says Wallace Smith, manager, "is glad to announce the installation of new seats throughout the theater, both on the lower floor and in the balcony."

Continuing, Mr. Smith said: "The new seats are Texas-made, by Texous and were purchased from the American Desk Mfg. Co. at Temple, Tex. The seats have double tension springs and we hope you will be comfortable when you visit us and thus be able to relax and enjoy a good show. For the benefit of customers the seats are staggered."

The Dunlap Theater system, recent purchasers of the Palace theater, have spent considerable money in an effort to give the people of the Cisco area an amusement house of which they may be proud; in return they call upon patrons to help keep it neat and tidy. Children, said Mr. Smith, will not be allowed to take hamburgers, bottled drinks and other things to eat into the Palace, with the exception of pop corn, and all patrons are urged to refrain from sticking chewing gum on the seats and walls or placing their feet on the new seats.

## NO PENSION CUTS.

AUSTIN, Mar. 2. — Old age pensions will not be reduced for March, John Winters, director of the public welfare commission said here today.

## TOM CONNALLY SAYS RUSSIA BOUND BY TREATY TO LEAVE IRAN BY SATURDAY MIDNIGHT

WASHINGTON, Mar. 2. (AP)—Chairman Tom Connally, D., Tex., of the Senate Foreign Relations committee, said today Russia should "get out" of Iran, as she is bound to do by treaty.

Connally gave his views at a press conference as the United States headed toward critical tests of its basic postwar foreign policy because of diplomatic difficulties involving Russia.

The question facing the country was — can the United States continue to insist on the principles of the Atlantic Charter and still deal effectively and amicably with its wartime ally.

Connally has just returned from London, where he was a delegate to the first general assembly of the United Nations organization. He gave a sharp reminder to the Soviets that they are bound to leave Iran by midnight tonight.

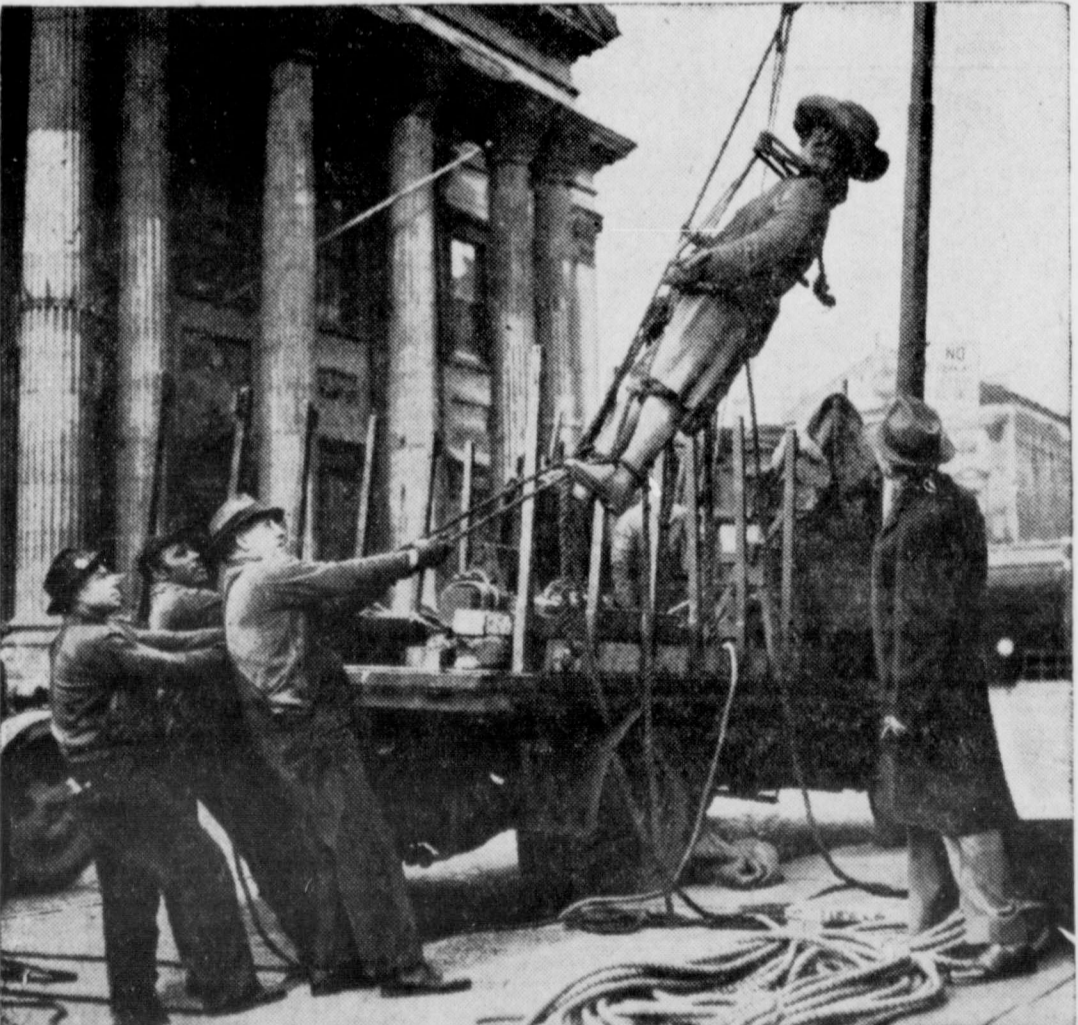

He defended American foreign policy as developed during the UNO conference and praised Secretary of State James F. Byrnes for his recent speech in New York proclaiming a firmer attitude toward Russia.

## Cisco Red Cross Campaign Starts Within a Few Days

Cisco Red Cross campaign for a quota of \$2,500 will begin some time next week, said Mrs. W. W. Wallace, Saturday. Organization for the drive will be completed at a meeting early in the week, at which time the exact date to start solicitations will be determined. Charles Graham and Mrs. Wallace are local co-chairmen and N. C. Houston is treasurer.

Said Mrs. Wallace: "Many will be called to help with the drive. A few hours of your time will not be much compared with what you collect might do for some human being in trouble."

"The Red Cross answers calls where we cannot go — disasters, hospitals, war fronts. The war is over, but the work of the great Red Cross goes on and on. We must do our share in helping and rehabilitating veterans wounded physically and mentally. Floods, fires, tornadoes will come, maybe to us, and the Red Cross will be there if we contribute as generously as possible to this fund."

MOVING WILLIAM PENN.—The 600-pound cast iron statue of William Penn is lowered from the top of the Iron Building in Philadelphia, where it has perched for 95 years. The figure will be given to a life insurance company. Statue had to be well trussed before cranes could move it.

### FUTILE ENDEAVOR.

What a job he man's pride that "T" star business was the other day! Here were earth's inhabitants all puffed up and excited about having discovered atomic energy, only to learn that some star called "T" up there all those miles away had been having atomic explosions 1,900 years ago that turn the Hiroshima - Nagasaki stunts into child games by comparison. And all that happened on the star before mankind ever dreamed of such a thing.

ing on it that star now. Will it take 1,900 years for earth's atomic explosions to travel through the space before they become visible to "T" star folk? And will they smile tolerantly at earth's quaint backwardness? Or don't star folk smile? Or do stars have SIKK?

But if man ever did discover people on stars it would be 1,900 years after the people were there, and in that case would they still be alive in space?

What's the use! Earth-bound man had better stick to figuring out this year's income tax, which is due much less than 1,900 years from now, or how to prevent poverty-making work stoppages when the world is already badly in need of food and clothing for millions of people.

### TO YOUTH.

BE YOUNG today! Let laughter overflow. Your eager lips and ripple through your soul. Walk in the sun, and wear the morning's glow. Until the aging day demands its toll. Speak words that sparkle with the sheen of spring. And keep your eyes upon the brightest star. Lift high your head, as proudly as a king. And shield your heart with dreams that cannot die.

Be young today! Tomorrow will be late. For drinking wine that now is in the game. The better ideal your strength— you must not wait. To live and love. The soon the time will pass. Be young today! Youth is a coin of gold. That must be spent before the heart is old! —Lula Louise Mullins in The Lantern.

From Where We Sit and Observe—

... it is apparent that there is a growing interest on the part of many people in land titles. Every day we have folks in the office who are interested in buying a place but seem to be more interested in the title. This is a healthy sign. They certainly are on the right track. For, after all, it's the title, not so much the location or the nature of the improvements, that determines the value of all real estate.

### Why Don't We Have Lumber FOR HOME BUILDING?

There are plenty of trees, plenty of lumber mills, but very little lumber for Home Building. WHY?

Here are the simple facts behind the lumber shortage—these facts are stopping Home Building:

- Over 50% of our lumber was once cut by small mills. Thousands of these mills were put out of business during the war by OPA ceiling prices. OPA still clings to wartime policies and these mills are still out of business.
- OPA's blind "hold the line" policies, plus lack of enforcement, have led to the development of a huge Black Market in lumber. "Black Market" lumber is lumber that costs the people more money than they would pay if lumber were flowing to them through the normal channels of distribution—the retail lumber dealer.
- Wartime ceiling prices made it profitable for the lumber manufacturer to cut sizes of lumber suitable for war uses, but not suitable for home construction. As OPA continues this unrealistic policy, manufacturers continue to cut lumber sizes which are unsuitable for home construction. In some cases premium prices granted by OPA encouraged production of lumber not usable for Home Building. Proper peacetime adjustments have not yet been made to encourage production of home construction lumber such as flooring, ceiling, siding, millwork, plywood—all essential items in home construction. This situation affects all lumber production.
- The manufacturers of lumber have been provided with a hidden premium on export lumber. The OPA has made it more profitable to produce lumber for export to foreign countries than to produce lumber for home construction.

These are merely examples from the lumber field which indicate the type of OPA action that is blocking the production of home building materials in many fields.

The fact remains that homes cannot be built by any industry or Government agency without materials.

Homes cannot be built without lumber—whether that home be wood frame, brick, concrete, or stone.

The lumber and building material dealers, and the contractors of the nation can build all the homes needed—if they have the materials. But the flow of materials must be unblocked. Only increased production of building materials can solve the so-called housing problem and the unrealistic pricing policy of OPA is the biggest present block to increased production!

Any government program that does not FIRST remove the obstacles blocking production of materials will simply add additional difficulties to the problem facing the building industry.

**"Is Faith Sufficient?"**

Last week we learned that "faith in Christ" is an essential of salvation. Today we ask, "Is faith sufficient?" Are we saved by "faith alone?" Protestantism (in general) answers yes. One popular creed says, "Wherefore that we ARE justified by FAITH ONLY is a most wholesome doctrine and very full of comfort." But the Bible says, "Ye see then how that by works a man is justified and NOT BY FAITH ONLY" (Jas. 2:24). Both statements cannot be true! Faith without works is as dead as is the "body without the spirit." (Jas. 2:26). Faith must be made perfect by works. (Jas. 2:22). One might believe in the existence of a certain physician, and still not take the remedy he prescribed, for lack of faith IN (or confidence in) that physician. To believe IN a certain physician is to TAKE HIS REMEDY WHETHER WE SEE ANY POWER IN THE THINGS PRESCRIBED OR NOT!

So to believe in Christ, the Physician of the soul, is to take the remedy he prescribed for our salvation, whether or not we see any power in the things commanded! Jesus said those who BELIEVE and are BAPTIZED shall be saved... (Mk. 16:16). Paul affirms that men and women whose faith leads them through baptism, are the children of God (Gal. 3:26-27).

It takes a FAITH that WORKS BY LOVE (Gal. 5:6) to avail anything in Christ. He is the Saviour of the OBEDIENT. (Heb. 5:9).
