President Not Alarmed By International Situation

By United Press.

BULLETIN — President Truman said today that he is not alarmed by the present international situation and he expressed confidence that the problems would be worked out.

U. S. Press Mistaken.

LONDON, Mar. 14. — Moscow said tonight that American press reports regarding Russian troop movements in Iran have "no relation to reality."

Concern Unabated.

WASHINGTON, Mar. 14. — Official concern over Soviet relations continued unabated today as House members entered the verbal slugging match between Josef Stalin and Winston Churchill.

President Truman conferred with Sec. of State James F. Byrnes and W. Averill Harriman, former U. S. ambassador to Russia.

The State Department stuck to its declaration that the USSR is sending new troops into Iran.

Officially, Russia continued to give this government the silent treatment on its repeated requests for information about Soviet intentions in the Middle East.

A House Military Affairs subcommittee awaited a state department reply to charges that it has put "pro-Russian" persons in high ranking state department jobs.

In the House, Rep. Howard H. Buffett, R., Neb., called Churchill a warmonger, and Rep. John E. Rankin, D., Miss., retorted that the charge sounded "like something right out of Moscow."

The angry tone of Stalin's reply to Churchill worried U. S. officials, who are trying to keep the current war of nerves within bounds.

FD Jr., Threatens to March on the National Capital

WASHINGTON, Mar. 14. (U.P.) — Franklin D. Roosevelt Jr., national housing chairman of the American Veteran's Committee, warned today that "there will be a march on Washington and I'll be in it" if congress does not immediately recognize the problem of homeless ex-servicemen.

"The veterans form the outstanding homeless group and if they are turned down they will form a pressure group with all the evils it can bring," he told the National Public Housing Conference.

Senators Offered Amendment Truman's Wage Bill

WASHINGTON, Mar. 14. (U.P.) — Two senators today offered an anti-racketeering amendment to the administration's 65-cent minimum wage bill.

Sen. James O. Eastland, D., Miss., and W. Lee O'Daniel, D., Tex., offered the proposal.

It would provide that any person who "obstructs, delays or affects commerce or the movement of any article or commodity in commerce by robbery or extortion shall be guilty of a felony." Maximum penalties would be \$10,000 or 20 years.

Corinth Church Weekend Revival Begins Tonight

Rev. A. B. Lightfoot, pastor of the Oak-street Baptist church of Colorado City, will bring the messages in the week-end revival that starts at Corinth Baptist church tonight and continues through Sunday night.

Mr. Lightfoot is a successful pastor of a fine church and has conducted many successful revival meetings throughout the surrounding countryside. His sermons are simple, stirring gospel messages with an appeal to old and young.

During the prayer services each night from 7:30 to 8 Mr. and Mrs. Leo Bye will have charge of the young people in singing, flannel-board talks and object lessons. They come from Minnesota and bring with them a wealth of experience in dealing with young people. They will have charge of the music preceding the preaching service each night and will bring special numbers, instrumental and vocal. Services begin each night at 8 o'clock.

This is the first revival meeting in the recently completed Corinth church building and great things are anticipated by Pastor John Baker.

SUMNERS MUST NOT QUIT NOW

House Okays Extra \$250 Million For Temp'ry housing

WASHINGTON, Mar. 14. (U.P.) — The House today approved legislation to authorize the National Housing Agency to spend an extra \$250,000,000 to provide about 100,000 temporary homes for veterans and their families.

The measure, introduced by Rep. Fritz Lanham, D., Tex., now goes to the senate, where a companion bill is pending.

Researchers Say Too Many Pensioners in Texas

AUSTIN, Mar. 14. — According to the national average, Texas should have 75,000 instead of 175,000 persons on its old-age assistance rolls, the Texas Research Institute of Dallas asserted in a survey released here.

Its twenty-three-page pamphlet reported that 175,836 were on the pension rolls Jan. 1, 1946, compared with the original estimate in 1936, that 62,933 would be the maximum number eligible for state aid. The first year's operation cost an estimated \$9,000,000, while the Legislature has allocated \$28,400,000 for welfare expenditures during each year of the current biennium, the survey showed.

A new constitutional amendment sets a \$35,000,000 annual limit upon state welfare appropriations, while raising from \$30 to \$40 a month the maximum amount which an old-age pensioner may receive.

"Is the next session of the Legislature actually going to attempt to increase taxes to such an extent that \$35,000,000, rather than this year's \$28,400,000 will be available for public welfare expenditures?" the pamphlet inquired. "Will pressure start almost immediately to hike the ceiling?"

It continues: "The cause of the rapid and tremendous increase in the cost of the old-age pension system has been the number of people on the pension rolls.

"Texas has 347,000 persons 65 or more years of age, according to 1940 census. Pennsylvania has 677,000 in this age group. New York has 922,000. And yet Texas has more persons on its old-age assistance rolls than either of these states — or any other state, for that matter.

"Is this a pattern for the future?"

"In 1960, when, according to United States census data, Texas may be expected to have an aged population approximately 300,000, greater than that of today, will the old-age assistance rolls reflect a proportionate increase?"

"If so, Texas had better attempt to prepare itself for an assistance roll containing the names of some 305,000 of its aged citizens.

"Texas pays old-age assistance to 452 persons out of each 1,000 persons 65 or more years of age as compared with the United States average of 210, according to figures compiled by the United States Social Security Board. If 452 out of each 1,000 of the anticipated increase in the elderly population should be paid assistance in 1960, the state at that time would have approximately 130,000 more on the rolls than the 175,836 receiving aid on Jan. 1, 1946.

"It is this high proportion of the aged population on the rolls that has played havoc with the state's old-age assistance program in the past. If no more than the national average of old people were receiving assistance in Texas the rolls would include fewer than 75,000 recipients instead of more than 175,000."

ABILENE, Mar. 14. — Permit for a new church to cost not less than \$150,000 was issued this morning to the University Baptist church. Plans to erect the new building instead of remodeling the present structure, for which a \$100,000 building permit had previously been issued, were approved at a business meeting of the church membership Wednesday night.

TROUBLE IN INDO-CHINA—Five French warships are reported to have fired on a Chinese garrison here. "Technical difficulties" which arose during the transfer of Haiphong from Chinese to French control apparently caused the incident. Chinese claim the French attempted to land under the force of arms. French sources say the first firing was done by unidentified shore batteries.

House Committee Claim That Flying Reverses Self on Is Young Man's War-time Powers Game is Nonsense

WASHINGTON, Mar. 14. (U.P.) — The House Judiciary Committee reversed itself today and voted to ask the House to extend the government's wartime powers of rationing allocation and priorities only until March 31, 1947.

Previously it had recommended extension until June 30, 1947.

WORLD BANK AT CAPITAL.

SAVANNAH, Ga., Mar. 14. (U.P.) — The Board of Governors of the World Bank and Fund today approved the recommendation that the international financial institutions be located in Washington.

TAMPA, Fla., Mar. 14. (U.P.) — Brig. Gen. Evan H. Humphrey, 71, learned to fly when he was 69. When he ends a visit here with Col. Lloyd Barnett, an old Army friend, he plans to fly solo to his home in San Antonio.

The general, who arrived here Tuesday flying alone, says it's all "stuff and nonsense" about flying being a young man's game.

"I had eight hours of instruction before I soloed," he said in telling how he bought a plane and learned to fly. "After 40 hours' solo time, I got my license on Friday, July 13, 1945. Now I've had about 175 hours of solo time."

Presidential Succession Problem Be Investigated

WASHINGTON, Mar. 14. (U.P.) — The House voted today to set up a joint house-senate committee to investigate presidential succession. The proposal now goes to the Senate.

President Truman has asked Congress for a law placing the speaker of the House second in line for the presidency.

HAVANA MAKES MERRY—Members of Cuba's Army designed these grotesque figures of Hitler and Hirohito for the opening of Havana's Carnival season. The parade, which ambled down the Prado, boasted 19 jonga lines and African Bongos as well as dozens of these giant dolls. It was Havana's first real blowout in six years.

A LAST WAR.

Uncle Sam asks Russia to move out of Iran and back to her own property. The Russians have been spreading themselves around rather largely in that area lately, presumably with a view to annexing it, or at least taking practical control. It would give them opportunity for further thrusts toward India and the Far East in general. And it would create new barriers between the East and West, with greater opportunities for Stalin and his pliant Russian followers to pursue their quest for world dominion.

It is doubtful whether Stalin will take any orders from Uncle Sam, with regard to such territorial enlargement. Sooner or later an irresistible force may meet an immovable body. And what then?

Americans want no war and no territory, nothing but to live peacefully in their own country and cooperate freely with the rest of the world. Some observers wonder more and more whether the ambitious Russian leaders will remain content to play a similar part in world history. If not, our nation might be obliged, against all its instincts and desires, to fight one last, great war for peace.

But such a war is unnecessary if Wisdom guides Diplomacy.

Wisdom, the Daily Press believes, would cause our leaders at Washington to find a way to curb Communistic preachments in this country. Unlimited free speech

sounds all right, but can be harmful to governmental stability when it continually spreads distrust of tried and true American policies.

A case in point is a Communistic daily newspaper published in New York City. This paper's sole excuse for existence is to print invidious articles damning American institutions and praising the government of Russia. Why should Americans permit its further publication?

Anticipating the Need for Future Things...

... and doing the necessary to get them is not only wise but good business in these modern, busy times. Acting under this impulse we register for new cars or an extra tire far in advance of the time we expect to get them. Since abstracting is slow, tedious work and requiring more time than the average person realizes, may we suggest that our customers file their orders in advance of their needs, with our appreciation and thanks.
