Reds Would Postpone Soviet - Iranian Show - Down

WASHINGTON, Mar. 21. (AP)—Rebuffed in efforts to postpone the United Nations Security Council meeting, Russia will attempt to delay council consideration of the Soviet-Iranian dispute.

Soviet Ambassador Andrei Gromyko told reporters today, after conferring with Sec. of State James F. Byrnes, that a delay would "make it easier to find a solution to the problem." He said Iran and Russia are now engaged in diplomatic discussions.

Only an hour earlier, President Truman had rejected a Russian request for a 16-day postponement of the council meeting scheduled to start Monday in New York.

Mr. Truman said flatly that the council would meet as scheduled. Mr. Truman also said this country would press for action on any disagreements before the council.

The United States already has announced it will ask that the Iranian dispute be put at the top of the council calendar. Gromyko told reporters the council should postpone the question, "because it is the only logical action under the circumstances, with negotiations taking place at the present time." He said these negotiations were taking place "through diplomatic channels." Postponement of council consideration of the Iranian matter would take seven out of the 11 votes on the council. Russia would have no veto on the matter.

OPA Expects Some Price Increases, But Not Too Many

CHICAGO, Mar. 21. (AP)—OPA Administrator Paul Porter said today that there will be some price increases in "a number of lines" but that cost of living items can be held "at or near" the present levels.

"There are going to be some increases in a number of lines," he told a press conference. "We think we can hold rents, food, clothing and the basic cost of living items at or near present levels."

Addressing a Chicago Association of Commerce luncheon a few minutes later, Porter said he hoped OPA could be abandoned within a year, "but that depends upon the attitude of business."

Dallas City Council Reneges On \$10,000 Donation

DALLAS, Mar. 21. — The Dallas city council has refused to pay a \$10,000 appropriation for the Dallas Symphony Orchestra. The city council voted the \$10,000 two years ago to encourage organization of the orchestra and the fund was carried over in the present budget because the orchestra was not formed last year.

City Manager V. R. Smithman Wednesday read a report from the city attorney saying the city, under the state constitution, could not appropriate the money except for free concerts in parks. Council members cited plans to raise city employees' pay as another reason for the action.

Eisenhower Says Extend Draft Law Indefinitely

WASHINGTON, Mar. 21. — General Eisenhower asked Congress today to extend the draft law indefinitely and to limit service liability of inductees to 18 months.

If that is done, the chief of staff told the house military committee, the army can release all fathers by the end of August or early in September regardless of how long they have been in service.

If it is not done, he warned, the army may fall short by 165,000 men of its estimated needed strength of 1,070,000 on July 1, 1947.

Both Eisenhower and Secretary of War Patterson argued against proposals for a shorter extension of the selective service act, which expires on May 15 of this year.

"Should the selective service act not be continued and should our recruiting program fail to establish and sustain a volunteer army of the requisite size," Patterson said, "the military position of this country, and therefore our ability to preserve the peace we have won, would become precarious."

"This country can not afford to take chances on manpower for the army," he added.

TEHRAN, Mar. 21. — Iran's 19-year-olds were summoned to the colors today in the wake of reports that three Iranian army garrisons were under attack by Kurdish tribesmen in the isolated region near the border of Iraq.

Tires May Be Bought Without Buying Tubes

The Eastland office of Price Administration requests publication of the following:

"Information reaching this office would indicate that tire dealers are requiring the purchaser of a new tire to purchase a new or used tube with a single price made to cover both items."

"This is a definite violation of the tie-in sales clause, and a purchaser may not be required to purchase tie-in merchandise of any kind."

The defendants are charged with clubbing and beating Tyler to death after he escaped from the Osaka camp and was recaptured.

Dr. Shikichi Nosu said he and his helper, Pfc. Masahiti Toyama, gave Tyler seven injections of morphine while taking him to a hospital, but that Tyler was still alive when he returned.

Ford
Our Policy on NEW CAR ORDERS

in accordance with fair procedure

We are now accepting orders for earliest possible delivery of new cars. However, as you know, there are not enough new cars for all who want them. Therefore, we want to make a clear statement of our policy . . . so that everyone will know exactly how we are handling orders for and delivery of new cars during the current shortage period.

1—We intend to fill orders for new cars in the order in which they are received. There are two exceptions to this basic rule—

2—We will definitely reserve a percentage of our cars for those who have served in the Armed Forces. We feel sure that all our customers will agree with the justice of this exception.

3—If definite need for a new car is a factor, we will, in the public interest, determine such cases on the basis of the now abolished, but publicly accepted, OPA priority lists.

This policy is in your interest. We are following it because we want to serve you fairly and well today as in the past. The Ford Motor Company and we ourselves are making every effort to deliver your new car promptly and honestly.

CHANCES ARE you've partly paid for this postwar home already in the many War Bonds you've bought.

And, if you keep on buying Bonds, it won't be long before the key to the front door is actually yours.

For, if you're like most people, you've probably found you can save more money, more easily through your regular Payroll Savings Plan than by any other means you've ever used.

So . . . wouldn't it be wise to build upon the fine investment you already have in your War Bonds . . . with a continued investment in U. S. Savings Bonds?

You can buy your U.S. Savings Bonds just as easily as you bought your War Bonds

through your Payroll Savings Plan or other official Bond outlets. You get the same high return on them—\$25 for every \$18.75 you invest!

In fact, U. S. Savings Bonds are the same as War Bonds in everything but name!

So put all your extra dollars into U. S. Savings Bonds. You'll be mighty glad you did . . . on the day they help you buy your new home!

Buy all the Bonds you can... keep all the Bonds you buy!
