Moscow-Iran Trouble Still a Mystery to U. S. Public

Only 137 Votes Cast in Yesterday's Election

The turnout of voters at yesterday's election to name three commissioners for the city of Cisco was shamefully small for a town of better than 6,000 citizens—137. While it is true that but three men were listed on the ballots for the three commission vacancies, the small turnout nevertheless spelled APATHY, and apathy never gets the job done.

The vote in detail was as follows: J. W. Slaughter, 136; Tom B. Stark, 136; S. H. McCannies, 135.

The names of Charles J. Kleiner and S. H. Nance were written in, Mr. Kleiner receiving two votes and Mr. Nance one.

Lone Star Invites All Ciscoans to Appliance Display

Men, women and children of Cisco are invited to Lone Star Gas company's open house tomorrow in its new quarters in the south wing of Laguna hotel building — to see new gas home appliances, learn about latest ideas in home planning and kitchen designing, get-up-to-date information on cookery and partake of coffee and cookies, says C. M. Burke, Cisco district manager for Lone Star. Each woman visitor will receive a set of colored plastic measuring spoons, Mr. Burke said.

The Lone Star party is scheduled to start at 9 a. m. and continue 12 hours. Official hosts will be Manager Burke and his local staff composed of Jim Sauls, Fred Grist, N. M. Coats and Miss Blanche Van Horn.

Thirteen appliances will be on display and trained personnel will demonstrate and explain their operations. The equipment will include three Servel gas refrigerators — featuring silent operation, three gas ranges with heat controls and other time and labor-saving devices, two automatic storage type water heaters, and the following appliances vented to flues to prevent "wall sweating" and other harmful results: two floor furnaces, central heating plants — that distribute warm air to any room in the house, circulating heater and a unit heater that meets requirements of large commercial establishments. A special display will point out the advantages of the year-round air conditioner that brings summer cooling or winter heating by the flip of a switch.

Seven different pieces of printed matter on house planning and kitchen designs and blue prints will be distributed at a special home planning booth set up in the center of the office lobby. A series of 25 color slides, each different design of the "New Freedom Gas Kitchen," a packaged kitchen developed by the gas industry, will be projected on a screen. The features of each design will be explained. This showing is scheduled for 7:30 p. m. Thursday in the Lone Star warehouse in the rear of the new quarters.

Miss Sue Herndon, Lone Star home economist, will make the refrigerator cookies that are to be served with coffee and they will be baked at the open house in a new gas range in view of the visitors. She will distribute copies of the current "Cooking With Gas," a recipe bulletin published each month by Lone Star's home economics department as a special service to customers. This issue of the bulletin contains the recipe for the refrigerator cookies to be served at the open house, Miss Herndon said. She will be available for consultation on food preparation and menu planning — tell how to receive the most economical use from gas appliances, and counsel with home builders planning modern kitchens.

Visitors to the open house will be directed to a series of tests which will demonstrate how Lone Star checks appliances before delivery to customers. This will be in charge of Jim Sauls. Guests will also be shown over the new quarters.

Blanket invitations have been mailed to all local organizations of men and women and individual invitations have been sent to practically every family in Cisco, Mr. Burke pointed out.

"If we missed any person," he said, "it was because we didn't know the address. In that event, please consider this a special invitation, for we want all men, women and children of Cisco to be guests at our party Thursday."

Miss Denise Cummings, home economics director at Cisco high school, has advised Mr. Burke and Miss Herndon she is bringing her three classes to the Lone Star open house. Miss Lela Latch will bring her general science students to see the operations of the appliance test rack.

NEW YORK, April 3. — Iran offered to stop pressing her charges against the Soviet Union today if the Russians withdraw all their troops, unconditionally, by May 6, and United Nations Security Council members went into secret session immediately to frame a final solution of a much-eased crisis.

The Iranian offer at a morning public meeting and a Soviet letter to the council stating that "other questions" such as oil and Iranian autonomy were "not concerned" with the withdrawal of Russian troops, provided the basis for an early morning solution of the crisis.

The tension and anxiety of early morning was broken. Even the Soviet's complete boycott of the council on Iran was cracked by the Soviet letter.

The council members — but with Soviet Ambassador Andrei A. Gromyko absent — met in secret and informally again this afternoon in Under Secretary General Trygve Lie's office.

Delegates agreed that the Soviet and Iranian replies offered "the basis" for a solution. It was significant that Assistant Under Secretary General Arkady Sobolev, a Russian, lunched with Gromyko and then went to the secret meeting to report the Soviet reaction to Iran's offer.

Boards Grant 16c Wage Hikes to 1,300,000 Rail Men

CHICAGO, April 3. (AP)—Two arbitration boards granted wage increases amounting to 16 cents an hour today to approximately 1,300,000 railroad employees.

The decisions of the arbitration boards were disclosed by rail and labor sources.

The wage increases affect 130 class I railroads.

World Not Yet at Peace, Says Sec. Forrestal

WASHINGTON, April 3. (AP)—Secretary of War Robert P. Forrestal, in another plea for the continuation of the draft, told congress today that a world-wide emergency will continue through 1947.

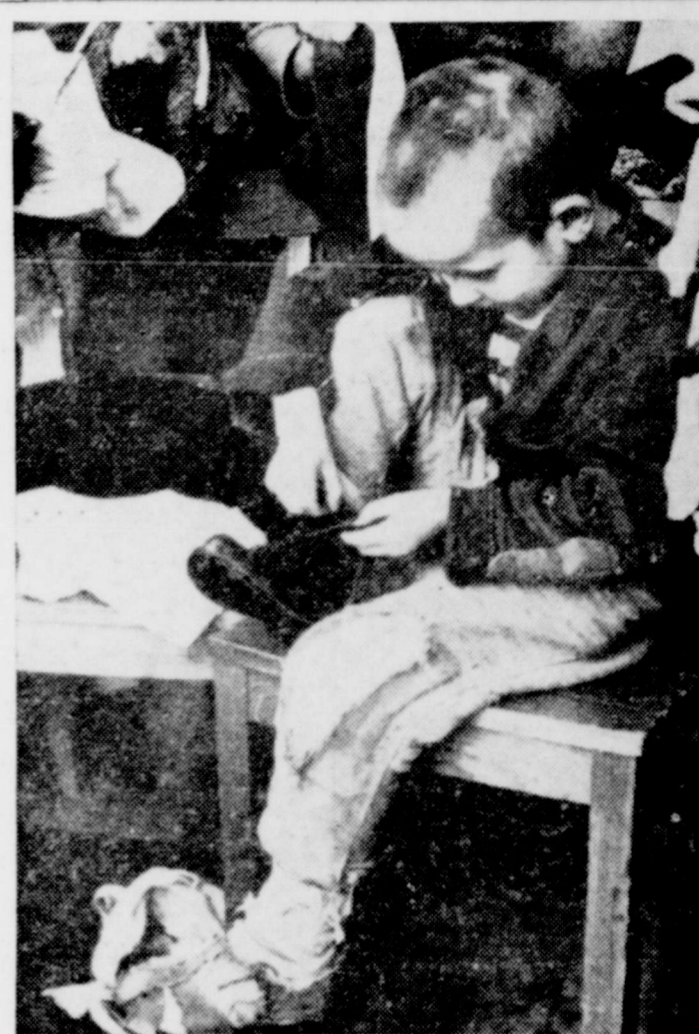

He and Secretary of Navy James Forrestal testified before the senate military affairs committee. Forrestal also cautioned that "the world is not yet at peace."

Army Chaplains Should Be Civilians, Sarge Says

WASHINGTON, April 3. (AP)—Army chaplains should be civilians, not officers, a former master sergeant told the army's "gripe" board today.

Glenn K. Kendall, telegraph editor of the Louisville (Ky.) Courier-Journal and a GI for three and a half years, said the enlisted man feels he cannot sit down with an officer and unburden his troubles.

Suggesting that personnel in the Inspector General's Department also should be civilians, he said the average soldier has no idea what his rights are, or where to complain if they are violated.

Cabaness Explains Farmers to Again Educational Phase Face Surpluses, of the G. I. Bill Says Bureau Head

Some uncertainty has been found to exist as to the eligibility of ex-service men for educational payments under the GI Bill of Rights when they take other work, says Haywood Cabaness, local service officer for the American Legion.

Mr. Cabaness stated definitely today that ex-service men who are attending college classes or taking on-job training will not lose their payments under this program if they take other work. The only requirement for receiving subsistence payments and tuition costs for attending school or taking on-job training is that the veteran so doing make passing grades—in other words that he does the work required of him in a satisfactory manner and makes progress in his courses.

These veterans may take employment at other jobs without jeopardizing their eligibility for payments under the veterans educational program, Cabaness emphasized.

WASHINGTON, April 3. (AP)—Edward A. O'Neal, president of the American Farm Bureau Federation, said today that farmers eventually will be faced with surpluses again and that the government should be prepared to prevent them from wrecking farm prices.

He told the House Agriculture Committee he believed this could be done largely through marketing agreements and orders, but that the present law restricts issuance of marketing orders to a limited group of commodities.

THOMAS DIXON DIES.

RALEIGH, N. C., April 3. — Thomas Dixon, 82, author of "The Clansman," upon which the great, silent motion picture, "The Birth of a Nation" was based, died at his home here early today after a long period of ill health. He was 82 years of age, a minister and was once highly popular on the lecture platform.

Weddington Has 85 Acres of 32-Inch Oats and Barley

Bob Weddington, owner of the huge Flying V Bar Ranch, eight miles northeast of Cisco, called at the Daily Press office this morning with an unusually fine sample of spring oats and barley, of which he has about 85 acres.

It measured a full 32 inches in length.

The oats have already started heading and will be ready for harvesting within a month, Mr. Weddington stated.

This again bears out Mr. Weddington's oft-repeated claim that there is plenty of rainfall in the Cisco Country for good early feed crops if said rainfall is husbanded according to the best methods. The Flying V Bar Ranch, together with other Weddington acreage nearby, comprises some 3,500 acres.

Roy Lane Asks Second Term as District Clerk

Roy L. Lane, now serving his first term as district clerk of Eastland county, today announces his candidacy for re-election to that office.

Mr. Lane, so far as the Daily

Press knows, is doing a good job of serving the people of the county in the important office of district clerk, hence is entitled to every consideration in asking for a second term.

In a brief letter to this paper, he expressed his sincere appreciation for the cooperation shown him by the people since he entered office and promises to continue to render conscientious service if again chosen at the Democratic primaries of Saturday, July 27.

The Senior class of Scranton high school will present "The Gate to Happiness," a three-act comedy drama, Friday night at 8:15, April 5, in the Scranton gymnasium.

This promises to be very good, and is said to bring tears, as well as laughter.

The cast is as follows: Jack Gay, Carl Bailey, Jenny Gay, Jean Ledbetter, Mrs. Blair, Christine Poe, Aunt Sara Gay, Dorothy Gattis, Edna Gay, Mary Clona Morton, Oscar Gay, Milton Speegle, Stephen Blair, Glynn Morgan, Rev. Blair, L. J. Fleming, Rex Curtis, Howard Thompson, Bunny Gay, Dorothy Morgan. The play will be directed by Mrs. Ray Battle.

Plane Talk

By JOE COULTER.

Tailspin.

The term "tailspin" has always been one of the roots of the mystery and fear surrounding flying. In the first place it is a misnomer, since the plane spins in a nose-first rather than a tail-first position. The fear of a spin was built up when the early airplanes were built without sufficient engineering knowledge. These craft were quite addicted to spinning and few of the pilots were able to recover from the position. Before the first world war a French pilot learned to recover by accident and was hired by our government at \$1,000 a day to teach the method to our pilots.

Today the fear of spins is fast melting away. With the advancement of aeronautical knowledge modern planes are built quite stable and reluctant to spin. All light planes have to be forced to spin and will recover as soon as the controls are relaxed. Our government will not license any plane that will not recover of its own accord in less than five turns.

SUBSIDIES OKAYED.

WASHINGTON, April 3. (AP)—The Senate Banking Committee today approved \$600,000,000 in material subsidies for the emergency Veterans Housing program, after detailing specifically how the funds be used.

Bowling League Finals Monday and Tuesday Evenings

Humble Pipe Line won two games from West Texas Utilities at the bowling alleys last night and Collins Hardware annexed the same number from Firestone Tire. All games were closely contested and of keen interest to the game-loving fans who packed the galleries, applauded the many "strikes" and laughed with the bowlers at disastrous "splits."

There were numerous good scores, but I. J. Henson was in trim and carried off both the three-game and single game high score honors. H. T. Huffman, familiarly known as "Cowboy" Huffman, a newcomer in league circles, made his debut with a three-game total of 618. In his second game he scored 198.

Final playoff of the league season will come next Monday and Tuesday nights, after which a banquet will be held, new playing rules adopted and new teams formed for the summer tournament. Date of the banquet will be announced later, says Dr. C. E. Paul, league president.

Monday night: Firestone vs. Cisco Gas Corporation; Gardenhire vs. Humble Pipe Line.

FAVORS ATOMIC PROJECTS.

WASHINGTON, April 3. (AP)—The Senate Appropriations Committee moved today to prevent curtailment of the army's atomic projects. It did so by eliminating from an appropriation cutback bill a provision that would have banned the building of any army structures costing more than \$20,000.

BARUCH.

The nearest approach to an "elder statesman" that we have in this country at present seems to be Bernard Baruch. Long concerned with finance, and having profited considerably in that pursuit, he is now devoting his special talents gratis to the service of his country in ways more direct than is usual in such cases. It is recognized that he has no row of his own to hoe, a fact that gives his words more weight than they would have ordinarily in any matters involving finance.

And the matter isn't one-sided, by any means. He wants a moratorium on strikes and lockouts for at least a year, by law if necessary. There must be more goods at lower prices, and more people consuming them. Baruch's advice is worth thinking about.

ENDURING.

THE world will never tire of buried towns—Of cities lost and plowed to light again. It loves to muse upon their rise and reign And undisciplined fate . . . On English downs, In valleys of the Nile the desert draws, In Mayan forests, on Ferrara's plain, With hands unresting, kindled heart and brain, Men disinter their temples, coins and crowns, Unsuspecting frescoed tombs and stones engraved With runes symbols of old creeds and codes, They ponder how this beauty has outbraved All wasting wars and time's unsparring goads. The flesh may fail, but hearts are not enslaved; Men pass . . . but not their dreams—their Roman roads. —Agnes Gray in Florida Magazine of Verse

Many have read of an economic sermon that Mr. Baruch delivered at Washington before the banking and currency committee the other day. Boiled down, it comes to this: He says we, the people of this country, are getting ourselves into a fool's paradise by ignoring the one safe economic road of full production. The sensible thing is not to hold back the economic process by fear of over-production.

NOTICE. Ex Parte, Allen C. Jones, Petition to Cancel Dedication of Mangum Townsite and Reduce Same to Acreage. In the Commissioners' Court of

Eastland County, Texas. Notice is hereby given that the following petition was filed in the office of the county clerk of Eastland county, Texas, on the 19th day of March, A. D. 1946, by Allen C. Jones, which said petition reads as follows: To the Honorable Commissioners' Court of Eastland County, Texas: Now comes Allen C. Jones, and praying for cancellation of dedications subdividing lands in Eastland county, Texas, into lots, blocks, streets and alleys, and known as Mangum, Texas, shows the court the following: 1.

That he is the owner of the following described lands, to-wit: The H. B. Horn Preemption, located near the town of Mangum in Eastland county, Texas, patented to H. B. Horn, July 8, 1901, No. 614, Vol. 31, containing 66.9 acres less 1 1/2 acres heretofore sold to J. Bryer and R. Stanley by R. L. Mangum and P. L. Mangum, 3 acres heretofore sold to Taylor Curtis by E. E. Mason and wife, 1 1/2 acres heretofore sold to J. A. Duncan by E. E. Mason and wife, all off of the East end of said H. B. Horn Preemption and leaving a balance of 59.4 acres of said preemption belonging to your petitioner. Also all of the N. 1/2 of the N. E. 1/4 of Section 42, Block 2, H&TC RY Co. Survey in Eastland county, Texas, which lies E. of the Texas Central Railroad, containing 80 acres of land, more or less. Also the P. L. Mangum 1 1/2 acre tract out of the E. end of said H. B. Horn Preemption, and the Taylor Curtis 3 acre tract out of the E. end of said H. B. Horn Preemption, all in Eastland county, Texas.

On August 26, 1907, The Mangum Townsite company, a corporation, owned the H. B. Horn Tract above described, and the N. 1/2 of the N. E. 1/4 of Section 42, Block 2 H&TC RY Co. Sur. above described, and on such date cause same to be platted into lots, blocks, streets and alleys and filed said map together with a dedication of said streets and alleys, and designated same as The Mangum Townsite Company Addition to the Town of Mangum, and filed said map and dedication with the County Clerk of Eastland County, Texas, and caused same to be recorded in Vol. 65, Page 72 and Vol. 62 page 464 respectively. The above described R. L. Mangum 1 1/2 acre tract and the Taylor Curtis 3 acre tract, both being out of the East end of the H. B. Horn Preemption in said Eastland county, Texas, were heretofore owned by said R. L. Mangum and Taylor Curtis respectively and were each mapped and platted by the respective owners into lots, blocks, streets and alleys and such maps together with dedications of such streets and alleys, designating the one as the R. L. Mangum Addition to the Town of Mangum, and the other as the Taylor Curtis Addition to the Town of Mangum, were filed with the County Clerk of Eastland county, Texas, and on July 20, 1908, the date of the plat and dedication of the R. L. Mangum dedication, he was the owner of such land, said map and dedication being of record in Vol. 65, Page 72, and on September 6, 1909, the date of the Taylor Curtis plat and dedication, he was the owner of said land, said map being of record in Vol. 74, Page 395, it being shown that all volumes are of the Deed Records of Eastland county, Texas. Said Town of Mangum was never incorporated.

The streets and alleys in said additions were never accepted by any municipality or by the public and same have never been used as such streets and alleys and are not now being so used by the public or otherwise, and it has been 25 years or more since said streets and alleys were even recognized and they have never been used at all.

Petitioner, Allen C. Jones, became the owner of all of said land on the 18th of October, 1945, and his predecessors became the owners of such lands and all of them more than 25 years ago and fenced same, and same have been inclosed with a fence and claimed and used by your petitioner and his predecessors without interruption for more than 25 years preceding the filing of this petition and still is, and all taxes on said lands have been duly paid including the year of 1945, such taxes having been paid on such lands as ranch used as ranch and farm lands for lands and such lands have been more than 25 years since such additions to said Town of Mangum have been abandoned, and during said time of more than 25 years your petitioner and his predecessors in ownership have had actual, continuous, peaceable and adverse possession of said lands and premises, and all of the same.

Wherefore your petitioner prays that legal notice be given of this application, as provided by law; that the court set a day for hearing hereof; that on final hearing the court enter its order cancelling said subdivisions of said lands, subdividing same into lots, blocks, streets and alleys, and authorize petitioner to cancel such dedica-

tions by proper written instrument in accordance with the law, and permit petitioner to continue to pay taxes on said property as acreage. ALLEN C. JONES, Cisco, Texas, Petitioner. By W. D. R. OWEN, Eastland, Texas, Attorney for Petitioner. The commissioners' court has set the day for hearing said petition on the 15th day of April, A. D. 1946. All persons who are interested in such petition and the matters and things therein described and referred to are hereby commanded to appear in said commissioners' court on said 15th day of April,

A. D. 1946, the date set by said court for such hearing, to protest, if they so desire, against said petition and the action of said commissioners' court thereon if they so desire. W. V. LOVE, Clerk of the commissioners' court of Eastland county, Texas, and also clerk of said Eastland county, Texas.

CISCO-SPONSORED ART EXHIBIT INTERESTING.

The roof of the Laguna hotel presented a dainty springtime appearance Saturday afternoon, for it was the scene of the art exhibit sponsored by the local chapter of Delta Kappa Gamma. The artist was Mrs. Beth Combes Henagan, a former resident of Cisco, now an art instructor in Abilene. Most of the pictures were of flowers and these, with the baskets of flowers placed about the room, made a very pleasing ensemble.

Mrs. Henagan's work has met with much acclaim and those who, despite the invitation extended to the public, failed to see the exhibit, missed a treat.

In the receiving line were the officers of the society and Mrs. Henagan. Mrs. C. H. Fee was in charge of the guest book; Mrs. Irby and Mrs. N. A. Brown poured tea. Piano solos were given by Barbara Grist and Yvonne Hazlewood. As the guests departed, each was given a small palette as a souvenir of a very pleasant occasion.

Those present were Mrs. Harry H. Morrow and Miss Odell Johnson of Abilene, and the following, all of Cisco: Mesdames J. E. Elkins, F. E. Shockley, Gene Shockley, Lonnie Shockley, W. R. AQUELLA

The New Waterproofing Product

This new product was developed in France for the purpose of waterproofing the Maginot Line. It is now available in Cisco at Cisco Lumber & Supply Co.

WHAT AQUILLA IS—A white powder, composed of properly balanced inorganic ingredients — ground finer than face powder.

HOW IT WORKS—When spread on surface, a chemical reaction forms an insoluble compound. By penetrating the smallest pores, the compound becomes a micropore sealer — expanding to fill each pore when dry (instead of contracting as paints do) and thus providing an absolutely water-tight seal.

AQUELLIZING IS WEATHERPROOFING INSURANCE

Protects you from the discomforts and inconvenience of dampness, moisture and humidity. Protects your health by insuring drier, cleaner, brighter basement or living quarters. Protects your investment in your home and appliances — increases usefulness, life, value of property. Economical in price.

"OIL-PLATED engines... they'd better have!"

The "haulaways" are abroad in the land! Your new car is on order—or in your mind. And now here is why any car of yours should have an OIL-PLATED engine . . .

OIL-PLATING will shield your engine's insides. It saves fine-finished surfaces from lots of wear. And that's how to raise resistance against carbon, gum, and sludge.

An OIL-PLATED engine is yours for the asking. Simply insist on filling with Conoco Nth motor oil. Conoco Nth brings its added OIL-PLATING substance. This acts magnet-like . . . joins lubricant durably to metal, so as to form protective OIL-PLATING! The process is the same in any engine. Though yours may not be new, this is an extra good time to OIL-PLATE it. For it needs a Spring oil change, and simply by getting Conoco Nth you'll get oil that OIL-PLATES —at a few cents' extra cost! See Your Conoco Mileage Merchant—today. Continental Oil Company
