## Senate Today Raised Minimum Wage Bill to 65 Cents

By United Press.

WASHINGTON, April 5.—The Senate today adopted an amendment to the minimum wage bill raising the figure to 65 cents an hour instead of the 60 cents approved yesterday. The vote was 41 to 27.

Yesterday's vote, which wrote the 60 cent figure into the bill, was 76 to 6.

The startling reversal came after other senators joined in calling the bill "a legislative monstrosity" and "a legislative dead duck."

Earlier the Senate rejected, 36 to 35, a proposal to make the minimum wage law applicable to chain stores having four or more outlets and doing \$500,000 business annually.

The Senate continued to consider amendments to the measure, despite the fact that a rider raising farm parity prices had given the bill a virtual kiss of death. The farm parity amendment was adopted by the Senate last night. President Truman has said he will veto the bill if it contains the farm parity rider.

## Army Mine Detector Finds Large Sum Stolen Money

JACKSONVILLE, Fla., April 5.—An army mine detector led postal investigators last night to the largest amount of money ever stolen from the United States mails, it was announced today.

For two years \$153,150 had rested nine feet underground in the back yard of a post office employe who sought on his death bed to tell police where the money was hidden, but whose life was taken before he could inform them.

Once postal investigators were digging in the very spot where the money was hidden, but they did not dig deep enough.

The hidden fortune was located nine feet underground, stuffed in two paraffin-sealed tin cans and two tin containers placed inside lengths of stovepipe.

The money consisted of 40 \$1,000 bills and the remainder in \$20, \$10 and \$5 bills.

## Meat Black Market Political Wizards "Legitimate Offspring of OPA" to Attempt a Poll of Texas Voters

WASHINGTON, April 5. (AP)—Chairman John W. Flannagan, D., Va., of the House Agricultural Committee, declared today that the black market in meat "is a legitimate offspring of cockeyed OPA regulations."

Arval Erickson, head of the OPA meat branch, conceded that the regulations are not working satisfactorily and that OPA should take action to keep black marketers from diverting livestock away from regular slaughterers.

DALLAS, April 5.—A poll of Texas voters will be made by a group of Democratic leaders in an attempt to ascertain the strongest liberal candidate for governor, it was learned Thursday.

The poll, it was understood, will be made in about a month.

Results will be used in an attempt to marshal the bulk of liberal strength behind the candidate making the best showing in the straw vote.

Names on the poll ballot probably will include Homer P. Rainey, County Atty. Robert W. Calvert, former Gov. James Allred and Atty. Gen. Grover Sellers.

None of these so-called liberals has made a formal announcement for governor.

Right now many Democratic veterans of the 1944 campaign are torn between conflicting sympathies, Calvert was floor leader in the victorious convention fight against the Regulars. Rainey has taken up the fight for one of the convention resolutions which demanded increased academic freedom at the University of Texas, whatever that may mean.

The real concern, however, is the desire to back a winner.

The idea of the poll originated in East Texas after an informal conference of several political leaders.

It is assumed that results of the straw vote would be placed before each of the liberal candidates and all except the high man would be asked to withdraw.

Winner in the poll would be pledged organized support of the liberals and generous contributions to his campaign fund, according to the plan.

Candidates for governor need thousands of dollars to make strong campaigns. Several wealthy liberals are keeping their checkbooks in their pockets until they can make up their minds as to which candidate has the best chance of winning.

Currently, Rainey seems the strongest extreme liberal. By the time the poll is taken, however, Calvert's campaign may be under way and he will have a better chance to prove his popularity.

Sellers' prospective candidacy is creating increased interest every day. His friends believe his position is unique in this year's fight between liberals and conservatives in that the attorney general would be acceptable to many voters in both camps.

Allred remains in reserve. If Senator W. Lee O'Daniel announces for governor, the liberals may call on Allred to carry the ball. His supporters claim he is the only man who could defeat the senator.

## Cisco Again Wallops Breck by Total of 620 Pins

Two five-men bowling teams from Breckenridge were here again last night in a vain attempt to wrest keg honors from so far invincible Cisco tenpinners. Final totals of both teams:

Breckenridge, 4,430.  
Cisco, 5,050.

A difference of 620 pins in favor of Cisco.

Six Cisco bowlers totaled 500 or more for the three games played by each, as follows: I. J. Henson, 642; H. Langford, 573; R. L. Ponsler, 536; Pete Nance, 535; Charles J. Kleiner, 505; F. Essl, 500. Single game high also went to Henson, 243.

Only two of the visitors passed the 500 mark for three games.

STUDIES OLD JAP GAME—Dr. Frank N. Freeman, Dean of Education at University of California, gets a demonstration of old Jap game of Kendo from two schoolboys in Tokyo. Dr. Freeman is in Japan at request of Gen. Douglas MacArthur to study school system.

## Good Vote Expected at Tomorrow's Trustee Election

There being competition — four candidates and two places to be filled — there is considerable interest in tomorrow's school trustee election and at least a fair turnout of voters may be expected.

The candidates are W. R. Huestis, F. E. Shepard, Charlie Burke and E. L. Jackson. The two first named are now serving as trustees and are candidates for re-election. E. L. Jackson has previously served on the school board, having resigned when he entered the overseas service. Charlie Burke is district manager for the Lone Star Gas company.

The election will be held at city hall and the following women will be in charge of the voting: Mrs. L. A. Harrison, Mrs. J. S. Mobley and Miss Ruby Love.

Under state law, the polls open at 8 and close at 7 o'clock.

## Marvin Culberson is Candidate for Lions Governor

VERNON, April 5.—Marvin C. Culberson, attorney and civic leader of Vernon, will be a candidate for the post of governor of District 2-E, Lions International, at the annual district meeting to be held at Breckenridge, May 5-6, it is announced by the Vernon Lions club.

Mr. Culberson was born at

Waxahachie and served as a lieutenant in world war one. A graduate of Trinity University and the University of Texas law school, Culberson has long been active in civic and Legion affairs. A past president of the local Lions club, as well as a charter member, Mr. Culberson is a former judge of Wilbarger county.

## High School Chorus in Program Sunday Evening

A high school chorus will present a musical program at the First Baptist church Sunday night, preceding the evening sermon. They will take the place of the regular choir, it is stated, as well as singing special numbers. The program is to start promptly at 7:45 and will be as follows:

Prelude, "Agnus Dei," Bizet; saxophone quartet.  
Hymn, "Holy, Holy, Holy," Dykes — (a) "Cast Thy Burden Upon the Lord," (from Elijah) Mendelssohn; (b) "But the Lord is Mindful of His Own" (from St. Paul), Mendelssohn; Choral club.

Piano Solo, Selected; Barbara Grist.  
(a) "Jubilate," Bortniansky; (b) "St. Theodolph," Tesvinner; Choral club.  
Offertory, "The Palms," Faure; Mary Prudence Harris.

(a), "Dona Nobis Pacem," unknown arr. FDB; (b), "Dearest Lord Jesus," Bach; Choral club.  
Rev. Landon Miller of Seminary Hill will speak immediately after the program.

## Plenty Jars and Caps Assured for Home Canning

One commendable result of wartime food shortages is that more women have learned the simple art of home canning and its many advantages. Surveys made by a leading manufacturer of fruit jars show that most new and old home canners plan to maintain their volume of food preservation. The National Garden Institute will continue to urge home canning in order to alleviate any imminent food shortages.

Supplies of jars and caps will be plentiful, says Ball Bros. Mfg. Co. of Muncie, Ind. The porcelain-lined zinc cap for Mason jars, favorite of home canners for generations is back, and so are wide-mouth Mason jars. Jars will be available in all types and sizes.

Home canning authorities advise housewives to follow carefully instructions packed in each carton of canning supplies in order to insure canning success.

## FBI and OPA Join to Fight Lumber Black Markets

WASHINGTON, April 5. (AP)—Two government agencies today joined forces to fight a black market in lumber which threatens the Veterans' Housing Program.

The Office of Price Administration and the Justice Department announced a joint program to stamp out illegal lumber markets, the "disruptive effects" of which were said to be widely felt.

**SURPLUS INCREASED.**  
FT. WORTH, April 5.—The Fort Worth National Bank has increased its surplus a half million dollars to \$3,500,000, E. E. Bewley, board chairman, announced today. Capital of the bank now stands also at \$3,500,000, providing capital and surplus of \$7,000,000.

**RICKSHA STRIKE ENDS.**  
SHANGHAI, April 5.—The 48-hour strike of Shanghai's 60,000 ricksha coolies ended today as the municipal government ordered a readjustment of payments pending further discussions.

**COMMUNISTS ATTACK.**  
PEIPING, April 5.—China Central News Agency quoted a Nationalist military dispatch from Tientsin today as saying that more than 10,000 Communist troops under Gen. Li Yun Chang have opened an attack on Tangshan, 75 miles northeast of Tientsin on the railroad to Chinwangtao.

## Russia and Iran Get Together on 3 Major Points

NEW YORK, April 5. (AP)—Announcement of a formal agreement between Soviet Russia and Iran on their three major points of contention today was seen as indicating that the United Nations Security Council will be able to wipe from its agenda the Iranian case, now shelved until May 6.

Security Council delegates received the news with considerable reserve, but some members said privately that all issues involved in the case appeared to have been resolved by the agreement, announced in both Tehran and Moscow.

Actually, the settlement achieved at the Security Council covered only assurance by Soviet Russia that its troops would be withdrawn from Iran by May 6. The formal agreement, reached in direct negotiations between the two governments, reaffirms this pledge.

The settlement also provided for the withdrawal of Iranian troops from Soviet territory, and for the return of Iranian oil fields to Iranian control.

The agreement also provided for the withdrawal of Iranian troops from Soviet territory, and for the return of Iranian oil fields to Iranian control.

**WALKING IS GOOD.**  
DETROIT, April 5.—While nearly 1,000,000 Detroiters waited for a break in the bus and trolley operators' strike that has cut off their public transportation for five days, negotiators at Lansing, Mich., sought to avert a similar walkout there.

**ARMY DAY TOMORROW.**  
Tomorrow, April 6, is national Army Day, says Rex Moore of the American Legion, who suggests that all business houses display the United States flag.

## Mrs. G. W. Pence Died This Morning in Dallas

Mrs. Fannie Pence, 71, widow of the late G. W. Pence, who died here in October, 1935, passed away at 11:15 this morning at the home of her daughter, Mrs. J. E. McDermott, in Dallas.

Thomas funeral home ambulance of Cisco will bring the body to Cisco and burial will be in Oakwood cemetery but time of funeral and burial have not been announced.

Mrs. Pence was born in Tennessee, Feb. 2, 1875, her maiden name being Fannie Bowden.

Immediate survivors are as follows: Four sons, J. M. Carl and I. J. Pence and Jesse McClain, all of Cisco; two daughters, Mrs. J. E. McDermott, Dallas; Mrs. D. F. Sparks, Corpus Christi. There are also 21 grandchildren and 18 great grandchildren.

A brother, Tom Bowden, and a sister, Mrs. Octavia Scott, live at Covington, Tenn.

**STATE TOOK OVER.**  
NEWARK, N. J., April 5.—The state of New Jersey seized and began immediate operation today of nine gas works of the huge Public Service Electric & Gas company at the hour set by six independent unions for a state-wide strike. The 1200 workers involved remained at their posts, assuring an uninterrupted flow of gas for heating and cooking to three-fourths of New Jersey's more than 4,000,000 residents.

**OPLIN WOMAN DIES.**  
BAIRD, April 5.—Mrs. Jane Agnes Dickson, 79, died at 11:30 p. m. yesterday in the home of her daughter, Mrs. A. O. Clark of Oplin, after an illness of four years. Burial will be in Oplin cemetery. Mrs. Dickson was born Sept. 6, 1866 in Schenectady, N. Y., and moved to Oplin in 1902. Her husband died in 1937.

SHOWING OFF—"Bess," proud mother, exhibits her spindly-legged 13-day-old colt, "Little Bess," to visitors at Central Park Zoo in New York City. "Little Bess" doesn't mind being in the public eye and takes the attention of her audience very calmly.

HAPPY DAD—Blaine Webb, Clarksburg, W. Va., seated, is reunited in Akron, O., with his nine sons. It was the first time they had all been together in 16 years. Gathered around their father are, left to right, Burton, 25; William, 38; Wade, 29; Glenzie, 27; Lawrence, 22; Junior, 20; and ...

### REFORM IN JAPAN.

As a tool for furthering the democratic reforms in Japan instituted under Gen. MacArthur, westernizing the language is advocated. This means substituting Roman letters for the Chinese characters used in Japanese. The "new" language, dubbed Romanji, if put into practice, would make Japanese, now considered the world's most difficult language, no more formidable for foreigners than German or French. It would have the additional and more important advantage of greatly extending literacy among the Japanese themselves.

Written Japanese is so complex that school children can learn only about 1,000 of the 56,750 characters employed in the language. Use of the Latin alphabet, long advocated by western-educated Japanese, has been resisted by the force of tradition and the fact that the government preferred an illiterate populace. With the simplification, the citizenry could be informed much more easily on world

as well as domestic affairs. Education reforms would become a reality in a short time and the entire country turned from its present feudalism to a modern nation. From reports coming to this country, Japan's conquerors seem to be making a real effort to give that country a chance at education and democracy.

### UNWELCOME SUPPORT.

Gerald L. K. Smith, the America Firster, declines to run for senator from Michigan, saying that he will support Senator Vandenberg. The latter is probably not too pleased with this. Maybe there ought to be a law protecting candidates from support by people of whom they disapprove. Of course Vandenberg could take a leaf from Woodrow Wilson's book. Heckled by a pro-German sympathizer during the 1916 campaign, Wilson replied: "I would feel deeply mortified to have you or anyone like you vote for me. Since you have access to many disloyal citizens and I have none, I will ask you to convey this message to them."

**To Our Patrons**  
Our business has been good for the first quarter of the year, and we want to express our sincere appreciation and thank our friends who have made this possible, and assure you that we will do our very best to merit your confidence and friendship. We try to be fair to the seller and fair to the buyer and square to all.  
If you have anything to sell come in and list it with us and if you want to buy come in and talk it over with us and let us show you what we have. You will like to do business with us. Ask those who know.  
We have buyers for lots and houses here that we can't sell because we do not have just what they want. Help us to meet this demand.  
Let us talk and figure insurance with you. Values have increased so much in the last two years maybe you would like to increase your insurance. We know that we can save you 20% and give you as good protection as you can buy.

## Ford Our Policy on NEW CAR ORDERS

in accordance with fair procedure

We are now accepting orders for earliest possible delivery of new cars. However, as you know, there are not enough new cars for all who want them. Therefore, we want to make a clear statement of our policy... so that everyone will know exactly how we are handling orders for and delivery of new cars during the current shortage period.

1-We intend to fill orders for new cars in the order in which they are received. There are two exceptions to this basic rule—  
2-We will definitely reserve a percentage of our cars for those who have served in the Armed Forces. We feel sure that all our customers will agree with the justice of this exception.  
3-If definite need for a new car is a factor, we will, in the public interest, determine such cases on the basis of the now abolished, but publicly accepted, OPA priority lists.

This policy is in your interest. We are following it because we want to serve you fairly and well today as in the past. The Ford Motor Company and we ourselves are making every effort to deliver your new car promptly and honestly.

## AQUELLA

The New Waterproofing Product

This new product was developed in France for the purpose of waterproofing the Maginot Line. It is now available in Cisco at Cisco Lumber & Supply Co.

WHAT AQUILLA IS—A white powder, composed of properly balanced inorganic ingredients — ground finer than face powder.  
HOW IT WORKS—When spread on surface, a chemical reaction forms an insoluble compound. By penetrating the smallest pores, the compound becomes a microporous sealer — expanding to fill each pore when dry (instead of contracting as paints do) and thus providing an absolutely water-tight seal.

## AQUELLIZING IS WEATHERPROOFING INSURANCE

Protects you from the discomforts and inconvenience of dampness, moisture and humidity. Protects your health by insuring drier, cleaner, brighter basement or living quarters. Protects your investment in your home and appliances — increases usefulness, life, value of property. Economical in price.

### Plane Talk

By JOE COULTER.

### Air Travelers.

The business men of Cisco are discovering the speed and pleasure of air travel. Instead of spending days driving or riding on the train they discover they can ride swiftly to and from business appointments by air, often returning the same day, rested and refreshed, instead of tired and dirty.

Latest convert to air travel is Charlie Moad, of Moad's Grocery. Not wanting to be away from his business too long, Mr. Moad flew to Clinton, Oklahoma, Thursday; conducted his business and was back in his store in less than twelve hours. His scenery was beautiful green countryside instead of the black line of the pavement and faded signboards. He was not slowed up by traffic in every city passed or was he at the mercy of careless drivers. One stop was made enroute where speedy and excellent service was received.

Another Ciscoan to make his first air trip recently was Charles Sandler, Cisco Lumber and Supply. He received quite an initiation for a first-timer. The airliner on which he was riding flew through a cyclone area and extreme turbulence was expected. Though the passengers were frightened, they were grateful for their safety when they learned that nine persons were killed on the ground under them while they were occupying the only safe method of travel at the time.

Veteran air travelers are Simon Coplin and H. H. Tompkins whose only complaint is that they can't

get seats often enough to make all their trips by air.

For any of you contemplating travel by airline, I have the current schedules for American and

Braniff Airlines. I shall be glad to furnish you with any information you want. When you think of air travel, call your own local airport for information or service.

Look for the famous RED WHEEL

# Results Count...

IN THE CATTLE BUSINESS, same as any where else—a ranchman may have a wonderful-looking bunch of cows and good-looking bulls. If they do not nick, the results are apparent both in the show ring and in commercial auction sales. That is, even with good pasture, chemicals, water and feed, it takes proper handling and management.

The same conditions apply to the electric business. Miles of well-constructed transmission lines, neatly-kept substations and impressive generating stations do not complete the service of an electric company to its community. It takes folks seasoned in the "know-how" of their business to render proper service and steeped in the customs of this section to sell this section's advantages to the nation.

Employees of this company are proud of their West Texas ancestry, and of their part in rendering, in addition to electric service, community service worthy of this great section.
