Nazi Scientists Hiding in Spain, Work on A-Bombs

By United Press.

NEW YORK, April 10. — Authoritative Polish sources revealed today that Poland has evidence indicating that German scientists hiding in Spain are working under the auspices of the Franco Spanish regime on atomic and rocket research.

This was learned shortly after Poland's ambassador Oscar Lange filed a formal complaint against Franco Spain with the United Nations Security Council and asked for Council action to counteract Spain's alleged threat to world peace.

Polish sources revealed that Poland's information about German scientists came from persons who recently have been inside Spain. The Polish government at present is awaiting additional documentation of the charges.

Evidence at hand, these sources said, indicate that the German exiles in Spain are working on both atomic and rocket research, as well as other types of scientific work connected with new methods of waging war.

Lange's formal complaint, filed with the Council implied that German scientists might be working on the atomic bomb.

Lange did not specify the action he wanted the council to take against Spain, but other Polish sources said Poland was thinking in terms of a diplomatic "quarantine" of Spain by all United Nations.

AMERICA IS AWARE.

WASHINGTON, April 10. — The United States is aware that there are many German scientists in Spain and repeatedly has asked that country to expel them, a state department spokesman said today.

Texas Promises Discipline, Not Navy Increased Purge, is What Oil It Needs Wallace Wants

AUSTIN, April 10. (UP)—Navy's long range guns operating from Washington today had won the battle of oil wells with the Texas Railroad Commission running up the white flag of surrender.

It was really an unconditional surrender though there was a face-saving message to Navy Secretary James Forrestal saying that an order increasing the permissible crude oil production in Texas was contingent on the Navy seeing that the additional oil was channeled to the Navy ships.

How the Navy could insure that was not made clear. Commissioner Ernest O. Thompson flatly disowned any part of that proviso. He has contended from the start that when the Navy announced a demand for the oil the Texas Commission's only legal course was to comply.

Secretary of Commerce Henry A. Wallace denied today that he desired a "purge" of recalcitrant Democrats. He said that, in fact, he opposed the late President Roosevelt's attempted purge of some congressional Democrats in 1938.

He told the Senate Interstate Commerce committee he had been "misquoted" on a recent speech before a Democratic women's committee; what he proposed, he said, was "self-discipline" on the part of the Democratic and Republican parties.

WASHINGTON, April 10. (UP)—The chairman of a House investigating committee said today that discipline apparently had broken down completely at the District of Columbia jail where prisoners reportedly were permitted to join guards in entertaining women at drinking parties.

Wagstaff of Abilene is a Congress Candidate

Cisco Daily Press is authorized to announce the candidacy of R. M. (Bob) Wagstaff of Abilene for the office of representative in congress for the 17th district of Texas.

Wagstaff is a leading attorney of Abilene, a graduate of Hardin-Simmons University and the University of Texas law school and a veteran of world war one. He represented his district in the 42nd and 43rd legislatures, being the author of much important legislation.

His wife is the former Texas Orms, whose father was the late G. W. Orms, for many years district agent for A. & M. extension service. The couple has two children, a girl and a boy.

Wagstaff's record in the legislature included authorship of the oil and gas conservation statutes, which were sponsored by the independent oil operators of this district and were passed through the legislature over the opposition of several major oil companies. These conservation statutes have been judicially construed and upheld by all courts, including the supreme court of the United States.

Other laws which Wagstaff sponsored were the Water Priority Act, the law which gives cities and towns and farmers and ranchers full priority to use of waters of west Texas streams in preference to utilities companies and hydro-electric projects; the Confederate Pension Transfer Act of 1931, under which excess funds of the highway department were transferred to the Confederate Pension fund, with provisions for later repayment, so as to make the Confederate pensions payable at a time when the pension fund was exhausted; and the first act setting aside the Big Bend Park as a state park.

Wagstaff also took a prominent part in the legislation affecting education. He supported the legislation which raised the per capita payments in 1933 from \$7.50 to \$17.50. He was also the author of the law changing the method of leasing the public school lands for oil and gas, which act provided for the selling of oil and gas leases by competitive bids. This act has resulted in the permanent school fund receiving many millions of dollars additional as bonus for oil and gas leases.

He took a leading part in the passage of the act for the assumption of the county road bonds. He was chairman of the sub-committee of the highway and motor traffic committee which wrote the act, and was a member of the conference committee which prepared the final act, which was adopted by the legislature. As a result, the state took over the payment of the outstanding indebted-

Lewis Says Coal Strike Talk Futile; Walks Out

WASHINGTON, April 10. (UP)—Negotiations to end the 10-day coal strike collapsed abruptly today when John L. Lewis dramatically walked out with the declaration that the conferences were futile.

The walkout of AFL United Mine Workers from the meeting with the operators appeared certain to force the government's hand if the strike of 400,000 soft coal diggers is to be settled before it cripples industrial conversion. It already has curtailed steel production.

The next move appeared to be up to Secretary of Labor Lewis Schwellenbach, who said the government would give the miners and operators a few more days to reach agreement on their own.

He did not immediately indicate what the government could or would do.

Keg Tournament Ended Last Night; Many Good Scores

The last games of the present men's bowling tournament setup were played last night, with Collins Hardware taking three straights from Cisco Lumber & Supply company and West Texas Utilities winning two and losing one to Nance Motor company.

The final standing of the various teams participating in the tournament has not been furnished the Daily Press, but probably will be at a later date.

Many good scores were chalked up last night, with O. W. Culwell and Lee McDonald leading in the three game totals, as well as in single game scores. Culwell's three-game total was 616 and McDonald's 604. McDonald was high in a single game with 245; Culwell, 228; C. C. Cutting, 224.

Others passing the 500 mark for three games were Guy Morris, 587; F. Essl, 512; C. C. Cutting, 511.

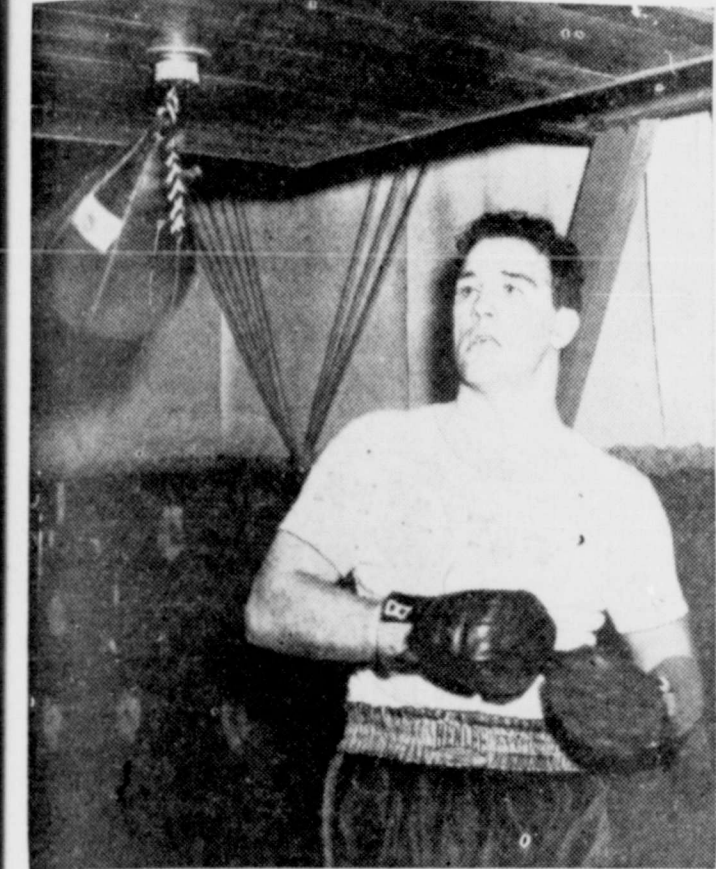

Two five-man teams from Ranger and two Cisco teams will mix it on the local alleys tonight. Play is to start at 8 o'clock.

Dr. C. E. Paul, president of the men's bowling league, says he will announce the date for a banquet to be held in Laguna hotel roof garden as soon as the program and general arrangements have been made. At that time league officers will be elected and plans made for a summer league.

AMERICANS TO TRIAL.
LONDON, April 10. (UP)—U. S. army headquarters in Europe today ordered the trials of eight enlisted men and six officers in the Lichfield brutality case transferred from London to Bad Nauheim, Germany.

NEGRO LECTURE.
Mrs. E. E. Barnett, grand secretary of the Negro Eastern Star of Texas, will lecture at St. Mark's Negro Baptist church Sunday night. A banquet will be given in her honor by the local chapter, Haynes Delight, No. 68, at the home of the worthy matron.

GETTING READY FOR JOE LOUIS—Billy Conn, who will meet champion Joe Louis at Yankee Stadium, N.Y., June 19, for a 15 round title bout, pounds away at the bag during workout at his Greenwood Lake, N.J., training camp. The fight may draw a \$3,000,000 gate.

County 4-H Club Rally at Eastland, Saturday

EASTLAND, April 10. — Plans are complete for the annual Eastland County 4-H club Rally Day at Eastland city park Saturday, says the county agent's office.

All of the 676 club boys and girls and their parents over the county have been invited. Beginning at 10 o'clock that morning the group will have a sing-song and play games until noon.

Following a picnic lunch at noon the group will retire to the high school auditorium where P. L. Crossley, county judge, will present awards won by the boys in last year's national 4-H club contests.

C. W. Jackson, extension radio editor of A. & M. College, will be present for a short talk and will likely make some recordings for his Farm and Home Program heard over WFAA at 6 o'clock each morning.

Miss Frances Barton, assistant county home demonstration agent, will present some of the 4-H club girls doing outstanding work.

Following the presentation of awards the group will see four films entitled "I Pledge My Heart," "Muddy Waters," "Kids Must Eat" and "Grow Your Own."

The group will adjourn about 3:30 p. m.

Boys scheduled to receive awards are Monte Walker, Carbon, field crops medal and farm and home electric methods medal.

James Ed Buckley, Desdemona, \$25 war bond in dairy production, a dairy medal and a safety contest medal.

Tom Grissom, Eastland, meat animal medal.

Don Maynard of Rising Star will also receive a poultry medal.

as will Frank Robinson of the Young school 4-H club, Ranger.

Jackie Leech, Cisco, safety contest.

Joe Ed Schaefer, Cisco, garden medal.

George Lane Jr., Eastland, poultry medal.

Donnie Weaver, Carbon, garden medal and Buck Gibson, Pioneer, a safety contest medal.

Billy Pancake of Pioneer will be presented with two medals, one for gardening and one in poultry.

W. T. Eaton, Ranger, will receive a medal as the outstanding 4-H club boy in the county in 1945, together with a dairy medal and a poultry medal.

Buddy Craven, Eastland, a medal in the safety contest.

George McBe, Carbon, will likely receive the most outstanding awards. He is to receive a \$50 war bond in soil conservation, a \$25 war bond for the garden contest, a soil conservation medal and a gardening medal.

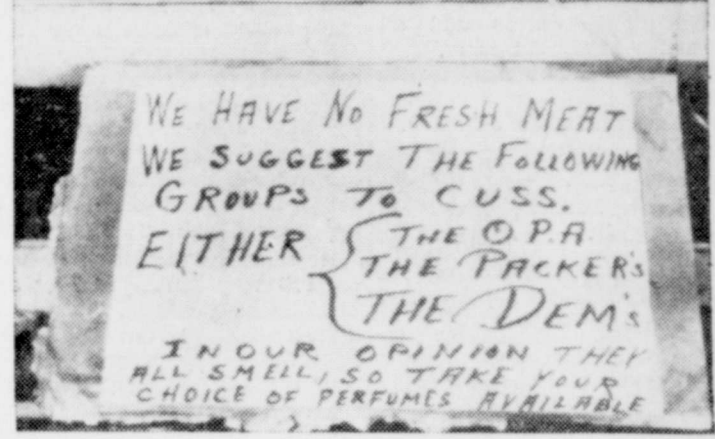

HAS FAIR CHANCE.
WASHINGTON, April 10. — It appeared largely up to President Truman today whether legislation providing for unification of the armed forces can be pushed through this session of congress. Congressional observers believed that if the President is ready to make a fight for it, the bill making land, sea and air forces co-equal in a single department of common defense has a fair chance of acceptance.

MUST RECOGNIZE FARMERS.
KANSAS CITY, Mo., April 10. (UP)—A board of trade official blamed government price policies for a "farmers' strike" today as grain receipts at this market — world's largest cash wheat center — reached the lowest point in almost 50 years.

BOARD MEMBER NAMED.
AUSTIN, April 10. — Gov. Coke R. Stevenson today appointed Mrs. Margaret Greenwood of Greenville member of the State Board of Hairdressers and Cosmetologists to succeed Mrs. Lillie Stone of Commerce, who resigned because she is moving to Oklahoma.

USO SISTER ACT—A record number of sisters and twins are in the casts of three USO shows now at Guam. Left to right, Terry Wilser (her twin brother is not shown), Yonkers, N. Y.; Page, Adair, Kay and Audrey Ladd, Minneapolis, Minn.; the Festa twins, Terry and Louise, New Haven, Conn.; Jeanne and Olive Dale, Winnipeg, Canada; and the Watkins twins, Juel and June, Rock Island, Ill.

NO MEAT!—Butcher Frank Biermeier, St. Paul, Minn., is a bit fed up with the meat shortage. So he made the sign above to let the world at large know his opinion of the whole situation. The sign hangs over his empty meat showcase.

Commission Okays The Senate Swats Plan to Beautify Price Ceilings Williamson Dam on Homes, Lots

The board of directors of Cisco Junior chamber of commerce met with the city commission last night and obtained the commission's approval of their plan to beautify Williamson dam at Lake Cisco. The commissioners pledged full cooperation.

In brief, the project is a plan whereby water will be piped to the top of the spillway and sprayed in a fine mist to form a waterfall over the entire length of the spillway.

Under this waterfall, at ten-foot intervals, will be placed varicolored floodlights.

At night the effect created would be a beautiful assortment of colors, similar to the lighting effect at SMU in Dallas, as well as elsewhere in Texas and the United States.

It will be remembered that the concrete bridge over Williamson dam is part of U. S. highway 283, a well-traveled thoroughfare, hence the display would be seen and remembered by thousands of cross-country autoists.

Ciscoans have long wanted to see water from Lake Cisco running over the dam's huge spillway, a dream which now seems about to be fulfilled.

Members of the city commission present last night included Mayor Edward Lee and Commissioners Charles J. Kleiner, A. D. Anderson, J. J. Collins, George Boyd and Henry Drumwright.

Junior chamber of commerce directors present were Charlie Burke, Jack Lauderdale, Joe Coulter, Sterling Drumwright, Charlie Moad, Ellsworth Mayer, Harold Fischer, Jack Anderson, L. D. Wyatt and Eugene Shockley.

WASHINGTON, April 10. (UP)—The Senate today denied housing expediter Wilson W. Wyatt power to put price ceilings on existing homes and building lots.

It was a defeat for the administration, which contends they are needed to stop inflationary spiraling of prices on homes and lots.

SWEDISH ACTRESS — Hollywood talent scouts found beautiful Viveca Lindfors, 24, appearing in Stockholm's Royal Dramatic Theater in Shakespeare's "Twelfth Night," and liked her. Warner Bros. signed her to a contract, and she will leave Sweden shortly for New York and Hollywood.

IGN OF SPRING—With ice cleared from Lake Mendota, Madison, Wis., University of Wisconsin crew takes to its shell for spring practice. Crew members are, left to right, coxswain Richard Kennedy, Carl Holtz, Gordon Grimstad, Paul Klein, Fred Snyder, Ralph Falconer, Godfred Gerth, Richard Trnis and Fred Sumner.

NIGHT DOES NOT FALL.

NIGHT does not fall from starry deep space, or grow like magic at some mythic god's behest. . . . Nor does it travel always east to west like some black shape the sun must keep in tow. Night comes from earth. Throughout the day it keeps below the ground, with only shadow-eyes peering from under trees to watch the skies. Across whose changing with the drowsy sun creeps. And when that sun draws near the earth's frayed rim, Night starts to crawl upon the fields, ascend the hills, and for a little time content with sunset red and gold. While these grow dim, through all the trees and all earth's blackened work, Night surges out to mingle with the stars.

near of the counties, insured for the building of state highways.

"High level of prices for products of farms and ranches is the most important issue affecting the prosperity of this district.

says the candidate in his platform. Declaring that for seventy-five years all the power and influence of the national government has been used to benefit industrial and manufacturing areas of the nation at the expense of the Agricultural regions, he stresses his support of fairness and justice for farmers and ranchers.

Wagstaff's platform includes the following:

Support of the United Nations organizations to promote world peace, adequate armed forces for national defense. Opposition to sharing the secret of the atomic bomb with other nations.

A balanced budget without further delay, and reduction of taxes to encourage business.

Farm Program — Payments for parity and soil conservation with substantial increase in parity formula. Government guarantee of parity prices. Price adjustments and removal of ceilings for benefit of agriculture, rather than average reduction and use of subsidies. Increased appropriations for farm to market roads. Extension of rural electric lines. Use of surplus farm commodities in the school lunch program. Support of government agricultural agencies.

Research to discover new uses for cotton, peanuts, maize, and other farm products. Search to discover new plants and crops suitable for this district.

The most important issue affecting the prosperity of this re-

gion is the maintenance of a high level of prices for the products of our farms and ranches. So long as we can maintain high agricultural prices, this district will be prosperous, and as a member of Congress, I intend to cooperate and work actively with the Farm Bloc in Congress to accomplish this result.

Boards and Bureaus — Abolish all unnecessary boards and bureaus, and terminate wartime agencies as soon as the reconversion period is over.

Freight Rates — Equality and uniformity of freight rates throughout the nation.

Veterans' Legislation — Adequate and generous benefits to veterans of all wars. Payment of terminal leave benefits to enlisted men.

Old Age Pensions should be increased to take care of the increased cost of living. Pensions should be equal and uniform.

Labor and Management — Settlement of strikes and labor disputes through collective bargaining with Federal Mediation.

Education — Federal aid for education, without supervision or control by Federal government.

Government Control of Business. Opposition to further centralization of government or control over private business.

RANGER TRUSTEES.

RANGER, April 10. — A. E. Crawley and A. W. Wardford were elected school trustees here Saturday. Crawley, veteran member, is secretary of the board. Wardford is principal of Ranger high school.

ON FLAME COOKERY
WITH GAS—IT'S
FASTEST, CHEAPEST
AND EASIEST
TO REGULATE!

Practically unanimous is this opinion. And it's little wonder that the modern homemaker hugs to her belief in gas cooking—flame cooking. She values it for the time and money it saves her. She praises it for its ease of control. She understands that a flame is necessary for successful broiling.

The FLAME cooks it better

Instant heat controlled to the exact degree required for any cooking job is possible only with the clean blue flame of Natural Gas. This is the basic reason why practically all cooking in this Natural Gas area is done with Gas. Is it any wonder that modernization plans specify: "A New Freedom Gas Kitchen?"
