Blanton Congressional Platform Veterans to Get First Call on Surplus Property

Below is the platform of William W. Blanton of Albany, one of the six candidates for congress from this district, all of whom are former service men. Mr. Blanton says:

To the People of the 17th Congressional District:

The next Congress, in which I hope to represent you, will have before it two matters of such great importance as to overshadow all others. One will be the problem of how to avoid another war. The other will be the great over-all issue as to whether we will keep or surrender our personal freedom. Each of these matters involves concrete issues upon which no candidate for Congress should be allowed to remain silent or to play both sides.

WASHINGTON, April 19. (UP)—The Senate today accepted the House-passed amendment to the measure giving veterans first preference in the purchase of surplus property. This completed legislative action on the bill.

Approval was voted after Sen. Scott W. Lucas, D., Ill., declared that veterans were being "given the run around" in surplus property disposal.

Sen. Joseph C. O'Mahoney, D., Wyo., said he had been assured by the war assets administration that mandatory preference would be given to veterans, even above the federal government.

MADRID, April 19. — Authoritative sources said today that Spain, in a note to the United States and Great Britain, charged that a Russian freighter unloaded 15,000 tons of ammunition at Marseille and it was distributed to "Communist centers" in France.

The Spanish memorandum, handed to the American and British envoys here, was reported authoritatively to have charged that provocative military and political activity was going on in the French frontier region facing Spain.

Some of the ammunition reaching Marseille aboard a Soviet freighter was shipped toward the frontier, informants said the Spanish government charged in the note, stressing Spain's grave view of the situation in the Pyrenees.

HELL RUN NO MORE—FBI Agent Norman McCabe, right, fastens shackles around the legs of Earl J. McFarland, who escaped from the death row of the Washington, D. C. jail. U. S. Marshal Henry Bell, left, watches McFarland to prevent a last-minute break. The killer was captured at Knoxville, Tenn.

"THIS IS NO CLIMATE FOR ME," says this South African monkey. With 75 other monkeys, he was en route to Florida when he had to spend a heatless night in the Newark, N. J., airport. Result: pneumonia. Unaccustomed to such a patient, airport workers wrapped him in a quilt, turned on the heater, and hooded for the best.

Final Lutheran Sunrise Meeting Lenten Services Sunday Expected Be Held Tonight to Be Large One

There will be service commemorating the death of our Savior tonight at 8 o'clock at First Presbyterian church. The service will be the last of a series of lenten services sponsored by the Lutheran church at Cisco. Rev. G. T. Naumann, pastor of Grace Lutheran, will conduct the service.

The theme of his Good Friday message will be "The Cross for Victory over the Fear of Death." Mrs. S. E. Hittson will preside at the organ and the Lutheran girls' choir will sing a selection entitled "Lord Jesus, We Give Thanks to Thee." The public is cordially invited to attend.

Easter morning services will be held at both Lutheran churches. The service at Christ Lutheran church begins at 8:30 and the service at Grace Lutheran church at 11 o'clock. Pastor Naumann will speak on "The Easter Miracle in Its Blessedness" at both services.

The hour for the annual Easter sunrise service to be held on College Hill Sunday morning has been set at 5:30, says Rev. Arthur Johnson, who will serve as chairman and open the meeting with prayer. Rev. Richard Crews will deliver the sermon, Rev. C. S. Moard will give a scriptural reading and S. E. Hittson will be in charge of music. The choir will be composed of singers from all participating Cisco churches.

As has been the custom since this Easter practice was adopted in Cisco, many years ago, Cisco Knights Templar will attend the services in a body. W. Frank Walker, eminent commander of the knights, says the plan is for all knights to gather at Masonic temple at 5 a. m., clothe themselves in the regalia and proceed to the meeting place in a body. He thinks at least 60 knights will be present, possibly more. The closing benediction will be by Rev. L. H. Clegg.

No Drug a Cureall to Be Injected, Then Forgotten

DALLAS, April 19. — Medical science will have no cure-all for disease for many centuries, despite recent advances with miracle drugs, Dr. Austin E. Smith, American Medical association executive said Thursday.

Cancer, hypertension, the common cold and many other diseases still remain to be conquered, Smith, secretary of the AMA council on pharmacy and chemistry, said.

He traced development of drugs since 1900. Pneumonia in that year, he said, was usually fatal in thirty-five of 100 cases. Development of serum cut the rate a little, then modern drugs reduced it to around seven in 100 cases.

Lately penicillin has brought the death rate to 2 or 3 per cent. The same results have been achieved with meningitis and other deadly diseases. The drugs have brought venereal diseases under control for the first time.

Despite the greater control and treatment afforded, he said, the need for good medical care and proper diet still is great.

"No miracle drug is a cure-all that can be injected and forgotten without addition of good medical care."

Dr. Smith spoke in the morning to students and faculty of the Southwestern Medical College and at noon to the Dallas Salesmanship club. He returned to Chicago Thursday night.

Abilene Police Arrest Man and Find Cisco Loot

ABILENE, April 19. — Abilene police were attempting this morning to determine the real name and prior addresses of a 28-year-old Cisco man whom they arrested in an alley here Thursday with approximately \$150 worth of clothing and other valuables later identified as having been stolen from automobiles at Cisco.

Detective George Bosley, who with Sgt. J. C. Welch made the arrest in the alley on North 2d between Pine and Walnut, said fingerprints were airmailed to the state identification bureau at Raleigh, N. C., because the man had a social security card giving a North Carolina address.

Chief of Police Perdue and another policeman from Cisco came to Abilene Thursday, identified the loot and returned it to Cisco, Bosley stated. Men's and women's clothing and a Shriners pin were in possession of the man when taken in custody. On information from the accused, Abilene police found a suit of clothes and a pistol at two pawn shops, where they had been pawned.

If no other enforcement agencies ask for the man to be held, Abilene will turn him over to Cisco authorities, Bosley explained.

Federal Government Strikes at Auto Black Market

DETROIT, April 19. — A federal grand jury today returned indictments charging 31 residents of four midwestern states with conspiracy to violate OPA regulations in a \$3,000,000 series of transactions in used automobiles.

U. S. Attorney John C. Lehr said the transactions reached into eight states and involved "hundreds of people." The 31 defendants live in Illinois, Kentucky, Missouri and Michigan.

The OPA, on whose allegations the indictments were based, announced that the towns of Cairo, Ill. and Murray, Ky., were the focal points of what it termed the largest "black market" auto ring in OPA history. All the cars bought in Detroit were funneled through these two towns generally to six southern and southwestern states, the OPA said.

Residents living in these two towns and in Paducah and Benton, Ky., and Detroit, the OPA said, formed used car companies or operated as individuals. Only one was a warranty dealer, the agency said. They came to Detroit, according to the OPA, purchased cars from private citizens, took them back to Cairo or Murray, and sold them there to warranty dealers from seven states.

These states were listed as Texas, Arkansas, Mississippi, Tennessee, Louisiana, Kentucky, and Illinois.

BROTHERHOOD MEETING.
About 31 men attended the Brotherhood meeting at East Cisco Baptist church last night. Jim Thomason presided and refreshments were served at the conclusion of the meeting. R. R. Harvey and J. D. Holmes of DeLeon were present, Mr. Harvey being the principal speaker.

Motor Industry Greer Garson Has of Texas Great a Narrow Escape From Death

AUSTIN, April 19. — The Texas motor transportation industry last year contributed heavily toward the education of Eastland county school children and in the construction and maintenance of the county's highway system, it was revealed today in an analysis of the industry's special tax payments released by Lynn B. Shaw, general manager of the Texas Motor Transportation Association.

The 6,423 scholastics in Eastland county benefitted to the extent of \$23,122 — \$3.60 for the education of every school child in the county or in excess of 13 per cent of the total education bill.

Trucks and buses paid \$42,616 in special taxes that went toward construction and maintenance of highways in Eastland county.

The industry contributed a total of \$39,000,000 in special taxes, a ten million dollar increase over the preceding year, and this figure represents only proceeds from gasoline and license fee taxes paid by more than 280,000 motor trucks and buses, both commercial and private, in Texas. It does not include federal or regular state taxes, such as ad valorem, which are paid by industries.

WASHINGTON, April 19. (UP)—Sen. Burton K. Wheeler, D., Mont., said today that complaints had been made to him that "there was collusion" to overcharge the army on freight shipments by men loaned to the government by the railroads during the war.

CARMEL, Calif., April 19. (UP)—Greer Garson, auburn-haired Hollywood academy award winner, was swept out to sea by an 8-foot wave while working on location today and was rescued by the operator of a fishing boat.

Health Insurance Bill Dangerous

WASHINGTON, April 19. (UP)—Dr. Edward H. Cary of Dallas and chairman of the National Physicians committee, said today that passage of the Wagner-Murray-Dingell compulsory health insurance bill would introduce "an actually revolutionary concept" in American life.

Cary testified at a Senate labor committee hearing at which Chairman James E. Murray, D., Mont., revealed that he had urged the treasury to investigate the National Physicians' committee practice of telling contributors that they may deduct contributions from their income tax returns.

I am against their plan to take eight percent of our earnings and to make us put our name on the sick book and stand in line to wait for whatever doctor they want us to have when we get sick.

I am against the bid for federal control of our schools, using federal aid to education as a bait.

Labor Unions. I am for the repeal of the National Labor Relations Act, which has put the working man and the whole country at the mercy of a handful of professional union racketeers, whose lust for power knows no bounds.

I am against the closed shop, as a denial of the fundamental American freedom to work, and as an instrument of oppression in the hands of the unscrupulous.

I am against picketing for the same reason.

I am for requiring strict accounting of union funds.

I am for making unions responsible on their contracts.

I am for making union officials subject to the anti-racketeering and anti-trust laws, from which they are now exempt.

I am for requiring the democratic control of unions by the rank and file of on-the-job members. The lack of democracy within unions lies at the root of all our labor troubles.

I am against creating any more tribunals to decide labor disputes. We already have too many boards and commissions. What we need are fair laws for our present courts to enforce.

Outside the great legislative issues, this district needs a Congressman who will do its chores in Washington. It needs an ex-overseas-GI who will give the bureaucrats a jolt when the veterans aren't getting their rights. It needs a man who knows Congress and Washington like a book and who won't have to stay up there two years before he gets started.

It needs a Congressman with enough education, experience and sound judgment to fight the cleverest opponent, and with enough courage to fight the most determined. It needs a Congressman who isn't afraid to say what he thinks.

Look at the 24 articles above for two minutes. Then take pencil and paper and write down as many as you can remember. (15 is good, 20 terrific, 24 incredible.)

Now, can you remember one other thing these assorted articles have in common? ... Every one is made with electricity—or run by electricity—or both.

It's hard to name any manufactured article that isn't partly the product of electricity. It is basic to all industry. It provides the power that makes America the most productive nation on earth.

Testing your memory again, do you know how much the cost of home electric service has come down through the years? You may not have noticed because you kept buying more electric appliances and using more electricity. But actually, the average American family gets twice as much electricity for its money as it did 20 years ago!

Low-priced electric service—friendly and dependable—is made possible by the sound business management of America's self-supporting, tax-paying electric light and power companies.

Our Policy on NEW CAR ORDERS

in accordance with fair procedure

We are now accepting orders for earliest possible delivery of new cars. However, as you know, there are not enough new cars for all who want them. Therefore, we want to make a clear statement of our policy... so that everyone will know exactly how we are handling orders for and delivery of new cars during the current shortage period.

1—We intend to fill orders for new cars in the order in which they are received. There are two exceptions to this basic rule—

2—We will definitely reserve a percentage of our cars for those who have served in the Armed Forces. We feel sure that all our customers will agree with the justice of this exception.

3—If definite need for a new car is a factor, we will, in the public interest, determine such cases on the basis of the now abolished, but publicly accepted, OPA priority lists.

This policy is in your interest. We are following it because we want to serve you fairly and well today as in the past. The Ford Motor Company and we ourselves are making every effort to deliver your new car promptly and honestly.
