Distinguished Doctors Coming To Texas Medical Session

Some of the leading medical authorities of the United States will attend the 79th annual session of the State Medical Association of Texas at Galveston May 6-9. They will discuss, for the benefit of Texas doctors, subjects of medical science in which they have won eminence. The eight distinguished guests represent such centers of medical learning as Johns Hopkins, Duke University, Mayo Clinic and University of Michigan.

Jaycees Urge All Lions Street Car to Attend Mass nival Saturday Meeting Tonight Be Worth Seeing

Cisco Junior chamber of commerce held its regular meeting last night at Laguna hotel. The meeting began by the singing of "America," and then the reading of the minutes of last meeting. The business session was then opened and the results of the recent board of directors meeting was told to the club. There were some new committees formed and the May election for new club officers was discussed.

It was also voted last night that the Juniors aid the "Cisco Lions club" wholeheartedly in the planned Homecoming celebration, except in the solicitation of funds, and that the Jaycees do not wish or expect to share in the profits from the affair.

The floor was then given to James Latimer, program chairman, and he introduced Rev. Richard W. Crews, pastor of First Christian church, guest speaker. Mr. Crews began his talk by stating that it would probably be like many of his sermons in that it would be moving, soothing and satisfying. Moving, because so many people walked out; soothing, because so many people went to sleep; satisfying, because he was never asked back again.

There were only twenty-nine members present, the poor attendance being attributed to the rainy weather.

Just before the regular serving of pie, ice cream and coffee, it was announced to the club that they should attend the mass meeting of all the business men of Cisco tonight, at the Laguna. They were also urged to bring as many guests as possible, because this meeting is of importance to every citizen of Cisco.

Joedd Winfree Issues Sound Political Platform

Joedd Winfree, of Houston, candidate for lieutenant governor and widely known throughout Texas, was a brief Cisco visitor Friday and called at the Daily Press office to place his announcement. He is well known to many Cisconians and Eastland counties and expects to return to this area at an early date for a longer visit.

Below is his political platform, which seems to be thoroughly constructive and is well worth reading:

At the time of my formal announcement for the office of lieutenant-governor of this state, I asserted that I would shortly make known a platform on which I would base my campaign and that therein I would announce some policies and reforms for the good of our citizenship as a whole.

1. When I became chairman of the revenue and taxation committee in the 48th legislature, the general fund of this state had a deficit of twenty-eight million dollars. I said we had a war to win; a hundred billion dollars federal budget to pay; and billions of dollars in war bonds; that we had to do things, and that as far as I was concerned, there were not going to be any new state taxes. That had not been the policy in more than 65 years, but it was accomplished with the aid

IT WAS TRIED.

Soon after V-E Day, Col. Edward D. Churchill, surgical consultant of the Allied Mediterranean forces, toured six German military hospital areas and reported his findings. The report is most significant in the light of efforts to make medicine the servant of politics in America. Comments on the report are here reprinted by permission of *Colliers Weekly*.

"As we all know, American doctors' care of wounded in this war has been and continues phenomenal as regards its record-breaking percentages of cures and its development of new techniques and remedies. There was considerable expectation that the German doctors . . . would have some pretty phenomenal achievements of their own to report. . . . but Colonel Churchill did not find them.

A Generation Behind.

"His overall conclusion . . . was that German handling of wounded was about 20 years behind the American procedure. Going into details, he reported that German army doctors as a rule just casually passed up badly wounded men on the assumption that they were going to die anyway, whereas our doctors fight to the last gasp for every wounded man's life, and frequently win. . . .

"As for professional pride in pulling off near-miracles of cure or amelioration, such pride just was not in the bulk of German military physicians and surgeons. . . . They were victims of apathy and lack of ambition which would enrage a typical American doctor. This is a sad backside from Germany's proud position as world leader in medicine and surgery in the pre-Hitler days.

How Did It Happen?

"Are there any lessons in it for us? It began to happen soon after Hitler saddled his brand of totalitarianism on Germany. It seems reasonable to conclude that it happened because Hitler saddled Nazi totalitarianism on Germany. . . . In Nazi philosophy, your race and politics matter for more than your brains and talents.

You might be a brilliant physician or surgeon or research scientist, but if you were a Jew or an anti-Nazi of any description, you had to get out of Germany if you could. . . . go to a concentration camp if you couldn't get out. Thus Hitler and his crew decimated German science. Their master-race convictions, too, led logically to the use, in some concentration camps, of 'humans of inferior' breed as guinea pigs for . . . laboratory experiments.

Medicine vs. Politics.

"Ruled by the politicians and browbeaten by Nazi gangsters, German medicine (on the strength of Colonel Churchill's findings, at any rate) withered and, in due time, the German armed forces paid, in . . . bigger death tolls than they need have suffered." Here is the sound conclusion reached by *Colliers*, a conclusion in which America's best doctors concur:

"The lesson in the German experience seems clear enough. . . . There is no substitute for a free, bold and inquisitive medical profession or for generously financed and expertly staffed medical research, carried on year-in and year-out. It is devoutly to be hoped that the lesson of the German medical collapse will not be lost on us."

PUTNAM MAN INJURED.

BAIRD, April 30. — Bob Langston, about 75, of Putnam, is in Callahan county hospital here for treatment of injuries suffered Monday afternoon when he was struck by a car on highway 80 in Putnam. Name of the automobile driver was not learned. Langston's condition is not serious, hospital attendants said. He suffered face and hand lacerations.

By United Press.

WASHINGTON, April 30. (UP)—Sen. Hugh Butler, R., Neb., today introduced a joint resolution which would authorize livestock and poultry feeders to meet the government's premium prices on grain.

The government is offering farmer's a 30 cent a bushel bonus on both corn and wheat to obtain the grains for shipment to famine areas abroad.

Butler said Congressional action is needed "to prevent this government program from stampeding the millions of producers of dairy products, meat and poultry into slaughtering their herds."

All Signs Indicate Reds Are Hunting Trouble

VIENNA, April 30. (UP)—Two Russian P-39 fighters harassed Gen. Mark W. Clark's personal B-17 Flying Fortress while it was enroute to Paris, it was disclosed today.

Explosion Rips US Solar, Kills 7 and Injures 14 Others

LEONARDO, N. J., April 20. (UP)—A three-inch shell exploded in a sailor's arms here today and touched off a series of blasts which ripped the Destroyer-Escort USS. Solar into a twisted hulk.

The navy said officially that seven men were missing and probably dead, more than 14 others were in hospitals.

By JOE COULTER.

The outstanding success of the first showing of the new model personal planes Sunday was quite gratifying. I want to thank the people of Cisco for the interest shown and the impression made on those from out of town. We are rapidly gaining the reputation of being an aviation minded community.

The airplane you saw Sunday has incorporated into its design a number of safety features which shows the progress of the industry. The tricycle landing gear with a steerable nose wheel made the ship easy to land and handle on the ground, in spite of the excessively high wind. The electric starter eliminates the practice of turning the propeller. Many of you saw a good demonstration of its spin-proof characteristic when you saw the airplane brought almost straight down for more than a 1000 feet in a stalled attitude.

The dealer who demonstrated the airplane was quite pleased with the large crowd which attended. He was further rewarded by an order from R. L. Ponsler for a new Ercoupe to be delivered as soon as deluxe equipment is available.

Due to the exceedingly rough air Sunday. We were reluctant to give demonstration flights to all who were interested. We are trying to get the airplane back so that those of you who wanted to fly it will have the opportunity.

IN WORKING MOOD.

WASHINGTON, April 30. (UP)—Speaker Sam Rayburn of Texas today outlined an ambitious spring legislative program for the House and said "we'll stay here until we get through."

Jap Communists Had Planned to Kill MacArthur

TOKYO, April 30. — Gen. MacArthur was marked for death May Day — tomorrow — with hand grenades and pistols "some time during the Communist demonstrations" near his headquarters, his office announced today.

American authorities learned of the assassination plot through one of the participants whom Hideo Tokayama, the accused but unapprehended leader, attempted to poison, said Brig. Gen. Frayne Baker, MacArthur's public relations officer.

The Japanese government officially presented its apologies at MacArthur's office as reports of the plot — spreading like wildfire through Tokyo — stirred Japanese fears of harsher occupation policies.

Kyuchi Tokuda, general secretary of the Communist party, quickly said the Communists weren't involved and added, "We have absolutely no reason to do away with General MacArthur."

Tokayama, former Kempeitai (thought police) officer who later became a kamikaze (suicide) pilot, was known to possess grenades and pistols, Baker said. He was engaged for some time in preliminary arrangements to "enlist assistance" in a plot to kill MacArthur a headquarters statement added, and had accumulated 140,000 yen for the purpose.

"At one time in his negotiations he attempted to kill, by putting poison in his coffee, one of the plotters because he felt this man would fail," the announcement said. "Fortunately, the poison was not immediately fatal. He was taken by the Japanese police to an American hospital, where through experienced assistance he was revived and detailed parts of the plot."

Senator Rebuked Coal Strike Not Cotton Textile Handled Right; Men at Hearing Fuller Resigns

WASHINGTON, April 30. (UP)—Two cotton textile officials today asked congress to abolish price controls on cotton and drew a rebuke from senate Democratic leader Alben W. Barkley, Ky.

They testified before the senate Banking committee which is considering legislation to extend price controls beyond the June 30 expiration date.

Barkley interrupted to say—"You want controls off cotton. The meat people want controls off meat. The wool men want controls off wool. If the congress tries to grant all these requests we might as well repeal the act outright."

Junior College Beauford Jester Maypole Dance in Radio Speech Thursday Night Saturday Night

Cisco Junior college will crown its fifth queen on Thursday, May 2, 8 o'clock, the ceremonies to be held at Chesley Field, when 24 beautifully gowned Junior College girls will be seen in the Maypole dance.

The Maypole will be gay with flowers and streamers of pastel shades, says C. J. Turner, college registrar.

Representatives have been invited from all Cisco public schools and from surrounding communities.

The annual event will be presented under the lights at the Lobo football field and promises to be one of the best programs of the season. Cisco citizens, Mr. Turner added, are invited and urged to attend and enjoy the occasion, while also demonstrating their interest in the schools of Cisco.

CORSICANA, April 30. — The 1946 Texas political season is set for the kick-off Saturday night, May 4, when Beauford Jester opens his campaign for Democratic gubernatorial nomination in Corsicana where his home-town friends are planning a court house lawn rally.

Mr. Jester, a member of the Texas railroad commission, has been provided with a state-wide radio network over which to tell the people of Texas about his "People's Path" upon which he asks promotion to the state's highest elective office. The broadcast will begin at 8:30 p. m. over Texas state network and several additional stations.

Commissioner Jester is expected to plead for state unity because his first announcement stressed "The people of Texas are entitled to first consideration in all public matters."

PEACE IN SIGHT.

TEHRAN, April 30. (UP)—Unofficial reports circulated today that Azerbaijan Province representatives, at a conference at Jaxadieh, had accepted a shran government proposal for settlement of their differences.

DEFENDS HEALTH PLAN.

WASHINGTON, April 30. (UP)—President Truman today emphasized that his national health plan would not supplant existing programs of medical and hospital services, particularly medical care for veterans.

TOO MANY LOOPHOLES.

WASHINGTON, April 30. (UP)—Sen. James O. Eastland, D., Miss., said today that loopholes in U. S. espionage laws conceivably could allow a foreign power to get its hands on radar and electronic equipment classified as secret by the armed forces.

HE'S GOT SOMETHING THERE—Capt. Richard J. Gorman finds a solution to the caddy problem. He rigged up a harness for Zepp, a Doberman Pinscher, and put him to work hauling his clubs around the East Hartford, Conn., Country Club.

BAD GIRL—Burma, 35-year-old elephant, is pretty subdued as her trainer, Roy Hauzer, loads her into a circus wagon. But it wasn't always like this. Burma went on a 30-minute spree through Marion, Ohio, tearing down porch rails and scaring people generally until Hauzer recaptured her.

UPPITY NATIONS.

Joedd Winfree---

(Continued from Page One)

Some nations today seem to be acting like spoiled children. They are disposed to "stand up for their rights" for the sake of principle or prestige or from plain stubbornness, no matter what it costs. They are afraid of "losing face," when a delicate issue arises, and claim more than they have a right to, or more than it is wise to ask for. They act like "prima donnas" and think it beneath their dignity to compromise.

But there will have to be a lot of claims abandoned and dignities shed in many lands, before the world is restored to normal -- or perhaps one should say -- before the world goes forward into dependable peace. Russia particularly will need to pipe down, and the quarrelsome little nations of Central Europe must calm themselves, and even Uncle Sam, though for the most part a "good egg," as we say, will find it necessary now and then to yield a stubborn point, to keep the international system from blowing up.

Probably never in modern history has it been so necessary for statesmen to walk warily, and for nations to treat each other courteously and fairly.

tax bill that was offered in the 48th legislature. The general revenue fund is now out of the red, has more than twenty million dollars to its credit, and we now have from taxes, a state income of more than ONE HUNDRED AND FIFTY MILLION DOLLARS A YEAR. Texas business affairs are in a healthy state and if you elect me lieutenant governor, I shall do my best to see that no new taxes are voted on the citizenship of this state during my tenure of office. I am opposed to any new state taxes; favor instead, the wise, economical use of funds already available.

2. Based on my experience during the last twelve years as a legislator and on the problems that we have before us at this time, next regular session of the legislature, immediate steps be taken to redistrict this state into new senatorial and representative districts. This is a mandatory provision of the constitution of this state, as stipulated in article 3, section 28 of that sacred document which declares that the legislature SHALL, at its first session,

Never Knew THAT IT WILL REQUIRE APPROXIMATELY 14,000,000 FREIGHT CARS TO HAUL THE COAL PRODUCED IN THE U.S. THIS YEAR

after the publication of each United States census, so apportion this state. This the legislature has failed to do for the last twenty years. Because of the shift in population during the last two decades, and the failure of the legislature to redistrict the state, the citizenship is not now properly represented on a per capita basis.

3. At this time, a system of farm to market roads seems to be contemplated and to be in the making, a result of cooperation between the state highway department, the various county commissioners and chambers of commerce I urge that this be followed up, developed and pushed with all vigor; in fact, I think that the farmers and ranchers of this state are entitled to a network of farm to market roads second to none in the nation, and I pledge my efforts, if elected your lieutenant governor, to bring about this accomplishment.

4. I believe that dams in ravines, branches, creeks and rivers will tend to conserve our land, hold our water, raise the water level and control floods. To this policy I pledge my efforts.

5. I think that school teaching is the poorest paid profession on earth, that teachers get less for their efforts, their responsibility and their ability, than any class of workers that I know. I believe they have as much to do with the moulding of the citizenship of this state as any class of our citizens. I think the axiom which states that "the laborer is worthy of his hire" should apply in their behalf. I am in favor of raising the salaries of the school teachers of this state, including all divisions of employment, from the one-room school up to and through our colleges.

6. The people of this state have by overwhelming majorities put into our constitution a provision for old age assistance. Every vote that I have ever cast as a legislator has been in line with that view. I have been for 12 years, and am

now in favor of a liberal old age assistance policy for this state. I have said on many occasions that God and nature gave us a state with vast resources, that our forefathers and the present people who have attained the age of 65 years, developed it and made it a good place in which to live, and that we today, should be appreciative of their efforts and accomplishments.

MRS. J. E. CRAWFORD HOSTESS TO 42 CLUB.

Mrs. J. E. Crawford was hostess when the Thursday Forty-two club met Thursday in her home. Decorations of seasonal cut flowers adorned the room where four tables of players participated in the afternoon games.

At the close of the games the hostess was assisted by her sister Mrs. A. T. Boland in passing refreshments of strawberry ice and ice box cookies with favors of pansy buttons to Mrs. W. W. Fewell, Mrs. Frank Leach, Mrs. D.

BREAD FROM POPCORN — Catherine Coyne, Chicago, holds the first of a few loaves of bread made from popcorn flour ground at a Chicago wholesale bakery. The new product reportedly tastes superior to ordinary wheat bread and to be put on the market shortly.

FLAG WEARER — Audrey Capmano, of Adelaide, Australia, one of 410 Australian war brides who arrived in San Francisco on the SS Monterey, proudly wears an American flag sweater she knitted during the trip from "Down Under." She'll join husband in Pittsburgh, Pa.

DANGER AHEAD!

GET YOUR CAR SERVICED FOR SAFETY!

THERE'S NO PLACE LIKE "HOME" WHEN YOUR FORD NEEDS ATTENTION!

EXPERT SERVICE

GENUINE PARTS

●● Careful driving alone cannot insure safety. Unless your car is in good operating condition, there's danger ahead! ●● Remember—many motoring accidents are due to faulty brakes. Do you know whether your brakes will stop your car within the margin of safety? The sure way to find out is to bring your Ford back "home" for inspection. Your Ford dealer's expert mechanics will check it thoroughly—including brakes, wheel alignment, tires, lights! ●● As cars grow older, they require more attention to keep them rolling safely and maintain high trade-in value. With the return of many veteran mechanics, your Ford dealer can now offer you fast, expert service. He uses genuine Ford parts and saves you time and money on any job. Remember—Ford's out in front in service, too!
