Make This Home Recipe To Take Off Ugly Fat
It's simple! It's amazing, how quickly one may lose pounds of bulky, unsightly fat right in your own home. Make this recipe yourself. It's easy—no trouble at all and costs little. It contains nothing harmful. Just go to your drugist and ask for four ounces of liquid Barcinate (formerly called Barcol Concentrate). Pour this into a pint bottle and add enough grapefruit juice to fill the bottle. Then take two table-spoonful twice a day. That's all there is to it.
If the very first bottle doesn't show the simple, easy way to lose bulky fat and help regain slender, more graceful curves; if reducible pounds and inches of excess fat don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back. Follow the easy way endorsed by many who have tried this plan and help bring back alluring curves and graceful slenderness. Note how quickly bloat disappears—how much better you feel. More alive, youthful appearing and active.

Britain Learns War Neurotics Less Effective

LONDON, May 3. (UP)—Soldiers discharged from the British army because of neuroses have become more self-conscious, less sociable and less interested in their jobs than they were before the war, according to a Ministry of Health report.

A group of 392 demobilized soldiers selected from rural, town and city areas by a military psychiatrist, Dr. Eric Guttman of Mill Hill Emergency Hospital, showed great difficulty in readjusting themselves to civilian life.

Even 15 months after their discharge, Dr. Guttman said, they formed a population with a high incidence of neurotic complaints and illness.

The majority tended to delay their return to work and changed jobs frequently. They also showed a high rate of absenteeism due to sickness requiring medical attention. In their private lives, they were found to be less active, liable to social frictions and generally unhappy.

Dr. Guttman said three-fourths of the men had marked neurotic traits before enlistment while one-half complained of physical ill-health before joining the army.

Nazi Homeless Children Pose Problem to US.

WASHINGTON, May 3. (UP)—American military government officials in Germany have reported to the war department that there are 50,000 illegitimate children in Berlin alone and a proportionate number throughout the country.

The Nazi desire for an increased birth rate and a resultant state sanction on illegitimacy was given as the cause. By law the Jugendamt (welfare department) is the legal guardian of every illegitimate child born in Germany, the report stated.

Most of these children are placed in foster homes or institutions when they cannot be given care by their mothers or by relatives. The child may be placed for adoption when the mother grants permission.

German child welfare authorities report to the military government officials that the whereabouts of many of the mothers is unknown and hence it is impossible to place their children for adoption. They have more requests for adoptions than they have children who can be placed.

Under the Nazi system, all foster or adopted children were placed in homes of "reliable party members" irrespective of the welfare of the child. Military government authorities are reviewing these placements, which were made prior to the occupation.

The child welfare and youth programs of the Nazi Reich collapsed with the capitulation of Germany. Occupation forces were faced with the problem of providing care for expectant and nursing mothers, indigent and working mothers, orphans, illegitimate homeless children, neglected and handicapped children and juvenile delinquents.

SAN FRANCISCO, May 3.—Six explosions shook Alcatraz Island today and U. S. Marines and prison guards mobilized bazookas, demolition bombs, hand grenades and other weapons of war to strengthen their attack upon a band of desperate convicts blocked in an escape plot.

At 1 p. m., central standard time, almost 24 hours after the battle began, besiegers began shooting mortar shells into the rebel stronghold.

Three cases of TNT and two demolition experts were sent to the island, along with a supply of gas masks — indicating possibility that chemical warfare would be opened against the holdouts.

Fifteen-pound "shake" bombs designed to blow down cement walls, were dispatched to the embattled island on authority of Gen. Joseph Stilwell, commander of the Sixth army.

It appeared prison authorities may try to demolish a cell block barricade, where besieged desperadoes were holding out with unabated fury.

Two prison officers were dead and 14 wounded, Warden James Johnston urgently appealed for and obtained an arsenal of the most modern combat equipment.

Leathernecks from a landing detachment of 20 lobbed grenades inside the shell-proof cell block. Teaming with the depleted ranks of battle-weary prison guards, they braved a cross-fire from trapped convicts to open a blazing offensive aimed at suppressing the mutineers.

State-paid Bonus For Vets Favored by Light Majority

PRINCETON, N. J., May 3.—A slight majority of the American voting public tell the Gallup Institute they would be willing to pay higher taxes to have their state governments pay a bonus to war veterans of their states.

As of the present about three-fourths of the states have given some consideration to proposals calling for state bonuses for veterans. Connecticut, Massachusetts, Vermont and New Hampshire have already made definite provisions for such bonuses.

Public thinking on the issue is measured by replies to the following question asked by field reporters in all parts of the United States:

"Would you be willing to pay higher taxes to have your state government pay a bonus to war veterans of this state?"

The replies of everyone questioned:

Yes 52%
No 39
No opinion 9

The veterans in the survey are the ones who bring the proportion in favor of paying higher taxes for bonuses above the 50 per cent mark. They vote yes to the question by a large majority, while the rest of the voting public, excluding veterans, approve the idea by just 50 per cent.

There are, of course, wide differences of opinion as to how much such a bonus payment should amount to.

Among the 52 per cent favoring the bonus some would pay out as little as \$20. Others would have the bonus amount to \$2,000 or more. However, the amount which comes closest to representing the views of all voters, the median average, is \$200. This includes the views of everyone in the survey. Two hundred dollars is the middle amount; the number who would favor a higher amount than \$200 is exactly equal to the number who would favor a lower amount, or nothing at all.

Coal-burning RR Passenger service Be Cut in Half

WASHINGTON, May 3. (UP)—Transportation Director J. Monroe Johnson today directed coal-burning railroads to cut passenger service by half beginning May 15. He previously had ordered a 25 per cent cut in passenger service, effective May 10 and instructed railroads to haul only essential freight.

In the face of further crippling developments arising from the coal strike, he decided to ask the coal-burning roads to chop their passenger business by another 25 per cent on May 15.

Livestock, Meat Controls to Remain Says Truman

WASHINGTON, May 3. (UP)—Pres. Truman said today that price controls on livestock and meat will be maintained as long as there are inflationary pressures on meat prices.

The White House issued a statement saying that in the last few days there had been "unfortunate misinterpretations" of the government's intentions in regard to price and distribution controls on meat.

Arab Mob Chants 'Down With Britain and America'

JERUSALEM, May 3. (UP)—A clamoring mob of 15,000 Arabs, chanting "down with Britain and America" and "shame on Atlee and Truman," spearheaded an Arabic general strike in Palestine today with a march on the old city of Jerusalem.

One million Arabs are on strike in protest against a British and American commission report on Palestine.

Mrs. R. V. Rendall and daughter Mary Jane have returned from Fort Lauderdale, Fla., where they have been at the bedside for more than a month of Mr. Rendall's mother, Mrs. R. J. Rendall, who succumbed to cancer on April 18.

Deceased and her husband, R. J. Rendall, visited in Cisco last summer with their son and wife. Mrs. Rendall underwent major surgery in December and R. V. Rendall was called to Florida because of the critical condition of his mother at that time.

The final rites were held in Fort Lauderdale where the couple had spent the winter and burial was made in Fort Lauderdale cemetery. Mr. and Mrs. R. J. Rendall were natives of Princeton, Ind. Besides her husband and son she is survived by her daughter Mrs. Ben Bletzer of Fort Lauderdale, and five grandchildren, two in Florida and Lenora, Robert and Mary Jane Rendall of Cisco.
