*Maybe you aren't this big a nut about cars*

Maybe you're able to resist taking your engine apart—as long as it runs swell. That's generally enough for most anybody—no matter how curious he is to see Conoco N<sup>th</sup> motor oil in the act of OIL-PLATING the engine's insides.

OIL-PLATED engines aren't forever having the top opened up to see about carbon—nor having the bottom opened up to see about sludge. Carbon and sludge are the camp-followers of wear. But OIL-PLATING is in the best position to oppose wear—because it is fastened and held direct to inner sur-

faces. This is accomplished by the magnet-like action of an added material in Conoco N<sup>th</sup> oil—patented.

OIL-PLATING is an addition—a durable protection—to the engine's fine inner finish. Ask new car owners and you'll find them widely adopting OIL-PLATING. This time, with this new car, they want to start out right. . . . And should an older car logically have anything less than the safeguard of OIL-PLATING! Then get Conoco N<sup>th</sup> motor oil—at Your Mileage Merchant's Conoco station—now. Continental Oil Company

*Sharing a party-line telephone!*

If you're sharing a telephone party line, you're helping someone else here have telephone service now. Otherwise he'd likely be waiting his turn for service.

Party-line service is one way of stretching the telephone system here—to serve as many people as possible now instead of asking some to wait until we've had time to put in the wires and cables and switching equipment needed to serve everybody who is waiting.

It's a big job—catching up with four years of backed-up demand. But we're hard at it. As soon as possible, we'll bring service to everybody who is waiting for it. And, after that, we expect to be able to furnish one-family telephone service to those who want it.

**'GOOD NEIGHBOR' SUGGESTIONS for party-liners**

Before calling, please listen to see whether the line is in use. If it is, hang up gently and try your call again a little later.

When talking, remember your party-line neighbor—he may want to make a call—so please be reasonably brief.

Between calls, try to allow a little time so the other people on the line may have the opportunity to use it.

Ask the children to follow these good neighbor suggestions, too.

Thanks a lot.

### New FRAM Filcron Oil Filters

With automobile production delayed, you may be driving that old car of yours a long time yet. So play safe. Get the amazing new Fram Filcron oil filter . . . proved by the Army and Navy on every battle front . . . to reduce motor wear, save costly repairs and help lengthen the life of your car.

Visit Your Service Station Today

Yes, now's the time to visit your service station or dealer and have them make the Fram Dipstick Test. The Dipstick tells the story! If oil shows dirty\*, have them install an efficient Fram Filcron filter to remove dirt, dust, grit, carbon, sludge and harmful abrasives that accumulate in your oil and grind away vital motor parts. You've everything to gain, nothing to lose, because every Fram Filcron filter is backed by an iron-clad, money-back guarantee.

If your car is already filter-equipped, put in a Genuine Fram Replacement Cartridge to get the most out of your present filter. There's a Fram replacement cartridge to fit most any type of filter . . . so visit your service station or dealer today for the free Fram Dipstick Test. FRAM CORPORATION, Providence 16, R. I.

\*Certain heavy-duty oils, due to the detergent additive used, will turn dark in color almost as soon as put into the engine. Where such oils are used, filter cartridges must be changed on a mileage basis.

## Operators Refuse Demand for a Huge Welfare Fund

### Mayor Lee Assigns 72 Visitors From Colorado City Enjoyed Visit Here

At the regular meeting of the city commission last night, Mayor Edward Lee assigned the five city commissioners to the following positions:  
Street Commissioner—S. H. McCanlies,  
Police and Fire Department—George Boyd,  
Water Commissioner—J. J. Collins,  
Sanitary Commissioner—J. W. Slaughter,  
Finance Commissioner—Tom E. Stark.  
Commissioner Stark was also named mayor pro tem and the Cisco airport was placed in his charge.

### 72 Visitors From Colorado City Enjoyed Visit Here

The senior class of Colorado City high school today completed a three-day vacation spent at Lake Cisco and departed for their homes. The party numbered 66 seniors and six others — H. M. Morton, high school principal; Miss Mabel Phillips, Miss Jane Merrill, senior sponsors and three room mothers, Mrs. H. I. Berman, Mrs. Euell Henderson and Mrs. Chester Hart.  
The visitors were quartered at the Presbyterian encampment grounds near the lake and during a visit to the Daily Press office this morning Mrs. Henderson and Miss Phillips said they were delighted with their stay at Lake Cisco and hoped to make a repeat visit next year. They called particular attention to the friendliness and hospitality of Cisco merchants and citizens.  
Activities while here included skating, swimming, dancing, bowling, hiking, various games and picnics.

### LaGuardia Getting Reckless in Wheat Recommendations

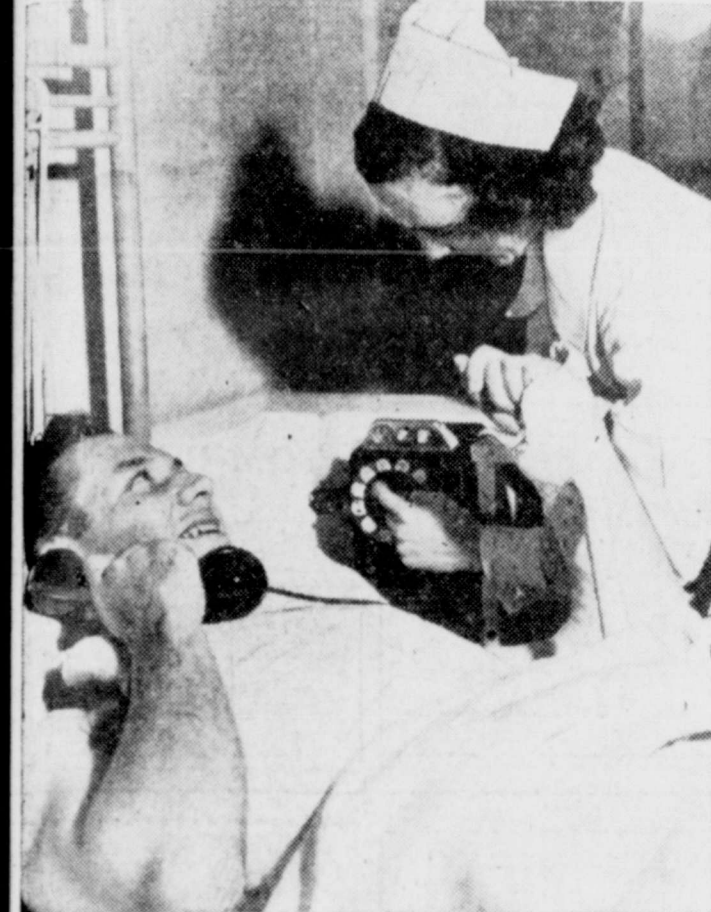

WASHINGTON, May 15. — The soft coal wage negotiations were broken off indefinitely today after the operators flatly rejected John L. Lewis demand for a \$70,000,000 welfare fund.  
Forty minutes after the afternoon session began, the representatives of the coal industry and the United Mine workers left the room.  
Government Mediator Edward F. McGrady announced that the conferences had adjourned subject to call.  
The breakdown raised the possibility of new government action in the dispute — possibly including later seizure of the mines despite the government's reluctance to take that step.  
Reconversion Director John W. Snyder said President Truman would use every power at his command to prevent resumption of the coal strike when the present truce expires May 25.

### Senate and House Labor Committees Merely Kill Time

WASHINGTON, May 25. — The Senate Labor Committee today approved a resolution calling for an investigation into the causes of labor unrest. Some members hoped the so-called inquiry could be used to stall adoption of rigid anti-strike legislation.  
Committee Chairman James E. Murray, D. Mont., estimated such an inquiry would take "several months."  
He said the question whether the resolution would win full Senate approval before pending labor legislation is acted upon "depends on the temper of the Senate."  
Meanwhile, the House Labor Committee defeated 7 to 5, a resolution by Rep. Ellsworth B. Buck of New York, to set aside pending wage-hour legislation and take up bills aimed at the coal strike.

### US. Olive Drab Paints Cut to 30 Cents Gallon

DALLAS, May 15. — A drastic price reduction to 30 cents per gallon for olive drab paint in all government surplus quantities of 500 gallons, was announced Tuesday by Hamilton Martin, War Assets Administration Regional Director in Fort Worth. The new fixed price desired for quick disposal of all the drab colors includes enamels, primers, stains and dyes.  
Minimum orders of 500 gallons may be made up of one or more drums or any combination of the units offered. Containers range from one gallon cans to 50-55 gallon drums.  
Included in the offering are interior and exterior maintenance coats of a wide variety of specifications in gloss, semi-gloss, and flat finishes, air-drying and baking enamels, aircraft dopes, lacquers suitable for the many types of industrial and commercial products, stains for wood, metal and brick.  
At the new low price of 30 cents per gallon, the offering will be of particular interest to the following types of buyers: Industrial plants public institutions, state and municipal street and highway maintenance departments, industrial machinery and equipment manufacturers, operators of mining properties, airports and flying

### Correct Address of Former Cisco People Desired

President H. R. Garrett presided at today's meeting of Cisco Lions and introduced the following visitors: Sheeny Eddleman, Eastland; J. W. Hawkins, Dallas; Charles Graham, George Boyd and K. C. McCasland, Cisco.  
Lion H. H. Tompkins was in charge of the program and presented Dwayne Jackson of Cisco Junior College and Johnnie Turner of Cisco grade schools in piano numbers. Turner is the 8-year-old son of Mr. and Mrs. Carlos Turner.  
H. H. Tompkins reported that grass seed has been received and is ready to plant on the football grounds at junior high school.  
Lion C. E. Paul urged all Lions and the people of Cisco generally to report the names of former Cisco residents to the chamber of commerce, in order that they can be notified of the Cisco Homecoming celebration set for August 11, 12 and 13. All Daily Press advertisers are asked to briefly mention the homecoming dates in their advertising.

### Service Men Asked to Leave Photos With Gas Co.

Work of gathering material for the publication of a serviceman record of World War II for Eastland county will begin tomorrow, says Fred Elsing, in charge of the publication, which will be issued by the Universal Publishing Co. of Dallas.  
This book, says Mr. Elsing, will contain the picture service record of all the men and women of Eastland county who served or are still serving with the armed forces.  
There will be no charge for putting pictures or service record writeups in the book, Elsing added. Photos may be left with Cisco Gas Corporation, he said.

### Cisco Missed Hail and Wind, But Got an Excellent Rain

The heavy rainfall which began in Cisco shortly after 10 o'clock last night showed a total of 1 3/4 inches on the gauge at city hall, said City Secretary Lavery today. The downpour was accompanied by heavy thunder and vivid flashes of lightning, but no damage was done locally by the latter. Little if any hail fell here.  
Wichita Falls and Dallas experienced heavy winds and some hail, as did Austin, where the wind reached 60 miles an hour. At Wichita Falls gusts of wind reached 82 miles an hour. Ballinger received 7 inches of rain and considerable hail.

### Lightning Strikes Baptist Church; Loss Near \$40,000

FT. WORTH, May 15. — White Settlement Baptist church was struck by lightning during the storm about 1:30 a. m. Wednesday, and burned to the ground with a complete loss of furnishings and church equipment.  
Fort Worth army air field firemen managed to save the parsonage, about 50 feet away, but the pastor, Rev. D. C. Brady, his wife and three small children were driven into the storm when it appeared the parsonage would also burn. The three children were ill with measles, but were removed to a friend's house and it was believed they suffered no ill effects from the driving rain.  
Four small Sunday school buildings, built to take care of the rapidly expanding attendance of the church, were also burned to the ground, and one was badly damaged.  
Only thing saved from the flames, the treasurer said, was one piano. The buildings contained seven pianos.

### Paris Council of Foreign Ministers Quits Till June 15

PARIS, May 15. — The Council of Foreign Ministers will adjourn after tomorrow's meeting and reconvene June 15, it was announced today.  
Soviet Foreign Minister Molotov refused at tonight's meeting to set a definite date for a peace conference.  
He also vetoed a proposal to put discussion of Australia on the Council agenda.  
A revised Italian armistice will be signed tomorrow as one of the first acts of the conference.

### OPA Says More Low-Cost Clothing During July

WASHINGTON, May 15. — Government officials today agreed with Economic Stabilizer Chester Bowles that there will be a noticeable improvement in the amount of low-cost clothing available to purchasers during July.  
The OPA today increased by one-half per cent the amount of hogs that non-federally inspected slaughterers may kill.

### W. A. Stephenson New Governor Rotary District 127

ABILENE, May 15. — W. A. Stephenson, new Rotary governor for this, the 127th district, has an educational background, which coupled with his long service as a Rotarian makes him especially well fitted for the position. A member of the Rotary club for the past 18 years, Stephenson set a record for perfect attendance during 11 of those years, and is retiring president of the Abilene club.  
At Hardin-Simmons university, Stephenson has been associate professor of government since 1927 and assistant dean of the university since 1942. He received his education from Hardin-Simmons where he received his B.A. degree in 1923, in George Washington University where he received his M.A. degree in 1931, and in the graduate school of the University of Texas where he has completed most of his work on a Ph. D. degree.  
Having been interested in oratory and debating since his student days in Hardin-Simmons, Dean Stephenson has been serving as coach and sponsor for the oratorical and debating council of the university ever since he became a member of the staff. In this capacity he has helped to develop some outstanding representatives in the various contests for public speakers and debaters.

Buzzy, six, and Gwen Martin, nine, give mute thanks to clown Emmet Kelly for the peanuts and attention they receive.

### Childless Men 26 to 29 Are Back in Draft Picture

WASHINGTON, May 15. — Childless men 26 through 29 years old came back into the draft picture today as President Truman's choice of "the lesser of two evils" kept Selective Service legally alive but crippled.  
For the moment, however, only those 20-25 will be inducted.  
Truman chose Tuesday night to sign a 45-day stop-gap extension of the draft law — but with an out-right ban on inductions of either fathers or teen-age youths — rather than let the act expire at midnight.

### Ft. Worth Looks For More Rain, Storms Tonight

FT. WORTH, May 15. — Thunderstorms and high winds were forecast here for tonight as the city surveyed damage from rain, wind and lightning which early this morning interrupted electric service, flooded streets, broke plate glass and sent Clear Fork of Trinity river on a flash flood from which a Fort Worth attorney barely escaped.  
The thunderstorm, which began at 1:04 a. m., dumped 1.26 inches of rain on the city in a brief period and was accompanied by stiff shifting winds.

## IN DEFENSE OF G.I.'S.

An ex-army chaplain, Rev. Renwick C. Kennedy, back in his Alabama pastorate, in a widely quoted magazine article makes serious accusations against the American occupation forces in Germany. His chocolate bar and his cigars are about all this conqueror has to give the people he defeated, says the clergyman. The average American soldier does not understand why he fought, or the victory he won. His main interests are German women, getting drunk and going home. His bad manners and lack of self control have lowered the prestige of his country with the Europeans, all of whom, allies and conquered alike, will be glad to see the last of the G.I.'s.

The picture may be accurate. Or it may be merely the glib generalization from a few incidents, a kind of reporting of which there has been too much. The chances are there is both truth and exaggeration in the statement.

Gen. Joseph McNarney, commander of all U. S. troops in the European theater, has ordered a "lightening" of discipline; an 11 o'clock curfew; Army assumption of all recreation facilities; increased sports, travel and educational opportunities. General McNarney

ney's error was in ever permitting what might be termed a "loosening" of discipline. The pitfalls were those to have been expected in the let-down of sudden peace for a youthful army from a non-warlike nation. Scattered unfortunate incidents should not be allowed to give a bad name to a whole army.

## OARSMAN AT 90.

Grandmothers who play golf are a familiar story, but great-grandfathers who indulge in strenuous exercise are less common. Frederick A. Plaisted, former world's champion professional sculler and later rowing coach at Bowdoin College and Yale, Harvard and Columbia, has died in Philadelphia at 96.

Almost down to his death Plaisted would have furnished formidable competition to any youthful oarsman. At 74 he won the first prize at Saratoga against notable rivals. At 89 he raced Jack Kelly, the former Olympic rowing champion. In his 90's he made it a rule to row three miles every other day.

President Charles W. Eliot of Harvard thought that young people should cultivate sports which they could continue to use as they grew older, and specified rowing and tennis as ideal. Plaisted would

have been a wonderful proof of the soundness of his recommendation. He also showed that it is not necessary for the aged to rust out.

But give me an old thing. Cobwebbed and dull. Fashioned out of memory— And it is beautiful! — Mae Winkler Goodman in Kaleidograph.

## Plane Talk

By JOE COLLIER.

## Hangars Are Essential.

As this is being written there is a severe thunderstorm in progress with conditions excellent for hail. Hail can literally rip the fabric covering of an airplane to shreds yet we have three airplanes stacked out in this weather for lack of hangar space. Should hail destroy the covering of only one of these airplanes the cost of recovering it would pay hangar rent for more than three years. Yet... and I say again; three airplanes are stacked out for lack of hangar space.

Tonight the hangar is being occupied by transient airplanes while their owners transact business here in Cisco. It has been my policy to always provide storage even if it means that my airplanes must be left out in the weather. By doing so I hope to encourage rather than discourage the use of our airport by men whose business might benefit Cisco. However, it results in the risk of serious damage to my aircraft for practically no direct monetary return.

If we expect the airport to be of real service to the city we must find some way to provide more storage facilities. The need is urgent. It is not a problem of a new hangar next month or next year... we needed it three months ago. We need it more even now. A hangar need not be an expense to the builder, but an investment for the building. A new hangar will pay for itself in 10 years in addition to paying for the cost of operation and maintenance.

What do the people of Cisco want? A thriving, progressive airport that is an asset to the community, or a 3-airplane airport with an unprofitable, precarious existence, which is unable to give service?

## GOODYEAR BONUS MILEAGE TIRES

These Drivers, And Millions More, Know Goodyear Is the Best Tire Built!

- "24,000 miles... only three-fourths worn." —California Business Man
- "23,000 miles without a tire failure." —New York Motorist
- "37,000 miles... estimate 10,000 miles of original tread left." —Louisiana Farmer

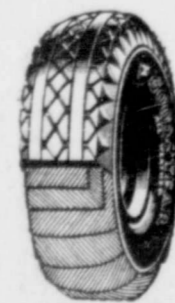

Testimonials of drivers everywhere, report amazingly long, satisfactory service — prove this superior new Goodyear is delivering mileage comparable to the average pre-war tire. So, go for the bonus mileage — the extra safety and service of a Goodyear.

\$15.20 plus tax 6.00 x 16

## HERE'S WHY A GOODYEAR LASTS SO LONG!

Goodyear is superior in tread and in body. The exclusive Goodyear tread design compacts when inflated, becomes extra resistant to cuts and bruises. And backing up this remarkable tread is a firm, resilient body designed to cushion shock and minimize tread-wearing tire "squawk".

Maybe you aren't this big a nut about cars

Maybe you're able to resist taking your engine apart—as long as it runs swell. That's generally enough for most anybody—no matter how curious he is to see Conoco N<sup>th</sup> motor oil in the act of OIL-PLATING the engine's insides.

OIL-PLATED engines aren't forever having the top opened up to see about carbon—nor having the bottom opened up to see about sludge. Carbon and sludge are the camp-followers of wear. But OIL-PLATING is in the best position to oppose wear—because it is fastened and held direct to inner sur-

faces. This is accomplished by the magnet-like action of an added material in Conoco N<sup>th</sup> oil—patented.

OIL-PLATING is an addition—a durable protection—to the engine's fine inner finish. Ask new car owners and you'll find them widely adopting OIL-PLATING. This time, with this new car, they want to start out right. . . . And should an older car logically have anything less than the safeguard of OIL-PLATING! Then get Conoco N<sup>th</sup> motor oil—at Your Mileage Merchant's Conoco station—now. Continental Oil Company

Sharing a party-line telephone!

If you're sharing a telephone party line, you're helping someone else here have telephone service now. Otherwise he'd likely be waiting his turn for service.

Party-line service is one way of stretching the telephone system here—to serve as many people as possible now instead of asking some to wait until we've had time to put in the wires and cables and switching equipment needed to serve everybody who is waiting.

It's a big job—catching up with four years of backed-up demand. But we're hard at it. As soon as possible, we'll bring service to everybody who is waiting for it. And, after that, we expect to be able to furnish one-family telephone service to those who want it.

**'GOOD NEIGHBOR' SUGGESTIONS for party-liners**

Before calling, please listen to see whether the line is in use. If it is, hang up gently and try your call again a little later.

When talking, remember your party-line neighbor—he may want to make a call—so please be reasonably brief.

Between calls, try to allow a little time so the other people on the line may have the opportunity to use it.

Ask the children to follow these good neighbor suggestions, too.

Thanks a lot.

## Operators Refuse Demand for a Huge Welfare Fund

### Mayor Lee Assigned Commissioners to Various Posts

At the regular meeting of the city commission last night, Mayor Edward Lee assigned the five city commissioners to the following positions:

Street Commissioner—S. H. McCannell,  
Police and Fire Department—George Boyd,  
Water Commissioner—J. J. Collins,  
Sanitary Commissioner—J. W. Slaughter,  
Finance Commissioner—Tom E. Stark.

Commissioner Stark was also named mayor pro tem and the Cisco airport was placed in his charge.

### 72 Visitors From Colorado City Enjoyed Visit Here

The senior class of Colorado City high school today completed a three-day vacation spent at Lake Cisco and departed for their homes. The party numbered 66 seniors and six others—H. M. Morton, high school principal; Miss Mabel Phillips, Miss Jane Merrill, senior sponsors and three room mothers, Mrs. H. I. Berman, Mrs. Euell Henderson and Mrs. Chester Hart.

The visitors were quartered at the Presbyterian encampment grounds near the lake and during a visit to the Daily Press office this morning Mrs. Henderson and Miss Phillips said they were delighted with their stay at Lake Cisco and hoped to make a repeat visit next year. They called particular attention to the friendliness and hospitality of Cisco merchants and citizens.

Activities while here included skating, swimming, dancing, bowling, hiking, various games and picnics.

### LaGuardia Getting Reckless in Wheat Recommendations

WASHINGTON, May 15. — The soft coal wage negotiations were broken off indefinitely today after the operators flatly rejected John L. Lewis demand for a \$70,000,000 welfare fund.

Forty minutes after the afternoon session began, the representatives of the coal industry and the United Mine workers left the room.

Government Mediator Edward F. McGrady announced that the conferences had adjourned subject to call.

The breakdown raised the possibility of new government action in the dispute—possibly including later seizure of the mines despite the government's reluctance to take that step.

Reconversion Director John W. Snyder said President Truman would use every power at his command to prevent resumption of the coal strike when the present truce expires May 25.

### Council Study of Franco Charges Remains a Secret

WASHINGTON, May 15. (U.P.)—UNRA Director General Fiorello H. LaGuardia today recommended that the government requisition wheat directly off the nation's farms.

LaGuardia also recommended that the government increase the wheat extraction rate from the present to an 80 per cent level.

NEW YORK, May 15. (U.P.)—A United States sub-committee studying the Franco regime today rejected a draft statement of the relations of the Spanish government to world security plans and ordered it rewritten for further study.

The five-nation Security Council group, appointed to investigate charges that the Franco government threatens world peace, announced after a two-hour closed meeting that it had examined "documentary evidence of the origin, nature, structure and general conduct of the Franco regime."

Russia was expected to end her boycott of the UN Security Council, at least temporarily, when the Council meets at 11 a. m. tomorrow to discuss procedural rules proposed by its committee members.

TIME FOR BEAUTY—The romantic skirt of her Sun Dial dress spread out before her, lovely Jeanne Dickens poses against a backdrop of gardenias, sharing the display of floral beauty at Cypress Gardens, Florida.

ONE PHONE, COMING UP—Home is no further than bedside, thanks to "Telecars," installed in Veterans Hospital at San Francisco. Portable telephone is plugged into wall outlet near bed of Harry Karulow and nurse dials his number.

### U.S. Olive Drab Paints Cut to 30 Cents Gallon

DALLAS, May 15. — A drastic price reduction to 30 cents per gallon for location on all government surplus olive drab paint in minimum quantities of 500 gallons, was announced Tuesday by Hamilton Martin, War Assets Administration Regional Director in Fort Worth. The new fixed price designed for quick disposal of all the drab colors includes enamels, primers, stains and pigments.

Minimum orders of 500 gallons may be made up of one or more cans or any combination of the cans offered. Containers range from one gallon cans to 50-55 gallon drums.

Included in the offering are interior and exterior maintenance paints of a wide variety of specifications in gloss, semi-gloss, and flat finishes, air-drying and baking enamels, aircraft dopes, lacquers suitable for the many types of industrial and commercial products, and stains for wood, metal and brick.

At the new low price of 30 cents per gallon, the offering will be of particular interest to the following types of buyers: Industrial plants, public institutions, state and municipal street and highway maintenance departments, industrial machinery and equipment manufacturers, operators of manufacturing plants, airports and flying

fields, agricultural enterprises, schools and colleges, and individual users for a wide variety of needs.

Orders for immediate delivery may be placed with the WAA Regional Office at Dallas.

President H. R. Garrett presided at today's meeting of Cisco Lions and introduced the following visitors: Sheeny Eddleman, Eastland; J. W. Hawkins, Dallas; Charles Graham, George Boyd and K. C. McCasland, Cisco.

Lion H. H. Tompkins was in charge of the program and presented Dwayne Jackson of Cisco Junior College and Johnnie Turner of Cisco grade schools in piano numbers. Turner is the 8-year-old son of Mr. and Mrs. Carlos Turner.

H. H. Tompkins reported that grass seed has been received and is ready to plant on the football grounds at junior high school.

Lion C. E. Paul urged all Lions and the people of Cisco generally to report the names of former Cisco residents to the chamber of commerce, in order that they can be notified of the Cisco Homecoming celebration set for August 11, 12 and 13. All Daily Press advertisers are asked to briefly mention the homecoming dates in their advertising.

### Service Men Asked to Leave Photos With Gas Co.

Work of gathering material for the publication of a serviceman record of World War II for Eastland county will begin tomorrow, says Fred Elsing, in charge of the publication, which will be issued by the Universal Publishing Co. of Dallas.

This book, says Mr. Elsing, will contain the picture service record of all the men and women of Eastland county who served or are still serving with the armed forces.

There will be no charge for putting pictures or service record writeups in the book, Elsing added. Photos may be left with Cisco Gas Corporation, he said.

### Cisco Missed Hail and Wind, But Got an Excellent Rain

The heavy rainfall which began in Cisco shortly after 10 o'clock last night showed a total of 1 1/2 inches on the gauge at city hall, said City Secretary Lavery today.

The downpour was accompanied by heavy thunder and vivid flashes of lightning, but no damage was done locally by the latter. Little if any hail fell here.

Wichita Falls and Dallas experienced heavy winds and some hail, as did Austin, where the wind reached 60 miles an hour. At Wichita Falls gusts of wind reached 82 miles an hour. Ballinger received 7 inches of rain and considerable hail.

### Senate and House Labor Committees Merely Kill Time

WASHINGTON, May 25. (U.P.)—The Senate Labor Committee today approved a resolution calling for an investigation into the causes of labor unrest. Some members hoped the so-called inquiry could be used to stall adoption of rigid anti-strike legislation.

Committee Chairman James E. Murray, D. Mont., estimated such an inquiry would take "several months."

He said the question whether the resolution would win full senate approval before pending labor legislation is acted upon "depends on the temper of the Senate."

Meanwhile, the House Labor Committee defeated 7 to 5, a resolution by Rep. Ellsworth B. Buck of New York, to set aside pending wage-hour legislation and take up bills aimed at the coal strike.

### OPA Says More Low-Cost Clothing Available During July

WASHINGTON, May 15. (U.P.)—Government officials today agreed with Economic Stabilizer Chester Bowles that there will be a noticeable improvement in the amount of low-cost clothing available to purchasers during July.

The OPA today increased by one-half per cent the amount of hogs that non-federally inspected slaughterers may kill.

### W. A. Stephenson New Governor Rotary District 127

ABILENE, May 15. — W. A. Stephenson, new Rotary governor for this, the 127th district, has an educational background, which coupled with his long service as a Rotarian makes him especially well fitted for the position. A member of the Rotary club for the past 18 years, Stephenson set a record for perfect attendance during 11 of those years, and is retiring president of the Abilene club.

At Hardin-Simmons university, Stephenson has been associate professor of government since 1927 and assistant dean of the university since 1942. He received his education from Hardin-Simmons where he received his B.A. degree in 1923, in George Washington University where he received his M.A. degree in 1931, and in the graduate school of the University of Texas where he has completed most of his work on a Ph. D. degree.

Having been interested in oratory and debating since his student days in Hardin-Simmons, Dean Stephenson has been serving as coach and sponsor for the oratorical and debating council of the university ever since he became a member of the staff. In this capacity he has helped to develop some outstanding representatives in the various contests for public speakers and debaters.

### Paris Council of Foreign Ministers Quits Till June 15

PARIS, May 15. (U.P.)—The Council of Foreign Ministers will adjourn after tomorrow's meeting and reconvene June 15, it was announced today.

Soviet Foreign Minister Molotov refused at tonight's meeting to set a definite date for a peace conference.

He also vetoed a proposal to put discussion of Australia on the Council agenda.

A revised Italian armistice will be signed tomorrow as one of the first acts of the conference.

### Childless Men 26 to 29 Are Back in Draft Picture

FT. WORTH, May 15. — White Settlement Baptist church was struck by lightning during the storm about 1:30 a. m. Wednesday, and burned to the ground with a complete loss of furnishings and church equipment.

Fort Worth army air field firemen managed to save the parsonage, about 50 feet away, but the pastor, Rev. D. C. Brady, his wife and three small children were driven into the storm when it appeared the parsonage would also burn. The three children were ill with measles, but were removed to a friend's house and it was believed they suffered no ill effects from the driving rain.

Four small Sunday school buildings, built to take care of the rapidly expanding attendance of the church, were also burned to the ground, and one was badly damaged.

Only thing saved from the flames, the treasurer said, was one piano. The buildings contained seven pianos.

### Lightning Strikes Baptist Church; Loss Near \$40,000

FT. WORTH, May 15. — White Settlement Baptist church was struck by lightning during the storm about 1:30 a. m. Wednesday, and burned to the ground with a complete loss of furnishings and church equipment.

### Ft. Worth Looks For More Rain, Storms Tonight

FT. WORTH, May 15. — Thunderstorms and high winds were forecast here for tonight as the city surveyed damage from rain, wind and lightning which early this morning interrupted electric service, flooded streets, broke plate glass and sent Clear Fork of Trinity river on a flash flood from which a Fort Worth attorney barely escaped.

The thunderstorm, which began at 1:04 a. m., dumped 1.26 inches of rain on the city in a brief period and was accompanied by stiff shifting winds.

### G. O. P. CONVENTION

DALLAS, May 15. — When the Republican state executive committee meets on June 10 it will recommend a slate of candidates to be presented to the state convention when it meets on Aug. 13. This was the unanimous decision of the committee which met here Tuesday. The committee at its June 10 session will select the convention city, and Marshall Kennedy, Fort Worth, chairman of the Tarrant County Republican committee, announced that he expects to invite the convention to Fort Worth.
