"That Form of Doctrine."

In Rom. 6:17-18 Paul thanks God that those who were the servants of sin have OBEYED from the heart THAT FORM OF DOCTRINE which had been delivered them. Me further states that it is THEN (by their obedience) that they are made free from sin. Then nothing could be plainer than the fact that before OBEEDIENCE to that "form of doctrine, delivered" they were not free from sin, but as a result of their OBEEDIENCE to that "form of Doctrine, delivered" they were FREED from sin. What is "that form of Doctrine?" In first Corinthians 15: 1-4 Paul says that in preaching the Gospel, or Doctrine of Christ, he DELIVERED unto them, primarily, the facts of Christ's DEATH, BURIAL, and RESURRECTION. Then here is the fundamental facts of the Gospel, or doctrine of Christ. You can believe facts, but cannot obey them. So Paul says you OBEY A FORM (or likeness) of that DOCTRINE. Now what is the LIKENESS, or FORM of the DEATH, BURIAL and RESURRECTION of the Lord? Paul answers that in Rom. 6: 3-5 - "Know ye not that so many of us as were BAPTIZED into Jesus Christ were baptized into His DEATH. Therefore we are BURIED with Him by BAPTISM into DEATH: that LIKE as Christ was RAISED up from the dead by the Glory of the Father, even so we also should walk in newness of life. For if we have been planted together with Him in THE LIKENESS (form-G. S. W.) of His DEATH, we shall also be in the LIKENESS of His RESURRECTION."

Sandefer of Abilene 7th Man in Congress Race

In deference to the urgent requests of many friends, and acting upon the advice of professional, business, civic and political leaders of the district, Gib Sandefer of Abilene, known throughout the world as "That Fellowship Man of Texas," Saturday tossed his West Texas sombrero into the great game of politics — as a candidate for the Democratic party's nomination for representative of the 17th district of Texas in the United States congress.

GIB SANDEFER.

Great West Texas has led me to ask the people of this district for the most important job they have to offer — that of representing them in our nation's congress.

A son of the late Dr. Jefferson Davis Sandefer, president of Hardin-Simmons University for 31 years, and Mrs. Sandefer, Gib Sandefer virtually grew up on the campus of that institution. Upon graduation in 1927, he more or less buried his personal ambitions to assist his father in the completion of his life's dream — the building of a greater Hardin-Simmons University. In the years that followed he served as business manager of the school's athletic program and as such contributed much to bringing nationwide recognition to his alma mater.

As manager of the colorful Cowboy Band, Sandefer developed into the hit of three continents. With \$100 given him by the late Will Rogers to buy some new "tunes," Sandefer launched the band on its first triumphant tour of Europe, touring more than 500,000 miles through the United States and through a dozen foreign countries, this picturesque group of musicians, clad in the colorful regalia of the great southwest, carried in music and spirit the tradition of the Texas cowboy to the far corners of the earth.

Came the war and Sandefer soon found a place of service — a field representative of the American Red Cross in combat areas of the

world-wide conflict. Responsible for the entertainment of our troops, he pitched his "fellowship" tent in North Africa, India, Burma and China, culminating in a "round the world" jaunt that gave further contacts in Italy, Australia and New Zealand.

In a personal conquest of Burma, the Texan took his "fellowship" right to the end of the Ledo Road for the benefit of "our boys and the top hands running this war."

Sandefer presents a concise, yet comprehensive, platform for the consideration of the people of the 17th district. It follows:

Platform.
For GI Joe and his sister Jane — The help and encouragement of a grateful country, in every way that can be accomplished. For the war's disabled: All they need, at whatever the cost.

For the farmer and stockman — A legislative program geared to their needs, responsive to their wishes, and guided by their advice and consent, administered as far as possible by the farmers and stockmen themselves through boards representing their local or regional interests.

For the Small Business Man — Recognition as the mainstay of the American system, assistance and encouragement whenever he needs it, protection against the powerful forces that would destroy his existence, and a minimum of governmental interference in the conduct of his business.

For National Defense — An adequate and alert military establishment, backed by continuing research and experimentation, officered and manned by professional soldiers paid a decent wage, given an equal break in privileges, and made to feel that their career is as honorable as it is ancient.

Foreign Affairs — The principle of the Golden Rule, extended to all nations, all-out cooperation with peace-loving peoples who desire only the rights of mankind and the enjoyment of peace and plenty.

Labor — Maintenance of the principle of collective bargaining, with a sharing of responsibility by labor, industry and the government; the promotion of a live-and-let-live attitude between capital and labor with the rights of the public to be recognized and protected.

Oil — Continuation of the practice of conservation through cooperation of state and federal government, and protection of the interests of producer, landowner and consumer — which in the long run are identical.

Private Enterprise — Government's chief concern should be to serve as umpire, to protect the young and weak against the strong, the honest from the dishonest, and the good from the bad — with as little governmental control and regulation as possible.

4 Coles Furlough in Cisco District Parsonage Home

By LELA LATCH.
"Rah, rah, the navy," "Those Caissons Go Rolling Along," or "Nothing Can Stop the Army Air Corps," may be heard as you pass the Cisco district Methodist parsonage on west Seventh street this week. Reason? The three sons and daughter of District Superintendent and Mrs. W. H. Cole are all home together for the first time since they entered the service.

Ensign Agnes Cole, nurse in U. S. naval hospital at Long Beach, Calif., arrived by plane in Fort Worth Wednesday to join her family in their first post-war reunion. A graduate of John Tarleton College and John Sealy Hospital and a former University of Texas student, Ensign Cole plans to resume her college education at SMU next fall.

The sleeves of Sgt. Hugh Cole are bedecked with three overseas stripes, the communication patch, the meritorious unit service badge and the twentieth and regular air corps patches. For 18 months he served as a cryptographic technician on Guam with the 20th air force, which so consistently dropped calling cards on Japan from B-29's. His Asiatic Pacific ribbon is studded with one battle star. After two and a half years of service Cole has re-enlisted for another three-year hitch in the E. T. O. That ended his plans to complete his chemistry major at Texas University. Just now those things seem minor matters as he revels in the traditional Methodist fried chicken while on his ninety-day furlough from army mess.

"Give due emphasis to the fact that I'm a former 'Pfc.," said Edward, only Cole who yet wears the eagle. He was discharged April 18 from Fort Sam Houston, after 18 months in Europe. "Deduct the two months I was privileged to spend at Cambridge University theological school, and you could find me beating a typewriter in the general hospital," summarized the third member of the Cole family of his European service. He was a chaplain's assistant for a year at Barkley before going overseas. He hopes to enter SMU, with theology as a possible major.

Pfc. Richard Cole, youngest, is a chaplain's assistant at Ft. Leavenworth, Kansas. He is clerk-typist and organist and declares that he fought the war in the Kansas theater firing those two instruments. He attended Southwestern University one year before Uncle Sam called, on a scholarship granted for second high honor in high school. When the eagle lights on his uniform, he will go to SMU as a pre-med enrollee.

Page Mr. Ripley on the similarities of this Cole family: All four played in public school bands. All four are organists. All four wear the Victory and American Theater ribbons. All three boys have the good conduct ribbon, but officers are not entitled to wear it. One is a nurse, one will be a doctor and a third will have a chemistry major. Two have served as chaplain's assistants. Three have served on Youth Caravans (a volunteer summer service project of the Methodist church) and Edward will re-enter that work this summer on the Pacific coast. Three plan to enroll in SMU next year, discharge permitting.

"And if you're looking for more similarities, don't forget that we all grew up in a Methodist parsonage, with the same papa and mamma," concluded the impish youngest.

Rail Men Ignored Truman's Word of a Five-day Truce

By United Press.
WASHINGTON, May 18.—President Truman, in an eleventh-hour appeal, late today won a five-day postponement of the nationwide railroad strike and announced that negotiations in the deadlocked wage dispute would be resumed tomorrow.

He told a hastily summoned news conference it was hoped the negotiations would lead to an agreement that would turn the postponement into a permanent settlement.

Mr. Truman's dramatic announcement of the postponement came just two minutes before the 4 p. m. deadline for the start of a crippling walkout that was to have spread, hour by hour, across the nation's vast network of rail lines.

Mr. Truman disclosed that at 3 p. m. EST — just one hour before engineers and trainmen were to have started their walkout — he appealed to Presidents A. F. Whitney of the railway trainmen and Alvanley Johnston of the locomotive engineers.

At 3:43 p. m. EST, he said, he received an affirmative reply.

New Orleans Mayor to Study City Records Closely

NEW ORLEANS, May 18. — Scandals that resulted in the conviction of former Huey Long lieutenants were recalled here today as all city records went under a detective guard by order of the mayor pending investigation for "irregularities."

The order of Mayor DeLesseps Morrison came following the arrest of two public works executives on charges of misappropriating \$88,646 in city funds. It was accompanied by the statement: "There is a strong indication that other people may be involved. A sum larger than the \$88,646, missing from the public works funds may be discovered."

TIME TO WORRY.

After the last war, people were too tired of the idea of war to pay attention to putting good foundations under the peace. They just wanted a good time. After that came depression. After wrestling with depression problems a while, they were too tired to pay attention to foreign affairs. There was that Hitler, but nobody over here gave him much thought. Then came war.

Now people are tired again — too tired to worry over the growing menace of labor magnates. They think the coal strike is just another wage hold-up. But it isn't. It is the menace of a growing fascist state within the structure of the United States. It's the question of whether Americans are going to let labor unions run their country, or make the government composed of the elected representatives of the people run it.

The laborer is worthy of his hire. Every American knows that. He wants the worker to get his just due. That is not the question here.

The question is whether any group is going to run the country, or whether the whole people is going to run it.

No thinking American wants any single group to run his country — whether it be of big business or labor or cotton or steel or oil or the army or prohibitionists. He wants all to run it by electing to office men who will do what they think is BEST FOR ALL, who will do what they believe to be the will of the majority. It's time to worry about this RIGHT NOW.

Follow the easy way endorsed by many who have tried this plan and help bring back alluring curves and graceful slenderness. Note how quickly bloated disappears—how much better you feel. Speaking of the Other Fellow's Troubles...
... suppose, for instance, that he moves an old house or erects a new structure on a lot without first knowing something about the title to the lot. This is being done in every town in the country. What will happen later on is obvious. Fixed improvements become a part of the real estate. If the title to the real estate proves to be faulty the whole investment becomes of doubtful value. The moral is, get an abstract first—buy and improve later!

CAN'T KEEP GRANDMA IN HER CHAIR
She's as Lively as a Youngster— Now her Backache is better
Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, night sweats, loss of pep and energy, getting up leg pains, loss of appetite, swelling under the eyes, headaches and dizziness. Frequent or scanty urination with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 40 years. Doan's give kidney relief and will help the 16 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Are you really one of the best drivers in YOUR COMMUNITY?

Here's a way to rate yourself in the POLICE TRAFFIC SAFETY CHECK

Let's be honest, now... remember, your own safety and that of your family depend on the way you drive.

- | | | | | | | | | |
|--------------------------|--------------------------|--|--------------------------|--------------------------|---|--------------------------|--------------------------|---|
| YES | NO | 1. Do you always signal before turning or coming to a stop (never play guessing game with the driver behind you)? | YES | NO | 4. Do you obey traffic lights — even when you're in a hurry? | YES | NO | 8. Do you know and observe the rules of the road in your community? (Frankly, now, have you ever looked them up?) |

Do you drive in and turn from the proper traffic lane? | <input type="checkbox"/> | <input type="checkbox"/> | 9. Do you keep alert when driving — keep your mind on traffic? |
| <input type="checkbox"/> | <input type="checkbox"/> | | <input type="checkbox"/> | <input type="checkbox"/> | | <input type="checkbox"/> | <input type="checkbox"/> | 10. Do you drive within the speed limits — never yield to the temptation to do a little "low altitude flying"? |
| <input type="checkbox"/> | <input type="checkbox"/> | 3. Do you give the pedestrian a break even though he may not have the right of way? (Remember, you walk sometimes, too.) | <input type="checkbox"/> | <input type="checkbox"/> | 6. Do you refuse to drink before driving? 10 "YES" answers — Are you really that good?
8 to 10 "YES" answers — Good driving. We need more of you!
6 to 8 "YES" answers — Fair driving. You must improve.
Less than 6 "YES" answers — Poor driving. You're headed for trouble; possibly injury and serious financial loss!

P. S. Take another look at your score. Would your family and friends rate you the same?

Seriously, don't you wish when you and your family are on the streets that all drivers could truthfully answer Yes to all ten questions? Of course you do — and the next driver feels the same way about it. So start today to improve your score.

CHECK YOUR CAR!
These are the mechanical features that will be examined in the Police Traffic Safety Check:

- BRAKES** — Do they need adjustment? How about the hand brake?
 - LIGHTS** — Do any bulbs need replacing? Are headlights properly focused and aimed? Are tail and stop lights in good condition?
 - TIRES** — Are they all in safe condition? (No cuts, fabric breaks, excessive wear?)
 - WINDSHIELD WIPERS** — Do they operate satisfactorily? Do blades need replacing?
 - HORN** — Does it operate easily and when you need it?
- Are there any other safety items that need attention, such as steering, defects in glass, rear view mirror, muffler, etc? (Have these checked regularly.)

"That Form of Doctrine."

In Rom. 6:17-18 Paul thanks God that those who were the servants of sin have OBEYED from the heart THAT FORM OF DOCTRINE which had been delivered them. He further states that it is THEN (by their obedience) that they are made free from sin. Then nothing could be plainer than the fact that before OBEEDIENCE to that "form of doctrine, delivered" they were not free from sin, but as a result of their OBEEDIENCE to that "form of Doctrine, delivered" they were FREED from sin. What is "that form of Doctrine?" In first Corinthians 15: 1-4 Paul says that in preaching the Gospel, or Doctrine of Christ, he DELIVERED unto them, primarily, the facts of Christs DEATH, BURIAL, and RESURRECTION. Then here is the fundamental facts of the Gospel, or doctrine of Christ. You can believe facts, but cannot obey them. So Paul says you OBEY A FORM (or likeness) of that DOCTRINE. Now what is the LIKENESS, or FORM of the DEATH, BURIAL and RESURRECTION of the Lord? Paul answers that in Rom. 6: 3-5 — "Know ye not that so many of us as were BAPTIZED into Jesus Christ were baptized into HIS DEATH. Therefore we are BURIED with Him by BAPTISM into DEATH: that LIKE as Christ was RAISED up from the dead by the Glory of the Father, even so we also should walk in newness of life. For if we have been planted together with Him in THE LIKENESS (form-G. S. W.) of His DEATH, we shall also be in the LIKENESS of His RESURRECTION."

VOLUME XXVI

Sandfer of Abilene 7th Man in Congress Race

In deference to the urgent requests of many friends, and acting upon the advice of professional, business, civic and political leaders of the district, Gib Sandfer of Abilene, known throughout the world as "That Fellowship Man of Texas," Saturday tossed his West Texas sombrero into the great game of politics — as a candidate for the Democratic party's nomination for representative of the 17th district of Texas in the United States congress.

GIB SANDEFER

"It was a difficult decision to make," Sandfer said in announcing his candidacy, "but my sincere desire to serve my fellow man and to work for the best interests and the future development of our great West Texas has led me to ask the people of this district for the most important job they have to offer — that of representing them in our nation's congress."

A son of the late Dr. Jefferson Davis Sandfer, president of Hardin-Simmons University for 31 years, and Mrs. Sandfer, Gib Sandfer virtually grew up on the campus of that institution. Upon graduation in 1927, he more or less buried his personal ambitions to assist his father in the completion of his life's dream — the building of a greater Hardin-Simmons University. In the years that followed he served as business manager of the school's athletic program and as such contributed much to bringing nationwide recognition to his alma mater.

As manager of the colorful Cowboy Band, Sandfer developed into the hit of three continents. With \$100 given him by the late Will Rogers to buy some new "tunes," Sandfer launched the band on its first triumphant tour of Europe, touring more than 500,000 miles through the United States and through a dozen foreign countries. This picturesque group of musicians, clad in the colorful regalia of the great southwest, carried in music and spirit the tradition of the Texas cowboy to the far corners of the earth.

Came the war and Sandfer soon found a place of service — a field representative of the American Red Cross in combat areas of the

world-wide conflict. Responsible for the entertainment of our troops, he pitched his "fellowship" tent in North Africa, India, Burma and China, culminating in a "round the world" jaunt that gave further contacts in Italy, Australia and New Zealand.

In a personal conquest of Burma, the Texan took his "fellowship" right to the end of the Ledo Road for the benefit of "our boys and the top hands running this war."

Sandfer presents a concise, yet comprehensive, platform for the consideration of the people of the 17th district. It follows:

Platform.
For GI Joe and his sister Jane — The help and encouragement of a grateful country, in every way that can be accomplished. For the war's disabled: All they need, at whatever the cost.
For the farmer and stockman — A legislative program geared to their needs, responsive to their wishes, and guided by their advice and consent, administered as far as possible by the farmers and stockmen themselves through boards representing their local or regional interests.

For the Small Business Man — Recognition as the mainstay of the American system, assistance and encouragement whenever he needs it, protection against the powerful forces that would destroy his existence, and a minimum of governmental interference in the conduct of his business.

For National Defense — An adequate and alert military establishment, backed by continuing research and experimentation, officered and manned by professional soldiers paid a decent wage, given an equal break in privileges, and made to feel that their career is as honorable as it is ancient.

Foreign Affairs — The principle of the Golden Rule, extended to all nations; all-out cooperation with peace-loving peoples who desire only the rights of mankind and the enjoyment of peace and plenty.

Labor — Maintenance of the principle of collective bargaining, with a sharing of responsibility by labor, industry and the government; the promotion of a live-and-let-live attitude between capital and labor, with the rights of the public to be recognized and protected.

Oil — Continuation of the practice of conservation through cooperation of state and federal government, and protection of the interests of producer, landowner and consumer — which in the long run are identical.
Private Enterprise — Government's chief concern should be to serve as umpire, to protect the young and weak against the strong, the honest from the dishonest, and the good from the bad — with as little governmental control and regulation as possible.

Cisco Junior College baccalaureate services will be held at the First Baptist church tonight, the starting time being 8 o'clock.

The baccalaureate address will be delivered by Rev. Leslie Seymour, former Cisco pastor, but now located at Ennis, Tex.

Lake Cisco Amusement company has purchased a navy life raft which has been added to the equipment at the swimming pools. The raft is made of balsam wood, covered with waterproof canvas. It will be used by swimmers as a floating boat dock and for safety work. Manager Harold Fischer said.

Large crowds of school children and local swimmers were at the pool Friday and Saturday. Among the schools represented were Aspermont, Moran, Graham, Breckenridge and Cisco.

Many other reservations have been made for out-of-town groups who will be here during the next two weeks.

Reds Feed Many But Say Their Food is Limited

WASHINGTON, May 18. — Anglo-American hopes of enlisting Russia in a united fight on world famine received a fresh setback Saturday from the report that Stalin has turned down an appeal from President Truman for Soviet participation.

Soviet Commentator Peter Orlov declared in a Moscow broadcast Saturday that Russia had pledged more than 1,100,000 tons of wheat and corn to Finland, France, Poland and Romania since the surrender of Germany.

Russia's own food supplies are "still limited," Orlov said.

4 Coles Furlough in Cisco District Parsonage Home

By LELA LATCH.
"Rah, rah, the navy," "Those Calissons Go Rolling Along," or "Nothing Can Stop the Army Air Corps," may be heard as you pass the Cisco district Methodist parsonage on west Seventh street this week. Reason? The three sons and daughter of District Superintendent and Mrs. W. H. Cole are all home together for the first time since they entered the service.

Ensign Agnes Cole, nurse in U. S. naval hospital at Long Beach, Calif., arrived by plane in Fort Worth Wednesday to join her family in their first post-war reunion. A graduate of John Tarleton College and John Sealy Hospital and a former University of Texas student, Ensign Cole plans to resume her college education at SMU next fall.

The sleeves of Sgt. Hugh Cole are bedecked with three overseas stripes, the communication patch, the meritorious unit service badge and the twentieth and regular air corps patches. For 18 months he served as a cryptographic technician on Guam with the 20th air force, which so consistently dropped calling cards on Japan from B-29's. His Asiatic Pacific ribbon is studded with one battle star. After two and a half years of service Cole has re-enlisted for another three-year hitch in the E. T. O. That ended he plans to complete his chemistry major at Texas University. Just now those things seem minor matters as he revels in the traditional Methodist fried chicken from Mamma Cole's kitchen while on his ninety-day furlough from army mess.

"Give due emphasis to the fact that I'm a former Pfc," said Edward, only Cole who yet wears the eagle. He was discharged April 8 from Fort Sam Houston, after 18 months in Europe. "Deduct the two months I was privileged to spend at Cambridge University theological school, and you could find me beating a typewriter in the general hospital," summarized the third member of the Cole family of his European service. He was a chaplain's assistant for a year at Barkley before going overseas. He hopes to enter SMU, with theology as a possible major.

Pfc. Richard Cole, youngest, is a chaplain's assistant at Ft. Leavenworth, Kansas. He is clerk-typist and organist and declares that he fought the war in the Kansas theater firing those two instruments. He attended Southwestern University one year before Uncle Sam called, on a scholarship granted for second high honor in high school. When the eagle lights on his uniform, he will go to SMU as a pre-med enrollee.

Page Mr. Ripley on the similarities of this Cole family: All four played in public school bands. All four are organists. All four wear the Victory and American Theater ribbons. All three boys have the good conduct ribbon, but officers are not entitled to wear it. One is a nurse, one will be a doctor and a third will have a chemistry major. Two have served as chaplain's assistants. Three have served on Youth Caravans (a volunteer summer service project of the Methodist church) and Edward will re-enter that work this summer on the Pacific coast. Three plan to enroll in SMU next year, discharge permitting.

"And if you're looking for more similarities, don't forget that we all grew up in a Methodist parsonage, with the same papa and mamma," concluded the impish youngest.

Rail Men Ignored Truman's Word of a Five-day Truce

By United Press.
WASHINGTON, May 18. — President Truman, in an eleventh-hour appeal, late today won a five-day postponement of the nationwide railroad strike and announced that negotiations in the deadlocked wage dispute would be resumed tomorrow.

He told a hastily summoned news conference it was hoped the negotiations would lead to an agreement that would turn the postponement into a permanent settlement.

Mr. Truman's dramatic announcement of the postponement came just two minutes before the 4 p. m. deadline for the start of a crippling walkout that was to have spread, hour by hour, across the nation's vast network of rail lines.

Mr. Truman disclosed that at 3 p. m. EST — just one hour before engineers and trainmen were to have started their walkout — he appealed to Presidents A. F. Whitney of the railway trainmen and Alvanley Johnston of the locomotive engineers.

At 3:43 p. m., EST, he said, he received an affirmative reply.

Tom Connally Believes Progress Made at Paris

WASHINGTON, May 18. (AP) — Secretary of State James F. Byrnes returned today from the unsuccessful Paris conference of foreign ministers and made a two-hour report to President Truman.

Byrnes declined to reveal the nature of his discussions with the president, but said he hoped to report to the nation by radio by Monday night on the Paris parley. The one optimistic note came from Chairman Tom Connally, D. Tex., of the senate foreign relations committee, who said the conference made "substantial progress," even though it "did not accomplish all that we had hoped for." He said it was believed the June 15 meeting of foreign ministers would bring agreement on many of the questions considered at Paris.

Connally and Senator Arthur Vandenberg, R., Mich., who accompanied Byrnes to Paris as advisers and observers for the senate, plan to address the senate next week — Vandenberg on Tuesday and Connally Wednesday.

New Orleans Mayor to Study City Records Closely

NEW ORLEANS, May 18. — Scandals that resulted in the conviction of former Huey Long lieutenants were recalled here today as all city records went under a detective guard by order of the mayor pending investigation for "irregularities."

The order of Mayor DeLesseps Morrison came following the arrest of two public works executives on charges of misappropriating \$88,646 in city funds. It was accompanied by the statement: "There is a strong indication that other people may be involved. A sum larger than the \$88,646, missing from the public works funds may be discovered."

The "reform" mayor who won office by defeating the powerful Robert S. Maestri machine said the detective guard was placed over records to "insure that none of them disappear."

Hoover Considered Food a Political Weapon in 1919

WASHINGTON, May 18. (AP) — Hitherto secret documents of the 1919 Paris peace conference disclosed tonight how Herbert Hoover and the World War I allies considered food as a political weapon to block the spread of Bolshevism in hungry Europe 27 years ago.

The documents, published by the state department, are contained in volume seven of the peace conference papers.

State department officials said there was no particular significance to the publication of this volume at this time. Several other volumes will be published later.

Catholic Party Won

AMSTERDAM, May 18. (AP) — Holland's first election since 1837 disclosed today that the country survived the war without a political upheaval. The Moderate Catholic party still was the strongest. Queen Wilhelmina was expected to commission the Catholics to form a cabinet, almost certainly a coalition. The Catholics probably will ask the laborites to join the cabinet.

PTA Held Its Last Food-for-Freedom Meeting of School Committee Strikes Year, Wednesday at Herbert Hoover

West Ward Parent-Teacher association held its last meeting of the school year Wednesday, with Mrs. Sutton Crofts, the new president, presiding. Mrs. R. N. Cluek opened the meeting by reading the National PTA prayer.

A short program consisting of four songs by children of the three first grades and directed by Mrs. Alice Johnston was an interesting feature. Also a reading by Beverly Butler, a pupil of Mrs. Jack Leach, and two piano numbers by Verita Butler from Mrs. Johnston's room.

E. A. Butler, chairman of the PTA playgrounds committee, introduced E. L. Jackson, chairman of the American Legion recreation program, who asked that PTA cooperate fully in establishing a permanent, citywide recreation program, with properly supervised playgrounds for the children of Cisco.

Other members of this committee are Mrs. W. C. Hogue, Mrs. C. B. Midkiff, Mrs. J. R. Deen, Mrs. Sutton Crofts, Mrs. Carroll Smith, Mrs. Cecil Adams and Mrs. Simon Coplin. All PTA members present joined in assuring their full cooperation with the Legion.

Two new members were added to the executive committee to fill vacancies — Mrs. Fred Alsop as finance chairman and Mrs. I. J. Henson, membership.

The president appointed a committee consisting of Mrs. Fred Scott, chairman; Mrs. D. Ball and Mrs. Callie McAfee to frame new bylaws.

May 26 to June 1 to Be Food Conservation Week

P. L. Crossley, county judge of Eastland county, following the lead of the government of the United States, has officially designated May 26 to June 1, 1946, as food conservation week.

His official communication to the Daily Press says: "I earnestly and humbly request the citizens of Eastland county during this week, as well as the weeks to follow until the new harvests are moving freely, to conserve as much food as possible, to eat potatoes instead of bread, rice and other cereals; to eat cereals sparingly, particularly wheat products; to use less fats and oils; to eat more eggs, poultry and fresh vegetables, and to produce as much food as possible in the way of vegetables. To not hoard food."
