**NOT ON YOUR TINTYPE!**

Grandma looks calm and collected as she poses for posterity, but she wasn't—not on your tintype! Getting her family ready for this picture was a long, weary business.

The day this photo was snapped, Grandma was up at dawn, wrestling with the old wood stove, coaxing the kettle to boil, cooking breakfast. And the day before, she ironed the mountain of starched clothes that had needed such hard scrubbing. The day before that—

But that was Grandma's life. She didn't know any other kind. Her way of house-keeping took lots of time, lots of elbow

grease. In Grandma's gayest dreams she never imagined the time would come when a woman would have dozens of electric servants daily for the cost of a bar of soap.

Electric service—ready and willing around the clock and calendar—is a modern miracle Grandma missed by being born too soon. But electrical dependability (and cheapness, too) didn't happen by accident. Not on your tintype. They're the result of plenty of hard work and practical experience on the part of your neighbors who operate this company.

## Senate Refused to Sidetrack Truman Emergency Strike Control Measure

By United Press.

WASHINGTON, May 31. — The Senate by a 42 to 40 vote, today rejected a move to sidetrack President Truman's emergency strike-control bill, but turned a cold shoulder to the President's appeal for restoration of the work-or-be-drafted provision.

By the slim two-vote margin, administration forces managed to defeat an amendment by Sen. Elbert W. Thomas, D., Utah, to send the entire bill back to the Interstate Commerce Committee with instructions to report it back June 10 — five days before the scheduled nationwide maritime strike.

Thomas argued, but without success, that the postponement would allow time for more mature consideration of the measure and still keep it in readiness if needed to cope with the maritime strike.

Administration leaders reminded the Senate that it was an emergency measure and that Mr. Truman had asked its approval without unnecessary delay. It was approved by the House shortly after Mr. Truman requested it on Saturday.

The administration forces scored an earlier victory when the Senate rejected, 45 to 35, another restrictive amendment by Sen. Robert A. Taft., R., O.

Taft proposed that the proposed emergency powers be limited to public utilities, transportation facilities and the coal, steel and oil industries.

### Hail May Have Pardons Board and Caused Damage Members Legislature Face Charges

HOUSTON, May 31. (AP)—The Houston Press today printed a story quoting State Auditor C. H. Cavness as saying a formal report, charging the state board of pardons and paroles with giving clemency to habitual criminals, will be made next Wednesday.

"It — the report — will be full of gory details," Cavness was quoted as saying.

The article, written from Austin, said Cavness would attempt to "prove" that members of the legislature and the board have collaborated in giving clemency to habitual law breakers.

### MRS. STROTHERS DEAD.

Mrs. A. B. Strothers, sister of Mrs. W. H. McCullough of Cisco, died at 2 a. m. today in Lubbock. The funeral will be held at Thomas funeral parlor, Cisco, at 3 o'clock Sunday afternoon, with burial in Oakwood. Mrs. Strothers was a daughter of Mrs. Mary Jane Gude, who died here in November, 1944. Additional data concerning deceased and the last rites were unavailable today.

collar workers, the professional and business people a majority are today inclined to favor a Republican for the presidency if an election were held today.

### Mrs. G. Fisk Was Buried in Abilene This Morning Some Farmers and White Collarites Desert Democrats

ABILENE, May 31. — Funeral for Mrs. Greenleaf Fisk, former Abilenian who died at Alpine early Thursday, was held at 10 a. m. today at Kiker-Warren chapel with the Rev. J. O. Haymes officiating. Burial was in Cedar Hill cemetery beside the grave of her late husband, publisher for many years of The Abilene Times, once a weekly newspaper here. Mr. Fisk died about 1940. He was a former publisher of the old Cisco Round-up, which was sold to B. S. Huey and other Ciscoans previous to the establishment of the Cisco Daily News in 1919.

Mrs. Fisk, prominent in church, club and social activities here for many years, continued to publish the newspaper until 1942 when she moved to Alpine to live with her sister, Mrs. H. W. Morelock.

She was a graduate of Southwestern university and an honorary member of Delta Kappa Gamma, society of outstanding women educators. A founder of the Abilene Woman's club, she had served as president of the club and president of the sixth district of the Texas Federation of Women's clubs from 1929-31. She also was the author of a book, A History of Texas Artists and Sculptors.

### UNION BIBLE SCHOOL.

The public is again reminded that a union Bible school will be held in First Methodist church from June 3 to June 14. Classes will meet from 9 to 11 a. m. each week day except Saturday. Registration for the school will be held Sunday, June 2, 4 p. m. in the Methodist church. At that time the students will be given opportunity to choose the courses they desire to take. After registration there will be a short social hour and refreshments. Classes begin Monday, June 3, 9 a. m. This Bible school is being sponsored by the Presbyterian, Methodist and Christian churches, but children from other churches, or who belong to no church, are welcome to attend.

### RECKLESS AMERICANS.

CHICAGO, May 31. — At least 81 persons suffered violent deaths on Memorial Day as the nation paid tribute to its war dead.

PRINCETON, N. J., May 31. — The extent to which the Democratic party has lost strength since 1941 is a matter of keen interest to party strategists, but even more important to them is the question of where these losses have been registered. Which groups among the voters show the most marked defection?

A nation-wide Gallup pole among voters finds Democratic party strength has dropped 1.3 per cent since December, 1944, and 5.5 per cent since last August (the month the war ended), when Democratic strength was at a high point of 58 per cent.

Greatest losses for the Democrats have been registered in two occupational groups, when today's poll results are compared with November, 1944. Those groups are the farmers and the white collar workers.

In fact, today's findings show a majority of white collar workers favoring a Republican party victory if a presidential election were being held today. In the last presidential election, a majority of white collar-workers voted for Roosevelt.

Shifts in political preferences as shown in response to the question: "If a presidential election were being held today, which party would you vote for — the Democratic or Republican?"

The percentage showing of Democratic party strength is given by occupational groups in comparison to the way these groups were found to have voted in the last presidential election:

Prof. and business group	1944	Election. Today
Farmers	41%	42%
White collar workers	48%	45%
Manual workers	51%	61%

If today's poll results are compared with Democratic party strength as found in a similar poll in August — the month the war ended — Democratic losses are registered in every occupational group.

The shifts are revealed in the following table comparing the percentage of Democratic party strength in the August poll with today:

Prof. and business group	August, 1945.	TODAY
Farmers	48%	42%
White collar workers	59%	45%
Manual workers	52%	61%

Although polling in the present case was completed before the coal and railroad strikes came to their crucial phases, some observers will interpret at least part of the Democratic losses to be the result of reaction among farm and white collar voters to the way the administration has been handling the labor situation.

The public has viewed strikes as a highly important national problem and has felt that congress should take some action to alleviate the strike picture of recent months. Moreover, a majority have been found in favor of the Baruch proposal for a moratorium on all strikes for a year.

Other observers will attribute part of the Democratic loss to the white collar resentment at the "squeeze" put on them between a constant wage and an increasing cost of living.

Of the major occupational groups presented in this analysis, only labor, which includes both union and nonunion workers, still gives a majority of its votes to the Democratic party.

Among the farmers, the white

### Cisco Defeated Recreational Pro-Breck Bowlers gram Ready to Go By Wide Margin Says Buck Overall

In a contest last night between Breckenridge and Cisco bowlers, played here, the local five-man team won by 326 pins.

Due to bad breaks and the fact that some of their best bowlers could not be present, the visitors did not make the showing they are admittedly capable of making. However, it was a pleasant affair and the result may be entirely different when Cisco goes to Breckenridge next Thursday night for a return match.

All Cisco players chalked up creditable scores, but the single game high total of 236 went to F. Urban. Elbert Tipton was next with 194. Howard Lankford probably scored the most consistently.

### SEND PHOTOS IN.

Fred Elsing, Cisco representative for Eastland County's World War II Book, says the time for turning in photos of service men and women has been extended to June 8, in order that the late comers may be served, if possible. Pictures and data may be left at Elsing's office at Cisco Gas Corporation. There is no charge for inserting pictures and writeups in the forthcoming publication.

The citywide recreational program sponsored by the American Legion post of Cisco will begin Monday, June 3, says Director Buck Overall.

This program is devised to provide some means of sponsored entertainment for the youngsters of Cisco during the summer months.

All children interested in playing soft ball or hard ball are asked to be present at Chesley Field between the hours 9:30 a. m. and 6 p. m. It is especially important for those interested in hard ball to be present, because shoes are to be ordered for the players, and sizes will need to be taken.

### MINISTER'S MOTHER DIES.

Rev. Stuart McC. Rohre, pastor of Cisco First Presbyterian church, has been called to Cuero by the death of his mother, Mrs. A. T. Rohre, who died at her home there early this week. Funeral of the aged woman, who was approaching her 90th birthday, will be held at 4 o'clock Saturday afternoon. As a result of the minister's absence from the city, there will be no preaching services at the local Presbyterian church Sunday, says George W. Downie, church official.

## NAVY AND COAST GUARD WILL TRY TO KEEP MERCHANT MARINE MOVING IF MEN QUIT

By United Press.

### New A. & M. Budget Totals Huge Sum \$16,404,884

COLLEGE STATION, May 31.—To increase salaries of the teaching staff and provide for increased enrollment, the Texas A&M College directors approved President Gibb Gilchrist's recommendations for a budget of \$16,404,884 for the main college, extramural divisions and branch colleges at a meeting here Thursday.

For the main college, the Texas Extension Service, Texas Agricultural Experiment Station and Texas Forest Service the 1946-1947 budget totals \$14,174,781. Next in amount is for Prairie View University, \$1,125,496; North Texas Agricultural College, \$3,543,534, and John Tarleton Agricultural College, \$562,073.

### OPA HIKES SHOES.

WASHINGTON, May 31.—OPA today boosted prices 10 to 15 percent on shoes selling generally at \$5.50 or less.

### TCU BUILDING FUND.

FT. WORTH, May 31.—Headed by a \$100,000 contribution by W. C. Stripling Company, 21 new gifts totaling \$292,000 were announced this morning by E. A. Landreth, co-chairman of the \$3,000,000 TCU Building Fund campaign. The gifts brought the grand total to \$820,000 as the drive entered its fourth day.

One coal strike ended and another began today as President Truman said the government would operate the merchant marine, if necessary, in the event of a strike set for June 15.

The strike of 400,000 soft coal miners was over and reports showed that many of the striking United Mine workers were returning to the pits.

However, 75,000 anthracite miners, members of the same UMW, walked out at midnight last night under orders from their president, John L. Lewis.

President Truman told reporters today that the navy, the coast guard and the war shipping administration will use all their facilities to keep the merchant marine operating if a maritime strike is called.

Seven unions of seamen and longshoremen have set the strike date and have asked for increased wages of between 22 and 35 cents per hour.

The President said the maritime situation looked dark and that the government would go as far as possible under present powers to cope with the situation.

In Seattle and Northern Washington, 14,000 members of Maritime and Woodworkers unions stopped work for a half hour as a protest against the anti-strike legislation pending in congress. The 30 minutes, which caused a disruption of Puget Sound shipping, was used to obtain signatures to petitions which will be sent to President Truman.

**SEA-WORTHY**—A shipload of beauties in Hawaiian costumes honor men of the sea at San Francisco parade for the American Merchant Marine. During celebration, "the men who delivered the goods during the war" came in for their share of praise.

#### SILVER FOR THE BRIDE.

June weddings send friends to jewelry stores to buy silver. What no-needles? Fine settings only, and an occasional tablespoon? But a place setting has only one teaspoon and doesn't get a dinner through a meal which has coffee, green peas fixed with cream, and a pudding dessert. Why no extra?

First, silver was used in great quantities in the war. It substitutes for copper in electrical work. It is needed in photography, in dentistry, in medicine and has dozens of industrial uses. Its use

Public Pays Strike Cost.

Christian Science Monitor: The chief, and inevitable, result of prolonged strikes in this postwar time is the crippling of production.

The war in Europe has been over for a year, but millions of American consumers are still waiting for goods and materials which are being reconversion should have brought them months ago.

The losses to all types of business are enormous.

Other losses which affect a very large section of the public are the reduction or omission of dividends by key industries.

Thousands of individuals, and some institutions, are dependent upon the return from their investments or those made for them by trustees.

Unusually labor relations can affect the economic life of a nation for years.

Washington cannot act too quickly in turning such responsible power.

**NOT ON YOUR TINTYPE!**

Grandma looks calm and collected as she poses for posterity, but she wasn't—not on your tintype! Getting her family ready for this picture was a long, weary business.

The day this photo was snapped, Grandma was up at dawn, wrestling with the old wood stove, coaxing the kettle to boil, cooking breakfast. And the day before, she ironed the mountain of starched clothes that had needed such hard scrubbing. The day before that—

But that was Grandma's life. She didn't know any other kind. Her way of house-keeping took lots of time, lots of elbow grease. In Grandma's gayest dreams she never imagined the time would come when a woman would have dozens of electric servants daily for the cost of a bar of soap.

Electric service—ready and willing around the clock and calendar—is a modern miracle Grandma missed by being born too soon. But electrical dependability (and cheapness, too) didn't happen by accident. Not on your tintype! They're the result of plenty of hard work and practical experience on the part of your neighbors who operate this company.

## Senate Refused to Sidetrack Truman Emergency Strike Control Measure

### Mrs. G. Fisk Was Buried in Abilene This Morning

ABILENE, May 31. — Funeral for Mrs. Greenleaf Fisk, former Abilenian who died at Alpine early Thursday, was held at 10 a. m. today at Kiker-Warren chapel with the Rev. J. O. Haymes officiating. Burial was in Cedar Hill cemetery beside the grave of her late husband, publisher for many years of The Abilene Times, once a weekly newspaper here. Mr. Fisk died about 1940. He was a former publisher of the old Cisco Round-up, which was sold to E. S. Huey and other Ciscoans previous to the establishment of the Cisco Daily News in 1919.

By United Press. WASHINGTON, May 31. — The Senate by a 42 to 40 vote, today rejected a move to sidetrack President Truman's emergency strike-control bill, but turned a cold shoulder to the President's appeal for restoration of the work-or-be-drafted provision.

By the slim two-vote margin, administration forces managed to defeat an amendment by Sen. Elbert W. Thomas, D., Utah, to send the entire bill back to the Interstate Commerce Committee with instructions to report it back June 10 — five days before the scheduled nationwide maritime strike.

Thomas argued, but without success, that the postponement would allow time for more mature consideration of the measure and still keep it in readiness if needed to cope with the maritime strike.

Administration leaders reminded the Senate that it was an emergency measure and that Mr. Truman had asked its approval without unnecessary delay. It was approved by the House shortly after Mr. Truman requested it on Saturday.

The administration forces scored an earlier victory when the Senate rejected, 45 to 35, another restrictive amendment by Sen. Robert A. Taft, R., O.

Taft proposed that the proposed emergency powers be limited to public utilities, transportation facilities and the coal, steel and oil industries.

### Hail May Have Pardons Board and Caused Damage Members Legislature Face Charges

HOUSTON, May 31 (U.P.)—The Houston Press today printed a story quoting State Auditor C. H. Cavness as saying a formal report, changing the state board of pardons and paroles with giving clemency to habitual criminals, will be made next Wednesday. "It — the report — will be full of gory details," Cavness was quoted as saying. The article, written from Austin, said Cavness would attempt to "prove" that members of the legislature and the board have collaborated in giving clemency to habitual law breakers.

### Cisco Defeated Recreational Program Ready to Go By Wide Margin Says Buck Overall

In a contest last night between Breckenridge and Cisco keglers, played here, the local five-man team won by 326 pins. Due to bad breaks and the fact that some of their best bowlers could not be present, the visitors did not make the showing they are admittedly capable of making. However, it was a pleasant affair and the result may be entirely different when Cisco goes to Breckenridge next Thursday night for a return match. All Cisco players chalked up creditable scores, but the single game high total of 236 went to F. Urban. Elbert Tipton was next with 194. Howard Laakford probably scored the most consistently.

Score in Detail. Breckenridge— J. D. Rogers .150 147 160 Ben Quinn .174 148 146 Roy Russell .134 129 138 Guy Eddleman 131 164 155 G. ### Some Farmers and White Collarites Desert Democrats

PRINCETON, N. J., May 31.—The extent to which the Democratic party has lost strength since 1944 is a matter of keen interest to party strategists, but even more important to them is the question of where these losses have been registered. Which groups among the voters show the most marked defection? A nationwide Gallup pole among voters finds Democratic party strength has dropped 1.3 per cent since December, 1944, and 5.5 per cent since last August (the month the war ended), when Democratic strength was at a high point of 58 per cent.

Greatest losses for the Democrats have been registered in two occupational groups, when today's poll results are compared with November, 1944. Those groups are the farmers and the white collar workers.

In fact, today's findings show a majority of white collar workers favoring a Republican party victory if a presidential election were being held today. In the last presidential election, a majority of white collar workers voted for Roosevelt.

Shifts in political preferences as shown in response to the question: "If a presidential election were being held today, which party would you vote for — the Democratic or Republican?"

The percentage showing of Democratic party strength is given by occupational groups in comparison to the way these groups were found to have voted in the last presidential election:

1944 Election. Today. Pref. and business group .41% 42% Farmers .48 45 White collar workers .51 45 Manual workers .62 61

If today's poll results are compared with Democratic party strength as found in a similar poll in August — the month the war ended — Democratic losses are registered in every occupational group.

The shifts are revealed in the following table comparing the percentage of Democratic party strength in the August poll with today:

August, 1945. TODAY. Pref. and business group .48% 42% Farmers .59 45 White collar workers .52 45 Manual workers .64 61

Although polling in the present case was completed before the coal and railroad strikes came to their crucial phases, some observers will interpret at least part of the Democratic losses to be the result of reaction among farm and white collar voters to the way the administration has been handling the labor situation. The public has viewed strikes as a highly important national problem and has felt that congress should take some action to alleviate the strike picture of recent months. Moreover, a majority have been found in favor of the Baruch proposal for a moratorium on all strikes for a year. Other observers will attribute part of the Democratic loss to the white collar resentment at the "squeeze" put on them between a constant wage and an increasing cost of living. Of the major occupational groups presented in this analysis, only labor, which includes both union and nonunion workers, still gives a majority of its votes to the Democratic party. Among the farmers, the white

### UNION BIBLE SCHOOL.

The public is again reminded that a union Bible school will be held in First Methodist church from June 3 to June 14. Classes will meet from 9 to 11 a. m. each week day except Saturday. Registration for the school will be held Sunday, June 2, 4 p. m., in the Methodist church. At that time the students will be given opportunity to choose the courses they desire to take. After registration there will be a short social hour and refreshments. Classes begin Monday, June 3, 9 a. m. This Bible school is being sponsored by the Presbyterian, Methodist and Christian churches, but children from other churches, or who belong to no church, are welcome to attend.

### NAVY AND COAST GUARD WILL TRY TO KEEP MERCHANT MARINE MOVING IF MEN QUIT

By United Press. One coal strike ended and another began today as President Truman said the government would operate the merchant marine, if necessary, in the event of a strike set for June 15. The strike of 400,000 soft coal miners was over and reports showed that many of the striking United Mine workers were returning to the pits. However, 76,000 anthracite miners, members of the same UMW, walked out at midnight last night under orders from their president, John L. Lewis. President Truman told reporters today that the navy, the coast guard and the war shipping administration will use all their facilities to keep the merchant marine operating if a maritime strike is called. Seven unions of seamen and longshoremen have set the strike date and have asked for increased wages of between 22 and 35 cents per hour. The President said the maritime situation looked dark and that the government would go as far as possible under present powers to cope with the situation. In Seattle and Northern Washington, 14,000 members of Maritime and Woodworkers unions stopped work for a half hour as a protest against the anti-strike legislation pending in congress. The 30 minutes, which caused a disruption of Pudget Sound shipping, was used to obtain signatures to petitions which will be sent to President Truman.
