### Cisco Gets 48 Units Vet Emergency Housing

The city of Cisco has been allocated 20 units of veterans emergency housing by the Federal Public Housing Authority, Mayor Edward Lee has been informed by Senators Tom Connally and W. Lee O'Daniel.

This is in addition to 28 units of veterans' emergency housing which was approved for Cisco junior college. This makes a total of 48 units which will be constructed in Cisco to assist in taking care of the crowded housing situation.

In a telephone conversation with the F. P. H. A. at Fort Worth, the Cisco chamber of commerce, through which the applications were made, was informed that construction of the Junior college units would be started immediately in order to have the apartments ready for occupancy by the opening of the fall term of school.

Site for the Junior college units will probably be on the campus of the college. Mayor Lee said that the city would await contact with F. P. H. A. officials before determining location for the units which the city will sponsor.

These apartments will be rented to ex-service men and their families at nominal rentals and will be maintained until such a time as normal building activity is able to meet the demand for homes here.

### Ft. Worth Prowler Enters Homes, Attacks Women

FORT WORTH, June 12. — A prowler tore open screens at two N. W. 15th St. residences early today and grabbed two young women, but fled when their screams awakened other occupants.

At the B. J. McGinnis home, 500 N. W. 15th, the tall young man seized Miss Frances Terrell, 17. Her screams sent the prowler running to a neighbor's home, where he tore open another screen and grabbed Mrs. Forest Phifer Jr., 26. When she awakened, the man jumped from the window and fled.

WASHINGTON, June 12. — The government today took over negotiations with seven maritime unions threatening a nationwide shipping strike Friday midnight.

It immediately went to work on a solution to the wage-hour dispute in an intensified effort to avert the scheduled walkout of 200,000 seamen.

Shipowners revealed that the labor department and war shipping administration were working out details of a wage and hour offer "completely acceptable" to the unions.

They said they had not been informed of the details.

An industry source said the government proposal amounted to "an edict" for the shipowners.

He said the operators would be forced to take it.

### ASKS SENATE TO WITHHOLD JUDGMENT

WASHINGTON, June 12. (UP)—Chairman Pat McCarran, D., Nev., of the Senate Judiciary Committee, today asked the Senate to reserve judgment on the Supreme Court feud between Justices Robert H. Jackson and Hugo L. Black, because the Senate some day might have to sit as a court of impeachment in the matter.

McCarran said he hoped that day would never come. But he urged that the Senate reserve judgment now and avoid doing or saying anything that would hinder any necessary official action in the future.

McCarran's plea was prompted by a speech by Sen. Styles Bridges, R., N. H., calling attention to the Jackson-Black feud.

Bridges said there is need for congress to set up some machinery for removing judges without impeachment.

The New Hampshire Republican's remarks were leveled principally at Black. He described Black as the spearhead of the National Citizens Political Action Committee.

Medium and good beef cows sold at \$10.50 to \$14.75, top being paid for a truck load of cows from Slocum Brothers of Cresson that averaged 1,139 pounds.

By JOHN FRASCA, Staff Correspondent.

AUSTIN, Tex., June 12. (UP)—The toll of resigned professors at strife-torn University of Texas rose to seven today and one of the department teachers said he was leaving because of the "rule or ruin" policy of the board of regents.

Another said he was departing because of the "university controversy." Five others would not comment. Vice President James C. Dolley said their resignations were "routine."

All seven of the staff members have resigned since last week's announcement by the American Association of University Professors that the University of Texas has been placed on a censured list.

Highway traffic fatalities have increased considerably since 1945—in this county and elsewhere—the visitor stated.

During 1945, Eastland county had but six traffic fatalities; but during the first five months of 1946, nine people have been killed—with July 4 and the Christmas holidays yet to come.

The visitor urged that all Lions and citizens in general cooperate in the three Es of traffic safety—Engineering, Enforcement and Education.

The only visitor present was Bill Huffman.

E. J. Miller Asks Election to 11th Civil Appeals Post

E. J. Miller, former district judge of the 35th judicial district, and a resident of Brownwood for the past 40 years, called at the Daily Press office this morning and formally announced his candidacy for associate justice of the court of civil appeals, 11th supreme judicial district, Eastland, Judge Miller has a number of friends in Cisco and Eastland county and is deemed well fitted for the position to which he as-

pires. His statement follows: The voters of the Eleventh Supreme Judicial District: For some years I have entertained an ambition to serve upon the Court of Civil Appeals but had no idea of becoming a candidate for such a position this year. Judge Courtney Gray is a gentleman four-square, is a lawyer of sound, mature judgment, and has made a 100 per cent record as appellate judge. I felt that he was entitled to election this year without opposition and would not have entered the race against him upon any consideration. I regret very much the circumstances and conditions which have impelled him to announce his withdrawal, and will conduct an active campaign from now until

E. J. MILLER.

voters, but will utilize the time and the means available to place myself and my qualifications before the people. To this end, I solicit your investigation and consideration and will appreciate your interest and support.

I was reared on a farm in Callahan county, spent two years in Simmons College, two years in a State Teachers' College, taught school five years, for many years an active Odd Fellow, am a deacon in my church, and a member of the Howard Payne College Board. And was for five years president of Comanche Trail Council Boy Scouts of America.

Having been in active private practice 25 years, practicing in all State Courts, and in the District Court and Circuit Court of Appeals of the United States, and having served 12 years as district judge with a record above the average, I feel that I could render satisfactory service upon the Court of Civil Appeals at Eastland and thereupon submit my candidacy for such position. Respectfully, E. J. MILLER.

"This one is... and you're 101% right," the car salesman agrees. He goes on to explain, "We want this car to show you real engine endurance—which means the least carbon, sludge, and upkeep you can have. That's goodwill for us. And all it takes to keep your engine's insides OIL-PLATED is Conoco N<sup>th</sup> motor oil... Say, this time you're figuring to treat your new car right!"...

Many of the oldest cars, too, are being kept in the running by having their engines OIL-PLATED. This internal wear-fighter—OIL-PLATING—is created by magnet-like action. That comes from Conoco N<sup>th</sup> oil's added ingredient—surfacing your engine's insides with durable OIL-PLATING. There's your barrier against lots of wear. You can have it in any car—any model or year—by driving around to Your Conoco Mileage Merchant's station. You'll get your correct grade of Conoco N<sup>th</sup> oil—and an OIL-PLATED engine.
