Bridges Says 22c Hike Not Enough for Union Seamen

By United Press.

WASHINGTON, June 13. — Government negotiations in the maritime dispute, after expressing belief that they were on the verge of obtaining a settlement, ran up against insistent demands of Harry Bridges today for more money for his Longshoremen's and Warehousemen's Union.

It appeared that success or failure of efforts to avert the strike called for midnight tomorrow would depend in considerable degree on solving Bridges' demand for a larger wage increase than the 22 cents an hour recommended by a fact-finding board.

CIO President Philip Murray, taking a direct hand in the negotiations, told reporters after a three-hour session that some issues still required "clarification."

A source close to the negotiators later said that the issue of wages for Bridges' men had not yet been settled.

Ft. Worth Bank Robbed at Noon, Man Soon Caught

FORT WORTH, June 13. (UP) — Without a weapon, a 30-year-old man robbed one of Fort Worth's biggest banks in the noon rush hour today of \$1,500, but was caught a few minutes later on a downtown street.

Giving his name as Horace Anderson Collins, a former city bus driver, the man had the money on him — in \$10, \$20, \$50 and \$100 bills — and readily admitted his guilt, said Bank Cashier O. C. Curl.

Collins was caught a little over a block from the Continental National Bank. He had obtained the money from Mrs. Freda Denton, teller, by intimidation. She thought he had a concealed weapon and turned over the money to avoid gunplay.

Arthur R. McElreath, Jr., of Fort Worth, has just leased a block of 1,000 acres for an immediate test southeast of Baird. In the block are lands of Mrs. Etta Smith Estate, J. W. Eastham, John Hughes and C. M. Caldwell.

Rusty Higgins is now drilling on the P. G. Hatchett location, 105 out of NW 1/4 of NW 1/4 Sec. 30 D. D. & A. lands.

Included in the lease blocked by Dean Brothers of Fort Worth are J. F. Dyer, J. N. Jackson and a part of the Loois Estate involving 7,000 acres.

John T. Rundell of Dallas has blocked 1280 acres on the Grimes ranch.

Hungleford, Gaston & Ferguson have 1,680 acres in the J. F. Dyer ranch in Shackelford county.

WASHINGTON, June 13. (UP) — The senate, speeding toward a final vote on the OPA Extension bill, today defeated 51 to 21 an attempt to remove price controls on virtually all food and farm commodities, timber, oil and tobacco.

The amendment was offered by Sen. Elmer Thomas, D., Okla., and was the most sweeping proposal offered in the senate for removal of controls.

Even with its defeat, however, the senate bill still retains provisions to end price restrictions on livestock, meat, dairy and poultry products on June 30.

Byrnes will make a last-ditch effort to obtain agreement on peace treaties with the defeated European nations.

Cisco to Nimrod and Scranton Road Projects Assured

After several months delay because of bids which were considered excessive, construction of the Cisco to Nimrod and Scranton farm to market road is now expected to get under way within 30 to 60 days, according to information from Austin.

The state highway commission this week announced that a low bid of \$57,823.73 had been submitted by A. L. Bucy, contractor of Brownwood, for construction of five and one-half miles of this road.

Route of the project will begin where the present Nimrod-Scranton road turns off from the Base Line road and will proceed coincident with the present route to the point where it forks — one branch going to Scranton and the other to Nimrod. Paving of these branches is scheduled for later allocations of farm-to-market appropriation.

The project calls for grading, drainage structures, flexible base and single asphalt surface.

Contract on the Bucy bid is yet to be approved and executed by the state highway department with concurrence of the public roads administration at Washington, but it was indicated that such approval would probably be forthcoming.

In the event that contract is made the road is required to be completed within 70 days after construction begins.

ATTACK ON TEXAS UNIVERSITY PROBABLY RAINEY - INSPIRED; NOT AN ACCREDITING AGENCY

AUSTIN, June 13. — Dr. T. S. Painter, president of the University of Texas, charges that the American Association of University Professors (Chicago) acted without adequate investigation in placing the university on its censured list.

"There are those who believe because of the unorthodox procedure employed, that the intended action of the AAUP was carefully concealed and timed to coincide with the Texas primary elections, but this, of course, is unthinkable with respect to an organization having the ideals and objectives of the AAUP," Dr. Painter said.

Homor P. Rainey, whose dismissal as president of the university preceded AAUP's censure, is a candidate for governor.

President Painter declared AAUP is a voluntary organization of teachers and is not an accrediting agency. Its action will not affect credits of university students, he said. Because the action of an outside agency, such as the AAUP, is capable of widespread public misinterpretation, a peculiar degree of responsibility for orthodox procedure and accuracy of findings is imposed," said Dr. Painter.

"It is peculiarly unfortunate that AAUP did not see fit on this occasion to make a thorough first-hand investigation of the university situation and to afford the university an opportunity to comment on the investigational report prior to formal action."

Information about the university was gathered at long range by news stories, committee reports, letters and interviews with interested persons, he declared.

"No thinking person will for one minute believe that this procedure can produce all of the salient evidence in a situation as involved as ours," he added. "I am forced to believe that the report is based upon information which is at once one-sided and incomplete. I cannot help but wonder whether officials of the association are entirely pleased with the potential damage which they have done not only to an honored university but to their own organization."

Gone Are the Good Old Days--
... when your great grandfather boasted that he bought bananas at a dime a dozen and his farm from the State with only one deed in the chain of title. Today, that same title may have hundreds of transactions in the chain, and as it lengthens defects multiply and enlarge. The abstract is the only means yet devised that attempts to reveal these defects and places them in position for correction. That's why more and more people are demanding an abstract when they buy real estate.

TEEN-AGERS INVADE USO

DOMINATING THE GI SCENE both at home and overseas by sheer force of numbers is the teen-age GI, the eighteen- or nineteen-year-old soldier or sailor recently inducted to finish the job begun by his uncles and his brothers and his dad.

But, as USO's everywhere have discovered, the teen-age GI wants younger hostesses and has tastes different from the service men who preceded him. Result: younger USO hostesses (the minimum age-limit is now 16, instead of 18) and a new USO program featuring teen-age activities.

Typical of the younger crowd at USO clubs are the couple pictured here: Russell Crum, A. S., of Wichita, Kan., who raids the cookie jar at the Penthouse USO in Washington, D. C., with Junior Hostess Doris Almond, a Navy employee from Charlotte, N. C., as accomplice.
