Vets Should File College Applications Immediately

Veterans who plan to enroll at some North Texas college this fall should file their applications for school entitlement with the nearest VA office now. Otherwise, said Tom R. Rayburn, manager of the VA Dallas Regional Office, ex-servicemen will contribute to confusion and delays which have provoked complaints in the past if they go to school without certificates.

Certificates may be obtained at any VA contact office.

A contact representative from the Mineral Wells office will be in Cisco each Wednesday afternoon at the chamber of commerce office.

Rev. J. B. Jamison Father of Ciscoan Died Early Today

Rev. J. B. Jamison, D. D., Presbyterian minister and father of A. E. Jamison of Cisco, died at 1:05 a.m. today at the home of his daughter Mrs. Helen Mason, 415 Parker Drive, Pittsburgh, Pa. Mr. and Mrs. A. E. Jamison were at his bedside when death came.

Rev. Mr. Jamison, about 86 years of age and an outstanding minister, had been active in the ministry until a few months ago when he suffered a fall that incapacitated him from further work in the ministry.

Survivors are the widow, his daughter, Mrs. Mason and four sons — A. E., Cisco; John, Chicago; Robert, Miami, Fla., and Frank.

Polio Chairman Neil Day Candidates Thursday date for Tax Assessor - Collector Night Meeting

By United Press.

Carlos J. Turner, Cisco Junior College registrar, informs the Daily Press Neil Day, whom most everyone in the county knows personally or at least know who he is, makes his formal announcement as a candidate for the office of county tax assessor-collector, subject of course to the action of the Democratic primary.

Neil Day is a native of Eastland county, having been born in East-

land. The continued increase of polio throughout the state," says Mr. Turner, "has prompted your chairman to call this meeting, so we can formulate plans for handling cases that may develop in Eastland county. Your presence at the meeting Thursday night is urgently requested."

Weed Communists Out Federal Jobs While Possible

WASHINGTON, June 26.—Representative Edward H. Rees (Rep.) of Kansas charges that the civil service commission has approved Communists and their followers for federal jobs and demanded an investigation. The commission is slated a denial.

Rees urged his colleagues, in a speech, to approve a resolution authorizing a house civil service subcommittee to scan the commission's records of its checkups on federal workers' loyalty.

He said that during the war the commission set up a special board which "time and again" reversed the reports of investigators who had looked into the background of prospective government employees.

"The evidence I have shows that in 75 per cent of the cases involving Communist activities of federal employees," Rees declared, "this board of advisers to the civil service commissioners reversed the findings of the investigator who actually conducted the investigation."

He is a member of Duill-Daniels Post No. 70 of the American Legion and of the Karl nad Boyd Tanner Post of the Veterans of Foreign Wars.

He is a member of the First Christian church at Eastland, married and has five children, four girls and one boy.

Being a licensed land dealer, he has familiarized himself with land and tax matters.

"My aim," Mr. Day says, "is to give Eastland the most efficient and up-to-date tax system possible."

Getting into the race a little late, Mr. Day will make every effort to see each and every voter in the county personally, but whether he is able to contact you personally or not, he respectfully solicits your influence and vote.

WASHINGTON, June 25.—The Army today ordered a draft holiday for July and August as the House passed and sent to the Senate a compromise bill extending the draft until next March 31.

The House approved the draft extension by a 259 to 110 vote.

Secretary of War Robert P. Patterson said that even after August the army will limit draft calls to provide only such manpower needs as can't be met by voluntary enlistments.

The army decision not to ask for draftees in July and August means a total draft holiday in those months, as navy calls have been cancelled.

Patterson's letter was read to the House just before it approved the compromise draft extension bill. This will permit induction of 19-year-olds, but exempt 18-year-olds, all fathers and most ex-servicemen.

A few minutes previously, the House had passed and sent to the Senate legislation providing pay increases for all members of the armed forces.

The raises range from 50 per cent for buck privates and apprentice seamen to 10 per cent for five-star generals and admirals.

The draft extension was approved after the House rejected, 182 to 74, a motion by Rep. Dewey Short, R., Mo., to send the measure back to a Senate-House conference committee, with instructions to eliminate the 19-year-old group.

"It is ridiculous to kow-tow to one group at the expense of another in a country where all men must be represented alike by the federal government," he declared.

"Such procedures insult decent society. It is ridiculous to try and regulate economics through promises which have no constituted authority."

"I do not ever want to see the time when our agricultural products are controlled for the particular benefit of people who use them without just regard for those who produce them," he added.

The railroad commissioner reiterated his support of removal of ceilings on agricultural products so that farmers can receive a fair price for what they produce.

Company officials who witnessed the test-craft said the flight vindicated their confidence in the success of the 104-ton bomber.

"I do not know of any specific thing I can do about it when I become governor," he said, "but I pledge here and now that as chief executive of Texas I shall be alert to such opportunities; and if they arise I will be the first to speak out, or act within my authority, to defend the rights of our farmers and ranchers."

"They have been browbeaten and held down too long by selfish interests. It is time that something be done about it."

Explaining his long-held views on education, Jester warned that Texas cannot afford to drive teachers into other occupational fields because they are underpaid in their profession.

UNION STRATEGY.

ST. LOUIS, June 25.—Pro-labor baseball fans will not see Wednesday night's St. Louis Browns-Philadelphia Athletics baseball game at Sportsman's Park. The field is to be encircled by 500 AFL pickets. This was announced today by Henry Fries, president of Local 545 of the Butchers and Packinghouse Workers Union. The union is at odds with the Federal Cold Storage Plant of which Richard C. Muckerman is vice president. Muckerman is president of the Browns.

THIRTY CENT COTTON.

NEW YORK, June 25. (UPI)—Thirty cent cotton came back on the futures market today for the first time in 23 years as buyers, anticipating an early climax in the administration - congressional battle over price controls, sought to fill commitments in markets holding a meager supply of contracts.

Free Farmers and Pay School Teachers a Living Wage

—BEAUFORD JESTER.

Special to Daily Press)

DENVER, June 25.—Met by a large delegation of supporters on his arrival here this morning for the start of a West Texas-Panhandle tour, Beauford Jester, candidate for governor, condemned attempts to hamstring agriculture further by additional stabilized prices and reiterated his stand on higher salaries for teachers.

He told the delegation, headed by Jerry S. Fowler, county manager, and Mrs. Richard J. Turnett, chairman of the State Women's Division for his campaign, that pressure groups in this country have been appeased too much already and endorsed the stand of livestock organizations when Saturday condemned Chester Bowles offer to make a "deal" with labor at the expense of agriculture.

The livestock men had gone on record against Bowles' attempt to get a one-year strike truce from labor in exchange for stabilized prices.

"It is ridiculous to kow-tow to one group at the expense of another in a country where all men must be represented alike by the federal government," he declared.

"Such procedures insult decent society. It is ridiculous to try and regulate economics through promises which have no constituted authority."

"I do not ever want to see the time when our agricultural products are controlled for the particular benefit of people who use them without just regard for those who produce them," he added.

When Dr. Rainey stated at El Campo last week that he was not put in the race by the CIO, he was careful not to say that he did not have the support of the CIO.

The railroad commissioner reiterated his support of removal of ceilings on agricultural products so that farmers can receive a fair price for what they produce.

"I do not know of any specific thing I can do about it when I become governor," he said, "but I pledge here and now that as chief executive of Texas I shall be alert to such opportunities; and if they arise I will be the first to speak out, or act within my authority, to defend the rights of our farmers and ranchers."

"They have been browbeaten and held down too long by selfish interests. It is time that something be done about it."

Explaining his long-held views on education, Jester warned that Texas cannot afford to drive teachers into other occupational fields because they are underpaid in their profession.

OPA Raises Hard Coal 91 Cents Ton As An Equalizer

WASHINGTON, June 25. (UPI)—The OPA today raised retail ceiling prices on hard coal an average of 91 cents a ton.

The action was designed to compensate anthracite producers for higher materials costs, as well as higher labor costs, resulting from the new wage contract with the United Mine Workers union.

HOUSE PARED BILL.

WASHINGTON, June 25. (UPI)—The House today adopted and sent to the Senate a \$247,167,036 compromise Interior Department appropriations bill for 1947. It reduced Senate-approved funds for 14 western reclamation projects.

"I would place the entire responsibility right on the governor," he said.

"That's where it belongs. Now no one knows just who is responsible."

"I want a system so that when a sheriff takes a prisoner to the penitentiary, and the prisoner beats him back home, then he'll know who was responsible."

March announced also that he was after his big-time opponent. Last week he followed Atty. Gen. Grover Sellers around, allowed sellers to get a crowd together, then barked at the candidate through his own loud-speakers. March charged that Sellers was a stooge for the oil interests.

he is in opposing the practice of certain labor racketeers in requiring that laboring men pay them from \$25 to \$50 in alleged union initiation fees before allowing them a job."

AUSTIN, June 26.—Despite Dr. Homer P. Rainey's denial that the CIO had put him into the gubernatorial race, the labor leaders are very active in his behalf. Lt. Gov. John Lee Smith charged here Monday.

"When Dr. Rainey stated at El Campo last week that he was not put in the race by the CIO, he was careful not to say that he did not have the support of the CIO," Smith said.

"It is well known, not only to myself but to the other candidates in the race, that the CIO leadership is very active in behalf of Dr. Rainey."

Smith also declared that Dr. Rainey strongly advocates the general policies of the CIO.

"On more than one occasion, in recent radio addresses sponsored by the Jacques Saw company, Dr. Rainey came out squarely for the passage of a law creating the Fair Employment Practice Committee," Smith declared.

"They have been browbeaten and held down too long by selfish interests. It is time that something be done about it."

If you're sharing a telephone party line, you're helping someone else here have telephone service now. Otherwise he'd likely be waiting his turn for service.

Party-line service is one way of stretching the telephone system here—to serve as many people as possible now instead of asking some to wait until we've had time to put in the wires and cables and switching equipment needed to serve everybody who is waiting.

It's a big job—catching up with four years of backed-up demand. But we're hard at it. As soon as possible, we'll bring service to everybody who is waiting for it. And, after that, we expect to be able to furnish one-family telephone service to those who want it.

"GOOD NEIGHBOR" SUGGESTIONS for party-liners

Before calling, please listen to see whether the line is in use. If it is, hang up gently and try your call again a little later.

When talking, remember your party-line neighbor—he may want to make a call—so please be reasonably brief.

Between calls, try to allow a little time so the other people on the line may have the opportunity to use it.

Ask the children to follow these good neighbor suggestions, too.

Thanks a lot.
