Taft Says Opa Violating the Law to Regain Control

Wm. N. McGee of Scranton Died in a Baird Hospital

SUBVERSION.

William Newton McGee, a farmer of the Scranton community died at 1:35 Monday afternoon at a hospital in Baird. He had been ill about two weeks.

Mr. McGee, who was born in Rosebud, Ala., April 30, 1881, moved to Scranton from Pyote in January of this year. He married Miss Nora Bynum of Buffalo Gap, Nov. 15, 1907, and the family consists of the wife, three daughters and two sons—Mrs. Maria Moore, Mrs. J. H. Hendrix, Pyote; Mrs. Bobbie Brooks, Andrews; George G. Scranton; Corp. Wm. N. McGee, enroute home from San Francisco. There are also five grandchildren.

Funeral will be held at Scranton Methodist church at 4 o'clock Thursday afternoon. Rev. H. J. Sanders, Methodist minister, and Rev. Arvel Reese, Baptist minister, will officiate. Burial will be in the Scranton cemetery, with Thomas funeral home in charge.

However successful America's system of free enterprise has been, faith in planned economy has spread rapidly over this nation's political thinking in the last 25 years. It is strange that the world's most prosperous and influential people should forget how its power was built, and think about imitating a plan that fails every time it is tried, but that's the picture.

How did planned economy get into the picture in the United States? This is the country with no peasant class! It is here that laborers drive their own motor cars. This is the land where farmers live like lords in older countries. It must have been a strange set of circumstances that turned the eyes of a favored people to look with envy at under-fed and over-worked races beyond the seas.

They Only Heard.

The facts were not all known. If farmers and craftsmen of America could see how men of familiar skills elsewhere must live, they would thank God for giving their forefathers wisdom to safeguard in our Constitution the right of ownership. Americans who lean toward socialism have seen very little of it and heard only one side. Planned economy invaded America thus:

After Liberty Bell had been silent 150 years, the Statue of Liberty grew green with tarnish and people began taking freedom for granted. Carefree descendants of men who endured Valley Forge ceased to appreciate their costly birthright; simply had no idea how it would seem to be without freedom. Sly digs at America and her people were swallowed down by an open minded generation.

Poisonous Teaching.

Protected by the free-speech clause in our Constitution, soap-box orators started braying against invested capital. Crafty minds coined such slurs as "entrenched greed" and "economic royalists" to stir up envy and make success in business seem dishonorable. Wordy was against "coupon clippers" frightened investors, large and small, and choked the flow of capital into business.

It is not possible in any country to provide abundant lives for the masses by raiding the rich, but the idea was hatched and spread around in America. Armies of idle people were trained to rely on government instead of on themselves. Even in schools supported by the state, boys and girls learned to question the value of individual opportunity, a cardinal liberty.

Government Control.

War came, and it was two years old before victory was even reasonably certain. Government rightly seized the nation's resources and manufacturing plants, and (presto) a lion's share of America's bread winners were in war work drawing the highest pay they ever heard of; Uncle Sam going in debt 150 million dollars a day. Things to buy became scarce, and loose money rattled in every pocket.

Quite naturally people gave government the credit when, after four years of government management, they had more money than they could spend. Actually the facts are not related. When a public debt, that approximates the country's worth, keeps growing, people are not prosperous even if their wallets do bulge with "let-tuce" because there are not enough things to buy.

PORK BRREL BILL.

WASHINGTON, July 9. (U.P.)—The House today sent the \$615,395,070 Rivers and Harbors Bill back to a Senate-House conference committee after refusing to approve the increased funds recommended by the Senate for the Arkansas river project.

By United Press.

WASHINGTON, July 9. — Sen. Robert A. Taft, R., O., today accused the OPA of using "communist technique" propaganda in urging restoration of rigid price controls.

He took the Senate floor to charge OPA specifically with violating the law which forbids government agencies from using appropriated funds to influence legislation.

"If the department of justice was on the job and enforcing the law, this sort of thing would not be permitted to continue," he said.

Taft unleashed his attack on OPA as the Senate continued debate on the new compromise measure to revive price, rent and wage controls.

Senate Democratic Leader Alben W. Barkley protested against Taft's remarks, saying the Ohio Senator was trying to create the impression that only Communists and fellow traveler organizations were in favor of continuing OPA.

Objections by Sen. W. Lee O'Daniel of Texas blocked Barkley's attempt to guarantee a vote late this afternoon on a controversial decontrol amendment.

Earlier, Taft told the Senate he would do everything in his power to revive rent controls in separate legislation if OPA were not revived.

He said he believed Congress was almost unanimous in favoring such a step.

War Department Didn't Listen in On Phone Talks

WASHINGTON, July 9. (U.P.)—Sec. of War Robt. P. Patterson today told the Senate War Investigating Committee he never has recorded telephone conversations of members of Congress calling the war department.

The committee, investigating war profits of a "paper empire" combine of Illinois munitions firms, summoned Patterson to tell what he knows about wartime activities of the combine.

Earlier today the committee was told Patterson ordered funds of the combine frozen last Sept. 6 to protect the government.

Truman Would Pay Vets 33 Billions in Federal Bonds

WASHINGTON, July 9. — The White House said today President Truman has proposed a compromise plan to use government bonds as well as cash, in paying approximately 14,000,000 war veterans for accumulated furlough time.

The plan, Press Secretary Eben Ayres told a news conference, is the president's own idea. Under it, veterans who served in the ranks would get cash for all terminal leave payments less than \$50 and five-year bonds in \$20 denominations for larger amounts.

Estimates of the cost ranged from \$2,750,000,000 to \$3,000,000,000. The latter figure was mentioned by Senator Edwin C. Johnson (D-Colo.) who first disclosed the plan to reporters. Johnson said it was advanced by the budget bureau, which speaks for the president.

"The plan is intended to avoid inflationary effects of making a huge cash payment at once," Johnson said. "I think congress will approve it before it quits."

Johnson said the new plan for paying all enlisted personnel the same terminal leave payments received by commissioned officers would be presented at a session of the senate military affairs committee today. A payment bill already has passed the house.

American League Blanked Nationals in Annual Classic

BOSTON, July 9. (U.P.) — The American League, behind the three-hit pitching of Bobby Feller, Hal Newhouser and Jack Kramer, defeated the National, 12 to 0, today in the 13th renewal of the Major League All-Star game.

It was the worst defeat that either league ever suffered in this annual classic and for the American League it was its ninth victory against four defeats.

Led by thumping Ted Williams, the hard-hitting left fielder for the Boston Red Sox, and Charley Keller of the New York Yankees, the American League never was in danger. After Keller's homer, following a walk to Williams, gave the American a two-run lead in the first inning, it was never a contest.

Playing in his home park before a capacity crowd of 34,906, Williams put on a one-man slugging show.

He hit two home runs and two singles.

UNRA Stops Shipment Agricultural Tools to China

WASHINGTON, June 9. (U.P.) — UNRA Director-General Fiorelli Laguardia announced that all UNRA shipments of industrial and agricultural equipment to China had been stopped today.

He explained that the action was taken because distribution to the Interior of China was unsatisfactory.

The announcement followed a report from China that the UNRA mission there had charged that UNRA supplies were being used for "political purposes."

Laguardia did not discuss these charges.

THEY'RE HAPPY, NOW.

MIAMI BEACH, Fla., July 9. — Mr. and Mrs. John S. Smith settled down to married life here today just like any other newly-wed couple, somewhat annoyed at all the publicity their marriage received. The 81-year-old retired contractor and his 22-year-old bride, the former Mrs. Dorris M. Akins, eloped to Coral Gables. Mrs. Smith, shewing gum, boomed a loud "I do," when asked the vital question. Smith, sweating in the Florida heat and his best suit, also firmly replied that he did.

MORE NURSES NEEDED.

FT. WORTH, July 9. — Eight more nurses were called for today as two new polo cases brought the total to 58. Nurses will be paid \$8 per day for 8-hour duty.

THE ACT WAS OVER—Clown Art Borella, 72, was having the time of his life entertaining the crippled children at a St. Louis hospital. Minutes after this picture was taken, he flopped to the sawdust. The children laughed at the act, but Borella had died of a heart attack.

No Word of 4 U. S. Citizens Who Entered Red Zone

BERLIN, July 9.—The U. S. army provost marshal's office announced today that it had thus far been unable to obtain from the Russians any information concerning the whereabouts of four Americans who disappeared into the Soviet occupation zone last week.

American officials earlier had expressed a belief they were "getting the run-around" from the Russians, who were thought to have arrested the four for illegal entry into the Soviet zone.

The missing quartet was identified by U. S. army headquarters this morning as:

Warrant Officer Samuel L. Harrison, San Antonio, Tex., and his wife, Helen.

Capt. Harold Cobin, Newark, N. J. He is connected with the office of the American military government in Berlin.

2nd Lt. George E. Wyatt of the 252nd engineer combat battalion, Oklahoma City, Okla.

MOLOTOV INDIGNANT.

PARIS, July 9. (U.P.) — Russian Foreign Minister V. M. Molotov today launched a bitter denunciation of Secretary of State James F. Byrnes and the three western powers, charging that the terms of the Potsdam Declaration were not being carried out.

MANNERS.

Ellery Sedgwick, former editor of the Atlantic Monthly, has an article in the current issue of that magazine about his boarding school days at Groton. In the mellow reminiscences, part of a longer autobiography to be published shortly, Mr. Sedgwick says boys in those days, the late '80's, were taught manners, "which I still think as important as anything a boy can learn. They were not mere company manners, clean collars, ungrimed hands and a smile for the visitor. They went below the surface. Manners, if not a substitute for virtue, at least make every virtue shine."

Parents might well take a leaf from this notebook. A youth who has courtesy and graciousness as an integral part of himself will find them a lubricant of living, an easement in everyday dealings.

SHAW AT NINETY.

The world's most interesting 90-year-old will enter that select group on July 25. He is George Bernard Shaw, Irish playwright, novelist, essayist, Socialist vegetarian and utterer of opinions on

all sorts of subjects, some of the opinions being sound and all of them witty. So well has Shaw blown his own trumpet that, with the death of President Roosevelt, he became perhaps the only man whose mere initials are familiar around the world. GBS means one man and one man only. How has Shaw attained this great age? This question, asked of all oldsters, has probably been propounded to Shaw. An explanation as likely as any to come from his lips is the statement that he authorized for the English Who's Who: "Recreation: anything except sport."

"EXTEND OPA UPWARD NOT DOWN," MILES ASKS.

STAMFORD, Texas, July 9. — Ted Miles, ex-GI and businessman campaigning for election to Congress from the 17th Texas district, today urged the public to call on its present Congressmen for an upward extension of OPA.

Evidence of the last week has shown that retailers and other small business men are ready and willing to hold the line, he said, whereas manufacturers and big corporations are already beginning to raise their prices.

Miles declared that a downward extension, which would effect only small business, is not only unnecessary but would be harmful and costly to administer. However, he warned that reasonable curbs on heavy industry and all monopolies should be retained in order to assure the welfare of the people and the national economy. Adv.

"GI" Bill of Disappointment and Surplus Property Disposal.

The friends of Bryan Bradbury, candidate for Congress, desire to call your attention to a recent statement made by Bradbury relative to the "GI" Bill of Rights and the disposal of surplus property: "The GI Bill of Rights has some worthy features and they should be maintained but in many respects it is the GI Bill of Disappointment. Because of red tape, delay, rules and regulations it is most impossible to secure badly needed benefits. We were told when we returned from the service that we could obtain loans to buy or build a home but we have found this procedure too slow and bogged down in red tape. This law needs amending to carry out the wishes of the people.

"When the war ended we had several hundred million dollars worth of property overseas and much of it has been declared surplus. Did you know that hundreds of millions of dollars of our surplus property has been sold to foreign governments and much of it sold at about one-third of its value and on credit?

"In other words much of our surplus property has been sold to foreign governments at one-third of its value and we have loaned them the money to buy it with while at the same time thousands

of veterans have been unable to buy badly needed surplus property. "I know many veterans who have had priority certificates in their pockets for months and haven't been able to buy a single solitary piece of surplus property. I think it is time to look after our own citizens. "Under the provisions of the surplus property law this property of ours that is abroad after having been declared surplus and sold cannot be returned to the United States except in two cases. A veteran overseas can buy it and bring it home with him, but that doesn't mean too much because he would have difficulty bringing a jeep or truck across the sea on his back. The other exception is that this property can be brought back home for the purpose of being repaired provided it is shipped out again. How absurd. This law should be amended whereby the property can be brought back to our country and placed in the channels of trade to aid in relieving the terrible shortages that exist here.

"We need men with courage and backbone who are willing to stand and fight for the interests of the American people."

Bradbury is that kind of man. Let's give him a trial.
