FACE OF A FASTER—Claude Baxter, former chef, sips a cup of coffee for the only nourishment in his planned 100-day fast in Los Angeles. He wants to dramatize the world food shortage. He's lost 42 pounds since he started his sympathy fast in May.

GOP Senators to Oppose Price Ceilings on Wheat

In Spite Early Episcopal Adopt Hour, Many Met Name of Trinity Jester Party Here For New Church

The Jester gubernatorial party minus Mr. Jester, who was forced to postpone his Cisco visit to attend a special meeting of the Federal Communications Commission in Dallas — assembled at Laguna Hotel promptly at 8:15 this morning.

The party comprised Miss Barbara Jester, daughter of Candidate Beauford Jester; Ken McClure, radio and newspaper columnist; Wally Scott of Tyler; Randolph Mitchell of Corsicana; Reynolds Johnson, newspaper correspondent, and David Botter, the latter a Dallas News representative.

L. A. Warren introduced Miss Jester, who made a pleasing talk in which she conveyed her father's regrets at having to cancel his Cisco speech. She also expressed her pleasure at being able to meet the Cisco men and women who had congregated at the hotel at such an early hour to greet the Jester party.

Ken McClure followed Miss Jester in a 20-minute talk in which he gave many reasons for voting for Beauford Jester for governor at a time when a stable, efficient, unselfish man is needed to take over at Austin after the present governor steps down. McClure was vigorously applauded at the close of his talk.

Some 400 persons heard Mr. Jester when he spoke at Eastland last night. Jester was introduced by E. W. Patterson, former district judge of Eastland, who said that "after mature consideration, and having nothing in mind but what was best for our state and our nation, I concluded that Mr. Jester is the best choice before the people of Texas for governor."

All-out efforts of Texas oilmen during the war, in spite of the fact that oil never increased in price, was lauded by the candidate for governor.

"There were no strikes, no lock-outs, no slowdowns in the oil industry," Jester pointed out. "The cost of operation, the price of labor and materials and overhead for the oil operators went up," he said, but the operators' own per barrel income decreased. "My hat's off to the oilman as a Texas man and as an American," he said.

By United Press.

WASHINGTON, July 12.—Senate Republicans, opening the way for still another battle over the OPA Extension Bill, announced today that they would push another new amendment to prevent any future price ceilings on wheat.

Sen. Robert A. Taft, R. O., said the Republican Steering Committee had decided to offer a modified version of a previously-offered amendment to keep all grain and grain products free from price controls.

Both Republican and Democratic leaders hoped that all remaining amendments could be disposed of late today or tonight to send the measure to conference with the House.

The bill may possibly run into another presidential veto if the conferees do not eliminate some of the provisions opposed by the administration.

Still hanging over the Senate, however, was the threat of a filibuster by Sen. W. Lee O'Daniel of Texas, who said he expected to take the floor "when the other senators stop filibustering."

JUST DROPPED DOWN—What goes up has to come down, and these two Navy lieutenants, John G. Callahan (left) and H. R. Walton, came down in a West Philadelphia alley for a forced landing in their balloon. Firemen, adept at getting cats down out of trees, proved they could get balloon back up into sky, too.

Five Cisco Vets Lobo Softballers Invited to Sale Beat Lone Star, of WAA Used Cars 6-4, Last Night

FT. WORTH, July 12.—Five Cisco veterans of World War II have received letters of invitation to attend a sale of surplus used motor vehicles to be held by the War Assets Administration at the Fort Worth Army Air Field, Monday and Tuesday, July 15-16.

The letter of invitation was sent to a selected list of principals and alternates for the 85 motor vehicles represented on the offering, which includes passenger cars, jeeps, pick-up trucks, trailers and a variety of makes and models of trucks.

All sales will be made in strict chronological order to the oldest dated certificate in each classification. Veterans are invited to inspect the vehicles daily except Saturday and Sunday, through July 16 from 8:30 a. m. to 4:00 p. m.

WAA pointed out that while few passenger cars have been available to offer for sale to veterans, as illustrated by the fact that invited veterans to the FWAAF sale have been certified since last October, in other classifications of vehicles referrals are much more current. Scooter applicants certified as recently as last month are already being invited to purchase.

Weighty Matters Face UofT Regents Today, Saturday

AUSTIN, July 12.—University of Texas regents are to have their July session here today and Saturday and of prime importance is the expected report by the joint committee proposing a plan for Negro professional education in Texas. President Gibb Gilchrist of A. & M. College is chairman of the joint committee.

The joint committee was created by the two governing boards at Fort Worth following the attempts of Negroes to enter the university law school.

A. & M. College directors will meet at Corpus Christi Saturday to receive the same report. It is not known whether the regents will wait until Saturday to take action concurrently with the directors, or make public the report late today.

Whether the joint report will recommend expansion at Prairie University for Negroes or the establishment of a separate Negro college for professional training, possibly at Houston, has not been revealed.

Consideration and adoption of the 1946-47 budget is due to come before the regents. Also slated for action are the appointment of about fifty new faculty members for the 1946-47 term and the resignations of some sixteen members of the faculty, most of which already have been announced.

Since the board held no meeting in June, a lengthy docket of routine matters will require attention.

Law Tightens Tentacles About Chicago Murder fiend

CHICAGO, July 12.—State's Attorney William J. Touhy announced today that the fingerprints of William Heirens, 17-year-old suspect in the Suzanne Degnan murder, had been found to correspond at 15 points with fingerprints found in the murder of Frances Brown, 33-year-old ex-wave.

Fingerprints left on the jamb of Miss Brown's bathroom door were compared with prints taken from Heirens by Thomas Laffey of the city's bureau of identification. Laffey reported his findings to Touhy.

Miss Brown, petite brunette stenographer, was shot twice, stabbed and beaten to death.

TROUBLE FOR CANADA. HAMILTON, Ont., July 12.—The CIO United Steelworkers today called a general strike in Canadian steel plants to start next Monday or earlier.

DRAFT AGE TO 34? WASHINGTON, July 12.—The army has recommended to President Truman that the top draft age be boosted from 29 to 34 years when induction calls are resumed in September.

2 Key Witnesses Refused to Waive Their Legal Rights

WASHINGTON, July 12.—Two key witnesses in a senate committee investigation of a "paper empire" of munitions firms were excused today when they declined to waive their constitutional right not to testify against themselves.

They were Dr. Henry M. Garsson, a top official in the combine that got \$78,000,000 in war contracts, and Benjamin F. Fields, Washington Publicist, who had been accused of attempting to stop the investigation with bribes.

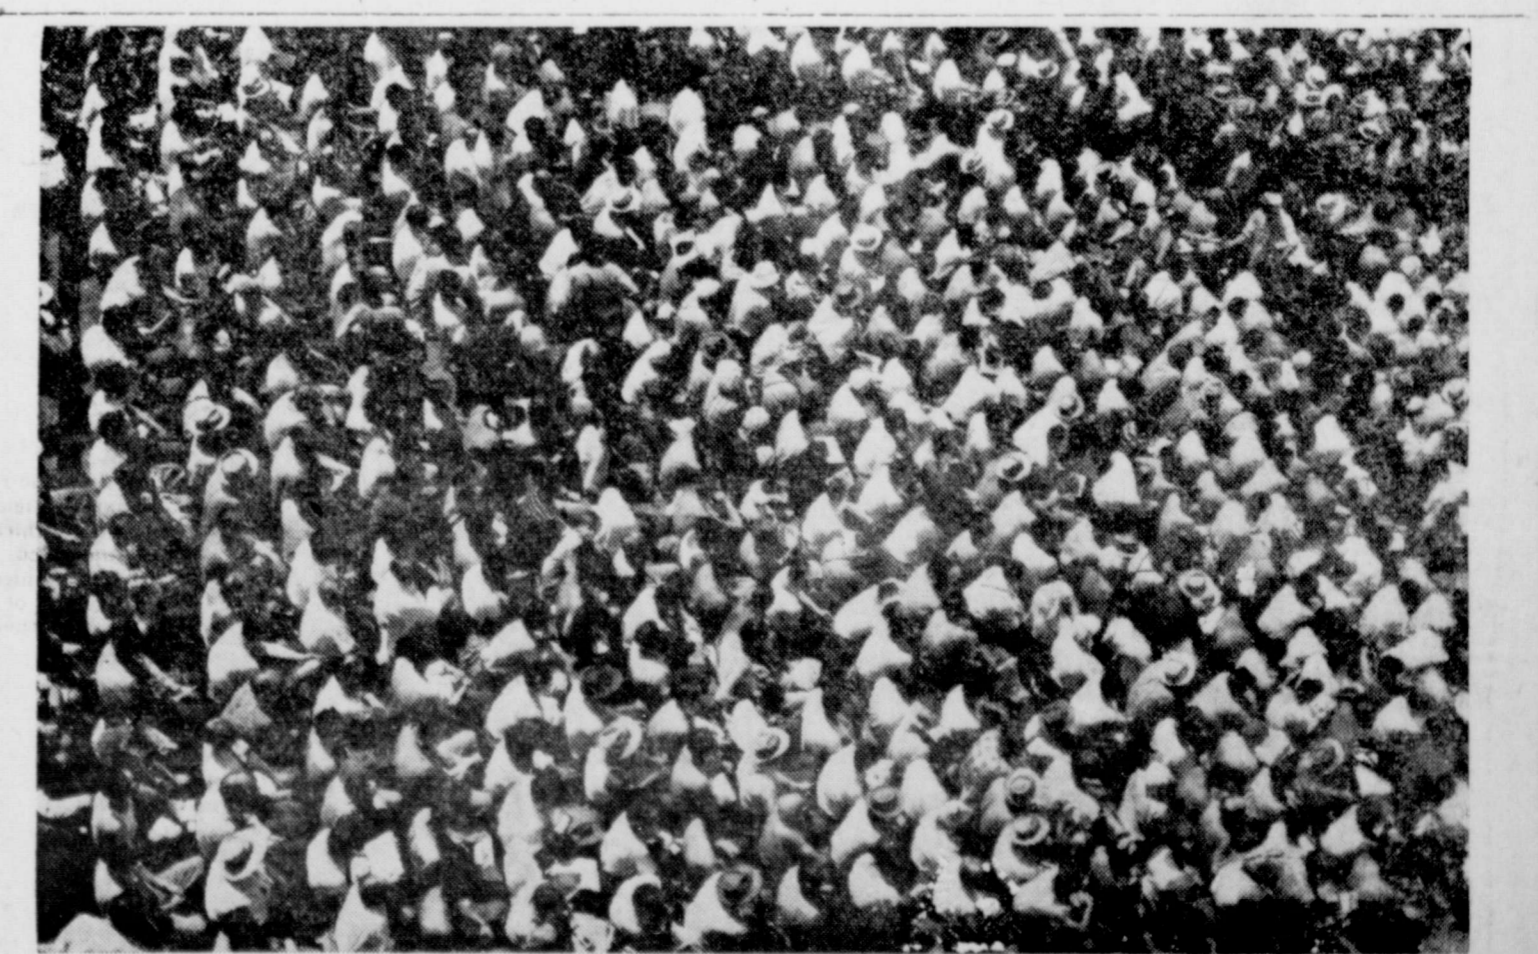

Before they took the witness stand, the War Investigating committee formally renewed its invitation to Rep. Andrew J. May, D., Ky., to testify in open session concerning his connection with the Garsson companies.

SUPERSONIC MAN'S FAMILY—Shown with his wife and children is test pilot Jack Woolams, 29, of Buffalo, N.Y., who'll be the first man to travel faster than sound if the new XS-1 rocket plane performs according to its promises. The Woolams are undaunted by pop's supersonic future.

300 GUESTS POISONED.

ATLANTIC CITY, N. J., July 12.—Mass food poisoning created near panic in Kaufman's Hotel here early today. Guests collapsed in the lobby, hallways and bedrooms of the five-story hotel and 13 persons were taken to hospitals. At least 100 others were treated at the scene. Early reports from physicians who answered emergency calls estimated that 300 of the 400 registered guests had been stricken. Cream puffs were said to have been the cause.

BLEACHING IN THE BLEACHERS—Finding a place in the sun is no trouble at all for these baseball fans who provided this human pattern shot for the camera at a double-header at the New York Polo Grounds. If you look closely, you can get a good idea of what the well-dressed bleacher customers are wearing this summer—white shirts, striped shirts, under shirts, or no shirts at all.

RENT CONTROL.

Housing is generally considered to be the worst sore spot in the whole field of shortages. With food and clothing it's at the top of the list of essentials, but unlike food and clothing the quantity of available housing cannot be increased to an adequate amount for a long time to come.

So without rent control, housing naturally moves toward sky-high prices. When hundreds of families are trying to get nearly every house or apartment which becomes vacated, in desperation somebody will pay far more than the place is normally worth. Likewise the landlord knows he can get any rent he asks.

Whatever the final decision on OPA as a whole, the housing problem can be considered separately. The endless complications involved in fixing prices on products for sale need not enter the consideration of rent control.

Some landlords were caught unjustly by the OPA rent ceilings, because their expenses of upkeep rose beyond their income from rents, squeezing out the reasonable profit. But housing authorities who organized to fight the rent ceilings are now the first to admit that in most places a 10 to 15 per cent increase in rents would permit a fair profit for the owner. They are among the strongest advocates of some sort of new method of stabilizing rents.

By pushing through a separate

rent control law, Congress could save many families from unbearable financial troubles, and at the same time put another anchor on general inflation.

END OF THE JAPANESE DREAM OF CONQUEST—When Japanese militarists started their attempt at world conquest, little did they dream that the metal they scraped together by the sacrifices of the people would end where it should have gone in the beginning, into pots and pans. The "War Weapons Disposal Committee" of Japan has given orders to five foundries to begin the work of destroying the military equipment. Some of the 12,000 planes Japan had at the end of the war are

being melted down at the Furukawa Electro-Industry foundry near Tokyo. Workers, upper left, batter airplane parts into pieces suitable for melting, and upper right, cram the furnace with the broken pieces. Sixty per cent of the metal is duralumin. Through the sluice, lower left, comes a silvery stream of metal which workers, lower right, carefully pour into ingots. It later will be fashioned into rice pots and pans. Each plane provides metal for 500 rice pots or 900 smaller pans. Photos by Harlow M. Church. Acme staff photographer.

FLUSH KIDNEY URINE

Benefit wonderfully from famous doctor's discovery that relieves backache, run-down feeling due to excess acidity in the urine. Pough, everywhere are finding amazing relief from painful symptoms of bladder irritation caused by excess acidity in the urine. DR. KILMER'S SWAMP ROOT acts fast on the kidneys to ease discomfort by promoting the flow of urine. This powerful medicine is especially welcome where bladder irritation due to excess acidity is responsible for "getting up at night." A carefully blended combination of 15 herbs, roots, vegetables, balsam; Dr. Kilmer's contains nothing harsh, is absolutely non-habit forming. Just good ingredients that many say have a marvelous effect. All drug stores sell Swamp Root.

FLATLUX

MADE WITH OIL

COVERS WALLPAPER In One Coat

Rooms decorated with FLATLUX look better... they have that beautiful flat, non-gloss finish, only obtainable with an oil base paint, (not thinned with water).

FLATLUX colors are lime-proof... insuring against "lime burns" when used on new plaster walls.

FLATLUX costs no more than ordinary water-thinned paints... because of its extra spreading. One Gallon will do the average room. **Only \$2.75 PER GAL.**

IT'S BOB'S TIME

Two years ago Bob Wagstaff ran for Congress. He made a clean and aggressive campaign. He polled 22% of the vote of the district, in spite of the fact that he was campaigning against the strongest opposition, including the incumbent, and was handicapped by gasoline rationing and other difficulties due to the war. The many friends and acquaintances which he made in that campaign have provided him a strong organization in the present campaign, and he is now known to thousands of voters all over the district.

His record and experience qualify him to make us a great Congressman.

Wagstaff is fifty-three years of age and is a member of the law firm of Wagstaff, Harwell, Wagstaff & Alvis of Abilene, Texas. His success and skill as a lawyer qualify him to understand the drafting of bills and amendments, and the legal construction of federal legislation.

He is a veteran of World War I and is familiar with the problems of the veteran.

He was an outstanding legislator in the 42nd and 43rd Legislatures. He was the author or joint author of the oil and gas conservation laws under which the Railroad Commission regulates the production of oil and gas; the act transferring funds for the payment of Confederate pensions; laws relating to the leasing and sale of Public School Lands; the act giving cities and towns prior rights to the use of the water of Texas rivers in preference to public utilities, power companies and irrigation; and the first act creating the Big Bend Park System in far West Texas. He also took a prominent part in the legislation for the assumption of the County Road Bonds out of the gasoline tax. He was appointed Chairman of the House Committee which wrote the bill, and was appointed a member of the Conference Committee which drafted the final bill, this being the act under which the State now operates for the assumption of County Road Bonds.

He is acquainted with the problems of this district. His platform is clear, definite, and complete on all issues and shows an understanding of the problems of the farmer, rancher, and businessman.

His Record and Experience Qualify Him to Represent the People of the 17th District in Congress

It Never Makes the Headlines—
... but the rather common occurrence of a purchaser buying real estate that the seller does not own is news that editors would like to headline if they were only in the abstract business and knew about it. It may be a serious matter for the buyer when he realizes that he purchased the property hurriedly and did not wait for an abstract. Among other things, the abstract reveals the record owner, the correct location and the title defects and liens, if any.
