The initial meeting of the Veterans Emergency Housing committee, recently named for Cisco, will be held at Cisco chamber of commerce tomorrow night at 7:30, at the call of its chairman, Mayor Edward Lee.

This committee will survey building needs in Cisco, with special reference to veterans housing and recommend to the National housing administration proposed allocations of building material. It will meet with H. W. McCanlies, national housing administration expeditor for West Texas.

Members of the committee besides Mayor Lee are M. E. Fry, S. H. McCanlies, E. L. Jackson, J. R. Deen and Jack Lauderdale.

All building material supply men, builders, contractors, labor representatives and any others interested in the construction of homes are invited to attend the meeting.

The committee will endeavor to survey the local housing conditions thoroughly and to provide accurate information on which the N. H. A. may base allocations of building material to the community during the immediate future.

Humble Hangar at Airport to be Completed This Week

A hangar to house the Humble Pipe Line company's patrol plane at Cisco airport will be completed this week, City Commissioner Tom Stark, in charge of municipal airport affairs, announced today.

The hangar is 28 feet wide by 42 feet long, built of sheet iron on a welded pipe frame, with a concrete floor. It was built by the city with the assistance of W. P. Gunn, superintendent of the Northeast Texas Division of the Humble company, which has headquarters here.

The plane is used to patrol hundreds of miles of pipe line in this division to spot leaks and other trouble which may occur in the system. It replaces line walkers, who formerly had to walk the system in toilsome daylong treks.

MERELY PROPAGANDA. WASHINGTON, July 23. (AP)—Sen. Joseph H. Ball, R., Minn., stepping up his fight against the \$3,000,000,000 G. I. Terminal Leave Pay Bill, charged today that the controversy over the army-navy "caste system" was just so much "distorted propaganda."

6,000 People Hear Jester Talk About Texas University

AUSTIN, July 22.—The future of the University of Texas came in for discussion by Beauford Jester before a university-town crowd estimated at 6,000 here Monday night.

Jester, himself a former member and chairman of the University board of regents during the institution's \$13,000,000 building program, said that when governor his appointments to the board would be "constructive and not political."

Chief among his recommendations was lump sum appropriations rather than itemized appropriations for the University, thus making it possible for University administrators, and not legislators, to decide professors' salaries.

Thus, Texas schools could compete with other colleges offering higher salaries, he said.

CLYDE MINISTER DIES.

CLYDE, July 23.—Funeral for the Rev. C. M. Brown, retired Methodist minister who was stricken fatally with a heart attack while preaching in the Clyde Methodist church Sunday night, was to be held at that church at 3:30 p. m. today. The Rev. Aubrey White, pastor, was to officiate. The Masonic lodge will be in charge of services at a local cemetery.

MIGHT BE WISE.

WASHINGTON, July 23. (AP)—Sen. John H. Overton, D., La., said today after a White House visit that President Truman may curtail federal expenditures for all public works including rivers, harbors and flood control projects.

SIGNED RELUCTANTLY.

WASHINGTON, July 23. (AP)—President Truman today reluctantly signed a measure authorizing government stockpiling of strategic and critical materials. The president warned that the "buy American" provisions of the law must not be used to erect uneconomic trade barriers.

TOTAL RISES TO 92.

FT. WORTH, July 23.—Tarrant county's list of polio victims rose to 92 today with the admittance of four additional cases to City-County hospital.

WASHINGTON, July 23.—The House today approved the compromise OPA bill restoring rent and most price controls for another year, but forbidding return of ceilings on meat, dairy products and grain before Aug. 21.

The revival legislation now goes to the Senate, where speedy consideration is expected. Senate Democratic Leader Barkley said he would move for Senate approval before nightfall.

Later, however, Barkley reportedly decided against pressing for a vote until tomorrow.

The measure, purged of some of the features which provoked Mr. Truman's veto of earlier OPA extension legislation, was carved out by Senate-House conference committee in five days of turbulent meetings.

Described by administration leaders as "the best we can get" and characterized by OPA Administrator Paul Porter as better than the vetoed measure, the new bill was given a good chance of Mr. Truman's approval.

The president's signature would pull the OPA from the grave in which it was laid at midnight last June 30, after Mr. Truman vetoed the original OPA extension measure passed by congress.

Before the final vote, the House brushed aside a motion to recommend the measure to the Senate-House conference committee and strip it of all provisions except federal rent control.

The motion was defeated, 220 to 35.

FORMER SLAVE VOTES.

DALLAS, July 23.—Ras Harrison, 103, who said he was an ex-slave, cast an absentee ballot yesterday in the county clerk's office here. It was the first time he has voted in 59 years. Harrison was born in Macon, Ga., and has lived in Dallas since he was 19.

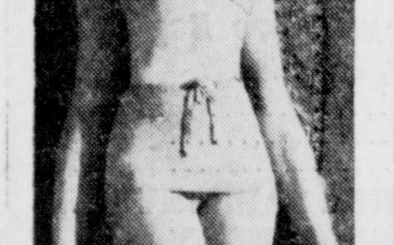

ARREST 20 JEWS.

Radioactivity Is Not So Dangerous, After All

ABOUT THE USS APPALACHIAN IN BIKINI LAGOON, July 23. (AP)—Four men participating in the operation crossroads project have been exposed to radioactivity above the limit of human tolerance, but none have suffered ill effects, it was disclosed today.

Col. Stafford Warren, radiological staff adviser, said one of the men had received "four times more exposure than we thought anyone would be able to stand, but he is still on the safe side."

Truman Signs Two and Half Billion Deficiency Bill

WASHINGTON, July 23. (AP)—President Truman today signed the \$2,652,860,866 third deficiency appropriation bill which includes \$75,000,000 for operations of the now-defunct OPA in the current fiscal year.

The measure specifically bars use of any of the OPA funds for "general propaganda" purposes. The OPA appropriation represented a cut of about \$31,000,000 from the amount originally approved by the House.

School Warrants Expected to Hike Teacher Salaries

AUSTIN, July 23. (AP)—L. A. Woods, state superintendent of public instruction, today announced the release of warrants representing a supplemental \$3 per capita apportionment on 1,493,938 scholars.

The payment raises the apportionment paid to date to \$33 for the 1945-46 school year.

It was expected, however, that schools would not use the warrant until the school year beginning in September as part of a move to raise Texas school-teachers' salaries.

Jaycees Had Great Time Last Night at First Banquet

The first annual installation banquet held last night by the newly organized Cisco Junior chamber of commerce on the roof of the Laguna Hotel was a fine success, says Jack Lauderdale, publicity chairman.

The roof was beautifully decorated in blue and white, the national colors of the Jaycees.

Jay Garrett, serving as toastmaster, presided at the banquet which was, in the opinion of many the most unique affair ever held in Cisco, and also a thoroughly enjoyable one.

The fun began with an autograph contest in which each person was required to get as many autographs as possible during a fifteen minute period. The winner was Mrs. Bob Latson and she was given a pair of nylon hose.

The orchestra composed of Ray Judia, Ernest Hiltson, Harry Schaefer and Travis Parmer then entertained with music during the meal.

Buck Overall, acting as a messenger boy, presented the toastmaster with telegrams every ten minutes throughout the banquet. These telegrams were from certain merchants in Cisco who awarded a prize to some person present whose name was drawn from a hat. The unusual part of this was that the merchant giving the prize was as surprised as the person winning it, due to the fact that the merchant himself did not know about the plan.

A. C. (Slick) Sides, vice president of the Texas Junior chamber of commerce, installed the following officers: Charlie Burke, president; Jack Lauderdale and Joe Cooter, vice presidents; Sterling Drumwright, treasurer; Gene Ab-

1,500 Now Expected at Homecoming Set For August

Cisco will review more than half a century of existence in a three day Homecoming Celebration August 11-12-13, sponsored by Cisco Lions, with the assistance of the Cisco chamber of commerce, Junior chamber of commerce, Rotary club, American Legion and other organizations.

More than 1,500 former residents are expected to return to the community for the celebration.

Under the general chairmanship of Dr. C. E. Paul, a program centered at Lake Cisco and culminating in a free barbecue the evening of August 13, has been worked out. Housing for the visitors will be provided in the homes of the city which have been thrown open at the request of the committee. Assignments to rooms will be made at the chamber of commerce where the guests will be registered.

A bathing revue, two big dances for which a top flight orchestra has been secured, a parade, fishing contests, old fiddlers' contest, baseball games, water polo, swimming and diving events and many other features have been arranged for the entertainment of the crowd during the three days.

Program will begin Sunday, August 11, with a memorial service for old timers buried in beautiful Oakwood cemetery. A golf tournament at Cisco Country club will

start Sunday afternoon. So will a fishing contest for which only visitors will be eligible and in which there will be prizes for the longest string of fish and the largest fish.

Monday afternoon there will be a parade of decorated floats through the business district, followed by an old fiddlers' contest at a local theater and the showing of a movie taken in Cisco many years ago. There will be a baseball game between Brownwood and Cisco teams and water polo contests between the fire departments of Cisco and neighboring towns.

Monday events will also include swimming and diving contests at Lake Cisco, a bathing revue at the lake in the evening followed by a dance at the Cisco Country club. The American Legion will sponsor the dance.

Major events of the final day, Tuesday, August 13, will be a free barbecue at Lake Cisco parks and a second dance at Cisco Country club. Various other events will round out the program, to which all former residents of Cisco, and friends of the community are invited.

THE THINKING MAN.

When Byron Price, who went from the Associated Press to be director of censorship during the war, made the recent Phi Beta Kappa address at Harvard University, he said that "only the thinking man can save us."

"What we have in this country today is a national scene of confusion, hesitation and reviving bigotry, of legislative lethargy, timidity and neglect; of economic strangulation at the ruthless hands of marplots; of futile operations in the black market; of increasing juvenile delinquency; of padded relief roles, while work waits for mil-

lions; of waste and profligacy in a world of dire need." For the American to point an accusing finger at his neighbor and exhort him to reform, said Price, has been tried and achieved less than nothing.

"The truth is that in our thoughtless haste to arouse one another we have rendered complicated a really simple matter. The

one human force left in the world is public opinion. If our affairs are out of joint, the mass of our citizens cannot escape the blame. To recover our nation and its ideals, the responsibility of the disciplined mind arises."

Not the cloistered thinker is needed, not the half-baked theorist, says Mr. Price, not the writer who wishes to substitute brooding for philosophy. "But the man in the world today who knows what it is, who believes in a Golden Age for American culture and who has the faith and the courage to work for it and to reject the temporary substitutes. The man to whom any-

thing less than fair play is shoddy, to whom cowardice is a post-war reflection on the bravery of our millions who won the world's most unbelievable victory." He wants the youth which was not afraid to die for us given reasons to want to live for us.

True, clear thinking is the hardest work in the world. But it is the most necessary. Price has given the call for the thinking man to take hold. Shall he fail, or shall he put the strong muscles of his mind into this essential job?

-ELECT- E. M. THREATT - YOUR NEXT - STATE REPRESENTATIVE

106th DISTRICT EASTLAND COUNTY

Should you select me to represent you, I shall discharge the duties of that office with honesty and fairness. Always in the Legislative Hall, I shall have the interest of the people of Eastland County at heart.

I SHALL FAVOR AND SUPPORT:

- 1. Free enterprise. 2. Giving all the automobile license fees to the county to be used in constructing and maintaining roads in the rural communities. 3. A bill to pay school teachers a decent salary. 4. All reasonable and constitutional legislation that will benefit the independent oil men. 5. Any reasonable tax bill to raise money to pay old age pensions and other social security.

I SHALL OPPOSE:

- 1. The Legislature spending unwisely the \$35,000,000.00 balance now on hand in the State Treasury. 2. The building of a new capitol building until material and labor are available at reasonable prices. 3. Increasing the gasoline tax to 5 cents per gallon. I SHALL BE GRATEFUL FOR YOUR VOTE AND INFLUENCE. Respectfully,

E. M. THREATT

JOHN HART FOR COUNTY JUDGE.

Don't be fooled by the county tax rate reduction. The state rate has been cut almost in half, too. Many things have contributed to bringing the tax rate down - here and throughout the state. Don't let anyone make YOU believe HE is responsible for the nation-wide influx of tax moneys and the consequent lowering of tax rates. Money has been unusually plentiful the past few years. Many businesses do not employ a collector NOW, because, when they can, most men pay their debts. Property taxes must be paid to keep the titles year.

We're standing in line for materials, too...

Most materials are hard to get. Some are available only in limited quantities. Others can't be had at all.

With you, it's butter and sugar and shirts and many other things. With us, it's copper and steel and lead and lumber and brass and textiles - and many other things.

A few months ago it looked as if things might be getting better. But disturbed conditions have tightened up the supply situation. In the past few weeks, shortages of materials have been more critical than during the war.

We have found many substitutes, made some old materials do, and practiced all kinds of short cuts to meet a situation that is far from normal.

Even though our program has been slowed down by conditions beyond our control, you can depend on this - we're moving just as fast as we can, and as supplies improve, we'll get going full tilt.

It Never Makes the Headlines-

... but the rather common occurrence of a purchaser buying real estate that the seller does not own is news that editors would like to headline if they were only in the abstract business and knew about it. It may be a serious matter for the buyer when he realizes that he purchased the property hurriedly and did not wait for an abstract. Among other things, the abstract reveals the record owner, the correct location and the title defects and liens, if any.

FARMERS SWING TO MILES IN CONGRESSIONAL RACE.

STAMFORD, Texas, July 23 — The Farmers' Committee of Jones County has advised Ted Miles Campaign Headquarters that the farm vote of the Seventeenth Congressional District was swinging heavily to Miles as election day neared.

Miles, ex-G. I. and business man candidate for Congress has the strongest farm platform of any candidate in the race, and has consistently demanded that the welfare of the farmer be placed above all other interests of the district.

"This district is primarily a farm enterprise," Miles said, "and it is imperative that the farmer be protected and sustained if the district is to prosper."

Miles has strong planks supporting farm advancement through extension of the REA, furtherance of soil conservation, national average old age pensions, and parity prices of all Texas farm products with manufactured goods. These farm parity prices must be maintained, he declared, even at the cost of subsidies which can be charged primarily against northern consumers of our products. Adv.
