GUBERNATORIAL CANDIDATES STRIKE HARD AS RACE ENDS; RAINEY ATTACKS O'DANIEL; JESTER SEEKS PARTY UNITY

By ALLEN DUCKWORTH.

Candidates for governor started throwing haymakers Tuesday as they fought for votes in the closing rounds of the primary campaign.

Oral blows landed not only on rival candidates. Political bystanders stopped a few strong punches. These included Senator W. Lee O'Daniel, Movie Singer John Boles, Joe Belden, director of the Texas Poll, and J. Frank Dobie, University of Texas professor.

There were other developments in the fast-moving Texas political picture:

1. W. J. Minton of Sherman withdrew from the gubernatorial race in favor of Homer P. Rainey. His was the second withdrawal since the printing of the ballots. William V. Brown of Texarkana also has withdrawn.

2. State Democratic Chairman Harry L. Seay declined to take any action on the protest of Candidate Grover Sellers, who had protested that Mrs. Alfred Taylor, director of education and organization for the Democratic State Executive Committee, had used the party's prestige to further the candidacy of Dr. Rainey.

3. State Democratic Secretary W. H. Kittrell announced that an independent firm of accountants had been engaged by the executive committee to make a disinterested count of the first primary ballots. Rainey, speaking in Dallas Tuesday night, went to work on Senator O'Daniel. He accused the senator of interfering in the Texas governor's race with smear stories about Rainey in the W. Lee O'Daniel News.

This could be interpreted as Rainey's reply to Beauford Jester, who charged a few days ago that there was Washington interference in the presence in Texas of Harold Higgins Young, right-hand man of Secretary of Commerce Henry A. Wallace. Jester's implication was that Wallace sent Young home to help Rainey. Young and Rainey are close friends.

Jerry Sadler, whose weakness is snuff, made John Boles, stage and screen singer, a target of criticism for appearing in the "man of distinction" whisky ads. Boles has returned to Texas to aid the campaign of his old college chum, Beauford Jester. Sadler let go a few rabbit punches at Rainey. The erstwhile University of Texas president's stand on atheism and prohibition came in for sharp criticism.

Li. Gov. John Lee Smith shouted fraud and demanded an investigation of the Texas Poll as conducted by Joe Belden. The poll's last figures showed Dr. Rainey leading and Smith slipping. Smith claimed that Belden used many university students as interviewers and

that they were active in support of Rainey.

State Senator Weaver Moore, chairman of the Senate general investigating committee, was asked by Smith to probe the operation of the poll. Senator Jesse Martin said in Fort Worth that he had communicated with Moore in Houston, offering his services as a member of the committee. Martin said he had no views on the poll and did not know whether the committee had the authority to make the investigation asked by Smith.

Caso March, sharp-spoken young candidate for governor, charged at Mexico that J. Frank Dobie, University of Texas professor supporting Rainey, was "the leading exponent of the Darwinian theory of evolution in Texas," and added that "I am not surprised that Dobie is making speeches in support of Rainey's candidacy."

Atty. Gen. Grover Sellers found new ammunition for use against Rainey when he brought a letting paper, The Worker, published in New York, on a San Antonio newspaper, Sellers went on the air to allege that the paper showed Communist support of Rainey.

Chairman Seay made a firm reply to Sellers concerning the participation of Mrs. Taylor in the Rainey campaign.

"Mr. Sellers should know better than most of the candidates," said Seay, "of the scrupulous fairness this committee has observed in the governor's race. Some members of the committee have called me and asked me to reply to his attack in kind, but I do not care to do this."

Sellers has threatened to go to the state convention at San Antonio in September and fight Seay and Kittrell unless there was a re-iteration of the pro-Rainey letter written by Mrs. Taylor on the state committee's letterhead.

"I do not think Mrs. Taylor should have written the letter in question," Seay stated, "but Mrs. Taylor holds a position created by the Democratic State Convention at its meeting in Dallas, which she runs independent of the state executive committee.

"Mrs. Taylor, therefore, is answerable only to the Democratic convention, and the executive committee has no control over her, and no right or authority to reprimand her, or to repudiate her actions."

Seay added that his gravest concern at this time was the efforts of the Texas Regulars to regain control of party machinery. Beauford Jester went into that matter in an East Texas speech Tuesday. Jester pleaded for party unity and declared himself against political purges. If the Regulars of 1944 are thrown out of the party, then the Hoovercrats of 1928 should be expelled also, he argued. Jester said the party should look forward, not backward.

Truman Ready to Sign Opa Bill When Passed Tonight

By United Press.

WASHINGTON, July 24. — The Senate moved toward a final vote tonight on compromise OPA Revival Legislation, as the once strong opposition to price control gave way to half-hearted protests from its foes.

Senate Democratic Leader Barkley of Kentucky said the new bill as "on the whole" is better than the first one which President Truman vetoed.

The White House disclosed that the president will act promptly when the second measure reaches him.

Earlier opponents of price control conceded that the new bill would pass with little opposition. Sen. Robert A. Taft, R., Ohio, conceded that not more than 25 votes would be cast against it — and his would not be among them.

Taft referred to the pending measure as "interminably complicated."

Barkley assured the final vote before recess when he told the Senate that night sessions, beginning tonight, would be necessary to clear the legislative calendar for sine die adjournment next week.

Polio Cases Near VA Plan Big Help Record; Texas Is Hardest Hit State to Wearers of Artificial Limbs

WASHINGTON, July 24. — Infantile paralysis already has struck more people this year than in the comparable period in 1944—second worst "polio" year in U. S. records. But health authorities offer hope a major epidemic will be averted.

In Washington, a U. S. public health service official said this hope is based on the fact that the cases thus far this year are scattered among a larger number of states than in 1944.

And he said the outbreaks in those states may well "level off" before they reach anything like the "explosive" outbreaks that occurred in a few states in 1944. These states accounted largely for the total of 19,029 cases recorded that year. There were 27,363 cases reported in 1946, the all-time known high.

Up to July 13 there were 2,596 cases throughout the country reported to the health service, compared with 1,752 for the similar period of 1944.

This year's total up to mid-July is also the highest for the period since 1934 when 2,694 were recorded for the comparable period.

Eight states have reported to the service more than 100 cases so far this year, with Texas worst affected and listing a total of 391 up to July 13.

The public health service classifies the disease as epidemic in certain areas of Texas, Florida, Alabama and Colorado.

Veterans wearing artificial limbs soon will be issued service cards which will entitle them to repairs up to a cost of \$35 at government expense. These cards, said Earl L. Jolly, Contact Representative from the Veterans Administration Office in Mineral Wells, will be recognized by artificial limb manufacturers and repair shops throughout the country. A Texas veteran, for instance, who needed prosthetic repairs while on vacation trip to Chicago, may go to the nearest orthopedic shop. Here he presents his card and has the required repairs made. It will not be necessary, as heretofore, to write the VA office handling his pension claim file for permission to have the work done.

Mr. Jolly emphasized that the card, although it does not entitle the amputee to a new appliance, will be valuable in establishing his identity and eligibility in obtaining prompt and efficient service.

In cases where repair of a limb is needed by a veteran living in a locality remote from prosthetic houses, and the veteran has a spare appliance, the limb may be sent to a manufacturer or repair shop along with the prosthetic service card. When the work has been completed, the prosthesis and card will be returned to the amputee with an invoice. This the veteran signs and forwards to the VA Regional office listed on the card so that the bill may be paid.

Although the cards for veterans in the 54-North Texas counties will be processed only at the Dallas Regional office, veterans may make application at the VA contact office in Mineral Wells or from Mr. Jolly in the Cisco chamber of commerce building each Wednesday afternoon.

To obtain a card, the veteran should bring with him his discharge papers, his disability papers or claim number, and four identification photographs—passport type—one-and-a-half by one-and-a-quarter inches in size.

The photo and a description of the physical characteristics of the veteran will be fabricated between sheets of acetate and fused under high pressure on a press. It is so processed that, if lost, it cannot be used by anyone except the veteran himself.

May to Face Investigating Committee on Friday

WASHINGTON, July 24. — The Senate War Investigating Committee announced today that Rep. Andrew J. May, D., Ky., would appear at a special 9 a. m. Friday session to testify on his dealings with a munitions combine accused of war profiteering.

Simultaneously, the committee disclosed it will hold hearings next week into the circumstances surrounding a check for \$2,500 reportedly given by a war contractor to the secretary of Rep. John M. Coffey, D., Wash.

May's decision to testify Friday was revealed following the disclosure that Undersecretary of War Kenneth Royall had ordered a "complete investigation" into circumstances surrounding the army's use of defective 4.2 inch mortar shells which killed American troops in Europe.

GIRL SCOUTS ABOARD—Eight senior service American Girl Scouts are touring bomb-battered England, Scotland and Wales. They will spend two months training English Girl Guides.

Return of OPA to Hurt Many Business Men it is Said

WASHINGTON, July 24. — An OPA spokesman warned today that thousands of American businessmen may suffer financial losses when price controls are restored by enactment of the OPA extension bill.

The spokesman explained that when the new bill becomes law the agency immediately would reimpose ceilings of June 30 on all commodities not specifically exempted from price controls.

Businessmen who have stocks of commodities they purchased at above OPA ceiling prices since the expiration of controls will be forced to sell them at a loss when prices are "rolled back" to the June 30 levels.

Russia is Firm in Her Stand For Veto Privilege

NEW YORK, July 24. — Soviet Delegate Andrei Gromyko notified his associates on a sub-committee of the United Nations atomic energy commission today that under no circumstances would Russia relinquish her power of veto in any plan for the control of atomic energy.

Gromyko rejected a United States proposal which would authorize an authority to take enforcement action and would eliminate the right of any of the Big Five nations which are permanent members of the Security Council to exercise their veto powers.

BUYER'S STRIKE OFF.

DETROIT, July 24. — A buyers' strike started one week ago against meat dealers was called off today by President Walter F. Reuther of the CIO United Auto workers.

HIGHEST IN 27 YEARS.

EAST ST. LOUIS, Ill., July 24. One lot of hogs sold at \$22.75 per hundredweight at the national stockyards today, the highest price here in 27 years. Prices were \$1.25 to \$1.50 higher than Tuesday's top. The all-time high here is \$23.55 established Aug. 1, 1919.

HUGHES MAKES PROGRESS.

LOS ANGELES, July 24. — Two and a half weeks after his spectacular crash in an experimental plane, millionaire Howard Hughes is in "pretty good shape," his physicians say. The doctors credit Hughes' terrific stamina and fighting spirit with keeping him alive despite a crushed chest, a fractured skull and multiple other, lesser injuries. He is 40 years old.

Today's atom bomb Apparently Most Powerful of All

OFF BIKINI ATOLL, July 24. — An atomic bomb was exploded beneath the surface of Bikini Lagoon amidst a test fleet of 87 anchored vessels today.

The test Baker bomb — second of operation crossroads — was detonated by radio impulses at 3:35 p. m. CST.

Observers could feel the shock wave and see the tremendous explosion as it blasted with devastating impact against the "guinea pig" fleet.

A great grey tower of water rose up majestically from the lagoon, momentarily obscuring the vessels.

Moisture and radioactive spray, mushroomed into the blue, sunlit sky, blotted out the Carrier Saratoga and other ships anchored on the lagoon.

The tower of water was big at the bottom, tapering to the top.

A giant cloud of water spray and spume settled over the target array, but as it began to subside observers were able to see only ten of the 87 ships — apparently including the battleship Nevada and Pennsylvania.

There was no immediate sign of the gallant old carrier Saratoga, but it may have been obscured by the hovering spray.

100TH BIRTHDAY.

CROCKETT, July 24. — Mrs. L. T. Stubbs of Antonio was honored with an open house yesterday on her 100th birthday at the home of her daughter. She was born in Macon county, Alabama, and came to Texas 72 years ago.

DIED IN GRAVE.

UNION, S. C., July 24. — A 69-year-old grave digger was found dying yesterday in a grave which he had dug for the burial of another person in a cemetery here. Paul Wallace was the victim of the heat and a heart attack, physicians said.

HOT TOMORROW.

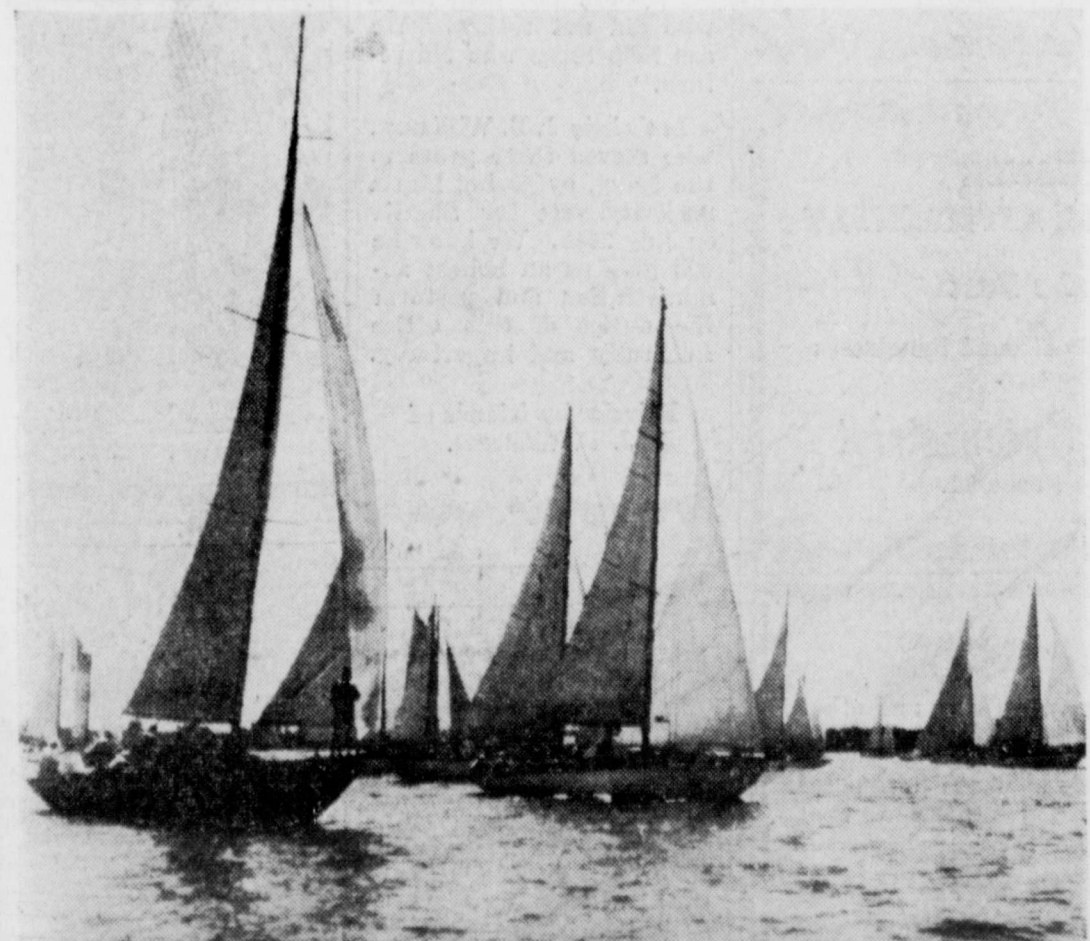

FT. WORTH, July 24. — The weather here, which Tuesday afternoon nudged 97 degrees, is expected to climb into the 100 range this afternoon with a repeat performance Thursday afternoon. A gentle to moderate southerly wind, however, will fan the citizenry's brow.

SPECIAL ELECTION.

AUSTIN, July 24. — A special election will be held Aug. 24 to fill the unexpired term of Rep. Luther Johnson (resigned) of Corsicana.

POPE, TAYLOR CONFER.

VATICAN CITY, July 24. — Pope Pius conferred for 45 minutes today with Myron C. Taylor, President Truman's envoy to the Vatican.

GRACEFUL SAILORS—These sailboats are lined up on Lake Huron for the start of the 243-mile race from Port Huron, Mich., to Mackinac Island. More than 40 boats participated.

TIGER TOGGERY — Lovely Adele Jergens, Columbia actress, presents a pretty picture as she poses before a Hollywood pool in her tiger-skin bathing suit. Adele's next movie is called "Down to Earth."

HUMAN TOIL—In the Lika region of Yugoslavia, an area devastated by the war, these boys "harrow" a field with the best farming tools available—a bit of chain and a few boards. Under conditions like these, life from the soil is a struggle only the hardiest survive.

LETTING IN THE LIGHT.

In every community are persons who are sightless, and who endure their handicap as best they may. Some are resigned, some support their affliction with fortitude, and to some it acts as a challenge, under which they accomplish wonders.

Much has been done to help and to teach the blind and in recent years a technique has been developed which gives sight to some of them. This is the transplanting of corneal tissue from a healthy eye to a blind one. This small cube of clear tissue is obtained from eyes which must be removed because of injury or accident, and occasionally from the dead.

The transplanting operation must be performed within 24 hours after the tissue is removed from the good eye. The cornea is immersed in a salt solution and rushed to the blind person, who is ready for the operation. New York City has an "eye bank" which is a bureau through which are cleared the supply of tissue and the needy cases.

Only a very few of the blind can be helped in this way, but to those few is granted a miracle in every sense of the word.

ROBERT R. HERRING

Candidate for Congress

To the Voters of 17th District of Texas:

Today, we citizens of the United States stand at a crossroads. Upon the decisions you make and put into action on July 27th may depend the future course of our American life. If we fail, through our aroused actions, to secure an honest, strong willed group of representatives in the Congress at this election, we will undoubtedly continue on this road of economic distress. I have tried during this campaign to place my full and exact beliefs before you that you may justly consider my candidacy for the office of your representative. I have tried to point out that I believe many Americans today are blind to the true values of our life because of the greed for dollar bills, and I feel that enough men who realize the cost of these last four years, with all of its loss of life, can return our government to sound values and to you as average citizens.

I earnestly request your deepest consideration at the primary election, July 27th.

Sincerely,
ROBERT R. HERRING.

Wagstaff Stresses Aid For Farmers

R. M. WAGSTAFF.

R. M. (Bob) Wagstaff, Abilene, candidate for Congress from the 17th District, announces a platform in which he emphasizes support for agriculture, insisting upon maintenance of a high level of prices. Wagstaff charged that for many years the power of the federal government has been used to provide bonuses, subsidies and other favors for the industrial and manufacturing sections at the expense of the agricultural areas.

"The protective tariff on industrial products has forced the farmer to buy in a protected market and sell in a free market," his platform reads, "and has reduced the price of cotton and other export products."

Farm Program.

He advocates tariff reform, a strong farm program, including payments for parity and soil conservation, increased appropriations for farm-to-market roads, extension of the REA, support of all government agencies which are designed to place agriculture on an equality with manufacturing and industry.

The Wagstaff platform also calls for larger appropriations for research to seek new uses for cotton, peanuts, milo maize and other products, as well as additional funds for the Agriculture Department to enable it to find new plants and crops for semi-arid regions.

"So long as we can maintain high agricultural prices," the candidate says, "and as a member of Congress I will cooperate and work actively with the farm bloc to accomplish this result."

Will Support UN.

"I will support the United Nations, adequate national defense, balancing the budget without further delay, abolition of unnecessary boards and bureaus, equality in freight rates, increase of payments to old age assistance to take care of increased living costs."

As to the labor problem, Wagstaff urges collective bargaining with a compulsory cooling-off period and federal mediation before any strike is permitted.

The candidate, 53 years old, is a veteran of World War I, having served with the 112nd Infantry in the old 36th Division. He was a member of the 42nd and 43rd State Legislatures and was author of the oil and gas conservation statutes, laws affecting land titles, a water-priority act and the act that created the Big Bend Park. JOHN HART FOR COUNTY JUDGE.

Don't be fooled by the county tax rate reduction. The state rate has been cut almost in half, too. Many things have contributed to bringing the tax rate down — here and throughout the state. Don't let anyone make YOU believe HE is responsible for the nation-wide influx of tax moneys and the consequent lowering of tax rates. Money has been unusually plentiful the past few years. Many businesses do not employ a collector NOW, because, when they can, most men pay their debts. Property taxes must be paid to keep the titles clear.

(This adv. paid for by Cisco friends of John Hart.)

FOR SALE

WOMEN'S CHAPTER HELD REGULAR MEETING.
Cisco Eastern Star met at Masonic hall Tuesday evening for regular stated meeting. Officers were all present with two exceptions. The meeting was opened in regular form by Mrs. W. E. Dean, worthy matron, and pledge to the flag was made. Minutes of previous meeting were read and reports of committee chairmen were heard.
Mrs. Aubrey Hull of Talco, who is a guest here of friends, was presented in a splendid talk. Mrs. Hull is worthy matron of the Talco chapter. The meeting was then closed by the worthy matron.
Thirty-five members and visitors were present.

THE VETERANS SPEAK

"We have known GIB SANDEFER for more than fourteen years. He has the qualifications to make us a great Congressman. He knows the problems of Veterans and is anxious to see them get what they deserve. We served with him in the China-Burma-India Theater of War and saw him get the job done there. He can get the job done in Washington."

OWEN BA'GETT,
B-17 PILOT IN THE CBI (ABILENE)
RALPH SHORT,
LINE CHIEF OF ATC IN THE CBI (BAIRD)

From the Platform of Gib Sandefer:

FOR GI JOE AND HIS SISTER JANE: The help and encouragement of a grateful country, in every way that can be accomplished. For the war's disabled; all they need at whatever the cost.

FOR NATIONAL DEFENSE: An adequate and alert military establishment, backed by continuing research and experimentation, officered and manned by professional soldiers paid a decent wage, given an equal break in privileges, and made to feel that their career is as honorable as it is ancient.

GIB SANDEFER.

GIB SAYS: "I have been over the 17th District and from what my supporters and others say, I believe I am going to be in the run-off. I have based my campaign on my own merits and not the demerits of my opponents. They are all "tops" in my book, and it has been a clean race. Should the voters of this district see fit to put me in the run-off, I assure you I will continue to make the race one of merit."

"It's a buy!—with an OIL-PLATED engine!"

You want an eye-ful of 1946 style. . . . And you're taking in many an earful on chassis features. . . . And you can have an OIL-PLATED engine—a wear-fighter!—by simply saying a mouthful. Just say you want Conoco Nth motor oil—because you want minimum carbon and sludge, plus fat mileage. Those gains depend largely on wear-resistance, and that's exactly what OIL-PLATING is for. Here is how it works. . . .

In any make of new car—or equally well in your old car—OIL-PLATING will make an addition to inner engine surfaces. That's where it's fastened durably—across the path of wear—by Conoco Nth oil's magnet-like action. This power to OIL-PLATE and protect comes from the added Conoco Nth ingredient. It will add to the safety of your new car investment. . . . It will add to your veteran car's chances! . . . And the cost it adds is a few cents! Get Conoco Nth oil—from Your Conoco Mileage Merchant.
