Omar Burleson Miss Moore Quits To Be on Air Postal Service at 8:30 Tonight After 26 Years

ABILENE, Aug. 15. — Omar Burleson of Anson will speak tonight at 8 p. m. on the postoffice lawn here in the interest of his candidacy for congress from the 17th district. Walter S. Pope Jr., Abilene attorney, will introduce him. Burleson's address will be carried over station KRBC from 8:30 to 8:45 p. m. George Foster, Taylor county campaign chairman, said. A band concert will precede the speeches, he added.

In honor of a retiring postal employe, the Cisco postoffice lawn was the scene Saturday night of a dinner for Miss Effie J. Moore, who will quit September 1 after 26 years spent in the postal service.

After the bountifully-filled tables had been arranged by the "postoffice wives," J. D. Hall offered the invocation and the group chose portions from platters of ham and bowls of dainty salads.

While guests and employes were enjoying the food, Postmaster L. H. McCrea, acting as master of ceremonies, explained the regretted absence of Mr. and Mrs. W. P. Caldwell, who could not be present because of a death in the family; and of Mr. and Mrs. W. H. Hall, who were out of the city on vacation.

Mr. McCrea then reviewed the many years of faithful and willing service the honoree had rendered the public, as well as sharing the responsibilities and difficulties of the group of fellow workers. Following this several members of the group spoke briefly.

Mr. McCrea, in behalf of the post office force, presented Miss Moore with a rose-gold wrist watch as a memento of appreciation of her readiness to assist them in any way and at all times, and to assure her of their continued friendship throughout the coming years.

10th German V-2 Rocket Climbed Less Than 4 Miles

WHITE SANDS PROVING GROUNDS, N. J., Aug. 15. (AP) — The 10th German V-2 rocket to be launched here went slightly less than four miles into the stratosphere today, and then fell to earth with a tremendous burst of orange-colored flame. The body of the rocket exploded upon impact with the ground, approximately one and three-fourths miles north of the launching sight. All instruments were destroyed in the explosion, which shot a flame nearly 1,000 feet into the air and nearly as wide. Officials said there were no casualties.

Clark Pledges His Best Efforts to End Race Hatreds

CAMBRIDGE, O., Aug. 15. (AP) — Attorney General Tom C. Clark said today he would ask the new congress for legislation to protect every citizen from the furies of racial and other hatreds. In a speech at the annual Homecoming picnic of Ohioans here, Clark said he had been making every effort to bring federal action to bear in cases which might imply violations of present civil rights statutes.

OPA Ups Prices on Twenty Classes of Consumer Goods

WASHINGTON, Aug. 15. (AP) — OPA today boosted by three to 12 per cent retail prices on 20 classes of consumer goods, including kitchen stoves, washing machines, vacuum cleaners, electric appliances, radios and electric phonographs. The increases, effective Monday, may not be charged until retailers receive shipments ticketed by manufacturers at the new prices.

EXPERT BULLDOGGERS.
WACO, Aug. 15. — Jack Favor of Abilene bulldogged a steer in 4.9 seconds last night at the third show of 11th annual Bear club rodeo to approach world record time. His time was closely approached a few minutes later when Buff Doughtitt of Brownwood flattened a steer in 5.6 seconds. Todd Whately of Bethel, Okla., made 6.6 seconds. It was the best bulldogging of the 11 year rodeo history.

Reds Talk Con-Murray Tells Tru-ciliation, Then man Stage Set For Get Tough Again New Depression

PARIS, Aug. 15. (AP) — Soviet Foreign Minister Molotov, answering James F. Byrnes' charge that Russia was misrepresenting U. S. peace aims, called tonight for more harmony at the peace conference. In a conciliatory reply to Byrnes' bitter denunciation of Soviet tactics, Molotov urged that precaution be taken to avoid any necessity for a postponement of the conference.

However, Molotov again castigated U. S. efforts to write into the peace treaties clauses which would guarantee all the United Nations equal economic opportunity in the former enemy countries for 18 months after the treaties are signed.

CISCO VET REGISTERED.
Harry E. Gurney, Cisco veteran, was among the 691 certified veterans who registered in the opening day of the five day site-sale of \$2,000,000 worth of surplus property at the Fort Worth quartermaster depot. A total of \$113,730 are sales which were made the first day. Veterans can purchase through Monday, August 19. August 20 is reserved for state and local governments and instrumentalities; August 22 for eligible non-profit institutions, and August 23 for retail and wholesale commercial dealers.

WASHINGTON, Aug. 15. — CIO President Philip Murray, renewing his request that President Truman call a labor-management conference, declared today that unless some "action is taken to protect the people's living standards, the stage will be set for a new depression." Murray's statement was included in a "wage and price program" which he submitted to a special emergency meeting of top CIO officials assembled to deal with what they termed "the rising threat of inflation." Murray recalled that on July 18 he and the CIO executive board asked President Truman to call a labor-management conference to cope with "the need for immediate wage increases" to offset rising living costs and to plan for a stabilized economy. "This was not an idle gesture," Murray declared in his statement. "The necessity for such a conference at this time is even greater than it was a month ago. The necessity for a joint conference to curb rising prices and to protect the wages and living standards of the American people is imperative if the crisis which now threatens to engulf the nation is to be solved. "American workers caught in a desperate squeeze created by unchecked profiteering looked to their government for some form of prompt and effective action."

Natural Gas Is Dan Moody Says Free of Price He'll Vote For Control Says OPA Beauford Jester

WASHINGTON, Aug. 15. — Natural gas and petroleum gas are exempt from price ceilings, OPA ruled Wednesday, in holding that they are among the petroleum products decontrolled by the new OPA act.

OPA's statement ruled also that any petroleum product to qualify for the ceiling exemption must be generally manufactured or processed by petroleum refiners. This means that gasoline, kerosene, naphtha, fuel oils, greases, petroleum cokes, lubricating oils, asphalt and road oil are out from under price lids.

On the other hand, synthetic industrial alcohol and synthetic butyl alcohol — which are not manufactured by oil refiners and are generally regarded as chemicals — remain under price ceilings. The agency defined natural gas as one which is produced from a well, not associated with crude oil at the time of production. Petroleum gas was defined as any gas or vapor produced in conjunction with crude petroleum.

ABSENTEE VOTING.
About 175 applications have been made to the office of Virgil Love, county clerk, for ballots by voters who expect to be absent from home on election day, August 20. Mr. Love stated this morning. So far, 80 of these ballots have been voted and returned to the county clerk.

AUSTIN, Aug. 15. — Former Gov. Dan Moody Wednesday authorized a statement that he will vote for Beauford H. Jester for governor. Moody made the statement only after being asked as to his choice.

James V. Allred, another ex-governor, has made a public statement in support of the candidacy of Homer P. Rainey. Moody said that besides himself, Ex-Governors Ross Sterling, Miriam A. Ferguson and W. P. Hobby are supporting Jester with no public commitments from either Ex-Gov. Pat M. Neff or W. Lee O'Daniel.

O'Daniel and Rainey were feuding recently and O'Daniel's newspaper had a lengthy bill of particulars against Rainey to prove his unfitness for governor. This is taken to mean that O'Daniel will vote for Jester.

Ex-President Neff is president of Baylor University, a Baptist institution, and Rainey is a Baptist, but Neff has made no public comment thus far.

NO BOOM, NO BUST.

President Truman has decided to make an effort to do away with the fluctuating economy which hitherto has been taken for granted as normal. A few years of feverish prosperity have always been followed by several more of depression, but some economists are convinced that it need not be so.

The work of the President's new Council of Economic Advisers will be to analyze business trends and show the country how to spread out employment evenly over a period of years. If building construction, for instance, could be planned for and authorized in good times, and then held off until depression days, when materials and labor are cheaper, the back of a depression would be broken. So many agencies have a hand in promoting programs of public works and public construction that a good deal of education would be necessary to put such a program across with any degree of success. The Economic Council may have to plan a sort of public information campaign to get the support of the country at large. As against natural tendencies, re-educating the public means steady work through several generations, at least.

THE HAPPY CLAM.

The tide comes in, the tide goes out—I've no idea what it's all about.

The salt green waves wash over my head. But I sit tight in my sandy bed.

When the tide comes in, the fish swim by. And the seagulls swoop with a laughing cry.

When the tide goes out and the flats are bare, The small crabs crawl with side-long care.

But I just sit in my bed, content—I've no idea where the green sea went.

There may be a reason for the flow of the sea. But it makes no difference at all to me!

The tide comes in, the tide goes out—I've no idea what it's all about!—Anita Gray Chandler, in the Winged Word.

Make This Home Recipe To Take Off Ugly Fat

It's simple. It's amazing, how quickly one may lose pounds of bulky fat right in your own home. Make this recipe your own. It's easy—no trouble at all and costs little. It contains nothing harmful. Just go to your druggist and ask for four ounces of liquid Barconate (formerly called Barcol Concentrate). Pour this into a pint bottle and add enough grapefruit juice to fill the bottle. Then take two tablepoonsful twice a day. That's all there is to it. If the very first bottle doesn't show the simple, easy way to lose bulky fat and help regain slender, more graceful curves; if reducible pounds and inches of excess fat don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back. Follow the easy way endorsed by many who have tried this plan and help bring back alluring curves and graceful slenderness. Note how quickly bloat disappears—how much better you feel. More alive, youthful appearing and active.

It Pays to Be on the Safe Side . . .

. . . by having your title abstracted at regular intervals. All those familiar with titles know that title neglect is the landowner's worst enemy. Like keeping physically fit, or making regular visits to the dentist, the title, too, needs constant attention. By having the title regularly abstracted, the abstracter in most cases can build a strong and perfect chain. Don't wait until you get ready to sell or get a loan, but be on the safe side—have your title abstracted somewhat in advance of an anticipated need.

In Alfred Hitchcock's "Spellbound," the current David O. Selznick drama of mystery and suspense now running at the Palace Theater through United Artists release, the stars, Ingrid Bergman and Gregory Peck, use a completely new set of words for the usual well-known, "I love you."

The pair, in one of the scenes, sit on a knoll picknicking. Their faces show plainly that they have just discovered they are in love with one another.

Peck opens a bag of sandwiches. In a voice vibrant with emotion, he asks: "Ham or liverwurst?"

Miss Bergman gazes up into his face with answering devotion. Then, "Liverwurst," she sighs rapturously.

mick brought a splendid devotion-al in keeping with the topic. Others assisting with program parts were Mrs. H. H. Harrelson, Mrs. Herman Barron and Mrs. B. F. Thomas. The meeting closed with several prayers for the revival.

Shortages are holding him back...

We in the Bell System were adding telephones at the rate of three million a year until shortages started getting worse. Now it's harder and harder for us to get materials for manufacturing and building.

We aren't complaining for we are in the same boat as everyone else. But we thought you might like to know the supply situation on some of the biggest items in the telephone business.

LEAD—There is a world shortage of it. Even when conditions here straighten out, it will be some time before adequate supplies are available.

COPPER—It is in great demand but we shall probably have adequate supplies when the smelting, refining, and fabricating plants get going.

TEXTILES—A serious shortage exists in cotton and synthetic yarns and fabrics.

STEEL—Strikes in steel and coal industries have affected the supply in the face of unprecedented demand.

RUBBER—Synthetics are in fair supply, but natural rubber is on government allocation.

LUMBER—It is scarce, due to both unusual demand and dislocation of the lumber trade.

BRASS MILL PRODUCTS—These are used in telephone central office switches and other equipment. Supply will be short until disturbed conditions in the copper industry are settled, permitting brass mills to get back to full-scale production.

It's a tough situation, but we aren't giving up, any more than you have given up trying to get butter or sugar or shirts.

We're doing the best we can with what we've got and hoping these disturbed conditions will end, so that we can really go full speed ahead.

More Straight Talk From Bill Blanton

TO THE PEOPLE OF THE 17TH CONGRESSIONAL DISTRICT: In my "PLATFORM" I dealt only with the two greatest problems before our nation: how to preserve peace in the face of great danger; and how to preserve our political freedom by curbing bureaucracy and regulating unions. I made it clear how I stand on the

BILL BLANTON

many concrete issues involved in those two great problems, and anyone who votes for me knows what he is voting for so far as they are concerned.

I recognize, however, that there will be many other things of importance before the next Congress, and I am equally anxious that no one have any doubt as to what I will do about them.

In general, I am for any sound, progressive measure, which will actually benefit the American people and will neither bankrupt nor enslave them.

FARM PROGRAM.

I am for the soil conservation program. I believe it should be controlled from the bottom by the farmers and ranchers, as it was originally intended to be, and not from a swivel chair in Washington.

I am for promoting maximum cooperation between federal and state farm agencies, to serve the farmer on a common sense basis and not dictate to him.

I am for building as many farm to market roads as possible as soon as possible. They will pay for themselves many times over.

I am for extending rural electrification lines as soon as possible to bring electricity into as many farm homes as possible.

I am for intensive research and experimentation by the Department of Agriculture to find new crops and improve farming methods and farm life.

I am not only for these things, but what really counts is that I will fight for them.

In Washington the powerful lobby of the industrialists and the still more powerful lobby of the industrial labor unions always join forces to fight the farmer. Witness their joint fight against raising parity to compensate for increased farm wages. Witness their joint pressure which prevented surplus trucks, jeeps, weapons carriers, pickups and other military property from being brought home and sold on the domestic market to ease the shortage. They prefer to have them given away overseas or, still worse, wantonly destroyed, rather than hurt their post-war industrial market.

With both the NAM and the CIO against him, the farmer needs a fighter to represent him in Congress.

LITTLE BUSINESS.

If I go to Congress I will do all I can to prevent Big Business and Big Bureaucracy from crowding little business to the wall.

If all business is concentrated in

a few hands it will be easier for a socialist government to take it over and run it, and people will be more willing to vote a socialist government to take it over. Therefore socialists and communists who have infiltrated into key positions in labor unions and certain government bureaus are working hand in hand with big business combines to force the little man out of the picture. It's a case of both ends against the middle.

There have been several examples of such teamwork in the past few years, but none more outstanding than in the oil and grocery businesses. The independent groceryman narrowly missed extinction when a scheme to limit profits, under which only the chain store could possibly survive, barely failed to be put into effect. And the small, independent producer of crude oil upon whose activities the welfare of much of this district depends, has been severely hurt by the freezing of prices under conditions which greatly favored the major companies, with their pipe lines and refineries, and their vast resources.

Unless men are sent to Congress who know the score and who will fight against monopolies at every hand, all business will ultimately be under one great government monopoly, with the resultant loss of political as well as economic freedom, and the graft, waste, inefficiency, and low standard of living inherent in the socialist system.

The highest standard of living the world has known was developed by the free activities of countless plain Americans, each minding his own business according to his own best judgment.

VETERANS.

I am first and foremost for making adequate provision for those disabled in the war and the dependents of those killed. Those killed must not be forgotten just because they aren't here to speak for themselves and vote.

Beyond that, the ex-GI can depend on me to be his best and most active friend in Congress. I don't have to say that I understand the ex-GI, because I am one.

Ex-service men need ex-GIs in Congress to cut red tape for them and to get them the benefits to which they are entitled instead of the old go-round most of them have been getting. I learned how to cut the Washington brand of red tape from a past-master. Ask any ex-doughboy who had occasion to call on his congressman after the first world war.

OLD AGE PENSIONS.

I am for an increase in old age pensions, which have become grossly inadequate due to inflation.

INFLATION.

All pensioners, wage earners, and salaried employes are severely imperiled by further inflation, to be brought on by a new series of strikes threatened by communists with the deliberate purpose of destroying our economy and creating chaos. In my "PLATFORM" I have set out 12 specific legislative measures which will forestall these new strikes if they are taken in time, and will put the unions back into the hands of the working men. I will push and fight for those measures.

I note in last week's daily papers that the railroad union heads have come out in favor of my opposition in this run-off. But that was to be expected, and doesn't worry me, because I do not believe that the people of this district will allow the railroad union bosses to dictate to them, any more than President Truman allowed them to. They are the boys who threatened to spend forty-seven million dollars to defeat him because he stopped the railroad strikes, and to spend two and a half million dollars to defeat congressmen who opposed them.

I believe you want a representative who is not under obligation to any such pressure group.
