Barring Strikes US. Would Be Sole US. Income May Trustee of Jap- Create Record Mandated Islands

WASHINGTON, Aug. 29. — Figures compiled by government experts today indicate that individual incomes will set a record of around \$165,000,000,000 this fiscal year—exceeding the booming war year of 1945 by \$5,000,000,000. Moreover, information gathered by the taxation staff employed by congress and made available to a reporter suggests that even this estimate might be revised upward before the fiscal year ends next June 30.

This raised a possibility that the federal budget, thrown out of kilter by depression and war, might be brought into balance.

All these things are based on the assumption that the nation will remain relatively free of any large-scale strikes for the remainder of the fiscal year.

BETHEL REVIVAL.

The annual revival at Bethel Methodist church, six miles southwest of Cisco on the Scranton road, will begin September 1. Rev. Otis Brown of Bangs will be the preacher, says Rev. H. J. Sanders, Bethel pastor. Services will be held daily at 11 a. m. and 8 p. m. through the week. The public is invited to attend all meetings.

SNEEDVILLE, Tenn., Aug. 29. James R. Pearson, 84-year-old mountaineer, whose 31-year-old wife gave birth yesterday to an eight-pound, 12 ounce baby girl, wants the government to increase his old age pension. Pearson has three children, all under school age.

Clay Coggins, Roby attorney has been retained as counsel by Mrs. Harris. The suit is due to be heard in the October term of district court.

WASHINGTON, Aug. 29. (U.P.)—Sen. Warren Magnuson, D., Wash., said today the United States will ask the United Nations in September to give this country "sole trusteeship" of the Japanese-mandated islands and other Pacific bases.

But the state department denied it had any plans to submit a trusteeship proposal to the general assembly meeting next month.

A department spokesman said the matter was now under active study, but that no decision had been made yet on final disposition of the Japanese-mandated islands.

He said the United States ultimately would make a trusteeship proposal concerning them.

Grandmother Harris Wants the Soviets Renege on Conference, UN Sitting Currently

ROTAN, Aug. 29. — Mrs. Ed Harris, Texas' only woman county commissioner, today announced she is filing a suit to contest results of the run-off primary as announced by the county Democratic Executive committee.

Mrs. Harris was declared loser to T. T. (Ted) Underhill by margin of two votes. The official canvass resulted in 637 for the incumbent and 639 for Underhill.

Mrs. Harris was appointed to the unexpired term of her husband when he died in office. She gained election in 1942 over two opponents and in 1944 over one.

In the first primary this year Mrs. Harris polled 321 votes, Underhill 321 and two others a total of 408.

The woman county official is the mother of five and grandmother of four.

Baptist Education Directors Said to Be Badly Needed

FORT WORTH, Aug. 29. — Dr. J. M. Price, director of the school of religious education at Southwestern Baptist Theological Seminary, told delegates to the Southwestern Baptist religious education association meeting here that there is a great need for religious education directors in southern Baptist churches.

Price said such positions are now open in 600 Baptist churches in the south. He said approximately 500 students are expected to enroll in this department at the seminary this fall.

A total of 250 delegates from ten states are attending the three day conference which opened yesterday.

A rattlesnake measuring four and a half feet in length and carrying thirteen rattles was shot by Joe Ed Bacon, Cisco boy, in Bettis Grove, south of town, yesterday. When shot the large reptile was coiled preparatory to striking Carlton McAfee of Dallas, Bacon's hunting companion. The young men brought the snake to town and exhibited it, later removing the rattles.

WASHINGTON, Aug. 29.—The OPA said today it expects to announce the new detailed ceiling prices on livestock tomorrow.

The new ceilings on live cattle, calves and hogs will go into effect Sunday.

The agriculture department has recommended livestock ceilings at Chicago at \$16.25 per hundredweight for hogs, \$20.25 for cattle. It also recommended ceiling on dressed lambs that would reflect a price of \$19 on live animals. The new ceilings are \$1.40 higher a hundredweight on hogs and \$2.25 higher on cattle than June 30th ceilings.

The OPA meat price ceiling was busy today figuring ceilings at other market points.

The CIO denounced the new ceilings as a "disastrous blow" to the people and tacitly called for the ouster of Secretary of Agriculture Clinton F. Anderson for deceiving them.

77-Day-Old Houston Strike Was Settled Today

HOUSTON, Aug. 29. (U.P.)—Houston's 77-day-old work stoppage that had tied up \$100,000,000 of commercial construction work, ended today.

Negotiators for the Building and Trades Council — AFL — and the Associated General Contractors signed an agreement this afternoon ending the stoppage that had held up the city's postwar building program.

Construction work valued at \$100,000,000 is scheduled to resume Tuesday.

Reds Break Potsdam Pledge By Opposing Portugal

UNITED NATIONS HEADQUARTERS, LAKE SUCCESS, N. Y., Aug. 29. (U.P.) — The United States charged in effect in the United Nations Security Council today that Russia is violating the Potsdam agreement by its opposition to United Nations membership for Portugal.

The charge was made by Hershel V. Johnson, U. S. delegate, after Andrei Gromyko, Soviet delegate, told the council that Russia would back Portugal because Russia had no diplomatic relations with that state.

The foreign ministers of the United States, Great Britain, Russia and France failed to agree on whether the UN Assembly session should be postponed.

V. M. Molotov refused to agree to both the peace conference and UN Assembly sitting currently.

At their first meeting as the council of foreign ministers since the conference opened, the chief delegates agreed for their deputies to meet tomorrow to go through more than 200 amendments to treaty drafts. They will try to decide which ones will be accorded common support by the Big Four.

Should US. Type of Democracy Be Told to World?

By GEORGE GALLUP.

PRINCETON, N. J., Aug. 29. — With Russia widely accused of trying to promote Communist doctrine in other countries, the average American thinks the United States should see to it that the world is told the advantages of our type of democracy.

The state department's program of selling American democracy abroad has the backing, in principle, of nearly seven out of every ten voters. Presumably the public would support measures to make the program increasingly effective.

This public attitude is significant when considered against the backdrop of current international events.

World in Two Blocs.

Observers in Paris are reporting that, more and more, the peace conference shows the world dividing into two blocs, one Russian-dominated and the other led by the Western Powers. The two blocs, it is said, are engaged in a titanic struggle of ideas and ideologies to determine which group will come out with greater world influence and power.

That the common people of the United States desire to see the people of other countries made familiar with the strong points of our form of government is indicated in the following poll by the institute:

"Should the United States do everything it can to tell other nations the advantages of our type of democracy for the common people of the world?"

The vote:
Yes 68%
No 19%
No opinion 13%

As previous polls have shown, a substantial majority of voters believe that Russia is out to try to dominate the world. Judging by Tuesday's survey, the mood of the country is not to let the Russian challenge go unanswered, but to

do some active proselytizing abroad on behalf of democracy.

Advantages of Democracy.

What does the average American value most in the kind of government he lives under? What are the advantages of our type of democracy?

The answer is indicated in the responses to a second question in Tuesday's poll. All voters were asked:

"What would you say is the greatest advantage of our type of government?"

The overwhelming proportion of answers have to do with freedom of one kind or another, mostly the basic freedoms in the Bill of Rights.

The vote follows:
Freedom in general 24%
Freedom of speech and of press 19%
Freedom of opportunity 7%
Freedom of worship 5%
Equal rights 5%
The four freedoms 4%
Free enterprise, competition in business 3%
People have a voice in government 17%
Miscellaneous 6%
No advantages 1%
No opinion 21%

Some people named more than one factor; hence the table adds to more than 100 per cent.

CHARGES DENIED.

WASHINGTON, Aug. 29. (U.P.)—The war department today refuted charges by Rep. Marion T. Bennett, R., O., that the army was quartering large bodies of troops in the Philippines unnecessarily and using buildings badly needed by the Filipinos.

PENTECOSTAL REVIVAL.

Tito "Sorry" But Friends of Slain Will Not Forget

AIDUSSINA, Italy, Aug. 29.—Five white coffins containing the torn, burned bodies of American aviators shot down by Marshal Tito's air force were delivered to the United States 88th Division Wednesday in the no-man's land between the American and Yugoslav occupation zones of northeastern Italy.

The brief, deeply moving ceremony took place at the American Army's outpost No. 36 at this little, predominantly Slav village, in the presence of honor guards of American and Yugoslav troops.

Major Ilya Poic, the Yugoslav Air Force major in command of the fighter planes which shot down an unarmed American Army plane Aug. 19, killing its entire crew of five, stepped up to Major Gen. Bryant Moore, commanding the 88th Division, saluted and said: "I am very sorry. I assure you it will never happen again."

"Marshal Tito has assured me, both officially and personally, that there will be no repetition of this unfortunate incident," supplemented Richard C. Patterson Jr., American Ambassador to Yugoslavia, who accompanied the bodies.

The coffins were carried well within the American zone. Patterson formally handed them over to Moore. There was a brief religious ceremony and the bodies were taken to the American mortuary at Udine, where they will be put in sealed coffins for return to the United States.

A motor cavalcade escorting the bodies left Ljubljana, forty miles away in Yugoslavia, Wednesday morning. Yugoslav surgeons had worked all night to determine whether there were four bodies or five to be delivered. They failed, and it was still not known whether

er the body of one of the five Americans killed remained in the mountains where their plane crashed. The fifth coffin was symbolic.

Three wreaths were put on the coffins — one from Patterson, one from the Yugoslav 4th Army which is stationed in the area where the American plane was shot down and one from the Yugoslav air force.

After the bodies had been carried into American occupation territory Lt. Col. Wallace Hale, Kemp, Texas, chaplain of the 88th Division, conducted the funeral ceremony.

Patterson told General Morgan that the Turkish army captain who was a passenger in a second American plane shot down Aug. 9, was still in a hospital in Ljubljana. He was gravely wounded by machine gun bullets.

Patterson, who has talked to the Turk victim, said the Yugoslavs refused to permit him to contact Turkish authorities for twelve days after he was wounded and also took his identification papers. Now the situation has been "adjusted," Patterson said.

"I am very sorry. I assure you it will never happen again."

"Marshal Tito has assured me, both officially and personally, that there will be no repetition of this unfortunate incident," supplemented Richard C. Patterson Jr., American Ambassador to Yugoslavia, who accompanied the bodies.

BUFFER STATES.

The British are said to be encouraging Tibet to break away from China, so that if Russian influence in China gets too strong, there would be a boundary state between that country and India.

While this rumor may have no better basis than most rumors, it makes sense. Only statesmen who have not emerged from the primer class try to conquer every possible country. It is much more economical and just as effective to leave countries between one's own land and a dangerous neighbor. The great example is Afghanistan, which the British might readily leave to be independent.

A subservient state like Bulgaria is much more useful to the Soviets than if it were annexed to Russia.

BACK TO SCHOOL.

Children going back to school this September will frequently find differences in their teachers, some good and some bad.

Many of the old teachers will be back from war service with first hand knowledge of strange parts of the world. Geography will take on a new reality, when the teacher has flown a plane from Pacific islands, served with the Red Cross in England, or fought the enemy from a ship in the Mediterranean. Everything those men and women learned during the war can be turned to advantage back in the classrooms at home.

Many pupils will suffer to some extent from the shortage of teachers which is general throughout

the country. They may be crowded into large classes, and they may have inexperienced teachers not fully qualified for their jobs. Where this is true, it probably won't be much fun for the teachers, who will have to work twice as hard as the students to keep ahead of them.

However, there's a lot to learn in any American school this year, and the kids who go back full of summer sunshine and "play" will have a good time tackling their job with the books.

TO STAND ALONE.

TO STAND alone, serenely, unafraid, to face each day and mark its balance paid.

To keep aloft love's banner flying free And at each milestone stand aside and see,

This is the progress that my soul has made.

This is the victory for which I prayed.

Here is the blueprint, the foundation laid,

Building the person that I want to be,

To stand alone.

Out of the choices that my mind has weighed,

Brick upon brick, with firm decision laid,

Rises the structure long designed for me,

Holding within its kinship unity, Oneness with all, but separately arrayed

To stand alone. —Mary E. Linton, in Kansas City Star

Make This Home Recipe To Take Off Ugly Fat

It's simple. It's amazing, how quickly one may lose pounds of bulky, unsightly fat right in your own home. Make this recipe yourself. It's easy—no trouble at all and costs little. It contains nothing harmful. Just go to your druggist and ask for four ounces of liquid Barconrate (formerly called Barcol Concentrate). Pour this into a pint bottle and add enough grapefruit juice to fill the bottle. Then take two tablespoonsful twice a day. That's all there is to it. If the very first bottle doesn't show the simple, easy way to lose bulky fat and help regain slender, more graceful curves; if reducible pounds and inches of excess fat don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back. Follow the easy way endorsed by many who have tried this plan and help bring back alluring curves and graceful slenderness. Note how quickly bloat disappears—how much better you feel. More alive, youthful appearing and active.

It Pays to Be on the Safe Side . . .

. . . by having your title abstracted at regular intervals. All those familiar with titles know that title neglect is the landowner's worst enemy. Like keeping physically fit, or making regular visits to the dentist, the title, too, needs constant attention. By having the title regularly abstracted, the abstractor in most cases can build a strong and perfect chain. Don't wait until you get ready to sell or get a loan, but be on the safe side — have your title abstracted somewhat in advance of an anticipated need.
