CISCO HAS INSTALLED 317 TELEPHONES SINCE END OF WAR; 71 ON WAITING LIST

In one of the most interesting and informative programs that has ever been presented to the Cisco Rotary club, George Hutson of the information department of Southwest Bell Telephone company today gave the club a review of the amazing contributions of telephonic science to the winning of World War II and a glimpse into miracles to come.

He named as the four great weapons which came out of the war the atomic bomb, radar, the electrical gun director and the proximity fuse, but his talk dealt with only two — radar and the gun director.

The director, a magic brain of incalculable accuracy and wizardry, he said, was a development of the Bell Laboratories out of the "dream" of a young scientist. It automatically aims and fires anti-aircraft and other heavy artillery, and was responsible for successful defense of the British Isles, the success of Anzio beachhead and the early ending of the war. By means of its magic, it required only 90 rounds of ammunition to bring down a plane at the end of the last war, as compared with 19,000 rounds at the beginning.

The marvels of radar — radar direction and ranging — in discovering targets in fractions of seconds and directing accurate fire into them, were touched upon by the speaker, who described the various mechanical devices and scientific discoveries that made radar possible. The principle is that of an echoing beam of electrical energy, which returns a picture of the target to the radar screen in an echo of the electrical energy directed against it.

Other equipment, particularly the coaxial cable laid north of Cisco to carry television and toll services of the company, was described to the club, and some of the means which make possible such mechanical fairy feats.

He also explained the big problem faced by the telephone company in providing service after the war by referring specifically to conditions in Cisco.

Here there were 91 people waiting for telephones at the end of the war, he said.

Since then the company has installed 317 telephones and there are still 71 waiting.

In 1940 there were 5,000 local and 187 long distance calls in Cisco daily, whereas today there are

an average of 8,000 local and 490 long distance calls daily.

In 1940 the company had 18 operators; today there are 28, he said.

Many developments of a story-book character are promised for the future in telephony, said the speaker, who was presented by E. Hooks, local Southwestern Bell district manager.

Among them he listed a push-button type of dialing that would cut contact time to two seconds and a system of toll dialing whereby a subscriber would make a long distance call across the continent in 10 seconds.

Cisco Gas, Cisco Lumber Keg Winners Last Night

Cisco Gas Corporation clipped the wings of Gardenhire's Pets for three games at the Greer alleys last night, and Cisco Lumber company took two of the three contests with West Texas Utilities.

Three men topped the 200 mark in a single game, as follows: Lee McDonald, 210; Pete Nance, 209; D. White, 204.

Those exceeding the 500 figure for three games were Lee McDonald, 561; Pete Nance, 559; F. Essl, 538; F. Urban, 522; D. White, 514.

Two High School Boys Enter Store And Slug Owner

DALLAS, Oct. 3. — Two Dallas high school youths, each 14, were captured and held for police by Russell Jacobson, proprietor of Furniture Studios, 2923 North Henderson, who surprised them in the rear of his store.

One of them slugged him with the telephone while he was calling police, but failed to knock him out. Both boys, one a student at North Dallas High school, the other at Woodrow Wilson, denied they attempted to rob the store, said they entered simply to "look around."

Their names were withheld from the press and they were "turned over" to juvenile authorities.

Football Rally, Parade, Bonfire at 7:30 Tonight

The Cisco Lobo band will go to Breckenridge tonight to assist Albany and Breckenridge high school bands with the rodeo parade.

Following the parade the band will return to Cisco to participate in the pep rally which will culminate in a huge bonfire at Chesley Field.

The band will pass up the opportunity to attend the rodeo as guests of Breckenridge Junior chamber of commerce, so they can return to Cisco and do their part in backing the Loboes for their first conference game, Friday night.

The rally will form at city hall at 7:30 tonight and march to the bonfire via E and Fourth streets.

At the game Friday night the band will present a unique drill with lights, something new in this section since the war.

Orbie Jacobs Gets 2 Nice Gifts From Hi School Coaches

Orbie Dee Jacobs of Cisco was recently presented two coveted gifts by the Texas High School Coaches' association. The gifts were a wrist watch, exactly like those presented the all-star players in the North-South game at Corpus Christi during the August coaching school in that city, and a Bendix washing machine.

The Bendix was furnished by West Texas Utilities company at cost and was procured through the efforts of Joe Eddy Hayes, district commercial manager, and Jay Garrett, local commercial manager.

Orbie Dee was injured about 15 years ago while practicing with the Cisco Lobo football squad of that period and has been unable to walk since then. The gifts by the coaches' association were in recognition of his misfortune.

PTA to Have Lots of Candy at Friday Ball Game

The Ways and Means committee of West Ward PTA, under the leadership of Mrs. Emory Moad, will be very much on the job at the football game tomorrow night — selling chili buns, coffee, cold drinks and candy.

The committee has been fortunate in securing some popular brands of candy Mrs. Moad said, including Joe Boys, Stewwinds, fresh marshmallows, caramels, krysties, suckers and many others.

As this concession is the chief mainstay of the PTA in raising its budget for the year, the committee hopes business will be good at the game. It is reminded that a large portion of the PTA budget goes to the Cisco community playgrounds fund.

ELLIS COMING HOME.

PARANAQUE, Luzon, P. I. — First Lt. Charles F. Ellis, Jr., infantry, son of Mr. and Mrs. Charles W. Ellis Sr., of Cisco, Tex., was recently processed at the replacement command disposition center near Manila for his return to the United States and release from the service. Entering the army in July 1944, Lt. Ellis arrived overseas on Batangas in April, 1945, to serve with the 65th Harbor Craft company. He wears the Asiatic-Pacific Theater ribbon, American Theater ribbon, Philippine Independence ribbon and the World War II Victory Medal ribbon.

By United Press.

SAN FRANCISCO, Oct. 3.—The American Legion's National Employment committee today rebuked Gen. Omar Bradley, chief of the Veterans Administration, and demanded that a special session of Congress be convened to "immediately repeal" legislation placing a ceiling over on-the-job training for veterans.

The demand for a special session was made in a resolution placed before the Legion's national convention.

The proposed resolution, touched off an immediate debate on the convention floor.

It urged the Legionnaires to go on record in full support of their national commander, John Stelle, who charged in his national report that Bradley "broke faith" with veterans in sponsoring the ceilings.

Decontrol Board Met, Fiddled and Then Adjourned

WASHINGTON, Oct. 3. (U.P.)—The price decontrol board met briefly today to consider restoring price controls on dairy products, but adjourned without taking any action when interested groups failed to submit data requested by the board.

In the absence of the requested information, the board said it felt it was not in a position to make any decision.

Its failure to act means that dairy products will remain decontrolled for the time being, at least.

The board is not scheduled to meet again for two weeks.

The board met two weeks ago and asked the dairy industry, the OPA and the agriculture department to submit information after previously deciding not to put milk, butter and cheese back under price control.

Anderson Warned Farmers Against Asking Too Much

WORTHINGTON, Minn., Oct. 3. (U.P.)—Sec. of Agriculture Anderson today warned farmers against a gamble for higher farm prices which would put the nation "a step further on the road to inflation."

Anderson said it is entirely possible for farm prices to go too high for the farmer's good and that they should concentrate on protecting their present gains.

39 PERSONS DIE.

STEPHENVILLE, N.W. Foundland, Oct. 3. (U.P.)—Thirty-nine persons died today as a four-engined trans-Atlantic airliner exploded against a rocky hillside 12 miles east of here in the worst disaster in the history of commercial aviation.

CARDS WIN PENANT.

WASHINGTON, Oct. 3. (U.P.)—The St. Louis Cardinals won the National league pennant and the right to meet the Boston Red Sox in the World Series when they defeated Brooklyn 8 to 4 today.

UNIONEERS REVOLT.

PITTSBURGH, Oct. 3. (U.P.)—A revolt hit the ranks of the striking Duquesne Light Company independent union today as 700 employees of the Beaver avenue substitution and shop of the company petitioned the state labor relations board for a separate unit and representation by another union.

WORST YET TO COME.

WASHINGTON, Oct. 3. —President Truman agreed with Reconstruction Director Steelman today that the meat shortage may grow worse this winter. The president said there is no conflict between a report released today by Steelman and his own views expressed to a news conference last week.

The Dallas Symphony Orchestra under the direction of Dorati will begin its second subscription season Sunday, November 3, with a concert at Fair Park Auditorium, Dallas.

\$12 MILLIONS IN STATE AID DUE TEXAS PUBLIC SCHOOLS WITHIN THE NEAR FUTURE

AUSTIN, Oct. 3.—Public schools of Texas will receive their first assistance for the new school term before the end of this month, it was learned Wednesday, and the total will be approximately \$12,000,000 for all purposes.

State Supt. Woods is having the calculations made for the initial available school fund apportionment payment and also the advance payment of rural aid under the equalization law.

It was learned Wednesday that \$1,000,000 has been paid of the \$2,000,000 set aside for the purchase of textbooks which are furnished free to the school children and that one-half of the county school administration expense, approximately \$595,000 is also being readied for payment. The remaining halves of these two items will be paid later in the school year.

Per Capita Payment.

State apportionment payment will be \$5 per capita to some 1,490,685 enumerated scholastics, one of the largest initial remittances to be made. It closely follows the recent supplemental payment of \$6 per child on last year's apportionment.

The \$5 payment will be the first of the new \$35 per capita state apportionment, and if there is a surplus at the end of the school year on Aug. 31, 1947, there will be a supplemental remittance, as was done the past year, therefore, the current year's apportionment could easily go above the \$35 set by the State Board of Education.

The money is in the state treasury awaiting payment but awaits transfers and other deductions to be made from completed census rolls now in the making and may be ready by the middle of the month.

Rural School Money.

Rural school teachers will be delighted to know that an advance payment of \$3,500,000 of rural school money will be made within three weeks, with all of it earmarked for salary aid.

Later the rural schools will receive their first payment on account of transportation and high school tuition, all under the act which appropriated \$14,000,000 for each year of the biennium for educational equalization.

The foregoing is apart from the state apportionment and is appropriated to help the rural schools which do not have large tax values or many scholastics to win more state money on a per capita basis.

Under the law the beneficiary rural schools must complete their budgets of need and file same with the State Education Department by Oct. 1 in order to receive their advance remittances which are intended to guarantee prompt payment of teachers' salaries. Computations are now being based on these budgets to expedite advance payments for the teachers.

Rotary Test Being Made on Fee ranch North of Cisco

Ed Graham et al of Graham is drilling ahead in a rotary test on the George P. Fee ranch about 3 1/2 miles north of Cisco. The well is located in the NE quarter of Section 64, Bl. 4, H&TC survey.

This well is the first test in 19 years in a territory which had one well that produced for 20 years and has revealed good showings in subsequent tests. Production in the area is expected in the Strawn series.

MERCHANTS ASSOCIATION.

The Merchants Credit association will hold its regular monthly meeting at 7:30 tonight, 205 Reynolds building. The entire membership is cordially invited to be present tonight, said Mrs. Lucille Huffmyer, secretary.

Ranger to Have Steer Roping and Branding Contest

RANGER, Oct. 3. — October 11 and 12 the junior chamber of commerce of Ranger will stage a steer roping and branding contest at the Ranger rodeo and round-up grounds, featuring Jeff Good of Yeso, New Mexico and Limey Thomas of Levelland, Texas and Buckeye, Arizona.

Both men are prominent in big steer roping events, having appeared in the major steer roping contests all over the United States. In the contest at Ranger each will rope six steers for a \$6,000 pot and each will rope six calves for a \$1,000 pot. All steers used will be the property of James King of Ranger and his recorded brand will be put on the steers while they are tied down.

In addition to the steer roping and branding, there will be a jackpot roping event that is open to the world and a matched calf roping contest between Phelton Herrington of Ranger and Burylie Hiltson of Breckenridge.

Big steer roping is fast becoming the most popular of all rodeo events as well as being the most dangerous to the contestants, and thrills a plenty are promised for the Ranger show.

Both performances at Ranger will be in the evening.

Dothan Man is in Cisco Hospital From Snake Bite

J. W. Kile of Dothan, about 32, was the victim of a rattlesnake bite Tuesday afternoon that might have been fatal but for the first aid treatment he received before being rushed to Graham hospital in Cisco. Mr. Kile was on the Sublett place, near Dothan, when bitten.

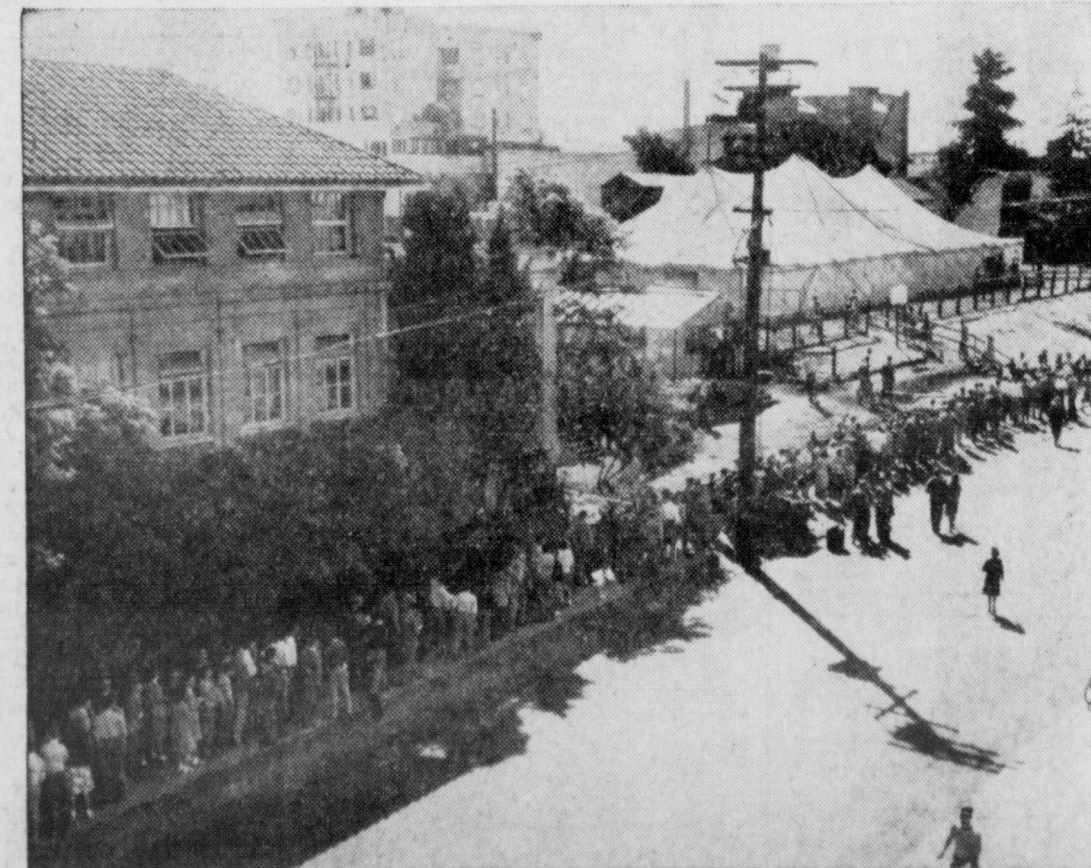

Using his pocket knife, Kile quickly made a larger incision at the point of injury in his leg and then applied a tourniquet just below the knee.

He was a very sick man for awhile, but the Daily Press was informed that he was resting easily today at the hospital and will be released soon.

The reptile was about four feet long and carried twelve rattles.

PLUNKETT TENT SHOW.

Plunkett's Tent Show will be here October 17, 18 and 19, under auspices Cisco American Legion. The tents will be spread on the lots north of the Daily Press office and there will be 25 people in the show, said L. L. Plunkett, advance agent. The Plunkett shows spent three days here in August of last year.

BACK TO COLLEGE—These students lined up for registration are part of the 22,500 men and women seeking enrollment at the University of California at Berkeley. The tent was erected to facilitate the checking of eligibility for first post-war matriculation.

VICE-PRESIDENT OF SOUTH.

How would the North have made out in the Civil War if Lincoln's vice-president had steadily denounced him as a usurper and a menace to the country? That was the experience of Jefferson Davis, president of the Confederacy. All through the war he had to fight not only the Northern forces but Vice-President Alexander H. Stephens of Georgia, whose life story has just been written by Rudolph Von Abele.

Stephens had originally opposed secession, but followed his state into the Confederacy. This record caused his choice as vice-president, the idea being that to elect an opponent of secession to so high a post would prove that the South was solid behind the war. Unfortunately for Davis, Stephens was a crochety (perhaps because of his bad health) and insistent on strict adherence to precedent. War is the world's greatest enemy of precedent, but Stephens never realized this. With his fellow-Georgian, Gov. Joseph E. Brown, he became, outside of the Northern armies, the greatest of all handicaps to Southern success.

Georgia approved Stephens' record, electing him after the war senator and governor. But his rank as a statesman would be higher if he had lived up to his own words. "It is a hard matter for our people to realize that old things have passed away."

"Patience, lovely virtue" is still as true as when it was first announced by the Chinese. But too much patience is a pain in the neck — especially in the case of reckless, ignorant auto drivers, who continue to kill and maim and

seldom answer to the law as it is written. And this is just as true of Cisco and Eastland county as it is of Texas and the nation.

HEAD AND HEART.

Courageous officials of State College, located in the Pennsylvania city of the same name, set up their second annual marriage clinic. It was attended by more than 100 men and women who listened to national authorities on family relations, parenthood, psychology and gynecology. One speaker told them that every woman wants love, self-expression and social approval. Men want the same thing, he said. Marriage offers the best, though not a guaranteed, means to these aspirations.

Here is a lifting of old taboos, and substitution of objective, scientific scrutiny on the man-woman relationship. These are intelligent steps toward national happiness, and checks on the growing divorce rate.

MIRACLE.

THE STREETS were drenched with rain today. The driven clouds were masks of gray.

When suddenly the sun shone down In slanting shafts across the town. The press of buildings opened wide,

I saw the golden sunlight stride From roof to field and disappear Over the hills long miles from here.

—Alan W. Thwaites, in Christian Science Monitor

SEVERED—The 7,000 ton U.S. steamer Helen Modjeska, damaged when it ran aground off the English Coast, lies broken in two as a result of Britain's worst gale since 1909. Wind velocity reached 100 miles per hour. The captain of the vessel died shortly after the steamer was stranded, reportedly from an overdose of sleeping tablets.

QUICK RELIEF FROM Symptoms of Distress Arising from STOMACH ULCERS DUE TO EXCESS ACID
Free Book Tells How to Relieve the Must Help or it Will Cost You to Think. Every man who has had the WILLIAMS' TREATMENT has been cured. For relief of symptoms of stomach and duodenal ulcers due to excess acid, Poor Digestion, Sour or Upset Stomach, Gas, Heartburn, Headaches, etc., ask for "Williams' Treatment" at any drug store.

Getting the Cart Before the Horse---
... is the popular way of saying that we act before we think. It is a state of mind not confined to the ignorant, nor to the mentally ill, but to all classes of people, some at times, others at all times. For instance, we buy property without an abstract. We spend several thousand dollars for improvements. Along comes a buyer who thinks before he acts and offers to purchase but wants an abstract first. How about your title, Mr. Seller? Can you deliver?
