MUST GUARANTEE RETURN.

LONDON, Oct. 9. — Food Minister John Strachey says Britain would "very much like to lend" a large supply of meat to the United States Army if guaranteed quick repayment in kind. Strachey, discussing news reports that 20,000,000 pounds already had been lent, said at a news conference yesterday, "we must, of course, have the most complete assurance of the replacement of the meat at an early enough date."

J. W. CARTER FUNERAL.

EASTLAND, Oct. 9. — Funeral was held this morning at the Baptist church for J. W. Carter, 86, with the Rev. F. H. Porter officiating. Burial was in Eastland cemetery. Mr. Carter, a retired farmer, died at his home of a heart attack Sunday night. Eleven children survive.

BERLIN JEWISH ROLL.

BERLIN, Oct. 9. —Berlin, which had a prewar Jewish population of 186,000, now has only 7,350 according to a report made today to Jewish assembly here. The report added that compared to 50 prewar Berlin synagogues there are now only four, together with three prayer halls.

NICE CUT IN STATE, CO. TAXES

"If Eastland county taxpayers only knew," said Neil Day, county tax assessor-collector, this morning, "they would run to meet their postman Monday to receive the cheering news that their aggregate tax bill has been reduced by approximately \$115,257.63 since similar notices were mailed out a year ago."

Mr. Day stated that his office would dump into the mails Saturday 7,000 statements for state and county taxes and that the postmen in most cases would have them in the boxes by Monday.

October 1 is the date set by law for the beginning of tax payments and taxes may be paid now, although the statements will not be mailed before Saturday.

R. H. Crowe of Okra was the first to pay a poll tax this year. He is 63 years of age and is not required to pay a poll tax. He stated, however, that he had paid one every year since he became 21 and desired to pay it this year.

Tax valuations for Eastland county for 1946 total \$19,079,010; the state rate is 37c and the county rate 6c.

The county commissioners' court has allowed a discount of three percent on 1946 taxes paid during the month of October, two percent for those paid during November and one percent for those paid in December.

Aircraft Workers Vote Third Time Against Unions

HAWTHORNE, Cal., Oct. 9. — Employees of Northrop Aircraft, Inc., have voted, for the third time in two years, against labor union representation. The ballot count was announced as:

For union representation 6,422; against union representation 14,448. About 88 per cent of those eligible voted. The CIO United Auto Workers had petitioned for all three elections.

Tuesday's election was supervised by an NLR field examiner.

Ft. Worth Women Oppose Meat Control in Big Way

FT. WORTH, Oct. 9. — Results of a citywide meat poll, in which Fort Worth housewives voted overwhelmingly in favor of decontrol, will be forwarded to Washington officials this week.

Of 7,000 ballots cast in the poll, conducted by the Fort Worth Retail Independent Grocers Association, 6,873 housewives voted in favor of lifting federal controls and 423 cast pro-control votes. Complete returns are expected to total 10,000 votes.

THREE-DAY SHUTDOWN.

DETROIT, Oct. 9. (U.P.) — The Ford Motor company said today it will be forced to shut down virtually all units from tomorrow night until Monday morning because of a shortage of rolled steel. The layoff will affect approximately 100,000 employees.

By United Press.

WASHINGTON, Oct. 9. — Sen. Claude Pepper, D. Fla., one of OPA's best friends in Congress, said today that he may add his voice to those demanding repeal of the OPA law.

His statement highlighted the day's development as the meat shortage continued to engage the attention of officials and politicians from President Truman down.

But the developments were all words — and brought no more meat in sight.

Pepper voted against the compromise OPA law passed by the last Congress on the grounds that it was unworkable. Now he feels that price controls are not receiving public support.

Two other Southern Democratic senators, Burnet R. Mayfield and Olin D. Johnston, both of South Carolina, said after a conference with President Truman that people in the South are "discontented" about the meat situation. Both are strongly in favor of removing price controls on meat.

An intensive investigation by the justice department and the FBI has uncovered no evidence of collusion or conspiracy by industry to create meat shortages.

Food on Dining Cars Removed From Control

WASHINGTON, Oct. 9. (U.P.) — Food sold on railroad dining cars and club cars will be removed from price control on Friday.

Price control, however, will remain on sandwiches, milk and other food and drink sold by train peddlers.

OPA made this amendment today following a previous statement that meat items sold in restaurants will go up 15 per cent tomorrow.

YUGOSLAVIA PAYS.

WASHINGTON, Oct. 9. (U.P.) — The state department revealed today that Yugoslavia has paid the United States \$150,000 as indemnity for the lives of the five American aviators killed when their unarmed transport plane was shot down, Aug. 19.

TEXAS CASH, SECURITIES, COLLATERAL TOTAL \$495,858,847; AUDIT COMPLIMENTS JAMES

AUSTIN, Oct. 9. — A man who was custodian of \$495,279,602 of cash and securities owned by the State of Texas properly accounted for the funds coming into his hands the past fiscal year and his official bond is but for \$70,000, as fixed by law.

This highly interesting narrative of official integrity was written by C. H. Cavness, State Auditor, in giving the results of an audit of the State Treasury and the records of State Treasurer Jesse James.

Cavness found that during the year James received deposits of \$377,890,253 and paid warrants aggregating \$34,030,935 to leave a mere total of \$43,859,317 in his custody last Aug. 31. He had cash on hand and in banks \$75,752,694, which, with the credits listed made a grand total cash last Aug. 31 of \$119,612,012.

Added to the last amount of cash was \$220,535,190 of securities in his custody, a total of cash and securities of \$330,947,202. The Treasurer also holds \$131,542,550 collateral put up by depository banks and \$24,369,094 of other collateral for a total of \$155,911,644. Cash, securities and collateral produced in the final aggregate of \$495,858,847, all in James' possession.

The state prison system's \$100,000 revolving fund is included in Treasury cash but not \$18,000,000 transactions of the Texas Unemployment Compensation Commission. Incidentally, Cavness notes that the TUCS deposits are with the United States treasury and on Aug. 31 last amounted to \$155,532,400.

State Treasury deposits of state funds are in 326 state and national banks, which pay a small interest on the average balances. The above mentioned collateral is put

up by these banks to protect the state's deposits. Cavness lists all these banks and the state balances on last Aug. 31, finding accounts correct.

Of the state-owned securities, \$89,945,123 belongs to the permanent school fund, \$58,966,700 to University of Texas permanent fund, \$29,300,000 to highway surplus accounts, \$22,138,500 to the teacher retirement fund with \$19,162,000 to its membership accumulation funds, with the remainder scattering among several state funds.

Securities owned are as follows: United States Government \$174,729,200, State of Texas \$4,102,200, city, county and district bonds \$12,268,336, school district \$29,364,797, escheated estate \$375 and drought relief \$70,283.

Cavness repeated a former audit recommendation that the legislature do something about liquidating the indebtedness on the \$4,102,200 of state bonds which are delinquent in \$2,687,500 interest and \$1,206,402 principal.

Since 1933 the legislature provided interest on all state bonds owned by state funds except the school fund.

Delinquent principal and interest on Aug. 31 last in all funds was \$4,384,641, being \$2,687,500 on state bond principal and \$77,403 on that of city, county and school districts, with delinquent interest of \$1,206,402 and \$413,336, respectively.

Peace Conference Rejects Molotov Trieste Demand

PARIS, Oct. 9. (U.P.) — The peace conference rejected today a demand by Soviet Foreign Minister V. M. Molotov that it set a specific and early date for the withdrawal of all Anglo-American occupation forces from the Trieste area.

The conference was voting one by one on the 80 sections of the Italian treaty draft after the conclusion of general debate.

Early in the balloting the conference approved the Big Four compromise boundary line between Italy and Yugoslavia.

Boston Red Sox Take 2 to 1 Lead in World Series

By Leo H. PETERSEN.

United Press Sports Editor.

BOSTON, Oct. 9. — The Boston Red Sox took a two to one lead in the world series today when they won the third game, 4 to 0, with Dave-Boo-Ferris and Big Rudy York engineering the triumph.

Ferris yielded only six hits as he won the first world series game in which he ever pitched, while York hit a first inning home run with two mates on base to provide the batting power the Red Sox needed.

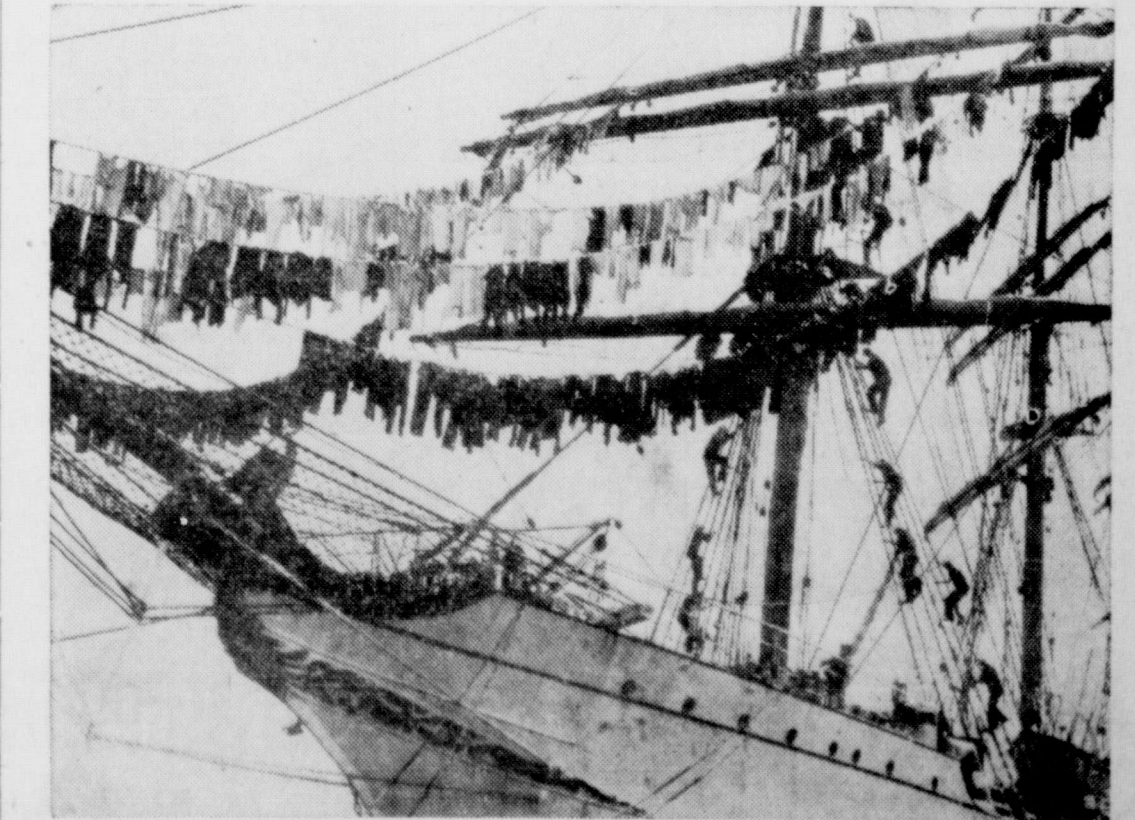

It was the Cherokee Indian's second homer of the series, his first having won the opening game in St. Louis.

The blow came after Murry Dickson, the Cardinals' sinking ball ace, had two men out, but he made the mistake of purposely passing Hard-Hitting Ted Williams to get to York, and York, on a three and two pitch, hit one over the left field wall to show up the Cardinal strategy.

They could have stopped the game right there as matters turned out, for Ferris, a 25-game winner for the American League champions this season, had the Cardinal batters at his mercy.

WORKERS GO BACK.

PONTIAC, Mich., Oct. 9. — Union officials called striking municipal workers back to work today after reaching a settlement involving a flat \$12.50 monthly wage increase with the city administration. Half the city's 800 employees struck 42 days ago demanding a 10-cent hourly raise. Officials of the CIO United Public Workers said the increase agreed on averaged six cents hourly.

PROPER STUDY OF MANKIND.

The plague of Americanism, even in such marvelous discoveries and operations as radar, lies in its frank materialism. We seem to be concerned only with material things, as if in them alone lay power, virtue and glory, when our real glory lies in man himself.

Man seems to be the only creature really alive and self-conscious, aware of the visible and comprehensible universe in which he lives. This vast and varied world seems to be made for us and our explorations and our mutual enjoyment and understanding, without limit.

How do we regard and how do we use these marvelous gifts? Well, for the most part, we seem pretty well satisfied merely with making a living, getting enough to eat, making ourselves comfortable and indulging in simple games like mere children. And there seems to be no law against it, human or divine. But most of us certainly miss a lot of wonderful things we might be doing and thinking and are lazy and irresponsible about human development.

FIGHT FOR HEALTH.

One form of warfare which is beneficial in its effects and which no one wants to see abolished is the war against disease. In spite of the general improvement in public health and the longer average life-span of modern man, some of his disease-enemies remain stubbornly unconquered.

Technicians in laboratories of several large drug companies are battling against tuberculosis, cancer, and the virus diseases, such as the common cold, pneumonia, polio, and meningitis. Among the new drugs to be developed is one of the mold-made drugs, streptomycin, which has been found beneficial in cases of tuberculosis, peritonitis, bladder infections, and certain blood infections. Anemia, for which only palliatives have been found before, can now sometimes be cured by folic acid, a newly discovered vitamin. A vaccine is being developed too, which may prove to be an immunization against tuberculosis, and vitamins are being studied with the hope that some means may be found to

halt the degenerative processes of old age. These laboratory workers win no decorations for their accomplishments, have no military titles and are modestly paid, but they are true benefactors of mankind.

OPEN FORUM

Roosevelt Critic, Editor Daily Press:

Newsweek of Oct. 7 reports that the late Franklin D. Roosevelt left a gross estate of \$1,940,962, which included \$1,178,332 in common and preferred stocks and \$197,543 in bank accounts, notes and cash. Part of the balance was in land; more consisted of \$79,267 in stamp collections and the remainder was chiefly in United States Treasury bonds and tax savings notes, the present surrender value being estimated at about \$75,000.

In addition, Mr. Roosevelt left the amazing total of three huge War Bonds, aggregating \$100 maturity value, one for \$50 and two others for \$25 each.

He also left future generations with a debt to pay of \$267,000,000,000. FRANK C. SLAY.

The Force that Supports the World's Biggest Bridge...

OIL-PLATES Your Engine!

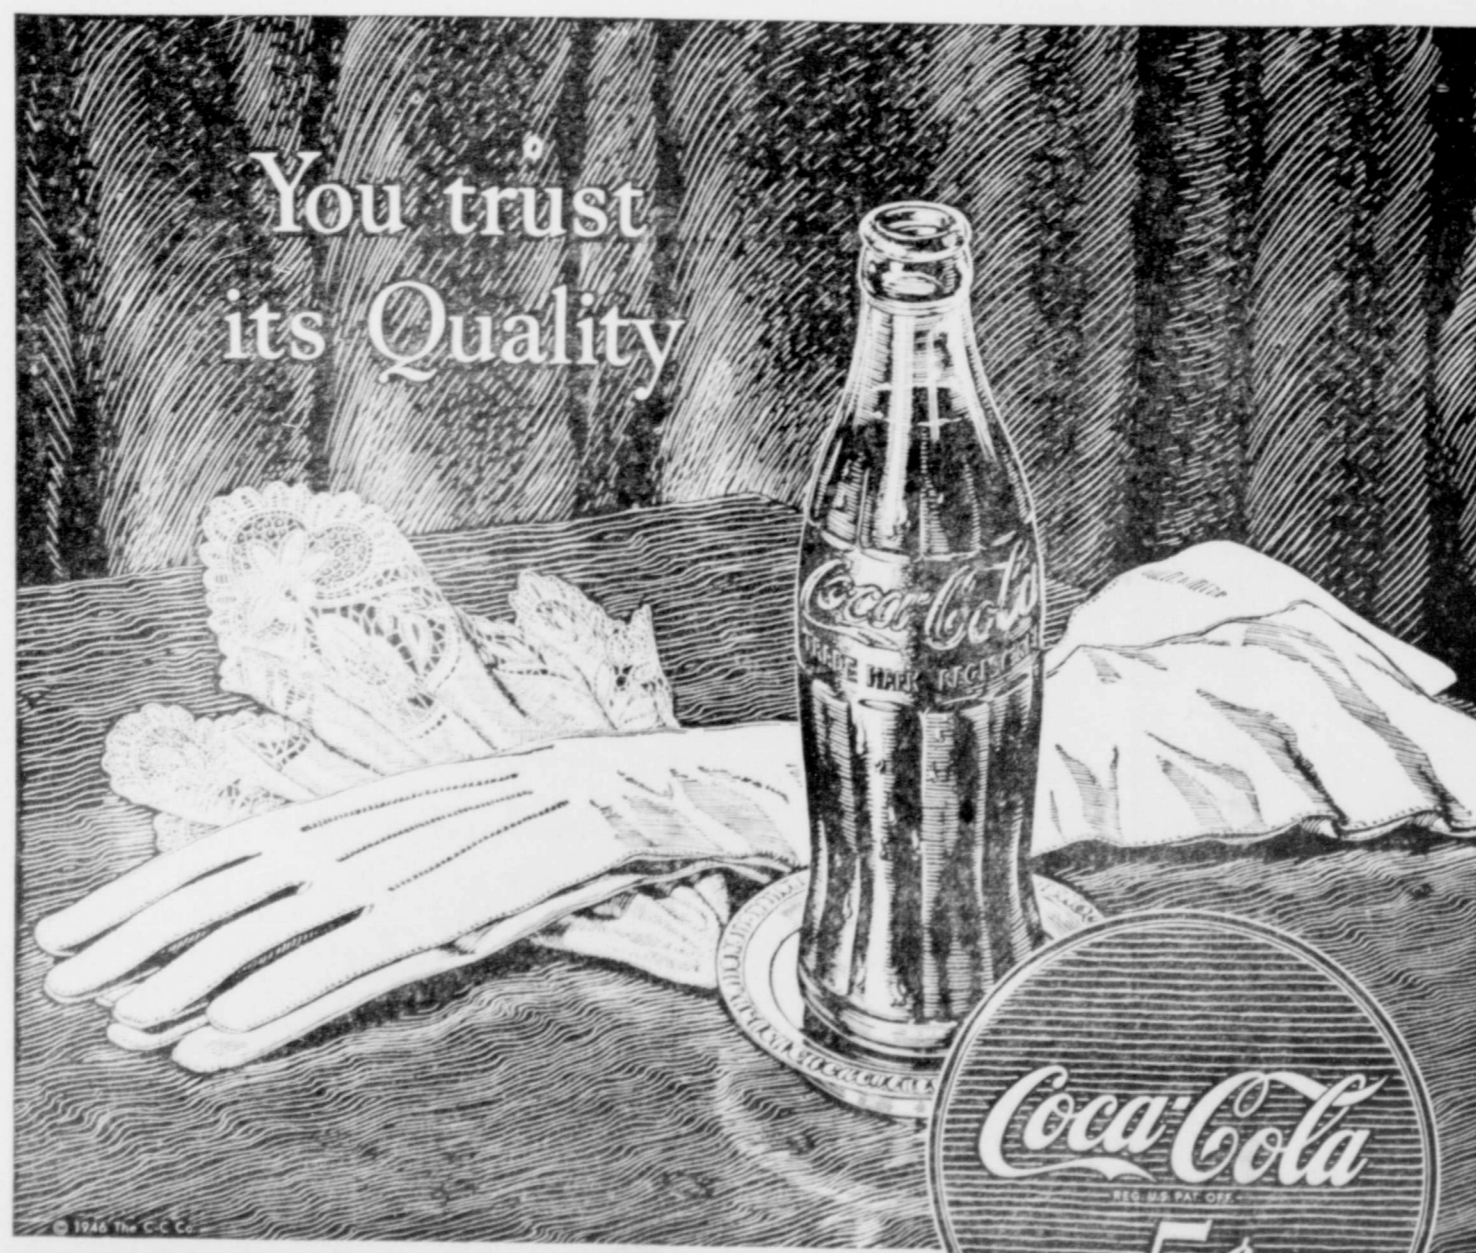

In the great San Francisco-Oakland bridge, a tremendous tug-of-war goes on continuously between gravity and molecular attraction. Because the attractive force between the molecules in the cables balances gravity's down-pull the bridge stays up.

Through continuous experiment with the mighty forces of molecular attraction, Conoco scientists are able to produce new and better oils for America's motorists. For instance, by utilizing forces of molecular attraction, a special ingredient of Conoco Nth motor oil is bonded to working surfaces of your engine, so that cylinder walls are OIL PLATED.

And because molecular attraction holds Conoco OIL-PLATING up where it belongs... prevents it from all draining down to the crankcase, even overnight... you get these benefits:

- added protection when your engine starts up
- added protection from corrosive action
- added protection from wear that leads to fouling sludge and carbon
- added smooth, silent miles

That's why to OIL-PLATE now... at Your Conoco Mileage Merchant's. Look for the red triangle. Continental Oil Company

Building farm telephone lines is one of our biggest jobs

We're hard at work at the job of providing more and better telephone service to farmers throughout the Southwest right now. Shortages of copper, lead, poles, steel, and other equipment have kept us from building as many lines as we had planned, but the future looks brighter.

The jobs of surveying, interviewing, and building are now under way in more than 250 rural areas. Sooner or later we'll get to every farmer who is waiting for a telephone.
