JUBILANT RED BIRDS—When this picture was taken, the World Series was tied at two all, but no matter who the victors, Boston or St. Louis, Manager Eddie Dyer, left, and Enos Slaughter can happily remember that they played a part in tying the record of 20 hits in a World Series game.

Thos. H. Moore Was Buried in Oakwood Today

Thomas H. Moore, who had made his home in Cisco for many years and who was highly respected by all who knew him, died at 7:30 o'clock Thursday night at his home on west Second street. Mr. Moore had been in poor health for several years, but his death came unexpectedly. He was born Oct. 24, 1876, at Anderson, Ala.

Mr. Moore, who returned to Cisco about a year ago from Houston, where he had made his home for some two years, was a faithful employee at the Cisco cemetery for many years and through that connection was well known to a large number of Cisco people. Along with that of the late Sid McIntyre, Mr. Moore's name is on the granite block at the entrance to Oakwood cemetery.

The funeral was held at Thomas chapel at 4 o'clock this afternoon, with burial in Oakwood cemetery, which he helped tend and beautify over a long period of time. Rev. George Farrow, assistant pastor of the Pentecostal church, was the officiating minister.

Pallbearers were W. R. Winston, H. J. Woodbridge, J. E. McCanlies, Arthur Ivy, R. T. Carr and R. B. Kinsey.

Survivors are the wife, two sons and four daughters, as follows: Herschel Moore, Cisco; Jack Moore, Abilene; Mrs. Theima Bennett, Mrs. Clarence Beaty, Miss Lillian Moore and Miss Iris Moore, all of Dallas. There are three grandchildren and one great grandchild. Mrs. Fred Grist of Cisco is a sister.

Texas Governor Thinks Dobie a Trouble Maker

AUSTIN, Oct. 18. — Gov. Coke Stevenson declared today that if he were the board of regents of the University of Texas he would remove Author-Professor J. Frank Dobie from the faculty there "without batting an eye."

The governor said, however, that he has never tried to run the university and would make no recommendations to the board of regents.

Dobie, professor of English and well known Southwestern folklorist, in an article in this week's "Texas Spectator" charged University President T. S. Painter with trying to "enforce" tranquility among "the hired hands of the university" and charged the board of regents with "starving out" the "strong-minded and free-spirited" members of the faculty.

Asked if firing Dobie would make a martyr of him, Stevenson replied that he felt sure it would not.

"It's just a case of removing a man who is a disturbing influence at the university — and that is what he is," the governor said.

Stevenson voiced the opinion that faculty members at the University should have full freedom of expression "as long as they follow academic facts."

"That freedom should not go to the point of personal attacks on his superior," he declared.

If a member of the faculty were sincerely convinced the university administration was seriously at fault, Stevenson said, he could pursue his opinion with dignity and point out the faults but not to the point of impugning those officials who have the authority to control the university.

UNUSUAL FREAK GROWTH. C. A. Brown of 1605 N. avenue, Cisco, today brought to the Daily Press office an unusual freak growth pulled from his patch of radishes. The radish shows a clearly defined hand, with thumb and four fingers. Mr. Brown has a nice fall garden of turnips, turnip greens, carrots and radishes.

SHE'S THE "SEEING EYE" in this case. Mrs. Eleanor Lawrenson, New York, holds her wire-haired terrier, Sunny, who has been blind for five years. Mrs. Lawrenson taught the dog to trust and follow her mistress.

CIO AUTO MEN WILL ASK HIKE

CLEVELAND, O., Oct. 18. (U.P.)—The United Auto Workers—CIO—tomorrow will demand a new wage increase from the Chrysler Corp., UAW President Walter Reuther announced today.

CIO Philip Murray will sit in on the meeting of the UAW executive board here, leading to the belief that the new figure will be set as a universal demand for CIO negotiations in the coming year.

Besides Chrysler, contracts covering 300,000 of the 600,000 auto workers will be reopened in 30 to 60 days for wage negotiations, Reuther said. A 60-day notice to Chrysler expires tomorrow.

The new wage demand was expected to be as significant as the 18 1/2 cent figure with which UAW set the pace for labor last year in its demands on General Motors.

AGREE ON PAY. CHICAGO, Oct. 18. — A 37 1/2 percent wage increase for musicians who make recordings has been agreed between James C. Petrillo and industry members, says the president of the AFL American Federation of Musicians.

FIVE LYNCHERS HELD. SHREVEPORT, La., Oct. 18. — Five men are to be arraigned in federal court here Nov. 4 on indictments charging civil rights violations in connection with the lynching of a 28-year-old negro war veteran, U. S. Dist. Atty. Malcome LaFogues said today. The negro, John C. Jones, was found beaten to death near Minden, La., August 8. Officers said lewd pictures of white women were discovered in his possession.

PERMANENT HEADQUARTERS. NEW YORK, Oct. 18. (U.P.)—New York City formally offered more than 350 acres of the World's Fair site in Flushing Meadows, valued at \$26,746,000, to the United Nations today as a permanent headquarters.

FOR SALE. — Nice large bakers (chicken). Also, nice five-room house and acreage. Phone 45J2.

All Nations, Big and Small, Must Be Given Hearing

WASHINGTON, Oct. 18. (U.P.)—Secretary of State James F. Byrnes will tell the American people tonight that their best hope of an enduring peace lies in firmness toward Russia and insistence on the principle that all nations, big and small, must have a voice in writing the peace, informed diplomatic quarters said today.

Soviet-American relations and their predominant bearing on future world peace will be the theme of Byrnes' report to the nation, which will be broadcast from 9 to 9:30 p. m.

His broadcast will include a resume of the 79-day Paris Peace Conference, whose decisions Russia has said must be revised by the big four foreign ministers' parley opening in New York.

U. S. Intelligence Officer Says Hitler Still Alive

BERLIN, Oct. 18. — An American intelligence officer who directed the search of Adolf Hitler's Berlin chancellery after the presumed death of the former Fuehrer, declared his belief yesterday that Hitler, his mistress, Eva Braun, and his deputy, Martin Bormann, all are alive.

He charged that Russian secret police halted Allied excavation work on the subterranean, bomb-proof room, where Hitler and his mistress are supposed to have died, after several personal belongings of the two had been unearthed.

He added that Russian officials "were as skeptical as we," regarding Hitler's alleged death.

Lt. Col. W. F. Heimlich of Columbus, Ohio, said there is "not one iota of proof of Hitler's death."

GI DRIVERS ACCUSED. MANILA, Oct. 18. — President Roxas forwarded to the U. E. embassy today a protest against reckless driving by American soldiers, held responsible for 50 per cent of Manila's traffic deaths.

COMMUTERS STRANDED. DETROIT, Oct. 18. — Seventy-four thousand regular Michigan commuters were stranded in a driving rain today by a strike of CIO mechanics of the suburban Greyhound Bus Lines.

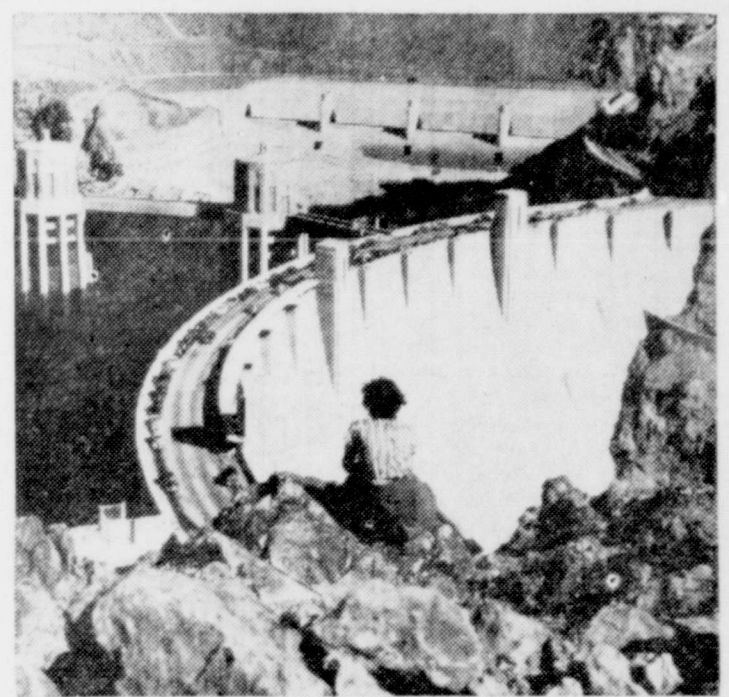

Plenty of Meat is Promised For Late Next Week

CHICAGO, Oct. 18. (U.P.)—Packers promised today that meat in good supply will be back on butcher counters late next week and, in other cheering news for housewives, retail butter prices dropped several cents per pound.

The packers statement was issued as the heaviest Friday shipment of livestock this year moved into the big cornbelt stockyards—the third day of a deluge of animals marketed by farmers since the end of price controls Monday.

BEEES KEEP WORKING. AUSTIN, Oct. 18. — The bees have been buzzing along at a merry clip in their honey producing activities this year and should end the season with 10,920,000 pounds of honey to their credit in Texas, the United States Department of Agriculture estimates. Last year's crop totaled 7,623,000 pounds.

FEDERAL PERMIT NEEDED. WASHINGTON, Oct. 18. (U.P.)—In a move to stamp out illegal construction, Housing Expediter Wilson Wyatt today called on municipalities to issue no building permits for construction not previously authorized by the government.

CRIPPLED CHILDREN FIND THRILLS AT STATE FAIR; FINAL LIVESTOCK WINNERS

DALLAS, Oct. 18. — Dallas county crippled children squealed with delight at bronco-riding cowboys in the Hell's Half Acre Rodeo Thursday as they took in the State Fair with the more able-bodied Daughters of the Confederacy, Veterans of Foreign Wars, prominent Mexican officials and Carnival Night revelers.

Thursday also marked the end of all judging in this year's livestock show as prize animals were named in the Jersey and Guernsey dairy cattle class and among the Ohio Improved Chester hogs.

Mrs. Walter E. Kingsbury made her tenth annual trip to the fair with the crippled children and post-polio myelitis cases. The eighty-five children, each accompanied by a relative or nurse, rode about the grounds in tractor-drawn sight-seeing trailers. They started their day witnessing a special dance by rodeo Indians, who rattled their beards, waved their feathers and gave autographs.

The youngsters were intrigued by Elsie the Cow, they gasped at the sky ballet enacted by high trapeze artists, and clutched at the arms of their wheel chairs as rodeo performers tumbled to the dirt.

The children came from the Ben Milam School for Crippled Children and the Scottish Rite Hospital for Crippled Children. The fair trip, complete with gifts, free admissions and a luncheon on the grounds, was sponsored by the Dallas County chapter of the National Foundation for Infantile Paralysis, the Texas Society for Crippled Children and the Dallas Society for Crippled Children.

In the Hall of State auditorium, Judge Paine L. Bush told the United Daughters of the Confederacy: "Democracy won't fail if you and I will accept the responsibilities in the social, religious and governmental frontiers before us."

An Oklahoman, Tom Cooper of Ardmore, dominated the Guernsey show when his cattle won in seventeen out of twenty-four classes, including the ribbon winner of the fair's grand champion Guernsey cow, Cooper's Shoda. Another Ardmore man, Mort Woods, had the grand champion bull, Watchword of Primrose.

In the contest for the best Jersey bull at the show, D. T. Simons, Fort Worth, entered the junior champion, Draconis Royal Baron, which beat out the senior champion, Winchester Pride, owned by Howard McCauley of Denison, for the grand champion honor. Herman F. Keep of Buda, Travis county, won honors for fine female Jerseys.

Gil Sudderth of Leonard, Fannin county, took fourteen out of sixteen classes in the fair's first OIC swine show. The Ohio Improved Chester is just being introduced into Texas, said Harry E. Vernon, secretary-treasurer of the OIC Swine Breeders Association, Goshen, Ind. Sudderth had both the grand champion sow and grand champion boar.

G. G. Gibson of Texas A. & M. College, superintendent of the dairy show, said: "This is the best-balanced dairy show ever held at the State Fair. There were more Guerneys entered than ever before and the quality of the Jersey entries were higher, although previous shows have had greater numbers."

In a short ceremony in front of the Hall of State, George Young was presented the Veterans of Foreign Wars good citizenship medal for laying out a field of honor for VFW members at Restland Memorial Park. Radio station WFAA received a citation from the VFW for aiding in war enlistments and servicemen's benefit programs.

Among the VFW officials present were J. Henry Perry of Belton, state department commander; Mrs. Beth Kveton, state president of the VFW auxiliary, and Larry A. Rogers of Kansas City, Mo., a national VFW director.

SMITH COLLEGE'S ONLY MAN—Alumnus, that is. Ex-Army pilot Meredith N. Stiles sits in the Spanish class of Prof. Joaquin Casaduro at Smith College, North Hampton, Mass., where he attended last year with his wife. He has the distinction of being the only male alumnae contributor to Smith's 75th Anniversary Fund.

LET'S TALK OUT.

The Daily Press is always open to those who wish to state their opinions or discuss questions of general interest through the Open Forum column.

In most live towns and cities this column is popular with forward-looking citizens, who do not hesitate to advance thoughts and sign their names thereto, while avoiding as much as possible the personal element.

In Cisco, however, there seems to be a pronounced hesitancy on the part of the average man and woman to go on record publicly in matters usually deemed important to a community that desires to grow.

In September, some 26 well known men went on record through the Press as favoring the city manager form of government. Since that time there has been no public comment on the proposed change.

At present there is considerable street talk of the advantages and disadvantages of a city manager

form of government, but no one comes out in Open Forum and tells why he is for or against the proposal. Hence, no progress is made in settling the question.

The Daily Press is not an authority on the city manager plan of government, but we can easily see where, if wisely directed, it might be of substantial advantage in the prompt collection of taxes, and particularly accrued delinquent taxes that totaled \$221,058.85 as of April 1 — which the city badly needs.

One seemingly sound argument advanced by proponents of the city manager plan is that one TRAINED man, working under elected city commissioners, can better conduct the multitudinous affairs of a city of 7,000 people than is possible where authority and labor is divided between four or five men, all of whom are usually engaged in some private business and busy with their own affairs.

Be that as it may, the columns of the Daily Press are always open to all citizens for brief discussions of this or any matter of importance to Cisco's welfare.

SAFETY CHUTE—Chicago firemen demonstrate the new safety chute. Made of canvas, the long slide is used to quickly remove persons from burning buildings to safety. Here a fireman is catapulted from the seventh floor.

TAKE IT EASY.

With the release of our war measures, it is evident that we are going to have, in comparison with our recent national situation, what seems like "a new birth of freedom." The abandonment of meat control is merely one example of many, present and future. Price control in general goes by the board. And with the new feeling now in the air it is quite possible that a lot of free-born but latterly-suppressed citizens will go to extremes, making considerable trouble for themselves and other people.

It is well in such a situation, both at Washington and here in Texas, to follow the good old American rule—"take it easy and go slow." With such an attitude there will be fewer things done, in our exaltation, that may have to be undone a little later.

DREGS OF WAR.

The depths of homelessness has been reached by those curiously afflicted human beings known as "Volksdeutsche," citizens for generations of Poland, Rumania, Czechoslovakia, Yugoslavia, whose ethnic origins are German. Expelled by the Potsdam agreement from their countries, they are denied entrance to Germany, which cannot absorb any additional destitute.

These forlorn people have become bottlenecked by the thousands in Austria, where a Philadelphia, Arthur G. Billings, working for the American Friends Service Committee, found them in rags, without shoes, living in windowless, floorless sheds. Daily food was six ounces of bread, a bowl of soup and milk, miraculously provided by the city of Vienna. The Quaker's business was to get clothing, sent from America, to them, a priceless boon. Later, he reports, some were moved to better quarters where they slept on straw ticks instead of the ground. But their ultimate fate is in the air. They form one of the insoluble aftermaths of the war tragedy. This sort of human problem ex-

plains in part why a peace settlement is so long being arrived at.

AMERICA AND RUSSIA.

It is surprising, and even startling, what people may hear if they keep their eyes and ears open. Here is Louis F. Budenz, for instance, former editor of the Communist Daily Worker in Detroit, declaring that Soviet Russia is making preparations for a third world war to destroy the United States and establish a "world proletarian dictatorship." He explains that he would have revealed this information earlier if he had not agreed to "a year of silence," suggested by his church, before giving it to the world.

So what should Americans, whether in public or private life, do about it? First of all, keep our feet on the ground, and our tongues ready to question any such startling announcement.

Second, we may well remember that our own nation is immensely stronger than Russia, in present resources and preparedness. Third, that if we are worried about any future attack from Russia, a natural defense is to maintain adequate armed strength.

But perhaps the most effective and rational policy of all is to cultivate the acquaintance and friendship of the Russian people, instead of crediting every wild rumor and sounding wild alarms against them. There are some clear indications emerging that she would much rather be our friend than our enemy.

BEYOND REACHING.

WE WERE watching swallows in the sunset's afterglow. I said: "An airplane rises higher than birds can go."

Your word was so much wiser, You barely whispered word; "Still, stars are beyond reaching By airplane, bomb or bird."

—Earl Daniels in Florida Magazine of Verse.

SAWS WOOD, WRITES BOOK

The fact that he is totally blind hasn't prevented Monroe L. Fox, above, from maintaining a heavy work schedule. Owner of a dude ranch near Chamo, New Mexico, purchased through a Veterans Administration-approved loan, the ex-Seabee rider, saws wood, does carpentry work and has written a book. The blast from a Jap bomb blinded Fox on Iwo Jima.

BACK ACHE DUE TO KIDNEYS?

Read This! If excess acidity of your urine makes your back ache so you groan... so you get up three or four times a night to pass water, now be of good cheer. Three generations ago a famous doctor noticed that hundreds of his patients had this backache. He developed a medicine made of exactly the right amount of sixteen herbs, roots, vegetables, and balsams—truly Nature's own way to relief. Now millions have used it. The medicine is Dr. Kilmer's Swamp-Root. Instantly you take it, it starts to work flushing out those excess acids that may be causing your backache... increasing the flow of urine to help ease that burning sensation when you pass water... and that bladder irritation that makes you get up nights. Caution: take as directed. You'll say it's really marvelous. For free trial supply, send to Dept. U Kilmer & Co., Inc., Box 1155, Stamford Conn. Or—get full-sized bottle of Swamp-Root today at your druggist.

WEST TEXAS UTILITIES CO.

So he's an electric eel, so watt?

All right, then, he r-eel-y isn't an eel at all, if you want to be technical. His name's Electrophorus (Gymnotus) Electricus—Jim for short. He's a South American cousin of the carp and catfish. Maybe Jim does pack a wallop of 600 volts when he's hungry or annoyed (and he has a shocking temper)—BUT—

Can he wash 3 tubs of clothes!

Or tell the correct time for 4 days?

Or light a hundred-watt bulb for 3 hours —for a penny?

You bet he can't. He's not usefully eel-ctricified. Frankly, you'd better flip a switch if you want convenient, dependable electricity—all you need—at low cost.

And speaking of low cost—did you know that the average family is getting twice as much electricity for its money as it did 15 years ago? That's no accident—like Jim and his temperamental folks. Folks in this company have done a good job under sound business management. That's why your electric service is lower in cost—and higher in efficiency—than ever before.
