IT HAPPENED IN HOLLYWOOD-Long noted for seldom rec-

ognizing talent that virtually exists under their noses, moving picture studios have for many years employed the expensive and far flung "scout system" for discovering new actors and actresses for their productions. One studio did make a local discovery, but only after considerable expenditure in casting did the producers find what they were looking for in an employee that worked for them as film cutter and editor for four years. She is Alma Ruth MacRorie who, prior to being cast as a chubby housewife with five children, toiled daily in the highly specialized work of film cutter, upper left. Miss Mac-Rorie, born in Davenport, Iowa, received her first opportunity in "To Each His Own," on the set of which she talks with Director Leisen and Olivia DeHavilland, lower left. The favorable public reaction to Alma's portrayals, despite her previous lack of theater experience, caused the studio to cast her in a role with Bing Crosby. At right, the former Iowan receives the finishing touches to her costume for her part in "The Emperor's Waltz." Still employed as an editor of films, the Hollywood Cinderella enjoys the rare privilege of editing her own film, center, with a studio executive.

Be thankful-that's what Thanksgiving is for!

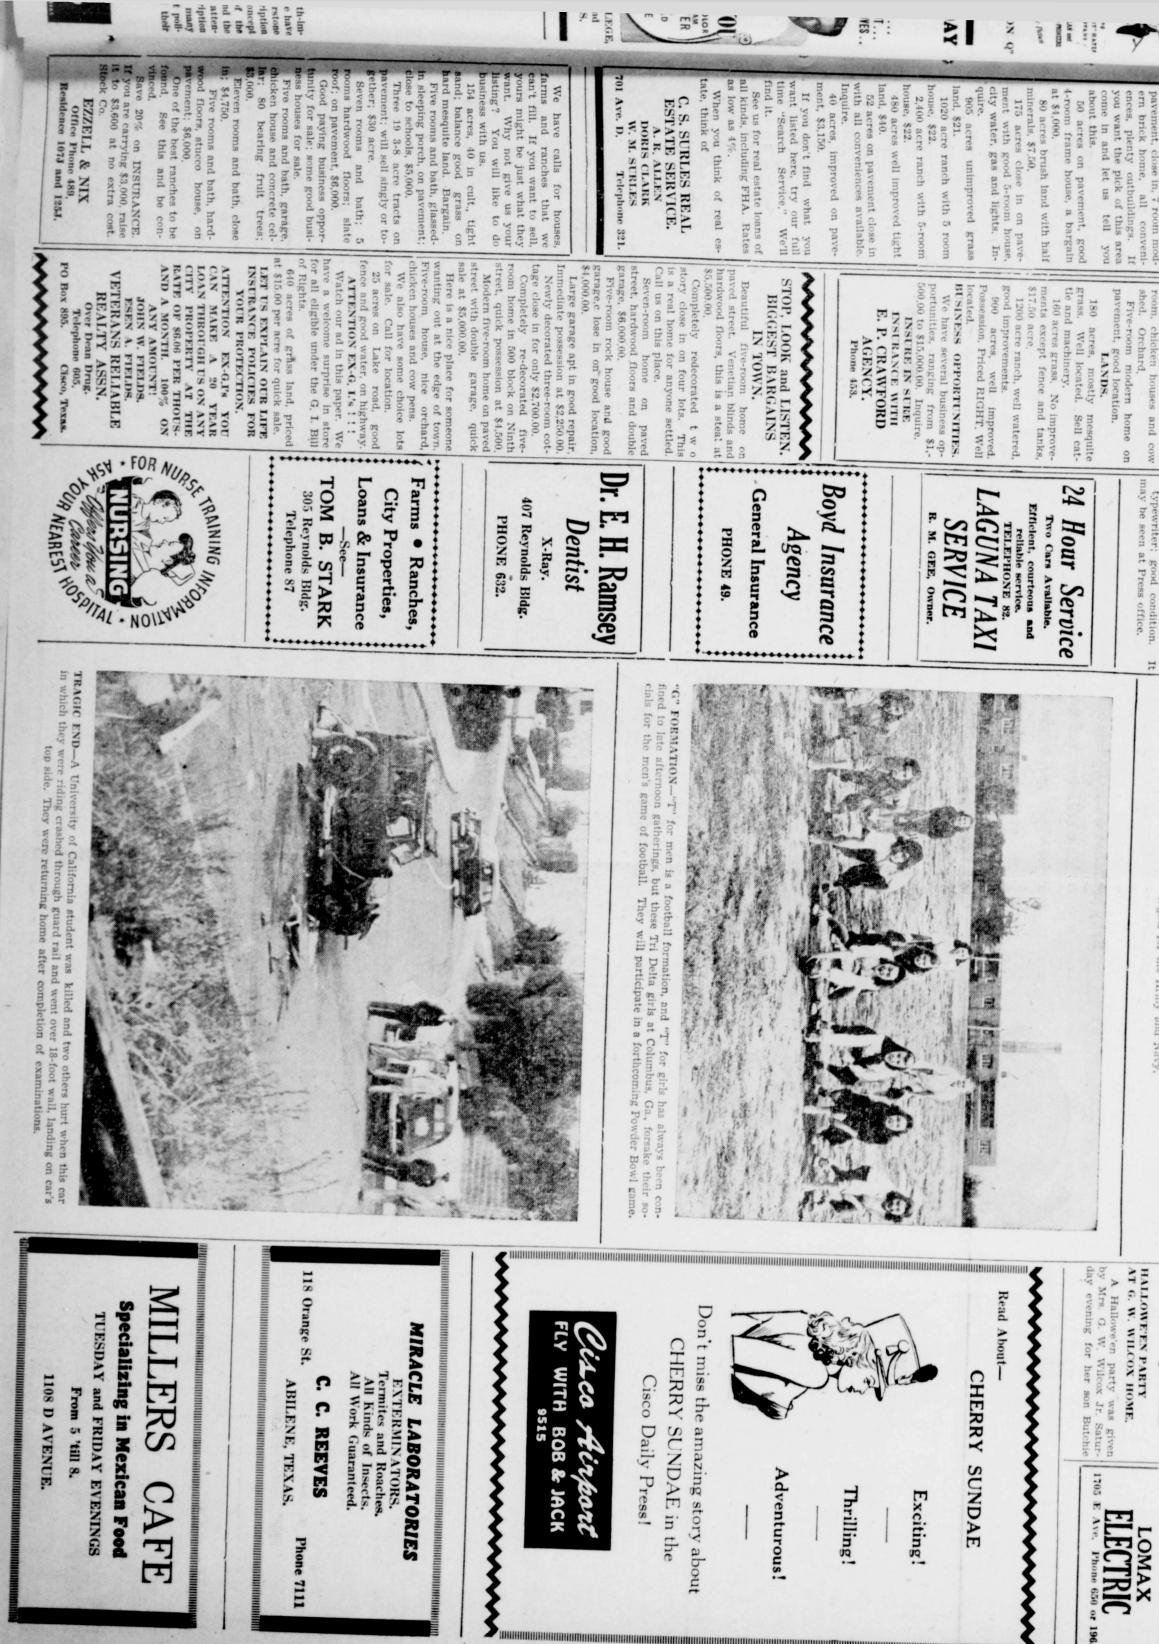

Then be prudent.

Ask yourself how many things you can count on being thankful for-ten years from now.
