## Wage and Salary Controls Junked; Rents, Sugar Left

### \$2,500,000 IN PEANUTS THIS YEAR

Eastland county peanut growers are harvesting what looks like a \$2,500,000 crop and, with continued good weather, they should have it in the bag within ten days. Estimates indicate there are 60,000 acres in peanuts this year as compared to 55,000 acres last year. The yield is placed at 15 bushels per acre. Price this year is \$170 per ton for number 1 grades, as compared to \$160 in 1945. Included in the estimated value of this year's crop, of course, is the peanut hay that is now being harvested.

County Agricultural Agent J. M. Cooper says the agricultural status of the county will be largely determined by the peanut crop. Close second to agriculture is the livestock industry, Cooper adds, which has been steadily increasing for the past several years. Especially is this true of sheep and goats.

### Food Stocks Low; Germans Are Too Weak to Fight

HEREFORD, Ger., Nov. 9. (U.P.)—The British Control Commission took "safety precautions" today as civilian food stocks dropped lower throughout the British occupation zone. A spokesman said no serious trouble was expected — because German civilians were too weak to fight.

By United Press.  
WASHINGTON, Nov. 9. — President Truman tonight junked all price controls except those on rents, sugar and rice. Wage and salary controls also were abandoned.

Effective at once, the action frees prices on such basic commodities as automobiles, building materials, coal, steel, rubber, clothing textiles and furniture.

Said the president— "The general control over prices and wages is justifiable only so long as it is an effective instrument against inflation. I am convinced that the time has come when these controls can serve no useful purpose.

"I am, indeed, convinced that their further continuance would do the nation's economy more harm than good."

Though rent was specifically exempted from the president's decontrol order, some OPA sources said privately the action jeopardized the future of firm ceilings on rent.

### DISCREDITED OPA PANTS BAD PICTURE

WASHINGTON, Nov. 9. (U.P.) — OPA officials tonight forecast price increases of 10 to 100 per cent on items decontrolled by President Truman.

One official said "basic commodities will go up a hell of a lot" with the release of controls, and will remain high until consumer resistance and increased supplies bring prices down. The price jump on such scarce building materials as lumber may be over 100 per cent, an OPA official said. He estimated that low-cost furniture, which is in great demand, will go as high as 25 per cent over ceiling.

Both OPA and housing officials believed scrapping controls on building materials would seriously hurt the veterans' housing program and do away with the \$10,000 ceiling on veterans' homes.

Other OPA estimates on price increases to result from decontrol are 12 to 15 per cent on automobiles and refrigerators, about 15 per cent on bedding, and about 10 per cent on stoves.

On soap "there is no limit on how high it can go" because of the acute shortage, an OPA spokesman said.

Other OPA estimates were that coal will go up 50 cents to \$1 a ton without a wage increase. A wage increase would mean a further boost and that would increase cost of steel, and later of autos.

One OPA spokesman said car radios, decontrolled last week, were up in some cases from \$40 to \$200 as a means of getting around OPA auto ceilings.

#### IT MUST BE CUT.

WASHINGTON, Nov. 9. — Taft-Knutson economy programs cause fear in War Department and Navy. Substantial budget cuts may kill threatened universal military training, could force reduction of thinly spread occupation forces in Europe and Asia. Army is asking additional \$350 million to finance occupation through rest of fiscal year; has no alternative but to present bigger budget when Congress convenes.

### Boy Scout Court Cisco Photo is of Honor at Pres-Cover Design N-ayterian Church tional Magazine

Guy T. Smith of the Brownwood Boy Scouts headquarters office, writes S. E. Hittson, scoutmaster of Cisco Troop 101, that he will be in Cisco Tuesday night for the Court of Honor and to show moving pictures of camp life at Camp Billy Gibbons.

The Court of Honor will be held at First Presbyterian church, Troop 101 sponsor, and the pictures will be shown following the Court of Honor program, Mr. Hittson stated.

Troop 101 is at present the only scout troop in Cisco. It has 46 members and Mr. Hittson has headed the organization for the past 11 years. He extends a cordial invitation to the general public to attend the services Tuesday night.

Mr. Hittson added: "A fair turnout of Cisco parents would greatly encourage the faithful troopers of 101 and might lead to the establishment of additional troops here. Cisco could and should have three active Boy Scout troops."

A color photograph of a grandson of Cynthia Ann Parker, taken on top of the Laguna Hotel in Cisco, forms the impressive cover design for The American Rifleman this month. The picture, a kodachrome of White Parker, who was visiting in Cisco in 1940 — the year the picture was taken — shows the nominal chief of the Comanche tribe in ceremonial war bonnet. It is a truly majestic representation of the kind of an American Indian who is rapidly vanishing from the scene except in wild western pictures and stories.

The kodachrome was taken by A. L. Osborn, Cisco photographer and owner of the Osborn Studios. For those who are interested in technicolor data the exposure was made with an Agfa 9x12 cm, in one-fiftieth of a second at f8.

Osborn sold the rights to the American Rifleman for an undisclosed figure.

### Citizens Invited Women of Legion to Attend Mission Services a Great Service

As part of the mission program of the Cisco Church of Christ, says Rev. G. S. Westbrook, pastor, missions are to be held in different parts of the city and surrounding territory.

The first of these, now in progress, will continue until November 14, inclusive, with the exception of Sunday night. Services each week night.

Through the courtesy of the Primitive Baptist church, arrangements have been made to use their building, which is located one block north of east ward school. Mr. Westbrook will do the preaching and the song service will be led by local talent.

Mr. Westbrook adds that "nothing but the Bible, devoid of all humanism, will be taught. Questions on Bible subjects are solicited. No collections will be taken and a big welcome will be extended to all, regardless of church faith." The minister further urges attendance by all with this statement:

"Friends, you have heard from others of the teaching of the Church of Christ. Why not come out and hear for yourself what we actually teach?"

Mrs. Charles D. Robart, membership chairman of the Cisco American Legion auxiliary, in soliciting new memberships for that body, offers the following:

"We offer you a membership in the auxiliary for these reasons:

"Because you are the mother, wife, sister or daughter of a man who has served America in war;

"Because you have experienced the pangs of anxiety for loved ones, the sacrifices and hardships which war brings to the families of the fighting men;

"Because these experiences have made you value more highly the things for which our men have fought — are fighting — America and all that it means;

"And because we know that you desire to continue to serve, in war and in the peace that is to come, with them, our fighting men, for America.

"That is why we are inviting you to become a member of the American Legion Auxiliary. The service of your son, husband, father or brother in the first or second world war, or your own war service, has made you eligible to membership. Your enrollment will give you part in the great work the Auxiliary is doing and the even greater work ahead."

DEDICATION—Impressive ceremonies, attended by State and local officials, marked the presentation of this first pre-fabricated home for a New Jersey veteran in Trenton. Keys to the home, built in nine days, are given to Mrs. Alexander Heyesey by Gov. Walter E. Edge while ex-GI Heyesey holds one of their children. Little Patricia Heyesey isn't perturbed at all as she coyly peers into the camera from porch step.

### Great Throng of Ciscoans Will Go to Ranger Monday

The Cisco Lobos and the Ranger Bulldogs will furnish the Armistice Day feature "in these parts" when they clash at Bulldog Field, Ranger, Monday afternoon at 2:30. Most of the business district of Cisco — if not all of it — will be closed tighter than the proverbial jug while the hewers of wood and the drawers of water follow the rejuvenated Lobos to the city of their ancient rivals for the conference battle.

Much more hangs upon this fray than meets the eye. For one thing it is a "counting" game, and the score will be written in the records of District 9-AA to please or plague the two teams.

For another, the game will determine whether the Lobos are honestly "up" or were merely on a binge when they met and conquered the Brownwood Lions to the amazement of the state, the joy of their followers and the profound

disgust of certain Brownwood fans — including some high-wattage experts of a certain little Radio Station who decorated the Cisco press box with snobbish self-assurances and open, pre-game wonderings why Cisco should even be allowed in Class 9-AA along with Brownwood.

Before the game was over they realized why Cisco is allowed there — or why Brownwood shouldn't be. But that moment of satisfaction may not extend beyond the game with Ranger next Monday, unless that game is taken a great deal more seriously by fans and players alike, it was warned. Ranger has the best punter and best end in the district, and a passing combination that even the high-flying Breckenridge Buckaroos admit can be costly.

Cisco fans who are driving to the game Monday were urged not to take "empty seats," but to fill their cars with others who may wish to go.

#### LOTS OF CASH.

AUSTIN, Nov. 9. — An all-time high mark was set for the state's general revenue fund at the close of business Friday when State Treasurer Jesse James announced it had \$40,532,005.

### Truman to Tell His Plans For Next 2 Years

WASHINGTON, Nov. 9. (U.P.) — President Truman plans on Monday to state the principles he will follow for the good of the country during the next two years in running the government in harmony with a Republican congress.

He is expected to express hopes for working in a non-partisan spirit with the Republican legislative majority and determination to put aside personal and political considerations in the interests of the general welfare.

Mr. Truman will make his statement of policy at a 10 a. m. news conference, Monday. White House spokesmen said it would be brief.

The statement will be Mr. Truman's first direct expression since Tuesday's election which swept the Republican party into control of house and senate and ended 13 years of absolute Democratic control of the national government.

### Reds Rolled Up 90,000 Votes for Mead in Bigtown

NEW YORK, Nov. 9. — The huge Republican gain in New York City left American Labor and Liberal parties holding the balance of power here more strongly than before and now the

CAVALRY ON PARADE—Escorted by the Second Squadron of the 51st Cavalry of the New York Guard, and the 321st Army Ground Forces Band, the International Military Teams of Mexico, Peru and the United States parade before the audience of the National Horse Show at Madison Square Garden, New York City, in opening performance of a week's run. The show was resumed after a five-year wartime lapse. First prize in the military jumping contest went to the Mexican representatives.

MILK LINE—Stalled in one of the heaviest early snow falls in Denver, Colorado, this milkman made his customers come to him. Here he dispenses the fluid to a rapidly lengthening line. The empties piled on the snow are result of his "no bottle, no milk" policy.

Music of the Church. One excuse most frequently offered in defense of mechanical music in the worship is, "John saw harps in heaven, in the book of Revelations. If they are to have them in heaven, why not in the church?" If that argument proves the right for mechanical music then it would also prove that we should have in the church, all other things John saw in heaven, such as, "Twenty-four elders, with crowns of gold" (Rev. 4:4); four beasts as described in Rev. 4:6-8; horses, with their riders (Rev. VI); the burning of incense, and many other things John saw in his vision. The truth is, these are symbols. John saw a VISION of these things. Things in a vision do not symbolize themselves, but rather something else. The "HARPS, and golden viols

I have oil lands for lease, ten miles northwest of Cisco, Section 468.

Proven territory -- good wells all around.

One well just north of this land a short distance, has not failed to produce at a steady flow for 16 years. The Lone Star has sold over a million dollars worth of oil from this well. A Lone Star man told me that.

Common sense tells us that the oil is under my land, too, and I am going to have a well put down to that pay, just as soon as possible.

Wherever there is a will, there is a way to do anything.

Any one interested may come and see me.

A few of us should get together, start a big drill and go to pay!
