### Attorney General to Investigate Missouri Primary

WASHINGTON, Nov. 19. (AP)—The House Campaign Expenditures Investigating committee today referred to Attorney General Tom Clark evidence indicating irregularities in the Missouri Democratic primary campaign between Rep. Roger C. Slaughter and Enos Axtell.

The campaign gained national attention when President Truman announced his support of Axtell. Axtell won the primary, but lost in the general election earlier this month.

**HUBBY WAS PEEVED.**  
OAKLAND, Calif., Nov. 19. — Mrs. Alpha Omega Layman held an interlocutory degree of divorce today from Jefferson David Layman, after she told the court her husband threw her downstairs and tossed her bed after her.

**AMATEUR**—Mary Snee, 18, left, one of more than 60 office-girls working in New York newspaper offices who entered the "Miss Page One" contest, smilingly receives congratulations, after being chosen winner, from Helen Fraser, one of the judges and head of the Barbizon modeling school.

ing officers estimate it will total about 60,000 and remain at this level for two or three years.

Choice of veterans for college classes, vocational schools and business courses compared to actual training on the job is about equally divided. The total figure of veterans in training includes 3,243 disabled men. VA says it has 619 veterans with disabilities in need of training but yet unplaced. Mr. Brown said that one of the many functions of his office was to assist veterans in making application for educational benefits, and he suggested that veterans interested in making application for institutional training, on-the-job training, or cooperative training, see Mr. Modisett when he comes to Cisco each Tuesday and Wednesday from 1 to 4 p. m. at the chamber of commerce, or come to the contact office at Eastland.

**MASONIC DEGREE WORK.**  
DALLAS, Nov. 19. — Degree work for more than 600 applicants for the Masonic Order will be taken during the ninety-fourth reunion here Nov. 25-28 of Dallas Scottish Rite Masons. The opening day will put the candidates through Dallas Lodge of Perfection with Oscar O. Touchstone presiding in the initial ceremony. Director General William A. Brown said degree teams from Tyler, Fort Worth and Wichita Falls would have charge of work on following days of the reunion.

**DEMONSTRATION** — Sally Rand poses behind an umbrella before entering a Los Angeles court where she performed her act before the judge. Sally's act was charged as indecent and immoral. Judge said it wasn't.

**LAND OF VIKINGS.**  
Norway is one of the delightful little countries of Europe. About the size of two of our average states, her population is only three million — half that of New York City. Manufacturing is growing in importance, but farming, lumbering, fishing, and shipping have been for generations the chief pursuits of Norwegians.

A parliament is elected by direct vote of the people every four years, and it constitutes the real authority of the nation. They have a king, who reigns but does not rule.

Next to the King, the speaker of the parliament is the highest official in the country. The fair-haired Norwegians are a strong, sturdy people, whose chief quality is individualism.

**"Labor" Party.**  
Communism invaded Norway at the end of World War I. A "labor" party was created by the Communists, but eventually most of its members went over to the "Socialist Democrats," now the leading party controlling more than half the 150 seats in parliament. Communists, as such, are now unable to elect a single member to parliament, but instead the Social Democrats represent what might be called the Norwegian "labor" party.

The extent to which Marxian philosophies have been made into harmful practice is evident when one examines the present state of the Norwegian industry. It is apparent that the early Communist influence did not just disappear in an assimilation into the leading labor party, despite the important factor of "individualism" in the Norwegian character. Communism remains like a hungry dog, strayed from Russia, and it is now eyeing the prosperous merchant fleet of Norway.

**Equalization.**  
The greatest private industry Norway has ever developed is her merchant marine that sails the seven seas, all out of proportion to the size of the country. This shipping industry has been the chief source of revenue for balancing the national budget and for obtaining essential foreign credit. It remains the backbone of Norwegian finance.

Present policies of the Socialist government, in an attempt to equalize everything for everybody, are seriously threatening this important industry. This is the pattern: It took 4,600,000 government dollars to subsidize the distribution of milk last year, therefore to meet the cost of this subsidy a 4,600,000 dollar tax was placed on the shipping industry because it had experienced a good year and appeared able to pay.

**Killing the Goose.**  
A reliable Norwegian informant told this story. The merchant marine lost many ships during the war, and although they were insured by Lloyd's of London it was impossible to transfer the money to Norway while the country was in the grip of the Germans. Accordingly the funds were held as credit in London. The present Socialist government now looks anxiously over the books of the shipping companies. If they conclude that a lost ship had quite paid for itself, they tax the company 85 per cent of the face of the insurance policy.

This extremely high tax on the shipping industry, plus virtual confiscation of insurance premiums on lost ships, threatens to reduce the industry to the detriment of the entire nation. This is a fine example of killing the goose to get more eggs immediately, but the production of golden eggs in the future is definitely threatened. I cannot help feeling that the source of this sort of thing in Norway was the stray dog influence of Communism. I found it the distinct opinion of those who have done most to create the wealth of Norway that the greatest present threat to progress now is monopoly and regimentation.

**By United Press.**  
WASHINGTON, Nov. 19.—United Mine Workers' boss, John L. Lewis, today ignored a federal court injunction ordering him to call off the soft coal walkout set for tomorrow midnight, and government officials reluctantly prepared a brown-out directive for the coal-burning eastern states.

With less than 36 hours remaining for compliance with the temporary injunction obtained yesterday by U. S. Attorney General Tom C. Clark, the burly mine leader gave no indication whether he would obey or defy the order.

A UMW spokesman said there would be no announcement today on what action Lewis intended to take, although he did not rule out the possibility of some move tonight. That left 24 hours or less for Lewis to make public his decision.

But upward of 72,000 miners — almost one-tenth of the UMW's bituminous members — already were idle and the wildcat strikes were spreading so rapidly observers feared soft coal production would come to a dead stop by Thursday morning.

Under the court order, Lewis must countermand the announcement he issued last Friday terminating at midnight Wednesday the wage contract he signed with the government on May 29.

**87,000 Miners Quit.**  
PITTSBURGH, Nov. 19. (AP)—Wildcat walkouts spread with mounting momentum through the soft coal fields of eight states today.

As the Wednesday midnight deadline set by AFL United Mine Workers for cancellation of its contract with the government neared, the intention of the rank-and-file of the men in the pits became clear.

A survey showed that more than 87,000 of the United Mine workers 400,000 members already had refused to work, despite the plea of the coal mines' administration that they stay on the job. The number of idle was more than double yesterday's figure.

The big fields of West Virginia were hard hit. Union officials estimated the number of mines idle at more than 25,000 and predicted the numbers would rise well above that when they had completed their checks.

### Former Eastland Co. Man Killed Saturday by Car

J. T. Hudgens, 81, who was run down and killed by an automobile at Houston early Saturday morning, was buried at Grandview Monday.

The aged man, who had visited relatives in Cisco about a month ago, had gone to Houston to visit his daughter, Mrs. Florence Chaney, who lives in the outskirts of that city. He had alighted from a bus and was walking to his daughter's home when he met death.

The body was badly mangled, more than one car having apparently run over the body. The accident occurred about 5 a. m., it was stated.

He was a retired farmer and was reared near Mangum, Eastland county.

Attending the funeral from Cisco were Mr. and Mrs. H. A. Carbery, Mrs. J. M. Land and Mr. and Mrs. Tom Smith. Mrs. Land is a sister, Mrs. Carbery a niece and Mrs. Smith a nephew of deceased. Mrs. Mary Craft, 304 E. Seventh street, Cisco, also a sister, was unable to attend the last rites for her brother because of her advanced age. She is 89.

### Head of Trainmen Pledges Fight to Hold Labor Gains

ATLANTIC CITY, N. J., Nov. 19. (AP)—The CIO convention today cheered the pledge of A. F. Whitney, president of the Brotherhood of Railroad Trainmen (IND), "to fight shoulder to shoulder with you" to resist an "ever-increasing attack on labor's hard-won rights."

In a bristling speech attacking reactionaries and the Truman Administration, Whitney urged the CIO on to militant wage action and more intensive political action.

**CISCO BOWLERS WON.**  
In a 10-pin contest at Ranger last night, Cisco kegmen defeated a Ranger team by 125 pins in the three-game session. Score: Cisco, 2,526; Ranger, 2,401. Ciscoans participating were Howard Lankford, F. Essl, R. A. Bearman, Tut Tabor and Francis Urban.

**DEFLATION** — Despite the demise of OPA and talk of prices going even higher, one national chain merchandiser cut his prices as much as 44 per cent. Here an employee replaces the old price list with one showing the decreases. Elias Lustig, president of Adam hat company, said hats would be reduced to "realistic prices."

**DISTINGUISHED VISITOR**—Paul Henri Spaak, Belgian Minister of Foreign Affairs and President of the United Nations General Assembly, feeds this grateful elephant at the Bronx Zoo in New York. The long snouted animal is a gift of the Belgian Congo.

**NON-STRIKER'S HOME BOMBED**—Mrs. William J. Saltis, wife of a non-striking motion picture studio machine shop foreman, inspects damage done to their home when a crude bomb exploded under bedroom window. This and another similar bombing in Los Angeles were ascribed by police to zoon squads.

### Vet Resolution 18 Safeway Store Startled Land-Meat Cutters Get Lord Convention Nice Wage Hikes

OKLAHOMA CITY, Nov. 19. (AP)—A strongly worded veterans' protest against rent strikes threw the National Apartment Owners' association convention into confusion for a time today on the eve of its scheduled afternoon vote on a call for a nationwide landlord strike.

An American Veterans' committee resolution read to the convention compared the landlords' strike with John L. Lewis' threat of a nationwide coal walkout.

**CHANGE OF NAME.**  
The name of the S. & R. Quality Feed Store, 1105 D avenue, has been changed to Smith Quality Feed Store, said H. M. Smith today. The change is due to the fact that C. O. Redwine has sold his interest to Mr. Smith and withdrawn from the business. Smith Quality Feed Store specializes in the well known Stanton quality feeds.

**MINER TO BE HANGED.**  
KEYSER, W. Va., Nov. 19.—A Davis, W. Va., strip miner, Mark McCauley, convicted of first degree murder in the fatal shooting of West Virginia State Police Sgt. Joseph Horne, was sentenced to be hanged.

FT. WORTH, Nov. 19. — A compromise contract, which was accepted Monday night and averted a strike this morning of union meat cutters in 18 Safeway stores here, will be signed later this week, and the same provision will be offered in separate contracts to about 40 independent retail dealers in Fort Worth.

It provides a pay increase of \$7.50 per week, rather than the \$10 sought, and a 52-hour work-week. Meat cutters had asked a reduction in the work-week from 54 to 50 hours.

Wage rate for journeymen will be \$57.50, and for market managers, \$62.50. A starting salary of \$30 per week is provided for apprentices, with semiannual pay raises of \$3.50 per week. Straight time for extra workers was pegged at \$1.10 per hour. The contract is retroactive to Nov. 1.

**GOLD T OCHINA.**  
VANCOUVER, Nov. 19. — The Canadian steamship Lake Atlin sailed last night for Shanghai, carrying a United States shipment of gold bullion valued at \$3,000,000. It is part of a loan to China and the largest such shipment ever to pass through this port.

### 1 Out of Every 5 N. Texas Veterans Now in College

James M. Brown Sr., contact representative in charge of the Eastland county VA contact office, which has jurisdiction over Eastland, Shackelford, Callahan and Stephens counties, said he had been informed by Tom R. Rayburn, regional manager of VA, that one out of every five veterans living in North Texas is now enrolled in college, training on the job or engaged in cooperative agriculture under the G. I. Bill.

Heavy October registrations of men and women entering training for the first time were reflected in totals which show 36,138 World War II veterans now receiving some educational benefit.

Based on best estimates, VA says it has 181,583 veterans in the 51 counties of the region eligible for training. The upward trend of veterans wanting schooling or job training is continuing. During October, 4,769 new applications for approval were received. The training and education division of the regional office pointed out that requests three months ago averaged about 1,850, predicted the educational peak would be reached about the middle of 1947. **AND ALL REDHEADS, TOO**—Bob Jensen, University of Wisconsin student, "dreamed up" the newly-organized League of Redheaded Women, and here the dream comes true. The league's first action was to protest Rita Hayworth's conversion to blond. The actress responded that change was only temporary.

SUGAR CONTROL DOESN'T HELP.

Government control of sugar, already more than five years old, has severely disrupted industries in the food processing field...

A recent bulletin of the National Preservers Association records that on October 1st almost one-half billion pounds of cold pack fruit were clogging storage houses...

The problem could be solved quickly if the government would turn its eyes homeward instead of so blindly overseas.

This year hundreds of thousands of tons of sugar were allocated for movement abroad.

Even Yugoslavia, who considers America its enemy, secured tens of thousands of tons of sugar through UNRRA this year with the approval and aid of our government.

Sugar has been dished out liberally to foreign nations who do not normally secure their supplies in the Western Hemisphere.

Surely we should open our hearts and our pocketbooks for the relief of famine wherever it exists. But let us do so sensibly. Let us not disrupt our own great industries by foreign beneficence beyond the point of good sense and security.

If the government feels that it must control sugar, let us control it to the benefit of American interests—not against them.

PREPARING TO BE OLD.

Life insurance statisticians claim that since 1900 the number of people 65 years old and over has increased 228 per cent...

If figures can talk, these say more clearly that people had better get ready to be old. One of the pleasantest attributes of old age, of course, is health.

SIMPLICITY.

Hugh Walpole, University of Chicago professor, went to war recently on the use of big words, holding that so-called "Basic English" can convey most thoughts.

Not only in language but in life, simplicity should be the aim. The person who has shed foggy thinking and eliminated scattered, use-less activities, goes far and accomplishes much.

EYE AND BRAIN.

THE EYE is like a camera lens. One focuses at will. Some always see that which is good.

The brain is like a roll of film. Each negative in place. And, after while, what one has seen is printed on his face.

PINCHED—Two freight cars, jumping the tracks in the industrial section of San Francisco, demolished several parked cars before coming to a halt on this unlucky coupe.

## Lewis Continues to Thumb His Nose at Federal Order

### Attorney General to Investigate Missouri Primary

WASHINGTON, Nov. 19. (U.P.)—The House Campaign Expenditures Investigating committee today referred to Attorney General Tom Clark evidence indicating irregularities in the Missouri Democratic primary campaign between Rep. Roger C. Slaughter and Enos Axtell.

The campaign gained national attention when President Truman announced his support of Axtell. Axtell won the primary, but lost in the general election earlier this month.

**HUBBY WAS PEEVED.**  
OAKLAND, Calif., Nov. 19.—Mrs. Alpha Omega Layman held an interlocutory degree of divorce today from Jefferson David Layman, after she told the court her husband threw her downstairs and tossed her bed after her.

DEMONSTRATION — Sally Rand poses behind an umbrella before entering a Los Angeles court where she performed her act before the judge. Sally's act was charged as indecent and immoral. Judge said it wasn't.

## 1 Out of Every 5 N. Texas Veterans Now in College

James M. Brown Sr., contact representative in charge of the Eastland county VA contact office, which has jurisdiction over Eastland, Shackelford, Callahan and Stephens counties, said he had been informed by Tom R. Rayburn, regional manager of VA, that one out of every five veterans living in North Texas is now enrolled in college, training on the job or engaged in cooperative agriculture under the G. I. Bill.

Heavy October registrations of men and women entering training for the first time were reflected in totals which show 36,138 World War II veterans now receiving some educational benefit.

Based on best estimates, VA says it has 181,583 veterans in the 51 counties of the region eligible for training. The upward trend of veterans wanting schooling or job training is continuing. During October, 4,769 new applications for approval were received. The training and education division of the regional office pointed out that requests three months ago averaged about 1,850, predicted the educational peak would be reached about the middle of 1947. Train-

ing officers estimate it will total about 60,000 and remain at this level for two or three years.

Choice of veterans for college classes, vocational schools and business courses compared to actual training on the job is about equally divided. The total figure of veterans in training includes 3,243 disabled men. VA says it has 619 veterans with disabilities in need of training but yet unplaced. Mr. Brown said that one of the many functions of his office was to assist veterans in making application for educational benefits, and he suggested that veterans interested in making application for institutional training, on-the-job training, or cooperative training, see Mr. Modisett when he comes to Cisco each Tuesday and Wednesday from 1 to 4 p. m. at the chamber of commerce, or come to the contact office at Eastland.

### MASONIC DEGREE WORK.

DALLAS, Nov. 19.—Degree work for more than 600 applicants for the Masonic Order will be taken during the ninety-fourth reunion here Nov. 25-28 of Dallas Scottish Rite Masons. The opening day will put the candidates through Dallas Lodge of Perfection with Oscar O. Touchstone presiding in the initial ceremony. Director General William A. Browning said degree teams from Tyler, Fort Worth and Wichita Falls would have charge of work on following days of the reunion.

AND ALL REDHEADS, TOO—Bob Jensen, University of Wisconsin student, "dreamed up" the newly-organized League of Redheaded Women, and here the dream comes true. The league's first action was to protest Rita Hayworth's conversion to blond. The actress responded that the change was only temporary.

**LAND OF VIKINGS.**  
Norway is one of the delightful little countries of Europe. About the size of two of our average states, her population is only three million — half that of New York City. Manufacturing is growing in importance, but farming, lumbering, fishing, and shipping have been for generations the chief pursuits of Norwegians.

A parliament is elected by direct vote of the people every four years, and it constitutes the real authority of the nation. They have a king, who reigns but does not rule. Next to the King, the speaker of the parliament is the highest official in the country. The fair-haired Norwegians are a strong, sturdy people, whose chief quality is individualism.

"Labor" Party.

Communism invaded Norway at the end of World War I. A "labor" party was created by the Communists, but eventually most of its members went over to the "Socialist Democrats," now the leading party controlling more than half the 150 seats in parliament. Communists, as such, are now unable to elect a single member to parliament, but instead the Social Democrats represent what might be called the Norwegian "labor" party.

The extent to which Marxian philosophies have been made into harmful practice is evident when one examines the present state of the Norwegian industry. It is apparent that the early Communist influence did not just disappear in an assimilation into the leading labor party, despite the important factor of "individualism" in the Norwegian character. Communism remains like a hungry dog, strayed from Russia, and it is now eyeing the prosperous merchant fleet of Norway.

Equalization.

The greatest private industry Norway has ever developed is her merchant marine that sails the seven seas, all out of proportion to the size of the country. This shipping industry has been the chief source of revenue for balancing the national budget and for obtaining essential foreign credit. It remains the backbone of Norwegian finance.

Present policies of the Socialist government, in an attempt to equalize everything for everybody, are seriously threatening this important industry. This is the pattern: It took 4,600,000 government dollars to subsidize the distribution of milk last year, therefore to meet the cost of this subsidy a 1,600,000 dollar tax was placed on the shipping industry because it had experienced a good year and appeared able to pay.

Killing the Goose.

A reliable Norwegian informant told this story. The merchant marine lost many ships during the war, and although they were insured by Lloyd's of London it was impossible to transfer the money to Norway while the country was in the grip of the Germans. Accordingly the funds were held as credit in London. The present Socialist government now looks anxiously over the books of the shipping companies. If they conclude that a lost ship had quite paid for itself, they tax the company 85 per cent of the face of the insurance policy.

This extremely high tax on the shipping industry, plus virtual confiscation of insurance premiums on lost ships, threatens to reduce the industry to the detriment of the entire nation. This is a fine example of killing the goose to get more eggs immediately, but the production of golden eggs in the future is definitely threatened. I cannot help feeling that the source of this sort of thing in Norway was the stray dog influence of Communism. I found it the distinct opinion of those who have done most to create the wealth of Norway that the greatest present threat to progress now is monopoly and regimentation.

By United Press.  
WASHINGTON, Nov. 19.—United Mine Workers' boss, John L. Lewis, today ignored a federal court injunction ordering him to call off the soft coal walkout for tomorrow midnight, and government officials reluctantly prepared a brown-out directive for the coal-burning eastern states.

With less than 36 hours remaining for compliance with the temporary injunction obtained yesterday by U. S. Attorney General Tom C. Clark, the burly mine leader gave no indication whether he would obey or defy the order.

A UMW spokesman said there would be no announcement today on what action Lewis intended to take, although he did not rule out the possibility of some move tonight. That left 24 hours or less for Lewis to make public his decision.

But upward of 72,000 miners — almost one-tenth of the UMW's bituminous members — already were idle and the wildcat strikes were spreading so rapidly observers feared soft coal production would come to a dead stop by Thursday morning.

Under the court order, Lewis must countermand the announcement he issued last Friday terminating at midnight Wednesday the wage contract he signed with the government on May 29.

### 87,000 Miners Quit.

PITTSBURGH, Nov. 19. (U.P.)—Wildcat walkouts spread with mounting momentum through the soft coal fields of eight states today.

As the Wednesday midnight deadline set by AFL United Mine Workers for cancellation of its contract with the government neared, the intention of the rank-and-file of the men in the pits became clear.

A survey showed that more than 87,000 of the United Mine workers 400,000 members already had refused to work, despite the plea of the coal mines' administration that they stay on the job. The number of idle was more than double yesterday's figure.

The big fields of West Virginia were hard hit. Union officials estimated the number of mines idle at more than 25,000 and predicted the numbers would rise well above that when they had completed their checks.

## Former Eastland Co. Man Killed Saturday by Car

J. T. Hudgens, 81, who was run down and killed by an automobile at Houston early Saturday morning, was buried at Grandview Monday.

The aged man, who had visited relatives in Cisco about a month ago, had gone to Houston to visit his daughter, Mrs. Florence Chaney, who lives in the outskirts of that city. He had alighted from a bus and was walking to his daughter's home when he met death.

The body was badly mangled, more than one car having apparently run over the body. The accident occurred about 5 a. m., it was stated.

He was a retired farmer and was reared near Mangum, Eastland county.

Attending the funeral from Cisco were Mr. and Mrs. H. A. Carberry, Mrs. J. M. Land and Mr. and Mrs. Tom Smith. Mrs. Land is a sister, Mrs. Carberry a niece and Mr. Smith a nephew of deceased. Mrs. Mary Craft, 304 E. Seventh street, Cisco, also a sister, was unable to attend the last rites for her brother because of her advanced age. She is 89.

## Head of Trainmen Pledges Fight to Hold Labor Gains

ATLANTIC CITY, N. J., Nov. 19. (U.P.)—The CIO convention today cheered the pledge of A. F. Whitney, president of the Brotherhood of Railroad Trainmen (IND) "to fight shoulder to shoulder with you" to resist an "ever-increasing attack on labor's hard-won rights."

In a bristling speech attacking reactionaries and the Truman Administration, Whitney urged the CIO on to militant wage action and more intensive political action.

### CISCO BOWLERS WON.

In a 10-pin contest at Ranger last night, Cisco bowlers defeated a Ranger team by 125 pins in the three-game session. Score: Cisco, 2,526; Ranger, 2,401. Ciscoans participating were Howard Lankford, F. Essl, R. A. Bearman, Tut Tabor and Francis Urban.

DEFLATION — Despite the demise of OPA and talk of prices going even higher, one national chain merchandiser cut his prices as much as 44 per cent. Here an employee replaces the old price list with one showing the decreases. Elias Lustig, president of Adam hat company, said hats would be reduced to "realistic prices."

### MINER TO BE HANGED.

NON-STRIKER'S HOME BOMBED — Mrs. William J. Saltis, wife of a non-striking motion picture studio machine shop foreman, inspects damage done to their home when a crude bomb exploded under bedroom window. This and another similar bombing in Los Angeles were ascribed by police to goon squads.

## Vet Resolution 18 Safeway Store Startled Land-Meat Cutters Get lord Convention Nice Wage Hikes

OKLAHOMA CITY, Nov. 19. (U.P.)—A strongly worded veterans' protest against rent strikes threw the National Apartment Owners' association convention into confusion for a time today on the eve of its scheduled afternoon vote on a call for a nationwide landlord strike.

An American Veterans' committee resolution read to the convention compared the landlords' strike with John L. Lewis' threat of a nationwide coal walkout.

### CHANGE OF NAME.

The name of the S. & R. Quality Feed Store, 1105 D avenue, has been changed to Smith Quality Feed Store, said H. M. Smith today. The change is due to the fact that C. O. Redwine has sold his interest to Mr. Smith and withdrawn from the business. Smith Quality Feed Store specializes in the well known Stanton quality feeds.

### GOLD T OCHINA.

VANCOUVER, Nov. 19.—The Canadian steamship Lake Atlin sailed last night for Shanghai, carrying a United States shipment of gold bullion valued at \$3,000,000. It is part of a loan to China and the largest such shipment ever to pass through this port.

FT. WORTH, Nov. 19.—A compromise contract, which was accepted Monday night and averted a strike this morning of union meat cutters in 18 Safeway stores here, will be signed later this week, and the same provision will be offered in separate contracts to about 40 independent retail dealers in Fort Worth.

It provides a pay increase of \$7.50 per week, rather than the \$10 sought, and a 52-hour work-week. Meat cutters had asked a reduction in the work-week from 54 to 50 hours.

Wage rate for journeymen will be \$57.50, and for market managers, \$62.50. A starting salary of \$30 per week is provided for apprentices, with semiannual pay raises of \$3.50 per week. Straight time for extra workers was pegged at \$1.10 per hour. The contract is retroactive to Nov. 1.
