PITTSBURG, Dec. 4, (UP)—A rail freight embargo, ordered for Friday as a result of the continued strike of soft-coal miners, shook American industry today.

Mills and factories, already hampered by coal shortages, scheduled drastic cutbacks as the result of the imminent shipping tie up.

Estimates of unemployment resulting from strike-induced curtailments ranged as high as 2,000,000 within 10 days.

The automobile industry will be hard hit and may be forced to lay off 500,000 workers soon.

STUDENT LOAN FUND.

AUSTIN, Dec. 4.—Establishment of a noninterest-bearing short-term loan fund of \$100 for the benefit of Latin-American students attending the University of Texas is announced by members of the Austin Pan-American Round Table. It is the first such fund ever to be inaugurated for foreign students on the campus.

UNIONISTS RELAX.

OAKLAND, Calif., Dec. 4, (UP)—Leaders of a mass walkout of 100,000 AFL members which tied up this populated area of more than 1,000,000 persons for two days agreed today to relax the blockade on foodstuffs and gasoline and permit reopening of downtown restaurants.

COURTHOUSE DAMAGED.

ASPERMONT, Dec. 4.—Fire of undetermined origin early today did about \$5,000 damage to the Stonewall county courthouse here.

WASHINGTON, Dec. 4.—Judge T. Alan Goldsborough today fined the United Mine Workers -- AFL -- \$3,500,000 and John L. Lewis \$10,000 for refusing to call off the national coal strike.

Goldsborough in a stormy exchange with an openly defiant Lewis declared that the coal strike was "an evil, a monstrous thing."

To Lewis, who a moment before had challenged him to impose any fine he saw fit, the judge asserted that the strike "means hunger, cold and destitution."

"It is," he declared, "a threat to democratic government itself."

The fines assessed by Goldsborough were in punishment of Lewis and the union for refusing his court order of Nov. 18 to cancel the walkout of 400,000 soft coal miners pending judicial determination of legal issues involved.

The \$3,500,000 fine against the union represented an assessment of \$250,000 a day for the 14 full days the defendants have been in contempt. The amount of the fine was what the government recommended.

The government recommended against a jail sentence for Lewis "at this time."

Assistant Attorney General John S. Sonnett said a jail term might set up a "further obstacle" to resumption of coal production. He apparently meant Lewis should be left free to negotiate.

Lewis and the UMW attorneys denounced the government and its recommendations. Lewis told the court before sentence was passed that he had a salary and two homes, at Alexandria, Va., and Springfield, Ill.

"Aside from that," he shouted at Goldsborough, "I have nothing but enough money to pay expenses. As far as I am concerned, don't let that deter you from fining me any amount."

The judge warned the thundering Lewis not to place himself in contempt.

"I've been adjudged in contempt of court," Lewis shot back, referring to the fact Goldsborough had pronounced him guilty yesterday.

"Yes," Goldsborough retorted, "but there are other kinds of contempt."

"You have my statement, sir," Lewis snapped.

OVERSTAPPED ITSELF.

LAKE SUCCESS, N. Y., Dec. 4, (UP)—Sen. Tom Connally, D. Tex., charged today that the Senate War Investigating committee "overstepped its prerogatives" in making public the findings of George Meader, its chief counsel, on conditions in the U. S. Zone of occupation in Germany. Any investigation of occupation conditions should be made by the Foreign Relations committee, Connally said.

Texas Baptists to Merchants, Home Establish 4-Year Owners, Can't Be School, Beeville Too Fire-Cautious

DALLAS, Dec. 4.—The Texas Baptist General Convention executive board voted Tuesday to lease a 1,060-acre tract of land five miles from Beeville, Bee county, as the site of a four-year college and to spend \$350,000 for building improvements.

At a meeting in the Baptist Building the board agreed to lease the tract, a former Navy auxiliary base, from the city of Beeville for \$1 a year with approval of the United States Navy. The building appropriation will be used to improve the 104 structures on the tract, most of which are wooden.

The new college will be a branch of one of the existing Baptist schools in the state, the group decided. They appointed a holding committee headed by George Mason of Dallas to determine the affiliation of the school and to administer the interests.

In another action, the board unanimously granted a \$175,000 reserve fund to begin operation of a Baptist FM religious radio network in the state. The Rev. R. Alton Reed of Dallas, radio committee chairman, said \$215,000 would be needed to operate the network through 1951 and that fourteen cities had applied for stations in the network which will have headquarters in Dallas. The Federal Communications Commission must approve franchise, and operation cannot be expected to begin for at least a year, he said.

The various stations will be financed locally. Dr. Reed said. The board also empowered Dr. J. Howard Williams, executive secretary, and the executive committee to set up a radio department within the Texas convention.

Clint Britain, Cisco fire marshal recognizing that Christmas festivities are frequently accompanied by deplorable fires, requests the cooperation of all merchants and home owners in arranging yuletide decorations.

Mr. Britain said he had already inspected a number of business places and found that the decorations were hung in places that caused them to be classified as fire hazards.

Proper care, it is reminded, will do much to prevent possible fire tragedies in Cisco during the approaching holiday season.

Probably at no time in the history of America has the need for fire caution been greater than during this Christmas period.

TEXAS HEREFORD WON.

WANTS MORE POWER.

OAKLAND, Calif., Dec. 4.—An aroused mayor, declaring "the city of Oakland is not going back to the jungle," demanded drastic emergency powers today to cope with an expanding mass "protest" walkout of organized labor which has kept Oakland tied up since 5 a. m. yesterday.

NO WAR TOYS.

War toys are out for Christmas 1946. The children don't want them. Instead of tanks, guns and torpedo boats, they prefer scooters and tricycles of aluminum, games, trucks, trailers and railroad cars. Miniature American Indians, too, are going to be popular again. A British toy manufacturer is in this country with samples of toys produced in his one-time munitions factory at Bristol. After the first toys were made in the reconverted factory, he invited the children of the factory personnel to a party. Displaying the various toys, the factory people soon learned which appealed to children, and adjusted their program accordingly.

Toy manufacturers in this country believe American children also are weary of war toys. This can be viewed only as a most encouraging trend toward peace. It is a matter of great importance, for a child's play activities mold him. It is to be hoped that adults, who often, it must be admitted, pick toys more from their own interest than that of the child recipient, can be induced to follow child preferences, and give peace-time toys this Christmas.

WHAT WILL BE SAVED?

Americans are going to have an income of 175 billion in 1947, or ten billion more than they had this year, according to the Bureau of Agricultural Economics. And they're going to spend much of it on manufactured goods which are to be increasingly available, according to these studies.

When a person sees income figures like that, it does bring a warm glow, doesn't it? Now if some one can come along and tell everybody how to save some of this, for future investment and old age comfort, that would add the hues of the rainbow.

POPULAR PLAYBOY.

The late Jimmy Walker, former mayor of New York, was a playboy in politics. He was the kind of official that many cities like—a general wisecracking soul, frequenting night clubs and sanctioning a wide-open town. His popularity was increased by the song he wrote, "Will you love me in December as you did in May?" So graft-ridden was his administration that in 1932, after three years in office, he was brought to trial before Gov. Franklin D. Roosevelt. So many scandals were revealed that he resigned rather than wait to be removed.

At that he was better than his predecessor, the late John F. Hylan, an ignorant and bumptious man under whom crookedness flourished even more than under the intelligent Walker. Hylan, however, had a following, largely built up by William R. Hearst. It took a popular man to beat him in the primaries, and Walker filled the bill.

Back-stage Behind the Curtains...
... in every organized business, large or small, there is a mass of preparation, works kill, experience and expense before any thought can be given to profits from the finished product. For example, the cost of typing a 100-page abstract is a trifle compared to that of assembling, classifying and posting the records day after day in preparation for your next order. The abstract, therefore, can't be cheap like dirt, but always there is the element of safety and a saving in including it in every real estate transaction.

Sports, entertainment and travel opportunities are highly developed in this division's area. Luxurious hotels, theaters, swimming facilities, tennis clubs and ball parks provide more choice of pastime than is enjoyed by the average civilian at home... and at no extra cost to you!

High overseas pay [20% above domestic base pay], excellent medical and dental care, good food and lodging and a generous retirement plan make this opportunity too good to miss.

Young men who can meet prescribed standards, and who enlist for 3 years, are entitled to designate the 6th Infantry Division at time of enlistment. Initial training given before departure from U. S. Full details at U. S. Army Recruiting Station—
