## Commercial Aviation Has Its Worst 7-Day Period

### Long overdue Winter Has Finally Reached Texas

By United Press. Light snow was falling Saturday night over most of Nebraska, Western Kansas and Northern Missouri, swirled by strong northerly winds which will bring "near-blizzard" conditions to those states, with the mercury ranging around zero by Sunday morning.

Government weather observers said a blanket of snow will cover Nebraska, Western Kansas, Northern Missouri and Northwest Oklahoma Sunday. The cold wave was expected to hit Texas late Saturday night, tumbling temperatures in the Panhandle to 16 or lower. It will be cold and rainy in most of the state Sunday.

HOLIDAY GREETINGS FROM USO—USO Camp shows entertainer Lucille Bramel, Covington, Ky., blows "horn" for a New Year of GI entertainment. Lee Davis, Danville, Va., holds the 1947 schedule of shows destined to be seen by occupation forces in the Pacific areas.

### Cisco Former Lobbies to Play Exes of Weatherford

Cisco Ex-Lobbies will play their third post-season football game Sunday afternoon at 2 o'clock, January 5, when they meet the Weatherford Exes at Weatherford. It was announced following a conference between representatives of the two clubs Friday.

The Weatherford representatives gave the Cisco team a guarantee of \$300. Tickets will be on sale here Wednesday or Thursday. Eligibility rules will approximate those recognized in the Cisco-Breckenridge series which ended with Cisco and Breckenridge splitting victories. Any player who has played in college within the last two years will not be permitted to play.

Weatherford was represented in the conference here by J. L. Waldrip and Ray Turner. Cisco was represented by Charles Sandler, J. R. Deen, Lee Guthrie, Paul Moseley, J. Williams and Spec Tompkins. Proceeds of the game will be given to the Lobo band, as was the case with the Breckenridge games.

### Community Chest Checks May Be Mailed in Now

Although the annual drive for funds for Cisco's Community Chest will start sometime in January, it has been suggested that individuals or firms might wish to subscribe at this time, in order that such donations may be deducted from income tax reports.

In any event, it is announced that checks may be made out and mailed to J. W. Slaughter, Cisco, Texas, immediately or before January 1.

It is reminded that contributions to the Community Chest help support the Boy Scouts, Girl Scouts, the City Welfare association and other local service organizations.

WASHINGTON, Dec. 28.—It looks to many observers here that the Case bill will become law in 1947 whether Truman signs it or not; as if Wagner Act will be amended giving labor unions more responsibilities, employers more rights. Taft will be brake on attempts to pass drastic anti-labor legislation. Ban on closed shop will not pass, though efforts may be made to stop industry-wide bargaining.

### 40,000 People Saw British Princess Odessa Defeat Jefferson, 21 to 14 for Man She Loves

AUSTIN, Dec. 28. (U.P.)—A precision football machine wearing the colors of Odessa High School, pounded its way to its first state schoolboy championship in the 27-year history of the Texas Interscholastic league today with a thrilling 21-14 victory over Jefferson High School of San Antonio.

A crowd of 40,000 saw two of the greatest offensive teams ever to enter the finals battle down to the last minute with the outcome still in doubt.

Byron Townsend spearheaded the Odessa attack, surging for one touchdown in the second and picking up two more in the third to give West Texas its sixth title.

Sparked by Kyle Rote, Jefferson rolled two scores in the second and third, but couldn't get a tying or winning score across.

WASHINGTON, Dec. 28.—New year looks better, from this point, than 1946. As its outlines begin to emerge, this is what we see: 1947 will be year of declining prices, year that scarcities end—except scarcity of houses.

Rents probably will rise; auto prices probably will stand still; but other living cost items are due to start down.

Women's clothes will be among first to drop. Food should go down considerably. Land values will drop. Housing-material shortages soon will be thing of past.

There'll be fewer strikes, maybe no big ones. Wage increases are about at end. They'll be no more than 10 per cent, maybe less, in big industries.

By United Press.

A total of 114 persons were killed in a series of crashes around the world during Christmas week, one of the most disastrous seven-day periods in the history of commercial aviation.

Fourteen died Saturday in two separate crashes and others were injured so seriously they may die.

The TWA Transatlantic liner Star of Cairo — bound for New York — crashed on an island in the Fergus river, in Eire. Twelve were killed.

At Michigan City, Ind., an American Airlines ship crashed in a flower garden. The pilot and co-pilot were killed and 19 others injured.

The week's biggest toll of life was taken at Shanghai, China, on Christmas Eve, when three planes crashed in fog trying to land. Sixty-seven persons were killed.

### If He Legislates Like He Talks, He Will Merit Crown

WASHINGTON, Dec. 28. (U.P.)—Rep. Clarence J. Brown, Missouri Republican, tonight advocated congressional action to bar aliens and disloyal Americans from holding high offices in trade unions.

"There is no reason for a non-citizen to be head of an American trade union," Brown said. "It is even more important that organizations of such tremendous importance to our nation be headed by citizens of unquestioned loyalty."

Brown, a contender for the house Republican leadership, said he would support legislation requiring union leaders to take a loyalty oath.

### SOCIALIZED MEDICINE

DALLAS, Dec. 28.—The government's expanding program of medical care for veterans is leading to universal socialized medicine, Edwin T. Mitchell, University of Texas professor, told the Southwestern Philosophical Conference here, which ended its session here today, that as soon as the GI need is met, medical service will be extended to the families of ex-servicemen, thus ultimately reaching about 80,000,000 persons.

### '47 to Be Year of Declining Prices and Fewer Strikes

WASHINGTON, Dec. 28.—New year looks better, from this point, than 1946. As its outlines begin to emerge, this is what we see: 1947 will be year of declining prices, year that scarcities end—except scarcity of houses.

Rents probably will rise; auto prices probably will stand still; but other living cost items are due to start down.

There'll be fewer strikes, maybe no big ones. Wage increases are about at end. They'll be no more than 10 per cent, maybe less, in big industries.

### KEEP THEM OUT

DALLAS, Dec. 28.—Police Chief Carl Hanson said today a big-time Chicago syndicate operating from coast to coast, recently blocked in its attempt to get a Dallas gambling monopoly, has succeeded in entering the liquor and slot machine business in the city. The police chief, in a report to the new Dallas Crime Commission, described the syndicate as a reactivation of the old Al Capone gang in Chicago.

BEER LIMIT IMPOSED—Lester Landrus, 45, four-foot six-inch midget, and his wife appear before a Chicago judge following Landrus' arrest on a drunken driving charge. Landrus was fined \$10 by Judge Michael Tremko, who also set a limit to the midget's drinking, six to eight beers—short ones. Bailiff stands at right.

### First Large Scale Showing Wearing Apparel Since War

DALLAS, Dec. 28.—Made-in-Dallas fashions, Hollywood celebrities, Frankie Master's big-name band and a dinner will share billing at an elaborate entertainment announced for January 21 in the Adolphus Hotel by the Dallas Fashion Group, regional organization of the New York Fashion Group, Inc.

Called "March of Fashions for the March of Dixie," the program will be staged for the benefit of the National Foundation for Infantile Paralysis. Net profits from the sale of \$12.50 per person tickets will go to the foundation's work.

Reservations have already been made by many of the Southwest's buyers, who will be in the Dallas fashion market for the January openings, and by the public. This will be the first large-scale showing of men's, women's and children's apparel manufactured in

the Southwest's biggest fashion market since Pearl Harbor.

The Fashion Group, which has no connection with the manufacturers association although its members are women who are executives in various retail, wholesale, promotional and other fashion fields, will dramatize their recognition of the increased style prestige of the Dallas market by awarding "the Dallas Alice," a trophy for the best costume designed by a Dallas house. Judges will include editors of the nation's top fashion magazines who, along with the movie star notables, will be guests of honor at the dinner-dance and fashion show.

Mr. and Mrs. P. W. Campbell of Abilene stopped in Cisco last night for a steak dinner at the Savoy while enroute home from a ten-day trip to Fayette, Miss., his old home, where they visited his sister and enjoyed Mississippi batter cakes and corn syrup to satiety. They also visited their daughter Mrs. M. B. White and their two grandchildren at Jackson, Miss. The trip was made by car and via Longview—a total of 1,270 miles for the journey from and to Abilene.

LAKE SUCCESS, Dec. 28. (U.P.)—Russia, in a dramatic plea for speed, today asked the United Nations Security Council to work out a detailed disarmament program within three months.

One or two months would be even better, said Soviet Delegate Andrei Gromyko.

Gromyko, who has boycotted recent UN talks on controlling atomic weapons, again seized the initiative on disarmament by proposing that the Security Council plunge immediately into the task of outlawing all types of weapons for mass destruction.

### HEAVY CUT UNLIKELY

WASHINGTON, Dec. 28.—There will be some reduction in taxes next year but don't look for anything as sweeping as 20 per cent across-board cut promised by Rep. Knutson and Republican steering committee.

WASHINGTON, Dec. 28.—New year looks better, from this point, than 1946. As its outlines begin to emerge, this is what we see: 1947 will be year of declining prices, year that scarcities end—except scarcity of houses.

## ROLE OF THE MERCHANT.

Authorities on retailing have observed that a very considerable segment of the American population has little understanding of what retail merchants have done to limit price increases—and have a misconception of the merchant's role in the distribution machine. The fact that such activities as "buyers' strikes" are usually directed at the merchant, is one proof of this.

The attitude of merchants toward the public was well demonstrated in the early days of the war, before rationed OPA controls were imposed. Stores were simply requested to hold the price line in spite of shortages, increasing demand and the decline in normal competitive measures. The vast majority of stores, chain and independent alike, complied, and price boosts were limited to the absolute minimum.

Since the virtual demise of OPA, the stores have been in an exceedingly difficult position. Heavy and inevitable price increases occurred in most manufactured and agricultural products—the result of higher wages, material costs, etc. The merchant has had no choice—he has to raise his prices if he is to survive. But it should be known that most stores have voluntarily adopted the policy of limiting these increases as much as possible. In many cases they have reduced their narrow margin of profit in order to protect the consumer's dollar, to the best of their ability.

The store, like any business, cannot escape the economic conditions of the times.

## FOR TWO CENTS.

The American investor, who provides the tools that make possible all production and employment in this country, works for a modest wage. That is the story told in a recent advertisement by the New York Stock Exchange.

For two cents, the advertisement reads, "I'll invest my surplus funds in securities... and share in the ownership, the risks and the rewards of American industry."

This may not be precisely what the investor says, or even thinks, but it is what he does.

For slightly less than two cents out of the corporate income dollar (U. S. Department of Commerce figures for 1945), the American investor provides industry with the funds needed to create jobs and produce goods.

The ability of industry to obtain funds on such a basis is a striking indication of our people's faith in business efficiency of their confidence in the future of our business enterprise.

The backbone of American industry is the man with some money to invest who is willing to take a chance on American enterprise, American labor, American productive genius. Out of that spirit comes our world economic preeminence. The investor, earning his two cents on the dollar, is worthy of his hire.

December, 1920  
(Cisco Daily News Files)

Judge George L. Davenport of the Ninety-first Judicial district has given out the following statement relative to the term of district court which began at Eastland yesterday:

The December term of the 91st district court which convened Monday, December 4, was the third term of the new court since its organization. Assignments have been made for the term and can be procured at the office of the district clerk. In addition to the cases assigned in the printed assignments, other cases, both jury and non-jury, may be set by agreement of the parties. The appearance docket for the new term will be called on Tuesday, December 7, at which time all preliminary motions, etc., will be heard.

There are already assigned for this term of court 343 cases.

The cases are assigned numerically and will be disposed of as they are reached. All parties and attorneys interested will be expected to inform themselves as to assignment of cases and be ready when cases are reached. Unless there is an appearance or meritorious agreement between parties at

interest, cases will be dismissed by order of the court. This somewhat harsh rule is found to be necessary on account of the crowded condition of the docket.

For the term ending this week, 162 civil cases and eleven criminal cases have been disposed of. A great many of the civil cases were dismissed by the court for want of prosecution.

The entire divorce docket, consisting of 99 cases, is set for Saturday, December 11, at which time disposition will be made of the cases as they are reached. This does not include cases on the appearance docket.

Mrs. A. R. Schmitt, Formerly Miss Marilyn Shertzer.

Miss Marilyn Shertzer, daughter of Mrs. John Shertzer, became the bride of Anthony R. Schmitt at 7 o'clock last night at the Shertzer home on College Hill, Cisco. The wedding ceremony was performed by Father R. F. Wilson of Houston. Violin music was played by Misses Rose Ann Woods and Miss Gloria Graham, with Miss Martha June Morehart furnishing the piano accompaniment, as Marion Pearl Damon of Putnam, cousin of the bride, entered and lighted the candles.

The bride chose a traditional wedding gown, of satin, designed with closely molded bodice, full skirt and train of Calais type lace. The deep neckline featured lapels of satin and her long tulle sleeves of lace tapered to points over her hands. Her veil of imported bridal illusion fell finger tip length from a calot embroidered in crystal beading. She carried a white orchid surrounded by lilies of the valley.

Her only attendant, Mrs. T. G. Caudle, her sister, wore a dinner type gown of white faille designed with deep plunged neckline, cap sleeves and full flared skirt. She carried American Beauty roses.

John Schmitt of Houston served his brother as best man.

The bride attended Stephen's College, Columbia, Mo., after graduating from Cisco high school. She is now attending Southern Methodist University, where she expects to obtain her degree in

June. The groom received his degree from the University of Houston in 1943, after which he served in the medical corps. He is now attending Baylor University college of dentistry from which he will graduate in March.
