NUMBER 48

A NEW GUEST puts on the feed bag at the National Zoological Park in Washington, D.C. The animal, first gazelle ever to inhabit the zoo, was sent to the U.S., from Arabia. Here the newcomer daintily nibbles at food held by James A. McDowell, a zoo attendant.

## December, 1920

(Cisco Daily News Files)

The Mexican, C. Gomez, who for some time, with a cart, has been laboring at cleaning D avenue, is certainly one of his race who is appreciated in Cisco.

He is an untiring worker, never minds the clock, reports every morning at 3:30 to the desk sergeant who is in charge at the city hall at night, and goes to his work. He never stops until he gets the street cleaned. Recently he made a trip to Mexico to see his family and brought back with him his son, a bright boy, the remainder of the family staying in Mexico for the present. The business men along D avenue appreciate his work so much that they desired to show their appreciation of it and City Attorney Forrest D. Wright and City Health Officer J. W. Gregory to day received quite a large contribution from these business men for Gomez' Christmas. They purchased for him a heavy coat, trousers, shirt, cap, boots, a complete outfit and had a substantial balance of money left to give to him. So much is his work appreciated that many of the merchants insisted on contributing more than would have been their pro rata share of the amount desired to be raised.

Secretary Sam W. Fowlkes, of the Chamber of Commerce, said today they were anxious to receive

answers to the questionnaires sent out, one having gone to each member. The directors are desirous of getting a full and free expression from all the members as to what is important for the body to take up. The request going with the questionnaire is as follows: Fellow Member: We desire the help and suggestions of all our members in formulating plans for our 1921 activities. Please fill out the enclosed questionnaire and return to us at once, so that we can make up our "program of work" from the answers received. This is an important matter; please give it your careful consideration and let us have your answer as soon as possible.

CHAMBER OF COMMERCE. Mr. Fowlkes says he hopes to have these all in by the end of the year, as then will be the time for making plans and mapping out the year's work. There are two questions asked: "What do you think the most important thing for the Chamber of Commerce to undertake for the good of Cisco?" and "What would you have the Chamber of Commerce undertake which you feel would be of most benefit to your own business?"

### VETS DISAPPOINTED.

HOUSTON, Tex., Jan. 10. (U.P.)—They said they would never line up for anything after the big show was over, but 2,000 veterans formed a good old service line to buy 173 air force watches at a special government surplus sale. Most of the veterans went away disappointed at not being able to buy one of the \$45 surplus watches being sold for \$14.

# Ball Bill Threatens Collective Bargaining Setup

## Desire for Two Parties in Texas Seems Widespread

DALLAS, Jan. 10. — A state-wide campaign to make Texas a two-party political state by 1948 was launched here yesterday at a meeting of Republican leaders.

The Republican Club of Texas, an organization independent of the official party leadership, was formed to carry out an ambitious program that will stem from the precincts.

Capt. J. F. Lucey, Dallas businessman and prominent in national Republican affairs, was named chairman of the club.

Active Republican groups will be formed in every precinct of every county in Texas in an attempt to wrest from the Democrats their political monopoly in Texas, Lucey said after the organization session at Hotel Adolphus.

Headquarters of the state-wide movement, which Lucey said would start immediately, will be in Dallas.

"Leading men and women in every walk of life in Texas have constantly voiced the opinion that this state needs a two-party system if the processes and principles of democracy are to be maintained," he declared.

"During the last four years, four traditionally Democratic southern states have thrown off the brass collar of the one-party system. They have achieved this through the activities of groups similar to ours."

Marrs McLean of San Antonio, elected a vice-president of the club said success of the two-party movement was necessary to counteract "the propaganda of the Political Action Committee of the CIO and its much-heralded Operation Dixie."

## BONEY RECEIVES RARE RECOGNITION

Bruce C. Boney, pastor of Cisco First Presbyterian church from about 1926-31 and active in Eastland county Rotary and musical circles, has received rare recognition since he left Cisco, both as a Presbyterian minister and as a Rotarian. He is now business manager of Arkansas College and is devoting his entire time to a campaign designed to raise a half million dollars for that institution.

The Batesville (Ark.) Daily News has the following to say of the former Ciscoan:

"Through the Rotary club of which he is a member, the Daily News has learned that Dr. Bruce C. Boney, business manager of Arkansas College, has been included in the 1947 edition of 'Biographical Encyclopedia of the World,' a book listing men of today who are outstanding in their chosen business or profession. Other books of lesser scope in which he is or has been listed are 'Who's Who in the Clergy,' 'Religious Leaders in America,' 'International Rotary Leaders,' and 'Who's Who in the Western Hemisphere'—the latter a recognition-listing of those most signally contributing to the solidarity of the Americas.

"Dr. Boney is by birth a North Carolinian, by adoption a midwesterner. He is a graduate of Park College, with a bachelor of divinity degree from Union Seminary of Richmond (Va.). He has done post-graduate work in San Francisco Theological Seminary and more than the equivalent of a master degree in Texas Christian University. Post-graduate study in Europe, Asia, and Africa (including study in the Holy Land) has resulted in two trips around the world for him. Arkansas College conferred the doctor of divinity degree upon him in 1935. In World War I he enlisted as a private and was discharged at its termination as a motor transport captain in the reserves.

"As a Presbyterian minister he has served four pastorates since 1922 (graduation time): North Fort Worth and Cisco, Texas, Warren, Arkansas and Jackson, Missouri. He has served each of his presbyteries as moderator and committee chairman, the Synod of Missouri as committee chairman, and the Synod of Arkansas as moderator (1936). He was a member of the Board of Trustees of Arkansas College for nine years, and a member of the board of directors of Vera Lloyd Presbyterian Home for twelve years. He twice served Synod's Young People as conference director, and has repeatedly directed the music and taught courses and served as speaker in the conferences.

"In civic circles Dr. Boney has been honored with the presidency of three Rotary clubs, served the 138th District of Rotary as governor (1941-42), traveled over the mid-western area as lecturer and after-dinner speaker, and has been listed in Rotary's Speakers' Bureau in International headquarters. He was commissioner of scouting in Texas, and since 1919 has served the American Legion as post chaplain, post commander and department chaplain (Arkansas) (1936-37). He presided over Warren Lodge (Masonic) as master in 1943.

"His speaking engagements have taken him to every section of the United States. Since coming to Arkansas College in September he has been constantly traveling and speaking on the Half-Million-Dollar Campaign for a Greater Ar-

By United Press.

WASHINGTON, Jan. 10. — A bill to break up industry-wide collective bargaining a keystone policy of the CIO and the United Mine Workers —AFL—was introduced today by Sen. Joseph H. Ball, R., Minn.

Ball's proposal would limit a union contract to a single "labor market area" not over 100 miles in extent.

The major CIO steel and automobile unions and John L. Lewis' mine workers would be hit hardest by the proposal. They were sure to raise strong protests.

Many other basic industries would be forced to revise bargaining procedures. The bill would exempt only companies and unions covered by the Railway Labor Act.

Ball said his bill was designed to "prevent monopolistic concentration of bargaining power."

WASHINGTON, Jan. 10. (U.P.)—President Truman warned today that the government's agricultural policies need overhauling to meet the threat of slackening postwar markets for U. S. farm products. In his 1948 budget, Mr. Truman recommended expenditures of \$1,810,000 for agriculture and agricultural resources. This compares with an estimated \$1,117,000,000 being spent during the current fiscal year and only \$752,000,000 in fiscal 1946.

### PRESIDENT WARNS.

WASHINGTON, Jan. 10. (U.P.)—President Truman warned today that the government's agricultural policies need overhauling to meet the threat of slackening postwar markets for U. S. farm products. In his 1948 budget, Mr. Truman recommended expenditures of \$1,810,000 for agriculture and agricultural resources. This compares with an estimated \$1,117,000,000 being spent during the current fiscal year and only \$752,000,000 in fiscal 1946.

### RUSSIA ON THE JOB.

WASHINGTON, Jan. 10. (U.P.)—Soviet Foreign Minister V. M. Molotov asked Norway in 1941 to share with Soviet Russia a sovereignty and administration of Spitzbergen — Arctic island north of Norway — and to cede to her outlying strategically located Bear Island in the same area, it was learned today.

### NEED THREE YEARS.

WASHINGTON, Jan. 10. (U.P.)—Brig. Gen. William H. Draper, R., economic director of U. S. forces in Germany, said today the combined British-American zone of Germany can become self-sufficient in three years.

### CREATING U. S. HATRED.

CLEVELAND, Jan. 10. (U.P.)—Dr. Ezequiel Padilla, former foreign minister of Mexico, charged today that Communists were "using all their power to create hatred in Latin America against the United States." Addressing a banquet meeting in connection with the 21st annual institute of the Cleveland council on world affairs, Padilla voiced a resounding plea for a "universal community of nations" and said that "to face the challenge of communism, which promises economic security at the price of freedom, democracy must answer with freedom and security."

## British Shiver as Power Dwindles in Coal Crisis

By EDWIN ROTH  
U.P. Staff Correspondent.

LONDON, Jan. 10. (U.P.)—The winter's first cold days have brought nation-wide electricity cuts affecting millions of people in a desperate government effort to have Britain's critically short coal.

Lights went out in homes and shops, machines in factories came to a standstill for something as long as an hour at a stretch, street cars and trolley buses stopped and trains were delayed.

Many persons had to walk to work and some shops carried on by candlelight — a sight not seen here since electricity supplies were interrupted by air raids.

"There is every likelihood that these power cuts will continue throughout the winter," an official of the ministry of fuel and power told United Press. The man in the street, shivering in the cold, buying himself a pair of candles and waiting for the radio to tell him his electricity would be cut next, was not exactly buoyed up by newspaper editorials which could be summoned up in the phrase: "You ain't seen nothing yet."

It was bad enough last winter, but, according to the latest available official figures there are now only 692,600 men working in Britain's mines, as against 696,200 at the same time last year and 792,552 in 1938. At the beginning of November, the latest time for which official figures are available, Britain's coal stocks were 10,890,000 tons.

Months of warnings, generally accepted as the prologue to worse discomforts, came as the climax of months of warnings by cabinet ministers, official exhortations to factories to cut down their fuel consumption, radio and screen propaganda to "Save Fuel" and persistent appeals to miners to work harder and longer and to increase the country's vital coal output.

As early as last summer the railways of this, Europe's richest coal country, were instructed to convert 1,200 locomotives to oil instead of coal. At the same time a suggestion was made to a large number of industrial plants to make a similar changeover.

But in October Emanuel Shinwell, the minister of fuel and power, admitted that this conversion was a disappointment. Only one-

## Junior Senator GOP Heads Say Says Dooley Is Truman Budget Obnoxious to Him Is Extravagant

WASHINGTON, Jan. 10. — Senator W. Lee O'Daniel said yesterday he would fight "to the limit" President Truman's nomination of Joe B. Dooley of Amarillo to be United States District Judge for the Northern District of Texas.

O'Daniel said he would go before the Senate judiciary committee to oppose Dooley's appointment on the ground that it was personally obnoxious to him.

Dooley, a close personal friend of Gov.-elect Beauford H. Jester, is Senator Tom Connally's choice to succeed retiring Judge James C. Wilson.

Presidential nomination of Dooley was sent to the Senate Wednesday, and was referred to the judiciary committee.

O'Daniel had submitted the names of Frank Culver and Atwood McDonald of Fort Worth for the judgeship vacated by Wilson by retirement. He had previously said he would oppose the appointment of anyone other than his choice maintaining that patronage in Texas was all being distributed through Connally.

The junior senator and Louisiana senators successfully opposed the late President Roosevelt's nomination of James V. Allred for a place on the United States Circuit Court of Appeals at New Orleans after O'Daniel defeated Allred in the 1942 Democratic primaries in Texas.

Other Texans nominated by the President Wednesday included:

M. Frank Hammond, reappointed as United States Marshal for the Southern District.

Douglas W. McGregor of Houston, to be assistant to the Attorney General. McGregor also is serving under a recess appointment.

Jack B. Neathery of Farmersville, Cliver E. Glidden of Venus, Johnson County; Samuel A. McIlhenny Jr. of San Antonio, James C. Powell Jr. of Fort Davis and Henry G. Krausse of Brownsville as Consuls.

William L. Bwester of El Paso as Vice-consul.

WASHINGTON, Jan. 10. (U.P.)—Republican congressional leaders challenged President Truman's \$37,500,000,000 budget today, saying it was extravagant and put too heavy a burden on the taxpayer.

They served immediate notice that they intended knocking \$3,000,000,000 to \$4,000,000,000 from the administration's 1947-48 spending plans and reduce income taxes as they promised in the November election campaign.

Sharp criticism of Mr. Truman's budget came from nearly all the GOP congressmen who control the Senate and House taxation and appropriation committees.

Democratic leaders for the most part were cautiously silent but were getting ready for their first big fight of the new session.

Chairman John Taber, R., N. Y., of the House Appropriations committee, charged that the president and his advisers had juggled figures to conceal hundreds of millions of dollars in planned spending.

He said a quick examination showed three "concealed" items in the navy budget and that of the rural electrification administration which added up to \$375,000,000 and which were not shown in the president's totals.

Taber added that he was convinced he could lop \$585,000,000 off the army's \$6,073,000,000 outlay for 1948 and a thorough study probably would uncover many other openings for economy.

### BRECK BOWLERS LOST.

Cisco Lumber & Supply company bowlers went to Breckenridge last night and defeated the McDowell Chevrolet company team of that city by 92 pins. High single game score, 243, went to Loudoney of Breckenridge. McDonald of Cisco scored 224 in his first game. Score in detail:

Cisco Lumber & Supply—  
Tut Tabor ..... 161 161 161—483  
Bud Essl ..... 123 199 169—491  
F. Urban ..... 157 166 157—480  
H. Lankford ..... 183 162 182—527  
Lee McDonald ..... 224 191 168—583

### SAVES MONEY, TIME.

CHICAGO, Jan. 10. (U.P.)—Nearly everyone whose teeth have been pulled can begin using false teeth immediately, it is reported in the January issue of the Journal of the American Dental Association. "The practice of placing artificial dentures immediately after the removal of the last tooth or teeth is a procedure which is definitely increasing in popularity," he wrote.

HOTEL FIRE IN QUEBEC—Two women were killed when fire swept this tiny Mount Royal Hotel in Quebec. Here firemen battle smoke and flames that destroyed the five-story building, which was occupied by 30 roomers at time of fire. Neighboring houses were severely damaged.

SNOW AND COLDER—HO, HUM—Chicago's four-inch snowfall and the accompanying cold snap which added greatly to the discomfort of the Windy City's citizens inspire only boredom in these two Bengal tigers who inhabit Chicago's zoo.

THE CISCO DAILY PRESS

Consolidated with Cisco Daily News and Cisco American and Round-Up, November, 1937.

Entered as Second Class Matter December 11, 1934, at the post office at Cisco, Texas, under Act of March 3, 1879.

POWERFUL JUDGES.

There is some talk in Washington, stirred up by David Lawrence, of a term-limit for Federal judges, including those of the Supreme Court. It is believed by some lawyers and legislators that recent decisions in a few courts reflect an irresponsible spirit which may be laid to the fact that too great a sense of security is felt by the judges, and that the passage of legislation designed to set a definite term, with possible reappointment by the President, might be one way of improving this situation.

It is necessary for the people to have confidence in their courts, and to believe that decisions are governed by a strict interpretation of the law, rather than by political expediency. This is true of all courts, but perhaps it shows more plainly in the case of the highest ones.

The theory of security of tenure is that, by removing from a judge the necessity of running for election he is set free from all considerations save those of interpreting law. But all human institutions need to be reconsidered at intervals. Perhaps people should think about judicial tenure a little.

B. W. Patterson Attorney-at-Law 502-03 Exchange Bldg., Eastland, Texas

Pete Rumley.

PNEUMONIA PREVENTIVE.

Two "men in white," Dr. Colin M. McLeod of New York University, and Dr. Michael Heidelberger of Columbia University, who have been engaged in research on the subject since 1941, have perfected a vaccine which is said to immunize against lobar pneumonia for six months or more.

This vaccine will be especially valuable in preventing epidemics of this deadly form of pneumonia in large groups of people who work together or who live in institutions. Further research is to be made in the hope of developing the substance so as to make it effective against other forms of pneumonia, also.

While the world was at war, selfless research went on which may save thousands of valuable lives.

BILL COMES BACK.

Pure Shakespeare is being played again, after three centuries. Over and over through the intervening years the greatest of all dramatists and poets and masters of human nature has come and gone, but he always returns. And at last he comes in a form which not only reproduces the veritable Elizabethan drama, but puts him on the movie screen as if Puck himself were doing the job.

What a pity that the great playwright and poet cannot rise to see how it is done! He would love every detail of the operation, and probably would feel very much at home.

ONE BIG REASON we're glad to be in the newspaper business...

THERE ARE hundreds of reasons why we are proud to be newspaper men. But of all of them, nothing can match the pride we take in the young men who daily deliver our product to you. Almost unique is this business in that respect. Here created is a job that allows a young school age boy to earn his own way... to know early in life the thrill of providing for himself, to a degree, and to actually accomplish something worthwhile with his own brain and energy.

AND NO EASY job is this that these young men of tomorrow tackle. Yet they seem to thrive on it. As a rule, they are the athletes of their school, the conscientious workers at their studies, the young men who are least delinquent in any phase of their lives. And, as a rule, these boys are the men to whom, in a few years, employers will be turning for workers who do the job and do it well. These boys are proud of their jobs. Some of them will go on in the newspaper business. Others will go into business and finance. Still others will become skilled technicians and laborers. Why are they the cream of the crop? Simply because they have learned early in life, as no other boys can, the important lesson that by serving well they themselves profit well.

## BRIEFLY TOLD

Born, to Mr. and Mrs. Robin Rominger of Breckenridge in a hospital in Fort Worth, January 1, a son — John Richard, weight eight pounds and four ounces. The babe is a grandson of Mrs. G. R. Whitney of Breckenridge.

Rev. Otis Strickland, Shobal Houston, A. F. Ashenbust, G. A. Epler, Jay Richardson, Scott New, C. W. Reed, Algie Skiles, Truman Taylor, R. H. Williams, Frank Ratliff Jr., Alfred Anderson and Tim Akers attended the brotherhood meeting of Cisco Baptist association Thursday night at Eastland.

Mr. and Mrs. Alan Withee and children returned to San Antonio Wednesday following a visit in Cisco with her parents Dr. and Mrs. N. A. Brown.

R. D. Brown, son of Mr. and Mrs. George Brown of Putnam, visited there with his parents and

land in the home of Mrs. Sledge's parents. They returned to Cisco Thursday.

Mrs. W. E. Dean visited her parents at Hico a few days this week.

Mr. and Mrs. Roy Brown and children of Magnolia, Ark., and Mr. and Mrs. R. E. Waters and son George of Mineola, Tex., were recent guests in the home of Mrs. Stella Wilson. Mrs. Brown and Mrs. Waters are daughters of Mrs. Wilson.

Mr. and Mrs. H. H. Davis visited in Fort Worth Wednesday with their daughter and son-in-law Mr. and Mrs. Monroe Harrelson.

Mrs. Randolph Lee Clark returned this week from Fort Worth where she has been visiting her daughter Mrs. J. B. Lovejoy and her son Joe A. Clark and family. Mrs. Clark was joined in the home of her son on Christmas day by her sister Mrs. R. Q. Blakney of Dallas and her cousin Judge Carr of Mobile, Ala.

John Hart of Eastland and Nute Hart of the county were Cisco visitors today.

Alva L. Clark of the X-Ray barbershop is now a patient at Graham Sanitarium. The Press was

informed today that Mr. Clark's condition is not regarded as dangerous and that he expects to be back at his place of business within a week.

Mr. and Mrs. Glen Hightower and children have returned from Chickasha, Okla., where they visited relatives.

Mr. and Mrs. James Huddleston and children of Byrds spent the past weekend in Cisco where they visited her mother Mrs. Spurgeon B. Parks and other relatives.

Mrs. J. H. Hyatt is home from Wichita Falls where she accompanied her son-in-law and daughter Mr. and Mrs. Norman Bailey after they had visited here during the holidays.

John Peters stopped in Cisco for a weekend visit with his sister Mrs. M. E. Sadberry and other relatives. He was enroute to his home at Lubbock from DeLeon.

where he was called to attend the funerals of Misses Della and Cora Walls, car wreck victims. The wreck occurred near Baird.

Mr. and Mrs. Sam Kimmell went to Dallas today to visit her brother John I. Chesley of Tyler, who is a patient in a Dallas hospital.

Ernest Farmer of Littlefield was transacting business in Cisco this week and while here called at the Daily Press office.

Mr. and Mrs. Kyle Pringle and daughter Pat of Beaumont were overnight guests Thursday in the home of her uncle and aunt, Mr. and Mrs. H. H. Harrelson. They were enroute to Rising Star where his father J. J. Pringle was to be buried today. Interment was made in Rising Star cemetery beside his wife, who preceded him in death several years ago. Deceased who made his home with his son and wife at Beaumont, passed away early Tuesday. Those attending the obsequies from Cisco were Mr. and Mrs. H. H. Harrelson, Mrs. F. J. Harrelson and Miss Jean Harrelson.

### WHAT CAUSES EPILEPSY?

### KIDNEYS GETTING YOU UP NIGHTS?

If you get up nights—have frequent desire to pass your water—but have only scanty passages—yes, and have backache due to excess acidity in the urine, be glad you're reading this:

Three generations ago Dr. Kilmer, a famous doctor, found hundreds of his patients with this trouble. Painstakingly he made a medicine of 16 herbs, roots, vegetables, balsams—Nature's own way to relief. He called it "Swamp-Root" and millions of grateful men and women have taken it—often with amazing results. Swamp-Root goes right to work to flush out kidneys—increases the flow of urine, helping to relieve excess acidity—so the irritated bladder gets a good flushing out, too. Many report getting a good night's sleep after the first few doses. Caution: take as directed. For free trial supply, send to Dept. S, Kilmer & Co., Inc., Box 1255, Stamford, Conn. Or—get full-sized bottle of Swamp-Root today at your drugstore.

CHARMING, JUST CHARMING—As plans for University of Wisconsin's annual "Haresfoot Follies" got under way, self-appreciative player Franklin Wallin, of Grand Rapids, Mich., practices posing under critical eye of co-ed Harriet Minton.

**WEST TEXAS UTILITIES CO.**  
**Friendly Folks KEEP PORCH LIGHTS BURNING**  
**IT'S Safer TOO!**

Look up and down any street tonight—many of the most attractive homes in daytime are now dark and uninviting after nightfall.

Turn on the porch light and even the most modest homes stand out as the most charming and gracious in the neighborhood. Where the light is burning you feel that a cordial greeting awaits, that hospitable folks are inside, and that friends are always welcome.

Maybe you haven't been conscious of the friendly significance of that beckoning light. Drive out tonight and feel the difference when you pass the lighted homes.

For one month—two hours nightly—you can display this outdoor sign of friendship for about the price of one-half pack of cigarettes. Surprisingly cheap, isn't it?
