## Gop Tariff Unity Hurt By Vandenberg and Millikin

### Gardenhire Thinks Cisco Should Try City Manager Plan

Van Gardenhire, owner of Gardenhire Petroleum company and a thirty-third degree Ciscoan, told the Daily Press today to put him on the side of those favoring the city manager form of government. Continuing, Mr. Gardenhire said: "Cisco must keep pressing forward and we should be ready and willing to try any system or plan of government that might advance the interests of business men and property owners."

REV. W. F. MILLER (above), missionary to Japan and Korea, will be the special speaker at a revival to be held at the Church of the Nazarene, February 11 to 23. Mr. Miller is said to have walked 5,500 miles in Japan, the trip resulting in more than 1,000 conversions.

WASHINGTON, Feb. 7. (U.P.) Republican party unity was shaken on the controversial tariff issue today, when two powerful GOP senate leaders laid down a compromise proposal which would shield the administrations low-tariff, reciprocal trade program from congressional attack for another year.

### Dooley Likely Be Approved as Texas Federal Judge

WASHINGTON, Feb. 7. (U.P.) Approval of Joe B. Dooley to be federal judge for the northern district of Texas by the senate judiciary committee appeared likely today. Chairman Alexander Wiley, R. Wis., said after listening to several Texas lawyers praise Dooley that no evidence had been submitted "impeaching the character, qualifications or integrity of the nominee."

RUSHING THE SEASON—Dressed for warmth even though the temperature soared to a record high of 55.8, these New York City youngsters, Priscilla Weinlandt, four, left, and Louise Blohm, three, enjoy themselves in the sandpit at Washington Square Park.

### Stassen Does Not favor Abolishment of Closed Shop

WASHINGTON, Feb. 7. — Presidential aspirant Harold E. Stassen and his one-time political protegee, Sen. Joseph H. Ball, R. Minn., accused each other today of sponsoring "too drastic" labor reforms.

Sen. W. Lee O'Daniel, D. Tex., charged, however, that Dooley was a tool of the "railroads and big corporations." He said Dooley was "personally obnoxious" to him.

SHORT AND SWEET—Louise Snyder, actress, doesn't seem to mind the winter breezes as she gets ready to heave a snowball. Photo was taken as a gag and with "props" when New York temperatures soared to springtime degrees.

Stassen, former governor of Minnesota and candidate for the Republican 1948 presidential nomination, also got into an argument with Chairman Robert A. Taft of the senate labor committee.

Taft, who has presidential hopes of his own, disagreed with Stassen over the merits of a strike vote proposal.

Stassen presented to the committee a broad program to end labor "abuses," but opposed legislation by Ball to abolish the closed shop and industry-wide collective bargaining.

Another argument over proposals to ban the closed shop broke out at a house labor committee hearing when Rep. Francis Case, R. S. D., suggested that a federal prohibition would be unconstitutional.

Case, author of a house labor bill which also is before the senate in modified form, urged that congress legislate authority to the states to enact closed shop measures. That is what his bill proposes.

### Marshall Sees No Disarmament Ere Peace Agreement

WASHINGTON, Feb. 7. (U.P.) Secretary of State George C. Marshall told his first press conference today that there could be no disarmament until the problems of international peace are settled.

"It is difficult to see how there can be any real disarmament or substantial reduction of armaments until the problems and maintenance of international peace have been solved," he said. Marshall's first news conference as secretary of state was crowded with more than 100 reporters — twice the normal number. He began by making a long statement on general policy and then discussed at length various specific pending foreign policy problems.

### HANNEGAN FOR HARRY.

NEW YORK, Feb. 7. — Robert E. Hannegan, Democratic national chairman, has named his favorite for the 1948 Democratic nomination for president—President Harry S. Truman. "The people of America have learned that Harry Truman wears well," Hannegan said last night in an address which he said tossed the president's hat into the ring for the 1948 race.

### DOG KILLS TOT.

PHILADELPHIA, Feb. 7. — A huge German police dog attacked a group of small boys building a snowman today and chewed the head off one four-year-old tot.

"MIRACLE ARM"—Doris Faust demonstrates at the Orthopedic Surgeons' convention in Chicago, how the hand of a new artificial arm can hold playing cards. The new mechanical hand is said to have a life-like appearance, deft touch, and vise-like grip.

### 85 Pct. of Students Solo For Hiway Banquet at the First Time

The fall semester of the Veterans' flying program at Cisco Municipal Airport has just been completed, with over 85 percent of the students soloing for the first time. It is a credit to the veterans that they have advanced so rapidly, as for many of them their first lesson was their first ride in an airplane.

All of the student were enrolled at Cisco Junior College and must therefore limit their flying to their spare time.

The spring semester will start February 17, and from all indications the class will be much larger than last semester. Most of the veterans have expressed a desire to continue flying and many more have joined the rolls.

The following students, 13 in number, were on the fall semester roll and will continue flying through the next semester:

- Clyde J. Alsop, George Burnette, Martin C. Cleveland, John B. Curtis, Walter L. R. Dolgener, Harmon S. Elder, Lee E. Guthrie, Donald R. McEachern, J. J. Robertson, Tom E. Smith, Melvin W. Stokes, Ira T. Taylor, Jack O. Wilkenson, Richard Wynne.

### OLD AGE RECIPE.

LONDON, Feb. 7. — John Coombes Masters, who advocated breakfast in bed, a daily glass of beer and pipe of tobacco as the way to longevity, died today at the age of 102.

### Cisco Jaycees to Form Organization of Their Ladies

Cisco Jaycees are completing arrangements for a dinner for their ladies, to be held Monday night at 7:30, on the roof garden of Laguna hotel, when plans for the organization of a Cisco Jayceette, or women's auxiliary, will be presented.

Said a Jaycee spokesman: "Realizing the importance of securing the full cooperation of our women folk in the many important projects that come up from time to time, and being appreciative of the numerous fine suggestions advanced by them in the past, all Jaycees are anxious that as many of the ladies as possible attend this dinner and express themselves as to the proposed organization, as well as on other matters that will come up for decision. "An interesting program has been arranged."

### Low Flying Over Cisco Will Not Be Tolerated

Editor Daily Press: There has been an army P-51 fighter plane buzzing Cisco at roof top altitudes for the past six weeks, on Sundays, which has succeeded in raising a great deal of criticism around town for airplanes in general. Your local airport manager neither condones nor intends to let this type of reckless flying continue.

The operations officers at Ft. Worth Army Airfield and Hensley Field assure me the pilot will receive severe disciplinary punishment when caught, and that they have several leads on who the culprit is. The people of Cisco can help stop this type of flying by catching the large numbers on the wings or sides of the ship. This is possible when the plane is flying low, despite the high speed.

Phone any numbers so obtained to the Cisco airport and I assure you immediate action. J. D. HIGGINS, Cisco Airport Manager.

### Huge Cash Balance Shows Jester Was Right

AUSTIN, Feb. 7. — Gov. Beauford Jester declared opposition Thursday to increasing present taxes as corollary to his opposition to new levies, but held open an avenue for approving increased levies if the legislature should enact such legislation.

The governor stuck to his campaign and legislative message contentions that current income would be sufficient to finance his "people's path" program of increased spending. But he reserved the right to study the overall cost of appropriations approved by the legislature before deciding later on if any new tax levy would be vetoed or approved.

As the governor spoke, the state's net cash balance in the general purpose fund rose to an all-time high of \$40,944,432, Treasurer Jesse James reported. That was an increase of nearly \$5,000,000 from the Jan. 31 balance of \$34,872,990, gained from allocation in the five days of unreported funds accumulated in the last month.

### Huge Cash Balance.

In all of the 171 different funds in the treasury, the state had a cash balance of \$129,076,700, against which there were \$7,543,778 in out-standing warrants. In arriving at his conclusion current income would finance his program, Governor Jester used revenue figures of Comptroller George H. Sheppard, which contemplated a general fund open account cash balance of \$44,731,442 at the end of the current fiscal year next Aug. 31.

### Portal to Portal! Pay Suits Reach Staggering Total

A national coal association attorney estimated today that portal-to-portal pay suits may reach a total of \$40,000,000,000.

The estimate—a theoretical one—was made by Coal Attorney James W. Haley, who appeared before the house judiciary committee. Haley testified after the wage-hour administration asked for power to make binding interpretations of the wage hour act which would prevent recurrence of back portal claims.

TROUBLE BREWED IN MILWAUKEE—When one of the worst storms in midwest history hit Milwaukee, roads in and out of the city were closed. Buses and cars were used as sleeping quarters by those who were unable to reach home after the storm struck.

## ROTARY, ONE MAN'S IDEA.

The death recently of a 78-year-old Chicago lawyer, Paul P. Harris, was observed in many countries. This man, inviting a few friends to his house 42 years ago, started Rotary International which now numbers 5,500 clubs in 75 countries and a quarter of a million members.

Mr. Harris' first club was formed to offset big city loneliness. The name came from the fact that members met around at each other's homes in those early years. Rotary now has become a luncheon club, an educational forum and an organization for philanthropic purposes, largely in the cause of crippled children—an interest of Mr. Harris. In small communities particularly, Rotary often is the main springboard for charitable and civic undertakings.

There are all kinds of clubs in the world today. There were a great many when Mr. Harris started his. Organizations like Rotary survive when they are founded for a sound reason and fulfill a need.

## INCONSISTENT ENGLAND.

They have a labor government that has taken over the railroads, the banks, the coal mines in little old England. And yet when the King and the Queen and two Princesses, Elizabeth and Margaret Rose, started for their long tour of South Africa, a forty-foot strip of red carpet was laid for them to walk on as they boarded the train. On either side it was banked with flowers.

Prime Minister Clement Attlee, good laborite though he is, was there, hat in hand, clad in outworn coat and striped trousers, to see them off. As the "royal" train sped from London, Britishers lined the right of way standing in the

the Queen and their daughters. In one way the British eat their cake and have it, too. They were beaten by Germany, and won the war. They put in a socialist laborite government, and kept their King.

**Mrs. Brodie hits the roof!**

No, no, this isn't a new Atom Bomb!  
 It's merely Mrs. Brodie, after a quiet family conference with Mr. Brodie. Mr. B made a few sharp remarks about their family budget.

Naturally, Mrs. Brodie hit the roof! And, like the cost of living, her temper kept right on going up and UP!

On the other hand, the cost of electricity, like Mr. Brodie's popularity at home, is going down and DOWN!

The Brodies (and you, too, if yours is an average family) get plenty of electricity for every budget dollar—more than twice as much as 20 years ago!

This domestic bargain took plenty of practical planning and technical skill on the part of your friends and neighbors in this company, under sound business management.
