Volume 19

Lockney, Floyd County, Texas, Friday, October 17, 1919

Number 4

FIRST LYCEUM NUMBER WEDNESDAY NIGHT

The first Lyceum number of the 1919-1920 course took place at the Olympic Theatre Wednesday night, which was attended by a large and appreciative audience. The Fillion Concert company which was advertised to be present on this occasion cancelled their engagement on account of the illness of one of the members of their company and another attraction was sent in its stead. The number presented was a noted Russian violinist, a lady impersonator and a lady singer. The Beacon did not learn the names of the parties composing the company. Their renditions were of high class and close attention was given them throughout the performance.

The Mothers Club have the Lyceum in charge, and the attendance on this their opening night was most gratifying. There are four other attractions to follow at a later date all of which are of high class, among them will be a noted lecturer. Advance notice of dates have not been received, but will be announced from time to time.

IMPORTANT NOTICE TO FARMERS.

The county agent wishes to call the attention of all farmers to the weekly marketing bulletin issued by the state marketing and warehouse department at Austin. This bulletin is something new in its line. It lists the names of all available dealers who are in the market for each farm product, and then lists the names of producers who have the same products for sale. In this way it is hoped that the farmers may be able to keep in better touch with marketing conditions and be able to sell some of his produce directly.

This bulletin is posted regularly on the bulletin board in the court house near the entrance to the county agent's office, and may be had regularly by any farmer by sending name and address to the county agent. Farmers are urged to take advantage of the opportunity, since it costs nothing, and may be worth thousands of dollars in the future.

W. H. DARROW,
County Agent.

R. E. L. Muncy was here from his place south of town, Wednesday on business.

MR. AND MRS. T. B. HILL ENTERTAIN THEIR FRIENDS

The season's festivities opened in a social way Monday night, when Mr. and Mrs. T. B. Hill threw open the doors of their home to the married people of the town for a few hours' pastime with that ever-popular game Forty-Two. The entertainment was given complimentary to their visiting guests, Mesdames Ira Smith of Lamesa and J. R. Meriwether of Abilene, sisters of the host and hostess.

Eight tables were arranged, and the game started at the usual hour, which was spirited from start to finish, with high and low scoring, at the close of which dainty refreshments were served consisting of slice pineapple and cream, cake and coco.

Those present and participating were: Messrs. and Mesdames E. L. Woodburn, E. Guthrie, Roy Griffith, O. R. McCollum, Carl McAdams, R. M. Broyles, Chas. Hatcher, John W. Broyles, Ira Broyles, Ben F. Smith, A. R. Meriwether, Frank Dodson, and Mrs. Turner Stevenson. Honored guests, Mesdames Ira Smith of Lamesa and Smith of Lamesa.

BROWN-JOHNSON

Cards have been received in Lockney announcing the marriage of Miss Gladys Brown to Ensign C. C. Johnson, U. S. A., which occurred at Snyder, October 10. Miss Brown is teaching expression in the Lockney Public school, and is a prime favorite with the Lockney people. Mr. Johnson's home is at Abilene, Texas. They are expected to arrive in Lockney tomorrow.

The Beacon extends best wishes to the happy young couple for a long and happy married life.

OPEN WEATHER AGAIN THIS WEEK.

This week has been fair as to weather conditions, although the roads still remain muddy in places and very rough. Quite a good deal of farm work has been in progress, heading maize and marketing same, with some cotton picking.

This has been one of the most backward falls in the way of excessive rains this section has known in years.

Very little work done on farm here the past month on account of the rains. There is yet much wheat to be sown which will be done as rapidly as weather conditions will permit.

The entire cotton crop is yet to be gathered, as very little picking has yet taken place. The yield promises around a half bale to the acre.

GROCERS MUST MARK ACTUAL WEIGHT ON PACKAGES SOLD

The department of weights and measures rules that all grocers who put up packages of sugar and other commodities in order to forestall a rush must mark thereon the net weight of the contents of the sacks. The same rule applies to those stores which package their goods in order to save clerk hire and who permit customers to serve themselves. This is a reversal of a former rule by the department which was found not to work very well.

The local inspector at San Antonio found 23 short-weight packages out of a total of 94 which were re-weighed, most of these being butter.—Lubbock Avalanche.

Charles Wilson of the Sunset community attended court at Floydada this week.

Mesdames Ira Smith of Lamesa and J. R. Meriwether of Abilene returned to their homes Wednesday after a pleasant visit with their brother and family, Mr. T. B. Hill.

LOCKNEY 6, SILVERTON 0.

In a slow but closely contested game, Lockney defeated Silvertown High on their gridiron last Monday afternoon by the close score of 6 to 0.

For a team in poor condition for lack of practice for several days and a change of line up due to loss of regular players, Lockney played exceptional football at times.

Two or three brilliant offensives during the latter part of the first quarter, consisting of line plays and an end run gave Lockney a touch-down. During the second quarter honors were about even, neither team being able to register a score.

In the second half Lockney came back with a dash and threatened Silvertown's goal, following a brilliant run by Muncy, who was tackled from behind.

During the fourth period Lockney was largely on the defensive. Her line was in no way comparable to a stone wall and Silvertown made frequent gains. Silvertown's splendid drives came too late, however, and the whistle ended the game without their team having tallied.

Both teams were lacking in team spirit and there were no individual stars. A future game should prove interesting.

Officials: Referee, Burson; umpire, Muncy; timekeepers, Tummins and Greer.

PROGRAM

Program of the W. M. U. of the Lockney Baptist Church, for October 20, 1919.

Foreign Mission Survey.
Leader—Mrs. Ona Long.

THE AMENDMENT TO SEPARATE UNIVERSITY FROM A. & M.

November 4th there will be an election in Texas and while there are some amendments to be rejected at this time there are others that should be ratified overwhelmingly. Among these are the Galveston grade raising and the University Separation amendment. This amendment affects Galveston alone, and is for the purpose of allowing that city to levy and assess taxes to raise her grades above sea level. The taxes will not come out of your or my pockets. Let's ratify that amendment.

The most important of all these amendments that should be ratified is the one to separate the Texas University from the A. & M. College. Under the constitution they are placed under the same management. They should be separated thus allowing each institution to manage its affairs separate and apart from the other. The University, after being separated from the A. & M. College can expand and grow to larger proportions than she can under joint management. She will be allowed, under separate management, to issue bonds based on her school land endowment, and erect suitable buildings to carry on this all-important work of higher education in Texas. If this is not done the University will eventually take second place as a university in Texas, and the Rice Institute of Houston, by reason of its large endowment, will rank first.

Let's ratify this amendment and place the University on a sound basis, and allow it to grow and expand so as to not only to rank first in Texas as a school, but first in the nation. When we mention bonds many are inclined to vote adverse to this and all other amendments. The bonded idea of the university separation is to allow that institution to borrow on its public school land and build necessary buildings, add equipment, etc. The money would not come out of your or my pocket, but would be the advancement of money from outside sources, and placing as collateral the available funds from University lands.

Judge Stalbird spent several days at Floydada this week, attending court.

E. M. Randolph left yesterday for Colorado, where he will visit the coal mines in an effort to purchase coal for the winter.

MUCH BUILDING ACTIVITY IN THE LOCKNEY COUNTRY

There is quite a good deal of building going on in the Lockney country. The building is confined largely to the country districts, while there is more or less improvements going on in the city proper.

In conversation with Carl McAdams who is manager of the McAdams Lumber Yard at this place, we learned of the following new homes being erected in the country:

Mr. Tom Neaves, living 8 miles north of town is erecting a fine home. Rowe Bryant, 11 miles northeast of Lockney, is building a large and commodious home on the section he recently purchased.

J. C. Whiteley, over in Briscoe county, is building a nice home on his ranch.

J. C. Holt, living north of town, is building a fine home this fall.

F. Davenport is erecting a large home 11 miles northeast of Lockney.

Mr. McAdams says the lumber men of Lockney as well as elsewhere have all they can do to take care of the business by reason of the scarcity of material.

Miss Ollie Queen spent the latter part of last week here with her parents, Mr. and Mrs. B. A. Queen, returning to Groom, where she is employed in the State Bank at that place.

Miss Clara Randolph of Cedar Hill community was here Wednesday doing some shopping.

Mrs. Willie Kirby of Lometa returned home Tuesday of last week after a week's visit with her niece, Mrs. B. A. Queen. Mrs. Kirby was very much pleased with the Plains country.

Mesdames Roy Griffith, Artie Baker and Miss Beas Thompson returned Tuesday from Dallas where they spent several days attending the fair.

E. E. Dyer and family left Tuesday for Dallas to attend the fair.

Mr. and Mrs. Curtis Wilkinson returned Thursday from Dallas where they attended the Dallas Fair for several days.

The many friends of Mr. A. J. Sams will be glad to know that he has been able to return home after an absence of several weeks at Plainview Sanitarium where he was under medical treatment.

New Wall Paper

We have just received a large shipment of new wall paper. We have many beautiful patterns, all new designs and can take care of your paper needs for any size house.

Tear off that old paper and come in and select some new design and make the place look like new again.. We have a complete line of floor covering, in fact, we have almost anything you may need to make the home more pleasant. We are always glad to show you what we have whether you want to buy or not.

Texas, this year, stands as the third state in the Union in the production of corn, being exceeded only by the states of Iowa and Illinois.

The Panhandle-Plains Chamber of Commerce has the matter of better shipping facilities up with the Interstate Commerce Commission with the result that the Railroad Administration has ordered sufficient number of cars to handle the present needs and the cars are to be provided at once. Also improved shipping by water facilities to be provided.

The Lockney Beacon of Lockney, Texas, entered upon its nineteenth year September 26. The present management will have rounded out nine years in November of this year as owner and publisher. No extensive plans have been made for the future, the publishers say, but their policy will remain in the future, as in the past, aggressive for the moral and financial welfare of the people they serve. A new model 14 linotype machine will be installed at an early date.—Texas University Bulletin.

When a publisher clips an editorial from an exchange and reproduces it without proper credit, he is stealing the brains of some one else. The Beacon is not complaining as a personal matter, but we occasionally read an editorial in some newspaper and the following week we see it reproduced, word for word, in some other paper as original matter. The editor making a practice of this kind of editorial work is just a common literary thief.

Some of the Panhandle editors are a lazy bunch of ginks when it comes to writing editorials. In some papers that come to this office, edited by men that are capable of writing good stuff, has not had an editorial in months. Boys, you should not get so lazy, and neglect your brain jewel work. A newspaper without editorial matter is of precious little value as an exchange.

An article is going the rounds of the West Texas press to the effect that an East Texas writer came West, and wrote back to his home paper in this manner: "The trip was indeed a revelation to the writer having come from West Texas, where farms are scare and prickly pears and mes-

quite beans are the chief products." The East Texas writer is just a common liar, and that's 'nuff said. A liar is a liar, wherever you find him, whether he lies for money or to injure the character or reputation of some individual or locality. The man that wrote the above hasn't enough brains to pound sand into a rat hole, and take him out of the pine woods of East Texas and he would starve to death in a land of plenty. Some of these hill billies have got more gall and malaria than brains, and the stunts like the above mentioned paragraph is rather amusing.

The sugar situation is critical, with the prediction that we will be paying 25 cents per pound for sugar before January 1. Congress has the matter under investigation, and will try to relieve the situation by enactment. It is generally believed that there is not the shortage of sugar as reported, but it is being hoarded in order to govern prices. The refineries are not putting out the available raw product in this country. Recently the refinery at Sugarland, Texas, announced from Washington that they would be compelled to shut down on account of a lack of material. We have it on reliable authority that the State of Texas has thousands of tons of sugar cane in the raw state waiting for refining, and that refineries would not handle it. It would be well to investigate these matters, and ascertain why the refineries refuse to accept the state's raw material.

One Locklear writes the Beacon scribe to be present at Dallas today, and see him change airplanes in mid-air. In his invitation he states that he has changed planes in the air 173 times without an accident, and adds that he wants to convince us that he is not a fool or a chance-taker. He concludes his invitation with the statement that he has tamed the airplane and made it subservient to man. While it will be impossible for us to be present, however, the fact of our presence or absence would not change us in our opinion that this man Locklear is flirting with the undertaker. There has been more men killed as stunt pullers than any other class.

In order to give the people of the cities of this nation meat supply Congress has authorized the Department of Agriculture to inspect horse meat and horse meat products. The writer would have to get hungrier than he has ever been before he could set down to a steak from old Beck. It may be a matter of educated taste born of necessity, but we feel now like we would not choose any horse meat or its bi-products.

Representative Blanton of Texas is getting enough publicity to do for the whole Texas delegation, and is also wasting more of the nation's money by his foolish attitudes. He is getting in the same class with Bob LaFollette. Randall County News.

Blanton has become the laughing stock of the entire nation. He has been constantly in the limelight first one way and another ever since he was elected to Congress. He certainly believes in notoriety seeking, for to sum up his entire record in Con-

gress, he has done nothing that would cause notice. To be real plain, Blanton has made an ass of himself.—Lockney Beacon.

It is really too bad that the utterances of Mr. Blanton has disturbed the tranquil slumbers of the above pair of editors. Located as they are, it naturally requires a seismic disturbance to jolt them out of the old ruts. Mr. Blanton has no time, patience or use for red tape, asks for right and justice, and there is a bunch of live wires in Mr. Blanton's district who will stand behind him to the last ditch.—Taylor County Times.

Home pride, if nothing else would cause this Taylor county writer to stand up for his congressman, however this does not disprove the fact that Congressman Blanton is a freak, as has been amply demonstrated by his course in Congress. As far as we Lockney and Randall county editors are concerned, we are not worrying over your charge that it takes a seismic disturbance to jolt them out of their ruts. There is only one kind of rut we will admit and that is that which is caused by excessive rains on the Plains (when Abilene was short of drinking water) and those made by our farmers marketing their million dollar wheat crop. We are truly sorry for any section of the country that is forced to depend altogether on the Blanton kind of excitement to jolt them out of their slumber state.

A friend recently sent us some branded peaches. We didn't care so much for the peaches, but we certainly liked the spirit in which they were sent.—Lockney Beacon.

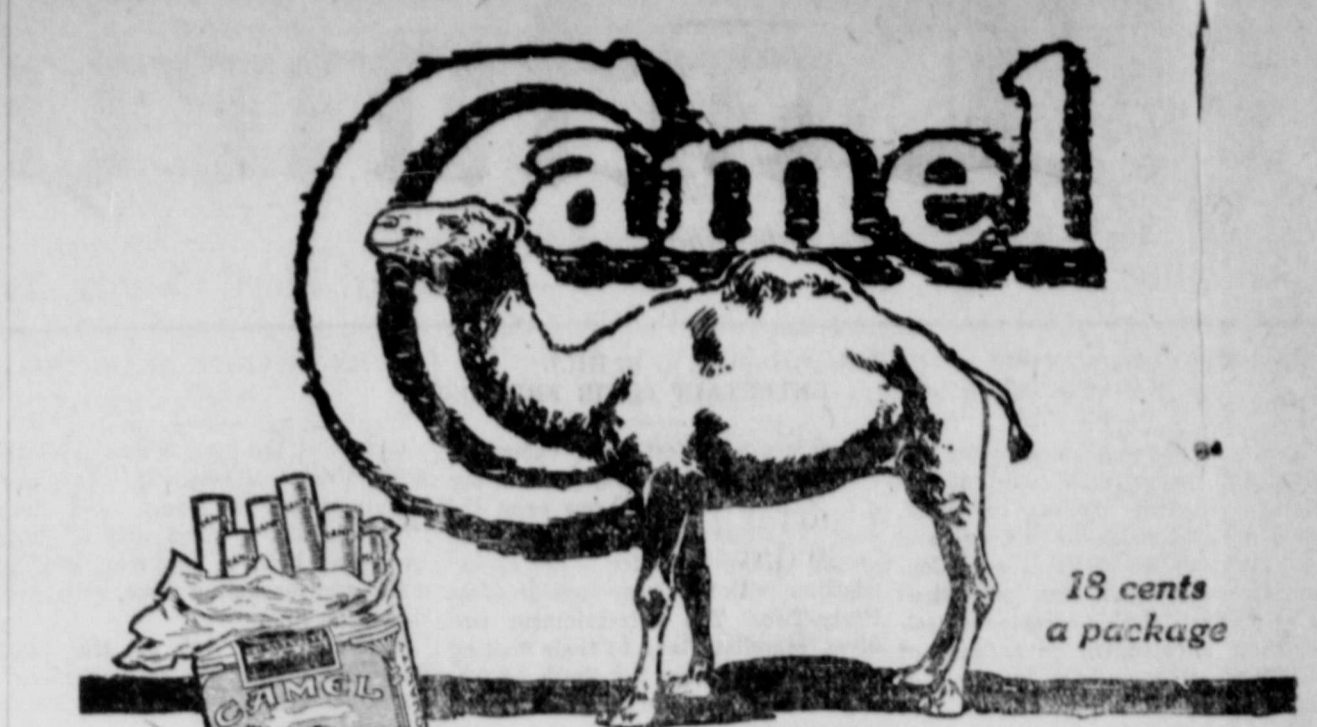

We would suggest that Ben Smith provide his linotype operator with a dictionary. It is scandalous to think that such a refined idea be treated so carelessly. We suppose the editor—with proper inspiration—was telling about "branded" peaches. Maybe he helped to sample them. They were branded alright after Smith put his teeth into them, but they were branded when the presentation was made. Why the waste of good brandy by adulterating it with peaches? It is safe to say the peaches are no longer branded, and the brandy is no longer peachy.—Canadian Record.

All editors and operators are not walking dictionaries, nor error proof when it comes to composing matter for the public. The Beacon has its errors, and no one is more aware of the fact than the writer, but charity should cover up these as well as other defects. It is true that the "I" was omitted from he branded peach squib. But, dogs our cats! if we appreciate Loomis or any other editor holding us up as a target, by reason of such trifling mistakes. As a scriptural illustration, "Let him that is guiltless of error cast the first stone."

The most important council that has taken place since the armistice was signed and fighting ceased is that of labor and capital now in session at Washington. It is called an Industrial Congress, which embraces capital, labor and the public in general. President Wilson called this Congress before he took to his bed, and had his health permitted he would have become the guiding spirit of the occasion. These representatives of the three factions are trying to find some common ground to stand on, or in other words a permanent solution for the labor problems that are agitating this and other nations of the world. Their first important work is to end the great steel strike and pacify both factions. Then they propose to adopt some plan that will avoid future strikes and bring about a better understanding between capital and labor.

Astronomers are predicting storm disturbances from December 17 to 23. They claim to have discovered spots on the sun that have never appeared before, and say that much element disturbances will occur as a result.

Testifying before the Senate Investigating Committee of the steel strike, Samuel Gompers, head of organized labor stated that the steel mill owners undertook to pacify their employees by offering to sell them stock on the installment plan. Gompers makes light of the matter when in fact the steel mill owners were doing their employees a distinct favor. Stock in the Steel Corporation is valuable and is not to be had at any price, however the laborers in these mills were made exception to the rule, and offered something that outsiders could not buy with the cash. Gompers knew that he and his lieutenants would be out of a job if the steel laborers should become interested in the steel mill industry. These labor bosses have been bleeding labor for years, and carrying on a propaganda of unrest among the laboring classes, when if left alone they would become settled in their plans and would accumulate more of this world's goods. The modern solution for labor unrest has been found to be a co-partnership between

18 cents
a package

CAMELS are in a class by themselves—easily the most refreshing, the most likable cigarette you ever smoked. You can prove that! Simply compare Camels puff-by-puff with any cigarette in the world at any price! Put quality, flavor and cigarette satisfaction to the utmost test!

Made to meet your taste, Camels never tire it, no matter how liberally you smoke them! The expert blend of choice Turkish and choice Domestic tobaccos makes Camels delightful—so full-bodied, yet so fascinatingly smooth and mellow-mild. Every time you light one you get new and keener enjoyment!

Freedom from any unpleasant cigarette after taste or any unpleasant cigarette odor makes Camels as unusual as they are enjoyable.

In fact, Camels appeal to the most fastidious smoker in so many new ways you never will miss the absence of coupons, premiums or gifts. You'll prefer Camel Quality!

Cigarettes

capital and labor. In many manufacturing centers large concerns are operating their business on a percentage basis, or else have sold stock to their employees on easy terms. It has been thoroughly demonstrated that a man will work to his own interest better than he will somebody's else's.

In discussing the steel strike situation, Mr. Gary, of the steel corporation, testifying before the Senate Investigating Committee, stated that what the world demands now is production. The steel strike is now being prosecuted for the recognition of the union, not for better working conditions or higher wages. The steel mills are operated on an open shop basis. As soon as organized labor gets control they will demand shorter hours and increase of pay. The miners have demanded a 30-hour week working time. Thus when the hours are cut down the production is decreased. During this period of reconstruction the world needs production. Underproduction today is one cause of our abnormal prices. The Beacon has no quarrel with labor in general, but the union end of it have set up claims that are not justified from any viewpoint. We want to see labor progress and enjoy as much of the fruit of its labor as possible, but in the demands of organized labor for a system of more pay and less work means a curtailment of the world's production. Give a certain class of labor 30 hours a week as a working basis and they will eventually ask for 20 and then 10 and then 5 and on down until they will demand of their employees that they be given a living without laboring at all!

MORAL—DON'T BORROW YOUR NEIGHBOR'S PAPER

Just a few days ago one of our most valued subscribers came into the office and said please stop his paper until he could get rid of his neighbors, as he had not seen a copy for two weeks and was informed by his wife that the neighbors kept it borrowed all the time. Now, you know it is a bad practice to borrow your neighbor's paper, and some times it is more expensive than subscribing for it. We heard of a man once who was too stingy to subscribe for his home paper and sent his little boy to borrow the copy taken by one of his neighbors. In his haste the boy ran over a 84 stand of bees and in ten minutes looked like a warty summer squash. His father ran to his assistance, and failing to notice his barb wire fence, ran into that, cutting a hole in his anatomy, and ruining a \$5 pair of trousers. The old cow took advantage of the gap in the fence and got into the corn field and killed herself eating green corn. Hearing a racket the wife ran out, upset a four-gallon churn full of cream into a basket of little chickens, drowning the entire hatch. In her haste, she dropped a

The Reason Why

Rubber and Automobile Securities are Good Investments

The following facts and figures regarding the immense profits that have been and are being made in the Motor Vehicle Business are the most astounding the world has ever known.

Chevrolet

The Chevrolet Co., is one of the best examples of the profits of the automobile business, starting with a very modest working capital it recently increased its authorized capital to \$80,000,000 in order to exchange its stock for that of the General Motors. One hundred dollars originally invested in this stock is said to be worth \$28,000.

Dunlap Tire Co.

(ENGLAND)

Commenced business with \$112,000 capital. This company was in business only two years when it sold out for Fifteen Million dollars cash.

We represent in the sale of stock the Texas Motor Car Association and the Southland Tire and Rubber Company of Fort Worth. Stock is \$100 a share. There is no better investment anywhere. See us for further particulars.

C. A. Wofford,

\$35 set of false teeth. The baby, having been left alone crawled through the milk into the parlor, ruining a brand new \$50 carpet. During the excitement the oldest daughter ran away with the hired man, the dog broke up 11 setting hens and the calves got out and chewed the tails of four fine shirts on the clothes line.—Exchange.

borrows his neighbor's paper, but the We can stand the stingy cus that man that gets it into you and stops his paper for spite and then sneaks around the stores and reads the one we left there on advertising is the limit. We never saw a man that stopped his paper for spite that ever stopped reading it. He will read it in spite of flesh and devil, imagining in his small swiveled soul that the editor is made on the same gauge as he himself and would administer a roast of him and his bunch the first opportunity.

CONDITIONS IN ARMENIA HORRIBLE

Washington, Sept. 30.—Practically the entire male population of Armenia will be exterminated unless the Turks and Tartars are checked by some outside force, according to state department reports which were presented today by assistant secretary Phillips to the senate committee considering the resolution authorizing the president to send an armed force into that country.

F. Tredwell Smith, who just came out of Armenia made a report to the American mission at Paris, relating in considerable detail horrible conditions which he said existed. Massacres of thousands of Armenians were described and he said the American mission to Armenia saw great numbers of bodies, many of them decomposed flowing down one river, on the banks of which were also many dead.

NEW GRAIN COMPANY MANAGER ARRIVES

J. H. Hohlaus arrived here today to take charge of the Cobb Grain Company, as manager. He is a member of the Lockney and Aiken Grain Company which recently purchased the Cobb Grain Company from L. F. Cobb. His family will move here as soon as he can secure a house. Mr. McIlvay, another member of the firm has been here several days on business.—Plainview Herald.

NOTICE WITHDRAWAL OF SPECIAL TRAIN

On account of the inability to furnish equipment for the operation of the special train between Amarillo and Dallas as advertised for October 11th returning to Amarillo on the 17, the Railroad Administration requests that the notice of said train be withdrawn.

"Because of the present heavy traffic and general congested conditions

together with inadequate equipment," as stated by the Railroad Administration, it is our desire that special trains be not asked for and that the travel be distributed as equally as possible throughout the duration of the fair, in order that we may conserve motivepower and other equipment for the purpose of carrying on the commerce of the country."

"You are asked in conformity with the above statement to withdraw the order for special train."

The Panhandle Plains Chamber of Commerce regrets to recall the expedition which would have been so pleasurable and so beneficial from a social standpoint, but we are willing to conform to any arrangement that will conserve the interests of the Panhandle country.

You are advised that the Fort Worth & Denver Railway will operate extra equipment on their regular trains between Amarillo and Fort Worth and if this organization can assist anyone in perfecting arrangements for accommodations we shall be glad to have you forward such request to this office.

Very respectfully,

F. R. JAMISON,

Sec.-Mgr. Panhandle-Plains Chamber of Commerce.

BABY FALLS FROM SECOND STORY; IS UNINJURED

The three-year-old son of Mr. and Mrs. R. C. Henry fell from a window in the second story of the E. C. Henry home in northwest Floydada Friday afternoon.

At first it appeared that his injuries might prove fatal. Fortunately, however, he was only shocked and except for minor bruises was all right the following day.—Floyd County Hesperian.

THE FIRST KISS

The greatest surprise in the world to a girl is that there is no taste to it.—Exchange.

No taste to it! Well, by all the hen feathers on Cupid's dart! The editor of that paper must be color blind and deaf and dumb in his palate. They tell us, those who have tried it, that it tastes like the double distilled essence of honey spread thick on a large fat slice of pumpkin pie; that it tastes resembles a sip of nectar, brewed by the gods and served in the dew-covered honey-suckle blossom.

"Way back in the dim and hazy past, long before we had misplaced all our teeth and when we had a cinch on the beauty prize, the prettiest girl in the world told us with her own rose bud lips that our first kiss felt like a flock of Paradise birds fluttering out each ear and ending with a sensation like a covey of winged angels pouring molasses down her spine.

No taste to the first kiss? Great guns! It would make a wooden in-

Texas, this year, stands as the third state in the Union in the production of corn, being exceeded only by the states of Iowa and Illinois.

The Panhandle-Plains Chamber of Commerce has the matter of better shipping facilities up with the Interstate Commerce Commission with the result that the Railroad Administration has ordered sufficient number of cars to handle the present needs and the cars are to be provided at once. Also improved shipping by water facilities to be provided.

The Lockney Beacon of Lockney, Texas, entered upon its nineteenth year September 26. The present management will have rounded out nine years in November of this year as owner and publisher. No extensive plans have been made for the future, the publishers say, but their policy will remain in the future, as in the past, aggressive for the moral and financial welfare of the people they serve. A new model 14 linotype machine will be installed at an early date.—Texas University Bulletin.

When a publisher clips an editorial from an exchange and reproduces it without proper credit, he is stealing the brains of some one else. The Beacon is not complaining as a personal matter, but we occasionally read an editorial in some newspaper and the following week we see it reproduced, word for word, in some other paper as original matter. The editor making a practice of this kind of editorial work is just a common literary thief.

Some of the Panhandle editors are a lazy bunch of ginks when it comes to writing editorials. In some papers that come to this office, edited by men that are capable of writing good stuff, has not had an editorial in months. Boys, you should not get so lazy, and neglect your brain jewel work. A newspaper without editorial matter is of precious little value as an exchange.

An article is going the rounds of the West Texas press to the effect that an East Texas writer came West, and wrote back to his home paper in this manner: "The trip was indeed a revelation to the writer having come from West Texas, where farms are scare and prickly pears and mes-

quite beans are the chief products." The East Texas writer is just a common liar, and that's 'nuff said. A liar is a liar, wherever you find him, whether he lies for money or to injure the character or reputation of some individual or locality. The man that wrote the above hasn't enough brains to pound sand into a rat hole, and take him out of the pine woods of East Texas and he would starve to death in a land of plenty. Some of these hill billies have got more gall and malaria than brains, and the stunts like the above mentioned paragraph is rather amusing.

The sugar situation is critical, with the prediction that we will be paying 25 cents per pound for sugar before January 1. Congress has the matter under investigation, and will try to relieve the situation by enactment. It is generally believed that there is not the shortage of sugar as reported, but it is being hoarded in order to govern prices. The refineries are not putting out the available raw product in this country. Recently the refinery at Sugarland, Texas, announced from Washington that they would be compelled to shut down on account of a lack of material. We have it on reliable authority that the State of Texas has thousands of tons of sugar cake in the raw state waiting for refining, and that refineries would not handle it. It would be well to investigate these matters, and ascertain why the refineries refuse to accept the state's raw material.

One Locklear writes the Beacon scribe to be present at Dallas today, and see him change airplanes in mid-air. In his invitation he states that he has changed planes in the air 173 times without an accident, and adds that he wants to convince us that he is not a fool or a chance-taker. He concludes his invitation with the statement that he has tamed the airplane and made it subservient to man. While it will be impossible for us to be present, however, the fact of our presence or absence would not change us in our opinion that this man Locklear is flirting with the undertaker. There has been more men killed as stunt pullers than any other class.

In order to give the people of the cities of this nation meat supply Congress has authorized the Department of Agriculture to inspect horse meat and horse meat products. The writer would have to get hungrier than he has ever been before he could set down to a steak from old Beck. It may be a matter of educated taste born of necessity, but we feel now like we would not choose any horse meat or its bi-products.

Representative Blanton of Texas is getting enough publicity to do for the whole Texas delegation, and is also wasting more of the nation's money by his foolish attitudes. He is getting in the same class with Bob LaFollette. Randall County News.

Blanton has become the laughing stock of the entire nation. He has been constantly in the inlight first one way and another ever since he was elected to Congress. He certainly believes in notoriety seeking, for to sum up his entire record in Con-

gress, he has done nothing that would cause notice. To be real plain, Blanton has made an ass of himself.—Lockney Beacon.

It is really too bad that the utterances of Mr. Blanton has disturbed the tranquil slumbers of the above pair of editors. Located as they are, it naturally requires a seismic disturbance to jolt them out of the old ruts. Mr. Blanton has no time, patience or use for red tape, asks for right and justice, and there is a bunch of live wires in Mr. Blanton's district who will stand behind him to the last ditch.—Taylor County Times.

Home pride, if nothing else would cause this Taylor county writer to stand up for his congressman, however this does not disprove the fact that Congressman Blanton is a freak, as has been amply demonstrated by his course in Congress. As far as we Lockney and Randall county editors are concerned, we are not worrying over your charge that it takes a seismic disturbance to jolt them out of their ruts. There is only one kind of rut we will admit and that is that which is caused by excessive rains on the Plains (when Abilene was short of drinking water) and those made by our farmers marketing their million dollar wheat crop. We are truly sorry for any section of the country that is forced to depend altogether on the Blanton kind of excitement to jolt them out of their slumber state.

A friend recently sent us some branded peaches. We didn't care so much for the peaches, but we certainly liked the spirit in which they were sent.—Lockney Beacon.

We would suggest that Ben Smith provide his linotype operator with a dictionary. It is scandalous to think that such a refined idea be treated so carelessly. We suppose the editor—with proper inspiration—was telling about "branded" peaches. Maybe he helped to sample them. They were branded alright after Smith put his teeth into them, but they were branded when the presentation was made. Why the waste of good brandy by adulterating it with peaches? It is safe to say the peaches are no longer branded, and the brandy is no longer peachy.—Canadian Record.

All editors and operators are not walking dictionaries, nor error proof when it comes to composing matter for the public. The Beacon has its errors, and no one is more aware of the fact than the writer, but charity should cover up these as well as other defects. It is true that the "i" was omitted from he branded peach squib. But, dogs our cats! if we appreciate Loomis or any other editor holding us up as a target, by reason of such trifling mistakes. As a scriptural illustration, "Let him that is guiltless of error cast the first stone."

The most important council that has taken place since the armistice was signed and fighting ceased is that of labor and capital now in session at Washington. It is called an Industrial Congress, which embraces capital, labor and the public in general. President Wilson called this Congress before he took to his bed, and had his health permitted he would have become the guiding spirit of the occasion. These representatives of the three factions are trying to find some common ground to stand on, or in other words a permanent solution for the labor problems that are agitating this and other nations of the world. Their first important work is to end the great steel strike and pacify both factions. Then they propose to adopt some plan that will avoid future strikes and bring about a better understanding between capital and labor.

Astronomers are predicting storm disturbances from December 17 to 23. They claim to have discovered spots on the sun that have never appeared before, and say that much element disturbances will occur as a result.

Testifying before the Senate Investigating Committee of the steel strike, Samuel Gompers, head of organized labor stated that the steel mill owners undertook to pacify their employees by offering to sell them stock on the installment plan. Gompers makes light of the matter when in fact the steel mill owners were doing their employees a distinct favor. Stock in the Steel Corporation is valuable and is not to be had at any price, however the laborers in these mills were made exception to the rule, and offered something that outsiders could not buy with the cash. Gompers knew that he and his lieutenants would be out of a job if the steel laborers should become interested in the steel mill industry. These labor bosses have been bleeding labor for years, and carrying on a propaganda of unrest among the laboring classes, when if left alone they would become settled in their plans and would accumulate more of this world's goods. The modern solution for labor unrest has been found to be a co-partnership between

capital and labor. In many manufacturing centers large concerns are operating their business on a percentage basis, or else have sold stock to their employees on easy terms. It has been thoroughly demonstrated that a man will work for his own interest better than he will somebody's else's.

In discussing the steel strike situation, Mr. Gary, of the steel corporation, testifying before the Senate Investigating Committee, stated that what the world demands now is production. The steel strike is now being prosecuted for the recognition of the union, not for better working conditions or higher wages. The steel mills are operated on an open shop basis. As soon as organized labor gets control they will demand shorter hours and increase of pay. The miners have demanded a 30-hour week working time. Thus when the hours are cut down the production is decreased. During this period of reconstruction the world needs production. Underproduction today is one cause of our abnormal prices. The Beacon has no quarrel with labor in general, but the union end of it have set up claims that are not justified from any viewpoint. We want to see labor progress and enjoy as much of the fruit of its labor as possible, but in the demands of organized labor for a system of more pay and less work means a curtailment of the world's production. Give a certain class of labor 30 hours a week as a working basis and they will eventually ask for 20 and then 10 and then 5 and on down until they will demand of their employees that they be given a living without laboring at all.

MORAL—DON'T BORROW YOUR NEIGHBOR'S PAPER

Just a few days ago one of our most valued subscribers came into the office and said please stop his paper until he could get rid of his neighbors, as he had not seen a copy for two weeks and was informed by his wife that the neighbors kept it borrowed all the time. Now, you know it is a bad practice to borrow your neighbor's paper, and some times it is more expensive than subscribing for it. We heard of a man once who was too stingy to subscribe for his home paper and sent his little boy to borrow the copy taken by one of his neighbors. In his haste the boy ran over a 34 stand of bees and in ten minutes looked like a warty summer squash. His father ran to his assistance, and failing to notice his barb wire fence, ran into that, cutting a hole in his anatomy, and ruining a \$5 pair of trousers. The old cow took advantage of the gap in the fence and got into the corn field and killed herself eating green corn. Hearing a racket the wife ran out, upset a four-gallon churn full of cream into a basket of little chickens, drowning the entire hatch. In her haste, she dropped a

Camel

18 cents
a package

CAMELS are in a class by themselves—easily the most refreshing, the most likable cigarette you ever smoked. You can prove that! Simply compare Camels puff-by-puff with any cigarette in the world at any price! Put quality, flavor and cigarette satisfaction to the utmost test!

Made to meet your taste, Camels never tire it, no matter how liberally you smoke them! The expert blend of choice Turkish and choice Domestic tobaccos makes Camels delightful—so full-bodied, yet so fascinatingly smooth and mellow-mild. Every time you light one you get new and keener enjoyment!

Freedom from any unpleasant cigarette after taste or any unpleasant cigarette odor makes Camels as unusual as they are enjoyable.

In fact, Camels appeal to the most fastidious smoker in so many new ways you never will miss the absence of coupons, premiums or gifts. You'll prefer Camel Quality!

The Reason Why

Rubber and Automobile Securities are Good Investments

The following facts and figures regarding the immense profits that have been and are being made in the Motor Vehicle Business are the most astounding the world has ever known.

Chevrolet

The Chevrolet Co., is one of the best examples of the profits of the automobile business, starting with a very modest working capital it recently increased its authorized capital to \$80,000,000 in order to exchange its stock for that of the General Motors. One hundred dollars originally invested in this stock is said to be worth \$28,000.

Dunlap Tire Co.

(ENGLAND)

Commenced business with \$112,000 capital. This Company was in business only two years when it sold out for Fifteen Million dollars cash.

We represent in the sale of stock the Texas Motor Car Association and the Southland Tire and Rubber Company of Fort Worth. Stock is \$100 a share. There is no better investment anywhere. See us for further particulars.

C. A. Wofford,

\$35 set of false teeth. The baby, having been left alone crawled through the milk into the parlor, ruining a brand new \$50 carpet. During the excitement the oldest daughter ran away with the hired man, the dog broke up 11 setting hens and the calves got out and chewed the tails of four fine shirts on the clothes line.—Exchange.

borrows his neighbor's paper, but the We can stand the stingy cus: that man that gets it into you and stops his paper for spite and then sneaks around the stores and reads the one we left there on advertising is the limit. We never saw a man that stopped his paper for spite that ever stopped reading it. He will read it in spite of flesh and devil, imagining in his small swivelled soul that the editor is made on the same gauge as he himself and would administer a roast of him and his bunch the first opportunity.

CONDITIONS IN ARMENIA HORRIBLE

Washington, Sept. 30.—Practically the entire male population of Armenia will be exterminated unless the Turks and Tartars are checked by some outside force, according to state department reports which were presented today by assistant secretary Phillips to the senate committee considering the resolution authorizing the president to send an armed force into that country.

F. Tredwell Smith, who just came out of Armenia made a report to the American mission at Paris, relating in considerable detail horrible conditions which he said existed. Massacres of thousands of Armenians were described and he said the American mission to Armenia saw great numbers of bodies, many of them decomposed flowing down one river, on the banks of which were also many dead.

NEW GRAIN COMPANY MANAGER ARRIVES

J. H. Hohlaus arrived here today to take charge of the Cobb Grain Company, as manager. He is a member of the Lockney and Aiken Grain Company which recently purchased the Cobb Grain Company from L. F. Cobb. His family will move here as soon as he can secure a house. Mr. McIlvay, another member of the firm has been here several days on business.—Plainview Herald.

NOTICE WITHDRAWAL OF SPECIAL TRAIN

On account of the inability to furnish equipment for the operation of the special train between Amarillo and Dallas as advertised for October 11th returning to Amarillo on the 17, the Railroad Administration requests that the notice of said train be withdrawn.

"Because of the present heavy traffic and general congested conditions

together with inadequate equipment," as stated by the Railroad Administration, it is our desire that special trains be not asked for and that the travel be distributed as equally as possible throughout the duration of the fair, in order that we may conserve motivepower and other equipment for the purpose of carrying on the commerce of the country."

"You are asked in conformity with the above statement to withdraw the order for special train."

The Panhandle Plains Chamber of Commerce regrets to recall the expedition which would have been so pleasurable and so beneficial from a social standpoint, but we are willing to conform to any arrangement that will conserve the interests of the Panhandle country.

You are advised that the Fort Worth & Denver Railway will operate extra equipment on their regular trains between Amarillo and Fort Worth and if this organization can assist anyone in perfecting arrangements for accommodations we shall be glad to have you forward such request to this office.

Very respectfully,

F. R. JAMISON,

Sec.-Mgr. Panhandle-Plains Chamber of Commerce.

BABY FALLS FROM SECOND STORY; IS UNINJURED

The three-year-old son of Mr. and Mrs. R. C. Henry fell from a window in the second story of the E. C. Henry home in northwest Floydada Friday afternoon.

At first it appeared that his injuries might prove fatal. Fortunately, however, he was only shocked and except for minor bruises was all right the following day.—Floyd County Hesperian.

THE FIRST KISS

The greatest surprise in the world to a girl is that there is no taste to it.—Exchange.

No taste to it! Well, by all the hen feathers on Cupid's dart! The editor of that paper must be color blind and deaf and dumb in his palate. Archie Queen has returned to her home at Lampasas.

"Nothing goes with me like a good story"
—Ches. Field

EVERY Chesterfield you light begins and ends with *satisfy*. For Chesterfields set no limit on your smoking enjoyment. Their smooth, rich, even flavor keeps right on pleasing your taste down to the last half-inch.

And no wonder.

The great buying organization we maintain in the Orient makes it possible for us to obtain the pick of the finest Turkish leaf. Experts blend these tobaccos with the best Domestic leaf; not in any hit-or-miss fashion, but by our own *exclusive* process that never varies.

And actually this process brings out hidden flavors and new delights that give to this cigarette a *satisfying* quality all its own. We don't care what cigarette you've been smoking, you'll like Chesterfields better.

TEXAS BAPTIST SIXTEEN MILLION CAMPAIGN

Dallas, Texas, October 15.—The mad crush experience of Baylor University, Waco, during the first two weeks of the present term, due to lack of room and facilities for accommodating the largest student body in the history of the institution covering in 75 years, has set the Baptists of Texas thinking seriously and prayerfully, according to Dr. J. M. Dawson, pastor of the First Baptist church at Waco and State Publicity Director of the Southern Baptist \$75,000,000 campaign. "It is bringing home to them concretely," he continued, "the vital necessity of raising \$16,000,000 plus in Texas to meet the denomination's enlarged program of education, missions and benevolences."

Following is the apportionment to the schools made from Texas quota, \$16,000,000 plus: Baylor University, \$1,000,000; Baylor College at Belton, \$750,000; Simmons College, Abilene, \$500,000; Howard Payne College, Brownwood, \$300,000; San Marcos Academy, \$100,000; Decatur College, \$100,000; Burleson College, Greenville, \$100,000; Rusk Junior College, \$100,000; Theological Seminary, Fort Worth, \$500,000; Wayland College, Plainview, \$100,000; Marshall College, Marshall, \$100,000.

WINNERS OF AUTO RACES AT THE COUNTY FAIR

In the stripped car race the first day's results were: C. C. Wright, of Floydada, first; J. L. Jones, Lockney, second; C. J. White, Lockney, third. Second day: C. C. Wright, Floydada, first; J. L. Jones, Lockney, second; Jim McNeely, Floydada, third. Body race first day's results were: Fletcher Haines, first; Jim McNeely, second; Clarence Snodgrass, third. Second day: Fletcher Haines first, Jim McNeely, second; Clarence Snodgrass, third.

A post of American Legion was organized at Floydada last Friday noon, during "Soldiers and Sailors' Day" at the Floyd County Fair, and an application is being made to the State adjutant of the organization for the issuance of a charter.

LOCKNEY,

TEXAS

To the Consumers of COAL

The Mines have not been running much over a basis of two days per week. All the dealers through the country, and especially the consumers, have not been buying their coal, and the consequence will be that along in October and November, and especially in December, we will probably see the greatest coal shortage that we have ever experienced. Of course everybody will want coal and

The Mines Will Not be Able to Supply The Demand

Advertising costs us money, whether you buy from us or some other person, BUY IT. We will be glad to spend this amount, if it will be an inducement to you to lay in your supply of coal, you will buy it later if you can get it, why not now? We urge you.

MOTOR RURAL CARRIER EXAMINATION

The United States Civil Service Commission has announced an examination for the county of Floyd, Texas, to be held at Lockney, on October 25, 1919, to fill the position of motor rural carrier at Lockney and vacancies that may later occur on motor rural routes from post offices in the above mentioned county. The salary on motor routes ranges from \$1500 to 1800 per annum. The examination will be open only to male citizens who are actually domiciled in the territory supplied with mail by a post office in the county and who meet the other requirements set forth in Forms 2121 and 1977. Form 2121 may be seen posted at any post office in the county for which the examination is held, and Form 1977 and application blanks may be obtained from the office at which the vacancy exists and where the examination is to be held, or from the United States Civil Service Commission a Washington, D. C. The appointee to this position will be required to furnish, maintain and operate a modern motor vehicle with a carrying capacity of not less than 800 pounds and a cubic capacity of not less than 80 feet. Applicants must file with their applications a statement of their equipment they will be able to provide in event of appointment. Applications should be forwarded to the Commission at Washington, D. C., at the earliest practical date.

Admission of women to this examination will be limited to the widows of U. S. soldiers, sailors, or marines, and to the wives of U. S. soldiers, sailors, or marines who are physically disqualified for examination by reason of injuries received in the line of duty.

The many friends of Mr. B. O. Downs will be indeed sorry to know that he has not been so well for the past few days. Mr. Downs has been confined to his home for the past several months, suffering with a throat trouble. While he is not able to talk very much to his friends, yet he would be glad to have them come and spend a few minutes with him as he gets very despondent these rainy, gloomy days. Born—To Mr. and Mrs. S. C. Moat, October 1, a girl.

Life Was a Misery

Mrs. F. M. Jones, of Palmer, Okla., writes: "From the time I entered into womanhood . . . I looked with dread from one month to the next. I suffered with my back and bearing-down pain, until life to me was a misery. I would think I could not endure the pain any longer, and I gradually got worse. . . Nothing seemed to help me until, one day, . . . I decided to

TAKE

CARDUI

The Woman's Tonic

"I took four bottles," Mrs. Jones goes on to say, "and was not only greatly relieved, but can truthfully say that I have not a pain. . ."

"It has now been two years since I took Cardui, and I am still in good health. . . I would advise any woman or girl to use Cardui who is a sufferer from any female trouble."

If you suffer pain caused from womanly trouble, or if you feel the need of a good strengthening tonic to build up your run-down system, take the advice of Mrs. Jones. Try Cardui. It helped her. We believe it will help you.
