The trouble of our present transportation problems is due largely and in the main to the government itself. When the railroads were returned to their owners a car distributing commission was created, along with enlarg ed powers to the Interstate Commerce all lines are pooled and distributed from Washington. Thus we practically have government ownership of roads, or enough power placed in the transportation lines. The country de anded that the roads be turned back government when the roads were turn The people will now demand that this further away we get from government meddling with private business concerns the better off we will be. We point with pride to his splendid record during the recent special session. Mr. Baldwin has the ability and the determination to represent all the people in all parts of this district faithfully and honestly. If anyone can secure laws favorable to our agreultural, financial and industrial interests and get for West Texas a square deal in the important work of e-districting our State next year, we beieve Mr. Baldwin is that man. The work to come before the Texas Legislature the next two years demands men of sound judgement and genuine ability. We therefore earnestly commend Mr. Baldwin to your favorable consideration at the primary election, July 24th. A vote for him is a vote for the best interests of West Texas.

# What's the upkeep cost?

This question is frequently in the arctor-buyer's mind and it has been said that it depends a great deal on how well the owner cares for his tractor.

Admitting that this is so, you will realize that advantage of ownin ga tractor that is easy to take care of-one that is simple an daccessible, that you can do your own experting.

Compare the Hart-Parr 30 point by point with other tractors an dyou will see that simplicity and accessibility are outstanding features of the Hart-Parr 30. This not only reduces the need of repairs an dconsequently the upkeep cost, but when it is necessary to renew a part, the time spent is but a small item. On a tractor that is complicated and inaccessible, the ime spent in making a repair often costs considerable more than the uart.

## Winter work increases tractor profits

If you figure tractor costs by hours or acres of work done during its lifetime you will find the belt power features of the Hart-Parr 30 another advantage.

Hart-Parr owners have named twenty-eight different winter and off-season jobs that they do with the tractor. The Kerosene Shunt, an exclusive feature of the Hart-Parr 3 Ogives abundant and flexibile power for belt work. Step in and let us explain it to you or write for literature. There are many reasons why you should buy your Hart-aPrr 30 now. One is that you may not be able to get one when the busy season opens.

Mr. Jones has been firing telegrams to the Interstate Commerce Commis sion and to the association of railroad officials daily with a view of inform ing them in detail of the seriousness of the situation in the Panhandle and

of securing a definite relief. He says he intends to continue the

work until relief is obtained. gram in which it is stated that the car shortage in the Texas Panhandle is receiving "vigorous handling." An inspector is being sent to this territory, says, and a conference will be beld endent of transportation of the Santa Fe, when the entire matter will be gone into earefully with a view of pro viding the greatest possible relief.

Following his return Mr. Jones announced that crop conditions over the entire Panhandle are flattering .-Amarillo News.

#### CANDIDATE ARE ASKED TO STATE STAND ON "OPEN SHOP ISSUE BY BLANTON

that the industrial problem is the most important question now before the State and Nation, representative Thomas L. Blanton, of the Seventeenth District, in an open letter today asked the four gubernatorial candidates to answer a series of questions, including one relative to their attitude on the open shop" question

The letter addressed to B. F. Looney Pat M. Neff, R. E. Thomason and J. W. Bailey, all candidates for nomina personal success politically or of mine and says the issue is drawn in an effort now being made "to select men who will subject every interest of the people to the selfish interests of labor

state is to be dominated by the "closed shop" which means the exclusive employment of union men only, or whether Texas shall maintain an "open shop? which means every laborer alike shall be permitted to work and earn his fivlihood, regardless of whether he belongs to a union or not.

The questions submitted by the con gressman are

1. If elected will you fav open shop" throughout Texas? If elected will you favor making "picketing" a serious misde meanor, punishable by a substantial fine and jail penalty?

If elected will you favor a law prohibiting all sympathetic strikes? 4. If elected will you favor a law similiar to the Kansas statute?

#### PANHANDLE WILL BE REDIS-TRICTED SAYS SATTERWHITE

There seems to be a general agreement on the part of the legislators that the Panhandle of Texas will get a satisfactory redistricting insofar as the congressional and senatorial districts are concerned, declared Lee Satterwhite, representative from the 125th

"In my judgement,' said Mr. Satterwhite, "the Panhandle senatorial district will be composed of twenty-six counties instead of forty-nine at present. Three districts will probably be made of the present district.

"Of the legislation disposed of, probably the most important is the pink representative. "Both the federal and state governments are satisfied and there will be no quarantine of the In any size tracts throughout Northstate except in the infected districts."

educational funds will make an apportionment of \$12.75 per capita," said Plains; Render and Pay Taxes, Furn-Mr. Satterwhite, "and the funds for ish Abstracts, Perfect Titles, Etc. the higher institutions give the West Texas Normal College at Canyon all that was asked for.

"In regard to the governor's race" declared Mr. Satterwhite, it was generally conceded at the legislature that R. E. Thomason, speaker of the house. is the strongest candidate in practically all districts of the state."-Ama-

# ALLIS

America's Foremost Tractor

# How Many Acres Per Day at What Cost?

That is the real tractor test? The Wallis plows at a speed of 2 1-2 to 3 miles per hour, pulling a five-disc plow. It turns a nacre per hour, and will do it 24 hours a day, and pull your plow as deep as you want in any soil. On account of light weight, roller bearings and its general superior construction the Wallis deliever to the draw-bar 74 per cent of the power produced. Think of that. What other tractor will guarantee more than 50 per cent? Look for speed and draw-bar power when you go to buy a tractor. Find out how much fuel yo uburn to propell the tractor and overcome friction. In the Wallis it is only 26 per cent. The Wallis weighs a ton less than any other tractor having the same draw-bar power
