The fuel situation in West Texas is serious, according to a statement of the Texas Chamber of Commerce. An appeal has been made to the Interstate Commerce Commission for an allotment of fifty cars of coal daily for a period of sixty days for distribution in West Texas and the Panhandle.

If the girl signing herself, "Young School Girl," who wrote the anonymous letter to the Beacon in defense of jorjiding at night by the young people, in answer to our editorial on the subject in last issue, will come forward and sign same, we will be glad to publish it. Rules of reputable newspapers require all communications to be signed whether the writer uses a non-deptume or writes over his signature. In this connection Mrs. Smith authorizes us to say that if the same party, or parties, will confer with her she will be glad to throw open her doors to the young people of Lockney at any time for good, wholesome, clean entertainment.

The Claude News says that it can't run a paper on wind and rabbit tracks, and advises its readers to come in and pay up. This applies to the Beacon. Nearly our entire list is falling due this fall. A great many are already due. Last fall we announced that if our readers would come forward and pay us we would endeavor to hold the subscription price to \$1.50. This holds good this fall. If our list of subscribers will now come forward and pay us for another year, as they did last fall, we hope to keep the price of subscription at \$1.50. There are only a few newspapers in the Panhandle-Plains country remaining \$1.50 per year. We want to hold ours at \$1.50 if possible. If you will be prompt we will be able to do this. Come in now and pay us a year in advance, with all back subscriptions.

The Randall County News is located at Canyon. C. W. Warwick is its editor. The News takes a fall out of the Amarillo Daily News last week in discussing the A. & M. College for West Texas. The Daily News had intimated that Warwick was opposed to the establishment of the college. Canyon is the home of the West Texas State Normal College. Editor Warwick and the writer, along with many other Panhandle papers, favor the establishment of the West Texas A. & M., provided it is established somewhere on the Plains or in the Panhandle. In the event it is established below the cap rock then we want agriculture and mechanics thoroughly established in the West Texas State Normal College to teach these important branches for this section. The agriculture interest is widely different in the Panhandle-Plains countries from that of West Texas. In fine, West Texas and the Panhandle-Plains countries are in need of all the schools it can get, but if we get any of them we will feel lucky. There need be no conflict between Panhandle-Plains people and West Texas people over these matters. Just ask that the West Texas State Normal College be thoroughly equipped to teach agriculture and mechanics, domestic

science, etc., and we will help you get a separate A. & M. College for West Texas.

Representative Lee Satterwhite is the latest publisher on the Plains to install a linotype machine. The linotype adds very greatly to the efficiency of any newspaper, and also very profusely to the cuss-vocabulary of its owner.—Randall County News.

We are glad to note that Editor Lee Satterwhite has added a linotype to his office. We would be glad to see him add other necessary equipment, and make the Panhandle Herald second to none in size and importance. Satterwhite is a good newspaper man, but has been handicapped for years in not having necessary equipment. We are sure, like Editor Warwick, it will enable you to do more cussing, and do it systematically, this adding of the linotype.

The Ford automobiles have taken a tumble, and the reduction amounts to a nice sum on each car. Simultaneously, with the reduction of the Fords, comes the announcement of a general break in many articles of necessity. The wholesalers announce that sugar will sell for \$11.00 per hundred by next canning season. Cotton has dropped around ten cents per pound, and it now looks like we are to have a speedy return to normal conditions. With the reduction in the cost of living, wages must and will come down also.

The editor of the News has been a lifetime prohibitionist, and fought liquor from the precinct, the county, the state, the nation. He never received a cent for his work, and never wanted anything for it. Most of the officials and field agents for the anti-saloon league have all along received salaries and other pay for their work, and some of them are loathe to give up their employment, and this possibly to some extent accounts for the alarm they seem to be imbued with. Some of them are urging that the pros contribute a large sum of money "for the enforcement of prohibition," but it seems to us it is the business of the government federal and state, to see that prohibition is enforced the same as other laws, and we believe it will be done without any large contributions from private citizens.—Plainview News.

The anti-Saloon League is out of a job so far as the United States are concerned. It is the government's duty to enforce the prohibition laws of the country. The government is enforcing them as far as it is able to do so. The only good the anti-saloon can do in the future would be to keep up a national organization to carry prohibition to other countries, or assist other countries in ridding themselves of the liquor traffic.

The Palestine Weekly, a Zionist paper printed in Jerusalem, brings news of a project to develop the water power of the River Jordan. Since Palestine is a land without coal or fuel of any kind, industrial progress depends largely upon utilizing the power resources of the country to generate electricity. It is suggested that the Jordan, thus harnessed, would supply not only power, light and heat, but would also work pumps to irrigate extensive valley lands now barren.—Randall County News.

Gambling is more general today than it was in the days when the race track and cock fighting ran free and untrammelled. The daily press has been carrying reports from the larger cities of the nation which prove the truth of this statement and The News believes that the most damnable evil following in the train of the great war is this widespread woeing of the gods of chance. History tells us that there comes a moral debacle after every great war and we may expect to have trouble with public morals during the era of reconstruction following this the greatest of modern wars, but this fact does not lessen one whit our responsibility as good citizens to meet the situation face to face and turn back every evil so blighting to the young life as gambling and associate evils. The world war was readily won when France fought with her back to the wall at Verdun raised the heart-thrilling cry of "They Shall Not Pass," and the battles for good morals can be won if the good citizens of every community shall band themselves together with the battle-cry of Verdun as their watchword. This does not mean independent and critical action regarding the officers of the law, but it means in conjunction and loyal co-operation with the officers. Such co-operation cannot fail and such co-operation will put an end to the gambling mania which threatens to engulf the youth of the land.—Clarendon News.

America has always been a race of chance takers. That is, the common tendencies of our people are chance takers. In view of this fact it is easy for the gambling spirit to take hold of the land. Gambling is a crime against society that needs checking. We are entering and are in the midst of an age of loose morals generally. The great world war may be responsible for same in a measure, but we rather attribute the fact to the drunken spree of prosperity the people are in. Writers from all our towns engage the press in calling attention to the social drift of the age, and appealing to mothers and fathers to

guard the conduct of their children more closely. The Beacon views the situation with alarm. We attribute the use of too much gasoline and indifferent parents, who have been lulled to sleep in their mad career of money-making to give thought to the bringing up of their children. We need to put our backs to the wall and say that these immoral crusaders shall not pass.

The American Farm Bureau says in a statement that America is facing a grave agricultural economic crisis, which, if not intelligently dealt with, will lead to consequences that will effect all industries to the point that it will imperil the social order. As a relief the Bureau suggests that perfecting treatment in transportation effecting the farmers' products, more profits for farmers, ample finances, etc. The statement says: "We are facing an age in which agriculture and industry must move forward hand in hand. Leaving the interest of the farming class entirely out of the question it will be to the advantage of the entire nation to grant preferential consideration to the agricultural requirements although other industries may be temporarily handicapped."

The Echo editor voted for W. A. Johnson for Lieutenant Governor, believing he was entitled to the nomination for a second term. Some people voted against Mr. Johnson thinking that he pardoned Bank Examiner Patterson, whereas it was R. M. Johnson of Houston who did the pardoning act, according to our recollection. Some voted for Davidson thinking he was T. W. Davidson of Marshall. While some voted against Mr. Johnson because he is strong stand for woman suffrage, whereas Lynch Davidson is just as strong for suffrage as Mr. Johnson. Such is politics.—Usher County Echo.

Such is politics, but such was not the cause of Lieutenant Governor Johnson's defeat. He was defeated because he at one-time introduced in the Senate a bill to divide Texas. That was what got his goat. This little division business will get the goat of every man that runs for office in Texas. And still the Beacon editor favors the division of Texas. We are not a candidate for office, hence we are free to make the fight. Division of Texas will be brought about some day. "Truth crushed to earth will rise again."

The anti-Saloon League says that prohibition is a failure by reason of lack of enforcement. This statement is given in connection with violations in New York City. The League is mistaken. It will take time to enforce national prohibition. The people have to be educated up to respect the law. The people make the law and the people must enforce it. While a majority of the people throughout the nation favor national sobriety in a great many sections, prohibition is unpopular. It will take time to enforce the law completely. It has been the case of every country that has voted out liquor. At first the people will not enforce the law, but after while they are convinced that prohibition is the best after all. That will be the case as a national proposition. If this generation does not enforce prohibition the next will. We can afford to await in view of the splendid results where enforcement has taken place.

Our attention has been called to a Plainview booster article appearing in the Star-Telegram, in which a load of water melons raised at Sandhill, south a few miles from Lockney, in Floyd county, was credited as Hale county products. This information is nothing new to the Beacon. This has been the system adopted by Plainview for years. They take credit for the production in Floyd county, or at least a large portion of same. They claim for Hale county wheat raised in Floyd county and shipped on the Branch, and by reason of these facts they have put one over us in the car allotment. The railroads are allotting Plainview 35 per cent, against Lockney 11 per cent of the available cars. Floydada is discriminated against in the same way. Floyd county raises more wheat than Hale. Lockney and Floydada will ship more wheat than Plainview if these two towns could get their share of cars. Plainview has used this section for years in matter of advertising, and every trade advantage she can think of. Plainview has been builded strictly on hot air. Plainview has more town today than she has country. The present fair she is pulling off is another demonstration of her advertising tactics. A county fair is a good thing, but Plainview this year advertises "Northwest Texas Fair." The fact of the business it is nothing but a county fair. While the writer will not have the opportunity to visit this Fair, we are quite sure Plainview will draw heavily from Floyd and adjoining counties for her exhibits. It has been her custom in the past to do this very thing. The worst part of the matter, outside counties are not given the proper credits. A few years ago parties from Floyd county found a pumpkin raised north of Lockney in Floyd county marked Hale county product. This recent water melon advertising pilfering is but another case similar to the pumpkin story. Of course the Beacon believes in advertising and publicity, but then this should be founded on merit and not on deception.

Just Ask the OilPull User

THE most satisfactory evidence of a tractor's performance is the work it does for its owner over a period of time.

So before you buy your tractor just talk with tractor owners in this locality and get their real opinions.

Ask them about the cost of operation—learn whether they can use kerosene under all conditions and at all loads—find out the cost to plow an acre of ground.

Ask them about their experiences with their cooling systems—of any troubles from overheating—freezing—time taken for filling or draining, of any inconvenience and delays caused by rusting, clogging, etc.

Ask them about the power and dependability of their tractors—if the power is sufficient—if there is reserve power for the "pinches"—if they can depend upon their tractor for day-in and day-out, year-after-year service without delays and interruption.

Ask them how long they have used their tractors, cost of upkeep, and how many more years service they can naturally expect.

Ask them about the lubricating and ignition systems—their effectiveness and dependability.

Ask them anything you wish to know about a tractor. Then sum up what OilPull owners tell you and make your own comparisons—draw your own conclusions.

We shall be glad to furnish you with the names of OilPull owners.

There are four sizes of OilPull tractors—12-20, 16-30, 20-40 and 30-50 H. P.

Reduction in Prices on Ford Products

The war is over and war prices must go. Effective at once Ford Cars, Trucks, and Tractors will be sold F. O. B. Detroit at the following prices:

PRICES F.O.B. FACTORY	PRICES F.O.B. LOCKNEY
Touring, Regular ... \$440.00	\$538.50
Touring, with Starter,	611.39
Runabout, Regular .. \$395.00	\$491.64
Runabout with Starter,	564.53
Chasis	\$449.26
Coupe with Starter and Demountable Rims, 745.00	\$856.08
Sedan with Starter and Demountable rims, \$795.00	908.14
Truck, Pneumatic Tires	\$638.84
Tractor	\$859.00

The Ford Motor Company makes this reduction in face of the fact that they have on hand immediate orders for One Hundred Forty-Six thousand sixty-five cars and tractors. The Company will suffer temporary loss while using up the materials bought at high prices. They are willing to make the sacrifice in order to bring business back to a going condition as quickly as possible and maintain the momentum of the buying power of the country. Henry Ford Says: "The war is over and it is time war prices were over. There is no sense or wisdom in trying to maintain an artificial standard of values. For the best interest of all it is time real practical offers were made to bring the business of the country and the life of the country down to regular pre-war standards."

We are at your command with regular Ford efficiency in service and eager to fill your orders.

Lockney Auto Co.

LOCKNEY, TEXAS

U. S. GIVES WARNING ON "PURE FRUIT" DRINKS

Washington, Sept. 27.—Warnings against "pure fruit" beverages which have flooded the soft drink market since the advent of prohibition were issued today by the public health service.

Many of the orange beverages now being sold, it was said, consist only of sweetened carbonated water, flavored with a little oil from the peel of oranges and artificially colored. The Department of agriculture has ruled that provisions of the pure food act will be held to have been violated in case such drinks are sold under trade names, which lead the purchaser to believe they contain the edible portion of juice of the fruit named.

AMERICA FACING GRAVE AGRICULTURAL CONDITION

Chicago, Sept. 22.—The American Farm Bureau Federation in a statement tonight summarizing its investigation into business, industrial and agricultural conditions, declare America is "facing an agriculture economic condition, which, if not intelligently dealt with, will lead to consequences so grave as to affect all industry to the point of imperiling social order."

The statement says farmers must be given immediate help in transportation, finance and labor, and recommends the following as remedial efforts which would go a long way toward solving agriculture difficulties: "Preferential treatment in transportation to all farm products held for shipment and all goods consigned to farmers which are necessary to conduct the business of farming."

"More profits for farmers, better distribution systems, which would tend to eliminate middlemen and stabilize prices."

"Ample finance with rural banks, assuming the obligation of financing the farmer with long and priority credits."

"Protection from 'wild cat' investments which were said to be taking millions of dollars from farms annually."

"Equalization of agriculture and industrial labor wages, which the statement declares can be accomplished only by lowering industrial wages or increasing farm wages."

"Encouragement of immigration. 'We have tried to rehabilitate our country by every method except through the sweat of the brow,' the statement says."

"Many industries have been stimulated to the point that they are top-heavy. Liberal credit has inflated values. Abnormal credit extensions granted manufacturers have been largely expended in driving up wages and the cost of living, while the producers of essentials have been overlooked. We need more capital rather than more credit."

"The nation's prosperity depends primarily upon bumper crops, for agriculture is the basic foundation of every human endeavor."

"We are facing an age in which agriculture and industry must move forward hand in hand. Leaving the interest of the farming class entirely out of the question it will be to the advantage of the nation to grant preferential consideration to agricultural requirements even though industries may be temporarily handicapped."

WEST TEXAS FUEL SITUATION GRAVE: APPEAL FOR CARS

Dallas, Sept. 22.—The Texas Chamber of Commerce appealed to the Interstate Commerce Commission and the United States car service commission today to relieve the fuel situation in West Texas which, the chamber said, "is assuming alarming aspects."

The appeal, which was forwarded by telegram, requested that fifty coal cars per day for a period of sixty days be assigned to Texas railroads on which coal shipments originate. The chamber of commerce, acting on reports from a number of West Texas cities, declared that coal dealers at Amarillo are 615 cars behind in normal coal deliveries, Vernon declares 300 cars behind and the shortage at San Angelo and Abilene serious. Much suffering would result from the first cold wave unless the situation is relieved, the chamber declared.

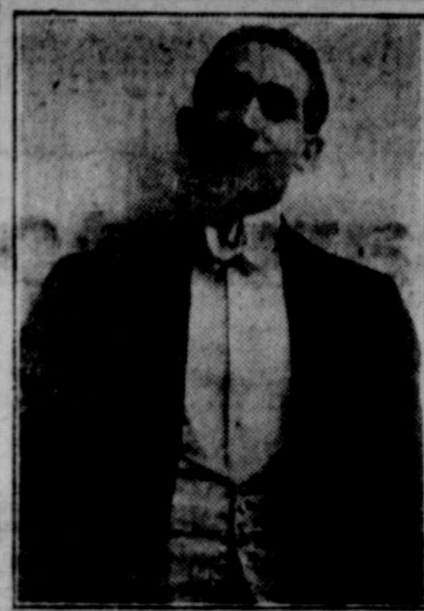

Railroad officials at a conference with representatives of the Texas Chamber of Commerce yesterday at Ft. Worth declared they were powerless to cope with the situation unless special orders were issued to provide additional coal cars.

TRACTOR STRUCK BY TRAIN AT CROSSING

C. W. Sutton, recently here from Cooke county, was injured yesterday afternoon at the grade crossing of the Santa Fe in Northwest Floydada, when a Fordson tractor driven by him was struck by the local passenger. The train was backing from the station to the Y to turn when it struck the tractor.

Sutton's most serious injury is a bad cut on his leg which was caught when the wheel of the tractor was crushed by the train. "The driver did not see the train until it was on him."

The tractor was owned by Frank Kinman, by whom Sutton was employed. The tractor was badly smashed.—Hesperian.

Paul J. Barnaby, at Chautauqua

CANNOT MARRY BETWEEN OCT. 23 AND NOV. 2, AND VOTE

Topeka, Kan., Sept. 27.—Cupid and the ballot have fallen out here. It was announced today that Topeka girls over 21 cannot marry between Oct. 23 and Nov. 2 and retain their franchise in the November elections. Miss Etta Covell, city clerk, dealt this blow to Cupid.

"The registration books will be closed Oct. 25," explained Miss Covell. "The law prohibits married women giving their maiden names when they go to the polls to vote."

Homer Gregg and Miss Corbie Askey, both of Quitaque, were married at Matador Thursday of last week. The bride is the daughter of A. J. Askey, and was born and reared in Briscoe county, while the bridegroom is the son of Mr. and Mrs. W. S. Gregg, and has also lived in this country for many years. We extend unto the happy couple congratulations and wishes for a long and happy life.—Silverton Star.

PANHANDLE-PLAINS CHAMBER OF COMMERCE IN POLITICS

Amarillo, Sept. 15.—Believing that the redistricting problem of the Panhandle is a matter that should come ultimately before the State Legislature, the Panhandle-Plains Chamber of Commerce declined to participate in framing the redistricting clause of the Democratic State platform in the convention held in Fort Worth last week, at the same time acknowledging the honor of an invitation to assist in the performance of that duty.

Likewise the Agricultural & Mechanical College for West Texas is a problem to come before the State Body and with proper claims properly lodged we have little fear but that suitable and equitable legislation in this connection will result.

We have the utmost respect for and confidence in the members of the Legislature of this State. It is much easier to criticize their actions than it would be to perform the duty better.

The Panhandle-Plains Chamber of Commerce perfected plans almost one year ago by means of which the Agricultural and Mechanical needs and the Industrial Arts section of instruction can be rendered adequately to the Panhandle and Plains district economically and without burdensome effort on the part of the state. This plan has been endorsed by the Board of Regents and by many of the Texas lawmakers as sane and sensible. This plan will be briefed and presented at the proper time before the next Legislature by the president and secretary of this organization.

Redistricting of the State will receive proper attention by this body at the proper time before the state legislature and all other matters of industrial, educational and social interest presented before the honorable body of men.

Yours very truly,
Panhandle-Plains Chamber of Commerce

LOWER CLOTHING PRICES PREDICTED

Chicago, Sept. 24.—A slow steady decrease in retail price and a ten to twenty per cent slash in the consumers' price on men's clothing with a gradual return to normal prices was predicted here today by a leading department store and clothing manufacturer. Immediate reductions in prices on men's clothing following the cuts in raw materials are not to be expected, manufacturers said, because materials in fall and winter were purchased last spring.

An orderly, progress reorganization of commerce is now under way, Marshal Field and Company, one of the largest department stores in the country said in an official statement. The company warns against a period of reaction which may set in after the incidental decrease in prices.

"The mill prices for spring 1921 show reductions of from 10 to 20 per cent," Alfred Decker and Co., manufacturer of men's clothing said, but as the cost of labor is not apt to be reduced, too much must not be expected for the next spring.

"There is no justification for any reduction today in prices of retail clothing for the reason that merchandise sold today was purchased when the price of raw materials was at its peak," said the House of Kuppenheimer.

FIRST NEGRO WEDDING IN COLLINGSWORTH COUNTY

Last Monday morning Judge C. C. Small was called upon to perform the marriage ceremony of Sam Teal and Mrs. Alberta Dixon, both colored residents of this county. This is said to be the first negro couple to marry in this county. Judge Small said he tied the knot hard and fast as he could, and the couple went away happy and smiling. —Wellington Leader.

A FATAL ACCIDENT

Word was received in Tulsa Thursday morning announcing the death of Mr. Edward Carter, a worthy young farmer of the Wayside community.

Mr. Carter had been at work at night plowing in his field. As he did not come home for breakfast a search was instituted for him, and his body was found near his engine. He had died from the effect of his pistol shot.

Mr. Carter was carrying a pistol to shoot some wolves, and in some manner he dropped the pistol. The ball entered his right side and ranged upward. Mr. Carter was able to get off his engine and about five feet away before he died.

The accident must have happened about daylight, for a neighbor plowing in his field saw the headlight of Mr. Carter's engine about one o'clock, and then did not see it any more.

Funeral arrangements have not been made, as advice of relatives at a distance is awaited. It is thought that the body will be taken to Oklahoma for burial, as most of the relatives live in that State.

Mr. Carter was a most excellent young man, and by his exemplary habits and industry had won a host of friends.

The Herald joins in extending sincere sympathy to the sorrowing relatives and friends. —Tulsa Herald.

Stock of \$1,000,000, for the building of a cotton mill in this city. The company, which is not a promotion scheme, is to be composed exclusively of Stamford and West Texas business men. W. K. Whipple has been selected as manager, and O. P. Harlin, vice-president of the First National Bank of Stamford, trustee.

Directors are: O. P. Harlin, Chas. Brewington, Thomas M. Caton, Starkey Duncan and C. A. Lundgren of Stamford; O. E. Patterson of Haskell; George L. Lutz of Seymour; Judge Walter Chapman of Anson; Frank P. Pool of Hamlin; Clifford B. Jones and Walter B. Lee of Spur.

The mill will have 10,000 spindles and employ about 350 persons. It will be modern in every respect.

The above is a telegram sent out from Stamford and explains itself. The people of Stamford are in dead earnest about this cotton mill proposition, and they mean to push it to the completion. It seems. Some of the above men have been hard at work on the scheme for some time and they are going to see that it goes through. The Leader has long wished for just such a thing to come to this part of the country. —Stamford Leader.

CARL GLASER SUFFOCATED IN GRAIN TANK YESTERDAY

Carl Glaser, a 13-year-old boy, was suffocated in one of the grain bins of S. D. Ferguson & Company yesterday morning at ten o'clock.

The first knowledge that workers at the bin, which was being unladen from a spout into a car, knew that the boy's life was in danger, came when his foot was seen sticking out of the spout. Roy Ferguson, Olin Miller and Tol Jones were working with the grain and machinery. Dr. M. F. Husky was also present. Immediately upon discovery of the boy's precarious condition the doors of the bin were hurriedly opened and the grain shoveled out to get to him. Dr. L. V. Smith was called, but when he reached the boy the body was lifeless. —Hesperian.

WIFE KILLED BY FALL AT CROSSING; SUES RAILROAD

Judge H. C. Randolph, Judge R. C. Joiner and J. L. Fritch, court reporter, returned from Floydada Wednesday morning where they went to attend District Court. Court has adjourned until the third week, and the grand jury for the fourth week.

There is a case on docket at the court there that is creating a great deal of interest. A railroad case in which Horace Owens vs. the Santa Fe Railroad Company. Madden, Truelove, Rayburn and Pipkin of Amarillo represent the railroad company and Williams and Martin of Plainview and Kenneth Bain of Floydada represent the plaintiff. The case was brought about by an accident which happened when Mr. Owens and wife were driving across the Santa Fe track with a load of feed. Mrs. Owens fell off sustaining fatal injuries. He is suing for a damage of \$50,000.00. —Hale County Herald.

Respectfully,

Floyd County Elevator Company

By **BURTON THORNTON**, Manager.
LOCKNEY, TEXAS

candidate for president would be withdrawn. The announcement is now made that negotiation with Republicans looking towards a withdrawal of the pro candidate has been broken off. Neither Cox or Harding replied personally to the offer made by the Prohibition leaders. The enforcement or retention of the Volstead act was the main issue before the National Democratic Convention at Chicago, led by William Jennings Bryan, with the result that Mr. Bryan and the Volstead act went down in defeat. Under the circumstances we could not expect Mr. Cox to answer favorably on the proposition submitted by the Prohibition party leaders. The Democratic party announced for a rigid enforcement of the Federal amendment, but did not say how the enforcement was to take place. The Republicans were equally as reticent of the Volstead law, hence neither party came out in their platform for the Volstead law forcibly enough to suit the Prohibition leaders. The National Prohibition Ticket will not poll enough votes to scare either the Republican or Democratic party leaders.

Thos. E. Love of Dallas announces he will be a candidate in 1922 for U. S. senator to succeed Culberson. He is at present democratic national committee man from Texas, and is a very able man.—Plainview News.

We have expected this announcement for some time. Love does not possess so much qualifications, as he belongs to a certain political crowd in Texas, known as a political ring. We have better qualified men in Texas for the U. S. Senate than Thomas Love, Thomas Campbell, Thomas B.B. and any other political Thomas in the State. The Panhandle might see fit to furnish the next United States Senator. We have Marvin Jones, now serving in Congress. Jones is a young man, and would be a strong man in the Senate. He is not a political Thomas, and the only objection that could be raised against him by East Texas politicians is the fact that he lives in the West. Let's boost Marvin Jones against Thomas Love.

E. R. Hanna, who lives fifteen miles southeast of town, is bringing in many wagon loads of very fine water melons. Some of them weigh more than sixty pounds.—Plainview News.

Mr. Hanna only lives a few miles south of Lockney and eight miles west of Floydada, in the Sandhill community. Last week a Plainview dispatch in the Star-Telegram gave Mr. Hanna's melons credit to Hale county. We are quite sure Mr. Hanna lives considerable more than 15 miles from

Plainview. He takes his melons to Plainview because of the scarcity of Hale county grown melons. Melons are plentiful in Floyd county. All our farmers raise them. Let Plainview boosters keep their "bull" straight about Floyd county melon crops, and other resources of this county. Floyd county has furnished advertising for Plainview long enough. We did not say anything when Plainview boosters came to Lockney a few years ago and took a picture of our cotton yard. Afterwards this picture appeared in Plainview and Hale county literature, as their own products. The fact of the business there was no gin at Plainview, and little or no cotton raised in Hale county.

J. C. Wooldridge Lumber Company

A leading Department Store and manufacturer predicts reduction of prices in clothing of ten to twenty per cent. The same authority says that the reduction will not take place immediately because of the fact that merchants bought their stocks of this fall and winter clothing last spring on a high market. The reduction should not come at present as a protection of merchants who bought on a high market. Merchants should not be compelled to take the losses of the present reductions. These reductions in the high cost of living must come gradually, and be announced one season ahead of time so that local merchants can conduct their business accordingly, and not loose money in the transaction. The prediction in wholesale centers is to the effect that next spring will see general reduction of living all along the line.

Recently the prohibition party leaders announced that if the Democratic and Republican parties would come out forcibly for prohibition and for upholding of the present law regulating the liquor business, the prohibition

27.7 Miles to Gallon OF GASOLINE

Is the record the Overland Four made on their test trip from New York to San Francisco, pulling mud with the chains, sand, mountains and under every kind of road and weather conditions. Using twenty-five different drivers, none of whom had ever seen the car before.

This was an ordinary stock car, taken from the store room in New York and put right on the road. The distance traveled was 3,443 miles and over 1,400 miles was made to the gallon of lubricating oil.

If you want a car that is economical and serviceable and a car that is **LIGHT** and at the same time gives you the riding comfort that the larger, heavier car gives you, then buy an Overland 4 with the Suspension Triple x Spring.

Ford
 THE UNIVERSAL CAR

INSIST ON GENUINE FORD PARTS

Imitation "Ford" parts are being sold by many mail-order houses, downtown stores and garages to unsuspecting Ford owners as "Ford" parts. But they are not Genuine Ford parts. They are made by concerns who have no connection whatsoever with the Ford Motor Company. Tests have shown them to break when the genuine Ford parts didn't even bend.

The Authorized Ford Dealers are your protection. As such, we handle nothing but the Genuine Ford parts. They are made from the famous Ford Vanadium Steel, and each part—according to its use—is heat-treated in the way that will give it the longest wearing qualities.

Our Ford garage and Ford mechanics are at your service at all times. Drive in when replacements or repairs for your Ford car may be necessary. Save your car and also your money.

THE UNDERTAKER

The midnight hour, the darkest hour
 That human grief may know,
 Sends forth its hurried summons
 In answer to the call.

I know not when the bell may toll,
 I know not when the blow may fall,
 I only know that I must go
 In answer to the call.

Perhaps a friend—perhaps unknown—
 'Tis fate that turns the wheel,
 The tangled skein of human life
 Winds slowly on the reel.

And I'm the undertaker,
 "Codd-blooded," you'll hear them say,
 "Trained to the shock and chill of death,
 With a heart that's cold and grey."

Trained—that's what they call it
 How little they know the rest—
 I'm human and know the sorrow
 That throbs in the aching breast.

MY BOY AND YOUR GIRL

Mothers, are we looking after our own boys and girls as we should? It is better to be safe than sorry. I try to teach my boy to be true and manly and to respect all womankind for the sake of his mother. Are you teaching your girl to be sweet and pure and keep my boy in his place? I teach my boy to live the white life so that when he finds the "one girl" he will be worthy of her and have a clean record to offer her in exchange. Are you teaching your girl that when a man chooses a wife he will choose the sweet and modest girl? They may like to flirt with a fast girl but do not want her for a wife.

The moral condition of our boys and girls is appalling in this town. I see my boy go driving with your girl, she has on suggestive clothes, her cheeks and lips are painted, she has her hand on his shoulder, his arm is about her and as they go by I see an exchange of kisses. Oh, mothers, let's be more watchful; something is wrong; something must be done before it is too late! Let's have them attend some class instead of joy-riding; let's have our motion pictures censored and stand behind our pastors in their efforts to uplift our young people; let's not uphold the double standard. What is wrong for your girl to do is equally wrong for my boy. Mothers, let's be up and doing before it is too late. When we stand before the judgement bar of God to account for the souls that He has given us to raise for Him, may we have clean hands and hearts.

Yours for purity in our boys and girls.—By a Mother in The Wellington Leader.

NORMAL OPENED WITH GOOD NUMBER

The eleventh year of the West Texas State Normal College started Tuesday with an enrollment of 334 up to last night. Class work will start today.

Word from other normals indicate that attendance in all the normal schools will be lighter than usual this year owing to the great demand for teachers all over the State. The West Texas State Normal was the only Normal School in the State having an increased attendance last year.

The enrollment the first two days of last year was somewhat more than it is up to the present time, but at least 400 are expected by the beginning of next week.

President Hill reports all of the faculty members present and that the year's work.—Randall County News.

PLAINVIEW WILL HAVE \$450,000.00 FLOUR MILL

We understand that Albert G. Hinn has announced that he will soon build a seven story \$450,000.00 mill, building on the present site of the Harvest Queen Mill. The contract for the driver, the first unit of the new structure, has been let to the Burrell Engineer & Construction Company, of St. Louis, and as soon as material arrives construction work will begin. The same construction company has just finished the 250,000 bushel elevator for Mr. Hinn.

The new mill will have a daily capacity of 600 barrels and will be one of the largest in the State. It will be of reinforced concrete and glass. It will be erected on the site of the present mill. Mr. Hinn states that the old building will be torn down, beginning soon, and that not even a pulley from the old structure will be used in the new.—Silverton Star.

NEEDED BY FARMERS

Most of the farmers in Floyd County are keeping their business well in hand thru systematic Checking Account records.

Many prosperous farmers around Lockney are well known by their bank checks and characteristic signatures.

Every farmer can benefit by this business like method of paying bills, obtaining receipts and building commercial prestige.

We welcome new accounts with an assurance of friendly attention.

No depositor ever lost a penny by depositing in a state Bank in Texas

You are perhaps familiar with the law enacted by our legislators of this great State, relative to the Bank Guaranty fund, which went into force in 1909, which provided a fund to guaranty the depositors of all non-interest bearing and unsecured deposits in State Banks. This guaranty fund on June the 10th, 1920, had cash on hand to the amount of \$2,356,807.27 as shown by their report to the Commissioner, to back up this guaranty fund.

Are you availing yourself of this Guaranty? Why do you take out Hail Insurance? Why do you provide fire insurance? Why do you carry life insurance? Are you fully protecting your Bank balance, equally as important as any one of the above? You can avail yourself of this opportunity by depositing your money in the

Personal Mentions

Mrs. Grady Brewster returned to her home at Dalhart today after a couple of weeks' visit here with her parents, Mr. and Mrs. Z. T. Riley.

Mr. Hays and family, of Parker, moved here Tuesday and will make their home in the Roseland community.

Mr. Jarbo, of Oklahoma, after a visit here with his son, left Monday for his home.

D. M. Hodges, of Silverton, was here Tuesday on business.

Mr. Fred Gilbert and sister, Miss Ethel, visited in Amarillo last Sunday.

Mrs. Mary Lane has purchased the Burton Thornton place and moved to same Tuesday.

Mr. Ashel Cross, of the Rock Creek community, Briscoe county, was here Wednesday, doing some trading.

Roy McMurry, of Tulla, was here Tuesday looking after business matters.

Earnest Fry and family and Mrs. Lillian Britton, of Floydada, were here Sunday, visiting relatives and friends.

Mr. Price, of New York, was here land interest in this and adjoining counties.

Mrs. Long and daughter, of Burnett, are here visiting their parents, Mr. and Mrs. J. F. Vernon.

J. F. Vernon left today for Holland, Bell county, on a visit to his father, who has been in very poor health for the past year.

Mr. Steel Swain, of Memphis, Texas, is here doing some work for one of the schools north of town.

Mr. and Mrs. Henson, of Arkansas, came in last Saturday on a visit to their daughter, Mrs. Arlie Suits. Mr. and Mrs. Henson are contemplating purchasing a home here.

Elder and Mrs. Liff Sanders visited with friends in Lubbock Monday.

Claude Thornton and I. M. Hess each purchased a little Overland 4 from C. R. Hatcher this week.

J. D. Hatcher, Jr., of Nashville, Tenn., is connected with C. R. Hatcher in the insurance and automobile business.

J. M. Cone, of Ranger, Texas, has located in Lockney and opened up an auto top repair and paint shop, in the Middleton Building south of Woodridge Lumber yard. Mr. Cone can make you a new top and upholster your car.

Mrs. Z. W. Shackerford returned Wednesday from Abilene where she placed her son in school at the Christian College. She visited her mother at Clyde before returning home.

Irvin Bennett has sold his 320 acre farm east of Lockney to Mr. Cauwell, at \$60 per acre.

Mr. and Mrs. Ben F. Rigdon made a business visit to Amarillo Sunday.

Miss Mary Stone left last Saturday for Hamlin on a few days' visit, and from there will go back to Wynoka, Okla., where she has a position with the Santa Fe.

J. D. Hatcher, Jr., of Nashville, Tenn., is here visiting his brother, C. R. Hatcher. He will locate in Lockney and be associated with his brother in the insurance and automobile business.

Mrs. T. T. Myrick, of Collin county, has moved to Floyd county, having purchased the Odell half section in the Pleasant Valley community.

Burton Thornton and family left last Sunday for Hereford where they will make their home for several months, looking after the improving of their section of land recently purchased.

Three Important Things to Get in Fall Clothes

- 1 GOOD QUALITY
- 2 GOOD STYLE
- 3 A FAIR PRICE

Hart Schaffner & Marx clothes cover those three points better than any clothes we know of.

We're making your profit a bigger one by cutting ours "to the bone"

E. L. AYRES

The home of Hart Schaffner & Marx clothes

The Store With Beautiful Furniture

The home in which your grandparents were reared was no doubt neat and comfy, but you would never be satisfied to live amidst such surroundings because you have acquired the quality known as discriminating taste, and you have ideas which your grandparents never dreamed of possessing.

The higher your ideals the higher your plans in life. If you start your career by fulfilling your ideal for a beautiful home, you have won in the first battle with

the world, and the succeeding battles are all easier.

A home to be properly furnished must harmonize. The walls, the rugs and the draperies must blend with the style and finish of the furniture, if good taste is not to be affronted.

You have but to ask our advice about home decoration, and it is cheerfully given. We are here to serve to our utmost and in serving we strive first of all to please.

LINOLEUM

We have just received several new patterns of linoleum, both in printed and inlaid.

Notice to the Automobile Public

We have discontinued our work shop altogether. We will give special attention to vulcanizing and the tire business, and storage.

Fortunately we have secured the help of Mr. A. C. Hendrix, of Paducah, who has had 5 years' experience in the vulcanizing business. All vulcanizing guaranteed.

TIRES

We are now handling the famous Kelly-Springfield and Goodyear Tires.

If you need anything in Tires, Automobile Accessories, Gasoline and Oils call and see us.

AUTOMOBILES

We are also agents for the Hup, Chandler and Cleveland Automobiles. Also the Cletrac Tractor.

Car washing a specialty. Battery Station in connection.

We handle the old reliable Exide Batteries.

HIWAY GARAGE

W. J. and Fred Griffith

EXPECT TO SEE A RAILROAD BUILD HERE IN NEAR FUTURE

Many people coming here from other places express the opinion that Silverton is to have a railroad in the not far distant future, and their opinions are based upon what they are able to see from the outside. We are informed that Mr. Kemp or Mr. Kell of Wichita, either of whom are railroad builders of no mean ability, and who have for many years been interested, we are told, in seeing a road built to this part of the country, has purchased the road which runs out to Spur, and if this is true, it is thought that it will mean an extension of this line, and when it is extended there is little doubt but what this section of the country lying along the east edge of the Plains will be traversed by it. A great many people living at the railroad towns on the Plains are looking this way, and investing in lands here in order to be in on the ground floor when the road does come. We are sure that there is no part of Texas where a railroad would be a more profitable investment than through this section of the country.—Silverton Star.

FOUR ACRES OF WATER-MELONS WORTH \$1,300.00

A. R. Hanna, who lives 8 miles west of Floydada, near Sandhill, will finish within a few weeks hauling his melon crop to town, and figures he gave last week indicate that the crop will prove before the close of the season a very profitable one.—even more profitable than wheat raising.

The melon field consists of four acres on his farm. Last week he had already hauled in excess of \$960 worth of melons to market and had approximately \$500 worth more to come. The melons are large and of excellent texture and flavor.

The figures given are only for the melons actually marketed, Mr. Hanna said recently in Floydada, the sales from the field being made by his children, and the money not taken into account in estimating the value of the crop at above \$330 an acre.—Hesperian.

W. R. Lewis and family are moving to Dallas, where he will be in charge of the Lewis Rubber Co., wholesale distributors of automobile tires. This family has many friends here who regret their departure. The Judge served as county judge of Hale county for four years, and was especially energetic in building up the schools of the county.—Plainview News.

SILVERTON ITEMS

Chester Skeen and Misses Cleync Fort and Cara Belle Biffle have returned to school at Clarendon from here, and J. H. Persons and Glen Lewis have gone there from Quitaque.

Many of our local truck drivers recently volunteered their work on the bad places on the road west of town, and much good was accomplished. This is very commendable and shows them to be public spirited. It is hoped that these roads will soon be drained and graded up so they will be easily kept up in shape. There are only a few bad places.

Houston Hanna the 26-year-old son of Mr. and Mrs. R. I. Hanna was accidentally killed on the ranch in Ochiltree county last Saturday morning while out alone hunting. He was found, about three hours, it is thought, after he died. As he was at a fence it is thought he accidentally discharged the gun, which was a 12-gauge automatic shot gun, while climbing through the fence. His father and mother were at their new home in Arkansas when the accident happened. The funeral services were conducted at their home in Ochiltree county, and the remains then brought here for interment, the parents accompanying them. Burial took place here Wednesday afternoon in the presence of a large number of the former friends of the family and others.—Silverton Star.

JAP PROPOSAL ON CALIFORNIA LAW OPPOSED

Washington, D. C., Sept. 29.—Administration officials decline to discuss for publication any of the phase of the negotiations with Japan growing out of the proposed anti-Japanese land law in California, but the impression has gone out that a proposal from Tokio that the question be referred to a joint commission for solution would be unacceptable.

The conversations regarding the California law which have been going on between Ambassador Shidehara of Japan and State Department officials are continuing, and so far as has been learned, the proposal for a joint commission has not been formally communicated to Washington by the Japanese Government.

Conflicting opinions of both American and Japanese authorities on international law are said to have made the task of the State Department officials and the Japanese Ambassador more difficult. Proponents of the California law say that California, in enacting a measure barring the Japanese from owning land in that State would be refusing to the Japanese in this country no rights or privileges which are not refused by Japanese law to Americans in Japan.

Japan contends that the California law, which is to be voted on in November, is discriminatory because it does not apply to all foreigners alike as does the Japanese law. The suggestion has been made in Tokio that if the law is enacted it be tested in the United States Supreme Court. Some Japanese authorities on international law admit that this would be effective as they

state frankly that the proposed California law conflicts neither with the Constitution nor with the terms of the American-Japanese treaty.

PLAINVIEW NEWS ITEMS

John R. Snyder died at the home of his son, P. B. Snyder, seven miles south of Plainview, Friday, of old age. The funeral was held at the Snyder home this morning at 10 o'clock, the services being conducted by Rev. J. C. Charles from Hesston, Kans. Interment followed at Plainview cemetery.

Mr. Crozier, mail carrier between Plainview and Quanah, tells us of a well on Wm. Wicker's place, near Olton, which is now flowing water. The well is seventy feet deep, was drilled eight years ago, and is equipped with a windmill and pump. Several weeks ago water began flowing from it, and when the windmill was running the water flows out on level ground. He says it is the first flowing well he has ever heard of on the Plains.

The subscription list for the capital stock of the proposed grain elevator to be erected in Plainview by local wheat growers and others now shows about \$50,000 subscribed. It is proposed to raise \$120,000 in stock, and Rose in charge of the subscription list is optimistic that it can be secured. It is proposed to build a modern elevator of 250,000 bushel capacity. When more than half of the stock is subscribed, a meeting will be held and directors and officers elected.

The three Plainview banks have four million dollars in deposits, as

shown by their statements as per call at the close of business Sept. 8. This is the greatest amount of money in the banks ever shown by statements, and indicates the prosperity of the Plainview Country.—Plainview News.

TWO SECTIONS LAND SOLD NEAR HERE TONIGHT

Hereford, Texas, Sept. 27.—The steady trading in land and city property so manifest during the past few weeks, continues unabated. Among the sales announced the past week are the following:

D. C. Laird sold one section of his Castro County ranch to S. A. Henry of Lockney, Texas, for \$25 per acre, and 300 acres of another section to W. R. Allman of Floydada, Texas, for \$30 per acre. Both tracts are part of the old OYO ranch, five miles north of Dimmitt, and are unimproved. Both purchasers intend to improve their new holdings at once and become resident citizens.

DURANGO COTTON AT SNYDER BRINGS 32

Snyder, Texas, Sept. 27.—A local cotton buyer bought a bale of Durango long staple cotton which was grown at Polar, twenty miles north of Snyder, for 32 cents, ten cents above the quotation for middling.

Several farmers here began growing this cotton last year and it is gaining in favor with them.

TWO SCORE RADICALS WILL BE DEPORTED

New York, Sept. 27.—Two score radicals held at Ellis Island or deportation to Russia will be sent to the Boston immigration station until means is found to transport them.

This announcement was made today after Louis F. Post, assistant secretary of labor, had inspected the Ellis Island station which has been so crowded by immigrants that it had to close its doors to new comers.

Most of the deportees have been held by the Federal authorities several months, and others have been captives for several years.

GETS FIRST BALE OF COTTON

The first bale of cotton to be picked in this county this year, and possibly the first for the Plains, was picked by A. M. McMinn of the south part of this county, ginned by the West Texas Gin Co., at Lockney a few days ago and sold to Less Floyd at \$25.20 per hundred. A premium of \$30 was given him.—Silverton Star.

Quality Goes Clear Through

PRICE Is not the most important consideration in the selection of an automobile. **Value is!**

The price of the Dort is not high, but it is sufficient to include important features that cheaper cars do not have. At the same time it is much lower in price than other cars which possess those features. It will, therefore, satisfy the purchaser who has paid more for a car in the past—while to him who has paid less it will prove an unexpected revelation.

Model 15 Dort Touring Car appeals to a desire for beauty and comfort as well as in its simple and sterling mechanical factors. It is a trim, well finished automobile, of correct proportions, with riding and driving qualities quite distinctive among cars of its class. In designing an automobile it is quite as important to provide for taking the car apart as it is for putting it together. Some automobile engineers seem to overlook this fact—consequently many cars are so hard to "get at" that garage attention—always based on time expended—becomes unreasonably costly. Not so with the Dort.

SIMPLICITY AND RESERVE STRENGTH are CHARACTERISTIC FEATURES of this ADMIRABLE DORT CHASSIS. **QUALITY GOES CLEAR THROUGH.**

Dort engineers have built a chassis so free of complications that it is possible for the mechanically inclined owner to disassemble it after a brief attentive study of its construction. For the same reason it is particularly easy for the average garage man to give quick and inexpensive aid should the occasion arise. Combine simplicity with the rugged strength of carefully selected and tested material and over-size parts where stresses occur, and you have a fair word picture of the Dort chassis. Usage with the least possible interruption and at low cost of up-keep, are factors and find in the Dort.

SPECIFICATIONS

DORT MODEL 15 FIVE PASSENGER TOURING

FRONT SPRINGS—Semi-elliptic, 2 inches wide, 37 inches long.

REAR SPRINGS—Cantilever, 2 inches wide, 48 inches long.

TIRES—Goodyear 30x3 1-2. Non-Skids on rear.

REAR AXEL—Three quarter floating, nickel steel gears. Differential and pinion adjustable in both directions from outside of case. Propeller shaft mounted on Timken roller bearings; axel shafts are on Hyatt high duty roller bearings. Axel shafts are nickel steel, heat treated.

ENGINE—Four Cylinders cast on block. Cylinder head is removable to permit the removal of cam and re-grinding of the valves when necessary.

BORE—3 1-2 inches, stroke 5 inches.

IGNITION—Connecticut with spark control above steering column.

STARTER—Westinghouse gear driven generator. Ammeter with switches on cowl instrument board.

PRICE OF DORT Model 15 \$1,250 DELIVERED

Prices guaranteed. If there is a reduction within thirty days the difference will be refunded.

DIST. COURT JURY DOCKET SET FOR NEXT WEEK

The jury docket for the Floyd County District Court has been set to begin Monday of next week by District Judge Joiner.

The grand jury empanelled for this term of court worked Monday and Tuesday of this week, and adjourned to await the arrival of District Attorney A. C. Hatchell, who is in California, his wife being ill there. R. C. Scott is foreman of the grand jury, the other members of which are: F. M. Butler, D. W. Fyffe, J. H. Byington, A. A. Beedy, W. J. Hulsey, E. W. Holmes, F. T. Emert, L. E. Williams, A. S. Cummings, E. P. Thompson, W. Z. Hawkins. Bailiffs for the grand jury are: H. S. Bolin, J. R. Maddox, W. A. Hendrix and M. T. Sanders.

The case of Martin vs. Merrell was continued to make parties. The suit is for partition of the estate of D. A. Merrell, deceased, and involves land in the edge of Floyd and Motley counties.

A compromise judgment was entered in the case of Zimmerman vs. Minor C. Keith et al, growing out of the death of Alice Zimmerman, a minor daughter of Mr. Zimmerman who was killed when a part from an engine on one of the farms of the Texas Land & Development Company in the northwest part of Floyd county, struck her. The judgement agreed upon was the cancellation of a \$9,000 judgement held by the defendants against plaintiff and the payment by defendants of costs of suit.

The case of Owens vs. J. Barton Payne, director general of railroads, is set for Monday of the 4th week of court.—Hesperan.

MEET AFTER SIXTY YEARS

H. Riley of Farwell is here visiting his niece, Mrs. R. M. Peace. Mr. Riley has just returned from a six thousand mile trip in his car to Montana, to see a sister whom he had not seen for sixty years.—Plainview News.

INDICTED FOR BETTING ON RECENT ELECTIONS

We are informed that the grand jury returned several indictments against local persons, charging that they bet on the results of the recent primary elections.—Plainview News.

Editor Guy R. Scott, of the Hale Center Record, informs us that he has ordered the remains of his son, who was killed in battle in France, to be brought to Plainview, for re-burial in the cemetery here.—Plainview News.

WANTED--Clean Rags at Beacon Office

Was Very Weak

"After the birth of my baby I had a back-set," writes Mrs. Mattie Crosswhite, of Glade Spring, Va. "I was very ill; thought I was going to die. I was so weak I couldn't raise my head to get a drink of water. I took . . . medicine, yet I didn't get any better. I was constipated and very weak, getting worse and worse. I sent for Cardui."

TAKE

CARDUI

The Woman's Tonic

"I found after one bottle of Cardui I was improving," adds Mrs. Crosswhite. "Six bottles of Cardui and . . . I was cured, yes, I can say they were a God-send to me. I believe I would have died, had it not been for Cardui." Cardui has been found beneficial in many thousands of other cases of womanly troubles. If you feel the need of a good, strengthening tonic, why not try Cardui? It may be just what you need.
