Illiteracy is not confined to any one section of our country but it s heavier in rural communities than in the larger cities. Nor is it to be attributed to the foreign-born for there are twice as many native-born illiterates as those of alien birth.

There are two major reasons for this condition. First, failure of too many communities to realize the importance of education and to subordinate their support for lesser civic enterprises. Next, the lack of accessibility to schools in sparsely settled communities. The Better Schools League is working in co-operation with rather than in competition with the other existing national organizaions in its efforts to make attainable improvements in individual situations Thus aid in organizing the best means for financing, equipping and conducting schools is given; a clearing house for the school activities of the nation is provided; and an agency familiar with the problems both of city and country schools is at hand.

INTELLIGENT SELFISHNESS

When we say "our man is to serve you" it sounds like bunk, Joesn't it?

But we really mean it.

We're far-sighted enough to know that you people will reward good service.

Our immediate profits will be smaller, to be sure, but in the long run we'll be ahead.

That isn't bunk; it's intelligent selfishness.

CHEVROLET

CHEVROLET QUALITY IN ENGINE

Power to speed over the steepest hills-to pull through the most difficult roads. Endurance that gives dependable, trouble-free performance and long life. Economy-the greatest in any automobile engine.

These are outstanding characteristics of Chevrolet's famous valve-in-head motor.

The Chevrolet power plant includes a modern 3-speed sliding gear transmission with hand lever, Remy electric starter, generator and ignition-water pump to insure perfect cooling, and oil pump for efficient lubrication. The fel is fed by a modern vacuum feed system.

This is the type of construction found on cars far above Chevrolet in price and it is a fair indication of the quality to be found in a Chevrolet car throughout.
