

Good Program Rendered at Noon Luncheon

Better Attendance and Good Program at Last Monday's Luncheon

More than thirty business men attended the regular weekly luncheon of the Chamber of Commerce last Monday at noon, and a good dinner and an enjoyable meeting was the result.

Misses Griffin, Hazel Gruver Ruth Stapleton of the Lockney Ukelele Club which was appreciated by those present.

Mr. Stokes of the Stokes & Shields Land Company, who are putting on the McKoy Place Addition to Lockney, was chosen as official Nightingale for the Lockney Chamber of Commerce, and will furnish musical programs for each Monday luncheon in the future.

Topics concerning the opening of the streets in the north side of town, the marking of streets and numbering of houses, and also the Lee Highway meeting at Floydada were brought before the organization at the business meeting.

A committee was appointed to confer with the City Council at their next regular meeting to see what could be done in the way of getting the streets of the city marked and the houses numbered.

The Chamber of Commerce meets every Monday at noon at the Hill Cafe and all business men, farmers and laborers are urged to attend these meetings and take part in the same.

The following will be the program for the next regular luncheon:

Program
Music—Ukelele Girls.
Invocation—A. J. Crager.
Eats—Everybody.

Song—"Hail! Hail! The Gang's all Here—Led by Melvin Stokes.

Speech—Advantages of the City of Lockney over the State of Arkansas—Sam Miller. (Time limit three minutes.)

Minutes, New and old business.
Report from Highway Meeting—J. B. Downs (5 minutes).

Adjournment.
Length of the program will be for one hour only.

ARMISTICE PROGRAM AT BRICK NEXT FRIDAY NIGHT

There will be an Armistice program given at the Brick School house Friday night, November 11 according to Prof. R. V. Bond, principal of the brick school, who has secured the services of Prof. J. L. Dufloy of the West Texas State Teachers College as principle speaker of the evening. Prof. Dufloy will be accompanied from Canyon by a member of the Expression Department of W. T. S. T. C. who will assist in the program. There will also be musical entertainment to accompany the speakers. The ladies of the Home Demonstration club will serve lunch cafeteria style for the occasion.

A cordial invitation is extended the people of Lockney and surrounding communities to come and help celebrate the occasion.

BANQUET AT HARMONY WEDNESDAY, NOVEMBER 16

A community banquet will be held at Harmony on the night of Wednesday, November 16th at which plates will be laid for two hundred people. The banquet will be held in the new school auditorium just completed at that place, and the occasion will be a get-together meeting celebrating the completion of the new brick school building that has been finished this week.

Those desiring to attend the banquet can secure tickets from the following parties: L. A. Williams, Paul Williams, Everett Miller, Hal Scott, Juanita Tinnin, Lucille Snodgrass, or C. H. Heard.

A big time is being anticipated at this gathering, and will in all probability will be very instructive and entertaining as Dr. Paul W. Horn, president of Texas Tech, has been secured as principal speaker of the evening.

Proceeds for the banquet will be used toward paying for the seats in the new auditorium.

TRAYLOR FAMILY HOLDING REUNION AT A. B. BROWN HOME

The members of the family of Mrs. M. A. Traylor are holding a family reunion at the home of Mrs. Traylor's daughter, Mrs. A. B. Brown in Lockney this week. Every member of the family is present, and are as follows: Melvin Traylor of Chicago, Ill.; Marvina Traylor of West Point, Mississippi; M. M. Traylor of Malone, Texas; George Traylor and Mrs. A. B. Brown of Lockney, and the mother Mrs. M. A. Traylor, who has been visiting her daughter and son here for several months.

"The Finest Monument"

Complete Circuit On Light and Power Lines

Better Power and Light Service is Now Available in Town of Lockney; Sould be Continual Service

The new sub-station of the Texas Utilities Company in Lockney was completed last Tuesday afternoon and the power cut in on the town. This new station gives the patrons of the company at this place a larger voltage to draw from, and gives us connections so that when trouble occurs on one end of the line that by reversing the switch, power can be brought into action from the other plant, as the plants at Plainview and Lubbock are both cut in on this line, since the highline has been built from Floydada to Ralls.

The new station is much larger and carries a considerably larger volume of electricity than the station that has supplied the town in former years. The Lockney station is a separate station from the one that is supplying the Lockney Cotton Oil Company, both stations having been completed within the last month.

SHERIFF'S CONVENTION IN SESSION AT FLOYDADA

Many Prominent West Texas Officers in Attendance; Banquet Tomorrow at Noon.

The West Texas Sheriff's Convention is in session at Floydada today and tomorrow. Many notable sheriffs of West Texas are in attendance. The banquet of the association will be held tomorrow at noon and the sheriffs and many invited guests will participate.

Some of the outstanding officers from a distance present at the convention are Sheriff Jewett of Tom Green county, Sheriff Davis of Sterling City, Sheriff Russell of Robert Lee, and members of the Seymour Police Department.

A large number of the sheriffs and visitors are present from nearby counties, and the best meeting in the history of the association is being held.

PRESIDENT OF OIL MILL ARRIVED FOR OPENING

Mr. and Mrs. J. Ross Richardson and son, J. Ross, Jr., of Houston, Texas, arrived in Lockney Wednesday afternoon for a visit with Mrs. Richardson's father, Mr. Mathews, who is the electrical engineer superintending the work at the Lockney Cotton Oil Plant, and to remain in Lockney until the oil mill is set in operation.

Mr. Richardson is president of the Lockney Cotton Oil Company, and also president of several other oil mills over the State, and is one of the officials of the Anderson-Clayton Company.

December 15, 16 and 17 Date of Poultry Show

Meeting for November 22nd to Complete Plans For Show

December 15, 16 and 17 are the dates set for the Floyd County Poultry Show which will be held this year in Floydada under the supervision of the Floyd County Poultry Association. At a meeting held in the office of the Floydada Chamber of Commerce several members of the association agreed on the above dates and preparations for the best show ever held was started.

According to A. B. Muncey, president of the organization, another meeting will be held in the county court room on Tuesday night, November 22 and it is hoped that every interested poultry raiser in the county will be present. At this meeting plans for the show will be completed. It is believed that the catalogue containing a complete list of the premiums will be off the press and ready for distribution not later than December 1.

A feature of the coming show that is creating added interest is the grand prize to be given to some poultry raiser in Floyd County. This is a model poultry house built by members of the vocational agriculture class of the Floydada High school. O. T. Williams, instructor in this department is a specialist in the poultry line and will assist in making the show a success. The material for the house was furnished by the Higginbotham-Bartlett Lumber Company of Floydada.

LOCKNEY LONGHORNS LOSE TO SLATON TIGERS

Large Crowd Witnesses One of the Hardest Fought Games of the Season Here Friday

The Slaton Tigers defeated the Longhorns here last Friday by a score of 6-12 in one of the hardest fought high school grid battles in this country this season. The Tigers were a heavier team than the Longhorns but this did not dull the fighting spirit of the Longhorns. While the game the first especially was rather slow due to penalties it was indeed a thrilling game.

The Longhorns score came in the first five minutes of the play when a punt put the ball on the Slaton eight yard line where they were held for downs, the Longhorns then putting the ball over with line plunges and end runs, Riley, half scoring the touchdown. Slaton scored in the first and fourth quarters. The outstanding players on the Longhorn team were Fowler, Cooper, Riley and Seale.

MARRIAGE LICENSES

Only one marriage license has been issued at the County Clerk's office during the past week, the license being issued to J. C. Knox and Miss Maxine Frieze, on November 5th.

Sorghum Grain Crops Practically Harvested

Cotton Picking Now Getting Well Underway. Sorghum Grains Are Mostly Harvested

The picking of what promises to be a four or five thousand bale cotton crop in this section of the county is now getting well underway, and will in all probability by the last of the week be in full swing. While the cotton crop could not be termed a bumper crop this year, it will yield more than was expected at first considering the drought here during the planting season. A probable yield of from one-third to one half of a bale to the acre will be made in this section with some of the fields making a bale per acre. Taking in consideration the weather conditions during planting season and the lateness of of the planting this section is indeed reaping a good harvest.

The sorghum grain crops are now practically all harvested over the entire county. A bumper crop has been raised in the way of sorghum grains some of the farmers having harvested two different crops off the same land this year. The land which was sown in wheat, having been planted in cane, higeria, and other forage and grain crops. These have also yielded an abundant crop.

While the cotton is short this year the farmer is fast becoming financially independent. They are fast realizing that the cream and egg check is what is paying the bill and supplying the table. There are very few farms in this section at this time that does not either wholly or partly engage in the cow, sow and hen program. Both the retail merchants and banks now report each day the cream and egg checks are growing while the mortgages and other indebtedness is decreasing.

COUNTY SCHOOL BOARD IN BUSINESS MEETING

The county school board met at the County Superintendent's office in Floydada last Saturday on business and the following matters were disposed of for the present year:

The apportionment of the county for each child this year will be \$1.25 against \$1.50 which was allowed per capita last year. The reason for the decrease was for the reason that the fund they had drawn on for the past two years was exhausted and it became necessary to cut the apportionment to 2c so as to take care of it out of the regular school fund.

Two vacancies in the district school trustees were filled at this meeting. J. H. Phillips of the Lone Star community tendered his resignation as a trustee of the Lone Star School and Bert Bobbitt was appointed to fill his vacancy. In the McCoy community R. D. Cox tendered his resignation as a school trustee and Mr. A. Curry was appointed to fill the vacancy.

The rural schools of the county were all classified as to the grades they would be allowed to teach, and the classifications were as follows: One teacher schools will teach seven grades; two teacher schools will teach eight grades; three teacher schools will teach nine grades, and four teacher school ten grades. Children above the grades taught in their school districts will be allowed to go to the districts where the higher grades are taught and the school district will pay the tuition for such children to the district in whose school they are entered.

LOCKNEY ALL-STARS WIN WIN FROM FLOYDADA 25-12

The Lockney All-Star girls' basketball team took a fast and thrilling game from the Floydada All-Stars last Tuesday night at the Andrews Ward court. These teams are composed of ex-students of Lockney High school. Both have developed the past months into two of the fastest teams in this section of the state. Those composing the Lockney team are M. Jarnagin, Dutton, Prickett, Shelton, Nicholas, Mann, Griffin, and Threet.

VISITS OF THE STORK

Born to Mr. and Mrs. R. D. Harper, 14 miles northeast of Lockney, Thursday, November 3rd, a girl.

Carl Childs, 4 miles east of Lockney, Saturday, November 5th, a girl. L. D. McReynolds, Aiken, Saturday, November 5th, a boy.

Russell Smith, 3 miles north of Lockney, Tuesday, November 1st, a boy.

DR. S. T. COOPER HAS MOVED TO LOCKNEY

Dr. S. T. Cooper, chiropractor, D. C. Ph. C., graduate of the Palmer Method, has come to make his home in Lockney. For the present he will maintain an office in his residence at his father's old home on South 4th Street. His experience in handling the sick is at your service.

Large Attendance At Highway Meeting

Road Men and Officials Present From Eight of the Nine Counties On Lee Highway

As announced in last week's paper Dr. S. M. Johnson, president of the Lee Highway Association spoke at the court house in Floydada last Tuesday afternoon, beginning at one o'clock. Dr. Johnson told the story of the conceiving of the idea of the transcontinental route and of his work in getting the line designated from the Atlantic to the Pacific Oceans, and of the progress in getting the road paved the entire length. He also told of the worth of the road to each county which it traverses, and the benefit that it will be when paved its entire length.

The Lee Highway when paved across the nation, and it only lacks a few counties, one of them being Floyd of being paved, or where bonds have been voted for paving purposes, will be the only transcontinental route in the United States that will span the continent and be open the year around for travel. Dr. Johnson pointed out that the Northern part of the United States had built the first railroad across the United States and had profited wonderfully because of the fact that they could reach the Atlantic or Pacific Coast by the Northern Route, thereby building up that section of the country through which ran, and developing that section far ahead of this section of the country for the reason of the transportation advantages, and that in building the Lee Highway, and paving it, across the South, the South would have the first transcontinental route across the country that the automobile could travel, and today as the Nation does not ride on railroads, but ninety per cent of the population travel in automobiles, the Lee Highway will be worth more to the South when it is paved across the country, than the railroad was worth to the Northern part of the Nation. He further pointed out there was only one other transcontinental route and that was the Lincoln Highway. This highway is not a year-round route, as there is five months of the year that portions of this road are under thirty feet of snow and is closed to general travel.

He dwelt upon the proposition that the Lee Highway is worth more to Floyd county than a railroad as most of the freight as well as the passenger traffic was handled today over the highways, and the Lee Highway being a main artery of the Nation it would bring far more development to the county than could be expected from any other source.

Dick Coffee, of Vernon, Texas, was present and made a short talk telling of the designation across this particular stretch of country and of certain counties to the South who would be very glad to get the designation of the Lee Highway changed so their counties could receive the benefits of the same.

Talks were made by county judges, commissioners, and secretaries of chambers of commerce from eight of the nine counties along the line. Parmer county being the only county in the Texas Division that was not represented at the meeting. Several of those making speeches had quite a bit of fun at the expense of Floyd county for being the only county that has not voted the bonds to pave with, and that have not succeeded in getting up their part in putting the road through.

On account of there being so many visitors present and all of them willing and ready to talk the afternoon was taken up in speech making and no business concerning the ordering of another election was transacted. Another meeting will be held later, when representative men from every precinct in Floyd County will be asked to take part and a petition will be circulated calling for another election.

TWO UNUSUALLY GOOD PICTURES NEXT WEEK

The Isis Theatre will show on next week's program two high-class pictures, the first picture of the week, to be shown Monday and Tuesday nights is "Chang" this being a super-special picture produced by the Paramount Company, and of recent release. On Saturday night the Isis will present the famous Zane Grey story, which has been released by the Paramount Pictures entitled, "Nevada." Lovers of Zane Grey's stories will find a great treat in this super-special Paramount Picture, dealing with the habits and characteristics of the West.

Mrs. Paul Ramsey and Mrs. Shaw of Tulsa spent last week in Lockney the guests of their old time friends, Mr. and Mrs. D. P. Carter.

The Lockney Beacon Entered April 14th, 1902, as second class mail matter at the Post Office at Lockney, Texas, by act of Congress March 3rd, 1879.

THE FAULT WITH OUR JURIES

It is significant that there should arise a great volume of criticism of the American method of jury selection just at the time when an especially disheartening fiasco occurred in a famous case. William Howard Taft, chief justice of the Supreme Court and a former president, is one of the critics. Mr. Taft has been a leader in the effort at reform of the Nebraska, chairman of the judiciary committee of the United States in another. Senator Morris declares that he will carry before Congress a campaign to change the system of jury selection so that better juries may be obtained. Law enforcement is no better than the average of the public, it has been said. In this country, in recent years it would be more proper to say that law enforcement can attain no higher standards than the average of juries. And, under conditions which have become intensified in latter years, this is to say something entirely different. Juries no longer represent the average of the public, and that is one of the chief things that is wrong with law enforcement today. Every lawyer knows and every intelligent citizen who has ever observed the maneuvers of lawyers in selecting a jury in a criminal case knows, that it is not the aim to obtain a jury of the most intelligent citizens. The cynical watcher may be led to observe that the object is to insure that no intelligent gets on the jury. We can not have competent juries when citizens are barred from them merely because they have kept their intelligencies open to learn something about the case that is on trial. Mr. Taft thinks court procedure should be reformed so that a man may not be barred from jury service simply because he reads the newspapers and has intellectual communication with his fellow citizens. Sen-

ator Morris thinks the same thing, and is resolved to head the fight in Congress. Senator Morris comes right out and says that under present methods of jury picking a jury of average intelligence below normal is a certainty. And these juries have in their hands the administration of our laws. It does not matter how many policemen we have or how efficient they may be. After the arrest it is the jury who holds the enforcement of our laws in their hands. It is the jury who must thread its way through the conflicting maze of testimony, which must listen to, and must weigh the arguments of the attorneys on both sides. For such work the most intelligent of our citizen-ship is needed.—Star Telegram.

COUNTY BRIEFS

SAND HILL

Miss Tessie King entertained the young folks of the community with a party at her home on Saturday night. Everyone reported a good time. Bro. Joe W. Kelly of Abilene will preach at the Church of Christ Sunday the 27th, at eleven o'clock. Mr. and Mrs. G. D. Tate spent the week end in Amarillo. Ada Stewart is reported to be very ill with scarlet fever this week. A number of the older pupils started back to school this week as most of the maize in this section of the country is gathered. The Sand Hill Girls' Basket Ball team will play Aiken Friday at four fifteen o'clock. The is expected to be a very hard fought game.

STARKEY

Sunday school was well represented Sunday morning. There are others that should be coming. Bro. Humphries preached a fine sermon after the Sunday school service. Our school turned out last Friday week for the children to help in the fields. Most people in this section are about thorough harvesting their feed crops but very few have begun pick-ink cotton. Mrs. J. W. Howard attended church at Cone Sunday morning. Bro. Humphries visited in the home of Mr. and Mrs. J. L. Elmore Sunday. Some of the young folks of this community attended church at McCoy Sunday night. Miss Willie Mae Atkinson visited Miss Mary Lee Jonas of McCoy Sunday afternoon.

Miss Joyce Grigsby of our club won State prize at the Dallas Fair this year. Mr. and Mrs. S. C. Poteet and family visited in the home of Mr. and Mrs. T. R. Atkinson Sunday. Mrs. J. W. Howard and Mrs. J. L. Elmore visited Mrs. Geo. Attaway Wednesday afternoon. Miss Sallie Rattan, Primary teacher in our school returned to her home near Matador Monday morning to remain until school opens again. Bro. Attaway visited in the home of Mr. and Mrs. T. R. Atkinson Sunday. Mr. and Mrs. E. N. Jennings visited her parents Mr. and Mrs. Ragle of Rails Sunday. Mr. and Mrs. Buck Sullivan of McAdoo spent the week end with his mother, Mrs. Hattie Finley.

LONE STAR

Miss Stella Smith and Mr. Billy Williams were married Wednesday of last week. They are both prominent young people of the Lone Star community. Mrs. T. S. McGehee is entertaining on Friday afternoon in honor of the bride. Mr. J. H. Phillips left Tuesday for Hot Springs, New Mexico where he will stay for a time for his health. Mr. Lavander Street has sold his interests here and will leave for Oklahoma some time this week. The Volunteer Band of Wayland College were at Lone Star Saturday night and Sunday. The church here made a liberal donation toward the new car which the band is using. Mr. and Mrs. W. W. Cooper of Aiken visited Mr. T. J. Jarboe and family Sunday.

PLEASANT VALLEY

The chill November days are a thing of the past. Let us hope the lovely sunny weather will continue. Mr. and Mrs. W. O. Shurbet spent Sunday afternoon with Mr. and Mrs. Ed Pratt. Mr. and Mrs. H. W. Visor, Mr. and Mrs. Stokes Rosser and children of Plainview visited their daughters and sisters Mr. and Mrs. Wade McClure Sunday. Mr. and Mrs. Lee Reeves made a trip to Delwin, Texas Friday to visit Mrs. Reeves sister, Mr. and Mrs. Hubert Thompson. They report a very good time. Mr. and Mrs. W. H. Fields and family visited Mr. and Mrs. E. R. Barker and family Sunday. We are very sorry to hear that Marvin Shurbet is suffering with his

knee which was hurt in a foot ball game some ten days ago. We surely hope he will soon be up again. Mr. and Mrs. F. U. Payne, Mr. and Mrs. Craft and children visited Mr. and Mrs. Ed Pratt Sunday afternoon. The school literary society met Friday afternoon, November 4. Quite a number of visitors were present. The short program rendered by the pupils seemed to be enjoyed by all. Mrs. D. M. Jordan of Mertens, Texas is visiting her daughter, Mrs. W. C. Hubbard. Mr. and Mrs. Claude Harris and children spent Sunday afternoon with Mr. and Mrs. W. M. Ferguson. Cannon Visor who is attending Tech at Lubbock spent Sunday with his sister, Mrs. Wade McClure. Mr. and Mrs. C. J. McCarty and son, Aubrey took Sunday dinner with Mr. and Mrs. W. C. Hubbard. Let us not forget that Armistice Day is coming, November 11th. The boys "did their bit" for us "over there." Let us not forget so soon what this day means. Everyone is invited to come to the school house November 11, Friday evening about eight o'clock. The school children are to give a short program followed by a talk by Elder Early Arceneaux, of the Church of Christ at Lockney. You are invited to come and spend a pleasant and profitable evening with us. Mr. and Mrs. W. L. Craft motored to Floydada Monday afternoon.

MAYVIEW

Sunday school and B. Y. P. U. were well attended Sunday. J. W. Miller who has been in Cleburne for two weeks on business returned Friday. The Methodists met in Conference Monday night. Quite a crowd was present at the birthday dinner given at W. W. Emerts Sunday in honor of his father F. T. Emert. Gertrude Davis who is staying in the Irick community visited in this community with home folks last week end. Ira Ardry and Catherine Davis, Oran Hatley and Robbie Lotspich were visitors in the Irick community Sunday. Lillie Dee Robertson of Campbell visited Winnie McNeil of this place Saturday night. The McNeils went to Tom Emerts Monday night and heard the "Sunflower Girls" over the radio. Mr. and Mrs. C. A. Smith and daughter visited in Lubbock Saturday and Sunday with Mrs. Smith's sister, Mrs. J. S. Jarrett. Several of this community attended the singing at Baker Sunday afternoon. Remember Sunday School Sunday at ten o'clock. Be on time.

HARMONY

A community meeting was held at Carr's Chapel last Tuesday night to make plans for the banquet which is to be held in the new auditorium at Harmony November 16. Plans were made to serve 200 plates. Anyone desiring a ticket will see L. A. Williams, Paul Williams Everett Miller, Hal Scott, Juanita Tinnin, Lucille Snodgrass, or O. H. Heard. Mr. and Mrs. R. B. Gary, Mr. O. H. Heard and Miss Blanche Scott motored to Lubbock Sunday afternoon to see Dr. Paul W. Horn about the giving of the main address at the banquet. We are glad to report that Dr. Horn kindly agreed to come. Miss Blanche Bass met with the home demonstration club Wednesday afternoon at the home of Mrs. O. H. Heard. Plans were perfected for the menu to be used at the banquet. A splendid feed and an instructive program is promised to all attending. Proceeds of the banquet are to be used in buying seats for the new auditorium. The Epworth League council met in regular session Friday night at the home of O. M. Tinnin. Programs were arranged for next month. Mr. and Mrs. L. E. Williams entertained the members of the league and their friends with a social Saturday night. Mr. and Mrs. Albert Chubb and Mr. and Mrs. W. B. Williams of Floydada visited relatives in this community Sunday. Miss Ruth Johnson of Weatherford is here visiting her sister, Mrs. Walter Hanna. The Women's Missionary Society met in a call meeting Monday of last week. Several new names were added to the roll and a very inspirational meeting was enjoyed by all present.

CENTER

Cotton is beginning to be the usual sight on our roads these days. A few have gone over their fields once while others are just beginning to snap their cotton. The road grader is now working in our community. Mr. E. W. Lightfoot and family went to Lone Star Sunday to hear the Wayland Volunteer band. Their daughter Cecile was one of the members on the program. Mrs. Tivis was on the sick list yesterday but was able to be about again today. Mr. and Mrs. Claud Carpenter entertained with a social Saturday night. A good crowd was present and lots of fun was had. Mrs. Montgomery and children took Sunday dinner with the Klerim fam-

ly of South Plains they report a pleasant visit. Mr. and Mrs. W. A. Huckabee entertained at dinner Sunday. Mr. and Mrs. C. Veach and children, Mr. and Mrs. Craig and daughters, Myrtle, Mr. and Mrs. Burly Veach and Mr. and Mrs. Earl Branson, Miss Nova Austin and others were callers in the afternoon. Mr. and Mrs. C. O. Spence took Sunday dinner at the Jordan home. Mr. and Mrs. A. A. Tubbs visited

their parents at Floydada Sunday afternoon. Messers T. L. King and Olin S. Miller and family visited at the King home in the afternoon. Little Miss Elnora Miller is just over the chicken pox and the King children have had it. Inez Spence also has a case. CITY MARKET—Fish and Oysters.

SELLING CORN AS PORK IS FAVORED

At present prices of hogs and corn, the farmer who speculates in hog feeding will make little money, but the man who has the hogs and who has raised corn enough to feed them can make money by selling his corn as pork.

Records carefully kept on 2,276 head of hogs fed by farmers from January first to July first of this year show that these animals were sold for \$48,904.97. The actual net profit on these hogs was \$11,687.28 which was a return of 31 per cent on the investment. Of course, these animals were fed according to demonstration methods advocated by the county agents and swine extension workers of North Carolina State college. Both the farmers doing the feeding and the county agents who helped, kept careful records.

The figures show further that the corn fed to these hogs was sold for \$1.62 per bushel. The hogs sold for an average price of \$11.58 per hundred pounds and netted the growers \$10.89 on the farm. The total dockage for soft and oily condition amounted to only \$56.75.

Indications are now, states W. W. Shay, swine extension specialist, that hogs will return very little over the market price for corn but by sticking to the system which has now been successfully established by many growers, the owner will be making money and at the same time, he will hold his machine in readiness to convert the corn crop of 1928 into pork at a good price. There is certain to be a heavy crop of corn planted next spring because of the shortage that will probably exist this winter. If the season is favorable to corn growing next year, there will be a large crop of cheap corn. In the meantime there will be a shortage of hogs, due to lack of feed this winter. Few hogs and much corn, mean a profit to the man who has both.

Therefore, Mr. Shay believes that the man who is established in the hog feeding game, should make his plans now for the year 1928.

Alfalfa for Brood Sow Is Extremely Valuable

It is a well recognized fact that alfalfa is the best hog pasture crop we have. Every hog producer should have a patch of it for that purpose. He should have more than that; he should also provide alfalfa hay for his brood sows as well as for his fall pigs. The fact is that alfalfa hay should be provided for all farm live stock. It can be grown on practically every farm in Iowa, though in most cases liming of the soil will be necessary in order to get a stand, says the Iowa Homestead.

Mature brood sows that are being fed one pound of corn per 100 pounds live weight per day and one-fourth of a pound of tankage per head per day in addition, will eat half to three-fourths of a pound of alfalfa hay daily. The great value derived from the feeding of it lies in the fact that it gives bulk to the ration and because it furnishes protein, mineral matter and vitamins. Its vitamin content seems to be extremely valuable.

Plan to Prevent More Common Diseases of Hogs

If all hog producers were thoroughly conversant with the known facts about worms and the more common hog diseases, and then followed the methods of feeding and handling of the brood sows and their pigs known to be the best, there would seldom be need for worming and dipping of the pigs. Unfortunately, however, such is not the case. The vast majority of farmers are still raising their pigs in lots that have been used for that purpose for ten to twenty or more years which are therefore literally filled with worm eggs and disease germs.

Live Stock Facts

This is the time of the year to be on the lookout for the spread of hog cholera.

Many pigs are lost at farrowing time because they become chilled immediately after they are born.

An animal carcass should be thoroughly cooled before it freezes. Select a favorable day for slaughtering.

Hog cholera is a contagious disease of swine which is caused by a definite germ or micro-organism. Along with it comes a high fever, but fortunately the disease does not affect other animals or man.

Forage crops for growing and fattening pigs will increase the rate of gain and result in more economical gains.

It is a well-recognized fact that alfalfa is the best hog pasture crop we have. Every hog producer should have a patch of it for that purpose.

Animals intended for slaughter should be held without feed 18 or 24 hours before killing, but they should be given all the fresh water they will drink.

Improved Uniform International Sunday School Lesson

(By REV. P. B. FITZWATER, D.D., Dean Moody Bible Institute of Chicago.) (©, 1927, Western Newspaper Union)

Lesson for November 13

MOSEAH PREACHES GOD'S LOVE

LESSON TEXT—Hosea 11:1-4, 8, 14-8.

GOLDEN TEXT—I desire mercy and not sacrifice, and the knowledge of God more than burnt offerings.

PRIMARY TOPIC—God's Wonderful Love.

JUNIOR TOPIC—God's Wonderful Love.

INTERMEDIATE AND SENIOR TOPIC—The Unchanging Love of God.

YOUNG PEOPLE AND ADULT TOPIC—The Loving-Kindness of God.

Hosea's message was primarily to Israel. The nation was outwardly prosperous, for its height of temporal glory was reached in the time of Jeroboam II. (See II Kings 14:20). With this prosperity came luxury, immorality and apostasy. Calf worship and Baal worship were substituted for the worship of God.

1. The Apostasy of Israel (chs. 1-3). Israel's covenant relationship with Jehovah is presented under the figure of a marriage. Their spiritual whoredom is symbolized by the example of an unfaithful wife.

1. The marriage (1:1, 2).

Hosea was commanded by God to take an unchaste woman to be his wife. While this was a strange act, yet it was right, for it was commanded by God, and its motive was the elevation of the woman to the prophet's moral plane. It was designed to show God's wonderful condescension and love in entering into covenant relationship with a nation of such immorality. The nation had no more to command it when God chose it than this unchaste woman when Hosea contracted marriage with her.

2. The unfaithful wife (ch. 3).

Notwithstanding the wonderful condescension on the part of the prophet in contracting marriage with this woman, Gomer, the unfaithful wife, departs from him to consort with her former base lovers. This shows Israel's base ingratitude in their departure from God to go after idols. Some chastisement fell upon her for her unfaithfulness.

3. Illustration of Gomer, the unfaithful wife (ch. 3).

This illustrates God's undying love for Israel. The motive governing the prophet's act was love. God's love for Israel is just as real. His grace will yet move Him to take back that nation to Himself.

11. God's Love for Israel (Hosea 11:1-4, 8, 9).

1. Its beginning (v. 1).

It began when Israel as a nation was in its childhood. God loved the nation even while in Egypt.

2. "Called my son out of Egypt" (v. 1).

God called Israel out of the bondage of Egypt and brought them into Canaan, the land of freedom—flowing with milk and honey. Such love and favor placed Israel under peculiar obligation to God.

3. "Taught Ephraim to go" (v. 3).

In spite of Israel's backsliding (v. 2), God is represented as teaching Israel how to walk, even as a father raking up his child in his arms. God watched over them as parents watch over their children by night.

4. "I drew with cords of a man" (v. 4).

Observe that His drawing was not with a stout rope as used with an unruly heifer (ch. 10:11), but a cord such as a man could bear. God's wonderful love in Christ should constrain us to obey and serve Him.

5. Took off the yoke from the jaws and placed food before them (v. 4).

The figure is of a husbandman lifting the yoke from the oxen so that they could eat.

6. Unwillingness to give them up (vv. 8, 9).

In spite of all Israel's sin, God was unwilling to destroy them.

111. God Pleads for Repentance (14:4-8).

Notwithstanding their awful sins, God urged Israel to turn unto Him. He is doing the same to backsliders today. He made promise unto them.

1. "I will heal their backslidings" (v. 4).

This on the condition of frank and full confession.

2. "I will love them freely" (v. 6).

This is characteristic of God. Only God can express unmerited love.

3. "I will be as the dew to Israel" (v. 6).

God will refresh the nation as dew does the parched grass.

4. Growth promised (v. 6).

5. Beauty assured (v. 6).

6. Pleasant fragrance (v. 7).

While this is a picture of the restored nation, something similar may be seen in the fragrant, fruitful lives of men and women who have sinned and come back to God.

Faithfulness Is All

He who is faithful over a few things a lord of cities. It does not matter whether you preach in Westminster Abbey, or teach a ragged class, so you be faithful. The faithfulness is all.—George MacDonald.

The Sane Christian

A safe auto driver keeps his hand on the wheel and his eye on the road. A sane Christian keeps his hand on the Bible and his eye on God.—T. C. Horton.

FARM POULTRY

VARIOUS ENEMIES OF YOUNG CHICKS

Young chickens have many enemies such as hawks, crows, owls, rats, foxes, skunks, weasels, cats, and dogs, all of which have about the same tendencies, for, once they start to harass a flock, they will not stop until the chickens are full grown. The best way to cope with them generally is to prevent them from catching the chickens.

A fence around the poultry yard about four or five feet high with fine mesh at the bottom and with the bottom buried in the ground three or four inches will provide protection against many animals including dogs, foxes, and skunks. If rats or weasels bother the chickens, any refuse or tall grass where they might hide or breed should be removed, according to poultrymen at the New York State College of Agriculture at Ithaca.

It has sometimes been found necessary to cover the chicken yard with two-inch mesh wire for protection from hawks and crows. At the Maine experiment station, however, and on many poultry farms, streamers tied a few feet apart on twine strung across the field or the chicken run prove successful and no overhead cover was needed.

Owls may kill chickens which roost in trees or exposed places, or they may even enter open windows of brooder houses. To avoid this danger, it is well to keep the chickens in the houses at night and, perhaps, screen the windows.

Little Money Is Spent in Aiding Poultrymen

A recent analysis by the United States Department of Agriculture shows that less money per \$1,000 valuation of the commodity is spent by the government in aiding poultry and egg producers than of any other farm crop.

On the basis mentioned, poultry interests receive 14 cents, tobacco 42 cents, cotton 50 cents, pork and pork products 65 cents, Irish potatoes 79 cents, vegetables 84 cents, small fruits \$1.08, orchard fruits \$1.66, dairy cattle and products \$1.80, citrus fruits \$2.40, beef cattle and products \$2.85, sheep and sheep products, \$3.27, and bees and bee products \$3.61.

Poultry and eggs, the fifth agricultural interest in the United States in value, affect more producers and dealers than any other industry and receive proportionately less federal agricultural appropriation. The appropriations made for poultry are divided among various bureaus. In the Department of Agriculture alone, nine different bureaus handle poultry funds.

Table Gives Relative Size of Turkey Breeds

The following table will give the relative sizes of the breeds of turkeys:

	White Bourbon	Bronze Hatched	Reds
	Pounds	Pounds	Pounds
Adult tom	36	28	26
Yearling tom	33	24	23
Young tom	25	20	20
Hen	26	18	18
Pullet	16	14	14

These are the standard weights and show the White Holland to be the lightest of the three breeds, but we find that there is a great tendency for the White Holland turkeys to run over the standard weight somewhat. Of the three breeds the Whites are considered to be the most domestic and will usually range closer to home than either of the other breeds. The Bourbon Reds would come between the other two breeds in regard to ranging habits.

Poultry Facts

Much disease can be kept out of the poultry flock by burying or burning the dead birds.

Burn or bury dead chickens. Every decaying carcass is an incubator breeding germs and disease.

One means of getting the pullets to lay in the winter is to give them plenty of water and proper food in the fall.

A combination of dried buttermilk and meat scraps is usually depended upon to furnish the animal protein portion of mash mixture.

Wheat bran is largely used in all chick mash. It is bulky but fairly digestible and has a laxative tendency which is beneficial. It is fairly high in protein.

In New York the Pacific Coast extra white eggs sell for more than the New Jersey and nearby extra whites. A good reputation is worth money.

Birds that should be culled are sure to show a loss in the future and the sooner they are sold, the greater will be the returns. In proportion to costs.

It is better to keep a small flock of birds that pay their way than to keep a large flock in which there are a lot of drones that eat up the profit made by good birds.

The DAIRY

TERMS COMMONLY USED IN DAIRYING

Dairying is practically a new line to many farmers, and it is well that they become familiar with the terms commonly used in dairying practice, says M. R. Tolstrup, associate professor of dairying at Clemson college, South Carolina, who explains below some of the common terms.

The Babcock test is a quick, simple inexpensive and accurate means of finding the butter fat content in the various dairy products; namely, butter, cheese, ice cream, cream, whole milk, skim milk, buttermilk and whey.

The sediment test is a simple device, by use of which it is possible to find the amount of impurities contained in milk. The purpose of the test is to improve cleanliness in producing milk.

The moisture test is a simple test to determine the amount of moisture contained in butter. The federal government limits the amount to 16 per cent or less.

The salt test is an easy and inexpensive means of telling how much salt there is in butter.

The acidity test is a particular, inexpensive and rapid means of telling whether milk and cream are sweet by determining the percentage of acidity that it contains.

Over-run in butter making means the difference between the number of pounds of butter fat put into the churn and the number of pounds of finished butter made from same. The difference is made up of water, salt and casein (or curd).

Standardization of dairy products means bringing them to a certain desired composition. It is used especially in ice cream making, in market ice cream, and in some places in market and modified milk.

Lining Tank With Cork Saves Milk-House Ice

Great savings in ice can be made by dairy farmers through the use of cork-lined cooling tanks, states E. R. Gross agricultural engineer at the New Jersey State College of Agriculture, New Brunswick.

The construction of such a tank is comparatively simple and the additional expense is quickly offset by the saving in ice. When finished, the tank is really three boxes fitting snugly into each other. The outer of concrete, the middle of cork and the inner of concrete.

First a pit of the necessary depth is dug. A three-inch floor of concrete is then laid and over that is placed the cork board. The sides are then built up of cork board, leaving space enough between the side of the pit and the cork so that three inches of concrete can be poured to form the outer shell. Thus the cork acts as the inside floor. All the cork board should be painted with tar before it is placed.

To place the inside shell of concrete an inside form is built, leaving a three-inch clearance from the cork. The sides and bottom are then poured. When the concrete sets the tank is finished.

A good tight lid will complete a tank which will save about one-half the ice ordinarily used for milk cooling. Such a lid may be filled with ground cork or a layer of cork board and should fit snugly on the tank. A strip of felt between the lid and the tank makes an airtight job.

Exceptional strength can be given the tank by placing reinforcing rods in the outside concrete shell at the time of pouring.

Ground Grain for Cows

Grain that is fed to dairy cows should always be ground. When whole grain is fed to cows too much of the grain goes through the cow undigested which causes a lot of wasted energy which the cow should use to make milk.

Ordinarily it will make very little difference whether the corn is shelled and ground or the corn and cob ground. The essential thing is to have the grain ground fine in either case.

Dairy Squibs

A dairy cow's feed requirements are measured by her body weight and milk production.

What a sow is fed affects profit more than any other element in her care and keep.

It is said the product of a really good cow averages \$142.45 a year above the cost of her feed.

Start culling out the border cows. Set a standard of production not be low 200 pounds of fat per year.

Dry pastures and dry milk cows go together. A good soiling crop—green growing corn, for instance—is the dry pasture's most efficient assistant.

The average cow in milk may be expected to eat approximately 30 pounds of silage each day in addition to some additional dry roughage and concentrates.

Reduced Yields in New Regions

Average Pioneer Not Good Farmer Because of Lack of Experience.

(Prepared by the United States Department of Agriculture.)

In American experience new farming regions are likely to be characterized for a generation or two by methods of agriculture which result in gradually reducing yields. The average pioneer is not a good farmer, not because he does not want to be, but partly because he has not the experience and knowledge of his farm and its potentialities in crops under the methods proved best by time and trial, and partly because the abundance and cheapness of land in newly developed regions is not favorable to intensive methods of utilization or careful husbanding of soil resources. Only after this period is past does agriculture in such regions attain a stage of development characterized by increasing yields per acre.

Crop Yields Decline.

This, substantially, is the conclusion reached by B. O. Weitz, of the bureau of agricultural economics, United States Department of Agriculture. He supports this with facts that fly in the face of the common belief that crop yields per acre have been declining since the virgin fertility of the fields has been exhausted. Department statistics show that in 40 years the combined acreage of corn, wheat, oats, and potatoes has been expanded about 52 per cent. The total production of these four crops has increased 77 per cent. This means that a third of the increased production is the result of a better yield per acre.

Eastern Farms Not Worn Out.

Again, contrary to common belief, he finds the figures show that "most of the increases in acre yields have occurred in the older farming regions east of the Mississippi river, thus disproving another erroneous impression that farms in the older areas of the United States in general have become worn out." In the case of corn, Virginia, Maryland, the New England states, Iowa and Minnesota are named as states recording gains of from 6 to 14 bushels in the average yields per acre. Mr. Weitz concludes that in the course of time, as the farming communities become accustomed to the possibilities of their fields, develop suitable strains of plants, learn profitable use of fertilizers and wise crop rotations, that acre yields in the humid northeastern portions of the United States may approach the present standards in northwestern Europe. In the dryer sections of the United States the acre yields will be limited necessarily by the moisture available to the crops.

Full Care Big Factor in Wintering Pigs

Pig growers have found that if fall pigs are given proper care during the last of September, through October, and the early part of November, they are very likely to come through the bad winter weather in good condition and be ready for the early spring market.

Every effort is made to keep the young pigs growing rapidly, explains W. C. Skelley, assistant animal husbandman at the New Jersey Agricultural experiment station. As soon as the pigs begin to take an interest in food other than that provided by the sow a creep is built. This is a small enclosure which allows the pigs to feed by themselves, away from the sow. Corn and tankage is kept before the pigs at all times as this prevents any setback at weaning time. Good fall pasture also is a big help, or if that is not available, the cuttings of any kind of green stuff are provided to help strengthen the pigs' constitutions.

Poisoning Gophers

Gust Bade, Marshall county, Ill., in poisoning pocket gophers, cuts sweet potatoes into cubes about an inch each way, soaks them and puts in some strychnine. Then he runs a tooth-pick through to prevent the potato from coming apart. He makes sure that the poison is on the inside, as Mr. Gopher will detect anything bitter on the outside.

He drops two pieces in a runway, which may be located by a probe. Irish potatoes may be used in case sweet potatoes are not available.

Surrounded by Dangers

Before birth the young animal is fairly well protected from shock, injury, and infection. It has practically a uniform temperature, and under normal conditions has an adequate and suitable food supply. But once launched into the world it is surrounded with dangers—infectious organisms; extremes of temperature; the possibilities of inadequate or improper foods; overfeeding; and the presence of actual poisons of many different kinds.

Hoist Egg Profits

If you can manage your flock so as to get one-fourth of the year's lay between October first and February first, you'll hoist your profit "way up," say the Ohio Agriculture folks. Seven Ohio farmers who have done that for five years get an average year-around price for their egg of 38.7 a dozen, compared with 30.8 cents for eight other farmers who sold only 4 per cent of their eggs in the four high priced months.

Winter Protection of Bees Important

Best Windbreak Provided by Patch of Evergreens.

Protection of the hive is a two-sided job since it means not only protection against cold, but also against wind. Apiaries situated where there is a good windbreak will do well. The best windbreak is afforded by evergreens which allow the wind to sift gently through the apiary. A slanted fence is good, but solid breaks are inefficient, often diverting the wind without checking its force.

In most localities, the hives should also be packed in some efficient way. Where warm days occur frequently enough to allow the bees to fly, a good packing is given by leaf or straw-filled chicken wire nets, cut to surround the hives on three sides. The packing material should be as thick as possible—at least six or eight inches—and come well up about the hives. A leaf-filled super placed over burlap covering the frame makes a snug top packing. The nets may be tied about the hives with baling wire, crossing the frame, and attached to stakes nailed at the edges of the nets. Hive entrances must be contracted to about two inches.

In colder regions, where long, closed winters are the rule, cellar wintering is preferable—almost necessary sometimes—although some beekeepers in such locations succeed in wintering out-of-doors.

Feed the syrup while still warm in feeders which may be inverted over the frames and surrounded by burlap or other material to keep the heat in. An empty super serves as a chamber for the feeders and allows the closing of the hive. The best all-purpose feeder is a five-pound, friction-top unit, with small nail holes punched in the cover.

Way to Control Insects Stored in Small Grains

Small amounts of grains, peas or beans to be kept in storage during the winter may be successfully treated for insect control by using an airtight barrel and pouring about one-half a cupful of carbon disulphide directly on the seeds.

"In using the barrel to treat a small amount of seeds, we must get one that is practically airtight and pour the insecticide directly on the seeds," says C. H. Brannon, extension entomologist at North Carolina State college. "The barrel is filled with grain to within a few inches of the top, and when the carbon disulphide has been poured on, the barrel is covered with a double thickness of heavy wrapping paper to keep in the fumes. If the insects are still to be found in the stored grains after one treatment, another should be given immediately. It is best to keep the paper over the barrel to prevent reinfestation."

This carbon disulphide works best at high temperatures and so the treatment should be given in the middle of the day. The same principle may be applied to large bins holding several bushels of stored grains. Twenty pounds of the carbon disulphide to each 1,000 cubic feet of space will give control. The seeds should be covered with sacks, in this case, to help hold the fumes in the bin.

Mr. Brannon states that this material is highly inflammable and should be kept away from heated bins or barrels.

Discourage Foreign Seed

The federal seed staining laws, applying to clover and alfalfa seed, seek to discourage the use of foreign seed. They provide that imported seed unadapted for the United States shall be stained 10 per cent red. Imported seed of known origin, except Canada, but of unknown adaptability, shall be stained 1 per cent green. Canadian seed, which is well adapted to this country, shall be stained 1 per cent violet. Some seed grown here is often not good in other parts of this country.

Agricultural Notes

A good run is half the flock.

A good dairy ration is palatable, abundant, succulent and economical.

Co-operation in selling and co-operation in buying should go hand in hand.

The average annual cost of replacing farm machinery is halved if implements are stored as they should be.

Farming is enough of a gamble as it is. Testing seed corn for germination removes some of the chance for a good corn crop.

Cellars which contain furnaces prove poor places for fruit unless the furnace room is tightly separated from the storage compartment.

A survey made in Ohio shows that farmers with an agricultural college education earn \$5 for every \$1 earned by farmers with a common-school education only.

Don't dig the soil away from the base of the trunk of fruit trees into the season; the new wood may winter kill because it does not have time to season before cold weather.

How to Play BRIDGE

Series 1927-28 by Wynne Ferguson
Author of "PRACTICAL AUCTION BRIDGE"

Copyright 1927, by Hoyle, Jr.

ARTICLE No. 4

In a previous article, the writer defines "average expectancy of support" as the average number of tricks which may be expected to be held by a partner who has not bid. For example, if the dealer holds the following hand:

Hearts—A, K, 7, 6, 2
Clubs—10, 4
Diamonds—J, 8, 3
Spades—9, 8, 5

he can justifiably bid one heart. Why? Because his hand, if hearts are trumps, should average to win four heart tricks. As there are thirteen tricks in all, that leaves nine tricks to be won by the other three players, one of whom is the dealer's partner. If these nine tricks are equally divided, each player should win three tricks, the so-called "average expectancy of support." For every trick in excess of these tricks, a player may help his partner's bid once. In this connection it should be noted that quick tricks, such as aces and protected kings and queens, are worth double their quick trick value in support of partner's suit bid.

Here is a hand illustrating these points that came up the other night in one of the New York Card Clubs:

Y
A B
Z

Hearts—A, K, 7, 6, 3, 2
Clubs—4
Diamonds—A, 10, 7
Spades—10, 8, 3

No score, rubber game. Z dealt and bid one heart, A passed, Y bid one spade and B bid two diamonds. Z bid two spades, A bid two no-trumps, Y bid three spades, and B bid four clubs. Does Z's hand justify a bid of four spades? Of course it does. With spades trumps, Z's hand should win at least five tricks and, therefore, contains at least two tricks more than the "average expectancy of support." For that reason, Z can raise his partner's spade bid at least twice. The fact that Z has bid one heart is immaterial. The question should be: How many tricks can the hand win, if spades are trumps? In this case the answer is "at least five," so that Z is

justified in raising his partner's bid twice, irrespective of his original heart bid.

Here is an interesting hand, involving, as it does, the question of rebidding your own suit or of helping partner's:

Problem No. 4

Hearts—A, K, J, 10, 7, 5
Clubs—9, 8, 6, 3
Diamonds—7
Spades—A, 4

Y
A B
Z

No score, rubber game. Z dealt and bid one club, A passed, Y bid one heart and B bid two diamonds. Z and A passed, Y bid two hearts and B bid three diamonds. If Z and A passed, should Y bid three hearts or four clubs? Figure out how many raises Y has for his partner's club bid. Then figure out whether it is a better choice to try for game in clubs or in hearts, with the knowledge that Z has no help in hearts. An analysis of this interesting hand will be given in the next article.

Problem No. 5

Hearts—K, Q, 10, 8, 2
Clubs—K, Q, J
Diamonds—8, 6, 2
Spades—9, 2

Y
A B
Z

Hearts—A, J, 7
Clubs—A, 6, 5
Diamonds—5, 3
Spades—A, K, Q, 10, 7
Score, 20 all, rubber game. Z dealt and bid one spade, A bid two diamonds, Y passed and B bid two hearts. Z bid two spades, A and Y passed and B bid three diamonds. Z doubled and all passed. Y led the jack of spades and the first three tricks were: (1) Z won with the queen of spades; (2) Z led the trey of diamonds and A (holding A, K, Q, 10, 7) won with the queen; (3) A led the nine of clubs and Z won the trick with the ace. The problem is: How should Z now play to defeat the contract? An analysis of this hand and the cards held by A and Y will be given in the next article.

WHAT'S DOING IN WEST TEXAS

Stinnett—A big free barbecue which will be attended by United States Senator Earle B. Mayfield and other men of prominence will celebrate the arrival of the Rock Island Railroad into Stinnett here November 15. This road is being built from Amarillo to

Liberal, Kansas; rails reached the city limits of Stinnett here October 23rd. All towns and communities of the North Panhandle will send large delegations. Excursions are already being arranged by Amarillo and Liberal, Kansas.

Burkburnett—Formal opening of new Inter-State Free bridge across

Red River, between Texas and Oklahoma, were celebrated here November 5. Officials of the West Texas Chamber of Commerce participated in the affair. The bridge was erected at a cost of \$380,000.

Thalia—This Foard county town has just joined the ranks of the affiliated West Texas Chamber of Commerce towns. Substantial memberships were subscribed on a recent visit of the organization's field men, who was accompanied by Mack Boswell of the Crowell Chamber of Commerce.

Shallowwater—This farming community of some 250 people claims the ginning record of the Plains country this season. One thousand four hundred bales have been ginned here. More than any other town on the Plains. Affiliation was recently made with the West Texas Chamber of Commerce.

Pampa—Work on the proposed railway from Pampa to Cheyenne, Oklahoma is expected to start early in 1928. The line was offered thru a proposal made by Frank Kell, Wichita Falls capitalist and president of the Clinton & Oklahoma Western railroad.

Memphis—Business men of Memphis, Childress, Quanah and Chillicothe have employed an expert to conduct rural organization work in Hall Hardeman, and Childress counties, with special stress on dairying.

Hamlin—Hamlin now has four rural mail routes which cover a territory of 228.59 miles.

Weatherford—The local feed manufacturing feed mill here is having a record business. Demand for corn has been so great that carloads have been ordered from northeast Texas. The mill grinds corn and grains into feed for cattle feeders, dairymen and poultry raisers of the section.

Ovalo—A harmonica band has been organized here and will feature community entertainment programs.

Quanah—Quanah was the scene of one of the most unique city celebrations ever held in this section November 4 and 5 when a tribe of Comanche Indians came from their Oklahoma reservation to rebelless Quanah, which was named in honor of their chief's father, Quanah Parker. President R. W. Haynie of the West Texas Chamber of Commerce was initiated into the tribe and made a white chief. Manager Homer D. Wade and Publicity Manager E. H. Whitehead were also in attendance at their Harvest Moon Fete.

METHODISTS NO MATCH FOR A. & M. COLLEGE

College Station, Nov. 5.—Before a crowd estimated at 12,000 persons, the

Texas A. & M. Aggies administered a 39 to 13 licking to the Southern Methodist University Mustangs on Kyle Field gridiron here today, and jumped into the lead in the Southwestern Conference football race. It was the first defeat for the Mustangs in the Conference this season, although they lost a game to Centenary College of Shreveport a few weeks ago. By winning over the Ponies, the Aggies retained their season's records of no losses and one tie—with Texas Christian University.

It was a "spectators game" from beginning to end with two great offensive machines rushing the ball from one end of the field to the other, but with the Aggies always maintaining a distinctive advantage. Overhead attacks directed by two brilliant quarter backs, Hunt, of A. & M. and Mann, of S. M. U., featured the contests, although scintillating end runs and line plunges all members of both backfields were sandwiched in between the passes for variety.

Aggie Passes Best

A. & M. met the Mustangs at their own game of forward passing, and excelled them, as they completed passes at critical moments of the contests and at time seemed to have the Pony offensive backs completely at sea as to whether the aerial drives might strike next.

Both sides suffered because of penalties although those assessed against the Aggies were the heaviest, one of the latter coming in the first period for 25 yards on account of an Aggie illegal use of his hands.

Farmer Line Holds

The Aggie line, after the first minute of play, was usually a stonewall against the thrusts of the Mustangs backs while the off tackle plays of the Farmers often found big holes in the Pony line. For the most part the Mustangs were consistently outshined by the Aggies.

SOMETHING NEW IN SIX-DAY BIKE RACES

The first six-day bicycle race ever staged by women is now underway at the Illinois Women's Athletic Club, Chicago, Ill., with the contestants peddling away on stationary machines. Each contestant rides fifteen minutes a day on the wheel-less bicycle on which a rate of forty-miles an hour may be obtained. The mileage is kept on record and the women grinding out the greatest number of miles in an elapsed time of six days will be declared the winner.

Photo shows some of the riders—Left to right, Anita May, Peggy Pirnat, Nellie Todd, Catherine Hoppe and Peg Teffe.

MUCH BUILDING ACTIVITY IN PROGRESS AT TEXAS TECH

Lubbock, Texas, Nov. 9.—With four buildings under construction, the Tech campus presents a busy aspect. The favorable weather has been responsible for the rapid progress of the construction work.

The first unit of the agricultural building is practically finished, and Dean A. H. Leidigh and his faculty expect to move at once into their new home. Both offices and class rooms are provided for in this new structure. The home economics building which has been housing the agricultural school will be used entire for home economics.

The home economics practice house will be ready for occupancy about January first. This building will be one of the show places of the Tech campus. With excavations complete for the new engineering building and concrete being run for the foundation the walls will begin to rise real soon. This building will have a frontage of 275 feet and will be an imposing structure. A greenhouse for the agricultural school makes the fourth building now under construction.

POULTRY DEPARTMENT OF TECH IS DOING WELL

Lubbock, Nov. 9.—Prof. Ray Mowery head of the poultry department in Texas Technological College says that the 140 hens owned by the department laid an average of 70 eggs daily during October, this being a very high average for this time of the year. The laying flock is made up of 55 white Leghorns and 85 barred Plymouth Rocks and Rhode Island Reds. Some 300 birds are now owned by the department.

Five single comb cockerels were added to the Rhode Island flock recently from the Lester Sprouls farm at Joplin, Mo. They are pedigreed birds and are out of hens averaging 228 to 266 eggs.

Extensive poultry operations will be conducted at the college this year. Mr. Mowery says and a number of courses in the work are being offered. A 100 egg incubator, one of the three owned by the college, will be started about January first.

Jerry Mudgett and wife have moved to Chillicothe, Texas where Mr. Mudgett is now employed.

CITY PROPERTY

Four room house, 3 lots, well and windmill, good garage, on West 2nd street, well located, price \$2,000, half cash, balance reasonable terms, at 8 per cent.

Six room house, 2 lots, good lawn, some sheds, located on one of the best streets in west part of town. Price \$1,750, \$700 against place can be assumed, payable \$200 per year, balance cash.

Good 14 room house, close in, 7 lots, cement sidewalks, garage and out-buildings, shade trees, orchard, well and mill, electric lights. A dandy place for a large family, or a person desiring to keep boarders. Price \$5,000; \$1,000 cash, balance good terms.

Two and half lots close in to business district, west side, will sell for very low cash price if taken at once.

Good 7 room house, both hot and cold water, big barn, garage, well and wind mill, good out buildings, chicken houses, fenced for poultry raising, good cellar, fine orchard and vineyard, one mile from center of Lockney, just out side of city corporate limits. Price \$4,000 one half cash balance to suit purchaser. This is a dandy place for some one who wants to truck farm, or run a poultry and dairy farm.

Six good lots on East Locust Street, dandy building site, will sell all six lots for \$1,000, part cash, balance good terms.

8 room Duplex, 2 lots, double garage, well and windmill, electric lights, cement driveways, sidewalks, good shade trees, in best part of Lockney. Price \$4,500, \$1,600 in loan runs ten years, balance cash. A dandy good place, well located on one of the best streets in town.

23 acres in edge of town, 9 room house, chicken houses and cow sheds, double garage, well and windmill, concrete tank, big garden, 20 acres in maize, good orchard of fruit trees and grape vines, all fenced. Will sell one acre and improvements; 5 acres and improvements, or all in one body. Priced right, terms good, possession at once.

16 lots in West Lockney, best residence section, will sell from \$75 to \$150 per lot, owing to location. Building sites in the very best of location.

Good 13 room house, 2 lots, well improved, well and windmill, electric lights, good garden, shade trees, orchard. Priced right, good terms. An excellent place for large family, or some one who wants to rent rooms and keep boarders.

8 room house, 2 3-4 lots, good outbuildings, well and windmill, elevated tank, two story house, with water piped on both floors, electric lights, cement walks, shade trees and orchard. This is one of the best built houses in Lockney. Close in to the business district, and on the West side of town. Priced right, half cash, balance to suit purchaser.

3 1-2 lots in business district, lots 30x140 and 30x180 feet, will sell all three lots for \$1,000.

5 room house, 1-2 acre land, well and windmill, good orchard, berries, grapes, chicken houses, barns, garage, well house, cellar, flowers an shrubbery. Price \$3,000, good terms.

10 acres edge of town, 3 room house, barn, all in cultivation, fruit and shade trees. Priced right, good terms.

1 lot 30x176 on Locust Street, business part of town, will sell for \$650 cash.

1 lot on Main Street, 30x140, on pavement, with good concrete sidewalk. In center of business block, will sell priced right for cash.

40 foot lot in very best resident part of town, two blocks from business district, will sell for \$1,250 spot cash.

Wooden business house, good lot, business part of town. Will sell house and lot for \$1750 cash.

Good 5 room house, 2 lots, modern, city water, electric lights, gas, sewerage, garage, \$3,000, 1-2 cash, balance easy terms.

Two good homes in California to trade for Lockney or Floyd County property.

FARM PROPERTY

160 acres, 2 1-2 miles south of Aiken, 130 acres in cultivation, good three room house, sheds, well and windmill. \$75 per acre, 1-2 cash balance easy terms.

480 acres, 5 miles northeast of Lockney, 450 in cultivation, 3 rent houses, two big granaries, 2 wells and windmills. \$65 per acre, good terms.

640 acre, 9 miles northeast of South Plains, 250 acres in cultivation, good six room house, barn, well and mill; 550 acres tillable land. \$50 per acre, good terms.

320 acres, 4 1-2 miles northeast of Flomot, good cotton farm, 200 acres in cultivation, 2 room house, well and windmill, barn. \$50 per acre, good terms.

215 acres, 1 3-4 miles east of Lockney, 9 room house, good barns, well and windmill, 145 acres in cultivation, price \$67.50 per acre, terms to suit purchaser.

160 acres land on new Denver line of railroad, 2 miles of Lockney, good large 3 room house, well and windmill, well house, some sheds, all under cultivation, except about five acres in lake in one corner of place. This quarter section is cut half into by the new Denver railroad, there being about 75 acres on each side of the road. Will sell all or either half. Will sell 75 acres with improvements, or 75 acres without improvements. This place carries a \$4,000 loan in the Dallas Joint Stock Land Bank, and \$1,500 in note not due for 17 months, or January 1st, 1929. Interest has been paid on note to Jan. 1st, 1928. Purchaser can assume indebtedness, balance in cash. Priced right.

COUNTY BRIEFS

LAKEVIEW

There was a large crowd in attendance at Sunday School and church Sunday. We are very sorry to give up Bro. Jones Weathers but he feels that God is leading him to some other place.

Mr. and Mrs. Bob Willis of Amarillo visited Mrs. B. C. Willis Sunday. Mr. and Mrs. Dunn and family visited Mrs. B. C. Willis Sunday.

Mr. and Mrs. E. Roy Embry visited Mr. and Mrs. Martin and friends of Lakeview Sunday.

Mr. and Mrs. Claud Patton had as their guests this week end their daughter Mrs. Lee Harry and husband of Amarillo.

Miss Mary Reidheimer spent the week end with her niece Miss Vera Reidheimer.

The singing at Baker was fine last Sunday. Everyone is invited to attend the singing at Lakeview next Sunday.

Mr. and Mrs. John Conway entertained with a party last Monday. The most interesting games of the evening were the foot ball games and the honeymoon trips. At a late hour the guests departed declaring they had enjoyed the party beyond all expectations.

Mr. Newberry who is still in the Lubbock sanitarium is getting along nicely.

PROVIDENCE

The Providence Home Demonstration club will not meet until November 21 as Miss Bass is not able to meet with us on our regular meeting day.

Mrs. Brock and Sister were Plainview visitors Saturday.

A few from this community attended a party at the home of Mr. and Mrs. Bill Durham in the Whitfield community Saturday night.

Several of the people of this community attended the church services at Whitfield Saturday night and Sunday.

Mr. and Mrs. Bob Ratjen spent the week end in the home of W. J. Taylor and family.

Misses Nela and Nadine White, and Messrs Wyatt and Harold McLaughlin attended the dance near Kress Saturday night.

Miss Lillian Powell and Mr. Tom Cassel attended the dance Saturday night.

Mr. and Mrs. Ben Brandes spent

the day with Mr. and Mrs. Ben Quebe Sunday.

Miss Eva Taylor spent Saturday night and Sunday with Mr. and Mrs. Bob Ratjen.

Misses Ola Mae Gamble and Gladys Smith were in Plainview Saturday.

RAMSEY

Mr. and Mrs. D. B. Williams and daughters, Mildred and Bethine of Amarillo and Mrs. T. T. Hamilton and daughters, Thelma Joe, Aneca and Ruth of Floydada visited Mr. Williams and Mrs. Hamilton's mother, Mrs. J. D. Williams during the past week end.

Mr. and Mrs. Paul Murff of Campbell visited Mr. Murff's aunt, Mrs. J. R. Davis Sunday.

Mr. and Mrs. Buren Cates of Plainview have moved to the home of Mrs. Cates' father, Mr. J. A. Goins. Mr. Goins has purchased a home in Floydada and will move there sometime soon.

Miss Allie Mae Crawford and sister Mrs. Hall of Lodge spent the week end here with their parents, Mr. and Mrs. Crawford.

Mr. Howard Elliot of Floydada was the guest of his brother and wife Mr. and Mrs. L. C. Elliot Sunday.

Mr. Delwin Stewart of Ellen spent the week end with the Davis boys.

AIKEN

Everyone has enjoyed the beautiful weather that we have been having. It will not take the farmers very long to finish gathering their crops.

Mr. and Mrs. Marshal left Sunday night for Dallas, Mrs. Marshal having received a message of the death of her brother-in-law who had been in bad health for some time.

School attendance is good, most all who having been out for some time are back again. Miss Meredith has an enrollment of thirty and has had perfect attendance the last two weeks.

Mr. W. C. Brown and wife visited friends at Baker Sunday.

Mr. and Mrs. McReynolds are the proud parents of a new son.

Mr. and Mrs. Bryan Wells were Lockney visitors Sunday.

Mrs. Jones visited Mrs. Hutchinson last Thursday.

Mr. Elam and wife were Plainview visitors Sunday afternoon. Miss Virgie Boswell accompanied them there where she is attending school.

Purchases Promote Prosperity

WHILE the Santa Fe is itself a large employer of labor—its payroll in 1926 totalled \$107,000,000, and its employes number more than 75,000—indirectly as a buyer of materials and supplies it helps to furnish employment to many more. Such purchases last year exceeded \$64,000,000. In addition it bought over \$12,000,000 of new cars and locomotives.

Its largest class of material was fuel, which totalled \$24,360,000. This consisted of about 2,267,000 tons of coal, and 507,800,000 gallons of fuel oil. The use of coal or oil on any division is determined primarily by which is the cheaper fuel in that locality.

The second largest class of purchases was iron and steel products, for which the expenditure was approximately \$19,750,000. This included an expenditure of \$9,500,000 for 152,700 tons of rail, frogs, switches, and fastenings. \$1,500,000 went for wheels, axles, and tires, and \$3,060,000 for flues and tubes for locomotives. Bridges, turntables, structural steel, forgings, and fabricated, unfabricated, and pressed steel took nearly \$3,000,000. Steel and iron are basic necessities in railroading.

Purchases of forest products totalled \$6,412,000, which included over 3,000,000 cross ties, and large quantities of lumber and timbers. The Santa Fe creosotes its ties and much of its timbers, otherwise greater quantities would be needed each year.

Folders, report blanks, notices, tickets, tariffs, and various items in the stationery line required \$1,225,000, electrical materials \$660,000, lubricating oil and grease, illuminating oils, waste, etc., \$1,180,000, and air brake material \$617,600.

These purchases were necessary to maintain the railroad properly and to give satisfactory service to the public. They were covered by 130,000 invoices and were made from 3,347 individuals and firms. Note the wide spread of this buying.

Thus the Santa Fe and all railroads are an important factor in maintaining the prosperity of our country through the employment arising from these large purchases of supplies, as well as the millions directly disbursed among their own employes for services.

When the railroads are doing well, they buy materials and supplies on a larger scale than when net revenues fall off. Money thus spent mainly pays for the labor of many persons, helping merchants, farmers, everybody—your own community included. You therefore are vitally interested.

W. B. STOREY, *President*
The Atchison, Topcka and Santa Fe
Railway System

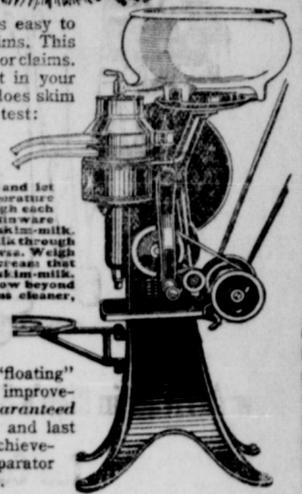

Putting Teeth in Separator Claims

TALK is cheap, and it is easy to make extravagant claims. This is true of cream separator claims. If there is the slightest doubt in your mind which separator really does skim cleanest, just try this simple test:

Put a De Laval side-by-side with any other separator of approximate capacity. Four De Laval Agents will gladly arrange this test. Mix 20 gallons of milk thoroughly and let it stay at normal room temperature of 70 degrees. Run half through each machine. Wash the bowl and tinware of each machine in its own skim-milk. Then run the De Laval skim-milk through the other machine and vice versa. Weigh and test for butter-fat the cream that each gets from the other's skim-milk. When you do this you will know beyond doubt that the De Laval skims cleaner, is easier to turn and more profitable to own.

The new De Laval is the best cream separator ever made. It has the wonderful "floating" bowl—the greatest separator improvement in 25 years. It is guaranteed to skim cleaner, run easier and last longer. It is the crowning achievement of 48 years of separator manufacture and leadership.

Liberal trade allowances made on old separators.

completion rapidly now, and for the purpose of getting together around the banquet board with people of their own neighboring communities.

Net proceeds from the banquet will be used for the purpose of adding to the seating capacity of the auditorium.

MILLIKIN DIES IN THE ELECTRIC CHAIR, NOV. 5

Huntsville, Nov. 5.—A. V. Millikin, about 40, convicted slayer of Mrs. Virginia Petty, San Antonio Matron, at New Braunfels, in May, 1926, died in the electric chair at the state penitentiary here at 4:41 a. m.

Millikin, who sought every legal recourse in the state to escape the electric chair, walked calmly to the chair after partaking of a cup of coffee. The first shock at 4:33 a. m., left him alive and after the second shock, he was pronounced dead by Dr. N. J. Bush, the prison physician.

Millikin, who professed to be a spiritualist at a sanity hearing at Lockhart, said, as he sat in the chair, "I am dying a Catholic an dam glad of it. I place my sins in the hands of Jesus Christ."

Mrs. Petty's body was found in a stream near New Braunfels, stripped of valuable jewelry she customarily wore, shortly after being seen with Millikin.

Millikin was convicted at Lockhart Caldwell county, on a charge of venue from Comal county, and before he died his attorneys secured three reprieves and one respite from Gov. Dan Moody for him.

FREIGHT SERVICE NOW OPEN TO QUITAQUE

Freight shipments on the Fort Worth and Denver's extension are now being accepted according to an announcement from Dallas, made by T. V. Murray, general agent, Monday. According to Mr. Murray 40 miles of rails have been laid from Estelline toward the plains, and freight destined to any point along that part which has been completed is being handled.

Officials of the road expressed confidence that the rails will ascend the cap rock by the spring of 1928 and quicker progress can be expected by that time.

Clarity Tunnel Finished Clarity Tunnel, the longest railway tunnel in West Texas is now finished although the rails have not been laid in it. However, sightseers are passing through the tunnel in their automobiles, as there is plenty of room to allow the passage of two cars at one time.

Work and the Gowdy tunnel, named for the engineer of the road, is progressing also. These two tunnels are only a little more than a mile apart.

Bridge 800 Feet Long Further rail laying is being held up, according to W. D. McKay, at Linguish Creek, where a bridge will span that waterway. This six four miles out of Quitaque. The bridge will be 800 feet long.

Taken in its entirety, this road, from Childress to Plainview and Lubbock will be one of the most scenic in Texas or in the Southwest. Through the rough canyon country travelers on the road will see vistas, whose beauty and grandeur are astonishing even to people who have lived long in this section. It is one of the most spectacular formations in the entire country, rivaling in places the Grand Canyon.

WILL NOT BE OPEN ON SUNDAY MORNINGS

Hereafter the Lockney Grocery Meat Market will not open on Sunday mornings, as the weather is now cool

OPERATIONS PERFORMED THE PAST WEEK BY DR. HENRY

The following operations have been performed the past week by Drs. S. M. Colvern and Mary Mitchell Henry: The small baby of Mr. and Mrs. Clyde Huttsell underwent a minor operation on Wednesday, November 2. C. W. Woodworth, night superintendent of the Lockney Cotton Oil Company, was operated on Monday of this week.

J. T. Lee had a tumor removed from his right eye Monday of this week.

Miss V. E. Williams suffered a dislocation of one of her shoulders, caused by falling down some stairs, Sunday of this week, which was set by the Doctors on Sunday.

Bud Prickett fractured one bone in his left hand while playing basketball Tuesday of this week, which demanded medical attention.

Rev. Y. F. Walker is suffering from a wound caused by splitting the big toe on his right foot with an ax Tuesday. The axe split was about one and one half inches in length and five stitches were necessary to close the wound.

All the above patients are getting along fine at this report.

Mr. and Mrs. Surrey Henry of Sweetwater, Texas spent last week end in Lockney visiting Mr. Henry's sons, Douglas and Milton Henry and also Mr. and Mrs. H. B. Adams and Mr. and Mrs. George Kinyon.

CITY MARKET—Fish and Oysters.

Home Demonstration Club News

Blanco Home Demonstration Club.

Mrs. J. L. McPeak entertained the Blanco Home Demonstration Club at the meeting held at her home at 2:30 o'clock, Thursday afternoon, November 3rd. The subject for discussion was "Parliamentary Rules."

There were eleven members present at this meeting.

Miss Bass was present and the club enjoyed hearing her report of the trip to the Dallas Fair on which she accompanied the 4-H Club girls. She told us of the living room contest for 1928, after which she gave us a very fine Parliamentary Drill, which all the members enjoyed and needed.

Next meeting will be held November 17, with Mrs. G. R. Smith as hostess.

Answer Roll Call by telling your favorite cake recipe.

Leader—Mrs. J. L. McPeak.

Classification of ingredients—Mrs. Snell.

Utensils needed for cake baking—Mrs. Farley.

Method of mixing—Mrs. J. D. Christian.

Sand Hill 4-H Girls' Club.

On Wednesday, November 2, 1927 Miss Bass from Floydada came to this community and organized a first and second year girls' 4-H club. Sixteen were present, and officers were elected. They are as follows: Thelma secretary; and Miss Edna Pope, reporter.

The names of the members of the club are as follows:

Thelma Parkey, Ruby Farley, Edna Pope, Lee Hope, Audrey and Lela Mae Tinnin, Lena Fay Parkey, Christine Goodman, Vera Miller, Blanche Rogers, Reba McPeak, Ina Musgraves, and Merle Powers. We all had a very enjoyable time. Each member is urgently requested to attend the next meeting, two weeks from the last meeting, at which time Miss Blanche Bass will again be with us.

Harmony Home Demonstration Club

The Harmony Home Demonstration club met with Mrs. O. H. Heard at 2:30 p. m. Wednesday, November 2nd with Mrs. Heard as hostess. The subject for discussion was "Parliamentary Rules."

Parliamentary Drill—Mrs. O. H. Heard

Courtesies extended to strangers and visitors—Mrs. Krause.

Feeling toward one another—Mrs. Kinkner.

Sportsmanship—Miss Oma Carr.

Ethics for the Home—Mrs. Scott.

Shopping Ethics—Mrs. W. C. Parkey.

Miss Bass was present and gave some very helpful suggestions and information on the subject under discussion.

Next meeting date will be November 15th, at the home of Mrs. Snodgrass.

Subject—Cake Baking.

Campbell Home Demonstration Club.

The Campbell Home Demonstration Club met at the home of Mrs. S. H. Horn on Tuesday, November 1st, at 2:30 p. m., with Mrs. Horn as hostess, and the subject for discussion was "Parliamentary Rules," with Mrs. Williams as leader of the program.

The Parliamentary drill was demonstrated by Miss Bass, County home demonstration agent.

Miss Bass also gave a demonstration on Milk and Egg Dishes.

The next meeting of the club will be held at the home of Mrs. E. J. Womack as hostess, on Tuesday, November 15th, and the subject for discussion will be cake baking.

All of the ladies will please bring a slice of their best made cake.

Leader—Mrs. W. H. Bethel.

The following ladies will be on the program for the afternoon:

Mrs. E. J. Womack, Mrs. J. M. Smith, Mrs. M. Jarboe, Mrs. Ambum and Mrs. Murf.

Blanco 4-H Club.

The Blanco 4-H club met at the school building on November 3rd, with Miss Bass as hostess for the purpose of electing officers.

The club indulged in patch work on gingham and completing our club box. The next meeting will be held on Friday, November 11, with Miss Irene Cates as hostess, and the subject will be "Patch Work."

Roseland Home Demonstration Club.

The Roseland Home Demonstration club met at the club room in the school building Friday, November 4th. The subject discussed was "Parliamentary Rules."

Miss Bass took charge of the meeting and gave us a very interesting lesson on the subject and other things we need in the work.

The club voted to discontinue the meetings at the club room. We will have only one meeting each month which will be held at the homes of the members. Miss Bass will meet with us each time.

The next meeting will be held December 2nd, with Mrs. Barton as hostess.

Subject—Candies and Christmas suggestions.

Miss Bass will give a demonstration on candy at this meeting.

BAPTIST SERVICES AT McCOY

Services were conducted at the Baptist church, of McCoy on Saturday night and Sunday, Nov. 12th and 13, by Rev. V. M. Lollar, pastor of the church at that place. The services were conducted at 8 o'clock Saturday evening, eleven o'clock and at eight Sunday. Services are held by this denomination at McCoy every first and third Saturday night and Sunday in each month. The Methodist congregation holds services at this place each second and fourth Saturday night and Sunday.

The church services Sunday morning were attended by a large crowd and Sunday school began promptly at ten thirty Sunday morning.

FRIEZE-KNOX

Miss Maxine Frieze and Mr. Cecil Knox were married in Silvertown, Texas last Sunday. Both young people have a number of friends in Lockney and are well known here. Miss Frieze is the daughter of Arch Frieze of Silvertown.

Mr. Knox was formerly connected with the Knox-Patterson Gin Company of this place, and also at Olton, Texas. Both these young people have many friends here who wish them a long and happy married life.

CHEVROLET SALES MOUNT HIGHER IN OCTOBER

During the month of October the Chevrolet sales for the month reached the enormous number of 112,064 cars, a new record for this class of automobile in the nation. The General Motors Corporation has improved the quality of the Chevrolet car until today it is the outstanding car in the low price car class.

The increase in sales has been so rapid that it has become hard for the dealers to keep enough cars on hand to supply the demand.

Have You Seen That NEW POLICY?

If you are contemplating buying life insurance, it will pay you to get the best. Our policies are plain and simple. Anyone can understand the contract. There are no question marks left in your mind after reading the contract. We have the newest and most up-to-date policies to be had at this time, and our rates are in line with other companies, and yet our policies are profit-sharing. An examination will convince you that we have the best policy on the market. I will be glad to talk the matter over with you.

SOMETHING
 To Crow About!

MONEY in the bank! The depositor started with small sums, that quietly accumulated, until he had achieved a neat little nest egg—something to crow about.

The Security State Bank
 LOCKNEY, TEXAS

GOODNIGHT

Goodnight, Nov. 7.—The weather has been so favorable that cotton is being gathered very fast in this community.
 Mr. and Mrs. Fitzsher and daughter are visiting with their uncle, R. A. White. Their home is near Dallas.
 Miss Lola Davis who is working in Quitaque spent the week end here visiting her mother.
 A new grocery and restaurant has opened up at Goodnight, with Mr. Otis Purcell proprietor. This is a great benefit for the people here and we wish Mr. Purcell much success. He has a filling station in connection. The gin caught on fire one day this week, which caused considerable excitement. The fire was extinguished before much damage was done.
 School closed this week that the children might help gather the cotton crop.
 Mr. and Mrs. Cook have gone to Kress to take charge of a store, belonging to Mrs. Cook's brother, Mrs. Botts. Mr. Botts is in South Texas on business. Cecil Cook will spend his vacation visiting his brother who lives in Hamilton.
 Several from Quitaque were in this community picking cotton Saturday.

PLEASANT HILL

Mrs. Fox assisted by her daughter, Beatrice entertained the "Sewing Club" last Wednesday afternoon. Cream peaches and cake were served to a large crowd, which was greatly enjoyed by all. The club will meet with Mrs. Shelton next time. Be sure and come.
 Bro. Evans will preach here next Sunday morning at 11 o'clock. All are invited.
 Mr. Morgan was a Crosbyton visitor Sunday.
 School is progressing in a wonderful way. A few are absent but we hope to have them back in a short time.
 Mrs. Hart spent last Saturday in Floydada shopping.
 Several of the young people of this community attended the singing at Baker last Sunday.
 Mrs. Cardinal spent the day with Mrs. Camden last Wednesday.
 Miss Iva Hollymoon spent last Saturday night and Sunday with Miss Beatrice Fox.
 Miss Abbie Lee Woolsey visited in the Hart home Saturday night and Sunday.
 Mrs. Scott visited friends and relatives in Lubbock the last of the week.

BLANCO

Mr. F. L. Dickerson and family have returned home from East Texas where they have been working. We are glad to have them in the community again.
 Ham Smith, Jr. has been ill for the past few days. Little Miss Corne Daniel is also sick.
 Mr. and Mrs. A. H. Howell visited their daughter Mrs. Rob Witty near Lorenzo Saturday.
 Mr. Gid Howell has returned home after working at Lorenzo for some time.
 Mr. H. B. Alexander spent Saturday night and Sunday with his family.
 Several families of this community have begun picking cotton. We hope that the weather will stay favorable so that it will soon be gathered.
 Our school is progressing nicely only the attendance this week is about half what it should be as so many of the children are picking cotton. We want them to start back soon.

ROSELAND

Mr. and Mrs. Bybee left Sunday for a short visit to Chillicothe.
 Miss Lucille Wheat of Sunset visited our school Monday afternoon.
 Cedar Hill this week
 Mr. Henry Watson is working near Cedar Hill this week.
 Jewell Montague visited in Briscoe county Saturday and Sunday.
 Faye Marble of Lockney visited in our community last Sunday.
 The weather continues to be favorable for the continued fall harvesting of our crops. The wheat is beginning to be rather thirsty and we are beginning to look about for signs and prospects of rain.

CEDAR

Mr. and Mrs. M. H. Taylor visited Sunday with Mr. and Mrs. Freeman Love.
 Miss Henrietta Randolph visited Miss Anna Belle Maxwell of Floydada Sunday.
 John Cephus Fortenberry spent Sunday with Frank Merrell.
 Mr. H. C. Randolph has this week made a business trip to Memphis and Childress, Texas.
 Fred Fortenberry visited George Taylor Sunday afternoon.
 Miss Altha Mae Strickland and Mr. Monty Duvall spent Sunday afternoon with Miss Nora Belle Seay.
 Mr. and Mrs. J. C. Fortenberry spent Sunday with one of their sons

JOE FORTENBERRY.

Relatives and friends spent the week end with Mr. and Mrs. Clarence Guffe.
 Mr. and Mrs. John Seay were visitors in Lockney last Saturday.
 Mrs. Chester Strickland is ill with a bad cold.
 Mrs. J. C. Fortenberry had one of her bad smothering spells at church last Sunday night.
 People are very sorry to hear of the accident of Miss Vernie Dunlap while crossing the streets of Lockney last Saturday.
 Mr. Tom Fortenberry is now working at South Plains.
 Mrs. Travis Mitchell spent the week end with her husband in Floydada.
 Mr. Frank Taylor spent Saturday night in the J. C. Fortenberry home.
 Mr. Check Strickland and Monty Duvall are very busy threshing. They are now threshing for Mr. Jim Messen gale.
 Miss Edna Mae Roberts spent Wednesday night in the W. W. Merrell home.
 Mrs. Clara Mitchell visited Wednesday night with her little pupil, Mary Ann Fortenberry.
 The Cedar Hill school wishes to extend its thanks to the people of this and the surrounding communities for their contribution at the box supper last Friday night. The proceeds amounted to seventy dollars. This money will be spent for school ground equipment and repairs.

SUNSET

Rev. Evans preached Sunday night. The sermon was very much enjoyed by all present.
 Mr. T. P. Nelson will give three lectures Sunday November 13 on the Book of Revelations. The first one will be at eleven o'clock Sunday morning. One at three o'clock in the afternoon and one Sunday night. Be sure and come.
 Mr. and Mrs. J. B. Jarnagin have established a general mercantile store at South Plains. We welcome them in our community.
 The P. T. A. will observe Armistice Day by putting out roses and other flowers at the school house.
 Mr. Childress, Ruth Childress and Oleta Orman went to Lubbock last Monday.
 Mr. and Mrs. Eugene McCloud and Mrs. N. Nelson and children took dinner with Mr. and Mrs. C. Knierim Sunday.

FAIRVIEW

School has been dismissed for about a month in order that the faculty and students may help gather the crops.
 Mr. Watson Williams who attends Wayland College visited with home-folks Sunday.
 Supt. W. A. Robbins of Floydada preached to the Methodist congregation here Sunday morning. The pastor, Rev. A. D. Moore preached Sunday night for the last time before the Conference.
 Word reached Mr. E. J. Hoffman on Saturday night that his mother Mrs. Cooper Hoffman of Henry, Illinois, was dead. Mr. Hoffman has the sympathy of the entire community with him.
 Mr. and Mrs. R. M. Cannon and children spent Saturday night and Sunday with Mrs. Cannon's sister, Mrs. J. V. Cheaves of Plainview.
 The comedy, "Three Hats," which was presented here last Friday night by the Sand Hill Dramatic club was well received.
 Miss Ouida Crabtree, a student in the Floydada High school spent the week end with homefolks.
 Eddie Fields returned to his home here a few days ago from the sanitarium in Floydada where he recently underwent an operation for appendicitis.
 Miss Thelma Kinnard is spending the week with her parents, Mr. and Mrs. F. S. Kinnard who live near Floydada.
 Rev. Y. F. Walker of Lockney will fill his regular appointment here Sunday Church Conference will be held at the Baptist Church Saturday night and every member is urged to be present.
 The Dramatic Club is giving a Negro Minstrel to be given at an early date. Watch for further announcement of it.

BAKER

Most every one is now about caught up with their maize heading.
 Mr. Loren Peacock and family of McAdoo and the Cross family from Antelope visited with the Peacock family here last Thursday night. Mr. and Mrs. W. C. Brown of Aiken also visited with them Saturday.
 Wanda Day who is attending school here spent the week end with home folks at McCoy.
 Some of the school children that have been out of school working in the fields are now back in school.
 Mrs. Peacock's sister, Georgia Holder is here visiting. Mrs. Sanders is also staying with Mrs. Peacock helping with the work.
 There was a singing here last Sun-

day. A large crowd attended. Do not forget the Pie Supper here next Friday night. Everybody come.

ANTELOPE

Miss Donna Mae Aston left Friday of this week for Abilene where she will attend school.
 Mr. Rob Hensley went to Pilot Point, Texas this week to obtain cotton pickers.
 Mr. and Mrs. Willis Stribling have relatives from Snyder visiting them this week.
 Miss Elsie Cooper has been ill for the past week.
 Mrs. Laura Crump of Crosbyton, and Miss LaFera McKeever of Spur are spending the week with Mr. and Mrs. John Aston.
 A box supper is to be held here Armistice night. The proceeds will go to improve the school grounds.
 Mr. Herbert Wisdom has been very ill for the past week.
 Mr. Bill Brown has been working near Floydada, but is back in the Antelope community now.

BAPTIST CHURCH

9:45—Sunday school. Be on time. 11:00 a. m.—Praching by Pastor. 6:30—All B. Y. P. U's meet. 7:15—Praching by Pastor. If you do not worship elsewhere, you are surely welcome here. "Come thou with us and we will do thee good." If you are absent do you have a reason or a just excuse? You will forget your excuses when you come face to face with the Master—C. J. McCarty, Pastor.

THE W. M. U.

The W. M. U. met last Monday at 3:00 p. m. with Mrs. D. P. Carter. The subject of the lesson in the Royal Service was "The Questioning Jew." The lesson was discussed in a helpful way and inspired us to do more in missionary work. There was a fine attendance and several new members.

We thought we could enlist more women by adopting the circle plan, so we have decided to have four groups. The southeast territory will be known as circle No. 1 and Mrs. W. D. Biggers will be chairman. The Southwest territory will be known as circle No. 2 and Mrs. C. J. McCarty will be chairman. The northeast territory will be known as Circle No. 4 and Mrs. Will Wofford will be chairman. The northwest territory will be known as circle No. 4 and Mrs. E. J. Thomas will be chairman. We hope every Baptist woman will find her place in one of these circles and all others will be welcome.

Next Monday at 3 p. m. all circles will meet. No. 1 meets with Mrs. Biggers, No. 2 with Mrs. Suits, No. 3 with Mrs. Wofford, and No. 4 with Mrs. J. H. Henson.

BAPTIST SERVICES AT CENTER

Rev. R. E. Bost will hold regular services for the Baptist Congregation at the Center church Saturday night at eight o'clock and Sunday at 11 a. m. and eight p. m.

Rev. Bost will be accompanied to Center by the Volunteer Band from Wayland College for the services, they taking part in each service.

Regular B. Y. P. U. Sunday afternoon at seven o'clock.

BEAUTY PARLOR NOTICE

Mrs. Mae Crager spent last week in Dallas, Texas attending a school conducted by Paul Rilling, famous Permanent Wave Specialist. The course taught in this school consisted of Permanent Waving and Beauty Culture in general. After taking a course under this prominent Specialist, Mrs. Crager feels that she is prepared to care for the ladies of Lockney better in her beauty parlor.

THE "DOPE" ON THE NEW FORD

Absolute knowlege have I none, But my aunt's washerwoman's son Heard a policeman on his beat, Say to a lobster on the street That he had a letter last week Hand written in the finest Greek From a Chinese coolie in Timbuctoo Who said that a son in Cuba knew Of a colored gent in a Texas town Who got it right from a circus clown That a man in Klondike got the news From a gang of smooth American Jews About some feller in Borneo Who knew a man who claimed to know A hermit who lived by the side of a lake Whose mother-in-law will undertake To prove to a friend's sister's niece Has stated in a nicely written piece That she has a son who knows about The date the new Ford car comes out.

NEWSPAPER IS HELD AS BEST AD MEDIUM

Chicago, Nov. 4.—Newspapers offer the best means of advertising. J. C. McQuinston, advertising manager of the Westinghouse Company, he said, had put all its general advertising funds into newspaper space for the fiscal year.

He listed nine reasons why he considered the newspaper better:

The first he said, is intimacy—enabling the company to give itself a local identity helpful to salesmen. Second, flexibility—"We can emphasize our products for a given industry in those section where such industry predominates."

Third—Co-operative tie-in advertising with local dealers.

Fourth—Reader interest—nearly every worthwhile American buys and reads his paper.

STORY FROM THE START

Handsome, fastidious and wealthy—young St. Croix Creighton awaits his sweetheart at their trysting place. She is fifteen minutes late, this ordinary little Pennsylvania Dutch girl, Meely Schwenckton, but he waits her eagerly. She is so demurely beautiful, he thinks, but so out of his class. Despite her seeming innocence and ignorance, she succeeds in keeping him at a distance, to his chagrin. Meely, in the Schwenckton home, where she is boarding, is altogether unlike the girl who meets St. Croix clandestinely, and her speech has little of the Pennsylvania Dutch accent.

CHAPTER II—Continued

Mr. Schwenckton looked sternly disapproving. "You hadn't ought to beist windahs where a person's layin' sick!" he reaffirmed, and Aunt Rosy added her horrified prophecy: "Yes, soon you'll have another wife dead on you, Mister, with such goings-on as soon as my back is turned around behind me onest!"

"Susie would be up and about in a week if you kept her room aired and clean," Meely imperturbably affirmed, "and the baby, too, would pick up. There's nothing the matter with the baby except that it's not properly taken care of, Mr. Schwenckton."

"Yes, well, but when a body's sick, or for babies," Mr. Schwenckton repeated, "we don't hold to openin' windahs on 'em."

"Susie's bed was plenty clean as it was!" declared Rosy. "It didn't need changin' till another week yet. It makes me too much work, such behaviors does! And Susie's too sick for Meely to take and wash her! Of—all-things! Washin' a person when they're sick yet!"

Meely's reception of this criticism was as impersonal as though it were being directed toward anyone but herself. Her whole attitude to this family, her very presence here, seemed tentative, experimental. When she was not regarding them with wide-eyed wonder and curiosity, her face was expressing suppressed amusement or pity, or impatience; sometimes her bewilderment; sometimes the interested suspense one might feel at a "movie" or a play.

Her attitude to her, however, was entirely matter-of-fact. Evidently they took her quite for granted, as she certainly did not take them.

Just now her alert observation took in the fact that Mr. Schwenckton's anxious glance was resting with affectionate concern on Lizzie's red eyes, that he was aware of her desperate effort to repress the little gasping catching of her breath which betrayed her recent violent crying; that he saw she was not eating any supper.

Reaching across the table, he took her plate, piled it with food and handed it back to her. "Eat your supper, Lizzie," he ordered in a tone that for him was a caress. "We can't have no more sick folks here."

"Ye-yes, sir." Though the food strangled her, she would have to obey and eat it to the last crumb when her father so ordered.

Aunt Rosy never missed a chance to disparage Meely in Sam Schwenckton's eyes; for she felt that if he could get rid of this objectionable girl, as she had gotten rid of Nettie and Jakey, the two older children of the family, she would hold the situation in hand, here in her young sister's home, with much more confidence.

"So you took another of them long walks of yours again today, Meely ain't?" she just now remarked in sinuantly. "Seems so funny walkin' just for the sake of walkin'! Ain't Sam? I guess," Aunt Rosy nodded knowingly, "she goes to meet her fellah!"

This bait elicited no reply from Meely, though it manifestly touched Mr. Schwenckton's curiosity a bit and even Lizzie's sickly interest.

"But why," continued Aunt Rosy, "are you so secret about it if you're gettin' a fellah? You're welcome, I'm sure, to keep company here in the front room. Ain't Sam? You're got no need to meet him secret that way. It don't look nice. Looks like as if you had somepin to hide yet! Ain't Sam?"

"I can't think," responded Mr. Schwenckton reflectively, "of any fellah round here that wouldn't be too common for Meely."

"Ach, I don't know. She ain't so much, so far forth as I can see," Aunt Rosy frankly stated, "even if she is high-educated that way."

"The only educated young men round here is the two Creightons, and to be sure," said Mr. Schwenckton, "they only run with swells."

"Creightons?" repeated Meely in quiringly.

"Yes. They're away-up folks, them Creightons. They're risticrats, they are. Grand folks. None better. Even the swells that lives 'in town ain't nothin' much to the Creightons—they're got so much, the Creightons has."

"So much? Money, you mean, of course?"

"To be sure. What else?"

"Well, I thought you might mean education or brains or even character—interesting things."

"Yes, well, they're got all them things too."

"Have they?"

"Ach, yes, they're very grand college-educated that way, them two Creightons. And the younger one, St. Croix, he's very proud and high-minded; wonderful high-minded! Marvin, the older one, he ain't so proud. He's different to what St. Croix is."

"How is he different?" asked Meely, disguising under an elaborate indifference her excited interest. Much as she had longed to ask questions about the Creightons, she had never dared risk it, so she was elated that, without any maneuvering on her part, the talk should be taking this interesting turn.

"Well," answered Mr. Schwenckton, "Marvin makes hisself nice and com-

Aunt Rosy Never Missed a Chance to Disparage Meely in Sam Schwenckton's Eyes.

mon with us folks when we meet up with him; and with his Pop's miners, too."

"But that ain't sayin', Meely," spoke in Aunt Rosy, "that he'd stoop to you. He ain't that common!"

"Isn't he?"

"Yes, well, but he might stoop even to such as Meely," Mr. Schwenckton speculated, "since his Pop turned him out to earn his own livin'."

"Oh! Why?" asked Meely breathlessly, off her guard for an instant in her surprise and curiosity.

"Well, he don't hold with his Pop about the way their miners is treated. He puts out that he thinks it's like Roosha under the ear. He's treatin' 'em like Roosha under the Hol sheviks. So him and his Pop they don't hit it off so wery good. He tol' his Pop (so it's put out) that he couldn't live on money so earned. So then his Pop tol' him to get out and earn his own livin' and see how he'd like it."

"Then the other son, St. Croix, will inherit all his father's wealth, will he?" asked Meely. "Or are there other heirs?"

"Them's all. But the estate is entailed, that way, and Marvin must get his share, too, till his Pop's deceased a'ready. That's what gets old Creighton so peeved, that he can't disinther his son; for he says that Marvin, with his Rooshevist tee-yous, will ruin their business—his own share and St. Croix's too, seein' it's all together. Yes, Marvin he's an awful werry to his Pop!"

"And to his brother, St. Croix, too, I should think?" Meely suggested.

"Ach, yes, it's put out that the brothers don't get on good together at all. Then there's other troubles, too, between Marvin and his Pop—about a second cousin in England with such a title—a duke-ess or what—that Marv was to marry and he got bawly and wouldn't do it. It seems he tol' his Pop he wouldn't buy his wife nor he wouldn't sell hisself for no titled lady in the world, nor he wouldn't marry no girl that would sell herself for his money."

"And was he sure," Meely asked, after an instant's pause, "that his English cousin wanted to sell herself?"

"Well, that's the talk. The two families had fixed up the match and Marvin he got bawly. And his Pop was awful peeved, he'd been so set on this here match. Marvin bein' the oldest was gave the first chance at this here grand lady, you see, and wouldn't take it. So now it's St. Croix that's to marry her, they say."

"Is he?"

"So they say. And I guess it's better so, for he's more suited to such a duke-ess, or what. Marvin's too plain a dresser for such a high lady."

"And how," asked Meely after another moment's silence, "does this Marvin earn his livin' since he's been thrown out by his father?"

"Yes, you better ask Meely! He's your boss! He's got hisself elected county superintendent of our public schools!"

"What?"

"Yes, mind if he didn't! So he'll be waitin' at your school one of these here days to see how you teach onest!"

"Does he know anything about teaching, himself?" asked Meely skeptically.

"Well, he's got a college diploma, or what."

"And the younger son—St. Croix—he agrees with his father, I suppose, about the treatment of the miners?"

"Ach, yes, him and his Pop agrees fine. He's the lawyer for the estate and his Pop thinks he's fine and sharp. Lizzie," he spoke to his little daughter, "eat your supper."

"It don't wonder me she don't eat," said Aunt Rosy; "her conscience won't leave her enjoy her vittles, so bad—"

"Be peaceable, Aunt Rosy. You can tell me after supper what you're got to say."

The child looked terrified at these ominous words and Meely glanced at her pityingly. For a moment no one spoke and the silence seemed heavy and menacing.

"Well," Mr. Schwenckton presently broke it, "I'm done." He pushed away his plate, drew the back of his hand across his mouth, shoved back his chair and rose. "I'll go up and see Susie."

Aunt Rosy, who was a greedy eater, at once concluded her own supper with a few hasty mouthfuls and rose to go with him. "Lizzie!" she spoke over her shoulder from the stairway opening out from the kitchen, "you get at and clear off the table and do the dishes and then finish up them diapers."

"Yes'm," answered Lizzie, rising at once and beginning to scrape and collect the plates.

A moment later Sammy, a cowed and sullen boy of twelve, shuffled into the kitchen, sat down at the table and began hungrily devouring his belated supper.

Meely strolled to the foot of the stairs and stood listening to the voices in the room above; and Lizzie, her eyes wide and strained, left the sink and tiptoed across the room to stand at her side.

"Lizzie she won't obey to me," Aunt Rosy's complaining voice came down from the sick room. "I can't do nothin' with her. After school this after she run out and stayed till near supper time a'ready! If you don't learn your children to obey to me, Mister, I can't housekeep for you, and then where'd you be, with a sick wife and a boarder that's that pertickler!—wantin' a napkin to every meal yet!—and interferin' and makin' Susie worse with lettin' in the cool air where she's layin' here sick! Well—of—all-things!"

"And, Sam," Susie's weak voice backed up her sister, "Meely she encourages Lizzie to disobey to my sister Rosy. I misoverheard her sayin' to Lizzie, 'It's a pity you ain't old enough to do like your sister and brother done—run off!' Yes, mind you, Sam, if she didn't tell Lizzie that!"

"Yi, yi, yi!" Mr. Schwenckton's deep voice responded in strongest disapproval.

"Yes, and if you don't get rid of your fancy boarder, Mister, you will have another of your children runnin' off, now mind I'm warnin' you!" said Aunt Rosy.

"Ach, no, no!" Mr. Schwenckton returned in a tone of mingled distress and resolve.

"Well, then, you gotta switch it out of Lizzie, Mister, the way you done out of Sammy. If you give her the good switchin' you give Sammy last week fur not mindin' to me, then I guess I won't have no more trouble with her. Sammy you bet he minds to me now when I speak to him! Well, I guess anyhow then! He jumps when I speak since he got that there good whippin' off of you! And Lizzie she needs it worse'n Sammy yet."

(TO BE CONTINUED.)

"And was he sure," Meely asked, after an instant's pause, "that his English cousin wanted to sell herself?"

"Well, that's the talk. The two families had fixed up the match and Marvin he got bawly. And his Pop was awful peeved, he'd been so set on this here match. Marvin bein' the oldest was gave the first chance at this here grand lady, you see, and wouldn't take it. So now it's St. Croix that's to marry her, they say."

"Is he?"

"So they say. And I guess it's better so, for he's more suited to such a duke-ess, or what. Marvin's too plain a dresser for such a high lady."

"And how," asked Meely after another moment's silence, "does this Marvin earn his livin' since he's been thrown out by his father?"

"Yes, you better ask Meely! He's your boss! He's got hisself elected county superintendent of our public schools!"

"What?"

"Yes, mind if he didn't! So he'll be waitin' at your school one of these here days to see how you teach onest!"

"Does he know anything about teaching, himself?" asked Meely skeptically.

"Well, he's got a college diploma, or what."

"And the younger son—St. Croix—he agrees with his father, I suppose, about the treatment of the miners?"

"Ach, yes, him and his Pop agrees fine. He's the lawyer for the estate and his Pop thinks he's fine and sharp. Lizzie," he spoke to his little daughter, "eat your supper."

"It don't wonder me she don't eat," said Aunt Rosy; "her conscience won't leave her enjoy her vittles, so bad—"

"Be peaceable, Aunt Rosy. You can tell me after supper what you're got to say."

The child looked terrified at these ominous words and Meely glanced at her pityingly. For a moment no one spoke and the silence seemed heavy and menacing.

"Well," Mr. Schwenckton presently broke it, "I'm done." He pushed away his plate, drew the back of his hand across his mouth, shoved back his chair and rose. "I'll go up and see Susie."

Aunt Rosy, who was a greedy eater, at once concluded her own supper with a few hasty mouthfuls and rose to go with him. "Lizzie!" she spoke over her shoulder from the stairway opening out from the kitchen, "you get at and clear off the table and do the dishes and then finish up them diapers."

"Yes'm," answered Lizzie, rising at once and beginning to scrape and collect the plates.

A moment later Sammy, a cowed and sullen boy of twelve, shuffled into the kitchen, sat down at the table and began hungrily devouring his belated supper.

Meely strolled to the foot of the stairs and stood listening to the voices in the room above; and Lizzie, her eyes wide and strained, left the sink and tiptoed across the room to stand at her side.

"Lizzie she won't obey to me," Aunt Rosy's complaining voice came down from the sick room. "I can't do nothin' with her. After school this after she run out and stayed till near supper time a'ready! If you don't learn your children to obey to me, Mister, I can't housekeep for you, and then where'd you be, with a sick wife and a boarder that's that pertickler!—wantin' a napkin to every meal yet!—and interferin' and makin' Susie worse with lettin' in the cool air where she's layin' here sick! Well—of—all-things!"

"And, Sam," Susie's weak voice backed up her sister, "Meely she encourages Lizzie to disobey to my sister Rosy. I misoverheard her sayin' to Lizzie, 'It's a pity you ain't old enough to do like your sister and brother done—run off!' Yes, mind you, Sam, if she didn't tell Lizzie that!"

"Yi, yi, yi!" Mr. Schwenckton's deep voice responded in strongest disapproval.

"Yes, and if you don't get rid of your fancy boarder, Mister, you will have another of your children runnin' off, now mind I'm warnin' you!" said Aunt Rosy.

"Ach, no, no!" Mr. Schwenckton returned in a tone of mingled distress and resolve.

"Well, then, you gotta switch it out of Lizzie, Mister, the way you done out of Sammy. If you give her the good switchin' you give Sammy last week fur not mindin' to me, then I guess I won't have no more trouble with her. Sammy you bet he minds to me now when I speak to him! Well, I guess anyhow then! He jumps when I speak since he got that there good whippin' off of you! And Lizzie she needs it worse'n Sammy yet."

(TO BE CONTINUED.)

Desert Animals That Scorpions Can't Harm

One of the most fascinating chapters in animal poisons is the subject of natural immunity, the fact that some animals are immune to the poisons of others and remain unharmed if stung or bitten by the poisonous animal, whereas all other sorts of beasts succumb.

A case in point is that of desert animals which are unharmed by a scorpion's sting. The desert fox, the kangaroo rat and other inhabitants of deserts where scorpions abound are in this happy position. Their cousins living far away from the desert would at once be seriously injured by a scorpion's sting, whereas the desert breeds remain unharmed. It is to be supposed that in the far distant past,

before the desert animals had this complete immunity to scorpion venom, those which were stung and could not resist died, leaving no offspring. Their luckier brothers, who happened to have a harder constitution, survived and left behind them a resistant race of descendants.—Prof. H. Munro Fox in the Forum.

Lengthy Railroad Tunnel

The longest railroad tunnel in the world is the one between Brig and Isella, Switzerland, which is 12 1/4 miles long, according to an answered question in Liberty.

Money that a man burns seldom helps him to enlighten the world.

This is a preliminary drawing for the proposed Indiana memorial to Abraham Lincoln. The building, surrounded by a park, is to be erected at the site where Lincoln lived from the age of seven until he was twenty-one, and where his mother, Nancy Hanks Lincoln, lies buried, among the rolling hills of Spencer county on the Ohio river. The estimated cost of the entire project is \$1,250,000.

Old Prison Had 25-Pound Lock

Centerville (Mich.) Calaboose Long Marked by Huge Device.

Centerville, Mich.—The history of the first jail in St. Joseph county with its now legendary 25-pound lock, such an ingenious combination of bolts and wards that the most expert raffles could not pick it and the most desperate yegg could not unlock it, even with the key, is told by Aloysia McLoughlin of Sturgis in a recent issue of the Michigan History Magazine.

"It was during a meeting of the board of supervisors who were trying to find sufficient excuse for having met—away back in White Pigeon in 1832—that one of them hit upon the happy thought of building a county jail at Centerville," Miss McLoughlin tells. "The board leaped upon the idea."

"To be sure, there were no tenants awaiting the building, but looking at each other in watchful waiting, they did not know how soon the call might come for housing a criminal and finding them wanting, and, anyway, all well-regulated communities had jails, and perhaps if their county had one, providence (for some one of their number) might provide an inmate," the writer relates.

Built in Two Months.

"And so they got busy, very busy, and two months afterward the county bastille was completed, that is, the contractor said it was completed. But contractors seem not to have changed in the last century, for this one, like many of his successors, had left off the most important part.

"The building itself was not bad. It was built of timber—a foot square. It was built in two blocks with an 8-foot space between two stories, 14 feet high, with floors 12 and 8 inches thick, doors of 4-inch plank grated windows and a strong shingle roof.

"But when, with a last gathering of his tools and a final resting of his tennepny nails from the urchins who had uninvitedly helped, the contractor turned the completed calaboose over to the county, the board of supervisors refused to settle. This contractor had overlooked to place any fastenings on the doors!"

Hunted for Lock.

"So he started through the village to find a lock or a locksmith and some interested adviser suggested the municipal gunsmith. The business in munitions was dull and the gunsmith hailed with delight the opportunity to give his ingenuity full rein. He contrived a staggering and complicated mechanism, weighing 25 pounds, a

lock which by sheer weight nearly broke down the door of the jail when finally fastened to it. It defied any unlocking and any entrance to the jail most of the time and rapid exit at all times, and the old lock is supposed to have terrified more criminals in an early day than did the jail that was fastened to it.

"With the jail finally open for business in July, 1833, the whole county sat on the edge of its chair, jealously waiting to see which village would have some citizen spirited enough to gain incarceration.

And Centerville Wins.

"The honor fell to Centerville, when one of its own, with a full head of hard cider, 'lammed' mine host of the tavern. There were neither warrants nor justices of the peace convenient for sending this first offender against the dignity of the great commonwealth to jail, but the sheriff collared him and thrust him into one of the block houses of the new jail, notwithstanding. Afraid to tamper with the gargantuan lock, however, the sheriff left the door open and notified the jailer.

"The jailer, very unused to having prisoners in his jail, forgot all about his transient until noon of the next day, when he hurried over to investigate and found his prisoner gone. He kept his own counsel and began looking up the law to find out whether or not he could in turn be arrested for a nuisance of office, but before he had finished his investigation as to his legal status following such a crime of neglect and aiding criminals might come on and with it came a bold knocking at his chamber door.

"Peering out from his window, the jailer saw the outlines of a form that gradually assumed familiar proportions. The battered hat and tattered clothes were not those of a desperado but they certainly were those of the county Rip Van Winkle, who was returning with a hangerover.

The Escaped Prisoner.

"Stealing down the stairs, the bold jailer obtained a close-up view of his midnight visitor and made certain of his findings. It was he! It was his escaped first and only prisoner. Should he escape again? Not if the county police force knew its business, thought the jailer, and carefully withdrawing from his point of vantage he achieved a flank movement; and armed with his authority and a stout shillalah he cornered his amateur convict and demanded his instant surrender in the name of the law.

"Surprised, but not startled, the guilty one turned and held out a friendly hand of good fellowship, at

Briton Says Device Will Eliminate Ice

London.—Cold storage and refrigeration are likely to become obsolete if claims put forward in connection with an invention for preserving fruit, eggs, butter and other foods are justified.

The method, known as "Staback's process," is more a protection than a preservation. It consists of a harmless solution which is said to enable a housewife to keep 300 or 400 eggs for an indefinite period.

The English National Utility Poultry society treated dozens of eggs by coating them with the solution and stored them in an ordinary place. At the end of several months they were absolutely fresh.

On two occasions consignments of apples after treatment were sent as deck cargo to Tasmania and they arrived fresh.

It is claimed that the process will reduce the cost of imported fruit, as the freightage will be halved, and it is hoped that many tropical fruits will be introduced into England which have never before been imported.

Judge Impounds Coed's Car Till After Game

San Francisco.—Because Peggy Bennett, nineteen, drove her automobile 35 miles an hour through a 15-mile zone on the University of California campus, she will have to obtain other means of transportation to the Stanford-California football game November 19. Judge Harry Pulcifer in Oakland ordered the girl's car impounded until November 25.

"Please, Judge, make it November 19, because I need the car to go to Stanford for the big game," pleaded Miss Bennett.

"Well, it's just too bad, but November 25 stands," ruled Judge Pulcifer, the same time tendering the jailer a grimy two shillings, requesting, with all the exaggerated courtesy of a man doubtful of his reception, that he might have the privilege of again sleeping in the county jail.

"So ended the story of the first prisoner, and the last for several months, although it is not a matter of record how long the Centerville jail was utilized as a hotel by the wayward bilboer."

The old lock, according to the writer, may have accounted by its capricious ways and puzzling combinations for the death of one DeForest, who set fire to the old jail while a prisoner in 1854 and burned with it, not being able to make his escape from the blazing building.

The old lock, it is related, disappeared with the fire, and years afterward was fished out of the St. Joseph river by some boys at Mendon.

THIN OZONE THREAD JUST MISSES ENDANGERING LIFE

One Scientist Foresees End of Universe, According to Smithsonian Report.

Washington.—A slender thread of ozone in the upper atmosphere just misses endangering human health, according to Dr. C. G. Abbot, acting secretary of the Smithsonian Institution, in its eighty-first annual report, for 1926.

"With the higher plants," writes Doctor Abbot, "it must be sunshine or death. With man and the higher animals, it must be sunshine or sickness."

The value of sun rays as a cure for rickets is now well known, he says, and the particular rays which have this curative property seem to be a very narrow region in the ultra violet.

"It is astonishing to remember," continues Doctor Abbot, "that "

very group of rays, thus proved so indispensable to the development of growing creatures, just misses being cut off from sun rays by the trace of ozone which exists in our upper atmosphere."

These views are given by Doctor Abbot in one of two articles by him included in 31 papers which form the report. Subjects as diverse as evolution of the stars and the importance of parasites in control of insects are covered.

J. H. Jeans, English mathematician and astronomer, discusses the new outlook in cosmogony, saying that "a number of considerations combine to show that the universe is finite."

Doctor Jeans is inclined to bound the universe by the Andromeda Nebula and the Star Cloud 6822, at respective distances of 150,000 and 1,000,000 light years from the earth.

"From the sun's known rate of

radiation it is found that its mass must be diminishing at the rate of about 250,000,000 tons a minute," he writes. "At the present rate of radiation, the total mass of the sun would provide radiation for fifteen million years."

The cause of earthquakes, particularly in the eastern United States, is treated by Dr. William H. Hobbs. Geologists generally believe, he says, that such changes in the earth's surface are caused by "the continuous loss into surrounding space of the heat from the earth's interior portions."

"This loss of heat," he continues, "is caused by a reduction of volume, a shrinking of the interior core of the earth, and the outer shell of rock being already cooled to a relatively stable condition must wrinkle as it adjusts itself."

Sea Birds' Sanctuary

Victoria, B. C.—Sea birds of all kinds will be protected from destruction in a large sanctuary to be created by the British Columbia game conservation board west of this city.

BARGAIN DAYS

CLOSE DECEMBER 15, 1927

All Subscriptions that have not expired will be dated one year from date of expiration at these Bargain Day Specials.

From now until December 15th., these bargain prices will be ineffect. No subscriptions will be received at these prices to be sent to foreign subscribers. All papers at these prices are confined to Floyd, Hale, Briscoe, Crosby, Lubbock and Motley Counties.

See the following committee at Lockney for the work to be done, brick carpenter, plaster and roof. Bids let on the regular rules applying.

Building Committee, E. Guthrie, Z. T. Riley, W. C. Watson, Geo. T. Meriwether

SMALL LINCOLN IS WAY DALLASITE DESCRIBES NEW FORD

From Dallas News
The new Ford car has a speed of more than seventy miles an hour, can exceed fifty miles an hour in second gear and in appearance is a smaller edition of the Lincoln, says John E. Morriss, Dallas dealer who returned last week from Detroit, where he rode in the new car and talked to Henry Ford about it.

Additional information on the new Ford was gleaned from Raymond Hatton, moving picture star, who flew from Dallas to Detroit in a Ford plane, by James L. Price, vice-president of the John E. Morriss Company.

The new Ford has a wheel base of 104 inches, with bodies much lower and roomier, Mr. Morriss reported. An average-sized man can almost look over the top of the car, which has the flowing lines characteristics of the Lincoln and other large cars. Five wire wheels are standard equipment, while the crown fenders are wider and heavier.

New Name Plate

The radiator is rounded and nickled like a Lincoln, and is decorated with a new name plate. Within a blue outlined circle is the white name "Ford" written in the familiar Ford script. A new design radiator cap topped by a quail, which was chosen to symbolize the fast getaway of the car. Nickel bullet-type lamps are standard.

Crankshaft Counterbalancer

Use of the counterbalancer and an increase in the number of bearings on the crankshaft were said to have practically eliminated vibration. Mr. Morriss who drove the car at a speed of from one to fifty-two miles an hour, declared that at no speed was there any vibration noticeable.

Four-wheel mechanical brakes are standard equipment, with an emergency brake at the left of the drivers seat. The gear-shift is standard and the steering gear has been changed to the indirect type. Mr. Morriss was given a demonstration in sand, thru which the car was steered with one hand. Cooling is by water pump and ignition is by storage battery, as on most standard cars, the magneto having been discontinued. Gasoline feed is by gravity.

Change of drive from torque rod to tubular shaft was reported by Mr. Morriss. The rear axle was said to be semi-floating. He did not have an opportunity to inspect the type of springs used on the new car.

New Kind of Horn

Two bumpers are standard equipment on the cars. A speedometer, oil gauge and ammeter are said to be members of the dash assembly while a foot feed and a motor driven horn are standard equipment. Locks were found on some of the cars though it is

not known whether they will be regular equipment.

Raymond Hatton, movie star who came from Detroit to Dallas last week was given the use of one of the new Ford cars to test as he pleased at the Ford Motor Company proving ground. He drove the car sixty-eight miles an hour, and reported to H. M. Burton of the Dallas Assembly plant of the Ford Company that the car could easily have done more than seventy. He made fifty-one miles an hour in second gear. After driving it over the roughest roads he could find and trying it as severely as he could, he gave an order for two new

Fords to replace his present cars.

Samples of the new car are expected in Dallas this month. The price will be practically the same as for the old models Mr. Morriss reported.

Unusual production as soon as the Ford factories are really started turning out the new cars is expected. The departments of the factory have been arranged for greater efficiency and the output is due to be unprecedented, said Mr. Morriss.

Dr. and Mrs. J. M. Floyd spent Sunday in McAdoo, Texas visiting with friends.

ANNOUNCEMENT

I have taken over the Davis Produce Company and in the market for all kinds of Produce, Cream, Hides and Eggs.
