#### SANTA FE SPECIAL TRAIN HERE WEDNESDAY

A special train of Santa Fe officials visited in Lockney Wednesday morning, arriving here at 10:40 and spending about thirty minutes in conference with about thirty local business men. The visit was of a good will nature, feeling the pulse of each community on their lines looking to the betterment of the service, and finding out that the community ideas were in regard to same.

In the party were Mr. R. H. Allison, vice-president and general manager of the Panhandle lines; Avery Turner, Tax Commissioner; Joe Barton, Superintendent of the Siaton Division, and several others.

They were elated over the prospects for a good reop year in this immediate section, and were proud of the progress being made along diversification lines in the county.

They went from here to Floydada for a short visit.

# 66 % ... but what - will it cost me . to buy that car on time? ??

WHEN you buy a car for cash, you pay the factory price plus freight, war tax and delivery charges. When you buy on time, you pay an additional charge which includes fire and theft insurance. This additional amount is known as a "finance charge."

The finance charges on General Motors cars are low because the General Motors Acceptance Corporation was organized to assure sound credit practice and low rates to those of its customers who prefer to purchase on time. The Acceptance Corporation operates the GMAC Plan of payment. The Plan is simple, fair and economical. Its large volume of business reduces costs. It is conducted to give you satisfaction and to keep your goodwill.

When you buy a General Motors car on the GMAC Plan, you pay the cash delivered price - plus only the low GMAC financing charge-nothing more!

Hot

The Plan is available only through General Motors dealers. Another reason for buying your next car-whether new or used-from a General Motors dealer.

# Buy your next car on the GMAC Plan

The General Motors cars are Chevrolet, Pontiac, Oldsmobile, Oakland, Buick, LaSalle and Cadillac. Together they make up a line of 86 models, ranging in price-at-the-factory from \$495 to \$5500. They are the quality cars of the various car price classes.

Whatever make and model you choose-whether it be of the highest price, or the lowest-you will get a beautiful body (the closed bodies are by Fisher), 4-wheel brakes, a powerful engine, and a quality of design, materials and performance that only General Motors, by reason of its resources and its policy of continuous improvement, is in a position to give.

And the final touch in your satisfaction will come when you buy it on the GMAC Plan. The transaction will be in your interest. The rates will be low. And the dealer will not lose interest in you after the down payment is made.

Dear Editor:-A few weeks ago I key and the writing of the prescriptions and that letter was perhaps the reason for me being invited to a meeting of the local druggists and physi-

At the meeting in question it was made very plain that the physicians resented what they were disposed to er would be guilty. regard as this interference with their own business and the unanimous verdict was that they would continue the

They said they were trying to conduct such business in a lawful manner and would continue to do so.

Their attitude was a disappointment to me as I have believed they would discontinue it if shown in a fair manner that it was not appreciated by a majority of their customers.

The druggists said that they would discontinue filling prescriptions after next January first providing that Floydada and Plainview did not secure permits to sell it, in which case they would continue the practice.

Their attitude was also disappointing to me and as well as a great number of people who live in this com!

At least one of them claimed it yould be a personal loss because of goods already allotted to him.

The facts are that strong pressure s being brought to bear on the druggists of Plainview and Floydada to sell liquor because it is being handled

There is a large public sentiment watching this business to see just what may be done about it. For the further information of your readers, I am releasing to you for publication a letter from Rev. Atticus Webb, Superintendent, Anti-Saloon League of Texas relative to these matters. Very truly,

TELEPHONE IS FIFTY YEARS OLD

Fifty years ago the first commercial telephone switchboard in the world was installed at New Haven, Conn. It had eight lines, serving 21 subscribers. The first telephone directory was a card containing about 50 names, without numbers and not arranged alphabetically.

Today, for every 100 residents of Connecticut there are 18 telephones. Complicated telephone switchboards are in every city, town and hamlet throughout the United States, serving millions of subscribers to whom the and business life.
