**Primary Department**  
Miss Mollie Newman, Principal, 3rd grade; Miss Hula Coleman, 4th grade; Miss Pauline Stovall, 4th grade; Miss Grace Wise, 2nd grade; Miss Olga Honea, 1st grade.

### CROPS IN BEST OF CONDITION

The crops of Floyd county and the South Plains are in the very best of condition at this time and a bountiful harvest of cotton and feed crops is very promising.

The cotton is on an average about 24 inches high, mostly well covered with squares and bolls, and so far there has been very little talk of any insect infection. There is plenty of moisture in the ground, and if the weather stays dry and hot there is no telling how large the yield of cotton per acre will be, as the present prospects look equal to the yield per acre of the 1926 crop. The cotton as a whole is extra clean, the farmers having perfectly cleared it of weeds and grass, and the stand is very thick and the plants prolific.

Most all the feed crops now have the "big head" and many fields are so thick with the maturing heads that have not suffered in any way during the growing season, that from 1-1-2 to two tons per acre will be the harvest in many places this year.

As a whole the outlook for a bumper crop of feed and cotton, in accordance with the acreage planted, is very flattering, and the time is drawing near when the final day for making and saving this crop will be at hand.

If nothing happens to ruin our prospects for a crop, we will be setting on top of the world this fall.

### POSTAL RECEIPTS INCREASE IN LOCKNEY OFFICE

Postmaster Homer Howard informs the Beacon that the postal receipts for the month of July 1928, were 25 per cent larger than those for July 1927. This shows that business conditions at this place are on the increase, and that the county is in better shape than it was at this time last year.

## Base Ball Tournament Beginning Tomorrow

TOURNAMENT WILL BE HELD IN LOCKNEY, FRIDAY, SATURDAY AND SUNDAY FOR SOUTH PLAINS TEAMS

Through an arrangement sponsored by Harley Sadler and local base ball players, a baseball tournament will be held in Lockney beginning tomorrow (Friday) afternoon, and lasting until Saturday afternoon.

The first day (Friday) Hale Center and Harley Sadler's ball teams will play a game beginning at 3 o'clock. Saturday afternoon Olton and Lockney will play a game. Sunday afternoon the two teams winning in the games of Friday and Saturday will play for first and second place in the tournament, and the teams losing on those days will play for the third place.

Base ball fans from all over the Plains are expected to be present, and circulars announcing the games have been distributed to all the surrounding towns.

### SHERIFF DEFEATED IN SWISHER COUNTY

Tulia, Aug. 25.—Sheriff T. H. Walters running for re-election in Swisher county was defeated in the run-off primary here today by an unofficial estimate of 75 votes as the count was not quite complete. He lost to J. C. Moseley.

## HALE COUNTY BOASTS 20,014 POPULATION

Scholastic Census Figures Show Plainview to Have 10,000 People

Plainview, Aug. 22.—Hale county's present population is estimated at 22,014 people by the Plainview Board of City Development based upon the latest scholastic census just completed showing the scholastic census of county to be 5,187 students. Statistics for the years in which the federal census has been taken show the ratio between scholastics and the actual population to be 4.35 in Hale county, and this ratio was used in making the above estimate.

On the same basis, Plainview's population is given as 10,000 by the Plainview Board of City Development as Plainview has 2,457 scholastics and due allowance is made for transfers and students who live outside the city limits. Plainview's population has increased by fifty per cent since 1925 when the estimate was 7,509. Hale county's population has more than doubled since 1920 according to the estimates.

### CONSTRUCTION TO BEGIN SEPT. 5TH ON HALES PAVING

Thirty-Seven Miles of Road in Hale County Will be Paved in Million Dollar Highway Program

Work on Hale county's million dollar road program will probably begin about Sept. 5, according to Division Engineer George A. Field.

Contract has been let for 37 miles of dirt work and drainage structure to prepare for permanent paving from the Lubbock county line to the Swisher county line on Highway No. 9; and machinery and equipment is now being shipped for the work, Mr. Field said.

Hale county and Dickens county thus far have taken more interest than any other counties in this highway division in obtaining permanent paving for state highways running through their borders.

### PINNED UNDER CAR AND CHEST WAS CRUSHED

Noel E. Stem, 17, Dies from Injuries Received in Accident Near Memphis, Texas

Memphis, Aug. 26.—Noel E. Stem, 17, was instantly killed Saturday afternoon about 5 o'clock, when a car in which he was riding overturned about a quarter of a mile west of Lakeview, 16 miles west of Memphis. He was pinned underneath the car, crushing his chest.

## Beacon Will Build Brick Office Building

New Building Will Be On Main Street Just South of Baker Mercantile Co.'s Store

A deal was consummated this week between Artie Baker and H. B. Adams, by which Mr. Adams becomes the owner of lot 6 in block 10, where he will have a brick office building erected, and move the Beacon office to same, as soon as the building is completed. The contract for the building is being let this week and work will begin at once.

The building is to be 27x100 feet with 17 foot walls, built of brick and tile with solid concrete floor. White face brick will be used for the front of the building, with two large show windows in the front.

A space of 25 feet the width of the building will be used as a rest room and community meeting place, where people can come, rest, read exchanges and magazines, etc., and the idea is to make a place in Lockney where farmers can hold special meetings, local organizations, that have no meeting place, can hold their meetings, etc.

The Chamber of Commerce office is also to be located in this building, and travelers can be supplied with information, the building will be handy for them on the highway. Also a farm exhibit will be gathered and arranged in the front of the building where a good display can be had.

It is the intention of the owner to make of the front end of the building a community house, where the people will feel free to come and rest, and make themselves at home while they are in Lockney, and we intend to make it as convenient as it is our power to do.

### FEDERAL TAXES FOR 1928 \$75,147,592 LESS THAN '27

Washington, Aug. 26.—Tax collections by the Government were less by \$75,147,592 in the fiscal year ending June 30, 1928, than in the year preceding, on the basis of the annual preliminary statement of the Internal Revenue Bureau.

The report made public Sunday shows that in 1928 total tax collections amounted to \$2,790,535,537, while the year before the total reached \$2,865,683,129. Of the amount \$2,174,573,102 in 1928 were income taxes. In 1927 the income taxes amounted to \$2,219,352,443.

## TEXAS INTERNAL TAXES PAID U. S. FOR 1928 TOTAL \$47,332,528

Income Levy Shows Gain In State of Six Per Cent

By Staff Correspondent  
Washington, Aug. 26.—Texas contributed \$47,332,528 to the Federal Government in internal taxes during the fiscal year 1928, ending June 30, according to tentative figures announced Saturday night by the Bureau of Internal Revenue.

The bulk of this was derived from income taxes, amounting to \$45,659,115. Miscellaneous taxes, paid on theater admissions, stock transfers, automobile, tobacco, cigars and the like, amounted to \$1,673,412. On the income taxes this represented an increase of 6 per cent whereas collections for the nation at large, amounting to \$2,174,573,102 showed a loss of 2 per cent.

Out of the total collections for income taxes in Texas \$29,770,430 was paid by corporations of the state and \$15,888,685 on individual returns. The big gain was in North Texas, the Dallas office showing collections of \$2,419,922, compared with \$19,868,252 in 1927, or a gain for that district of 21 per cent. The South Texas division with headquarters at Austin, showed collections of \$23,313,505, compared with \$25,090,958 in 1927, or a loss of 7 per cent.

The total collections for Oklahoma were \$20,514,887 of which only \$323,819 came from miscellaneous sources. Of the income taxes paid in that state \$9,732,965 came from corporations and \$10,455,102 on individual returns. The report shows that for the National at large \$60,087,233 was collected on inheritances which was a reduction of \$40,000,000 on collections of the preceding year.

### TRUCKY MASONS TO BUILD NEW TEMPLE

Turkey, Aug. 26.—Contractors have started the foundation for the two-story Masonic Temple. This is to be a modern building in every respect, of brick and tile. The upper floor will be used by the Masons and the lower for mercantile purposes. When completed it will cost approximately \$9,000.

Gordon Hedrick of the Greene Dry Goods Company is building a modern little home in the J. & B. Addition. The crying demand in Turkey is more homes, some 10 or 12 additional families are waiting to locate here within the next two weeks, if living quarters can be had.

Mr. and Mrs. A. B. Brown were in Amarillo the first of the week.

## HARLEY SADLER COMPANY HERE THIS WEEK

High Class Repertoire Presenting Plays Under Canvass This Week In Lockney

Harley Sadler and his own company are spending a week's engagement in Lockney this week, and are showing to good crowds at their mammoth tent theatre, just east of the Woodridge Lumber Co., each night. The plays to be presented here this year are all new plays, having never been presented in this city before. Tonight they will present the play entitled "I Want the Moon," which is advertised as his feature play for the week. Saturday afternoon as a matinee he will present "Huckleberry Finn," one of the funniest plays ever written.

They will offer the public rare treats in the way of new plays for the rest of the week.

The base ball team that travels with the company, are playing games each afternoon with Lockney and other towns in the immediate section and some real poppy games are being played. Tuesday the Lockney "Old Timers" defeated the show team by a score of 13 to 1. However, the Lockney Regulars have been defeated in every game played here between them and the Sadler team.

The show goes people of the community look forward each year to the week spent here by the Sadler Company with much pleasure, and the company has many warm friends who welcome them each year.

### PER CAPITA FARM WEALTH OF REGION IS NOW OVER \$366.00

Value of agricultural products of the Panhandle-South Plains:	
Wheat	\$22,000,000
Cotton	\$80,000,000
Cattle	\$25,000,000
Grain Sorghums	\$38,000,000
Dairy Products	\$ 5,000,000
Hogs, Sheep and other farm products	\$13,000,000
Total	\$183,000,000

By Henry Ansley

Agricultural Extension Department  
The forty-one northwest counties of Texas, comprising the Panhandle and South Plains will produce more than \$183,000,000 worth of agricultural products, including cattle, this year.

The above table shows a division of the agricultural wealth of the Panhandle. The figures were compiled after several weeks intensive study and a careful survey of the farm conditions of this area, the number of acres in cultivation and the use of production tables of former years compiled by the state and United States department of agriculture.

The total proves that the Panhandle-South Plains is a real agricultural empire, the value of its products, exceeding that of more than one-half of the states of the Union.

Conservative men say that there are slightly less than 500,000 people in the forty-one counties in this report. Conceding that there are 500,000 people in this territory, with the value of all agricultural products exceeding \$183,000,000 then we have \$366 for every man, woman and child in the territory.

Remember that the farmer's dollar is the most valuable dollar in the world, in that it goes through more hands and is spent more often and in a greater variety of ways than any other dollar.

Think what the \$366 for every man woman and child means. Did you know that the farmers and cattlemen of the Panhandle are producing \$1 a day for every person in the territory?

Consider then that the agricultural development of the Panhandle is only beginning. That less than one-fourth of the tillable land is in cultivation any only a very, very small amount is being intensively cultivated.

It is not idle to predict that the Panhandle-South Plains region will some day produce as much agricultural wealth as the balance of Texas, the greatest agricultural state in the Union.

It is not folly to say that the Panhandle-South Plains area is capable of feeding the entire state.

Neither is it foolish to assert that hard times cannot seriously affect the Panhandle-South Plains are so long as there is a diversity of products as shown by the table at the head of this story.

The Panhandle-South Plains territory has come into its own. In the years to come the \$183,000,000 crop that we boast about now, will be remembered only as the year during which the territory really started developing agriculturally.

Dr. S. T. Cooper and family are spending the week at Silver Lake Falls, where the L. H. Cooper heirs from various parts are enjoying a family reunion of five days.

## Floyd County Returns In Run-off Primary

Taylor, Henderson and Payne Nominated as Commissioner, Covington Wins for Public Weigher

Just about two-fifths of the votes in Floyd county were polled in the Democratic run-off primary last Saturday. At Lockney there was less than one-sixth of the voters who went to the polls and voted. There was no contest for county or precinct offices in Commissioners Precinct No. 2, therefore, the vote was very light at Lockney, Aiken, Providence and Lone Star.

Conventionally carried the county for United States Senator by a vote of 951 to Mayfield's 549. Miller polled 1754 votes for lieutenant governor, with no opponent.

Marrs polled 885 against Garner's 509 for State Superintendent; and Robinson polled 970 against Terrell's 322 for Land Commissioner.

In the Commissioners races the result was as follows:

In Precinct No. 1, Floydada, Henderson defeated Henry by a vote of 436 to 210.

In Precinct No. 3, M. H. Taylor defeated Walter Wood by one majority, the vote being 162 for Taylor and 161 for Wood. Wood was running for reelection.

In Precinct No. 4, W. W. Payne, running for re-election, defeated Earl Rainer, by a vote of 214 to 185.

For public weigher of Precincts Nos. 1 and 4, Covington defeated Poljan by a vote of 625 to 432.

### PROPOSED SALE OF ORIENT O. K. IN TEXAS

Austin, Aug. 27.—The Texas Railroad Commission has given its official approval to the application of the Gulf, Colorado and Santa Fe Railway Company to purchase the stock of the Kansas City, Mexico and Orient Railway, now pending before the Interstate Commerce Commission, it was announced by Chairman Clarence E. Gilmore and C. V. Terrell of the Texas Commission.

The application of the Santa Fe was considered at a meeting of the Interstate Commerce Commission on July 23, at which the Texas Commission was represented. The latter was requested to make its recommendations.

Texas has a vital interest in the application, the statement of the Commission said, "because 563 miles of the total mileage of 737 miles of main line track is located in Texas.

**Oil Is Turning Point**  
"The Orient enters Texas at the state line near Chillicothe and runs southwesterly through the western portion of the State to Alpine. A large section of the territory through which the Orient runs has no other railroad facilities to rely upon. From San Angelo to Alpine, a distance of approximately 277 miles, there is no other railroad or railroad service."

The statement of the discovery of oil on the Orient line in Reagan, Upton and other counties had been the turning point in its history.

"It has made upward progress since then but it still is far from being a strong, capable road," said the commission.

"It is an accepted fact," continued the commission, "that the Santa Fe is a strong, capable road," said the commission.

"It is an accepted fact," continued the commission, "that the Santa Fe is a strong organization, strong financially, strong in its personnel, with a record of building and development worthy of commendation. The Orient fits in admirably with the Santa Fe system. From its Texas points it will shorten the mileage to many of the leading markets of the country on commodities originating on the Orient Railroad.

**Route to Kansas City**  
"Wichita, Kan., is the northern terminus of the Orient. Becoming a part of the Santa Fe will give a thru route to Kansas City, one of the original termini intended for the Orient. The acquisition of this property by the Santa Fe would forever settle any question as to the Orient's future and place it in a position to become one of the leading railroads of the state.

"In addition to its mileage in the United States, which would come under the control of the Santa Fe, the mileage owned by the Orient in Mexico likewise would be included. One branch of the Mexico line is now near completion to the io Grande river at or near Presidio. It was the original plan of the Orient to build from Alpine southwest to a connection with the Mexico line at that point."

The commission added that whether the Santa Fe is paying too much or too little for this line, "we are not in a position to say, but the price does not appear to be out of line." The purchase price is reported to be \$14,500,000.

The returns from Missouri were not very cheering to John J. Raskob, the Republican Chairman of the Democratic National Committee nor to his candidate, Al Smith, of Tammany Hall. The majority for Herbert Hoover in Missouri will be infinitely larger than the dry majority for Senator Hay.

**DR. J. B. CRANFILL REVIVES THE ADVANCE**

Dr. J. B. Cranfill, the old-time prohibition editor, who launched The Gatesville Advance in 1882, and which was the first weekly paper in Texas to advocate National Prohibition, has revived his paper. The price of The Advance is \$1.00 a year. Sample copies will be sent upon request. Agents are wanted in every part of Texas.

The Advance heartily and vigorously advocates the Eighteenth Amendment and all other prohibition provisions, and identifies itself as "a journal of Christian civilization."

A post card will bring you a sample copy, or, what is better, \$1.00 will bring this prohibition paper to you for a whole year. Address The Advance, 630 Wilson Bldg., Dallas, Tex.

**THE SERPENT AMONG THE FLOWERS**

A well-planned and persistent effort on the part of the Al Smith press is in progress to convince the public that Herbert Hoover's prohibition pronouncement is a straddle—that, taken as a whole, the attitude of Al Smith and Herbert Hoover is substantially the same.

Co-incident with this sinister propaganda is the statement that no matter what attitude a President may assume he cannot repeal the Eighteenth Amendment nor weaken it—that the amendment is in the Constitution to stay; that its repeal is practically impossible; that the President is powerless to compass any substantial changes with reference to our prohibition laws or their enforcement.

This is the serpent among the flowers. It is designed to mislead the unwary and confirm those ingenious prohibitionists who think they can be true to the principle of prohibition and, at the same time, vote for Al

Smith, in the belief that he is as good a prohibitionist as we need and that, at any rate, he is certainly as good a prohibitionist as Herbert Hoover.

The fact is, however, that Al Smith and Herbert Hoover are the poles apart in their attitude toward the Eighteenth Amendment and their expressions concerning it. The editor of The Advance heard Hoover's letter of acceptance over radio, and when Hoover reached the discussion of the Eighteenth Amendment his voice was resonant as he declared:

"I am opposed to the repeal of the Eighteenth Amendment."  
 Nothing could be more positive, more straightforward, more honest, nor more emphatic than this announcement by our favorite candidate for President.

Not only did he vociferate his opposition to the repeal of the Eighteenth Amendment, but he declared with equal clarity that he was opposed to any attempt to nullify the Eighteenth Amendment by a modification that would, by indirection, achieve the nullification of the amendment, while pretending to revere it.

The position of Governor Al Smith, which is even more clearly voiced by J. J. Raskob, the Republican Chairman of the Democratic National Committee, is that there is nothing at all good in the Eighteenth Amendment or in any laws that have been passed thereunder. Raskob refers to the Eighteenth Amendment and its enforcement statutes as "that damnable affliction of prohibition."

True, Governor Smith has declared that he thinks local option the best means of dealing with the liquor traffic—that certainly the states are the units in liquor control if we should advance beyond the counties as units. In other words, his real position is that the states by their votes should pass their own enforcement statutes and thus, by indirection through state action, nullify the Eighteenth Amendment.

It is the same old serpent crawling its slimy length through the flowers of our civilization. Herbert Hoover in his letter of acceptance emphasized the dignity and nobility of the American home; Governor Al Smith and J. J. Raskob, the Republican Chairman of the National Democratic Committee, through their opposition to prohibition, are to the extent of their ability projecting dagger thrusts at the very vitalities of our civilization through the re-enthronement of the liquor traffic and its allies of the underworld.

What Governor Al Smith will say in his letter of acceptance, no one can now foresee. He has had so many jolts at the hands of American prohibitionists and particularly from the South that he may wriggle his way into some kind of straddle, but, on the other hand, he may take the gamble and stake his all on the wet vote, and by that means bring enough of the Northern and Eastern states to his banner to overcome the large Hoover vote that is certain to be registered in the South.

Meantime, let no prohibitionist be deceived. We are now fighting the battle of Armageddon. The result of the pending national election will determine, perhaps for all time, the status and stability of the Eighteenth Amendment and its companion, the Nineteenth Amendment, for if the liquor interests can emasculate and nullify the Eighteenth Amendment it will then be far less difficult for Al Smith and J. J. Raskob et al, to repeal the Nineteenth Amendment, thus forever depriving American womanhood from representation at the ballot box.—The Advance.

**GOVERNOR SMITH AND THE EIGHTEENTH AMENDMENT**

In The Semi-Weekly Farm News of Aug. 17 I notice an editorial which halfheartedly defends Governor Smith in his stand on prohibition and the 18th Amendment to the Constitution. I admit the "misstatements of fact" referred to, but what is the spirit and purpose of the Eighteenth Amendment and the Volstead Act? It is not to abolish the manufacture and sale of intoxicating liquor? Then, if one-half of 1 per cent, as prescribed by the Volstead act, is low enough in alcoholic content, is low enough in manufacture and sale of intoxicating liquor, why should Governor Smith, who has on several occasions suggested 2.75 per cent, wish a higher alcoholic content? If he should be elected president and use his influence to get Congress to modify the Volstead act to allow the manufacture and sale of beverages with 2 3/4 per cent alcoholic content, when every man or woman who has had any experience with intoxicating liquor knows that such beverages are intoxicating—would that not equal nullification of the Eighteenth Amendment?

Then why doesn't Gov. Smith come out from under the cloud of demagoguery and hypocrisy and declare openly for absolute repeal of the Eighteenth Amendment and the Volstead act.

If he hates the Eighteenth Amendment and the Volstead act, as he admittedly does, he could not take the oath of office without admitting himself to be a hypocrite, for no man ever tried to protect and defend anything that he hates.

Comparing the Volstead act with the Dean act does not justify Governor Smith's position on the Eighteenth Amendment and the Volstead act. Because if the Dean act, which is a State prohibition law, were put to a test and carried before the highest tribunal of the United States, it would in all probability be declared unconstitutional because it does not

measure up to the Eighteenth Amendment and the Volstead act, which is United States Constitution and law.

Then how can we vote for a man who will do his utmost to destroy or impair our constitutional prohibition law which we and our forefathers have worked and prayed for a hundred years or more.—L. A. BUFFINGTON, Fouke, Ark., in Dallas News.

**JUST PLAIN DEMOCRAT**

There I call a halt even to her majesty, for the orderly disorder of the sanctum sanctorum is inviolable! These personal matters will answer some questions of friends who don't understand why I live in the sticks.

Some one has just sent me the following:

"I'm just a plain old Democrat. I've been one all my life. Not much on styles and folderlins, I'll—though you dub me fool—Tote water to the elephant If Al Smith feeds the mule!

"I've voted every ticket straight Without a sigh or wail, Rode true with all the nominees, Though some were kind o' stale; But dern it all, old Al's too much, I'll have to break the rule, Feed peanuts to the elephant, If Al Smith feeds the mule.

"I love the South with all my heart, And memory keeps live The sacrifice supreme it made From sixty-one to five; But, Heck! Ole Al's too rough a bird, I'll—never mind the rule—Tote sorghum to the elephant, If Al Smith feeds the mule.

"I'm drier than a desert drought, I'm more than dry, you see, Old Al is wet, he's powerful wet; Too wet, too wet for me, And so to keep from seeing snakes, I'll—though you dub me fool—Tote water to the elephant If Al Smith feeds the mule."

So will many others. It is a pretty mess the politicians have made of things. With a dry South and a wet candidate things will be badly mixed. They may nominate Smith, but they can't elect him. Hoover will be the next president. I hope in the rumpus they won't wake "the nigger in the woodpile." That old dinky is superannuated. His wool is white and his teeth all gone. He's a fossil. He did good service 50 years ago when the question of maintaining white rule in the south was a living issue. But that issue has been settled and is as dead as the lion on whose carcass Samson found the honey. Great economic issues demand attention now, and this prohibition issue is one of them. Prohibition, even imperfectly enforced, has been of enormous advantage to the country; and there must be no retreat from its support. A Republican dry candidate like Hoover, on a dry platform, will make a tremendous appeal to the intelligent south if its natural party puts out a wet candidate. In either case, the country will go on prospering, and I'll go on with my work.

**REGARDING VETERANS LIFE INSURANCE**

Commenting upon legislation enacted by the last Congress, Brig. Gen. Frank T. Hines, Director of the Veterans Bureau stated this morning that there appears to be some misunderstanding among the veterans as to their present privileges in naming the beneficiaries of their insurance. "The amendment to the World War Veterans Act, 1924, approved May 29, 1928, removes all restrictions as to who may be named beneficiary under Government Life (converted) insurance policies," said Gen. Hines, "therefore, the holder of such a policy may designate any person, firm, corporation or legal entity as beneficiary to receive the proceeds of his U. S. Government Life (converted) insurance." This will, of course, allow a veteran to designate a bank or trust company to receive payment of the proceeds as trustee in accordance with an agreement between the corporation and the insured.

Formerly, the permitted class of beneficiaries was restricted to relatives by blood or marriage, and the change in the law is in response to the desire of many policyholders to include their Government insurance in life insurance trusts along with other insurance granted by commercial companies. "This amendatory legislation is applicable to 672,781 policies now in force, with a total value of \$3,182,347,311," Gen. Hines stated, and it is anticipated that many of the veterans will take advantage of the fact.

**Old-Time Ranger Deplores Passing of Real West and Coming of Drug Store Cowboys**

By Dabney White  
 Crosbyton, Texas, Aug. 25.—I attended the reunion of the Plains people held a few days ago at the Rock House—a memorable and historic place in Blanco Canyon where Hank Smith, a pioneering plainsman, built the first home in the Staked Plains of Texas more than a half century ago. Over 10,000 of us were at this celebration, and I alone felt like one who treads alone some banquet hall deserted when I mixed with these people and thought of the fast and furious days of many, many years ago, when I served as a peacekeeper in this section of Texas.

My companions at this reunion were of modern Texas. I saw here more silk stockings and more of silk

stockings than I have ever seen at any one time on Main street in Dallas. Many of the men folk were gossiping during the day about crop conditions and the younger ones were sucking soda through straws, while the most boisterous of the would-be cowboys were furnishing diversion and amusements for the visitors by roping fan-tail Jersey yearlings, and were seemingly content in their belief that they were portraying the wild and woolly West that we old-timers saw in this section when Cap Arrington and Capt. Bill McDonald and Butterworth and myself were chasing cattle rustlers and were, at the time, hoping for exciting experiences so we might make the hairs on the heads of our friends in effete East Texas stand on end while we were telling them of what we saw and did out here on the frontier of civilization.

Many, many years ago I came out here the first time with lungs that were bleeding and a head without any hope therein of ever getting well. Others came here with similar minds and bodies. Butterworth—I forget his real name—came here from Scotland about the same time and became identified with one of the Scotland-owned ranches being operated in this section of Texas. He became an efficient cook, and, in time, a rather noted Texas ranger. I learned from bedding and scouting with him that he was of royal blood from the old country. In the course of time his people sent him quite a sum of gold with which to buy for himself a cattle ranch. He regained his health and subsequently became reconciled to the life of the Texas range. He therefore sent this bag of gold back to his people and told them he craved neither riches nor distinctions. He seemingly was satisfied with having gained the reputation of being the best shot and best cook in Company B of Captain McDonald's noted ranger company.

**Changes Are Legion**

I know not the whereabouts of Butterworth at this time, but I do recall that he is the only man I ever intended to kill maliciously. We were scouting through Blanco Canyon and had arrived on its highest peak when the sun was setting. As I unsaddled my horse I gazed on a most beautiful sunset and poetically compared it with our probable and possible view of Paradise. I asked Butterworth what it reminded him of and he replied in his phlegmatic manner, "It looks like a mustard plaster." I reached for my six-shooter and pulled it, but didn't shoot him then, as I feared I would have some trouble in explaining why I killed him.

Seriously, there have been many wonderful and wonderful changes in this section of Texas during the years that have elapsed since I first rode over it horseback. When I came out here first, thirty-three ranches were covering this section of Texas and they embraced 3,500,000 acres. So sparsely was this country settled then that it was a seventy-five-mile ride in any direction from Hank Smith's Rock House to the next habitation. Many days did I ride as the crow, would fly all day long with out seeing a human being. Today this is, in my mind, the greatest cotton-producing section of the United States, and as a result nearly every rod of this fertile and arable land is being planted in cotton or in feed-stuff. I miss now the white-faced cattle that then were as numerous as were the buffalo of the previous era.

I see few signs of the cowboy days of old. These thirty-three ranches, with the exception of one which still maintains its identity and ranch headquarters, are now as extensively and intensively farmed as the similar area contained in Dallas, Ellis and McLennan counties. In the communities that we passed to or through hurriedly in the years ago in search of outlaws, we now find prosperous and progressive towns containing hundreds of substantial business houses and many handsome residences and happy and contented citizens. Last night I slept in a modern tavern in Paducah. My slumber was disturbed by radios, graphophones and autos were being raced around the public square. I camped here years ago on the courthouse square and our duty then was to keep factional and fighting ranchmen from killing each other. Parenthetically, I wish to say here the best building in this prosperous town is owned by the local newspaperman and he is now making more money in trading and writing than any small town banker is making in other towns in Texas.

**"Railroads Play Hell"**

Big Foot Wallace, the noted plainsman of old, told me years ago that railroads and barbed wire fences would "play hell with Texas." He meant, of course, that they would destroy the romance of the West. They have enabled these people to have modern comforts, pleasures and profitable business interests. His idea of progress was to let every man have all the freedom he could hold provided he did not encroach on the freedom of his neighbor. Today I feel like the automobile and the silk stocking craze have destroyed the romantic West. We are traveling now ten times faster than we were before we had the auto, and we are progressing in every way ten times faster than we were when we were riding bucking bronchos. My grandchildren will be as pessimistic fifty years hence, I doubt not, of the future of our country as I am now over the passing of the West. In the language of the immortal Toll Bule, a noted politician of East Texas—this country has been "ruined" as far as I can feel and see. It is true I enjoy

seeing these many happy and prosperous people, but my heart was almost broken when I viewed the rodeo stuff here wherein the drug store cowboys were breaking fan-tail Jersey calves for the delectation of the people who came out here to see what the real West means today.

Hank Smith built this old rock house because he craved to commune with God and nature alone. He came here to be as far away as possible "from the madding crowd." He lived the life of the pioneering plainsman, and died when he became tired of living. His daughters are now wearing silk stockings and his sons are smoking cigarettes and drinking soda thru straws. Hank and I used to put our feet on the ground and take our'n straight. We old-timers will erect a monument in due time to Mrs. Hank Smith. No he-man deserves any credit for being a pioneer. Every woman earns a diadem whenever she follows her husband westward.

**WAYLAND CAMP TO START ON SEPT. 3**

Plainview, Aug. 25.—The Wayland College 1928 football training camp will open Monday, Sept. 3. Coach Frank Kimbrough expects to have Panhandle-Plains huskies present to take the vigorous training which he has ready for the squad.

Wayland has never faced a more optimistic football season according to its authorities. Five hundred dollars worth of new equipment is here for the Jackrabbits. Among the local boys who will enter the early training are: Major Schroeter and Norman McGill, a pair of race horses from the Plainview High squad of Plainview last year, who started with Sulphur than from Texarkana to Chicago.

Springs High School, will try for end.

Out-of-city hefties who are to be in the squad include the two Burrows boys of Crowell weighting 160 and 195 respectively. Another 190-pound youngster from Wellington will be here. Several from Haskell county are lined up by Kimbrough.

Already a number of season tickets to the football games and other athletic events at Wayland have been sold through the auspices of the Plainview Chamber of Commerce and Agriculture.

Following is the Wayland schedule: Austin College Kittens at Plainview, Sept. 28; New Mexico Military Institute at Roswell, Oct. 6; Clarendon College at Clarendon, Oct. 13; Cordell Christian College of Oklahoma at Plainview, Oct. 19; Panhandle A. & M. College at Plainview, Oct. 27; Abilene Christian College at Abilene, Nov. 3; Clarendon at Plainview, Nov. 10; Montezuma at Plainview, Nov. 17; Wichita Falls Junior College at Plainview, Nov. 24; Cameron Aggies at Lawton, Okla., Nov. 29.

**KNOW TEXAS**

Texas has inexhaustible sand and gravel resources suitable for highway construction.

Honey producing has become an important industry in Texas during the past few years. There are now about 300,000 hives in the state.

The greatest length of Texas, north to south, is 740 miles; the greatest breadth is 825 miles. It is farther from Texarkana to El Paso last year, who started with Sulphur than from Texarkana to Chicago.

FLOYD COUNTY FAIR

Entertainment for those attending the Floyd County Fair at Floydada Sept. 26, 27, 28, 29, will rival that of the large sectional fairs and is being planned by the entertainment committee to attract thousands of visitors from over the South Plains. Although the cost of entertainment will run into hundreds of dollars and the program is the most elaborate ever staged at the county exposition the committee has only one thought in mind, that of pleasing the many visitors to the fair.

An announcement that will especially please the visitors is that fireworks will be a part of the program. On Friday and Saturday nights, Sept. 28, 29, for almost one hour each night Floydada will be the scene of bursting rockets, massive designs of beauty, assembled into groups and scenes of real splendor that will be most pleasing to those who witness this event. Climaxing each night's performance will be the beautiful Niagara Falls. No fireworks feature has been used as often as Niagara Falls, and yet its dazzling magnificence is always appreciated. The roaring, foaming fire balls over the brink and rebounds in a midst of white smoke. The actual length of this scene is twenty-four feet. Those who have seen this beautiful display will be glad of the opportunity of again witnessing the most beautiful of fireworks scenes.

Although fireworks has been adapted by the committee as being especially pleasing to the younger generation they have not overlooked those who will attend the fair and yet be interested in the Old Fiddlers contest which will be held Saturday evening on the South Side of the square. Plans are also underway to arrange a square dance following the fiddler's contest. A cash prize of twenty-five dollars will be awarded the best fiddler in this event. McDonald will have charge of this event and is of the opinion that it will be one of the features of the Fair and especially interesting to the old settlers of this section of the South Plains.

E. L. Norman, chairman of the athletic committee, is making preparations for at least two football games during the four days of the fair. It is hoped that the Floydada Whirlwinds will be seen in their first game of the season during the annual event and that Lubbock, Plainview and Lockney can also be seen in action during the fair.

In addition to the midway attractions, which will include the Ferris Wheel, Merry-Go-Round, miniature train, motor dome and Merry-Mix-Up arrangements are being made to have one or more out door free acts. These acts will probably be comedy novelty acts that are booked by fairs and celebrations only.

Blanco community won the distinction of being the first Floyd county rural community to return a full contract for agricultural and home demonstration exhibits. Within twelve hours after the contracts had been mailed out the Blanco exhibit had been returned with three signatures on the agricultural exhibit and one on the home demonstration exhibit. W. H. Smith, W. C. Cates, and W. H. Simpson, signed the agricultural exhibit and Mrs. W. C. Cates the demonstration exhibit.

Closely following the receipt of the Blanco contract the Lakeview home demonstration club returned a signed contract for space for their exhibit. Mrs. John Loyd and Mrs. J. E. Newton. Harmany was next in the race for choice exhibit space and their contract in the agricultural department was signed by R. B. Gary and S. D. Battey. Mrs. D. S. Batty and Mrs. Gary signed the club exhibit. Other contracts are expected in this week.

Among the requests for catalogues of the fair received this week by the secretary was one from Jennings, La. and another from La Grange, Texas. It is expected that the catalogues will be ready for distribution next week and copies will immediately be mailed interested parties.

ANTI-WAR PACT IS SIGNED AT PARIS MEETING

German Representative Is First to Put Signature on the Document

Paris, Aug. 27.—Representatives of world powers agreed to renounce war today.

At a simple ceremony solemn and business-like, Foreign Ministers and delegates of fourteen nations affixed their names to a document which pledges them against wars of aggression and denounces war as a national policy.

Germany, the common enemy of most of the other signatory nations in the World War, signed the historic document first. As Gustav Stresemann, German Foreign Minister, arose and advanced to sign the document cameras clicked under powerful flood lights. The combination of photograph and phonography recored the ceremony for the eyes and ears of the whole world.

The signing took place in the great cloakroom of the French Foreign Office, the Quai d'Orsay, where the Versailles treaty ending the World War was negotiated.

The keynote was dignity and lack of lavish display which usually is associated with such a gathering of high international diplomats.

Paris was gay with flags. The colors of the signing nations floated over the Quai d'Orsay.

A great crowd gathered outside and Prefect of Police Chiappe ordered street traffic stopped. Fifty Republican guards were held in reserve to supplement the efforts of 500 foot guards and gendarmes in keeping the crowds back.

ABERNATHY ELECTED BY MAJORITY OF 14 VOTES

Interest in County Judge Race Was High; J. M. Johnson Won Collector's Race

Plainview, Aug. 27.—In one of the most interesting political races that has been held in Hale county elections and by the narrow majority of fourteen votes, E. C. Abernathy defeated George W. Mayfield Saturday for the office of county judge.

Not until the last voting precinct had reported its ballot was a victory assured for Mr. Abernathy. The 3 Plainview boxes were the first to come in. They showed a substantial lead for Mayfield which was gradually overcome by his opponent as the outlying precincts sent in their reports.

A deciding factor in favor of Abernathy was the report from his home box at Abernathy that a vote of 264 to 5 had been cast in his favor. Mayfield carried seven precincts.

In the run-off for the office of county tax collector J. M. Johnson defeated B. H. Towery, present incumbent, by a vote of 1428 to 1151.

The only other contested county race was between Hooker and Bird for commissioner of precinct No. 3. Bird was elected to the office by a vote of 426 to 273.

Tisdell and Thorpe were to run off for public weigher of precinct 2, but Thorpe dropped out of the race in favor of Tisdell.

BAPTISTS FROM 4 STATES MEET AT CROSBYTON

Crosbyton, Aug. 25.—The Primitive Baptist District Association is holding its convention here. The first service was held Thursday night with about 1,500 present. It is expected that 5,000 will be in attendance before adjournment.

This association comprises Oklahoma, Arkansas, New Mexico and Texas. The meetings will last until Sunday afternoon and are held in the old camp meeting style. Most of the members came prepared to camp. Local committees prepared barbecue and other food which are being served on the camp grounds.

The Chamber of Commerce is lending every assistance to help take care of the out-of-town guests and make them feel welcome in Crosbyton.

Mr. and Mrs. Glen Huls of Girard, Texas, were here the first of the week visiting their parents, Mr. and Mrs. Gilbert Huls, and sister, Mrs. Sam Miller.

Mrs. CALHOUN had attended all the meetings of the Kitchen Club, and had listened eagerly to the planning of widely different kitchens. She had seemed especially interested in Mrs. Foster's "sunshine" color scheme. She had heartily approved of the way Mrs. Alden had made her kitchen express the thing she loved best. And so it was no great surprise to the members of the Kitchen Club when Mrs. Calhoun invited them in to see her "daffodil" kitchen.

"I wanted a kitchen that would be becoming to me," she said. And it was. Her black eyes, black hair and rosy cheeks could have hardly showed to better advantage than in the yellow, black, white and pale green color scheme she had chosen. Green and white tiled linoleum floor, cream walls, black lacquered table and chairs, trimmed with yellow, white refrigerator and cabinet stenciled in yellow, white shelves lined with yellow, white oil range, pale green curtains stenciled with yellow daffodils. Some yellow, some black and some white pots and pans. A crowning touch was a bird cage on a tall stand at the window. Cage and stand, black, with a canary bird as the last touch of yellow. It was easy to see where Mrs. Calhoun got her color scheme!

A kitchen as becoming as a Paris host LEAVES FROM NANCY'S KITCHEN CLUB NOTEBOOK

We got some interesting recipes from Mrs. Calhoun—easy ways to cook several different dishes.

#### The Easiest Way to Cook Chicken

Split a dressed and cleaned chicken down the back. Lay breast down in a deep pan, preferably a roaster. Season with salt, pepper and a lump of butter. Sprinkle with flour. Lay strips of bacon over it. Pour hot water over it, enough to be an inch deep in the pan. Cover with lid and put into oven. Cook without turning for a half-hour. When brown on top side, turn and allow breast to brown. Replenish water if necessary. When brown on other side, remove and serve. Gravy is already made. This is old-fashioned "smothered chicken," a Southern recipe, the easiest to cook and the most delightfully flavored of any chicken dish.

#### The Easiest Way to Cook Mackerels

Cut into small pieces and wash a pound of mackerels with their skins. Put on to cook with a cup of water in a covered stew pan. When water is almost cooked out, season with salt, pepper and a big lump of butter. Remove lid. Cook until water is entirely gone. Serve on toast.

#### The Easiest Way to Bake Ham

Wash and trim a half-inch thick slice of ham. Place in medium-sized frying-pan. Cover with milk. Cook in oven until milk is boiled out. Pepper and serve.

#### An Easy One-Dish Meal

Cook two cups macaroni until tender. Put a thin layer of it into a baking pan. Add a layer of crumbled American cheese—fresh. Another layer of macaroni, another of cheese, until top of pan is reached. Pour over the mixture one can of tomato soup. Cook for ten minutes in oven. This is a most filling dish, and with bread, butter and dessert makes a full meal.

#### Time Savers

If you haven't a regular bread board, roll out your biscuit and cookie dough on a piece of flour sacking or canvas rubbed full of flour. Use a baby's white stocking over the rolling pin. It holds the flour and prevents sticking.

It isn't necessary to grease cookie tins if you remove the cookies while they are hot.

Use muffin pans to poach eggs.

If soft-boiled eggs are found to be too soft when broken open, turn out into a tea cup and set cup and all into a pan of hot water. Egg will harden sufficiently in a minute or two.

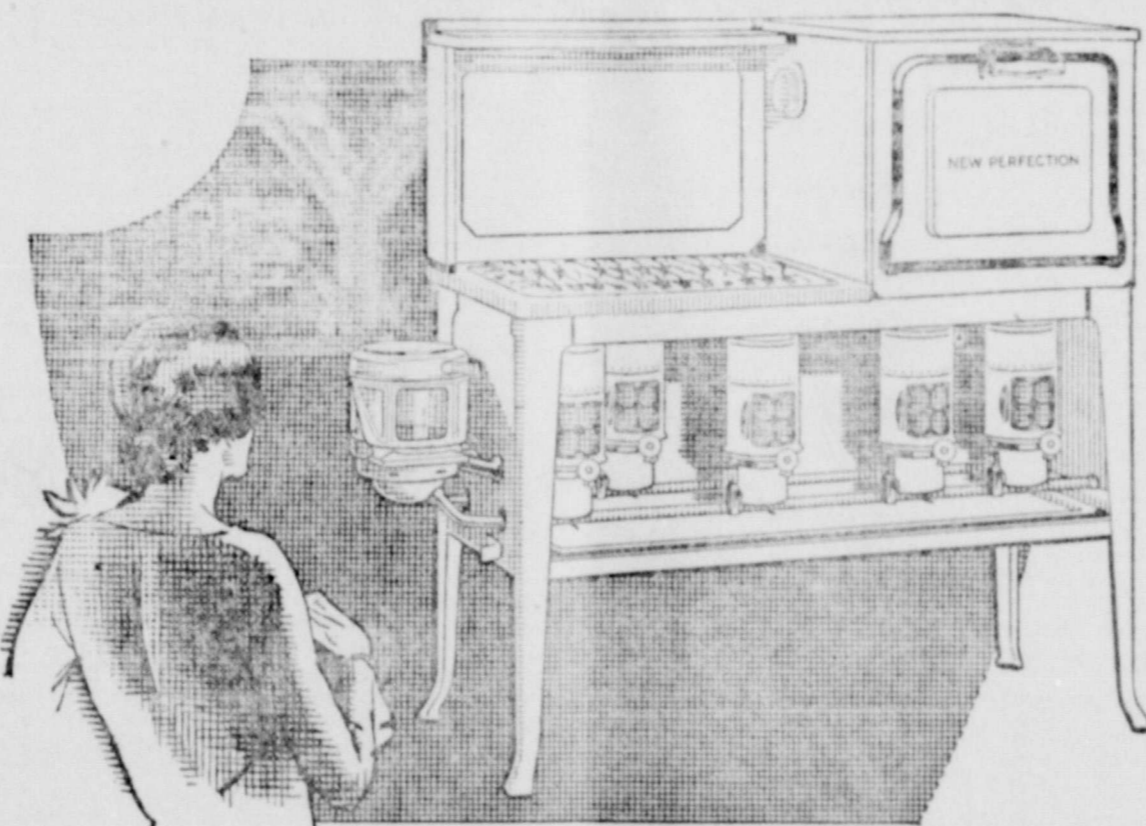

You can stop an eye from turning!

#### The Easiest Way to Keep Wicks Clean

Mrs. Calhoun says she has saved much time and trouble by investing in an inexpensive wick cleaner for her oil stove. A turn or two of this cleaner on the wick not only keeps the wick clean but also keeps the top properly sloped to give the best results.

Home Demonstration Club News

Pleasant Valley Home Demonstration Club

The Home Demonstration Club met with Mrs. O. W. Fry, Wednesday, Aug. 22nd. Most of the time was taken up in discussing and assigning parts for the club exhibit at the County Fair.

Mrs. Fry demonstrated on the making of jelly by the use of Pectin.

The club is to meet with Mrs. P. A. Rivers on Sept. 12. The following program will be given at that time:

- 1. The Value of a County Fair.—Mrs. Holmes.
2. Organization of Exhibit.—Mrs. Mitchell.
3. Selection of Committee.—Mrs. Harris.

Grape sherbet and Angel Food cake were served to the club members and visitors.

All members are urged to be present at the next meeting.—Reporter.

Providence Home Demonstration Club

On account of so much rain and so many off on a vacation all summer, the Providence Home Demonstration Club had gotten behind on the fair

work and the president thought best to have call meeting Wednesday, Aug. 22nd, in order to arrange for the fair.

We discussed the score card and most all articles were took by the 9 members that were present. But all members a e asked to fix a jar of the fruit and vegetables so we can select the best ones out of the collection for the exhibit.

Every member is asked to be present at our next meeting Sept. 11th, at 2:30 p. m., with Mrs. O. L. Bennett as hostess. Miss Bass will be present and will talk about the fair.

We will want to see how hard we have to work to get our exhibit ready for Sept. 26.—Reporter.

Prairie Chapel Home Demonstration Club

The Prairie Chapel Home Demonstration Club met at the school house Tuesday, Aug. 28th, to talk over the fair work.

It was decided best not to enter this time. Our club was notified about a month ago that there would not be a county fair this fall, so some of the work was allowed to drop.

Some of the members did not receive instructions on braided rugs and one dropped her rug work, and it is thought to be too late to finish rugs now. Most of the other work could be completed, but we could not enter without every item on the score card.

Our next meeting will be Monday, Sept. 10th, at the school house.

Our crowd was very small at this meeting so try to be present next time.—Reporter.

ACCUSED TUCUMCARI SLAYER HELD WITHOUT BAIL

Admits She Is Not Married to the Man Held In Killing—Widow On Scene

Tucumcari, N. M., Aug. 27.—Leroy James, held with a woman registered as his wife, on a charge of murder in connection with the fatal shooting of Wendt Schmidt, traveling salesman, in a hotel here Friday night, was ordered confined without bail at the conclusion of a preliminary hearing before Justice of the Peace J. A. Bykes this afternoon.

The justice left decision as to bail in the case of the woman to the district judge.

The district attorney after a scathing denunciation of the man and woman in the preliminary hearing declared that he would ask for the death penalty for both and intimated that he would attempt to block any attempt at bail bond for either.

It developed at the hearing that the man met the girl who says she is 20 years old in an Oklahoma City house. They lived as man and wife as Sayre, Okla., Shamrock and Amarillo, Texas, and then came on to Tucumcari. The girl, Hazel Francis, is from Norman, Okla., where her mother lives. It is claimed that she had written correspondence with the intention of getting her sister 14 years old to come and join them in Tucumcari.

The man, who is about 30 years old is from Cheyenne, Wyoming. They registered first at the Glenrood hotel as Mr. and Mrs. Leroy A. Combs last Monday and later at the Vorenberg as Mr. and Mrs. Leroy A. James.

The couple will be taken to the state penitentiary at Santa Fe until disposition of their case it was intimated tonight. The girl has very little education, only getting to the third grade in school.

The woman, first placed on the stand in the preliminary hearing, prefaced her version of the shooting with the admission that she was not married. She said her name is Hazel Francis and that she had been associated with James only about two weeks, meeting him first in a hotel at Oklahoma City.

From Oklahoma City, she testified, the two of them went to Amarillo staying in a hotel in that city for two weeks. From Amarillo they went to Tucumcari registering first at the Glenrood hotel. That was on Monday, August 20. Three days later they transferred to the Vorenberg.

On the evening of the fatal shooting, she told the examining court, James told her to go into the room in which the homicide took place. She said that she had intended telling the man in the room that James was coming but that James entered almost immediately, and pulled a gun. He had waited hardly 15 seconds, she testified.

According to her version of the slaying Schmidt and James scuffled, struggling into the hall. The shooting occurred there, she said.

Jackson ran out of the room at that, she testified, and she followed.

J. H. Jackson, who was in the room at the time of the shooting, was placed on the stand, testifying that the woman knocked on the door and then entered without being invited. No word was said by anyone before James entered, he said.

Jackson declared that James came in cursing and threatening to kill "both of them." According to his statement Schmidt grappled with James, pushing him from the room and the shooting took place just as they were struggling into the hall.

Mrs. Schmidt, wife of the slain man, arrived today from Los Angeles, Calif. The body is being sent to Des Moines, Iowa, Schmidt's former home for burial.

SHEPPARD AND MOODY TO RUN FOR SENATOR?

Miller Announces He Will Be Candidate In 1930 for Governor of Texas

By Gordon Shearer, United Press Staff Correspondent.

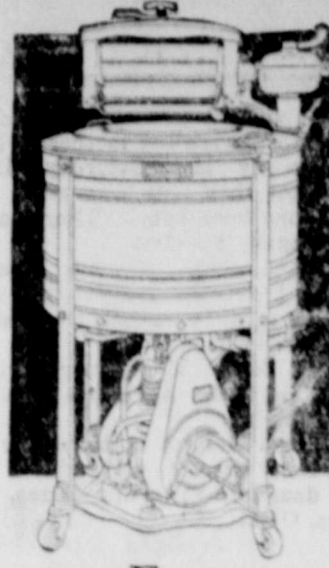

Austin, Texas, Aug. 24.—In two years, U. S. Senator Morris Sheppard will be fighting to retain his seat just as Senator Earle B. Mayfield is doing today and Sheppard's opponent will be Gov. Dan Moody. This is the view of the political future, as seen through the eyes of Former Governor James E. Ferguson.

It will be surprising to many to learn that in this prospective race, Ferguson thinks Moody has a good chance to win. Whatever else Ferguson thinks of Governor Moody, he concedes the governor to be one of the most efficient campaigners the state has had.

"When a man gets to 50 years, he cannot campaign in a state as big as Texas, like a younger man can," Ferguson said. "There is a big difference between being able to make four speeches a day and making one every other day. I think I am in as good physical condition as any man of my age, but I cannot campaign like I used to. Campaigning is like prize fighting with the difference that the prize fighter get a change to rest at intervals which a man does not get when he is making a speech."

In 1930 Senator Sheppard will be 55 years old while Governor Moody will be 37.

Former Governor Ferguson thinks that Senator Sheppard will also be

handicapped by his long residence in Washington. This dates back to 1902 when he was elected to Congress. His senate membership began in 1913.

Senator Mayfield who has been making a strenuous campaign is 47. That is eight years younger than Senator Sheppard will be in 1930, but Ferguson puts 50 years as the dividing point for age's effect on political work. Up to 50, a campaigner will tire, Ferguson finds, but he will recuperate rapidly. After 50 he has to drive himself to keep up the pace.

What the issues will be in 1930 ex-governor did not attempt to say. He indicated that he expects to see economic questions a factor in the near future.

Lieutenant-Governor Barry Miller said this week that he will be a candidate for governor in 1930. Announcement has been made previously by J. D. Parnell of Wichita Falls, that he will again be a candidate for Lieutenant-governor at that time. Parnell ran third in the race for that office in the July primary and announced that he would support Miller in the run-off that was imminent until Tom Love's withdrawal.

SPECIAL VENIRE DRAWN FOR TRIAL OF POLICE CHIEF

Plainview, Aug. 25.—A special venire of 100 men is being drawn for the jury panel of Hale county this afternoon for the trial of Chief of Police H. H. Murray, charged with murder in connection with the fatal shooting of O. J. Thompson in Plainview on June 7. The trial has been set for September 12th.

Murray for several years chief of police at Plainview and well-known over all West Texas as a peace officer, shot Thompson, when he resisted arrest and attempted to run away from Murray in an automobile while Murray was standing on the running-board of the car. Murray shot Thompson as he, Murray, was thrown from the speeding car and severely injured himself.

COUNTY BRIEFS

PRAIRIE CHAPEL

Aug. 29.—Prairie Chapel school will open Monday, Sept. 10th. The school grounds are impossible to describe. The club ladies did not see any bears or Indians, but it certainly looked snaky. We decided to invite everybody in the community to attend the opening of school and have a

clean up day and picnic lunch. The men are requested to bring hoes and rakes, an ax may be needed for some of the weeds) and the ladies bring sandwiches and pies. Remember that you are not to wear yourself out fixing a dozen things, just any kind of sandwiches and pies you prefer. Bring paper plates (or china if you prefer) and cups. The club ladies will serve hot coffee. Some kind of entertainment will be planned for the afternoon when the work is finished and the pupils have their books un-

scrambled. Everybody is busy, but surely we can spare one day out of the year to visit the school and with our neighbors.

Messrs. W. B. and Paul Thompson of Spearman spent Monday with Mr. and Mrs. Clayton Weathers.

Mr. and Mrs. L. Butch, Charlie and Bill, are visiting in Oklahoma.

Flies have caused more deaths than all wars combined—yet some of us do nothing to help prevent future casual ties. Flies have no preference—you or some of your family or friends may be next. Start today—and kill every one you see. It is very easy if you use the product produced and perfected by the foremost industrial institute of its kind in the world. It is fragrant and harmless to mankind, but kills all household insects. Just follow instructions on blue label of bottle. INSIST upon FLY-TOX from your retailer.—Adv.

CARD OF THANKS—I wish to extend my sincere thanks and appreciation to the voters of Commissioners Precinct No. 3 for the support they gave me in the recent campaign for the office of Commissioner. I also wish to solicit the support of all those who did not see fit to support me for the office, and ask that they assist me in giving the county the very best possible administration. I have no axes to grind, do not hold any animosity against those who did not vote for me, and will strive to perform the duties of commissioner in a way that will meet with the approval of the entire citizenship in Precinct No. 3, regardless of the voters individual preference in the past campaign. Again thanking the voters of this precinct, I am, yours truly.—M. H. Taylor.

EXPRESSION

I shall open a class in Expression on Monday, Sept. 10th, at the home of Mrs. D. J. Thomas in West Lockney. Those desiring my instruction for their children please make arrangements with me on or before that day. Your patronage will be appreciated.—

Mrs. Charles Simpson

NOTICE

FORT WORTH AND DENVER SOUTH PLAINS RAILWAY COMPANY hereby gives notice that on Aug. 6, 1928, it filed with the Interstate Commerce Commission at Washington, D. C., its application for a certificate that the present and future public convenience and necessity require the construction by it of a line of railroad from Mile Post 75.44 on the applicant's main line, in a southerly direction within the city limits of the city of Lockney, to the end of a spur track now owned by Lockney Cotton Oil Mill Company, a distance of 1.37 miles, all within Floyd County, Texas.

100 HOGS DEAD FROM CHOLERA

Dr. Lewis of Sanitary Commission of Texas Recommends Vaccination

Plainview, Aug. 23.—One hundred head of hogs died in the Southeast part of the county before the ravages of hog cholera were stopped, it is estimated by county agent R. M. Millhollin, who has spent some time recently in assisting to stamp out the epidemic.

Dr. Lewis of the Livestock Sanitary Commission of Texas was sent here to investigate the situation. He recommended immediate vaccination of herds located within a several miles radius of the infected herds. This vaccination has been going on and it is believed the disease has been stopped.

So contagious is the disease that a man crossing a farm where the disease is prevalent can carry it to another farm. It spreads easily and is fatal.

The fee for vaccination is extremely low and it is said will positively eliminate all chances of the loss of the animals.

LATE RETURNS SWELL LEAD OF CONNALLY

Mayfield Issues Statement Declaring He Bears No Malice In His Defeat

Dallas, Aug. 27.—Additional returns from Saturday's run-off primary received by the Texas election bureau served to increase leads established in early tabulations.

Tom Connally of Marlin increased his lead in the U. S. Senatorial race over Senator Earle B. Mayfield to more than 56,000. Last figures for the day by the election bureau gave Connally 295,985 votes to Mayfield's 239,549.

Complete returns from 105 counties were included in this tabulation with incomplete returns from 121 other counties. Only nine small counties had failed to report.

State totals follow: For state superintendent of public instruction, Marrs, 294,838; Garner, 220,539; for land commissioner, Robinson, 321,045, Terrell, 181,315; for congress, seventeenth district, Callaway 20,923, Lee, 25,781; for court of civil appeals, District 11, Funderbunk 22,872; Patterson, 20,828.

Dallas, Aug. 27.—Asserting he bore malice toward none United

States Senator Earle B. Mayfield today thanked those who voted for him in his unsuccessful race for renomination to the upper house.

"The Democrats of Texas have spoken and I bow to their will," Mayfield said. "With malice toward none I accept the result of Saturday's election. To the thousands of Democrats who cast their votes for me I express sincere appreciation.

"When I retire on March 4, I will carry with me the satisfaction of having given them the best service of which I was capable."

Marlin, Texas, Aug. 27.—Congressman Tom Connally, nominated for United States senator in the run-off primary Saturday, today received a telegram from the committee on arrangements for the home-coming celebration for Senator Joe J. Robinson, Arkansas, Democratic vice presidential candidate at Lone Oak, Ark., inviting Connally to attend and deliver an address. Connally has not decided whether he will accept. He planned to leave tonight for Texarkana to attend the Texas-Arkansas convention of the American Legion, of which he is a member.

Messages of congratulations continue to arrive from all parts of the nation.
