## Federal Land Bank Will Finance Irrigation Projects In The Lockney District

The opportunity we have long been waiting for in this community is now presented to us. We have an abundance of water underlying the surface in the Lockney country. The supply is inexhaustible and is waiting to be tapped by the drill and brought to the surface. Owners of this farm land and others that would purchase and irrigate have been handicapped by the expense of putting down a well and installing a pump. Arthur Baker, president of the First National Bank of Lockney, informs us that the Federal Land Bank will loan money for this purpose at 1-2 per cent. This comes under a recent act of Congress and is a big prize tossed in the laps of Lockney farmers. A well can be drilled and a pump can be installed for considerable less than several years ago, and now is the time to drill wells and install pumps while material is cheap and the money is available at a low rate of interest on long time.

This is a semi-arid country and dry land farming has not been as successful as should have been, more especially the past four years, as all will agree. But with our land under irrigation farming here would be practically a success each year. So why take such a chance in your farm operations when by the expenditure of a few hundred dollars you can be assured of a crop each year. The odds are against you under the present method of farming in this country and it is a hard struggle. Of course a few good years come now and then and bumper crops are made and you make money, but take it year in and year out and it is a break even game it seems, and we have been watching it for eighteen years. We are not pessimistic about our country when it comes to dry land farming, but why dry land farm when we have the greatest opportunity in the world to irrigate our land and eliminate the chances for a crop.

We have been doing a little investigation about sugar beet possibilities for the Lockney country that can be put under irrigation. We find that from 15 to 20 tons of sugar beets can be grown to the acre. That the price ranges from \$6 to \$8 per ton at the present time. It takes ten men to handle 20 acres of beets. The costs is \$20 per acre. That leaves a nice profit for the grower. Take the low price of \$6 per ton and you only produce 15 tons to the acre. That gives you a profit of \$70 per acre. What can you produce at this time that will net that amount. With 250 irrigated farms surrounding Lockney and a small acreage on each farm planted to sugar beets, it would be an easy matter to locate a beet factory here. We have a wonderful opportunity in this shallow water irrigated belt surrounding Lockney if we will only wake up to the fact. Quit grumbling about the dry weather and let's make it rain on our farms when we want to. Let's get some building and developing. Some of us have come to the conclusion that this country is thoroughly developed, when in fact we have only started. It

## Lockney Trees Given A Coat Of White Wash

Have you noticed the number of trees that have been white-washed the past ten days? They sure do look good, and it improves the looks of the home-stead so much. The city will furnish you a supply of white wash if you will give your trees a coat of white-wash. That is a fair proposition and everyone should take advantage of this opportunity if you have not already done so. Call at the Higginbotham-Bartlett lumber yard and you will be given a supply to comply with your needs.

## ALL DAY QUILTING AT MRS. W. H. COUNTS WEDNESDAY

A number of ladies spent the day at Mrs. W. H. Counts home quilting Wednesday, May 10. Each lady brought a covered dish and lunch was served. Two quilts and half of another one was finished for Mrs. Counts during the day.

Those present were: Mesdames, Harris, Stutta, Henry Ford, A. J. Crager, Threet, Whitfill, Stul, Dalf Griffith, W. R. Sams, Williams, Buchannan, Light, B. Dodson, Julian, Collier, F. E. Brown, and Mrs. Counts.

Rev. Willis J. Ray was called to Petersburg Wednesday afternoon to conduct the funeral services of J. T. Brington Jr. who died Tuesday night as a result of a ruptured appendix. Miss Phontia Ray and Mary Louise Shaw accompanied him to Petersburg.

## READHIMERS ARE ALLOWED BOND BY COURT OF CRIMINAL APPEALS

AUSTIN, May 17.—J.R. and V. A. Readhimer, indicted in Floyd county for the murder of Stokes Campbell, 18 and refused bail by the district court, were ordered released by the Court of Criminal Appeals today under \$5,000 and \$3,000 bond, respectively. The Readhimers are father and son and Campbell was a sweetheart of their daughter and sister.

Attorneys for the Readhimers said today that the state has the right to file motion for rehearing with the Court of Criminal Appeal and has fifteen days within which to do so. They understood that the state would not seek a rehearing, should the appeals court reverse the lower court. Joiner & Cook of Plainview, who are associated with L. G. Matthews of Floydada, in the defense of the Readhimers, said that they expected bond for the two men would be bailable soon, probably tomorrow.

't's just merely out of the rough from an agricultural standpoint. We need an irrigated well on every 100 acres surrounding this town, then you will begin to see things happen in a financial way. We will become a prosperous country and will not be in constant fear that we are going to have a drought and make a crop failure. We will know that we can produce the stuff and we can make our plans to that end.

We have an oil mill that is second to none in the United States that takes care of the cotton seed of this country and sells the finished product to the dairy farmer and ranchman of this section. Our cheese factory will soon be located and in operation, a canning factory is in the making, and if we will only take steps to put more acres under irrigation by taking advantage of our credit resources through the Federal Land Bank, we will in time have a sugar beet factory. We have wheat elevators scattered over this country to take care of the wheat, cotton gins to gin the cotton, cream stations to buy cream. Let's face the future and make great strides forward. The opportunity is ours.

## Large Gathering At Lubbock For Singing Convention

From five to ten thousand people are expected at Lubbock June 17 and 18 for the Plains Panhandle Singing convention, Odie L. Echols of Lubbock, president of the convention announced.

Delegates are expected from practically every Plains county in Texas and New Mexico.

Many of the leading singers of the Southwest have promised to attend, among them the following: W. W. Combs and quartet of Dallas; V. O. Stamps and Freddie Martin of Abilene; the Vaughan quartet, of Lawrenceburg, Tenn.; Huff Sisters' quartet of Lovington, N. M.; Harford Music company quartet of Little Rock, Ark.; the Amarillo quartet; Niedecken quartet of Hamlin and others.

V. O. Stamps will bring Oliver Woodward, the Kiowa Indian baritone of Oklahoma, one of the leading Indian singers of Oklahoma.

Local arrangements of the convention are in the hands of the Lubbock quartet, Clyde Burleson, Odie L. Echols, M. M. Meek, and Woodrow Wilson, assisted by S. B. Summers, H. M. McEachern and others of Lubbock county. Chas. Smith of Running Water, Hale county is vice president of the Plains-Panhandle Singing convention and E. D. Caskey of Amarillo is secretary.

O. C. Bailey was in Oklahoma City last week on business.

## Ambassador To Cuba

Promotion came fast for Sumner Welles of Maryland. No sooner installed as Assistant Secretary of State than President Roosevelt nominated him to be Ambassador to Cuba.

## Baptist To Have Pastors Retreat Next Week

According to Rev. Willis J. Ray, pastor of the First Baptist Church of Lockney a pastor's retreat and expounding of Bible truth is to be conducted at the church beginning this next Sunday and lasting until the next Sabbath. The public in general is invited and asked to bring Bible, pencil, and paper and enjoy a spiritual feast.

The program for the week is already made out and ready to start Sunday morning. During this period 31 preachers will speak. Every speaker is asked to give scripture in proof for every statement for man is judged by scripture and not by wisdom of man. No one will be permitted to ask Biblical questions provided they are presented in writing 30 minutes before the speaker takes the floor or after he has finished his message. Time will be allowed for answering same.

Tuesday Wednesday, and Thursday are to be all day meetings with a light lunch being served at noon. Beds and meals will be provided as far as possible for all coming from a distance. Lets all come out to these meetings and learn the Bible truth.

Mrs R. A. Meek of Tyler, Texas, is here visiting Mr. and Mrs. C. A. Wafford and relatives at Plainview.

## H. C. McCormick Home Burns Thursday Evening

H. C. McCormick's home in the Liberty Community burned to the ground Thursday evening about 9 o'clock when an oil stove exploded. There was no one at home when the explosion occurred, but Mr. McCormick and his son was at their filling station and store which is near the house.

In trying to save their household goods Mr. McCormick burned his face and hands. Only a sewing machine and a few quilts were saved.

## Wool Growers Are Pooling Their Wool In Lockney--- Will Ask Buyers To Bid

Dorsey Baker of the First National Company a Government agency here in Lockney is attempting to get the best price possible for the 1933 clip of wool. He has made arrangements with the members of this company also with wool growers to deliver their wool in Lockney, and hiding same until a car load is assembled, then asking buyers for bids.

To-date there has been about 7500 pounds of wool delivered and the Baker Brick building on East Main Street is being used for a wool storage house. This week D. H. Davis, of Silverton, delivered 3800 pounds. Jon and Tom Cooper of Lockney delivered about 3300 pounds, and some small clips have been stored. Bill Harper, J. D. Childress, T. B. Mitchell, B. E. Cypert, and several others are joining in the move to get a better price by pooling their wool.

It is expected that within a few days they will have on storage here subject to sale, some 25,000 pounds of wool, and have some 10,000 pounds in Plainview to include in the sale.

The sheep are shearing from 12 to 18 pounds per head this year and are expecting a price of fifteen cents per pound, or better for the wool.

Other wool growers who have not sold their wool, are welcome to bring their wool in to the pool with out charge, and sale is to be made at their request only.

Lockney needs a good wool market, and can get it if all concerned will co-operate in a general marketing way, and it is indeed a great help to the growers to get this additional profit and money from wool at this time of the year.

## Wheat Loan Period Closes May 31st

The time limit to secure a seed loan under the "Crop Production Loan Act" recently passed by congress, is May 31st. All those wishing such a loan in the Lockney country must have their application in the local office not later than Saturday night, May 27th, and it would be much better to have it in by May 25th. These loans, as we understand it, are for summer fallowed wheat land. If your wheat is not going to make anything this year, make an application now for a loan to make the 1934 crop with. Time is short and you will have to get busy. Mr. Frank Perkins is chairman of the local committee, composed of Messrs. Hub Mason, Carl McAdams and Frank Perkins. Call at Mr. Perkins office immediately and secure blanks, etc. for making an application for a loan if you are going to have one. It will be too late after Saturday night, May 27th as applications must be in the Dallas office by May 31st. These applications will be passed upon immediately.

George Myers was in Quannah Sunday visiting friends.

## Shipping Hogs To California Market

In the past ten days W. A. Brewster and Virgil Teater have shipped a couple of car loads of top hogs to the California market, and will ship another car this week. Hogs are looking up in price and they are beginning to move out of the county. The only trouble in the Lockney country, we are a "little shy" on hogs, the price has been so low it has not been very encouraging to rise hogs for the market, but now with things looking better we can expect our people to restock with hogs.

Several years ago Lockney enjoyed the reputation of having the best hog market in the Panhandle, and if things continue on the upgrade we will again enjoy that reputation. This is a fine hog country, free of diseases that prevail among hogs in other sections of the country.

## Annual Pioneers Round-Up At Plainview On May

Pioneer days will be re-visited at the Fifth Annual Pioneers Round-Up which will be held in Plainview, Texas, May 20th. The Professional Women's Club is sponsoring the affair and arrangements are nearing completion. The event is one of the largest and biggest of the five sections of the Time Reunions.

The celebration begins at 10 o'clock P. M. on Saturday when the winners will gather at an up town building to swap stories and visit.

The parade will form promptly at four P. M. and all pioneers are urged to ride in the parade. Many old features will be displayed in the parade—Indians, soldiers, cowboys, men riding with sidesaddles, cowboys on top buggies, surreys, buckles, chuck wagons, and many other things from the early days. A number of men from neighboring towns, depicting historical events of the section selected.

At nine o'clock a chuckwagon supper cooked by old time cowboys will be served.

A collection of old relics and old photos will be on display throughout the evening.

A pageant depicting pioneer home life and romance of the eighties will be the main feature of the program which will begin at eight P. M. W. J. Klinger will be master of ceremonies. Cowboy songs, fiddling, roping, dog-buck and wing and square dancing will be included in the program.

An old style show, under the direction of Mrs. J. W. Wayland and Mrs. R. W. O'Keefe will be displayed in a setting of an old fashioned garden.

At nine o'clock square dance will start, concluding the day's program.

## SCHOOL ORCHESTRA PICTURED AT ROARING SPRINGS

The Lockney High School Orchestra members, guest sponsors and director enjoyed an afternoon picnic at Roaring Springs Saturday. Swimming, hiking, eating, and games were the afternoon diversions.

Guest of the orchestra were: Leone Shelton, Modell Brown, Otis Moore, Herman Thornton, Paul Bybee, and Geo. Webster. Director and Sponsors present were: Miss Hettie Hofstetter, Mrs. Hohlaus, Mrs. Patterson, Mrs. L. A. Cooper, Mrs. Dodson, and Bill Bobbitt, high school principal.

Mr. and Mrs. L. V. Rea and family of Sudan, Texas, were here Sunday as the guest of Mrs. Rea's sister and family, Mr. and Mrs. C. P. Reves, and her mother Mrs. T. J. Knight of Sand Hill.

Mr. and Mrs. Frank Perkins were Amarillo visitors Saturday.

## INTEREST SHOWN IN THE CANNING FACTORY PROPOSITION

We had no idea that our people were so interested in a canning factory for Lockney until our article appeared in the Beacon a couple of weeks ago about the proposition. They have been coming to our office, stopping us on the street and writing us about it. They are fast realizing that we must do our farming on a diversified scale if we are to accomplish anything agriculturally and otherwise. Our people are just about through farming on a big scale they have given up the idea of "Getting rich on one crop and retiring for life." It just can't be done. A man is happiest when he is employed, and through a well rounded-out program of diversified farming he will be busy twelve months in the year. The truck farming route is a splendid way

in the wheel of diversification. Worlds of stuff can be produced on an acre of ground in this country when you irrigate it, and produce a real profit. With a canning factory located at Lockney it would mean an outlet for this stuff and the whole United States is our market. It will keep indefinitely, will not perish. It is the means of giving employment to a large number of people right in the summer time when work is scarce. It means more people will move to this community and make their homes here. We have been discussing with our people the proposition of cutting up the country into 100 acre farms and making them under irrigation and cultivating them intensively. Planning so

etc. They all agree with us that it should be done and will eventually be so, but of course that takes time, but we are sure to come to it sooner or later. And when that time arrives we will then come into our own. With truck patches all over this country and marketing the products via the canning factory we will not have to depend upon the market. We will have to depend upon our own. The odds against us are being leveled in a canning factory at Lockney, come on and let us discuss it with us. We have many acres you can irrigate each year provided you have the water that would require money spent

cept in the Panhandle. Don't you imagine those people are using my suggestion quite extensively this week?

Write again Mister X when you feel that you should defend your fellow men. Enjoyed it very much.

Here are a few helpful hints: Here is a good suggestion for making birthday cake candles and are really better than the others. Roll around match stems leaving the tips exposed to be lighted. With a bit of cake coloring they can be colored as you desire. These candles will stand upright during hot weather and are easily lighted.

Before using new feather ticking, iron it on the wrong side with a hot iron generously rubbed with beeswax. The wax coats the material and prevents any down and feathers from working through the ticking.

When brown sugar is not available, add two tablespoonfuls of sorghum molasses to each cup of white sugar. This combination is very acceptable substitute for use in cakes and filling.

In order to kill red ants take a small funnel and place over the mouth of the big red ant bed and slowly pour through this about a pint of gasoline. It will soak in completely destroying the ants.

The vapor from hot vinegar has been found to be a very simple though effective remedy for sore throat. Very stubborn cases of this trouble have been relieved by this when others failed. Fill a small teapot about half full of hot vinegar, and then place the mouth over the top and inhale deeply for several minutes. Repeat the process as desired.

These suggestions were received from the Holland's Magazine and I thought perhaps they would be of some benefit to you.

You women who are slightly overweight please do not get offended at what I said just above because that was only a comeback at "X." I think people who are fleshy are really the happiest and jolliest people to be around.

Well, I had better sign off for this

time and wait for that rain. See you soon.

SIDELIGHTS

by MARVIN JONES

Member of Congress from Texas

The emergency measure which has just been passed embodies the farm mortgage refinancing provisions as well as the currency program. It is frequently referred to as the most important and far reaching legislation ever presented to the American Congress.

The Senate and House have now agreed on all of the provisions of the bill, and it has received executive approval.

Soon after the farm measure was sent to the Senate, I introduced the administration's farm mortgage bill and led the fight for its adoption by the House of Representatives. It was adopted by an overwhelming vote.

Currency expansion measures were also pending in the House during this period and had been discussed by many members on the floor.

These measures were combined and the Thomas currency amendment added. The result of these various steps and the combinations is one measure of tremendous importance to the farmer and to the nation in general.

By passing this combination measure, the Senate added eighty-five amendments. In order to iron out the differences in the measure as it passed the House and Senate, it was necessary for a joint conference committee to be selected to represent each body.

Because of the importance of this legislation, I felt greatly honored in being chosen to head the group of conferees from the House when the measure was thus taken up for final revision and adjustment by the two groups before its enactment into law.

The House and Senate both adopted the conference report, which was the last step before approval. It was my privilege to be present when it was approved, and the President presented me with a pen which he used in signing the measure.

The farm relief section of the composite bill is admitted an experiment, and is intended to be used only in the emergency. Under its provisions the Secretary of Agriculture is given broad powers to administer several plans in

an effort to bring temporary relief to the farmers while a permanent program is being instituted.

The mortgage refinancing provisions have been discussed in the press reports. The necessity of farm refinancing was recognized by the President, with the result that such a measure has been approved by Congress.

I believe that controlled expansion of currency will be a long step toward recovery, because it brings with it an increase in commodity prices and increased purchasing power.

The reflation, or expansion, amendment which has been added to the farm bill contains four major proposals any or all of which may be used by the President for the purpose of increasing the commodity price level. The first relates to open-market operations by the Federal Reserve Banks; the second provides for the issuance of Treasury notes within certain defined limits; the third relates to the acceptance of silver aggregating two hundred million dollars in payment of debts owned by foreign governments; and the fourth authorizes a change in the gold content of the dollar or the remonetization of silver.

With such a program as this in operation, accomplishing three important steps in the President's program of ultimate national recovery, I have hope that the farmer will once more find his proper place in our economic structure, and that America will be on its way to better times.

Cattle Feeding Causes Advance In Corn Market

Feeding of 5,750 head of steers by Leon Goodman, for W. R. Hearst the publisher, has caused a steady advance in the price of corn at Brownfield since the first of December.

Corn now is selling at \$7.50 a ton, compared with \$9 and better last November. Goodman mayor of Midland and a well known feeder, boosted the price of corn to \$3.50 and \$4. Then began a steady climb. Recent quotations have run up to more than \$7.

Maize and kaffir corn likewise have gone upward in price. Starting at \$2.50 per ton with almost no market, the price went to \$3 when the feeding program began. It is now \$5 to \$6 per ton.

Terry county's corn acreage this year will probably be as large as in previous years, in the opinion of J. E. Shelton, secretary of the chamber of commerce.

Mr. Shelton reports an approximate 100,000 acres of corn this year, about the same as last. The 1932 crop was estimated at 1,500,000 bushels.

Feed acreage will be less this year, it is believed. Most farmers have a supply of fed left. The cotton acreage will be about the same as that at the start of the season in 1932.

Miss Wauline Rains and Mrs. Jerry Mudgett were in Plainview Monday.

Miss Eunice Coleman of Ropesville, Texas, spent the week end with her parents Mr. and Mrs. H.P. Coleman.

Virgle Dulaney and Eugene Harris made a business trip to Crosbyton Tuesday.

Edd Teuton and Wilmer Teuton were in Abilene on business Saturday.

Buys Calves Down In Old Mexico

On the Higginbotham-Harris ranch at Lamesa, are a big string of calves brought in from Durango state, down in Old Mexico, about 600 miles below El Paso. The animals are from a herd shipped to Old Mexico about 1924. Dick Jones is doing the feeding under supervision of Roscoe Holton in charge of the Higginbotham-Harris ranch and farm properties.

Large Cattle Deal Made In Scurry County

One of the largest cattle deals in Scurry county was recently made when Lewis Smithberger, Jr. Stanton, Neb., bought 1,200 Hereford yearling steers from four Scurry ranchers. The animals were shipped from Dermont, on the Santa Fe 11 miles north of Snyder and price paid was \$27.50 a head. Pi and Marshall Fuller, Jim York and J. C. Dorwood sold the calves. The price was the season top and Smithberger said the animals were the best he had seen.

Mrs. Reid Harper of South Plains was here last Sunday as the guest of her sister Mrs. W. H. Counts.

Mr. and Mrs. Jerry Mudgett and family were in Quanah Sunday as the guest of Mrs. Mudgett's sister and family Mr. and Mrs. Shaley.

Herbert Nicholes of Ralls was here Sunday visiting his parents Mr. and Mrs. J. M. Nicholes.

Miss Hula Coleman of Tulla and Jack Blair of Amarillo were here Sunday as the guest of Miss Coleman's parents, Mr. and Mrs. H. P. Coleman.

KILLING ANTELOPE AND WILD STAGS ON LUBBOCK TOWN IS RECALLED BY "BUD" WOOD

"I have killed antelope on the town-site of Lubbock," recalled M. A. "Bud" Wood, pioneer resident of Lubbock, whose Lubbock residence dates back to December of 1890, before the town was started. "I have killed wild mustangs here, too. The first years I was here I made more money with a gun good friends in the freighters."

Wood came to the old north town in December, 1890, with his wife and baby. The present town was not started and soon after he arrived, he began to hunt. He followed that vocation for three years, then was a cowboy, freighted a bit and did other things in the pioneer settlement.

"Sometimes I would kill eight and 10 antelope a day," Mr. Wood recalled. "I had a trained horse that I used. I could walk on the side of the animal opposite to the antelope and get up pretty close to them."

"I used to ship out the antelope quarters that I did not sell. Never made much out of the hides. Sold some to a Denver house, but was never paid for them."

Wood said he sent the meat to Big Spring, Colorado City or Amarillo with the freighters who drove empty wagons to the railroad. He always furnished the party with meat and had good friends in the freighters.

Wood was born in Alabama in 1869. His father was a Confederate soldier and the last the family heard from him was in 1862 from Beardstown, Ky. Whether he was killed in battle or died from sickness the family never heard. He never returned home. In 1869 his widow, with her two girls and the boy came in a wagon pulled by an ox team to Hood county, Texas. There Bud and to farm. Mrs. Wood never married grew to manhood and learned to hunt again.

While in Hood county, he recalled, Indians came and killed two men, John Wood and Sam Miller, in the south part of the county. A posse was organized and followed the Indians into a canyon known as "Star Hollow." Here the white men caught up with the Comanches and killed five bucks and two squaws. One of the Indians was beheaded. A squaw was found to have a ring on her finger and in getting it off, the white man cut off her finger, Wood said.

"I was asked by John Milwee who now lives down in Lynn county, to come up here and work for the I. O. A.," Mr. Wood recalled. "I didn't

Later I helped R. Burns move the I. O. A. herd off the ranch. "I sold Mr. Burns an antelope ham once. He said he didn't like them but Mrs. Burns did and she wanted one. I cured the ham and told Mr. Burns to tell his wife how to fix it. He did and then he came around and bought some more."

"We had no smokehouses in those days. I used to hang the hams up on my windmill tower and they were never bothered. I spent three winters here the first time."

Mrs. Wood's health became poor, so the family moved to the mouth of the Brazos river. Two trips were made for her health and she eventually recovered. Wood was of the roving type. He has lived in nine states including New Mexico, Colorado, California and

other western states and also in old Mexico. Some years ago the family came back to Lubbock county and settled in the Carraway settlement, south west of town. There were nine children, eight boys and a girl. Three of the boys served in the World war, one going overseas and all returned home. Mr. and Mrs. Wood are on a farm in the Carraway settlement.

Supreme—"The 100-mile-an-hour oil." 25¢ a quart (plus tax)
Gulfgrade—No finer motor oil in the world. 35¢ a quart (plus tax)

# WITH THE CHURCHES

## BAPTIST CHURCH NEWS

Sunday School 9:45, G. D. Tate, Supt. Preaching at 11:00 by the pastor. B. T. S. 7:30 P. M. Mrs. Silas Ellis, Director. Song Service \$4.00. Preaching \$2.00 by the pastor. At the eleven o'clock hour Sunday morning the first sermon of a series of sermons on outstanding Bible doctrine will be preached. The theme is "Sin." We are living in the day that it is hard for Christians as well as unconverted to know what sin is. This message will endeavor to prove by God's Word what sin is, the deceitfulness of sin and the results of wages of sin.

The evening hour the second message will be brought in the series on the subject, "The Atonement" or the covering of sin. How can sin be covered or wiped out and paid for. Special music will be rendered at each service and the pastor is desirous of a good choir at both hours.

There were an even 250 in S. S. last Sunday in time to be counted which is very good but the records show that

over 100 who are on the S. S. roll were absent. May that you do their best to be present next Sunday. Sickness and a visit to mother's keep many away from the services last Sunday.

There were 58 from Lockney present at the North Zone B. T. S. meeting at Aiken last Sunday afternoon. South Plains again took away the attendance banner with Sterley taking second place with 25 present. The Center church was also well represented. The next meeting goes to Fairview the second Sunday afternoon in June.

With the continued dry weather many of us think we need a rain, but we wonder if we really know what is best for us. Do we want the rain for a purely selfish standpoint that we might have good crops or do we want it that others might be blessed with the crops that might be produced. Prosperity, money, fine cars, and pleasures have kept many from the Lord's house in the past and yet some who have neglected the assembling of themselves together on the Sabbath have not yet been humbled to the place where they are ready to forget their feeble excuses and return their services. Crop failure may be what this comes to God. Man does not know but another's needs in order for God to show Himself master of the situation. Next week is going to be seed planting time of the Word of God at the Baptist church and if it rains it will also be seed planting time for cotton and maize. Beware where you place the importance for it might be best to give some time to God's field and not all in your own.

Willis J. Ray, Pastor

## BAPTIST W. M. S.

The W. M. S. met at the church Monday for a lesson in "Royal Service." The topic was "Home Missions translating the Word." This was a very interesting lesson. The following ladies were present: Mrs. A. E. Cox, Mother Hamilton, Smith, Ford, Curb, Julian, Guy Sams, Neil, Moore, Buchanan, Cillier, Ellis, Woods, Morg Hamilton,

McMinn, Maggard and Miss Curb.

We will meet with Mrs. Dyer and Mrs. Morg Hamilton next Monday for Business and Social.

For lunch Tuesday we will serve sandwiches, pie, deviled eggs and pickles. Every body bring lunch.

## AT THE METHODIST CHURCH

Sunday School, 9:45 A. M. Preaching 11 A. M. and 8 P. M. Leagues, 7:15 P. M.

Woman's Missionary Society, Monday 3 P. M.

Young Women's Missionary Circle, Monday 3:15 P. M.

Prayermeeting, Wednesday 8 P. M.

We had a great service, last Sunday, Mother's day. We are planning a special service next Sunday, everybody invited to be present. We shall be in a revival meeting at Aiken the next two weeks. The meeting begins next Sunday. We go out there Monday. The next following two Sundays will be provided for. So everybody come to the services and make them interesting. We find the people of Lockney are exceptionally good to attend the Church services.

Meet us at the Methodist Church next Sunday.

B. J. OSBORN, Pastor

## MAIN STREET CHURCH OF CHRIST

G. F. Murkey, Minister

We enjoyed two mighty fine services last Lord's Day, and look forward to two more next Sunday. Our attendance is on the increase, and the interest is continually growing. This is encouraging, and thus we press along to higher ground.

For next Sunday, the sermon topics are, "Jesus Prayed" for the morning hour, and "Baptism, Ancient and Modern" for the evening. Remember that Bible school begins promptly at 10:00 A. M. and followed by preaching communion and fellowship at 11:00 A. M. Then at 7:00 P. M. we meet for the special training of our young people and at 8:00 P. M. comes the regular evening service.

Moreover, it is with earnest desire that we hold these special services, along with the regular work. The Lord's work is a serious work and an essential

work. Let every disciple be faithful in all things.

## GOOD ATTENDANCE AT PRAIRIE CHAPEL MEETING

The Church of Christ meeting at Prairie Chapel continues this week with good attendance. The public is invited to attend all services. The meeting will continue next week. Elder Le-land H. Knight of Boonesville, Ark., is doing the preaching.

## How She Lost 29 Pounds In 3 Months

"I am using your Kruschen Salts to reduce and I've used a bottle and a half and dieted some and lost 29 pounds in 3 months. I feel so much better and intend to keep on taking the Salts as I was almost 50 pounds overweight." Mrs. Thelma Gravely, Roseville, Calif. Jan. 11, 1933.

To lose fat and at the same time gain in physical attractiveness and feel spirited and youthful take one half teaspoonful of Kruschen in a glass of hot water before breakfast every morning.

A jar that lasts 4 weeks costs but a trifle at any drug store in the world but be sure and get Kruschen Salts the SAFE way to reduce wide hips, prominent front and double chin and again feel the joy of living—money back if dissatisfied after the first jar.

## MRS. CULLEN RILEY ENTERTAINED WITH BRIDGE TUESDAY

Members and guest of the Jolly Time Bridge Club were entertained by Mrs. Cullen Riley Tuesday afternoon at the home of Mrs. Z. T. Riley.

Mrs. Raymond Meriwether scored high for the afternoon games.

Special guest of the club were: Miss Estelle Byars, Miss Gene Dyer, Miss Martha Meriwether, Miss Payolo Mason, and Miss Rowena Ewing. Members present were: Mrs. J. B. Harper, Mrs. Jimmie Baxter, Mrs. T. J. Honea, Mrs. Raymond Meriwether, Mrs. Winifred Cooper, Miss Virginia Collier, and hostess, Mrs. Riley.

## ALL DAY QUILTING HELD AT LIBERTY MONDAY

The ladies of the different communities met at the Liberty school house Monday for an all day quilting. The quilts were given to the McCormick family whose home burned Thursday night.

Those participating in the work were Mesdames Ola Warren, Dick Ford, C. V. Ford, T. B. Weems, J. M. Smitherman, K. A. McAda, Ellen Love, Walter Arms, E. M. Ruthford, C. C. Huckabee, Bill Beedy, J. E. Higgins, Z. L. Cypert, A. L. Pagans, G. C. Hillburn, W. A. Huckabee, J. A. Dunlap, Bessie Anderson, Delpha Cook, Ruth Childs, J. W. Anderson, Annie Campbell, Lester McCormick, Bural Huckabee, Irving Bennett, B. R. Lybrand, Otis Huckabee, S. M. Lester, R. C. Wilson, C. A. Smith, Faye McCormick, Misses Eula and Ruth Huckabee, Jennea McCormick, Lillian and Lucile Wilson, Dorothy Smith, Juanita Lybrand, Vera Weems, and Josephine Smitherman.

Mr. McCormick and family appreciate these quilts and wish to thank the people whole heartedly.

## CARD OF THANKS

We wish to take this means of thanking all of those that were so kind and thoughtful of us during the recent illness and death of our son. Your kindness will never be forgotten, and may God's richest blessings be yours.

Mr. and Mrs. Lawson Moreland  
C. W. Murphy and Family  
Roscoe Moreland and Family

## CARD OF APPRECIATION

We wish to thank the people of the surrounding communities for their kindness and contributions to us after the burning of our home.

H. C. McCormick and family

## GET UP NIGHTS? Make This 25c Test

Use this easy bladder physic to drive out impurities and excess acids which cause irritation that results in leg pains, backache, burning and getting up nights. BU-KETS, the bladder physic, containing buchu juniper oil, etc., works on the bladder pleasantly and effectively, similar to castor oil on the bowels. Get a 25c box 5 grain size from your druggist. After four days, if not relieved of getting up nights go back and get your money. You are bound to feel better after this cleansing and you get your regular sleep. Sold by Lockney Drug Co.

Mrs. Blackford and children were in Floydada Sunday.

Mr. and Mrs. Tom Stewart of Lubbock and family and Glen Stevenson of Texas were here Wednesday night for the Senior play.

Miss Ruth Stapleton spent last week in Plainview as the house guest of Miss Geraldine Angel.

Mr. and Mrs. T. J. Honea, Mr. and Mrs. Cullen Riley, and Mr. Stevenson spent the week end with Mr. and Mrs. Virgie Rennett at Irahou. Mr. Bennett is employed at a grocery store in that city.

Wynn Riley who has been in Dalhart for several months, returned home last week end.

Viba Merrel of Flomont was here Sunday visiting with her Aunt, Mrs. Ira Broiles.

## ONE WINDMILL for a Lifetime

Is all you will need to buy if you select with care. The Auto-Oiled Aermotor is made to last a lifetime. It oils itself, adjusts itself to the strong winds, and works quietly and efficiently in any wind. Day after day, year after year, you will depend on it to pump the water which you are constantly using.

If you choose an Aermotor of the right size for your well, and a tower high enough to get the wind from all sides, the Aermotor will do the rest. One oiling a year is all that it needs. The gears run in oil in a tightly enclosed gear case.

The improved Auto-Oiled Aermotor is stronger and better than ever. It is so skillfully designed and so well made that there is nothing to get out of order. Turn the loose and let it run, and you will always have fresh water when you want it.

# Consider The Money Changers

Have you ever stopped to consider the Money Changers which have recently sprung up in many towns where there are no banks? These changers do not accept deposits or make loans, but merely make change and make collections of checks, and for this service a charge is made which would be considered excessive if the banks made such charges. For most of this service performed by the Money Changer, the banks have performed free of charge.

Back in the sixteenth century, the money changer occupied a prominent place in the world market places. The money changer system, beset with many ills by reason of excessive charges on the part of the money changer, gave way to organized banking system which made international trade and expansion possible. As trade grew, nations found it necessary to use a common money system, and the national system of coinage came into use. Finding transportation of metals burdensome, the gradual use of paper money came into use about the beginning of the seventeenth century. The use of this paper money paved the way to the modern system of pyramided credit. This pyramided credit system has developed the greatest nation on earth, and every community and hamlet in this United States has been developed by it. It increased available money for transacting of business from ten to twenty times the amount of actual money. On this basis our modern civilization and commerce is based, and with the great confidence of the public, business goes on. Remove the confidence and business will come to a standstill, deflation follows, bringing ruinous prices which we have all witnessed. A dollar in the bank under the use of the pyramided system increases the available money in the community from five to ten times, and commodity prices are inflated or deflated in accordance with the available money. Getting behind your bank is getting behind your community and helping yourself.

The operation of a bank costs money and the costs to operate must be derived from some source. This bank strives to be accommodating, it is anxious to see the community prosper, and it also contributes to the success of its customers and the community at large. To continue this service, it is necessary that this bank earn at least operating expenses on all transactions, and we believe that you will agree and bear with us in making a small exchange charge or service charge to cover the cost of handling the out-of-town or foreign items.

A bank earning money is a safe place to put money. Your continued cooperation is appreciated.
