Entered April 14, 1902, as second class matter at the postoffice at Lockney, Texas, by act of Congress, March 3, 1879.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of The Beacon will be corrected gladly upon its being brought to the attention of the publisher.

The State Legislature, which is in called session has done absolutely nothing up to this time. Members are spending their time in discussing how relief money should be spent and should not be spent. They have committees investigating how money has been spent in the past and what for. We can give them a little tip on what the money was expended for. Quite a bit was spent for Cod Liver Oil. If the State Relief Director will pour about a quart of that Cod Liver Oil down each member of the Legislature perhaps it will clean up their liver and they can get down to business. Fire the present State Board and turn all relief money over to the State Treasurer and let him handle it and cut down expenses of dishing out this money. Retain the State Relief Directors office as a go-between for the State Treasurer and let County Boards handle their own business with authority to do things without having to toat to a bunch of politicians down at Austin. Things have reached a point in our relief work where it takes about \$4,000 expense to expend \$7,000 in relief. That kind of a set-up will bankrupt any kind of business on earth. Men that are supposed to be thinkers that make up our legislative body are playing politics while people are in dire need of something to eat. Cut out all of those political pie jobs and get down to business in a business way and let's get some thing done. Pass on the nine million and some odd dollar bond issue proposition, fire ninety-five per cent of all relief office help and go home and quit "chewing the rag."

We will have another labor strike to contend with. Textile workers are out on a strike. Workers are not in favor of this strike as a whole, but union leaders say strike and strike they must. Owners of mills have met the government requests of less hours per week with the same pay, and that is what the workers was supposed to be striking for, but now since that request has been granted they want more pay for the shorter hours. In fact heads of organized labor are not so much interested in shorter hours and more pay as they are in more power for organized labor. They want every wage worker organized under one head. They are opposed to the textile workers, automobile workers, longshoremen, miners, etc., having their separate unions, they want them all under one banner so they will have more power and when they want a certain thing done they can bring pressure to bear through threats to call out every worker in the land. That might prove dangerous for the reason that you cannot give some people too much authority and power. Then again we have too many foreigners that work in our various manufacturing plants. They are uneducated, don't know anything about our laws and listen exclusively to leaders who tell and make them believe anything they want them to believe. This strike will end as all other strikes have ended, to the detriment of the strikers.

Some of these days we are going to publish a newspaper for a few weeks just like some people want us to publish it. Practically every person that hands in news item to a paper requests that it be "placed on the front page." We are going to place all of these items on the "front page" and see what the public thinks about it. Who knows, the public might like it better. It is the editors duty to pass on all news items that go on the "front page." He is supposed to know just how valuable it is from a news standpoint and whether it rates a "front page" place or not. But maybe his judgment has been poor all these years. What we want to do is to give the people the kind of a paper they want. Then to it would be a mighty good way to shift responsibility as to what goes on the "front

page" each week. We will take the inside, back and all other pages for our important "dope." We are not going to forget the advertiser that requests the first page for his advertisement either. If he says so we will put 'er there. The only thing that is worrying us just now is the fact that we only have one "front page" and we do not believe it will be sufficient to hold all of the news items and advertisements. Just as quick as we get it figured out we will let you know about it.

Disgruntled Al Smith is at the head of the new American Liberty Leg League, this League is in opposition to New Deal policies. He has allied with him John W. Davis. Al just simply cannot get over the drubbing he received at the hands of the Democratic Convention at Chicago when Roosevelt was nominated. He has handed out a dirty dig or two the past 18 months but no one paid any attention to them. The big political bosses in the East have Smith under their thumb and tell him what to do. He built one Empire State Building too many and got himself into a mess financially and had to call on these political bosses for financial help, and now he cannot do his own thinking. He was supposed to be a smart man, too. But nevertheless they put their loop on him.

Well this is Wednesday morning and it looks as if the Textile strike is going to be a fizzle. A majority of the workers don't seem to be in sympathy with the strike. About a third of the workers are out on strike and the balance remain at their post. It looks funny from this distance that workers will go on a strike when so many people are out of work. Leaders of organized workers sure do show poor judgement some times, and we believe this is one of the times. They seem to have the idea that now is the time to call their men out, as Uncle Sam will feed them and they can win their point. Somebody is liable to come up hungry, Uncle Sam is not such a fancy "chestnut puller" as they may think.

Herbert Hoover, in order to make a little extra pocket change has written an article for the Saturday Evening Post condemning the Roosevelt administration and its policies. Of all the men that should or would get out their little hammer and do a little knocking, Hoover is the last man on earth that should do it. He had his opportunity to do great things, but he turned out to be the champion "chestnut puller" of all time. He was just putty in the hands of a favored few. Of course you could expect nothing more from him than to object to any assistance that might be passed out to the masses. His motto was: "To hell with the common people."

"BRAIN JEWELS" FROM OUR EXCHANGES

Now that the election is behind us, we rise to remark that there was entirely too much mudslinging in a few of the races. We do not object to a candidate criticizing his opponents, when there are real grounds for criticism. If a candidate has defects of character or is lacking in ability, for any reason unfit to serve in the position he seeks, the people have a right to know it, and it may become the right and even the duty of his opponent to fairly point out these defects and disqualifications. But it is highly improper for a candidate to grossly magnify the faults of an opponent. When any candidate becomes a mere carping critic or an unscrupulous mudslinger, it is up to him to be retired from politics. Likewise when the advocate of any candidate goes about lying on his opponent and attempting to smear him with slime, he should be given a rebuke that he will not soon forget. What we need in politics is not wrangling over insignificant or unimportant matters, not mudslinging nor muck-raking, but the simple truth about candidates and issues.—Lynn County News.

Like a piece of Dresden china in the galley of a cattle boat, there is something out of place in the sight of a new automobile standing beside a house decaying for want of paint and in barren yard that has never known a shade tree. The poor, certainly, have a right to luxuries but luxuries also deserve appreciation. An old and very wise man once told me that he could describe the kind of people that dwell along a right-of-way by a fleeting glance at the out side appearance of their home. "A man's character is always reflected in his home," he said.—Matador Tribune

Cities of quantity will in future become cities of quality. A given town or city will be judged in the future not so much by its size but by its virtues, and the rule is going to apply to Muleshoe the same as the metropolitan cities of this nation. Since this is true the value of a newspaper to any given town is going to be considerably enhanced, for there are enumerable people who are going to judge a given town largely by the kind of newspaper it has. Newspapers are not like grocery stores, filling stations or hamburger stands. They occupy a semi-public utility status in that they represent the city in a wide territory outside the site of their publication as well as within it. Towns and cities are going to be judged more and more by their newspapers. If they are weak, anaemic sheets, they brand their city as a poor place to invest. If they are healthy, vigorous and often quoted, they give a prestige which cannot be obtained in any other manner.—Muleshoe Journal

Hunters obtain this stamp by making application to the postmaster of any town with a population of 2,500 or over and at certain other designated offices. Upon payment the post master affixes the stamp to the hunting license or to a certificate which is provided for the purpose. IF YOUR BREATH HAS A SMELL YOU CAN'T FEEL WELL

When we eat too much, our food decays in our bowels. Our friends smell the decay coming out of our mouth and call it bad breath. We feel the poison of the decay all over our body. It makes us gloomy, grouchy and no good for anything. What makes the food decay in the bowels? Well, when we eat too much, our bowels can't digest it. What is the life juice? It is the most vital digestive juice in our body. Unless 2 pints of it are flowing from our liver into our bowels every day, our movements get hard and constipated and 1/2 of our food decays in our 25 feet of bowels. This decay sends poison all over our body every six minutes. When our friends smell our bad breath (but we don't) and we feel like a sapped animal, don't use a mouthwash or take a laxative. Get at the cause. Take Carter's Little Liver Pills which gently start the flow of your bile juice. But if "something better" is offered you, don't buy it, for it may be a calomel (mercury) pill, which loosens teeth, grines and swells the rectum in many people. Ask for Carter's Little Liver Pills by name and get what you want. For—24, O.P.S.A. C.M. Co.

Grocery Prices Are Now Rising Rapidly

Notwithstanding the recent rains in various parts of the country, the long continued drought in practically all of the food producing states of the nation has caused a sharp reduction in the supply of foodstuffs.

Watch the price of wheat! Flour cannot be replaced at even our retail prices of today.

Corn and corn products are advancing nearly every day. Hogs topped the market a few days ago at \$7.50 per hundred pounds, which means an advance in lard, lard products and pork of all kinds. Cottonseed prices are climbing rapidly, which also means a distinct rise in shortenings. In fact, practically everything in the food line is due to be higher in the near future.

We urge our customers to anticipate their needs for several weeks or even months ahead and buy now!

TO PREVENT PELLAGRA EAT RIGHT FOOD

Six hundred and forty-five Texans died last year of pellagra, declared Dr. John W. Brown, State Health Officer. Pellagra is a disease that is caused by the lack of proper foods. It comes on slowly and may not be recognized until the victim begins to have a sore mouth, stomach trouble and reddening and scaling of the skin. When these symptoms appear the disease has been present for some time.

The longer a person has pellagra the harder it is to cure, so one should be on the lookout for the

early symptoms such as nervousness, indigestion, and burning of the feet and hands. The disease may become so severe as to affect the mind.

Pellagra is not contagious. As long as a person eats enough of the right kind of food and is not otherwise diseased, he is in no danger even if he lives with a pellagra patient.

The prevention of pellagra depends upon eating the right kind of food at all times. To make sure that the diet is right, it should always include plenty of milk daily, some fresh meat, and as many fresh vegetables as possible. Tomatoes, whole wheat products, salmon, brewer's yeast and fresh fruits, the rest may be arranged according to family and personal likes. In this way pellagra may be avoided.

WHEN ANYONE "PANS" THE BANK IN LOCKNEY, SHOW HIM THIS:

Despite the fact that Lockney is one of the few communities which has weathered this and all other depressions, occasionally some thoughtless individual makes statements damaging all banks.

For critics like this, let us show how backward a community would be without banks, and what inconvenience people would suffer. For instance:

Suppose individuals found it necessary to keep all their money in their possession—
Suppose every payment had to be made in cash because no checking accounts existed—

Suppose merchants had to carry money with them to market for the purchase of goods because no means existed for the transfer of funds from one city to another, or from one state to another—

Suppose no loans were possible for immediate needs regardless of how valuable the collateral—

Suppose a factory could not obtain money to pay its workers until its goods were sold and paid for—

Suppose raw materials had to be purchased for cash only—

Suppose minors, widows, or persons uninformed about investing funds upon which their living depended, had no place to go for assistance—

Space prevents further recital of the inconveniences that would have to be borne if there were no banks. Banks, as everyone knows, have speeded up America's progress.

BAKER BOEDEKER TWILIGHT WEDDING

Miss Hortense Baker, daughter of Mr. and Mrs. John T. Baker, Mineral Wells, and Mr. Edwin H. Boedeker, of Lockney were married Wednesday evening, August 29th, at the home of John T. Baker in Mineral Wells.

Rev. Clyde R. Campbell, pastor of the Calvary Baptist Church pronounced the ceremony.

The altar was decorated with ferns and baskets of pink and white gladiolas, with a background of pink and white crepe paper. A silver arch adorned the center of the altar under which the bride and groom stood. Light was furnished by white candles in can delabra placed at each side.

The bride wore a gown of white satin made with cowl neckline, long-fitted sleeves, and knee-length train. Her veil was of net with satin trim. Her bouquet was made of white gladiolas with showers of lilies of the valley.

The bride's attendant was her sister, Mary Opal Baker, who wore a pale green georgette gown with a harmonizing taffeta jacket. She carried a bouquet of pink astors.

Mr. P. A. Tanksley, of Ranger

attended Mr. Boedeker as best man.

Joe Beth Blain, dressed in pink net and stin and wearing a garland of pink astors was flower girl Bryant Orland Baker Jr., dressed in white full-length trousers and black coat, carried the ring to the altar on a black velvet pillow.

Miss Inez Baker played the wedding music, Miss Martha Jane Baker sang "Drifting," the words of which were written by Mr. Boedeker, and the music by Misses Hortense and Inez Baker, and "I love you Truly."

Mr. and Mrs. Boedeker are both graduates of West Texas State Teachers College, Canyon. During the past summer Mr. Boedeker has been studying law at the University of Texas at Austin. For the past three years Mrs. Boedeker has taught school in Raymonville and Mr. Boedeker at Aiken, Texas.

After the ceremony Mr. and Mrs. Boedeker left for a ten days honeymoon in Colorado after which they will make their home in Aiken where they will teach school. The bride's going away suit was of navy blue triple sheet ensemble with matching accessories.

Refreshments which consisted of a three tier angel food cake

and punch, were served to more than 75 friends and relatives.

The out of town guests included the bridegroom's father, sisters Louise and Helen, brother Billie, J. C. Baker of Canyon, Mr. and Mrs. Henry M. Baker and family of Childress, Dr. John O. Baker and Mr. and Mrs. Bryant O Baker of Dallas, and Mr. Dan Dillan and Mr. Tucker of Canyon.

CONCILIATION COMMISSIONER APPOINTED FOR FLOYD COUNTY

Will McGehee Receives Appointment From Federal Judge Wilson

Mr. William McGehee of Lockney has been appointed Conciliation Commissioner for Floyd County by Judge James Wilson, according to an announcement by R. J. Murray, Supervising Conciliation Commissioner of the Northern District.

Under the terms of a recent amendment to the National Bankruptcy Act, Federal Judges are required to appoint a Conciliation Commissioner in each agricultural county at any time within five years after the amendment takes effect, a petition may be filed by any farmer before the Federal County Conciliation Commissioner stating that the farmer is insolvent or unable to meet his debts as they mature and that it is desirable to effect a composition or extension of time to pay his debts. The County Conciliation Commissioner then attempts to work out a settlement which will be satisfactory to a majority of the farmers creditors, both in number and amount. If a commissioner secures their approval the Court may then make the settlement binding on unsecured minority creditors, even though they disapprove the basis of settlement.

The first step which the debtor may take as a last resort after all other efforts have failed is to file a petition in Bankruptcy under the recently adopted Frazier-Lemke amendment. Under the provisions of this amendment, the debtor may be allowed to retain possession of his farm for a period of either five or six years. During this period he may make certain payments under a six year purchase plan, including the payment of taxes and one per cent interest on the principal of the debt. This plan is followed provided the secured creditors give their consent. If they do not accept the plan, the farmer may retain possession by paying into the Court a fixed annual rental. At the end of this five or six year period or before the debtor may repurchase the farm by paying a price set up on it by three appraisers appointed by the Federal Court.

Murray, who is chairman of the Texas Farm Debt Conciliation Committee, strongly recommends that every effort be made by distressed farmers to secure a voluntary adjustment of their debts through the Farm Debt Adjustment Committee already appointed in each county, or with the aid of the County Conciliation Commissioner before resorting to bankruptcy proceedings under the Frazier-Lemke amendment. This amendment requires farming under the jurisdiction of the Court, and gives the farmer no assurance that he will be able to borrow the money at the end of the six year period to pay the appraised price of the farm.

YOUNGER SET GOES FOR TRAIN RIDE

A group of the younger set met at the Baker Hotel Monday at 6 p. m. and were escorted in two cars by Mrs. Pete Thornton and K. L. Canning to South Plains where they bought a ticket to Lockney on the Fort Worth and Denver Railroad and received a ride to Plainview. Sterley and

then to the home town all for the small sum of 24c.

A small band consisting of Miss Frankie Dodson, Glenn Stevenson, Ben Whitfill, and Floyd Ewing welcomed the long distance travelers at the station at 8:20 and attempted to soothe their jumpy nerves after such a tiresome trip.

The group then went to the home of Mr. and Mrs. Pete Thornton.

Those making the journey were Misses Glenna Whitfill, Leona, and Leona Shelton, Patricia Patterson, Agnes Cooper Eestil Hodel, Wilma Cooper of Denton, Louise Ford, Mary Louise Woodworth, and Hazel Ford; Messrs. Raleigh Canning, Herman, and Owen Thornton, and Roy Thornton.

DOWN AT AUSTIN ON BUSINESS

John Stapleton, salesman for the Lockney Auto Co., distributors for Chevrolet cars and trucks, is down at Austin this week on business, perhaps sitting-in on the called session of the Legislature to see and hear just what is going on.

The Beacon, in a way, has done John a great injustice a couple of times, so we are going to get things straightened out while we are reporting this little news item.

About a month ago, he along with several other people spent a vacation in the hills of New Mexico. In reporting their return to our city we failed to report John returning with the party, leaving the impression that they left John somewhere in Mexico, or threw him off a bluff or some thing.

About ten days ago John attended a big wedding at Canyon. We reported him as being usher for the occasion, when in fact he was "best man." Some error on our part, and we hereby apologize to John. We thought the "best man" was the one getting married but John tells us we are all wrong because he is the man that keeps the grooms legs from wabbling when he is marching to the altar, and having had a right smart experience with "knee action" we are sure that John handled the job with perfect ease.

WHEAT CONTRACTS RETURNED TO COUNTY COMMITTEE

We understand that Floyd county wheat contracts were returned this week from Washington for corrections of one sort and another. The county committee were very careful in drawing up these contracts and they are at loss to

know just what is the matter with them, but a note accompanying them stated that a letter would follow in a few days explaining why they were being returned.

Wheat farmers were expecting their checks within the next few days but this will cause a delay. The wheels of government sure do turn slow, they sure do.

We also understand that contracts of surrounding counties were returned also.

THANKS VOTERS

Although I did not win in the Count School Superintendent race I wish to thank all those who supported and voted for me, especially those who did personal work among their friends and neighbors.
