

Our family stopped up all of the cracks around the doors and windows of our shanty, dug out our moth eaten long-legged under wear, donned mittens, and jammed our hats down over our ears while sitting in front of a gas stove turned full speed Sunday evening and still we could blow smoke dripping with icicles.

The mercury in our thermometer hanging on the front porch, which faces north, slid down 30 degrees in 30 minutes like a monkey on a greased pole, Monday morning around 8 o'clock the temperature registered 6 below zero. Official records show that Sunday night and Monday morning was the coldest weather we've had in two years. But still so moisture.

I would be willing to sacrifice the end of the table at home for six months to be able to sit in a peanut crunching gallery a few hours now while Congress is in session. All I know about what happens in Congress is what I read in high school civics books and columns in the newspapers. I have read the last page of the daily handout at Washington, D. C., and I really see what the wheels go round and round.

A crystal ball, as I have heard, does not reveal any such things as remain in the mind of a man. I have had some impression of Washington in my mind since I first hand. I have read the secondhand information, but I can't see any of it.

Considering I've about done up all kinds of things outside of school, I'm not sure I can do any more. I'm a bit mad if you come in and renew your subscription for the first time. The price is now \$1.00 for twelve months in the county and \$1.25 for the county or state. Every time I get a renewal I can see one more meal that I'm going to eat this summer at school plus a few more hours of knowledge.

Mr. and Mrs. O. E. Stevenson returned Sunday afternoon from Mertzon, Texas where they attended the funeral of Mrs. Stevenson's mother, Mrs. Alsay Wood.

Mr. and Mrs. Pete Shurbet were in Lubbock last Thursday visiting their nephew, Billy Joe Shurbet, who underwent an appendectomy at the Lubbock Sanitarium the first of the week.

Jack Rhine, who was seriously ill of pneumonia, is improving nicely this week at the home of his parents, Mr. and Mrs. C. K. Rhine according to the attending physician, Dr. N. E. Greer.

Mrs. Bruce Waller of Davidson, Oklahoma, returned home Tuesday after spending a few days with her parents, Mr. and Mrs. C. K. Rhine.

After the business session an interesting program was given. Two new members, Mr. and Mrs. Herman King, were present.

OLEN HARRIS TO SAIL FOR SOUTH AMERICA FEB. 2

Sao Paula, Brazil, S. A. To Be Headquarters For The New Cottonoil Co. Just Opening Up

Olen Harris, son of Mr. and Mrs. Vick Harris of Lockney, is formerly of Elk City Okla. Tuesday morning for Houston after spending a week visiting his parents before being transferred to Sao Paula, Brazil, S. A., for the purpose of opening up a new sea for the Anderson Clayton company and cotton oil factories.

Harris is a former cashier of the Lockney West Texas Cotton-Company beginning in 1929. He was then moved to Elk City as assistant manager of the oil well there about a year ago. He will sail from New Orleans February 2 for his new home which is reported to have a population of 100,000. He is thrilled over the prospects of his new task which will consist mostly of helping to establish the new cotton plant in that section of the country.

DUANE MERIWETHER HAS OPERATION MONDAY

Duane Meriwether, son of Mr. and Mrs. Tab Meriwether, underwent a hernia operation at a hospital in Dallas Monday morning. His condition is reported to be satisfactory. He was accompanied to Dallas Sunday by his father and Dr. J. L. Guest of Plainview. Tuesday morning his mother, two sisters, Misses Martha and Manon Meriwether, and Miss Juanita Simpson of Amarillo and W. S. Wood left for Dallas to see him. They will probably return in a few days if he continues to improve.

RECEIVED LETTER FROM SON

Mr. and Mrs. T. J. Dobson received a letter from their son, T. W. Dobson, this week who was in the U. S. Grant ship headed for Hawaii at the time of his writing. T. W. is in the medical corp of the United States Army and is going to Guam after spending some time in Hawaii.

BETTER LATE THAN NEVER

This reporter has just discovered that E. M. Whorton of Lockney was personally acquainted with Sam Harris, 45, biggest man in the Southwest and one of the most gigantic figures in the world who died some year or so ago.

'Twas better to have discovered this bit of information later than never so I'm passing it on to you. Harris and his family were per- friends of E. M. Whorton while he lived in Collin County.

Harris weighed 720 pounds at the time of his death. His ten children, wife and himself weighed something like two thousand pounds. Whata man! Whata family!

"FELLOWSHIP DAY" GAINS IN POPULARITY EACH WEEK

Ninety-Eight Per Cent Of Business And Professional Men Sponsoring Program

Lockney's "Fellowship Day" is becoming more popular as the weeks and months pass. Committees have been canvassing the city the past ten days securing pledges for budget for another six month's program. That they have been successful is proven when we state that 98 per cent of the business and professional men of the town signed up to continue the program.

The town was crowded with people Tuesday of this week, and in fact its crowded every Tuesday. This day is being established as a big day in Lockney. Business men enjoy a nice business, friends and neighbors meet and visit with one another. Then at 3 p. m. the Cash Contest takes place, which is the main event that all look forward to.

That these programs might continue, the committee asks that you patronize the business and professional men who are sponsoring this program. They give tickets that entitles you to enter the Cash Contest. Ask for your tickets when you make purchases, clerks and proprietors might forget them, but they are anxious that you have them. Turn to page six and read the "Fellowship Day" ad and look over the list of business and professional names and do your trading with them.

LOCKNEY WINS CONSOLATION TOURNAMENT OVER WEEK-END

Turkey and Floyda Win First and Second Place in Class A Invitation Tournament at Floyda

In the Class A Invitation Tournament held at the Floyda High School gymnasium last Friday and Saturday, Jan. 25, 26, the Lockney High School boys basketball team won first place in the consolation tournament Saturday night by winning over Floyda with a score of 26 to 15.

Turkey won first place in the entire tournament and Floyda second after a tough battle Saturday night in the final wind-up. They were in competition with 14 other teams of this section of the country.

Lockney played their first game with Paducah Friday afternoon and were defeated making them ineligible for the consolation bouts. They were scheduled to play Plainview Saturday morning but the latter forfeited the game and did not return for the morning games.

Saturday afternoon the home-boys beat Silverton 23 to 10 and went into the finals with the Floyda High School team Saturday night.

Gold basketballs were presented to the members of the team winning first place, Turkey, and silver basketballs to the team taking second place which was Floyda. The winner of the consolation tournament received a silver cup and it may be seen within the next few weeks in the hall of the Lockney High School building along with other trophies won by teams of previous years.

COMPLETION OF FARM CENSUS NEARS

Supervisor Holmes Says All 25 Counties Should Finish Reports By Jan. 31

Virtually half of the 25 counties in district No. 2 or the agricultural census now underway, will be completed by Saturday, K. C. Holmes or Lubbock supervisor, said.

"Some are complete now and by Saturday 12 or more will be finished," he said Tuesday. "By the 31st all will be finished."

A shifting of enumerators from completed areas to unfinished areas has been made, Mr. Holmes added. Several more shifts will have to be made if the work is to be finished by January 31.

PRESIDENT'S BIRTHDAY BALL TO BE BIG AFFAIR HERE

Dance Will Be Held At The City Auditorium and I. O. O. F. Hall; Tickets Gong Fast

Dr. P. C. Anders, chairman of the President's birthday ball, reported Thursday morning that tickets for the dances, Jan. 30, to be held at the City Auditorium and I. O. O. F. Hall are selling fast. Much enthusiasm is being shown this year in regard to the ball. 70 per cent of the proceeds are to remain in this community for the purpose of fighting infantile paralysis according to the American Legion who is sponsoring the ball.

The committee in charge has engaged two string bands for the dances and plenty of good music and entertainment is being presented.

President Roosevelt has kindly offered his birthday as an occasion for balls and parties all over the United States for the purpose of helping to stamp-out the disease of infantile paralysis. Last year was the nation's first experience of this kind and quite a large sum of money was realized for the Warm Spring Foundation Institution where hundreds of people having infantile paralysis are treated.

This year a provision is made for those people who do not care to attend the ball by making it possible for them to send a greeting to the President on his birthday for the small sum of 25c. 70 per cent of this money is to be retained in this vicinity and used for the same purpose as the other proceeds.

Sam Miller, Post Commander, as chairman, is putting up a joint greeting to the President. If you wish to attend the ball, see him.

SUSPECTS OF REXRODE ROBBERY ARE UNDER \$5,000 BOND

The four suspects held last week for the W. H. Rexrode robbery are now under \$5,000 bond each following preliminary hearings and will be held over for action of the Grand Jury in District Court, Jan. 28. C. B. Bland of Earth, M. F. Brandt and Erick Vaughn of Plainview and Price Clements of South Plains are the four men.

The robbery occurred Sunday night, Jan. 13, as the Rexrode family was returning from church services at Sterley to their home, ten miles north of Lockney. They stopped to open a gate, two men sprang out of the weeds and demanded their money at the point of guns. They took \$44 from the elder Rexrode and \$20 from his son, Jewel.

CLASS B INVITATION TOURNAMENT TO BE HELD HERE FRI. AND SAT.

12 Teams Entered for Bouts; Drawings Made Thursday; Tournament Starts at 1:30

The Lockney High School athletic department is scheduled to conduct a class B invitation tournament here at the gymnasium beginning Friday afternoon, Jan. 25 at 1:30 a. m. continuing until Saturday night.

12 of the most wide awake teams in tiptop shape in this section of the country have entered the tournament and will be here one hundred percent strong Friday and Saturday.

The tournament is under the direction of Coach Leo Cooper and the athletic department in general. Finis Vaughn of the Plainview Junior High School will referee all of the games.

Drawings were made Thursday morning and the games will be played as follows:

Friday afternoon: Fairmount—Price, Daugherty—Aiken, Liberty—Runningwater, and South Plains—Valley View.

Friday night: Sand Hill—Edgin, Lake View—Cedar Hill.

Quarterfinals and semi-finals will be played off Saturday morning and Saturday afternoon. Finals will be played Saturday night.

Silver cups will be given to the teams winning first and second place in the tournament.

The Lockney High school basketball boys will play some team here Saturday night but a definite opponent has not been scheduled yet.

WHAT MAKES A NEWS-PAPER REPORTER?

Just like a dictionary covers all the words, the "news game" covers all the people, all their work, their joys, their griefs, their ambitions, their frauds, their crimes, their destinies. Nations fall, but it's just another news story to the reporter. Men and women die, they kill themselves, they marry and they bring children into the world—and the news man reports it on the front page that other human beings may read and learn and think about what their fellow men and women are experiencing.

Men aspire to public office; governor, president or constable or something. The news man, just because of the very nature of his work, checks 'em up, sees through 'em and knows before the election pretty well who will be chosen and, also if he is chosen whether he'll prove to be a statesman or a demagogue.

The "news man" must scan the airways, keep his finger on what tillers of the soil are doing, what they wish to do or can't do because of a drought. He must, and does, know what that girl mother will do with her precious unnamed babe. He must stand and watch while loved ones count the hours that will tell whether husband or father will return from the bowels of that mine or whether he'll descend from the skies, a corpse or a living thing.

That same "news man" must sit before the pulpit of the bishop, the pastor and the minister, treasure in his heart what he hears and report that sermon in its purity and simplicity.

A few hours later he may be torn and troubled in his heart because the favored son of his father has killed a man.

And about that time some beautiful, intelligent maid may come to him with tears in her eyes begging that the divorce suit that she has just filed because he was a brute not be reported in the paper. These rambling remarks, folks, are designed to show you that one of the most "fascinating professions," in fact, to me the only "fascinating profession" is that work that makes a man a newspaper reporter.

The Creator blessed us with sight, hearing, feeling, and the other senses. So long as human beings can read with their eyes the average newspaper reporter will be a unique, over-wrought, emotional, fair and impartial referee in the crystallization on the printed page of the doings of all of frail, weak, disturbed humanity.—Wendell Bedichek, in West Texas Today.

The President's Birthday

Last January 30 the people in every corner of the land enjoyed a good deed and a good time. They held charity balls in honor of the President's birthday, and sent most of the net proceeds, amounting to about a million dollars, to the Warm Springs Foundation, established in Georgia for the treatment of victims of infantile paralysis.

Now the President has revisited at Warm Springs, where he is enjoying a brief rest, that he will again lend his birthday to the nation for a celebration next Jan. 30, and that the funds raised from the parties next year will also be devoted to the battle against this dread disease.

Instead, however, of the money going to Warm Springs, 70 per cent of it will be used in the local communities to provide for treatment of the sufferers of the disease there. The remaining 30 percent will be contributed to a national fund to finance research to combat the disease.

—and the Worst is Yet to Come

ment of the sufferers of the disease there. The remaining 30 percent will be contributed to a national fund to finance research to combat the disease.

So next January 30 promises to be a happy birthday, not only for the President, but for the nation as well. A safe prediction for the new year is that the President's national birthday ball will mark another long step toward conquering infantile paralysis. —From the Omaha, Neb., World-Herald, Nov. 23, 1934.

Don't that beat the world. Down in old Kentucky they have the Coon dogs on the relief rolls. Anytime a daddled dog is placed on the Relief Rolls something is wrong with those handling relief affairs in that community. You see, if the government does it, for some reason, it is to "graft" the opinion that the Coon dogs on the Relief Rolls are sited off all concerned will be. Every tub must sit on its own bottom if we are to make real progress in our recovery program. To be sure, we realize there are some people that must have assistance in order to secure necessities of life, but we say sift them out from among those that do not need assistance. There are too many Drones in the bee-hive. The first thing that should be done is to knock those coon dogs in the head.

What has become of "Crack-down Johnston" of NRA fame? He seems to have passed out of the picture. The last time we had a line on him he was going to write a book. That will put him in the same class with Herbert Hoover. After Herbert received a licking at the hands of Franklin Roosevelt, he withdrew from the public and said he was going to write a book. Now if Uncle Andy Mellon will write a book we will have the list of political writers about complete.

A lot of people are hot and bothered about the kind of opinion the Supreme Court might hand down in regard to the gold case. Put this down on your cuff: If the Supreme Court hands down an opinion in favor of the U. S. it will make that announcement within the next few weeks, but if the opinion is in favor of those holding bonds with the gold clause inserted therein, the opinion will be handed down after Congress adjourns. If you will do a little deep thinking you can figure out why.

Man alive it was cold in this part of the Universe Monday morning. The mercury stood at six below. That was a drop of 66 in sixteen hours. The only trouble about this cold spell, no moisture accompanied it. Just dry cold. What we need is about 18 inches of snow in 12 hours and then start in to snowing in an old fashion way.

A couple of crooks were nabbed in a Chicago church because they had burglar tools on them. Those boys certainly got in the wrong pew.

"BRAIN JEWELS" FROM OUR EXCHANGES

A letter comes from Ft. Worth addressed to the Colorado Record in which the writer says: "Tell Uncle Fred I read his column just as I do Brisbane, Babson McIntyre, etc."

Hem! This makes us want to move to New York where columnists get pay for writing. Columnists have a hard time. They are always being corrected on their facts and figures. Of course columnists have a much of a head for figures. If he had such a head he would be a bookkeeper. Or if he had a head for facts he would be a practical man. Being unable to be anything of importance he comes to be a columnist.—The Columnists by Uncle Fred—The Colorado Record.

According to Mr. Robert Babson, favorable changes are seen in the process of development in every line of business. Babson seems to think that there shall be a turn in the middle of the year. Babson never attempts to reach conclusions from imaginary clouds in the clear sky. He bases his conclusions on facts which he has at his command.—The Plainview Community Weekly.

It was a splendid idea to make President Roosevelt's birthday the occasion for a great national drive for funds for the aid of sufferers from infantile paralysis. Last year more than a million dollars was raised from the balls and parties that were given in several thousand communities on January 30th. The Ford County News.

The Literary Digest notes that various newspapers have various methods of covering national events. For instance, the New York Times devotes column after column to selection of jurors for the Hauptmann kidnapping trial. The Christian Science Monitor devoted six and a half inches to the jury selection. The two papers evidently appeal to different types of public appetite, just as different types of preaching and writing have different appeals.—Weekly Dozen—The Scurry County Times.

WE EAT AS MUCH AS WE DID IN 1900

A report from Washington is to the effect that while there has been a considerable change in the foods consumed in recent years, Americans ate as much in depression years as they did before. In 1900 each American consumed 200 pounds of flour yearly, now it has dropped to 175. In 30 years cornmeal has fallen from 100 pounds per person yearly to 24 pounds. Formerly the average American ate 60 pounds of sugar yearly. In 1934 he consumed 100 pounds. The average yearly consumption of citrus fruits, peaches, grapes and bananas is greater than ever before. Uncle Sam's survey shows that not even at the height of the depression two years ago was the American citizen suffering for food; he was eating as much then as he did at any time in the past 30 years. Studying the figures it looks like the American people are really eating their way out of the depression.

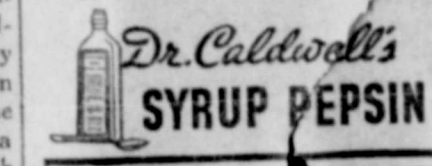

CONSTIPATION Can be Helped!

(Use what Doctors do)

Why do the bowels usually move regularly and thoroughly, long after a physician has given you treatment for constipation?

Because the doctor gives a liquid laxative that can always be taken in the right amount. You can gradually reduce the dose. Reduced dosage is the secret of real and safe relief from constipation.

Ask your doctor about this. Ask your druggist how popular liquid laxatives have become. The right liquid laxative gives the right kind of help, and the right amount of help. When the dose is repeated, instead of more each time, you take less. Until the bowels are moving regularly and thoroughly without any help at all. The liquid laxative generally used is Dr. Caldwell's Syrup Pepsin. It contains senna and cascara, and these are natural laxatives that form no habit—even in children. Your druggist has it; ask for—

BYRON JACKSON IRRIGATION PUMPS

We appreciate the liberal patronage of the Lockney community and other parts of Floyd County where we are installing complete irrigation systems. Our date, durable, efficient pumping equipment. Two years continuous experience in drilling and installing irrigation machinery in the South Plains territory we believe us to advise correctly in this line of work. We are in business for life and carry a full line of irrigation machinery. Take a look at our Byron Jackson Pumps installed on the farms of Jake Griffith and John Carthel just north of Lockney. We will be installing irrigation plants near Lockney each week until we catch up with wells now under construction.

If you are contemplating irrigation we would be glad to make estimates on complete turnkey job.

IF YOUR BREATH HAS A SMELL YOU CAN'T FEEL WELL

When we eat too much, our food decays in our bowels. Our friends smell this decay coming out of our mouth and call it bad breath. We feel the poison of this decay all over our body. It makes us bloated, groggy and no good for anything.

What makes the food decay in the bowels? Well, when we eat too much, our bile juice can't digest it. What is the bile juice? It is the most vital digestive juice in our body. Unless 2 pints of it are flowing from our liver into our bowels every day, our movements get hard and constipated and 2% of our food decays in our 22 feet of bowels. This decay trains poison all over our body every 15 minutes.

When our friends smell our bad breath, don't we do it? and we feel like a whipped wretch. Don't use a mouthwash or take a laxative. Get at the cause. Take Carter's Little Liver Pills which gently start the flow of your bile juice. But if "something better" is offered you, don't buy it, for it may be a calomel (mercury) pill, which loosens teeth, gripes and scalds the rectum in many people. Ask for Carter's Little Liver Pills by name and get what you seek for—25¢. ©1934, C.L.L. Co.

Railroads Versus Prosperity

First let it be known that this article was written at the Sterley High School, and that Sterley was primarily a railroad town. However Sterley, in this respect, does not differ greatly from other towns, as most towns, particularly in Floyd county, can trace their origin of the coming of the railroads. Most people unfortunately forget how this fact affects their mutual prosperity.

county just how important the railroad companies have been and still are in the up-building and serving of each county and community and also that the employee's payrolls contribute greatly to their prosperity.

The railroad employees of Sterley and their families who form an immense number in the aggregate, contribute, by their payrolls, greatly among other things to the up-keep of the merchants and other business people of the community. As I hold before me some recent figures showing the total amount of taxes alone paid in this county, as well as in other counties of Texas, by a single company, the F. W. &...

Heres hopes that this article will excite you to show gratitude to the railroads by patronizing them to the fullest extent possible as is your shown duty to do so and also in behalf of the fact that increased business for the railroad companies is of mutual benefit to everyone, and means much in bringing prosperity back to our part of the country.

My after-thought is a desire to say that all references to conditions in Sterley is applicable to practically all other towns of this county and state.

"To The Great Magi"

To Magi:
Could you possibly tell me the meaning of the word, "mineralogist"? I am to win a little puppy dog on a bet if it means what Bobby W. said it didn't.

Truly Yours,
G. B.

Dear G. B.:
I am not sure about the meaning of the word, "mineralogist", but I should judge that it has reference to the person who advises that loathsome, much hated mineral oil to a person who is unable to defend himself. Write again.

Sincerely,
The Magi.

Dear Magi:
Why can't Mr. Jones pronounce

"Fritchangiticht"?
Yours truly,
Dortha

Dear Dortha:
After studying this quiz my official answer is: Mr. Jones' tongue is just long enough to allow two hangman's knots to be tied from it.
Possibly if it would permit a third knot to be tied, he could pronounce the word—Fritchcan-giticht.

Yours truly,
The Bashful Magi.

Your very soul is purity.
Your condescending gaze descends
And fails to pity me. (etc., etc.)

Perhaps this will satisfy the gentlemen. But to continue, I am a very gentle soul. I reveal in keen humor. I like to throw people off my high bridges to here and there. I like to buy blind gentlemen, antique houses, and a hobby is flying.

My most favorite playmates who have themselves too weak to withstand the force of a well-directed stove, piano, refrigerator, or what have you.

I was not always a gentle soul. I must confess. For instance, in my school days I was very cruel to my teachers. I used to write as many as three themes a day just to make them correct them.

Incidentally, I was very much surprised to find upon my arrival at Lakeland that none of our faculty was there to greet me. Things are so topsy-turvy in this world. —From "The Spectator"

house frocks for the larger woman is very definitely tailored. The style sketched is one of the clever slenderizing models, tailored and trim which are so popular with smart matrons. It is utterly simple, the contrasting jabot are flattering, soft and feminine with a tricky side opening buttoned in place.

Short sleeves with turn back cuffs repeat the softly rolling collar and small tucks at the back of the neck give ease through the shoulders. The dress fits smoothly over the hips and is fitted in back with darts. The panel at front ends in a kick pleat and the skirt flares slightly at the lower edge. Ever see a movie of a homely little girl that turns out to be a beauty? Note why she seems beautiful. Her hair is straight back from her forehead, tight to the head; she's without color, without accents of eyebrows or lips. And remember that only the most beautifully sculptured features can stand the severity of straight closely caught hair!

An attractive centerpiece for an informal table may be made with a hollowed half a pumpkin as a fruit bowl set on a base of leaves and filled with colorful fruits such as red apples, oranges, purple alvacades and clusters of grapes. Flanking this "bowl" large oranges or grapefruits may be cored or hollowed out to the diameter of candles, and put to use as colorful candle sticks.

It has been pointed out that Arabs have for centuries lived on exclusive diet of dates and goat's milk—a diet almost complete. Think of the nutriment of this: equal parts of dates, figs, dried apricots and nuts. Pitting the dates, mix them all together and run through a chopper. Cut into squares and roll them in powdered or granulated sugar.

DIRECTORIES OF INTERSCHO LASTIC HAVE COMMITTEE MEETING WED.

Dates Set for County Meet Events and Rules Decided Upon

Under the direction of A. D. Cummings, superintendent of Floydada schools, a committee meeting of the directories of the Interscholastic League of Floyd County was held Wednesday afternoon at 4 o'clock at Floydada for the purpose of setting dates for county meet events which will be held in that city this year.

Practically the same decisions of last year are to be held good again this time in regard to the omission several events on a few other points. Basketball, volleyball, baseball, and tennis are to be played in class A, B, C, this year. Pictures are to be used for the picture memory contest furnished by the Practical Drawing Co. of Dallas.

Sub junior declamation will be omitted this year as well as ward school senior track, declamation and ward school tennis, and volleyball.

As it was decided last year all baseballs must be 14 inch out-seamed and only the catcher and first baseman are eligible to wear a glove.

Those interested in junior and senior declamation are asked to refer to page 14 of Constitutional rules and footnotes before beginning to work.

Dates for the county meet were set as follows:

Feb. 9—Rural school basketball tournament. Class B Basketball championship to be decided by that date.

Feb. 14—Lockney and Floydada basketball champions to be decided.

March 23—Tennis and play-

Mrs. Wells is the daughter of Mr. and Mrs. J. D. Orr of Lockney and has made this her home the past two years. Prior to that time she lived at Panhandle with her family who moved there from here about six years ago. She has attended Lockney High School. The groom is the son of Mr. and Mrs. C. E. Wells of Lockney and has made this his home since he was quite small. He was graduated from Lockney High School in 1925 and attended West Texas State Teachers' College at Canyon in '25, '26, '27. The couple will make their home here.

WEDNESDAY CEREMONY AT PASTOR'S HOME

The marriage of James Ira Smith and Mrs. L. Grace Richard son took place at 4:30 o'clock Wednesday afternoon Jan. 16, at the home of the Reverend Guy B. Williamson, pastor of the Central Christian church. The single ring ceremony was read. Mr. and Mrs. Robert L. Throckmorton, the latter a sister of the bride, attended the couple.

The bride wore an ensemble of royal blue for the ceremony, with matching accessories. She came to Santa Fe, New Mex., a year and a half ago from Indianapolis, Ind., to reside with Mrs. Throckmorton at 707 West Lead avenue. Mr. Smith was formerly in the banking business in west Texas and was a bank examiner for that state for four years. He is now ranching at Rencona, beyond Santa Fe.

R. Q. Smith, a brother of the bridegroom, and Mrs. Smith will be dinner host for the couple Friday at Rencona.

Mrs. Smith attended Butler University and was connected in several positions with the headquarters of the Christian church in Indianapolis and also the University Park Christian church. Her former husband is the late Rev. Dana H. Richardson, who was pastor of the Centenary Christian church in Indianapolis at the time of his death seven years ago.

After a short visit with Mr. Smith's mother, Mrs. W. L. Smith of Lockney, Texas, they will return to Santa Fe, New Mex to make their home.

Mr. Smith is a former resident of Lockney and was among the first editors of the Lockney Beacon.

RECOVERY WILL MOVE AT A SLOW PACE

There is statistical foundation for the belief which most men hold that the year 1935 will be one of considerable further gains in recovery. It will not be wise to count on anything like a boom. A boom would be bad if it came, but will hardly come. There are worldwide conditions which mean that the recovery now clearly under way must move at a modest pace. The recovery in America must wait, to some extent at least, on recovery to the rest of the world and a restoration of international trade which awaits wise statesmanship as well as returning confidence. It is a process of building, not of ballooning, which awaits the year. To reconstruct our shaken economic fabric is a matter of work, not of ballyhoo. Our problem now is to get everybody to work who wants to work and to rid relief rolls of those who will not work even when they can get it. There are not many of the latter type around Lockney but as there is a single one it

is one too many. Let us hope that 1935 will bring them into the open.

BE CAREFUL IN BUYING YOUR SEED

Due to a complete crop failure in some sections of the country the past season, necessitating wholesale shipments of seed from one state to another, there is great danger at this time of importing new weeds, and it is important that farmers around Lockney be on guard. Careful seed cleaning and selection will be necessary to keep the danger of a universal weed spread to a minimum.

One need only talk to a few farmers to learn of the danger of buying seed of any kind from a distant point. There wasn't any Johnson grass in the south until southern farmers bought seed from a northern state that contained it; there wasn't any blindweed in the Middle West until it was shipped in from the Pacific Northwest. But they were imported in seed shipments, and once they got a start they took the country.

When you buy seed demand that they are free from weeds. Buy only home-grown seed when it is possible to do so; beware of mail-order seed and seed sold by traveling salesmen unless you know the firm to be absolutely reliable. Let quality be your guide, rather than price, and do not purchase so-called "bargain seed." Clean home-grown seed before sowing. The fanning will remove any impurities. It's best to be careful in selecting seed, when you realize what a serious loss poor grades can cause. Poor seed or seed containing weeds, are a dear price.

COTTON REDUCTION PROGRAM FOR 1935 BEGINS

With the appointment of the State Review and Allotment Board and the reorganization of the Cotton Control Association in the various counties, the cotton reduction program for 1935 has begun. A. L. Smith, chairman of the State Review and Allotment Board.

"Articles of Association for the cotton production control associations have been sent to the farm demonstration agent in each county and the reorganization of the associations is proceeding rapidly. An important change from last year's plan is to be noted. Cotton producing communities which consist of not less than 300 producer units last year must consist of not less than 500 producer units this year," Mr. Smith said. "These communities will be designated by the farm demonstration agent on the basis of the number of producer units on which cotton production was reported in the applications for allotment and tax exemption certificates in 1934. There shall be one community committee consisting of three members for each community designated. A county consisting of not less than 500 producer units will have one community

committee. "Any producer is eligible to sign a 1935 contract who is an owner, cash tenant, standing or fixed-rent tenant, or managing-share tenant jointly with the landlord, and who operates or controls a farm on which cotton was planted in 1933 or 1934 and on which cotton will be planted in 1935 and which was not covered by a 1934-1935 reduction contract. "Any producer is also eligible who is operating a farm on which cotton was not planted in 1933 or 1934 because such farm was then planted to perennial crops in a regular rotation or because such farm was covered by an agreement with the Government to eradicate pink boll worm, but on which cotton was planted during the period 1928 to 1932 and on which cotton will be planted in 1935."

WRESTLERS AND BOXERS PREPARE FOR COMPETITION OF BORDER CONFERENCE

From a bunch of enthusiastic, scrapping candidates, aspirants to that great game of give and take, Harry Guthrie and "Jakie" May, students coaches, are slowly developing Tech's mat representatives in Border conference competition.

Good Material "We have some good material among the mitt-slinging prospects," Guthrie stated when approached on the subject of Tech's prospects. "From those working at the present time we should mould a good enough team to win any of the proposed meets in the border circuit."

Plan Meets Several of the boxers are already showing improvement. R. C. Mitchell, 175 pounder, of Lockney is rounding into tiptop shape and is expected to give Chairmonte, New Mexico Military Institute terror, plenty of trouble should they meet in the Border conference meet. A battle is being staged in the 148 pound class. Jimmie Ortiz, transfer from NMMI, and James McDuff, sophomore from Ralls, are the principals. Alvin Kotrola appears much better than he did last year, giving a warning to the heavyweights around the loop that he packs plenty of misery in his fists.

R. C. Mitchell is the son of Mr. and Mrs. T. B. Mitchell who live six miles southwest of town.

GOOD THINGS TO EAT

CARAMEL ICING

3 cups brown sugar,
1 cup water
1 tbsp. butter
1 tsp. vanilla
Cream
Boil sugar and water until syrup spins a thread in cold water. Add butter and vanilla and remove from fire. When cold, beat until thick and creamy. Use cream to thin until it is the right consistency to spread

UPSIDE DOWN CAKE

1 1/4 cups sifted flour
1 1/4 tsp. baking powder
4 tbsp. butter
3-4 cup sugar
1 egg
1-2 cup milk
4 tbsp. butter
1-2 cup brown sugar, firmly packed.
1 cup pineapple, apricots or peaches
Sift flour once, measure, add baking powder, and sift again. Cream butter thoroughly, add sugar gradually, and cream together until light and fluffy. Add egg; then flour, alternately with milk, a small amount at a time. Beat after each addition until smooth.
Melt 4 tbsp. butter in iron skillet; add brown sugar and stir until melted. Add pineapple and pour batter over mixture. Bake in moderate oven (350 degrees) 30 minutes

APPLESAUCE CAKE

2 cups apple sauce, sweetened
1 cup sugar
1-2 cup butter
1-2 cup raisins
1-2 tsp. cinnamon
1-2 tsp. cloves
1-2 tsp. nutmeg
1-2 cup soft
3 cups flour
2tp. soda.
1-2 cups nuts
Mix and bake in slow oven about an hour.

SYRUP PECAN PIE

2 large pies
8 whole eggs
1 1/2 cup sugar
2 cup dark wrap
1 cup pecans
1 tsp. nutmeg
2 tbsp. butter
1 cup cocoanut
Mix together and bake in crust.

Heroines

Dorothy Lee Miller and Carol Elizabeth Long, of Kansas City, Kan., may not be rated as heroines among the men folk but the ladies of their home town think that the little girls deserve at least honorable mention as typifying the neighborly spirit and quiet heroism evidenced by many other workers on the Birthday Ball for the President. Last year, as candle-lighters for the huge Presidential birthday cake at Kansas City's ball, the Misses Miller and Long, instead of retreating in panic, fought off the threatened attack of a mouse, and routed him completely before ladies in the huge audience could start a stampede for the door.

The Kansas City affair in 1934 is considered typical of 5,500 parties which will be held in communities from coast to coast this Jan. 30, honoring the President's third birthday anniversary, and raising money for local and national work toward aiding victims of infantile paralysis and toward discovering an effective preventative of the disease. More than 4,000,000 persons are expected to attend, but Dorothy and Carol report that no mice will be invited.

CREAM PIE

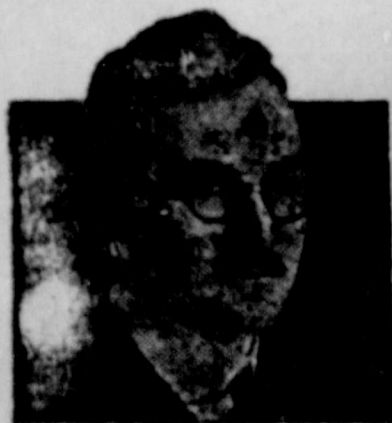

1 pint cream.
1 1/2 cups sugar
Mix the above ingredients and let stand while the whites of 4 eggs are beaten until stiff. Add to first mixture and mix thoroughly. Add 1 tsp. vanilla and pour in unbaked crusts and bake until mixture sets, in an oven of 375 degrees

GOLD CAKE

(Use yolks of eggs left from angel food)
2 1/2 cups Swans Down Cake Flour
2 1/2 tsp. baking powder
3-4 cup butter
1 1/2 cup sugar
8 egg yolks
3-4 cup milk or fruit juice
1-2 tsp. extract.
Sift flour and baking powder together 3 times Cream butter, add sugar, and cream together until light and fluffy. Add egg yolks beaten until thick and are lemon-colored. Beat well. Add flour, alternately with liquid, a small amount at a time. Beat after each addition until smooth. Bake in 3 greased pan in moderate oven (350 degrees) 25 min.

HERE'S HOW!

To Beat—Use an up and down motion which will enclose air in food and make it "light."
To Chop Nuts—Break small quantities in fingers; use wooden bowl and chopping knife for the larger quantities.
To Oil Pans—Dip soft-bristled brush in mazola and brush bottom and sides of pan. (Boil the brush frequently in soapsuds to keep clean.)
To "Chop" Dates—Cut dates with wet scissors (Marshmallows also are chopped this way). Don't wash dates; buy the clean pasturized fruit.
TO MINCE ONIONS—Cut an end slice from peeled onion, and cut exposed surface into thin squares to any desired depth; then cut crosswise in thin slices.
TO DREDGE WITH FLOUR—Sprinkle flour from shaker-top pan or from a sifter over food to be coated.
TO "FLUFF" RICE—Turn cooked rice into colander and run hot water through to wash extra starch off; then cover colander with cloth and set over deep pan of boiling water to steam and dry out or "fluff."
TO TOAST COCOANUT—Spread shredded fresh-keeping cocoanut in thin layer in shallow pan. Bake in moderate oven (350 degrees F.) until golden brown. Stir frequently to prevent scorching.
TO PIT DATES—Hold pasturized date between thumb and forefinger of left hand. Make slit with small vegetable knife;

To Make "Refrigerator" Desserts—Substitute white karo for half the sugar called for, to make "smooth" parfaits, mousses and ice creams.

WHAT'S IN A NAME

Everything in a name if the name be "spoon bread", because this delicious breakfast or luncheon comes by its name honestly! It is so soft that it must be spooned from the dish in which it was baked. Delicious for either the breakfast or luncheon served with butter, it also may be a vegetable when served with gravy, among the "infinite variety" is rice spoon bread made this way: SOUTHERN SPOON BREAD: Pour 1 cup boiling water over 3 tablespoons of white corn meal; mix. Add 1 tablespoon flour, 1 teaspoon salt and 1 tablespoon sugar. Cook in double boiler until thick. Stir in 1 cup cooked rice and 1 tablespoon butter. Add the beaten yolks of 2 eggs and 1 cup milk. Fold in 2 stiffly beaten egg whites and pour into greased baking dish; place in a pan containing an inch of hot water and bake in a moderate oven (350 degrees F.) 35 or 40 min.

Third parties may be just the thing in congress but most couples think them out of place in the parlor.

It is better for a man to have even a dollar a day with a job than a dole a day without a job.

This generation now promises to straighten out everything to the queen's taste, leaving nothing to future generations to do but pay the bills.

In the old days around Lockney a man was ashamed to have his wife work for somebody else except over the wash tub.

Old men don't talk about themselves more than young ones. It just seems more because respect for age makes you listen longer.

If the dealer drives it 500 miles, it is nicely broken in. If you drive it 10 miles it's a used car.

If a Lockney girl "marries beneath herself" this day in time that means she married a youngster as poor as her Dad was at that age.

Remember those Populist cartoons when all Populists were pictured as wearing stovepipe hats and long whiskers?

Don't blame the girls if their voices aren't lady-like. They have to squall to be heard above the radio.

Some Lockney housewives wonder what to do with left-overs. Well, if it's Sunday you just place 'em on the kitchen table and say: "Supper's ready!"

In one way it's better to be poor. Then when you have callers you know they're not coming to ask

you for something.

Our idea of nothing to worry about is whether there are one or two continents down at the South Pole.

Old-fashioned Lockney girls were afraid of being criticized; the new-fangled ones are afraid they won't be.

There is no modern Jesse James. Jesse didn't have to spray about 500 bullets out of a machine gun to get his man.

The measure of a man is the bank-roll required to make him others "common people."

Fortunate, indeed, this day in time is the Lockney man whose cigar-lighter and wife both work.

If only the dentist could squish something in your gums that would give you nerve enough to get up to his office.

The more stupid and dumb a man is the less likely he is to be lonesome.

"Nothing lasts forever any more," except the temporary taxes levied by the legislature.

The man who passes the collection plate in church is also agreed that the dollar has quit dropping.

GEO. MAHON NAMES TEXAS TECH. AS DEPOSITORY OF DOCUMENTS

The act has been made from the office of George Mahon, at Lubbock, Congressman of the 9th District, that Texas Technological College at Lubbock had been named as the Government Depository Library for his District.

After contacting the Government Printing Office, Mr. Mahon found that he was entitled to designate one school in his District to serve as a depository for all Government documents and official publications. In answer to a written request that a selection be made, he sent his official choice to the Superintendent of Documents, naming Texas Tech.

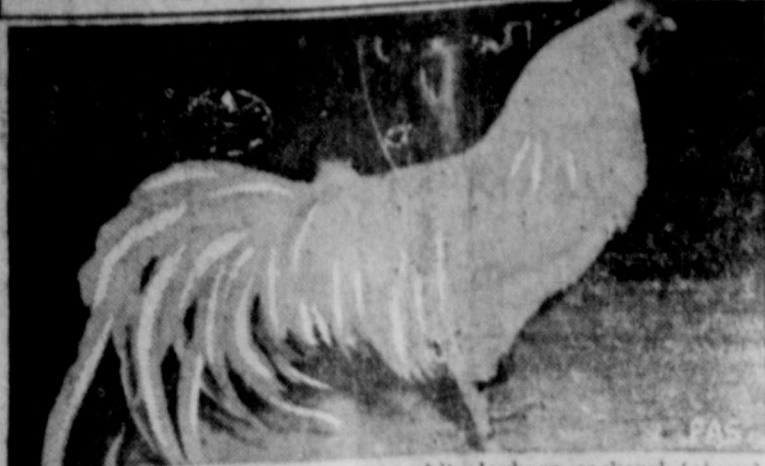

SOMEONE KILLED EVERY SIX MINUTES IN 1934

Every time the clock ticked off six minutes in 1934 somebody met accidental death. Not all due to autos, of course, but to unanticipated happenings, many of which could have been avoided through a greater use of care.

Appalling as it is, death by auto accidents amounts to only 28 percent of the total number of accidental deaths from all causes; falls account for 18 percent; drowning about 9 percent; burns about 7 percent and railroad accidents nearly 6 percent of the accident total.

But here is the sad part of the story—more than 50 percent of all accidents can be averted. And that is the point we are most anxious to impress upon Floyd County citizens. You may get hurt while being careful, but you are certain to get hurt if you are not careful.
