

2 Projects Are Approved For Lockney

Improvements Will Be Made On Streets And City Auditorium Grounds

The State Relief Commission have this week, approved two projects for Lockney, which will be means of furnishing considerable work for the unemployed of this community. It is planned to begin work this week on the projects.

One of these projects is the beautification of the City Auditorium grounds and the other is street improvement. Mayor Herman Hohaus and his assistants have been working to get these projects approved for some time. They are at this time trying to get a sewing room project approved for Lockney.

Our Commissioner E. R. Harris has a road project under way on the road leading north from Aiken.

Lockney is going to experience some trouble in keeping men at work on these projects as no money is available to buy material with. Money appropriated by the State for this purpose has been temporarily withdrawn, so we understand.

MOVES TO PLAINVIEW TODAY

Mrs. Walter Byars and daughter Miss Estelle Byars, moved to Plainview today to make their future home in the Freeman apartments, 213 West 9th. They have been residents of Lockney for a number of years.

FLOYD COUNTY GAINING IN NUMBER OF FARMS

Figures have been released from the Supervisors office at Lockney in reference to the number of farms in Floyd County. We find from this report that Floyd County has gained 72 farms since the census of 1930. This report, which he says is preliminary and subject to correction, gives Floyd County 1,743 farms January, 1935, against 1,671 as shown by final figures of the enumeration of April 1, 1930.

WINTER TERM OF COURT CLOSES WITH ROBBERY CASES

C. B. Bland To Be Tried On A Charge Of Robbing The W. S. Rexrode Family

Both charged with robbery, C. B. Bland and Neil Townsend are slated to appear before the district court for Floyd County this week, ending, beginning with Townsend's case today, to close the winter term of court, Judge A. J. Folley, announced Wednesday afternoon.

Bland has been indicted by the grand jury with robbing the W. S. Rexrode family on January 13, as they were returning from church to their home near Sterley in the north part of the county. Townsend was indicted by the grand jury with robbing Glad Snodgrass' store, January 19, of \$71, holding up Virgil Shaw.

Monday Townsend was reported to have slashed his arm with a razor blade, being prevented from injuring himself seriously by fellow prisoners in his cell. Ed Holloway, charged with the burglary of which Jim Taylor was assessed a five year suspended sentence by Judge Folley, was also indicted when Holloway pled guilty to the charge.

\$80,627 Being Distributed Among Cotton Producers This Week—2c Pound Advance

J. S. Porcher, assistant in Cotton Adjustments for Floyd County announces that 2,103 cotton checks totaling \$80,627 have been received in Floyd county and are now being distributed among farmers as a 2c advance payment on the Bankhead tax exemption certificates which were pooled by farmers last fall.

This is the largest number of checks received in the Floyd County office since the beginning of the deduction program in the county.

"All those acting as agents for absentee certificate holders will be unable to get the absentee checks on power of attorney," Mr. Porcher said. "This ruling was sent by A. L. Smith, state special agent in cotton, recently. All absentees will have receipts mailed to them or to the nearest county agent and then upon the return of the absentee the checks will be mailed to them."

As fast as possible cards pertaining to the farmers' checks that their check has come are being mailed out, Porcher explained.

"The producers copy of the agreement is being given out along with the checks—these trust agreements show the amount the producer pooled."

"Each check being distributed covers the amount pooled on one agreement, which was drawn up each time certificates were pooled. This explains why some producers are getting more than one check at this time and others are getting only one check, due to the fact that some producers pooled their certificates more often than others."

"The second payment on certificates pooled will have the cost of operating the pool deducted from it and will only represent the remainder of what is sold. That which is unsold will be reissued proportionately."

The smallest check which came in this time amounted to ten cents.

Misses Juanita Still and Elsie Griffith of Lockney spent the week-end with the latter's sister, Mrs. Pauline Rogers of Sterley.

Faye Oliver, Maxine Myers, Helen Calaborn, Sibyle Karr, and Gladys Gilland spent the week-end at South Plains.

MEASURING OF WHEAT LAND TO BE FINISHED NEXT WK.

If favorable weather prevails, it is expected that the eight men who are measuring the wheat lands will be able to finish the measuring some time next week. It was announced at the office of the Floyd County Wheat Control Production Association Wednesday.

The number of acres, both maximum and contracted, is 133,049. The supervisors will check land at a latter date to see if the contracted acres have been planted in non-allowed commodities.

Miss Leo Simpson was in San Angelo Tuesday and Wednesday a business this week.

You Can Put New License Tags on Your Car Friday

Frank Moore Receives Ruling From Highway Department About New Law

License plates for automobiles and trucks may be placed on automobiles legally in Texas beginning tomorrow, March 1.

A ruling to this effect was received by Frank L. Moore, Floyd County Assessor and Collector, Tuesday afternoon from the office of the State Highway Department in response to a request for information.

You must have paid the fee for the preceding year, however, or the collector cannot issue you a receipt. Or, if it is a new car you are buying, at least one month of 1934 must be paid, because the new license fee year does not begin until April 1, and old license fees and plates are effective until that date.

In Floyd County sales of license plates, or rather the collection of the license fees and issuance of the plates, has been moving very slowly, Moore said. It is his hope and belief that the new ruling will bring hundreds of car owners into the office for their plates during the month of March and lighten the load greatly against April 1. On this last date it will be illegal to operate a car on the roads without a 1935 license plate. Until this week it has been illegal, also, to operate a car during February or March with the 1935 plate even though one had paid his 1934 tax and also his 1935 tax.

License fees this year are identical in practically every instance with the fees that were paid last year by the car or truck owners.

WELDON DODSON IS APPOINTED TO NAVAL ACADEMY

Congressman George Mahon Forwards Name To Bureau Of Navigation For Appointment

Weldon Dodson, son of Mr. and Mrs. Frank Dodson, of this city, has been notified of his appointment by Congressman George Mahon to the Naval Academy at Annapolis, as Alternate-Ralph Bernard, of Haskell, has been appointed as Principal.

This is quite an honor that has come to Weldon, and all Lockney and Floyd county are elated over his appointment. He has received orders to appear at DaL. for examination within the next week, so we understand.

Congressman Mahon is permitted to keep at the Naval Academy at Annapolis, Maryland, at all times, three young men from his district. However, this does not mean that he can make three appointments each year.

Inasmuch as at least 50 per cent of the young men who are recommended for appointment cannot pass the physical examination or cannot meet the entrance requirements in other ways, an alternative way has an excellent opportunity of getting the appointment. We feel confident that Weldon can stand the physical and other examinations that are required.

BABY BONDS TO GO ON SALE MARCH 1

Non-transferable United States saving bonds will go on sale here Friday, March 1, according to Postmaster, Joe McCollum, who received word that they were to be on that date.

Purchasers of the bonds will be able to increase their capital by one-third if they are held until maturity which is ten years after date of purchase. The bonds may be redeemed within 60 days without any interest. Interest can not be drawn until after a year. They are to bear interest at a rate of about 2.9 per cent to be compounded semi-annually.

Following is the denominations of the bonds at the time of purchase and on the date of maturity: \$18.75—\$25.00 \$37.50—\$50.00 \$75.00—\$100.00 \$375.00—\$500.00 \$750.00—\$1000.00.

They are having some scrap over the \$4,880,000 work relief bill in Congress. An amendment was passed the other day in the Senate to pay relief workers the prevailing scale of wages instead of the \$50 per month that FDR proposed to pay. This passed by a narrow margin of 43-42. This was just one way to defeat the bill, as it is sure to be vetoed if it should go to FDR with that amendment tacked on to it. Quite a few good old staunch Democrats broke out of the coroll and voted for the amendment. Now it looks like FDR is going to have to do a little broadcasting over the radio to get them back in the coroll. We believe one of those "fireside chats" will turn the trick. It was FDR's idea that \$50 per month average would give more people work than a higher wage, as this relief proposition is not intended as a permanent feature but only temporary until the wheels begin to spin a little faster.

A Federal court jury found 15 people guilty Tuesday of harboring fugitives and all were sentenced. Five had previously pleaded guilty, making twenty in all. The fugitives they were convicted of harboring were Clyde Barrow and Bonnie Parker, and of course you know how they finally wound up. Among those convicted were Bonnie and Clyde's parents. Federal authorities are determined to stamp out outlawery. It seems they are the only ones that are able to cope with the situation, and always get their man.

Funny things sure do happen these days of high stepping Federal Officers. The other day a West Texas lawyer had a client in the Federal Jail at Dallas. He grabbed off a couple of dollars and hiked off down to Dallas to get his client out of jail through their testimony. When they arrived in Dallas and faced the Federal Judge and Federal Attorneys, it seems they wilted and did not swear as they told the attorney they would, and in the mix-up the attorney was thrown so far back in the Federal Jail they had to feed him with a bean shooter, and his client walked out on bond and came on home and left his lawyer in jail. Funny old world, it sure is.

There is a woman up in Ohio that has traced her ancestors back to Adam and Eve, so she says. If some people we have seen should undertake to trace their ancestors we believe they would find grandpa of the fourth generation hanging by his tail from a limb of a tree, and grandmother sitting on a limb gouging the eyes out of coconuts and drinking the milk.

There is a pesky nigger down at Dallas that has entered the race for Representative of a Dallas District made vacant by the recent appointment of Mrs. Sarah T. Hughes, as District Judge. Anytime a dog-gone nigger enters politics in Texas he sure has nerve, or a lack of brains, we don't know which. If he should receive a gillion votes he would never be seated in the House of Representatives at Austin. What we need at Austin is more brains not less brains. This nigger is supposed to be a lawyer at Dallas and perhaps he has won a case or two in a nigger Justice Court and he thinks he is some pump-up. No, a nigger is a nigger in Texas and not a Senator or Representative.

We frequently hear it said of someone who has met financial reverses that they have "lost every thing." But if you will look at it in the right light, you'll find it is a mistake. To lose financially, even to the last dollar, doesn't mean that the greatest asset of all—good friends and good neighbors—have been lost. Those said to have lost everything usually haven't lost the spirit of manhood and self-respect that keeps them true to their ideals and that money cannot buy. Many other

things might be enumerated in the list of priceless possessions which they have not lost—health, home, and loved ones. In fact, they really have not lost anything but what they can sometime replace. And as a general rule, the experience they have gained through losing their money will eventually prove worth far more to them.

Representative W. M. Craddock of Quitman has gone on record at the state capitol as opposing the hurtful practice of lobbying. Craddock would set only eliminate lobbying as a general practice, but he has gone on record as announcing his opposition to members of legislature receiving pay from big corporations.

The average citizen would be surprised to know how serious and destructive this lobbying practice is. A big corporation can send lobbyist to Austin or Washington and get almost any service they might want. Ordinarily sent out will sell out of respect and when they decline to sell public hearing are called for and when times the halls are filled with people who just run things over men who are elected and trusted with affairs of the state.

Representative Craddock is to be commended for the position he is taking in connection with his effort to check this lobbying practice which has been going on for years and which is gradually turning every prospective measure to big corporations.—The Community Weekly.

Henpecked Lockney husbands have one advantage. Being managed by the government doesn't seem any worse than usual.

The final judgment will take only one day. You see it won't be necessary to hold the deal until somebody can take it to the supreme court.

There is one thing you can say about this country, and that is that everybody has had a chance to become poor and honest.

Another impossibility would be to sell an alarm clock to any man who has two or three kids under six years of age.

Acquitting a killer isn't difficult. Just postpone the trial until the public gets over being mad

Many a Lockney man's greatest mistake is to marry a girl who never remembers that she wants a drink of water until she gets in bed.

The difference between a husband and wife is said to be that he wants to be waited on and she has to be waited for.

Being a gentleman is simple. You just do the right thing when here's no power to make you do it.

Death doesn't scare some Lockney husbands. It's their first chance to get away from home by themselves.

The Montana man who has worn the same trousers for 10 years probably hasn't done a great deal of sitting during that time.

The crawfish is said to have an eye in its tail. What an advantage if it ever gets caught in heavy auto traffic.

Girls may have been harder to kiss in the old days but the performance wasn't nearly so dangerous. The old parlor sofa never made a bee-line for a telegraph pole just when you were all puckered and set.

All praise to the hen, she still uses a sanitary wrapper that can be removed without having to use a few cuss words.

Few people live more than 50 years, after that age they just stay here.

No woman would buy a second-hand hat, but she doesn't mind buying one that dozens have tried on.

Constipated?

The doctors say . . . Use liquid treatment

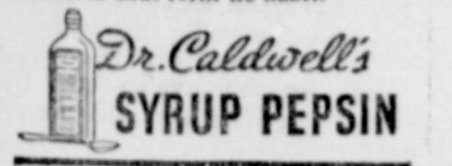

Here is the soundest advice anyone can give on the subject of laxatives. It is based on medical opinion. We want you to have the benefit of this information no matter what laxative you may buy:

The secret of real relief from constipation is reduced dosage. You can't regulate the bowels unless you can regulate the help you give them. That is why doctors use a liquid laxative; the dose can be measured to a drop.

Avoid laxatives that you can't cut down in dosage; especially those that seem to require larger doses than when you began their use.

Under the doctor's care, you usually get a liquid laxative. The right liquid laxative gives the right kind of help, and the right amount of help. Smaller and smaller doses—until you don't need any.

The liquid laxative generally used is Dr. Caldwell's Syrup Pepsin. It contains senna and cascara—natural laxatives that form no habit.

THERE'S never any doubt about value when you buy a Ford car. You know it's all right or Henry Ford wouldn't put it out. One thing that never changes is his policy of dependable transportation at low cost.

That's the biggest feature of the New Ford. The reliability and economy of its V-8 engine have been proved on the road by upwards of 1,400,000 motorists. Owner cost records show definitely that the Ford V-8 is the most economical Ford car ever built.

The trial of Clarence Brown, indicted by the Dickens County Grand Jury in December, has been postponed until the April term of court. Brown's case was transferred from the 110th District to the 99th District at Lubbock along with Virgil Staleup, who was given the electric chair by the 99th District Court jury at Lubbock last week for the murder of Sheriff W. B. Arthur, the same charge upon which Brown was indicted. The case was postponed because of some alleged irregularities in the selection of jurors for this term of court. The state did not desire to take any chances on the case being remanded for re-trial in the event of conviction.

THE EDITOR'S JOB

Most anyone can be an editor. All you've got to do is sit at a desk 12 months in the year and edit such stuff as this:

"Mrs. Jones, of Cactus Creek, let a can opener slip last week and cut herself in the pantry."

"A mischievous lad of Pilotown threw a stone and struck Mr. Pike in the alley last Tuesday."

"Joe Doc climbed on the roof of his house last week, looking for a leak, and fell, striking himself on the back porch."

"While Harold Green was escorting Miss Violet West from the church social last Saturday night a savage dog attacked them and bit Mr. Green several times

on the public square." "Ike Trimmer, of Running Creek, was playing with a cat Friday when it scratched him on the varanda."

"Mr. Frond, while harnessing a horse last Saturday, was kicked just south of the corn-crib."

IT DOESN'T CHANGE—IT JUST SEEMS THAT WAY

Customs and environment are always changing, but human nature never does. The same elemental impulses, passions, hates and loves, pass from generation to generation. Older citizens of Lockney may think that young folks of today are different from the young folks of earlier years, they are not. They are traveling the same road, but they are going 50 mile an hour in a high-powered car while an earlier generation tried to urge old Dobbin up to six or seven miles an hour.

Older people may criticize the youngsters of this generation for not wearing more underwear, and for wearing fur pieces in summer rather than in winter. But if they could turn backward they would see mothers in their heavy, uncomfortable hoopskirts, buttoned and laced, and corsets laced so tight that it was almost impos-

sible to draw a healthy breath. Those were outlandish, and far less healthful than the styles of today. All of us are now wearing things we will laugh at tomorrow. Few people dare to be themselves for fear of the jeers of the populace.

But don't let anyone tell you that the present "younger generation" is any worse than the one of earlier years. The fact of the business is—and oldsters who want to be fair will admit it—the younger generation of today is the healthiest and happiest this nation ever produced. And, taken as a whole, it is as rich, if not richer, in morality and common sense.

A Doctor Speaks

"At this season of the year when so many are affected with colds an excellent health precaution is to send all the family's apparel and linen to a modern power laundry. Many women do this for the purpose of eliminating any cold-producing or other disease germs that might be transmitted from one member to another through the use of towels, nap-kind or other articles. In modern power laundries white goods are washed at temperatures ranging from 160 to 180 degrees which is much higher than the average home laundry. Changing of water and the use of a firm disinfectant eliminate any possibility of living disease germs being sent back with the clothes or other articles."—Dr. L. M. The Slaton Rotary Club will hold double celebration Friday, February 28, President Ray Baldwin pointed out in announcing that President Tom Taylor of Howard Payne college, Brown-wood, would be the guest at a

ladies night. "We celebrate our 10th anniversary on February 28 along with the 30th anniversary of Rotary International," he said. "The Slaton club was organized February, 19, 1925."

A number of out of town guests from Lubbock, Post and other towns are expected. The affair will be held at the county club house.

Earl Black and M. J. Brady of Amarillo were in the Hale County jail Saturday night charged with hit and run driving as result of a collision Friday night of their six wheel truck with a car occupied by a Mr. Graham of Tullia and Mrs. J. C. Mosley, former Swisher County sheriff. The car occupied by Graham and Mrs. Mosley was considerably damaged.

better than the natives. But it is probably because they are spell-bound over the impetuosity of the sandstorms and the fact that we still live on!

The tumbleweed picked-up a bit of information concerning a fire we had in town Sunday night when the fireboys turned back to the days of old by battling a fire in the bathroom of Burton Thornton's home with water buckets.

The flames were soon quenched without much damage. The water The flames were soon quenched of some little difficulty in getting the wagon. GOOD THINGS TO EAT

Dishes Men Like— And to Cook

All is not steak and pie on the masculine horizon. Men like salads, men like pudding, men like gingerbread, fudge, cake casserole dishes too, and, believe it or not, can cook them with ease and skill that, at least is the result of a one-woman survey recently conducted in an Eastern city. Further, it is not only the chief of France or the proprietor of the wayside diner who can cook, but the garden-variety, orange-juice-squeezer type of male who can cook—if he wants to!

Scrambler eggs, scorched toast and coffee are all a husband confesses to master, a questionnaire answered by 53 men indicates, but actually turn him loose with an insensitive and the ingredients and the weary male will surprise his friends, his wife and even himself.

No "Male-Order Course"
They laughed when he stood

up to cook"— but watch the results when a man who likes to eat decides he also likes to cook. Occasionally to be frank, was the answer given by 22 asked when they liked to cook, and when the wife is away" received the plurality of votes. Therefore, wise women, "reading in" will absent themselves, prepare to expect a shambles where the kitchen once stood and provide some suggestions and recipes. Some of these each approved by at least fifty per cent of the men questioned, will help. Let, no urge, him to try them!

Bachelor's Dinner
2-4 cup rice
2 thick slices of salt pork, finely diced
3 cups hot water
Salt, pepper
2 medium sized onions, cut fine
2 cups tomato juice and pulp
Parsely
Paprika
Fry salt pork until it is slightly

browned. Then add the rice which has been washed and drained, and stir until the rice is a golden brown, adding the onion meantime. Add the hot water gradually, cover and cook until the rice is tender, then add the remaining ingredients. Place the mixture in greased baking dish and bake in a moderate oven (350 F.) for about 1-2 hours—servings

Two-Minute Gingerbread
Gingerbread which any man can make (and many do) takes only two minutes to mix, it is the new Washington gingerbread—just add a cup of water to the contents of the package and bake; the package tells all! This makes a spicy, delicious old-fashioned ginger bread, and it is just like George Washington ate, for it is based on his own mother's recipe! Men like this served with apple sauce or stewed fruit as a variant from the usual whipped cream. Melted cheese is a good topping and few sweet-toothed souls like jelly spread on top.

Chiffonade Salad
1 head lettuce
1 can grapefruit
3 small tomatoes
Horseradish
Dressing
2 green peppers
Line salad bowl with lettuce. In this nest of lettuce leaves arrange the shredded green pepper tomatoes cut in quarters and the canned grapefruit. Serve with Horseradish Dressing made this way: mix 2 tablespoons grapefruit juice, 1 tablespoon lemon juice, 1-4 cup mayonnaise, 1-2 table spoon salt, 1-8 teaspoon paprika, thoroughly. Add 1 tablespoon horseradish and pour dressing over salad. 5 to 6 servings.

Benedict Pudding
1-4 cup dry bread crumbs
1 cup pasteurized dates
1-4 cup sugar
1-4 teaspoon salt
1 teaspoon baking powder
1 teaspoon melted butter
1-2 teaspoon vanilla
1-4 cup milk
1-2 cup nut meats
Mix the bread (or cracker) crumbs, sliced dates, sugar, chopped nuts, salt and baking powder together. Add the melted butter, vanilla and milk. Pour into a buttered baking dish. Place in a pan of hot water in a moderate oven (375 F.) Serve with whipped cream. 6 to 8 servings.
C and C Canape

Cut a mould of canned cranberry sauce into quarter-inch slices. Cut thin slices of day-old bread into rounds with a three-inch cutter (or top of baking powder can). Spread the bread with softened cream cheese. Place a dish of cranberry sauce around the edges with a fork. Serve as an appetizer.

The lines in this dress are graceful and interesting. The waist and sleeve sections are cut in one except the flaring lower edge of the puff sleeve which is fitted to the arm with an elastic band.

The skirt is mounted onto the pointed yoke which fits the hips snugly. Panels in front and back of the skirt flare slightly at the lower edge, and retain the slender line.

Buckle and buttons constitute the sole trimmings of this neat and popular frock.

The material could be plain woolen for the body of the dress combined with plaid silk—or printed and plain crepe.

For PATTERN, send 15 cents coin (for each pattern desired), your NAME, STYLE NUMBER and SIZE to Patricia Dow, (LOCKNEY BEACON) Pattern Dept., 115 Fifth Avenue, Brooklyn, N. Y.

An estimate of the cost of the Hauptmann case, made by the Associated Press, puts it at a total of about a million dollars. Among the items is the \$50,000 ransom paid by Colonel Lindbergh. Dr. Condon is reported to have spent \$10,000 of his own money to bring Hauptmann to trial. The jury will cost about \$2,000, and transcripts of evidence \$60,000. Fees to the lawyers ordinarily would run to \$20,000. Whether Hauptmann can pay his array of attorneys is uncertain. The Associated Press says it is rumored they are paying their own expenses.

The cost of telegraph tolls is estimated at \$600,000, and the salaries of special writers and reporters at \$180,000. Thus the principal item in the total "cost" of the trial is the cost of satisfying the public's curiosity as the trial progresses. New Jersey's and the federal preliminary expenses are given as at least \$50,000. Expenses of persons required to attend the trial are estimated at \$30,000, and if there is a conviction New Jersey will have a reward of \$25,000 to pay.

How it could have been avoided seems a difficult problem, but there is something unwholesome in the making of a criminal trial into such a mammoth and costly spectacle.—Star Telegram

IT'S SEED TIME IN FLOYD COUNTY
About this time as the Old

Farmers' Almanac used to say, look out for the seed catalogue on the living room table. About now the average Floyd county householder, in the comfort of his easy chair, pours happily over glowing pages on which are depicted flowers and vegetables in colors the rainbow can't match. He may not realize all his dreams, here are plagues of pests to be encountered; the drouths of summer in many sections and too much rain in others, and the weeds and the heat of an August sun have to be reckoned with later on. But blessings be on the head of the seed catalogue man. We can forgive him if he paints the roses and the beans a little too brightly, for any inducement that persuades a citizen to spend less time loafing and wandering and fooling, and more time in a useful and healthful pursuit like gardening, helps to

make a healthier man and better citizen.
This day in time there are two sides to every question—unless you are debating whether Hitler is insane.

MRS. BILL DOWNS ANNOUNCES FOR CITY SECRETARY

I take this means of introducing myself to the voters and citizens of the city of Lockney. Most of you whom I have had the pleasure of meeting and some whom I have not, but hope to in the near future.

In announcing for the position of city secretary, I know the responsibility I am undertaking.

I have had fourteen years of experience in dealing with the public in the following manner:

Five years as stenographer and book keeper for Home Realty Co., three years as book keeper and time keeper for the Vincenus Steel Bridge Co., three years as cashier and book keeper for Dow Drug Co., two years as file clerk for a Whole Sale Drug Co., and one year as file clerk in a State bank.

If you feel that you could support me on the above qualifications, I would appreciate your vote and influence as I want to make Lockney my home.

Horse and Mule Feeders

THE GRAIN AND HAY CROPS IN THE UNITED STATES ARE SHORT

Scientific feeding tests have demonstrated that these feeds can be replaced by—

Cottonseed Meal & Hulls

In many localities thousands of horses and mules have been fed through the winter on nothing but hulls and meal,—in most cases a mixture of 1 part meal and 5 or 6 parts hulls with 1 1-2 lbs. of salt added to each 100 lbs. of meal.

ONE POUND OF MEAL IS EQUIVALENT TO 2 POUNDS OF CORN OR OATS

With recent reductions in cottonseed meal and hulls prices it will be found more economical to feed these products than imported feed stuff although it is not recommended that hulls replace other roughage entirely, where mules or horses are being worked daily, they may well be used in a part of the daily ration.

We will be glad to furnish anyone who is up against the problem of feeding their workstock, as well as their dairy animals, as economically as possible, Feeding Bulletins containing rations that will combine properly with, and conserve, valuable Home grown feedstuffs.
