National H. D. Week To Be Observed

National H o m e Demonstration Week will be observed throughout the United States during this week. In Floyd County a county-wide tea will be held at 2:30 on Friday afternoon, May 7, in the American Legion Hall. All present and former home demontration club members are invited, and past Home Demonstration Council Chairmen will be guests of honor. Former Home Demonstration Agents have been invited. The theme of the week is "Today's Homes Builds Tomorrow's World."

Mrs. C. L. King, Chairman of the Education-Expansion Committee of the Home Demonstration Council, is in charge of the afternoon's activities. She and members of her committee, aided by the Exhibit Committee, with Mrs. George Stiles as its Chairman, have planned the following program: Singing-by all.

A BIG AIR FORCE

Congressional enthusiasm for a big air force is understandable for two very different reasons. First, it is highly desirable for political purposes in an election year-the air force is on a stretly volunteer basis, and apparently does not need the draft to fill out its ranks. Second, and far more important, is the feeling that a powerful U. S. aerial striking force would be one of the best deterrents to a possible agressor and that, if worst came to worst, it would enable us to

It all looks like prosperity-and maybe it is. Since we are not getting the hoped for rain we would like to see something to rather stimulate our thinking power. Our irrigation wells are being run to death recently.

May is the month of history for me as it was fourteen years ago this month (the 22nd to be exact) when I located in Sterley-have seen some pretty lean years, and in fact have at times wondered if I was going to stay here-guess I will now. Also thirty years ago tonight-May 4th-I landed in Camp Travis-a fully dressed soldier-knew but very little what it was all about but had high anticipations of returning home after having won the war and that I should be recognized as a hero-in the course of time I returned home.

If you're "shooting" for smoother engine performance...for less added oil between drains . . . make a date, today, to OIL-PLATE . . . with Conoco Nth Motor Oil!

You see, Conoco Nth (Patented) contains a special, added ingredient that fastens extra lubricant so closely to metal that working parts are OIL-PLATED.

This extra OIL-PLATING stays up on cylinder walls, won't all drain down, even overnight! That means your engine is extra-safe from harmful combustion acids . . . extra-safe from "dry-friction" starts . . . extrasafe, too, from sludge and carbon caused by wear.

For "star" performance . . . extra protection, more miles per quart...

350 LOCKNEY FARMERS will get new telephone

This week telephone company representatives 'finished their job of making arrangements for new and improved rural telephone service around

Three hundred fifty farmers signed up for the new service, which will be installed and maintained by the telephone company. Quiet, twowire lines and modern telephone instruments will bring these farmers a new high quality and dependability in telephone service that will mean much to them and to every subscriber on the Lockney exchange.

Detailed maps showing the location of every farm have been prepared, and now go to telephone engineers who will make final plans to build the lines. We expect to begin construction

This rural project at Lockney is part of a company-wide job we have undertaken to provide good, dependable service for farmers in Bell exchanges throughout our five-state territory.

Despite efforts to explain the new service to every farmer, we may have missed someone. If you are interested and our representatives did not see you, please call or come to our business office. There still is time to include you in the plans.

RAILROAD

STRIKE

Union leaders representing less than one-tenth of railroad employes reject recommendations of President's Emergency board-refuse to negotiate except on their own terms—threaten to paralyze nation by strike!

THE LEADERS of three railroad unions, representing less than one-tenth of all railroad employees, have called a railroad strike that. would paralyze the nation.

These leaders refuse to accept a 151/2 cents an hour wage increase retroactive to November 1, 1947. This increase was recommended by an impartial Emergency Board appointed by President Truman

This increase of 15½ cents already has been accepted by the 19 other railroad unions. But the Brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen and Enginemen, and the Switchmen's Union of North America won't accept what more than 90% of all railroad employes have accepted. They have called a strike to get more!

Unions refuse rules discussion Certain rules changes demanded by these union leaders—which would increase wages still further—were recommended by the Board. But the union leaders want more— they demand that the railroads put into effect ALL the changes they asked for including those the Board felt should be denied.

On top of this, they insist that certain rules changes proposed by the railroads be with-drawn—in spite of the fact that the Board recommended them! These union leaders have refused to negotiate except upon these

Greater wage increase not justified Engineers and firemen are among the highest paid of all employes in America, as figures in the box show. This strike threat doesn't

justify giving a greater increase than other railroad workers received. Emergency Boards are a means provided by the Railway Labor Act in the public inter-est to avoid strikes. The President's Board, after hearing evidence for 33 days, made recommendations based on all the facts in the case. The railroads have accepted these

Who's to blame?

Although they deplored so large an extra cost burden, the railroads accepted the report of the Board because they felt it was in the public interest to uphold the spirit and intent of the Railway Labor Act.

In contrast, this small group of railroad union leaders are attempting to flout the intent and spirit of the Railway Labor Act, and dictate their own terms.

You will be the victim!

How long will the American public stand for the undemocratic, arbitrary, and abusive of the right to strike and the disregard of the obligation to provide transportation? How long can the American people permit a few dictatorial union leaders to defy the processes provided for peaceful settlement of disputes?

Force seldom produces settlements that are either fair or lasting. Moreover, a point is often reached when personal interests must be held subordinate to the greater public welfare. That is why the railroads have accepted the Emergency Board recommendations. That is also why the leaders of these three unions should reconsider their decision to call a paralyzing strike.

Compare these wages with what you make! Here is a comparison of average annual earnings of engineers and fireman for 1939 (pre-war) and 1947.
