

Baptist Encampment Will Start July 12

About 500 boys and girls with their adult sponsors are expected at each session of the Baptist Encampment at the camp in Blanco Canyon which begins July 12. The new camp ground is being used for the first time this year.

Beginning Monday of next week, the junior boys will report to the camp at 2 p. m. and will stay until Wednesday noon. The intermediate boys will come at noon Wednesday and their camp will close Friday.

The following week the girls will come to camp in the same order with the junior girls occupying the camp from Monday until Wednesday and the intermediate girls from Wednesday until Friday.

The charges for each person will be \$4.00 for each camp period, which includes meals, books and registration fee. Individual meals will cost 75c for those who drop into camp for short periods.

The morning will be given to study while the afternoon will be the recreation period. Evening services will be held at 7:30. Everyone is welcome to attend any service of the camp. it was said.

Rev. F. E. Swanner of Plainview will be the missionary speaker of the camp.

The camp is owned by the Plains Baptist Assembly which is composed of 176 churches in District 9 of the Baptist General Convention of Texas. It is located in Blanco Canyon, about five miles south of Floydada. To reach the camp it is necessary to go down the Floydada-Ralls highway about one-fourth mile south of the south rim of the canyon, then turn east and follow a dirt road to the canyon's rim. A road has been built down the south wall of the canyon into the camp.

Rev. and Mrs. E. J. Cobb, several other adults and a number of boys and girls from Lockney plan to attend the encampment.

Judges Chosen For Democratic Vote July 24

Presiding officers for the Democratic primary vote on July 24 have been appointed by the county committee in the county's 22 voting precincts.

Except for one or two precincts, in which arrangements will have to be made for a place to hold the primary vote, the voting will be done at usual voting places, and there are no fine changes or other rules that govern the conduct of the elections. Instances where arrangements will have to be made for a place to hold elections include those in which school buildings, formerly used, have gone into private ownership.

Election Officers Listed

Following are the presiding judges for the primary, who are to choose their own helpers from among qualified Democratic voters of their respective precincts:

S. W. Floydada No. 1, A. C. Goen; Starkey No. 2, J. K. Holmes; Allmon No. 3, E. E. Foster; Sand Hill No. 4, W. R. Dooley; E. Lockney No. 5, J. J. Two Love Boys Are Killed In Wreck

Wayne Love, 23, and Mack Love Jr., 16, sons of Mr. and Mrs. Mack Love of Paducah, and former residents of Lockney, were both killed in a pick-up wreck near Electra Tuesday. The accident was caused by a locked wheel on a pick-up truck, it was reported.

The Loves lived here until about eight years ago and the boys attended school here.

Double funeral services were held at Paducah Thursday.

Mr. and Mrs. Carl Ferguson and Mr. W. M. Ferguson left Thursday morning for a visit in Nashville, Arkansas with relatives.

Dress Shop To Open Saturday

The formal opening of the new apparel shop to be operated here by Mrs. Edna Mae Honea will be held Saturday of this week, it was announced.

The new shop will open at 9 a. m. Saturday. Wearing apparel for ladies, misses and children will be featured and nationally known lines of clothing will be carried.

For the comfort of customers lounge facilities have been provided, as well as roomy dressing space.

An added attraction is the store name contest in which Mrs. Honea is offering a prize of \$25.00 in merchandise for the most appropriate name submitted for the new store. The officers of the B&PW Club will be the contest judges. A coupon will be found in the store advertisement this week which may be used to enter the contest.

The new store is located in the Crager building, two doors north of the Plains Theatre. It is air-conditioned and has been completely redecorated and re-arranged to provide suitable quarters.

Bank Will Move To Allow Installation Of New Fixtures

The First National Bank in Lockney will move their working force and office fixtures into the building just back of the present bank building this week end in order to make room for the installation of new fixtures in the bank, it was announced this week by Chester Beardsley, cashier.

The new fixtures have been ordered for some two months and the work of installing them will begin the first of next week. The bank building will be remodeled also.

Meanwhile the bank will carry on with business as usual in the west end of the building next door to Bill's Cafe. Although the temporary quarters will be somewhat crowded, the personnel expect to be able to take care of the bank's patrons as usual.

Completion of the work is expected about August 15 when the bank will move back into their usual quarters.

Mr. and Mrs. Boyce Kenady attended the Saturday night session of the Stamford rodeo. They also visited Mr. and Mrs. Ed Sprowls in Apsan and Mr. and Mrs. R. L. Foote in Haskell. They returned home Sunday.

Kenneth Don Hill Shows Improvement

Letters received here this week from Mr. and Mrs. James Hill state that their son, Kenneth Don, who is a victim of leukemia, is showing slight improvement they believe.

The boy is under treatment in the John Sealy Hospital at Galveston and has been treated with a recently discovered drug which is believed to be beneficial to leukemia victims. However, since it is still in the experimental stage definite results cannot be foretold.

The letters state that "Kenneth Don is feeling better and we believe that the new drug has helped him." He is reported as looking good. He has been given two blood transfusions. It will probably be some time yet before definite results can be told, it was said.

Another little boy suffering with the same disease and given the same treatment prior to Kenneth's admission to the hospital there, has improved to the extent he is expecting to go home, the Hills report.

James Hill, the boy's father, has obtained employment in a shipyard (Continued on back page)

Mr. and Mrs. Dagley Are Improving

Mr. and Mrs. J. L. Dagley, both of whom were injured when their car turned over near Benjamin two weeks ago are improving reports reaching here state.

Mrs. Dagley is still confined to her bed in the Knox City Hospital at Knox City, but Mr. Dagley has gone to the home of his daughter in Weatherford to complete his recuperation. Mail may be addressed to Mrs. Dagley in care of the above mentioned Hospital.

W. E. (Bill) Taack Claimed By Death

Another Floyd County pioneer and early settler passed away last Saturday night when W. E. (Bill) Taack succumbed to a heart attack at a Wichita Falls hospital. Mr. and Mrs. Taack had been to Temple where he underwent examination at Scott & White clinic. They returned by way of Wichita Falls to visit a son, Ben Taack, and family, and while there decided to go through the clinic. He was stricken about 10 p. m. Saturday and lived only a short time.

Mr. Taack was born in Cullman, Alabama, on March 7, 1878, the son of Mr. and Mrs. H. C. Taack. When he was 18 years old, he moved with his parents to Johnson County, Texas. About four years later they moved to Young County and it was while living in Young County that he met and married Miss Josie Dieter on January 25, 1903. Their first home in Olney was blessed with two children, Walter and Lilly May.

In 1907 they moved to a farm near Tulla and then moved on to Castro County in 1908. A daughter, Ruby, was born to the couple in Castro County.

In the fall of 1910 Mr. and Mrs. Taack and their children moved to a farm in the Erick community near Lockney where they made their home until just recently. Two other children, Ben and Alene, were born after they moved here.

Since 1944 Mr. and Mrs. Taack have lived at intervals in Plainview and on their home place. Mr. Taack became a member of the Church of Christ in 1918 and has worshipped with that church since that time.

One child, Ruby, preceded her father in death on September 6, 1922.

Funeral services were held at the Main Street Church of Christ in Lockney Sunday afternoon at 3 o'clock conducted by Jay W. Channell and Liff Sanders. Interment was in Plainview cemetery. Carter Funeral Home of Lockney had charge of arrangements.

Survivors include, four children, Walter Taack and Mrs. Wallace Allen, who both live in the Erick community southwest of Lockney; Mrs. D. H. Street, Amarillo, Ben Taack of Wichita Falls; seven brothers, H. C. Taack of Hereford, H. E. Taack of Slaton, C. J. Taack of New Castle, G. B. Taack of Wichita Falls, J. H. Taack of Morton, A. H. Taack of Roswell, and Ernest Taack of Estancia, N. M.; four sisters, Mrs. Fletch Foreman of Idalou, Mrs. H. A. Black of Idalou, Mrs. S. O. Wall of Idalou, and Mrs. Annie Martin of Mercedes, Calif. Six grandchildren and a host of other relatives and friends also survive.

Lockney Will Be Publicized On Radio

We hope to give Lockney some publicity on the air waves Sunday morning when Ye Editor is scheduled to appear on the Home Town Editor's program over KGNC, Amarillo. An invitation was received this week from Louis Nordyke, the program's M. C.

The program is heard at 8:15 a. m. Sunday and many editors of weekly papers in West Texas have already appeared on the program.

BARBER MOVES HERE

Floyd Daniel, employed as a barber at the Longhorn Barber Shop here, has moved his family to Lockney and they are living in the east part of town near the city auditorium. Mr. and Mrs. Daniel have two boys and one girl. They moved here from Santo, Texas.

Plans Being Completed For Hospital Dedication

Plans were being completed this week for the dedication service and celebration marking the completion of the Floyd County Co-Operative Hospital building here which is set for Thursday of next week, July 15.

The program of the day will start at 2 p. m. with a free show at the Plains Theatre, which is sponsoring a performance by Cecil Hunter, known as "Stuttering Sam", who is a radio star and well known entertainer in this area, also accordion solos by Mrs. Fred Huggins and Miss Joyce Carthel, a performance by the Lockney High School Band, which in the absence of George Atwood, will be led by Clyde Haden, director the past year of the Floydada High School band, and possibly other entertainment.

At 6 p. m. a big free barbecue is planned to be held at the American Legion home here. The Lockney Business Men's Club, who are sponsoring the event, will furnish the beef, bread and coffee for this occasion. The ladies of this area are requested to bring pies, cakes, pickles, onions, etc. to fill out the menu for the barbecue.

According to tentative plans the dedication service will be held beginning at 7:30 or 8:00 o'clock in the area just west of the hospital building. Seats will be arranged there to take care of 500 people with room left for many cars to park within hearing distance.

Speaker for this occasion has not been selected. Definite arrangements concerning this will probably be made Friday. The dedication service will include songs, by the Lockney Rotary Club quartet, a brief history of the hospital, introduction of the hospital staff and also out of town visitors.

The nearly completed hospital building will be open for inspection during the entire afternoon and evening. Visitors are requested to inspect it either during the afternoon, between the barbecue and the dedication service or after the dedication service is over.

The free show at the Plains Theatre Thursday afternoon will be "13 Lead Soldiers," a Bulldog Drummond detective story starring Tom Conway. Selected short subjects will round out the show. The show will begin about 2 p. m.

A number of out of town guests are to be given special invitations to attend the dedication, it was said.

Business houses of Lockney will probably close at an early hour Thursday in order to enjoy the program of the day, it was indicated this week. Many of them will be offering special prices also on that day.

Mrs. Elizabeth Sterbe, Mr. and Mrs. Frazier of Oklahoma and Loyal Frazier of New York spent last weekend in the V. E. Spears home. Loyal Frazier is an instructor of Ceramic Art school in New York. While here they also visited Rev. and Mrs. R. H. Campbell, Mrs. Frazier and Mrs. Campbell taught school together during World War I in Carmon, Oklahoma.

THE CENTER OF COOL SUMMER MENUS

You'll never know what a pleasure the preparation of summer meals can be until you've got an electric refrigerator.

There's nothing like a crisp, refreshing salad or cool, flavorful dessert to make a summer meal successful, and there's nothing like an electric refrigerator to make those tasty dishes stand out on your menus.

Now, before the full summer heat is here, see your appliance dealer and make arrangements to have a dependable electric refrigerator in your kitchen. You'll love it... and so will your family.

And remember... electric service is cheaper than ever before.

TOMORROW'S BRIDGE

Grace Noll Crowell

TOMORROW'S bridge as I look ahead
Is a rickety thing to view.
Its piers are crumpled, its rails are down,
Its floor would let me through.

The chains it spans to deck and deep,
And the wares team and tow,
I have crossed this bridge a thousand times
Though I never have reached a jet.

It has crashed beneath me to let me through,
Although it is miles away,
But strange, the bridges that I have crossed
Have all been safe today.

Perhaps I shall find when I reach that one
That lies on the distant shore,
Some hand may have mended its rickety floor
And its piers may be strong and new.

Adams Will Be Here Wednesday

Elliott W. Adams, Social Security Administration Representative, will be in Lockney, at 9:00 a. m. at the U. S. Post Office, on July 14, for the purpose of answering any questions you may have on social security; discussing possible benefit and taking claims from persons who seem to be entitled to benefits; and taking applications for social security account number cards.

In order to make sure your survivors receive benefits promptly in case of your death, you should: Be sure your wife or closest relative knows where your Social Security card is; tell her to take it to the nearest Social Security Administration office in the event of your death; make sure she always knows the name and address of your employers for six to nine months back. A certified copy of your marriage license and birth or baptismal certificates for each child under 18 is also important.

Move In Tanks For Carmichael Small Producer

With reports extant that location for Carmichael No. 2 oil test in south-west Floyd county has been made by General American Oil company storage had been moved in this week for the county's first producer, Carmichael No. 1. It is being finished to put into production. Total depth of this well is 6055 feet. Depth at which oil is produced was not indicated exactly.

In A. F. Byrd No. 1, in the southeast corner of Hale county, adjacent to Petersburg, the pool opener, a crew is working to cut off salt water that is mixing from another horizon with the oil. This well hit granite at 6755 feet when originally drilled and abandoned by Humble Oil & Refining company. The oil is being produced from a depth slightly less than 6,000 feet.

A pit has been dug for A. F. Byrd No. 3 which will be slightly north and east of the No. 1 test on the tract. Apparently it is not a "location" distant

from the Byrd producer. Rig had not been set at the location as late as Tuesday afternoon.

Strickler Test 7632 Feet

On the Crump lands, the test known as Strickler No. 1, on Section No. 19, Block K, was bottomed at 7,632 feet Tuesday afternoon. J. M. Massie, of W. M. Massie & Bros., who have represented these land owners for a number of years, understands this well is projected to 8,000 or more feet unless oil or granite is hit at a lesser depth.

U.S. Women Give Twin Beds the 'Cold Shoulder'

NEW YORK.—Twin beds are disappearing from the American scene because women dread a cold bed when they retire at night.

Norman S. Dine, who has helped thousands of sheep-counters with the soporific gadgets he sells at the Lewis and Conger Sleep shop, says women always have had the good sense to prefer double beds.

"During my 15 years of selling sleeping accessories and advice," he said, "they confided in me. They said they liked a double bed because sleeping beside a man was reassuring and restful."

Many dreaded a cold bed and others, Dine said, claimed it was their only chance to talk to their husbands.

"Practically all agreed it improved the chance for domestic harmony."

But, Dine said, the males couldn't see it that way. They insisted upon their privacy.

Men Are Individualists

They argued that in a double bed they couldn't retain their individualism. And all of them, according to Dine, wanted to be able to sprawl over the entire bed.

"So even though a sampling survey showed that men could sleep sounder in a double bed," Dine recounted, "we had to resort to subterfuge to lure them into one."

The subterfuge took the form of three devices, all of which will go down in history alongside Dine's 600 other sleep-time inventions. They were dreamed up to give the woman back her partner while letting the man retain his rights.

The first device, Dine said, is a bundle bed. This has a gadget that can be thrown down the middle of the mattress, fencing off the partners. That, he pointed out, keeps the partners from poaching on each other's territory.

The second gadget is a mattress with a hard set of coils in the center. This is to discourage either partner from rolling into the center of the bed.

The third is an electric blanket with a cold zone in the center to keep either partner from grabbing more than his half.

Gadgets Aid Sleep

Dine's unique sleep shop has some other gadgets to help you snooze. He offers a lullaphone that lulls the wide-awake person to sleep with its drowsy, steady tone; a head-warmer for bald scalps sensitive to cold and a singing pillow equipped with radio earphones.

Among the patrons of the world's only sleep shop are such notables as

'Uncle Sam Says'

As you drive along the country roads you will see one of America's most familiar scenes — farmers pitching hay. From this scene has come a phrase you have used many, many times — making hay while the sun shines. Well, nice and nephew, that's exactly what you are doing when you stack up United States Savings Bonds. You're making plenty of future security when the going is good, when a few extra dollars has been added to your take-home pay through the new income tax law . . . and when you should be acting for your future security.

Doctor Reports New Drug Which Arrests Leukemia

BOSTON.—Development of a new drug credited with arresting acute leukemia in children was reported by Dr. Sidney Farber, pathologist-in-chief of the Boston children's hospital.

Dr. Farber said the drug, aminopterin, had been tested at the hospital for several months. In that time, it had caused "repeated remissions" of the white blood count in 11 children stricken with leukemia, he said.

He warned against "false hope," asserting further study and research was required.

The tests, however, marked the first time doctors had been able to reduce the white blood count more than once, Dr. Farber declared.

Fifteen young leukemia victims were subjected to the tests. Eight of them showed great improvement and three some improvement. Three of the remaining four died. The fourth showed no improvement. Dr. Farber said, however, that these four were too seriously ill to be treated fully.

He said present results represented a definite "step in the right direction." The disease is usually fatal.

Russians Fail to Wipe Out U. S.; Women Sue "Prophet"

LOS ANGELES.—Joe Jeffers, founder of the Temple of Yahweh, is accused in a damage suit of telling his flock the Russians would bomb the United States in 1947 and kill everyone but them.

Jeffers' accusers, Mrs. Anna Lee and Mrs. Caroline Brunell of Los Angeles, seek \$12,857 damages, saying his story led them to part with valuable property.

They say that Jeffers, now serving time in McNeil Island federal prison for auto theft, represented to his congregation that they would move into the White House and that he would rule the United States as the "King of Kings."

The plaintiffs allege they were told they would be "queens under the new order, wearing diamond-studded crowns."

They also said Jeffers told them the "flying saucers" seen in the skies were weapons manned by Japanese.

True Stories Of West Texans

THE DEATH OF BILLY THE KID

Billy the Kid was on the loose again. He had killed two guards and shot his way out of the Lincoln county, N. M., jail just two days before his scheduled execution. The cattlemen of the Texas plains grew grim as they heard the news and gave detailed instructions to their line riders. They knew their stock would begin disappearing again.

Sheriff Pat Garrett of Lincoln figured that the Kid had skipped the country and was laying low in Old Mexico. But John William Poe, former buffalo hunter of the Fort Griffin country but present special detective for the Canadian Cattlemen's Association of the Texas Panhandle, had received a tip to the contrary.

"He is over at Fort Sumner hiding in his 'querida's' house," whispered Quinn, his informant.

And Poe decided that Quinn was right. The Kid would be among Mexican friends in Sumner and the nearby town of White Oaks; most of the few American residents were of undesirable character and also in sympathy with the young outlaw.

Inducing Sheriff Pat Garrett and Deputy Kip McKinney of Roswell to accompany him, the three entered Sumner, the abandoned Army post, by separate and circuitous routes. It was in July of 1881. The suspected house was watched but no Kid appeared.

"It's not quite midnight. Let's call on Pete Maxwell, a big sheepman here. Perhaps he will know if the Kid is around," Garrett suggested.

Leaving the other two on the long porch, Garrett stepped inside to Maxwell's adjoining bedroom. Almost immediately another man slipped softly from the shadows towards the two on the porch. He was within arm's length of Poe before he saw them. Like a flash he sprang upon the veranda. Whipping out his six shooter and covering the men.

"Quien es? Who is it?" he demanded. But instead of shooting he backed into the open doorway of Maxwell's bedroom. Neither man had reached for his gun and so death passed them by.

A moment later two shots rang out within and Pat Garrett rushed out onto the veranda.

"I killed the Kid!" he blurted. "I killed the Kid!"

And indeed it was the Kid. Sheriff Garrett had recognized his voice in semi-dark and shot instantly.

The following day, July 15, 1881, William H. Bonney of the New York slums, commonly known as Billy the Kid in the western cow country, was buried beside two of his cronies in the old military cemetery of Fort Sumner. As leader of an organized band of desperadoes who had also become proficient as cattle rustlers and horse thieves, the Kid was said to have killed a man for each of his own 21 years of life.

Refueling of B-29's In Flight Is Only Matter of Minutes

WASHINGTON.—Using a new high-speed method developed by the air force, B-29's, on their way to long distant targets now can refuel in the air within a few minutes.

This range-stretching technique for the big war planes was hinted at by Air Secretary W. Stuart Symington before the senate armed services committee. He said B-29's utilizing the "most modern development" of the old airborne refueling system could, for example, bomb any part of Russia from bases in Alaska or Labrador. He made no further explanation, but said bombing units of the air force would have the new equipment by the first of next year.

Other authorities indicated that tests already have been made with completely satisfactory results.

While declining to disclose the exact speed with which transfer of gasoline from a tanker plane to a bomber is made under the USAF method, one expert said:

"British fliers have developed a method of pumping gasoline from one plane to another at a rate of about 100 gallons a minute. USAF technique and equipment is designed to accomplish several times such speed."

This indicated that a B-29 could take on virtually a full load of gasoline in perhaps 15 minutes.

Speed is of paramount importance under wartime conditions. During fuel transfer, a bomber would be highly vulnerable to attack by enemy fighter planes. The faster the fuel is loaded, the less the time of danger.

With a five-ton bomb load and using only the normal built-in tanks a B-29 fuels with about 5,500 gallons for an ordinary 12 hours of flying to a target, dropping bombs and reaching a friendly base. With extra tanks mounted in an unused bomb-bay, the fuel load can be increased to about 6,700 gallons.

Future of the War Assets Administration's disposal activities became clearer this week as the result of passage and approval of a congressional measure authorizing continued operation of the agency till February 28, 1948, when it is to be dissolved. The organization in Texas and the southwest will continue to contract as remaining surplus shrink and emphasis will be placed on the sale and lease of approximately \$800,000,000 in government owned surplus realty still held within the region. Quick-moving clean-up sales of remaining personal property valued in the neighborhood of twenty million dollars will be held during the summer months as the agency pushes its program of freeing the government of extensive warehousing and maintenance costs.

Two sales of surplus materials, both ending July 9, will highlight coming disposals in the region. A million

dollar inventory of many types of goods ranging from autos to machine tools to fountain pens will go on the high bid block at the Houston Disposal Center, 6, 4600 Clinton Drive. Materials are arranged in bid lots at six Houston locations, with inspection continuing until sale time. This clearance is believed to be one of WAA's last big operations. In the New Orleans area, the public is invited to bid on machine tools and industrial equipment costing \$300,000 located at the Consolidated Vultee plant, where the sale will be conducted, and the Higgins Aircraft plant at Michoud, Louisiana.

A tally of property rushed to the ravaged area of the Pacific Northwest

revealed this week that \$85,194.24 worth of surplus housing materials have been shipped from points in the southwest. One hundred house trailers, furniture, household items and plumbing supplies were released by WAA under its national disaster program. Supplies were rounded up at Dallas, San Antonio and Amarillo.

War Assets Administration is entering its closing cycle of surplus building clearances in the southwest. In Texas, this means that the last roundup of buildings available to the general public for offsite use is taking place during July. At Camp Bowie, near Brownwood, 225 structures are being offered first to priority groups then to the public on a sealed bid basis. Bid forms on these buildings will be furnished all non-priority purchasers beginning July 26. The structures will include administration buildings, hutments, mess halls, barracks and many other types. Inquiries should be directed to WAA's Grand Prairie office of Real Property Disposal.

Assorted electrical and utility supplies at two Texas installations are being placed on the market this month. At the Big Spring Army Air Field water and electric utilities now serving Howard County Junior College are up for disposal. A more varied list of materials is included in a 66 KV electrical transmission line to be removed by the purchaser from the Lone Star Ordnance plant near Texarkana. Information and bid forms will be available both to priority groups and the public at the regional WAA office.

A Dallas firm, Rudy Prins and Company, received the first lump sum

contract award for protection and maintenance of government installation to be made in the southwest region. Heretofore, War Assets has been paying contractors for management of government property on a fixed fee, cost plus basis. The new arrangement is calculated to cut future maintenance costs very considerably over a period of time. The contract was for the Oklahoma Ordnance Works, at Choctaw, one of the major government operated sites of the region.

Mr. and Mrs. Kin Anderson and family and Mr. and Mrs. Clinton Barrett of Fort Worth returned home Monday after spending the week end with Mrs. C. P. McPherson and family and Mr. and Mrs. Joe Anderson and family.

Mr. and Mrs. Robert Willard McCollum and daughter, Sidney Ann of Lubbock ate Sunday dinner here with his mother, Mrs. Elizabeth McCollum.

Mr. and Mrs. Don Griffith, Mr. and Mrs. Melvin Griffith and girls, and Mr. and Mrs. Archie Bybee and son attended the funeral of their uncle, Bill Brown at Portales, N. M., on July 4.

Mrs. Willard Carver, Eba Ray Strong and Secretary of the Mexican Consulate Victor Romero visited Mrs. Elizabeth McCollum the past week end.

Soil Conservation District News

The supervisors of the Floyd County Soil Conservation District held their regular monthly meeting July 6 at 10 A. M. at the Agriculture building.

Conservation plans between the district and the following cooperators were approved. Delbur Rose, D. J. Phillips, W. C. Price, L. A. Doyle, (manager of Baptist Camp grounds) C. W. Bond and A. G. Eubanks.

The supervisors approved applications for assistance on the following farms: Riley Teague, Clyde Whitlock, J. M. Tye, Bruce Whitlock, A. B. & R. W. Meriwether, A. G. Eubanks, Glad Snodgrass and George Graham.

One of the main topics for discussion at this meeting was the blow condition that is developing in this area. Mr. Dunlap, chairman of the board of supervisors, pointed out that with 10% of the land in any given area without sufficient cover to protect it against wind erosion, that conditions are then right for another dust bowl. With the increase in cotton acreage this year and the other land that will not raise sufficient cover to protect it this next spring the acreage subject to blowing will be high enough to present a blow problem as this acreage will exceed 10% of the cultivated acreage. The time to prepare against the land blowing is during the growing season preceding the expected blow season. Crop residue left on or near the surface and cover crops in addition to the regular seeded winter growing crops are recommended by the supervisors as measures to take to prevent the blow condition from developing.

The Soil Conservation Service technicians assigned to the District ran contour guide lines for A. G. Eubanks. He expects to plant his sorghum on the contour. His field lost a lot of water during a recent rain.

The field crew ran some ditch lines and gave row directions to E. W. Turner south of Floydada last week.

The District Engineer and Work Unit Conservationist were below the Caprock during the past week. They observed some good crops growing on terraces that were completed this past winter and spring on Hayden Boggs, L. D. Gilbert and Wayne Pigg farms. Some recent water erosion was noticed on other farms that were not terraced.

Pro Gridsters Get Ready At Tech

LUBBOCK—The football field at Texas Technological college has been turned into a conditioning camp for professional gridiron players.

Four former Red Raider lettermen daily are running and tossing a football around as they get in shape before reporting to training camps of professional teams. They are Walter Schlinkman of Dumas, Ralph Earhart of Lefors, Roland Nabors of Lubbock, and Bernie Winkler of Temple. Joe Smith of Electra, a fifth Techman under pro contract, is expected to join the group soon.

Schlinkman for the past two years has been a fullback for the Green Bay Packers, and last season was placed on the second National Pro league team. Earhart recently signed with Green Bay as a halfback and will be trying out this summer.

Nabors, a center, will report early next month to the New York Yankees of the All-American league. He received All-America mention with Texas Tech the past two seasons.

Winkler was signed with the Los Angeles Dons of the All-American circuit, while Smith will seek a place on the Baltimore Colt eleven of the same league.

WORLD MOVES TO IRE'S DOOR. . . All kinds of people have scratched their heads industriously in an effort to find any latent symbolism in this picture of a moving man carrying a globe into the New York home which Gen. Dwight D. Eisenhower and his wife will occupy when he assumes his duties as president of Columbia university. But, withal, it remains just a picture of a man carrying a globe into like a new abode.

Floyd Lawhorn, signed with the Washington Redskins of the National league, is working out at his home in Temple. Bull Rankin, Plainview, is a member of the Chicago Cardinals of the National league, a seventh former Red Raider in pro ranks.

Roy Patterson spent Tuesday in Amarillo on business.

Mrs. Forrest Robbins of Athens, Texas is here visiting her mother, Mrs. J. M. Harder in the home of Mrs. George Webster Sr. Mrs. Harder is convalescing from an injury.

Mr. and Mrs. J. B. Seale and daughter, Velma, accompanied by Miss Joy Gavin of Abernathy, spent Monday in Dimmitt.

HAGER TO CELEBRATE BIRTHDAY WITH SINGING

J. D. Hager, local man-about-town and perennial Lockney booster, is having a birthday. Next Tuesday he will be 76 years old (or young) and to celebrate the event he is having a birthday singing at his home in West Lockney. The singing will start at about 8:30 and coffee and cake will be served. D. L. Hall, president of the Fourth Sunday Singing Convention will be present to lead the singing, Mr. Hager said.

All his friends are invited to come. Mr. Hager said, and those who aren't his friends are urged to come and be friends he said.

Mr. and Mrs. R. C. Patton and children of La Junta, Colorado spent Wednesday night in the home of Mr. and Mrs. Boyce Kenady and Grandmother Harper. Mr. Patton is a nephew of the late General Geo. Patton. On Thursday the Colorado visitors were accompanied to Jayton by the Kenadys to attend the funeral of Kenneth Davis, serviceman, whose body was returned from overseas.

Like Grandma

Looking like the quaint Victorian fashions Grandma wore when she was a girl, this ruffled corduroy redingote worn by 7-year-old Maureen Mooney, of Dallas, is the latest vogue for 1948 youngsters. It will be among the new fall and winter styles for grownups and children to be shown at the American Fashion Association meeting in Dallas Aug. 1 to 5. Three thousand visitors from over the country will attend the association's five-day exhibit. Maureen's new frock was made by fashion designer Jean Durain, of California.

Shrubs And Trees Need Extra Water

COLLEGE STATION—"Native shrubs and trees which have been set out within the past two years will need extra moisture until they have grown good roots, so give them water during the hot, dry summer months."

This advice comes from Sadie Hatfield, extension landscape gardening specialist of Texas A. & M. College. She says that experience with the transplanting of native shrubbery has shown that the first two years after setting out the plants is the most critical period—after that, they are hardy enough to withstand normal weather conditions.

Contours and small terraces to catch and hold water after every rain will help to keep the soil moist. Shallow cultivation will also help. The use of mulch is an excellent way to hold moisture around trees and shrubs.

Among the good mulches to be found around farm and ranch homes, Miss Hatfield says, are decayed leaves, grass clippings, decayed wheat or oat straw, decayed hay or barnyard fertilizer. Place the mulch two or more inches deep.

An inch or two of sand is sometimes used on tight soils. When the sand or mulch, or both, are worked into the soil next year, they will improve the soil's water-holding capacity.

The growth of favorite flowers, shrubs and trees often can be helped by removing other plants which take up the moisture.

Miss Hatfield points out that a light watering does more harm than good, as it causes roots to grow near the top of the soil. A good, slow watering once a week, giving the moisture a chance to soak several inches into the ground, is much better than a light watering every day.

Help Them Cleanse the Blood of Harmful Body Waste

Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.

Symptoms may be nagging backache, persistent headache, attacks of dizziness, swelling up night, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

DOAN'S PILLS

Tips On Insect Control

By Leila Petty

An early start on insects is half the fight.

Sucking insects are killed only when hit with poison. Both sides of leaves must be covered thoroughly. In general, repeated applications are necessary at 5-7 day intervals as long as needed.

If leaves have holes in them chewing insects are causing this damage. Use either rotenone, cryolite, lead or calcium arsenate to control chewing insects.

If leaves are yellow or brown sucking insects have probably sucked the juices from the leaves. Use rotenone,

pyrethrum, lethane, or black leaf 40 to control sucking insects.

A 75% to 1% rotenone dust will give satisfactory control of most insects (chewing and sucking) in the garden if used properly. It is one of the few insecticides not poisonous to people.

Load the dust gun with a generous supply of sabadilla and get the squash bugs that will get the late planted squash if you don't hit them every 5 to 7 days. Sabadilla is effective against all hard-shelled bugs.

Polio Hits New High In Texas

AUSTIN, Texas—Reported cases of polio in sixty-five Texas counties reached the alarming total of 589 during the first six months of the year, according to Dr. George W. Cox, State Health Officer. For the same period in 1946, the total number of cases reported in sixty-five counties of the state was only 292.

"This staggering increase in polio in a brief two year period evidences a need for drastic measures in all communities to combat the disease," Dr. Cox asserted. "It is the responsibility of the people of the State to report themselves to their doctors whenever they recognize symptoms of polio. It is also their duty to give wholehearted co-operation to clean-up drives in their communities."

Dr. Cox urged immediate attention, especially at this time of year, for such things as headaches, fever, stiff neck, pain in the legs, irritability and drowsiness. These, the health officer stated, are symptoms of polio. "It is well to guard against panic in polio cases," he said, "for complete recovery is not impossible. Even in the more severe cases, when the germ has penetrated the nervous system causing paralysis of one or more groups of muscles, some remarkable recoveries have been made."

Dr. Cox indicated his belief that the first line of defense against polio is a carefully conceived and thoroughly executed clean-up campaign in all communities.

"Local police power should make such clean-ups mandatory," he said.

"WHITEY" BACCUS Is Showing

SEE IT AT OUR SHOWROOMS NOW!

The '49 Ford

Deep, wide seats, with plenty of hip and elbow room for 3 BIG people. Front seat 57", rear seat a full 60" wide!

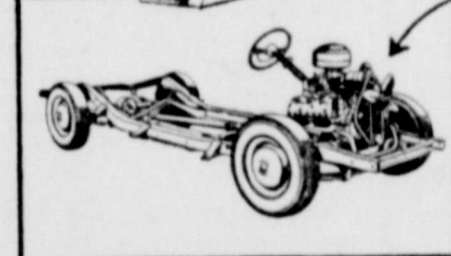

The Car of the Year!

"NEW FROM THE GROUND UP"

- NEW safe, strong box-section frame
- NEW "Hydra-Coil" Front Springs
- NEW "Para-Flex" Rear Springs
- NEW "Deep Breath" Manifolding
- NEW Top-Side distributor mount
- NEW Lubrication System
- NEW "Equa-Flow" Cooling
- NEW Overdrive, optional at extra cost

If you haven't seen the '49 Ford in person you know you're missing a real thrill! It's new, from roof to road, from bumper to bumper, with features you've been looking for a long, long time.

It's the finest Ford we dealers have ever sold, and when you see it, you'll agree with us that it's "The Car of the Year". The '49 Ford is here in our showroom. You owe it to yourself to come and see it.

It's got the New "Lifeguard" Body...

That "Lifeguard" body and frame structure is 59% stronger for safety. Lower too, with a "dream-car" silhouette!

You Get the New "Mid Ship" Ride...

You travel in the level center section of Ford's "Lounge Car" interior where the going's smoothest!

Street Cleaning Resumed Tuesday

The work of keeping the streets in the business district was resumed Tuesday of this week when J. C. Speights accepted the position and began work. The work had not been done for the past month due to the fact that J. D. Hager, who formerly held the job, was forced to give it up on account of his health.

Mr. Speights has lived at Lockney about a year. He lives in the former J. R. Graham home in south Lockney.
